GOVERNMENT WEATHER REPORT.

WASHINGTON, Feb. 1.—The following is the monthly crop report issued by the Agricultural Department:

January, 1904, was unusually mild in the Upper Mississippi Valley and in the Northern Rocky Mountain and North Pacific Coast districts, but decidedly cold east of the Mississippi River, with generally deficient precipitation, though enough snow area extending from Oklahoma to Southern New England, Northern Florida, and a few other limited areas received more than the average.

Over the southern portions of the Winter Wheat belt Winter Wheat was largely without snow protection until near the close of the month, when the Northern, Central and Eastern portions were well covered. In the Lower Mississippi and Tennessee Valleys of the Ohio and Central Mississippi Valleys the crop suffered as a result of protracted cold and absence of snow covering during a large part of the month

ILLINOIS CROP REPORT.

SPRINGFIELD Feb 1—The Illinois crop bulletin for January, issued to-day, says: Great vicissitudes of weather were experienced during the month. The average temperature was considerably below and the precipitation, mostly in the form of snow, well distributed. It measured in excess of the seasonal average.

Wheat and Rye in the central and northern districts are in normal condition for winter conditions. In the principal Wheat-growing section, the southern district, the crop is very uneven, suffering from adverse fall conditions.

Corn 13 per cent. Marketed freely, a considerable proportion not having been dried out. High grade Corn will be scarce.

Pastures and stock well protected. The healthy condition of Live Stock is generally remarked Conflicting reports have been received with regard to injury by cold to Fruit trees, but they do not indicate a crop durable loss

THE WEATHER CONDITIONS.

The weather map shows light snows in Minnesota, Iowa and Illinois Northwest and Western temperatures below zero. It is mildest in the Southwest. There is no precipitation in Kansas, Missouri or Oklahoma.

Temperatures will rise in the Northwest, but will fall decidedly in Central Valleys and Western lake region.

The financial statement of the Illinois Brick Company submitted to the stockholders Monday, consisted, as usual, in a balance sheet, of the date of Dec. 31, 1903. It showed a gain in surplus of $170,939, which is taken to be the net earnings for the year. These amount to 17.27 per cent on the $1,000,000 preferred stock, much the poorest showing yet made by the company

There is some talk of the probability of listing on the Chicago Stock Exchange the stocks of the Michigan State Telephone Company, which is to succeed the Michigan Telephone Company. A meeting of the latter company's securities will be held in Chicago, and it is thought a new stock market could be made for the securities in Chicago.

It is considered by some significant that the United States Steel Corporation was the moving spirit in the organization of the Canadian Industry of the Republic Iron and Steel, Tennessee Coal, Iron and Railroad, and Sloss-Sheffield Steel and Iron companies, says the Boston *Herald* Mary, Vice-President James Gayley and William Eandolph, a director of the United States Steel Corporation, were, it is asserted, largely instrumental in bringing about the negotiations

The main details of the reorganization plan of the Michigan Telephone Company are set forth in a printed plan, which has been sent to all of the bondholders. It provides that $2,000,000 more is taken over by the bondholders, who, in connection with raising the additional money necessary to provide for improvements, receive all of the securities of the new company, subscribing at reasonable compensation to the bondholders' committee and underwriting syndicate, which is paid in common stock.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Documentary Sterling easier at 482¼.

Chicago Bank Clearings to day, $27,539,660.

Temperature in Chicago at 7 A. M. to-day was 5° above.

Estimated receipts for to-morrow are: Wheat, 20 cars; Corn, 235 cars; Oats 90 cars; Hogs, 31,000.

Reported that 56,000 bu Wheat and 120,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 13,700 Hogs to-day; shippers 6,500; left over, 11,000. The market closed with most of the advance lost.

The Bank of England to-day sold $2,750,000 Gold to Argentina, and $50,000 to Portugal. The bank bought $1,045,000 bar Gold in the open market.

Receipts of Grain at Omaha to-day were as follows: Wheat, 11 cars; Corn, 34 cars; Oats, 15 cars. Shipments—Wheat, 7 cars; Corn, 18 cars; Oats, 10 cars.

The Milwaukee Flour production for the month of January was 130 875 brls, against 153,050 brls in the corresponding month last year, and 183,450 brls in 1902.

Directors of the Diamond Match Company have declared regular quarterly dividend of 2½ per cent, payable March 12. Books close Feb. 27, and reopen March 13.

Average cost price of Hogs at Chicago, Tuesday, was $4 75, against $4 72 Monday, $5 03 a week ago, and $6 67 a year ago. Average cost the first two days this week, $4 74, against $5 03 a week ago and $6 64 a year ago.

It is claimed that the South will seed a larger area of Cotton this year, and Provision dealers in that quarter have made liberal contracts for Meats for future delivery in anticipation of an increased trade.

Memberships in the New York Cotton Exchange have advanced to $10,000 bid. In New Orleans they are $5,0 0. New York Coffee Exchange memberships are $4,000, while within two years they have sold at $600.

Chicago, Kansas City, Omaha, St. Louis, St. Joseph and Sioux City received 683,505 Cattle, 1,685,151 Hogs, and 673 8,8 Sheep last month, showing an increase of 33,000 Cattle, 123,531 Hogs, and 70,850 Sheep as compared with January, 1903.

An amendment to the rules has been prepared by the Directors of the Chicago Board of Trade providing for the delivery of No. 1 and No. 2 Hard Winter Wheat on contracts for future delivery at a penalty of 5c, to be delivered on and after July 1, 1904.

The death of EDWARD A. LORD, Esq., of the firm of Edward A. Lord & Son, was announced on 'Change to-day. He was connected with the Grain shipping interest of the Board of Trade for many years, and well known in business circles of the Eastern and Middle States.

The visible supply of Cotton in Great Britain on Jan 29 was 722,0 0 bales, as compared with 673,000 bales in 1903, 998,000 bales in 1902 and 759,000 bales in 1901. The total Continental stocks amounted to 702,000 bales, against 480,000 bales in 1903, 544,000 bales in 1902 and 403,000 bales in 1901.

The Omaha Grain Exchange began business, Monday. A hundred brokers were present when President Wattles made a brief address and offered the first lot of Grain for sale. The trading during the session was active, over 700,000 bu for future delivery changing hands, and 191 cars of the cash article being disposed of.

Local Securities were slow and irregular, reflecting the weakness in New York. The declines, however, were mostly small, except the loss of 1 point in Can preferred, ½ in Pneumatic Tool and ½ on Quaker Oats common. Diamond Match gained ⅜ and lost it after its statement appeared showing decreased earnings.

In the New York Cotton market extreme nervousness prevailed, due to the wild fluctuations yesterday. The opening was easy, reflecting a break in Liverpool. Unfavorable news from the far East also had an unfavorable effect. A rush to sell carried prices off 60 to 80 points early, there being heavy selling on stop orders. A rally followed, and the close was at losses 25@32 points.

New Orleans is to start trading in future deliveries of Grain within thirty days. The Board of Trade assumed charge of the inspection of Grain there Feb. 1. W. L. Richeson, formerly chief Grain inspector of the New Orleans Maritime and Merchants' Exchange, occupies the same position under the new regulations. A department to supervise the weighing of Grain is also to be started.

United States Treasurer, Secretary Shaw said to-day, that the withdrawal of Government funds from the National banks would be largely a matter of bookkeeping and will not involve a depletion of cash. The money is to be collected in New York and drawn to the credit of J P. Morgan & Co., who will distribute the major portion of it. Only about $2 000,000 in cash will cross the Continent, and less than $5,000,000 will go out of the country.

Wall Street had a "bear" day. There was a renewal of the war talk from the far East, and the death of former Secretary of the Navy Whitney had a depressing effect, the latter's holdings in the various corporations being $25,000,000. This lead to nervousness and general selling. The most important declines were 2½ to 2¾ in Tractions and ⅝ to 1¾ in Railway shares. Industrials were also affected but showed irregularity. Copper advanced ⅜, but later showed a loss of ½. Realty preferred advanced 1 point. Money 1¾@2 per cent.

A New York dispatch says: "The Standard Oil banks are wrought up over the fact that the Government is about to withdraw one third of its deposits with them to meet Panama Canal payments due as soon as the treaty shall have been ratified. The Government will have to pay out $50,000,000. There are about $150,000,000 of Government deposits in National Banks. Secretary Shaw plans a call for 20 per cent of this sum Feb 12. This will bring in $30,000,000. Two weeks later another call for 10 per cent will be made and this will yield $15,000,000 more. The New York banks will have to supply $12,000,000."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—There is only a moderate demand, outside the call for soft Winters. Feeling is firm owing to action of Wheat.

WINTER WHEAT—The market ruled strong and prices showed further advances of 1c for fresh arrivals. Demand good and choice Wheat wanted. Poor Wheat remains dull. No. 2 Red in store quotable 91@96c and 1 car choice soft, fresh arrivals free on board brought $1 00 and quotable at 91c@$1 00 for dark to bright soft Wheat. No. 3 Red sold at 88c and was quotable 86@95c. No. 2 Hard at the river quotably 87@87c. No. 3 Hard at the river sold at 82@84c and ranged at 75@85c.

SPRING WHEAT—Ruled quiet and firm. So little choice Wheat arriving it is difficult to establish prices. Choice hard variety is wanted and would bring about 1c advance. No. 1 Northern in store nominally 88½@90½c and fresh arrivals free on board quotably 90@92c. No. 3 Spring sold at 89@91c for choice to fancy hard variety and quotably down to 80@85c for ordinary to good. No. 4 Spring sold free on board at 66@67c and at the river at 66@70c, and ranged at 58@85c for poor to fancy.

REGULAR WHEAT—A very good trade and unsettled, nervous market, fluctuations covering 1⅞@2⅛c range. The undertone, however, most of the session was strong, and while the extreme prices reached were not maintained the close showed gains of 1¾c to 2c. The small offerings were an early feature, the better cables, bulge in Corn and war news being among the "bull" helps. The "bull" party on May purchased openly, but around 92¾c there was considerable for sale through commission houses, but later on again advanced rapidly to 94⅛c. The Southwest was credited with selling the July early and buying later at the advance. Outside markets were up and the movement, while moderate, was 132,000 bu ahead of last year. Liverpool quoted spot steady to ⅛d higher and futures ¼@⅜d better. London came unchanged to ⅛d higher. Paris steady to ¼c lower. Antwerp unchanged. Press dispatches were more warlike, but British Consols, at the same time, closed about 1-16 higher. Kansas City and St. Louis received 256,000 bu and shipped out 209,000 bu. Receipts in the Northwest were 27 cars less than a year ago. New York May at one time was only 1c over Chicago. The map showed cold weather in the West and Southwest, and the signal service predicted fair and colder weather for Kansas, Nebraska, Illinois, Indiana and Missouri. One mill in the Northwest sold 11 000 brls Flour yesterday, part for export. Exports fair and 7 boat loads accepted at seaboard. Receipts at Duluth 25 cars and at Minneapolis 170 cars, a total of 195, against 276 cars yesterday, 201 cars a week ago, and 222 cars last year. Local receipts included 19 cars Winter, 11 cars Spring and 1 car mixed, a total of 31 cars, against 14 cars last year. Included in above were 3 cars of contract grade. There were 12 cars and no bu taken from undeclared elevators. The estimated receipts for to-morrow are 20 cars. Withdrawals were 11 700 bu. Receipts at Western points were 555,166 bu, against 422,511 bu last year. At Eastern points 93,748 bu, against no report last year—wire trouble. Shipments from Western points were 332,160 bu, against 92,647 bu last year, and from Eastern points 78,523 bu, against no report last year. Shipments of Flour were 74,011 brls. Exports of Wheat in Flour were equal to 411,622 bu.

Future Deliveries of Regular Wheat—Active and higher.

FEBRUARY—Entirely nominal. Quotably at the close about 90¼c.

MAY—Sold at 92@94⅛c. Opened with sales at 92c to 92⅛c; sold at 92c, to 93c, to 92¼c, to 93¼c, to 92½c, to 93c, to 92⅝c, to 93⅛c, to 94c, to 93⅞c, to 93⅝c, to 94⅛c, to 93⅝c, to 93¾c and closed at 93⅝@93¾c.

JULY—Sold at 83½c and at 85@85⅛c. Opened with sales at 83½c to 83¾c; sold to 83⅞c, to 83⅝c, to 83⅜c, to 83⅝c, to 84¼c, to 84c, to 84⅝c, to 84⅜c, to 85@85⅛c, to 84⅞c, to 85c, to 84⅝c, to 84¾c, and closed at 84¾c sellers.

SEPTEMBER—Sold at 79@80¼c. Opened at 79c, to 79⅜c; sold to 79¼c, to 79c, to 79⅜c, to 79⅛c, to 79¼c, to 79¾c, to 79⅝c, to 80¼c, to 79¾c, to 80c, and closed at 80c.

CORN—Another active day was witnessed in this market, the trade broadening and was of large volume. The feeling developed was a continuation of that prevalent yesterday and still higher prices were established, most of which was maintained, the close showing May 3@3¼c better, while July gained 1¾@1⅞c. There was an urgent general demand from the start from commission houses, which was not satisfied until May touched 55c. Warehouse interests were credited with adding to "long" lines and "shorts" covered freely. Realizing and profit-taking caused a ⅝c reaction but an advance of 2¼c took place later and the close was very firm at 54⅞@55c. The poor grading and fear of a shortage of contract Corn together with the war talk, were among the chief "bull" influences. Out of 215 cars received 171 cars were off grades, compared with 1.8 cars and 33 cars respectively last year, and 235 cars are estimated for to-morrow. Liverpool futures ⅛@⅜d higher. *Broomhall* cabled that the steamers carrying Corn which was yesterday reported to be in poor condition were the Rowanmore and Templemore. They sailed from Baltimore Dec. 31 and Jan. 8 respectively the former carrying 214,285 bu and the latter 51,428 bu. He further states that the expression "poor condition," used yesterday, was perhaps too strong, the exact situation being that parts of the cargoes in question were soft, and the Corn is not keeping on the quays. Receipts at Western points, 780,000 bu, were 80,000 bu larger than a year ago, and the shipments—304,000 bu—were 92,000 bu larger. Exports were 204,000 bu and 15 boat loads were accepted at the seaboard. Local arrivals 41,000 bu and shipments 201,000 bu. There were 15 cars transferred from private to public elevators. St. Louis was up 1¼c and Kansas City 1½c higher. Shippers reported a moderate demand and sales 100,000 bu. Car lots were in good demand and moderate supply. Feeling was firm and prices unchanged to ½c higher. No 2 closed about 51c. No 2 Yellow nominally at 51c. No. 3 at 41@51c. No. 3 Yellow at 42@51c. No Grade sold to at [illegible].

Corn by sample—Offerings were smaller, and the demand fairly good. Feeling firm and prices unchanged to ½c higher. Sales on track and free on board: No Grade sold at 30½@37c. No. 4 at 31@41½c. No 1 at 41½c. No. 3 Yellow at 42@44c. No. 3 White at 41½@43c. Billed through. No Grade at 32@34½c. No. 4 at 35@40c. No. 3 at 41@42¾c. No. 3 Yellow at 42@43c. No 3 White at 41@41½c.

Future Deliveries of No. 2 Corn—Active and strong, closing at 1¾c, to 2@3⅛c higher.

FEBRUARY—Quoted about 3½c under May and sold at 50c and closed nominally at 51½c.

MAY—Sold at 52⅛@55c. Opened at 52⅛c at 52⅜c, and sold at 52¼@52⅜c, to 52⅝c, to 52⅛@52¼c, to 52⅝c, to 52½c, to 53⅛c, to 53c, to 53⅝c, to 52¾c, to 53¼c, to 53⅞c, to 55⅛c, to 53⅝c, to 54⅞c, to 54⅛c, to 55c, to 54⅞@55c, and closed at 54⅞@55c.

JULY—Sold at 48⅞@50⅝c. Opened at 48⅞c to 49⅜c and sold at 49⅛@49¼c, to 49⅛c, to 49⅝c, to 49½c, to 49⅞c, to 49½@49⅝c, to 49⅝@49¾c, to 49⅝c, to 50¼c, to 50⅛c, to 50⅜c, to 5 ⅛c, to 50⅝c, and closed at 50⅝c bid.

SEPTEMBER—Sold at 48⅝@49⅝c. Opened at 48¾c and sold at 48⅝c to 48⅞c, to 48¾c, to 49⅛c, to 49c, to 49⅜c, to 49¼c, to 49⅝c, to 49⅝c, and closed at 49⅝c.

OATS—There was a big market, with the "shorts," the public and the local traders buying and the largest holders as well as their followers taking profits. The buying was so strong and persistent that prices advanced 1⅜c for May and closed 7⅛@1c higher. July advanced ⅞c and closed ⅝c higher and September ¼c higher. The advance in Corn and small receipts were factors that helped create the "bullish" sentiment. The arrivals were 87 cars, with 80 cars estimated to-morrow. Country acceptances were fair. Withdrawals were 1,000 bu. Seaboard clearances 0,000 bu. Cash sales were 25,000 bu. Car lots to go to store were ½c higher, No. 3 White at 42@41¼c. Standard in store closed about 42⅞@43⅛c as to location of elevator.

Oats by sample were in good request with offerings light and prices on better grades ½c higher, while poor were steady. Sales on track and free on board: No Grade at 37c. No 4 White at 38@42c. No 3 White at 41½@41½c. Standard at 41@45c. No 2 at 41@44¼c. Billed through. No 4 White at 43c. No. 3 White at 43½c. At the river No Grade at 37c. No 4 at 37½c. No 4 White at 38½@41c. No. 3 at 37c. No 3 White at 40½@41½c.

Future Deliveries of Contract Oats—Were active and sold the highest of the season.

FEBRUARY—Cost trading at 3c under May. The range was 41⅞c and 41⅞@43¼c. Closed at 42⅞c.

MAY—Active and strong. Sold at 41⅞@46¼c. Opened at 44⅞c to 45c, sold to 46¼c, to 45⅝c, to 45⅞c at close.

JULY—Active. Sold at 39@39⅝c. Opened at 39c to 39⅛c, sold to 39⅝c, to 39½c at close.

SEPTEMBER—Sold at 33⅛@33½c. Opened at 33⅛c, sold to 33c, to 33½c at close.

RYE—Ruled firmer and prices were again advanced 1@2c for future deliveries, while fresh arrivals held strong, but did not advance in proportion to the futures. Demand fair and offerings light. The advance was influenced some by the higher prices in other Grains. The receipts were three cars. There were withdrawn from private warehouse two cars and from public elevators 100 bu. No export clearances from New York. No. 2 in store nominally 61@62c and a car fresh arrivals sold at 61c; fancy No. 2 Rye would command a higher figure.

Future Deliveries of No. 2 Rye—Demand fair. Offerings light. Prices 1@2c higher. February quotably about 62c. May sold at 63c to 64c and closed at 64c sellers and 63¾c bid.

BARLEY—The demand was very good for low grades for mixing and very moderate for malting. Of the former the supply was small, firmness prevailed, and some improvement could be quoted. Malting Barley sold at about former prices. The market was steady, but there were only a few rather indifferent buyers and there was no special feature. To arrive lots dull. Little inquiry for them. Thirty-five cars were inspected in. The offerings were smaller than on previous days this week. Screenings was quotable at 26@42c for poor to choice, with sales at 32½@42c. Barley, feed or mixing, at 38@41c; poor, musty nominally lower; malting—low grade about 42@43c; very dirty below; common, 44@45c. For the lower grades the quotations seemed a little better. Fair was about 46@48c; good, 49@51c; choice, 53@57c; fancy possibly above.

SEEDS—Were again exceedingly quiet. Cold, stormy weather is keeping trade in Grass Seeds back and causing also small offerings. They were steady as a rule. Flax ruled firm and advanced somewhat.

Timothy—Was dull and heavy. A few cars of cash Seed on the market were held steadily. There was little or no demand. Stormy, cold weather is restricting movement both ways and causing a slow trade. March delivery was nominally $3 10 bid and $3 20 asked. Contract spot or February delivery nominally $3 05. Country lots quotable over a range of $2 [illegible] 3 15 for poor to fancy; fair to good quotably $2 70@2 85; choice, $2 90@3 00, and rough, dark and foul lots about $2 40@2 50.

Flax—There was an advance in prices. It was a nominal improvement, and due to higher market in the Northwest. No business was done. There were no sellers. Receipts were increased, but no cars came on sale. Futures were not offered. Local receipts 27 cars or 22,9 0 bu, and 5 cars or 5,185 bu were taken out. Minneapolis got 13 cars and Duluth 6 cars. No. 1 Northwestern or No. 1 from the Northwest were $1 18 bid. No 1 salable at $1 11 and Rejected nominally $1 07@1 11 as to quality. February was nominally $1 11; for May $1 13 bid.

Clover—Was nominally dull and unchanged. Business is made quiet by bad weather, too cold. There were no consignments offered. Contract spot Clover about $10 75@11 10 and March delivery $11 00; country lots, common to choice $8 10@10 50; fancy above; mixed with Buckhorn or other weed Seeds $8 10@9 00, poor cleaned out of Timothy, very foul, down to $3 00@6 10, inferior lower; fair to good quality about $9 00@10 00.

Other Seeds—Were inactive. They were quotably salable and steady, but absence of sellers prevented trading. Hungarian, common and light color to choice, dark at $1 60@1 85. Common Millet 90c@$1 25 for poor to fancy. German Millet, 90c@$1 25. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard $6@$1 05. Buckwheat steady; good milling quotable at $1 15@1 20.

HOG PRODUCTS—An active speculative business was transacted in Hog Products. Outside orders were larger, and local trading was brisk. The receipts of Hogs were lighter than generally anticipated, owing to storms in the West, and prices ruled higher. As the Grain markets were stronger, "shorts" were anxious to provide for outstanding contracts. Offerings were moderate, and competition resulted in advancing prices materially all around. At the extreme figures reached, there was some inclination on the part of "longs" to accept profits, and an increase in the offerings tended to an easier feeling, and moderate reduction in prices were accepted. Market closed rather steady at about medium figures. Trading was chiefly in May and July contracts. The receipts of Hogs at the leading Western packing points were estimated at 62,700, compared with 56,000 one year ago. Foreign advices indicated a quiet and steady feeling in Meats, while Lard was stronger and 9d higher. Domestic markets were steadier. Receipts of Products were liberal of Lard and Meats about 57 cars. Shipments were fairly good—of Lard and Meats about 115 cars. Demand on shipping account was fair, but mainly for domestic wants. Some inquiry for future delivery. Offerings were not very large, and held steadily. Sales were moderate, and prices inclined in favor of sellers.

Mess Pork—An active speculative business was transacted in Mess Pork. Offerings were fair and the demand was rather active. Market opened rather firm, with fair miscellaneous buying and prices were 2½@7½c higher, which was followed by a further improvement of 17½@20c. At the advance there was a little inclination to realize, and an easier feeling prevailed, accompanied with a decline of 7½@10c. Market closed rather steady around medium figures. Trading exclusively in May contracts. Shipping demand was moderate and offerings were only fair. Cash lots were quotable at $13 50@13 62½.

MAY—Quite actively called for, and offerings were rather free. Sales were made at $13 47½@13 70. Opened at $13 47½ to $13 52½, sold to $13 70, to $13 67½, to $13 55, to $13 70, to $13 62½, to $13 67½, to $13 70, to $13 65, to $13 67½, to $13 60, to $13 65, to $13 62½, to $13 65, to $13 60, to $13 65, to $13 62½, to $13 65, and closed steady.

Lard—A brisk speculative business was transacted in Lard. "Shorts" were anxious to purchase, and offerings were moderately free. Foreign advices were more favorable to holders. Market opened rather strong at 5@10c advance, and rallied 2½@5c more on good miscellaneous buying. Later there was a little pressure to sell, mainly by "longs," and prices receded 5@7½c, with fairly good buying and the market closed rather steady at medium figures. Trading almost exclusively in May and July contracts. Inquiry on shipping account was very light, and the offerings were moderate. Cash lots quotable at about $7 37½@7 40. Loose lots called for moderately and offerings were only fair. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $6 87½. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 37½@8 50 for No. 1 and $7 62½@7 75 for No. 2.

MAY—In active request and offerings were fairly liberal. Sales were made at $7 55@7 65. Opened at $7 55 to $7 60, sold to $7 57½, to $7 60, to $7 57½, to $7 62½@7 65 to $7 60@7 62½, to $7 62½, to $7 57½, to $7 60, to $7 57½, to $7 60, to $7 55, to $7 60, to $7 57½@7 60, and closed steady.

JULY—Offerings were fair, and the demand was moderately active. Sales were made at $7 60@7 67½. Opened at $7 62½, sold to $7 60@7 62½, to $7 67½, to $7 62½, to $7 65, to $7 6[illegible]@7 65 and closed steady.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides, and an active business was transacted. Offerings were fairly liberal and the demand active. "Shorts" accepted fair quantities. Market opened rather strong and prices were 5@7½c higher, which was followed by a further improvement of 5@7½c. Later there was more pressure to sell, and prices settled back 5@7½c and the market closed rather steady at medium figures. Trading exclusively in May and July contracts. Shipping demand was moderate and offerings were fair. Cash lots were quotable at $6 80@6 87½, according to weight.

MAY—Offerings were fair, and the demand was quite active. Sales were made at $6 80@6 82½. Opened at $6 80 to $6 82½, sold to $6 80@6 82½, to $6 82½, to $6 80, to $6 82½, to $6 80, to $6 82½, to $6 80, to $6 82½, to $6 80, to $6 80@6 82½, and closed steady.

JULY—Demand was fairly active, and offerings were not very free. Sales were made at $6 95@7 00. Opened at $6 97½@7 00, sold to $6 97½, to $7 00, to $6 95, to $6 95@6 97½, to $6 90, to $6 95, and closed steady.

Other Meats—Only a moderate trade reported in Meats. Domestic demand only fair, and export demand was light. Offerings of all kinds were fair, and holders rather firm in their views. Green Meats were in small request, with moderate offerings, and prices were unchanged. Pickled Meats in moderate demand, with only fair offerings, and prices well maintained. Dry Salted Meats in moderate demand and offerings not very large. Prices ruled slightly higher. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

DAILY TRADE BULLETIN.

Devoted Exclusively to

FINANCIAL AND COMMERCIAL NEWS.

HOWARD, BARTELS & CO., Publishers, 28 Sherman St.

Chicago, Wednesday, February 3, 1904.

☞ Communications addressed to the publishers of the DAILY TRADE BULLETIN *will not receive attention unless postage is enclosed for reply.*

Important Notice.

In March, 1884, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their part is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

Colder weather ought to improve the grading of Corn.

⁂

Argentina and Australia are shipping Wheat quite freely.

⁂

Chicago Board of Trade memberships are steadily advancing.

⁂

A fairly good demand for Barley, especially for the better grades.

⁂

Live Stock men are marketing Cattle and Sheep in fair numbers.

⁂

The farmers evidently are waiting patiently for trouble in the East.

⁂

Trade in all kinds of Seeds during the past month was on a limited scale.

⁂

Shipments of Hogs from Chicago during the past month were quite liberal.

⁂

Did any one ever learn of a "bucket shop" suspending on a declining market?

⁂

Cotton has reached a point where only millionaires dare venture in the market.

⁂

Movement of Hay is fair, and prices well maintained, especially for the better grades.

Fancy fresh arrivals of Wheat commanded a good premium over the regular grade Wheat.

⁂

Receipts of Hogs are quite liberal for the season of the year, and the quality is rather good.

⁂

Stocks of Mess Pork and Short Rib Sides Sides are enlarging steadily, and of Lard rather slowly.

⁂

The aggregate packing of the West for the winter season now exceeds that of the corresponding time in 1902-3.

⁂

The dampness reported in the new Corn in most sections of the country is apparently the present mainstay of the market.

⁂

Domestic demand for Hog Products is rather active for conservative quantities, but the export orders are unusually small.

⁂

It is claimed at Washington that Congress will do very little business this winter outside of passing the ordinary appropriation bills.

⁂

It is claimed that the feeding demand for Corn is sufficient in some sections of the West to absorb the offerings at satisfactory prices.

⁂

Fluctuations in prices of Wheat were frequent and rather wide during the past month, with professional speculators considerably interested.

⁂

The quantity of Grain in farmers' hands on March 1, to be reported by the Department of Agriculture, may be an important factor in the markets.

⁂

It is claimed that the area of Wheat in the Northwest will be enlarged this year at the expense of Flax, as the latter has not proved profitable.

⁂

An unusual quantity of Corn appears to be in the fields of Indiana, Ohio and Pennsylvania, and there is considerable complaint of the quality.

⁂

Considerable interest manifested in the market for Hog Products, and the volume of speculative trading is rather liberal, though prices are somewhat irregular.

⁂

Speculative operations in the Grain markets have been unusually risky. Prices have been very irregular and subject to numerous and sometimes severe fluctuations.

A bill has been introduced in Congress to transfer the Forestry Division of the Department of the Interior to the Department of Agriculture. Secretary Wilson is willing to accept it.

⁂

Supplies of Wheat in farmers' hands and in interior warehouses are rather liberal, and owners are anxiously looking for "dollar Wheat." In the older sections of the country farmers especially are indifferent about selling.

⁂

From interviews with leading officials of some of the Departments in Washington, it is evident that the investigation of agricultural statistics by the special committee of the National Board of Trade has accomplished much good.

⁂

The annual dues of the National Board of Trade have been reduced one-half. A president has been selected from the West, and an effort will be made to increase the membership, especially in the West, and enlarge its usefulness.

⁂

The Department of Commerce and Labor—which was provided for by Congress last year, and inaugurated by the National Board of Trade—is gradually getting into working order, and in time will no doubt prove to be one of the most important branches of the government at Washington.

⁂

The little fellow, who has heretofore been classed as the "interior miller," has rushed prominently to the front during the past year, and now has his "cable address" on his letter headings. He has established a reputation for his brand of Flour, and apparently can fill orders on short notice.

⁂

It is evident that if the National Board of Trade would accomplish better results in National affairs, the sessions should be held early in December. After work is mapped out by Congress, it is a difficult matter to have the programme changed. Convening in January is too late to accomplish much good.

⁂

The fact that Grain receipts at the primary markets are not as large as in some former years, does not prove satisfactorily that crops have decreased. The fact that railroads are making through rates of freight to the seaboard and gulf markets which are an inducement to shippers curtails to some extent the supplies at the primary markets.

⁂

The milling demand for choice fresh receipts of Wheat—that is, the soft variety of Winter and the hard variety of Spring—met with ready sale, and not enough were received to meet the actual requirements. Hence these descriptions have not been susceptible to the fluctuations in the speculative market. What millers wanted was the fresh arrivals.

IMMIGRANT ARRIVALS.

For the week ending Jan 14 the number of immigrants landed at Ellis Island aggregated 4,387, which compares with 2,218 for the corresponding week in 19 3.

The arrivals by days compare as follows:

	No. Arrivals, 1904.	No. Arrivals, 1903.
January 8	684	818
January 9	218	105
January 10	197	85
January 11	1,725	...
January 12	675	530
January 13	399	265
January 14	489	905
Total	4,387	2,213

THE CROPS OF SWEDEN IN 1903.

[From Dornbusch, Jan. 16.]

According to an official report (just published) last year's harvest proved a most successful one, the yield of Wheat and Rye exceeding the average of the previous five seasons 1899-1903, and as the Wheat is generally of satisfactory quality this crop is described as above an average, and a decrease in imports may be expected during the present campaign. The outturn of the last four years is as follows:

	Wheat, quarters.	Rye, quarters.	Barley, quarters.	Oats, quarters.
1903	700,000	2,867,000	1,805,000	7,754,000
1902	574,000	2,654 000	1,557 000	6,878 000
1901	545,000	2,600,000	1,554,000	7,112,000
1900	635,000	2 012,000	1,800,000	8,400,000

BRITISH AGRICULTURE.

[From the Mark Lane Express, Jan. 18.]

The weather is far too unsettled for either trade or agriculture. The October and November sown Grain is not looking particularly well, and the land is in about as unfit a state for Barley sowing as it well could be. Farmers talk of increasing their Barley sowings if the weather is favorable. The Beans and Peas recently sent to market have often been so soft that buyers would have nothing to do with them, and this is largely the reason why Rye has fallen to the extremely low price of a guinea per quarter. The most hopeful home article has been Wheat, the demand for anything at all moderately good as a sample being much better from the first few markets of the new year. For 63 lb Red Wheat, 30s to 31s is paid at the Home Counties' markets which have Mark Lane as their centre, with a radius of about 30 miles.

HOPS ON THE PACIFIC COAST.

[From San Francisco Weekly Commercial News.]

The English and German Hop markets are reported strong and steadily advancing. Reports from Oregon indicate a strong and active market, with stocks in growers' hands reduced to a very small quantity; sales are reported at 27c for choice; seven English buyers are in the market. Sales in Washington are infrequent, as holders are very strong in their views; 28c and 29c have been offered for choice and 18c for 1904 crop.

In California prices have gone higher than at any time during the last ten years. A sale of 150 bales was made at Santa Rosa, Monday, at 28½c, an advance of 1½c over the price of a week ago. Sonoma County growers are preparing to increase their acreage extensively; now Hops are being contracted for at 17c to 20c.

BOSTON WOOL MARKET.

BOSTON, Jan. 29. The *Commercial Bulletin* says: "Wool has been very active, with business well distributed. The large mills, including the American Woolen Company, have been operating liberally in territory and medium unwashed fleece. A great many small mills have been buying also. The demand is wholly for consumption. There is no speculation. The market is very firm. Choice three-eighths sold in a limited way at 26c, an advance of ½c. Most quotations, while strong, are unchanged. Foreign markets continue active and firm.

"The shipments of Wool from Boston to date from Dec 31, 1903, are 20,888,134 lbs, against 23,210,210 lbs at the same date last year. The receipts to date are 9,879,267 lbs, against 10,130,215 lbs for the same period last year."

BREADSTUFFS ON THE PACIFIC COAST

[From the Portland Commercial Review, Jan. 28.]

Wheat—There is no change in the Wheat situation here; the London cargo market has not responded to the rise in prices at Chicago. This leaves the market where it was one week ago without change, and exporters are not willing to increase their offers for Club Wheat over 73c per bu, and for Bluestem 79c is the limit placed thereon. Valley Wheat is becoming scarce in some sections and millers are buying Wheat from Eastern Oregon to keep their mills in operation. Sellers are in the market at higher prices and it is reported that many have placed a limit of 78c at home for their Wheat. This means from 79c to 8[illegible] for Club at tidewater. They will without doubt pay some charges on their Grain before they will obtain these figures. Export of Wheat is becoming smaller each week. We have only two vessels on berth chartered here, and one on Puget Sound. On the way there are three more chartered for this season's loading from Portland, and nothing from Puget Sound. Plenty of Wheat remains in the country in farmers' hands, and unless there is a change in prices soon, the shipping business for this season will be over in the next 60 days. Millers are out of the market, as their wants are all provided for, having plenty of stock on hand for all orders they need to fill and for future delivery in case any call should be had.

Flour—This market is becoming quite dull and very little new business is reported. Millers have had an active season, and will now be able to take a rest, the first they have had since last June. The demand has practically ceased from all quarters, and the outlook for the next five months of the cereal year does not look as if there will be much business, as stocks in the Orient are very large and the same will have to be worked off before any new business can be had. Freight rates have advanced, to take effect next Monday, and this puts on the cost of each barrel of Flour abroad [illegible]. The shipments to California have not increased recently, and the demand from other importing countries is not very brisk. The situation can be summed up as very dull. We quote export brands from $3 35 to $3 70 per barrel. Patents are firm from $4 00 to $4 25 per barrel, with only fair demand.

Cotton manufacture, which has been greatly restricted in Philadelphia, Pa., of late, will be lessened still further. Largely as the result of the enormous rise in prices, some of the big mill owners are considering shutting down for a time.

A director of the Electric Storage Battery Company says: "The Storage Battery Company made net earnings of more than 10 per cent on its stock during 1903. The surplus will be substantially greater than that of the previous year. The company has all the work that it can do. There is nothing to prevent our continuing to pay dividends as in the past. The Edison battery has not yet proved itself a factor in the market."

THE FOREIGN SITUATION.

[From the Boston News Bureau.]

The Vice President of a Western road who returned from London last week said, "There will be no Eastern war at the present time because it is an impossibility. The idea of Russia conducting a winter campaign over her 6000 miles of newly constructed Siberian Railway is absurd. She has 1,000,000 troops in and around Corea. Corea cannot feed her for two months, one thing more than Rice or millet. If starts while the Japs can wage all around the Russians in that part of the world on rations. Shut in and starve is Russia's death.

I understand the Siberian Railway is not in condition to send the strain of moving troops and supplies for advancing on Corea. Even if possible Russia understands full well it would be suicidal for any Japan would be to attempt it, and that Corea would menace Russia's rear if she pushed her troops forward. Japan has a navy to match Russia's and is ready and able to land 150,000 fighting men in Corea. Should Russia attempt to land troops in Corea Japan would be in position to attack them in the rear. The Japanese army is the best defense on earth. While she makes the best trade she can under the circumstances I asked a well posted financier why the expenditures of Russia did not appear under the head of liabilities. He replied that the fair in Russia was cheap had been opened and was being liberally drawn upon.

In England and Europe money is going steadily into gilt edge. The Japanese and American bonds can get all the European money wanted at a fair price.

The people abroad, however, have no use for a declining stock market. When Pennsylvania, New York Central and Illinois Central have declined 50 points from the highest they don't ask any further questions. Then they begin to look shoe and proceed to buy bonds. They believe that reduced dividends follow reduced stock quotations.

THE HOP SITUATION.

[New York Producers' Price Current, Jan. 30.]

The past week has been a slow one as far as volume of business is concerned. However, nothing was strictly against the smooth policy and transactions therefore have been in small compass. Prices on the Pacific Coast are held very firm and over train-action reported has been at the high level we have had. On this market trade is naturally reflects the condition found among brewers and has been quiet. Exceptions have prevailed in the lots of 1 to 5 bales, mostly to be their limit and holders are now generally asking more. Stocks left in growers' hands on the Coast are now so small as to be called only nominal, the remainder of the crop of 1903 being practically all held by dealers and speculators. There are no transactions to report in this state, as the stock in private hands is practically a few lots of contraband and prices ranging from 35c to 37c. The German market continues steady and prices have marked a further advance during the past week.

Circulars sent out by the general sales department of the Colorado Fuel and Iron Company indicate a slow improvements of the big plant which closed two months ago, because of the Coal strike, will soon resume.

A Montreal dispatch, Thursday, stated that the Pennsylvania Steel Company had sold 40,000 tons of Steel rails to the Canadian Pacific for $1.80 per ton, but this sale would not be breaking the pool agreement.

The New York State Board of Railroad Commissioners has approved of the project of the Long Island Railroad Company to issue $45,000,000 of refunding bonds, and has authorized the company to issue them.

The price schedule of United States Rubber provides for 7½ per cent advance in prices and an additional 5 per cent advance on June 1. Estimated sales for current year, $25,000,000, an increase of $5,000,000 over last year.

A member of the Lake Street Elevated Railroad Company, Chicago, reorganization committee was quoted, Monday, as saying that the time for depositing securities, which expires next Friday, will probably be again extended.

It was said by some of the Steel interests in New York, Thursday, that the earnings of the United States Steel Corporation for January were far below the estimate and that the outlook for the quarter is now disappointing.

The New York Journal of Commerce reports the total authorized capitalization of new companies formed in the Eastern States in January with a capital of $1,000,000 or more was only $39,858,200, compared with $177,600,000 in January, 1903, and $46,950,000 in the same month of 1902.

The monthly statement of the public debt shows that at the close of business Jan. 30, 1904, the total debt less cash in the Treasury was $1,015,985,815, an increase of $911,603 as compared with the preceding month. This increase is accounted for by a corresponding decrease in the cash on hand.

With the publication of its December statement Atchison completes a remarkable half-year. Gross earnings increased $6,118,316, or 13 per cent, while net earnings increased $3,041,370, or 20 per cent. The increase in gross earnings during the six months compares with an increase of $3,200,000 for the entire fiscal year 1903.

The Chicago Tribune of Chicago of a chattel mortgage made by Street's Western Stable Car Line to the Equitable Trust Company, Franklin H. Head and Henry Southwell, trustees, covering $2,767,000 of bonds as security for a bond issue of $2,4,000, divided into 2½ bonds, payable Feb. 1, 1908, and bearing 5 per cent interest.

Traffic on the Chicago elevated lines during the month of January exceeded that of any previous month, theatres and the lessening of business activity in the city. Even under these adverse conditions the Northwestern and South Side lines recorded slight gains in traffic over January of 1903. The Metropolitan Elevated suffered a small decrease.

Interest became payable Feb. 1 on bonds having a par value of $1,038,351,215 and totals $19,422,765. Dividends aggregating $19,258,451 were paid in 1903 on $1,322,197,10 in 1901 and $13,211,864 in 1900. Dividends are payable on stocks having a par value of $2,063,552,820 and aggregate $14,311,417, against $38,511,900 in 1902, $38,276,706 in 1902, $23,019,477 in 1901 and $21,971,303 in 1900.

Through the dissolution of the Steel Hoop and Cotton Tie pool, manufacturers here before bound by its obligations may sell their products in the open market at any price they may see fit to accept. The report that the Billet pool might also be dissolved is characterized by members as without foundation. The Billet pool, it is stated, is stronger than ever.

Negotiations for the flotation of the proposed $50,000,000 Cuban loan have come to a temporary halt. The bankers who have had the matter under consideration declare that the Russo-Japanese situation makes such transaction inadvisable at this time, because it would tie up a large sum of money which might be used elsewhere to better advantage

The San Francisco *Commercial News* of Jan. 28 says: "During January the full cargoes and three part cargoes have been cleared for Europe, and there are left in port on the loading list but two vessels. The outlook for the new crop is but fair. Cold weather is retarding the growth of the crop in the Northern and Central sections, while dry weather is playing havoc in the South."

Vice President Oppenheim of the Chicago Great Western Railroad, announced in Chicago, Friday, recently he disposed of bonds for $20,000,000, secured by the lien on the Omaha division of the road. That branch was built by a syndicate formed by the Great Western, ultimately by which the road will be issued to raise money to reimburse the syndicate for the money it advanced.

The preliminary figures of the value of Cotton exports from the United States, as issued by the Department of Commerce and Labor, was $378,000,000. These figures will not be materially changed by the revised figures to be issued later. The total value of the exports of 1902 was $335,000,000 that of the preceding record year 1900, when the value of the Cotton exported was $344,000,000.

The Treasury Bureau of Statistics issues the following figures of the exports of Breadstuffs and Copper during December and during the 12 months, in lbs: | 1903. | 1902.

December exports	82,722,000	18,645,000
Twelve months exports	$10,725,000	354,666,000
December imports	16,962,000	16,471,000
Twelve months imports	187,707,000	183,129,000

The directors of the Milwaukee and Chicago Breweries, limited, have declared a dividend of 7½ per cent, less income tax, upon a l the shares of the company payable Feb. 1. Transfer books will close Feb 10 and reopen Feb 23. Notice is also given that on Nov 3, 1903, the ordinary shares were reduced from £10 each to £1 each, and the above dividend is based on the reduction of £10 shares to £1 shares.

England paid to the outside world for articles of food and drink last year the enormous sum of $1,117,000,000, or $25 per head of the living per cent of the total imports for the year, or $25 per cent. The increase in the value of food imports over the previous year was nearly $50,000,000 In the total imports food products were 30 per cent, raw materials 32 per cent, and manufactured goods 26 per cent

The London *Agricultural Gazette* of Jan. 18 says: "Hardly any kind of weather could be more favorable since the year began, sowing having been out of the question, while plowing has been possible under rather poor conditions on only a day or two. On Friday, and since, frost has occurred a night and welcome sunshine by day; but the land up to the end of last week, had not been hard enough to be carted over."

Arrangements have been practically completed for the consolidation under the name of the Ohio Union Traction Company of the following electric roads: Central Ohio Traction Railway of Columbus; Columbus, London and Springfield Railway; Springfield and Urbana Railway; Urbana, Bellefontaine and Northern Railway. The four companies operate about 150 miles of track and have a total capitalization of $5,000,000.

The English government has given power to the government of Grenada, in the West Indies, to allot three acres of land each to such of the tenants who were unable to make terms with the Steel proprietors, and it is proposed to raise Cotton on the land. The British Cotton Growing Association has pressed again and Cotton press to the government of Grenada and will handle Cotton free of charge except brokerage.

The *Corn Trade News* of Jan. 26 says: "The official returns of the Irish crops which we have received this day show that all crops this year, with the exception of Hay from permanent pastures, are smaller than in 1902. Of the most important crops Oats show a decrease of 200,000 qrs, and Potatoes are 350,000 tons less. The latter crop is 1½ per cent below the average of the last five years, but rather above a twenty years' average."

The report of the commissioner of patents shows that business in his department for the calendar year 1903 exceeded all previous records The total cash receipts of the office were $1,616,926, leaving a surplus of $180,000. There were 50,413 patents applied for and 31,692 granted. The report includes the fiscal year because for the present year, and says that the office, since its inception in 1836 has furnished a net balance of $8,982,830 to the government.

A statement is made of the progress that has been made in the settlements required by the treaty with Panama the Secretary of the Treasury will call in from the National banks $10,000,000 to $20,000 00 of the Panama deposits. There are 50 banks in the total amount of such deposits. Chicago bankers have little interest in the matter, since the total holdings of U. S. government money in this city are less than $2,000,000, and the payment of 30 per cent of it will be little felt

Chicago people interested in the United States Realty Company have heard with considerable gratification the story that the company is to be split up and the G. A. Fuller Construction Company separated from the real estate end of the corporation. The story as it reaches Chicago is that about 60 per cent of the assets consist in the capaily of the real-estate holdings, are to be kept by the realty concern, and 40 per cent of the assets, mostly the quick assets, are to be given to the Fuller construction Company.

A representative of one of the most important New York bond houses is quoted as follows: "The bond market can hardly be said to be looking up. The public statements made by bankers as to their business is 'fine' or 'highly satisfactory' strike us as being made for effect. Railways contemplating bond issues are not to put them on the market at this time. On the part of investors there seems to be a disposition to turn to short-term bonds, which they can unload without difficulty should it become necessary."

Leading authorities on Steel matters located here in Chicago are of the opinion that the list price of $36 00 for Steel rails will be maintained during 1904, in the presence of the fact that this is the statement made by a leading railroad official who claims that American roads are to be given private terms amole to offset alleged discrimination in prices made to Canadian railroads, simply because the latter are considered export business In this it is evident that the Steel trust must at least apparently preserve domestic prices to protect foreign figures.

The London *Meat Trades Journal* says: "The animals exported from Ireland into Great Britain in November included 109,294 Cattle, 40,755 Sheep, and 61,812 Pigs. Comparing with the corresponding totals in November, 1902, these show decreases of 24,0-9 Cattle, 21 914 Sheep and 12,132 Pigs. Excepting in the case of Horses, our imports over the five-and-seven months show a fall off in the ones last year. But 1902 was a remarkable year in this respect, our imports of Irish Cattle and Pigs having risen to the highest record, and those of Sheep to the highest but two."

A Pittsburg dispatch says: "Officials of the Clairton Steel Company, which is owned by the Crucible Steel Company of America, announced here that while there was no change in the rate for the transfer of the plant to the United States Steel Corporation. The company, it was stated, would remain independent. Several days ago the Clairton company would continue in the billet pool, and would not shade prices. The story that the Ashland Steel Company was cutting prices of billets was also known to be untrue. As to the latter the action, it was asserted, would have no serious effect on the market, as the company was not a member of the billet association."

Despite gloomy advance reports the volume of railway traffic is greater than a year ago, when it was considered phen-menal. Gross earnings of all the railroads in the United States making reports of their earnings for the first week in January aggregate $18,865,825, a gain of 4 per cent over those of the corresponding period of 1903. The increase would have been larger but for the unusually severe weather which kept down the number of shipments, but the forwarding of freight. The Southwestern roads show the largest gain in earnings, though closely followed by those in the Middle West, commonly classed as the granger roads.

Dispatches from Pensacola, Fla., state that a cassava starch factory is to be located in Chicago and will be operated by Dr. and Mrs. Charles Sanda and A. H. Keeler, both of Chicago, and president and secretary, respectively, of the Gulf States Refining Company. The plant will have a capacity of 150 tons daily and will employ 200 hands and approximately $100 000. furnishing employment to about 100 men Such a factory will consume 45,000 tons of raw material annually, yielding 9,000 to 10,000 lbs of finished starch. The factory will also be so equipped as to provide for the conversion of starch into dextrin, which is a valuable adjunct to Cotton finishes and also for a by-product used as feed for Stock.

One obstacle in the way of the proposed $15,000,000 bond issue of the Colorado Fuel and Iron Company has been removed at the special meeting of the stockholders, Monday. The articles of incorporation were amended to permit an increase in the funded indebtedness of the company. A resolution was also unanimously adopted approving and ratifying the transactions by which the company has heretofore raised money for its requirements, and also approving the application of such money in the past to the purposes received and now applied, and directing that the remainder of the money as and when received should be expended under the direction of the officers and directors to the furtherance of the objects of the company.

Iron and Steel exports during December, 1903, show an increase of $1,597,938 compared with December, 1902. The value of Steel rails exported was $3,731,741, against $1,611,000 in 1902. The value of locomotives, $504,584 against $151,571. The total Iron and Steel exports for the entire year was $60,000,987, against $57,402,036, the total increase having thus occurred in December Exports of pipes and fittings for the year show an increase of about $800,000 and typewriters nearly $1,000,000. Agricultural implements show a decrease of $600,000 and Steel rails exports of nearly $1,000,000. The total value of Iron and Steel imported, excepting ore, in December, 1903, was $1,739,486, against $1,000,858 in December, 1902. This increase is largely in pig Iron imports, which were $307,989 in 1903, against $1,040,892 in December, 1902.

A telegram from New York says: "The government weather crop bulletin for the week ending Jan. 26 for January stated that the growing Grain over a considerable portion of the Winter Wheat belt has suffered severely from the cold weather. Reports of crop conditions at this time of the year are, however, as every one recognizes, not of supreme value. There is no doubt that a very serious state of affairs does exist at this time in Southern California and the region adjacent, in the extreme Southwestern part of the country, as regards drouth. There has been so far in the rainy season in that territory only about one-tenth of the usual rainfall. The destruction of Live Stock there on this account has been great, and if relief does not come between now and the end of the rainy season, that is, on April 1, the increased loss to the producing interests resulting from the summer from irrigation will not be possible, and the prospect for the usual crops will be exceedingly poor."

Under the plan for reorganizing the old Michigan Telephone Company, the new Michigan State Telephone Company has arranged to purchase 25,000 shares of the property and assets thereof which he is entitled by virtue of the decree of foreclosure and sale, and will have an authorized issue of $10 000,000 5 per cent, twenty year bonds, $4,000,000 of 5 per cent cumulative preferred stock and $6,000,00 comm n stock. The amount of this capitalization to be outstanding in 1904 is $4 100,000 of the bonds, $2,835,000 of the preferred stock and $2,835,000 of the common stock. The total authorized stock and bonds amounts to $2 100 ,000 and the total to be outstanding this year amounts to $10,770,000. The distribution of the stock and bonds is to be as follows: To the depositing holders of Michigan Telephone bonds amounting to $4,491,000 will be given $3,595,000 of the new bonds, $1,460,500 of the new preferred stock and $1,460,500 common stock; reserved for underlying mortgage of the M chigan Telephone Company, $705,000 bonds; reserved on account of obligations incurred by the receivership committee, $1,000,000 bonds and additional property, $285,000 bonds, $122,500 preferred stock and $234,500 common stock; to provide $400,000 bonds to pay unsecured floating indebtedness, costs of foreclosure and court allowances and to provide $130,000 cash to pay for improvements and the cost of additional property and compensation to the bondholders' committee and the syndicate managers will be reserved $301,000 bonds, $702,000 preferred stock and $2,346 400 common stock; reserved for future use, $5,341 000 bonds, $1,715,000 preferred stock and $2,360,000 common stock, the latter subject to the general control of the board of directors

Ten packers purchased 18,800 Hogs to-day; shippers 8,500 left over, 11,000 Market closed weak

Reported that 144,000 bu Wheat and 224,000 bu Corn were taken at the seaboard to-day for export

Estimated receipts for to-morrow are Wheat, 45 cars, Corn 175 cars, Oats 95 cars, Hogs, 30,000.

Consols in London closed at 87 15 16 money, a decline ⅛. Account 88 1-16, a decline of 3-16 from yesterday's close.

Average weight of Hogs at Kansas City in January was 222 lbs, against 224 lbs a year ago, and only 172 lbs two years ago.

Receipts of Grain at Omaha to-day were as follows: Wheat, 37 cars; Corn, 15 cars; Oats, 15 cars. Shipments—Wheat, 10 cars; Corn, 4 cars; Oats, 22 cars.

The stock of Flax Seed in interior elevators of the Northwest on February 1 reported at 868,000 bu, compared with 1,078,000 bu on January 1 and 1,603,000 bu on February 1, 1903.

Broomhall cables: "Our Argentine agent estimates the shipments of Wheat from that country this week will be about 1,700,000 bu and Corn about 800 000 bu The Corn crop is maturing well"

The New York Coffee market made a record for wildness to-day. It took three men to conduct the call, which lasted three-quarters of an hour It usually lasts ten minutes Prices receded 50 to 75 points.

The *Northwestern Miller* says: "Latest advices as to the Winter Wheat crop say that a good covering of snow now affords it ample protection This applies almost generally, and especially to the Ohio Valley."

Average cost price of Hogs at Chicago, Wednesday, was $4 89, against $5 04 a week ago, and $6 75 a year ago Average cost price the first three days of this week $4 89, against $5 04 a week ago, and $6 61 a year ago

Local Securities were unsettled, with moderate trading Biscuit common was the only active Stock. It broke ¼ and advanced ⅝. Radiator common lost 1 point. South Side Elevated declined 1½, and North Chicago Railway lost ¾

The Cincinnati *Price Current*, in its weekly crop summary, says: "The Wheat crop condition is not essentially changed. Average is maintained compared with a month ago. Interior Wheat offerings irregular and moderate Corn situation unchanged."

The members of the New York Stock Exchange Tuesday unanimously voted to close the Exchange Saturday, Feb 13, the day after Lincoln's birthday. The matter will now go to the governors The impression is general that the governors will order the Exchange closed

Reserve of the Bank of England decreased £3 470,000 Bullion decreased £3,397,230 Proportion of Bank of England reserve to liabilities this week is 48 02 per cent, against 49 2 per cent last week, and compares with an advance from 47⅜ per cent to 48⅜ per cent in this week last year

Broomhall says the Liverpool opening strength was on the American advance. Later, there was some yielding because Consols were steady in spite of the war rumors. Corn opened up with the American advance, but there was not sufficient support to maintain prices There were also fair seaboard offerings

The Cincinnati *Price Current* reports the packing of the West for the week at 550,000 Hogs, compared with 520,000 for the week previous, and 450,000 for the corresponding week in 1903. Aggregate packing since November 1 reported at 6,980,000 Hogs, compared with 6,845 000 for the corresponding time last year—an increase of 135 000 Hogs

The *Northwestern Miller* says "Minneapolis mills last week ground approximately 1,390 000 bu of Wheat. Receipts (less shipments) were 1 070,250 bu, against 1,234,500 bu the preceding week, 1,561 000 bu in 1903 and 854 000 bu in 1902 Public stocks for week decreased 90,000 bu, making the stock in store in Minneapolis 12,916,000 bu against 15,147,000 bu a year ago and 16,913 000 bu in 1902 The mills the current week are likely to grind about 760,000 bu of Wheat."

Stocks in Wall Street was affected by news from the far East and were irregular. Trading was largely of a professional character and changes in the most part were confined to narrow limits. Pennsylvania was sold by a report that a new stock issue is soon to be made and it broke ¾, with ½ rally later Southwestern shares averaged higher Steel gained ⅝ to 1 point Realty preferred lost 2 points Delaware and Hudson declined 2½. Money 1¾ to 2 per cent.

In the New York Cotton market the opening was fully as wild as on previous days The trade was completely at sea as to the situation Leading futures on the call sold at declines of 42 to 58 points, and, at times bids and offers were 10 or more points apart. The attitude of the market at Liverpool in the face of Wednesday's line advance at New Orleans, and "bull" talk from the South fairly dazed traders Private cables gave reasons for weakness in Liverpool, as heavy Egyptian and Continental selling, and unfavorable far Eastern news March in New Orleans broke 106 points at the start, and other near positions almost as much Many conservative traders refused to do anything in such a wild market Selling apparently ran its course At 10:45 A. M. leading sellers of the past few days began covering "shorts" and there was buying by the "bull" interest Prices rallied fairly Closing sales were 103@130 points lower on near and 45 points lower on deferred deliveries

REVIEW OF TO-DAY'S MARKETS.

FLOUR Market was firmer on all grades and demand somewhat improved

WINTER WHEAT A fair demand but millers refused to pay extreme prices for fancy Wheat and soft Red to-day was 1c lower than yesterday, while choice Hard Winter ruled firm and prices 1c higher Millers evidently substituting Hard Winter for soft The regular grade Wheat of No 2 Red round lots were about 2c higher in sympathy with the speculative market No 2 Red in store ruled from 1c under to 2c over May and ranged at 93@97½c, and fresh arrival car lots free on board sold at 99c and ranged at 96@99c No 3 Red fresh arrival free on board quotably 90@98c, with a sale at the top figure No 2 Hard at the river sold at 88c and ranged at 85@88c No 3 Hard at the river sold at 80@87c and ranged at 78@87c depending on quality No 3 White sold free on board at 97c

SPRING WHEAT Ruled firm and prices about 2c higher The hard variety was wanted by millers and fresh arrivals would sell readily, but none arriving No 1 Northern in store quotably 90@92c and fresh arrivals free on board quotably 93@95c No 2 Northern fresh arrivals free on board quotably 8 @93c No 3 Spring was quotable 80@92c for ordinary to choice hard variety No 4 Spring sold local at 55@69c and at the river at 60½@63½c and ranged free on board at 55@85c for poor to choice

REGULAR WHEAT There was a large trade and animated excited market the first half of the session, but later conditions became more nominal, but livened up again toward the close Last prices showed the May 1¾c higher, and July ⅞@1c better There was a rush of buying at the start, which carried the May to 95¼c and July to 85¾c "Shorts" covered freely, the further bulge in coarse Grains, war talk, and unfavorable weather conditions in the Southwest, where it was dry and cold, were among the principal "bull" helps Consols were lower and cables higher On the advance, liquidation and profit-taking was much in evidence, the "bull" party in May being credited with selling freely through brokers and commission houses. Increased offerings of July was a feature and part of this selling was supposed to be for the Northwest. May reacted to 94c and later rallied to 95½c and closed at 95⅜@95½c. Local professionals were also more aggressive on the selling side on the early bulge. Liverpool was up ⅛@⅜d on futures and London advanced ⅝@¾d Paris was up ¼@¾c. Antwerp and Berlin were unchanged. The signal service predicted generally fair weather with moderating temperatures. California had rain and the *Price Current* reported the Winter Wheat crop outlook as a whole is unchanged from a month ago Receipts in the Northwest were 108 cars under last year. Kansas City and St. Louis received 194,000 bu, against 86 000 bu last year. Shipments were 216,000 bu. Baltimore advices on the Wheat movement supplies and Flour situation were quite "bullish." Rosario, Argentina, cabled that heavy rains were falling there. Clearings at Atlantic and Gulf ports were moderate and the seaboard reported but 18 boat loads accepted A sale of 100,000 bu Duluth No 1 Northern was reported c. i. f. Buffalo at opening of navigation at equal to 1¾c over Chicago May, strike permitting. Last bulge was due to rumor that war in the far East had been declared, and last prices about the top. Receipts at Duluth 17 cars and at Minneapolis 220 cars, a total of 237, against 195 cars yesterday, 276 cars a week ago, and 345 cars last year. Local receipts included 16 cars Winter, 4 cars Spring and none mixed, a total of 20 cars, against 28 cars last year Included in above were 2 cars of contract grade There were 5 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 25 cars There were no withdrawals Receipts at Western points were 501,302 bu against 159,125 bu last year, not including Minneapolis and Duluth At eastern points 28,708 bu, against 162,600 bu last year Shipments from Western points were 355,875 bu, against 161 476 bu last year, and from Eastern points 270,863 bu, against 101,970 bu last year. Shipments of Flour were 11,384 brls. Exports of Wheat in Flour were equal to 270,891 bu.

Future Deliveries of Regular Wheat—Active and higher

FEBRUARY—Entirely nominal, and closed about 92c.

CORN—May closed 1@1½c higher and July ⅞@1c better There was an immense trade, the market ruling broad and excited more particularly the first half of the session New high records were established under an urgent demand from "shorts," the small offerings being an early feature Commission houses prominent on the "bull" side of the market also purchased freely and the demand was not satisfied until May touched 56⅜c, when realizing and profit taking became quite general, causing a reaction to 55c Later, the price rallied to 56¼c and closed at 56c sellers. The news at hand was not particularly different from that of late, sentiment causing the early bulge. Receipts were 240 cars, with 197 cars low grades, against 213 cars last year when 92 cars were off grades. This showing continues one of the chief "bull" helps Estimates for to-morrow only 175 cars Liverpool was up ½d on spot and ⅜@½d on futures Part of the early covering was credited to Provision interest. The Cincinnati *Price Current* reported situation in the interior unchanged. The reduction of 2c per 100 lbs on Corn rate by the Chicago and Northwestern Railroad from Nebraska points to Chicago may possibly enlarge the movement Southwestern markets acted easier. Local arrivals were 261,000 bu and shipments 305,000 bu Western receipts were 575,000 bu, against 518,000 bu in 1,03 Shipments were 603,000 bu and 476,000 bu respectively Exports were 381,000 bu and 25 boat loads accepted at the seaboard. Transfers from private to public elevators 124 cars and 28,000 bu. Shipping demand moderate and sales 10,000 bu. Car lots were in good demand and small supply Prices were 1@2c higher. No 4 White at 40@42c No 3 at 39½c No. 3 White at 41@43½c Standard at 43¾c

Future Deliveries of Contract Oats Were excited irregular and the highest of the season

FEBRUARY Ranged at 3c under May Closed at 43¼c

MAY -Excited Sold at 45½@46⅞c Opened at 46¼c to 46½c, sold at 46⅞c, to 45½c, to 46¼c at close

JULY -Large trading Sold at 39⅝@40c Opened at 39⅝c sold to 40c, to 39¾c at close

SEPTEMBER—More doing Sold at 33⅜@33⅝c Opened at 33⅜c, closed at 33½@33⅝c

RYE Was steady and quiet Less trading than yesterday. Offerings light and demand also more restricted There was only one car received and there were 6,000 bu withdrawn from public elevator No export clearances from the seaboard No. 2 in store quotably about 62c—that is, for round lots—and car lots of fresh arrivals quotably 61@62c. A car of No 4 sold at 50½c.

Future Deliveries of No. 2 Rye Quiet and steady. February nominally about 62c. May sold at 64c and that the closing.

BARLEY—The market was in quite a strong and healthful state There were buyers present for all grades, and the offerings were very moderate. Cash lot offerings were taken, but to arrive lots seemed to be rather neglected For low grade to good Barley, prices obtained seemed to be 1@2c better than some days ago. Only 27 cars were inspected in. Screenings were scarce; some said to have been withdrawn from sale; quotable at 30@42c for poor to choice. Barley, feed or mixing, was salable at 30@41c; poor, musty nominally lower; malting low grade about 42@43c, very dirty below; common, 44@45c Fair was about 47@49c; good, 50@53c; choice 54@58½c; fancy possibly above

SEEDS It was again very quiet. A dull, heavy Timothy market was quoted, while Clover was nominally a little stronger. Flax sold a shade higher for May and otherwise was unchanged

Timothy A dull, very quiet market continues. The feeling was heavy. Nothing was done aside from the sale of a few cars for March delivery This future sold at $3 15; it was afterward offered at that figure and $3 10 bid Contract spot Seed was nominally about $3 05 Country lots the same as of late being quotable over a range of $2 2@3 15 for poor to fancy; fair to good quotably $2 10@2 85, choice, $2 90@3 00, and rough, dark and foul lots about $2 40@2 50

Flax A small quantity for May delivery sold at 1c advance, but there was not enough done to be of any importance The rest of the market was unchanged and inactive There were no cash offerings, although some cars are coming in To-day 13 cars or 12,700 bu were received and 1 cars or 4,800 bu were taken out Minneapolis got 19 cars, and Duluth 12 cars No 1 Northwestern or No. 1 from the Northwest remained at $1 18 bid and No 1 salable at $1 11. Rejected nominally $1 07@1 11 as to quality. February was nominally $1 11; May sold sparingly at $1 14.

Clover Was quoted as steady Reports from outside were a little more favorable There was no Clover on sale Indications were that it would sell very well, especially if of fine quality Contract spot Clover remains at about $10 75@11 10 and March delivery at $11 00 Country lot common to choice $8 10@10 .0; fancy above mixed with Buckhorn or other weed Seed $8 00@9 01, poor, cleaned out of Timothy, very foul down to $4 00@6 00, inferior lower; fair to good quality about $9 00@10 00.

Other seeds The market remains without offerings, and in consequence lifeless. It was nominally steady Hungarian common and light color to choice, dark at $1 00@1 35 Common Millet 80c@$1 25 for poor to fancy. German Millet, 90c@$1 25 Siberian, 75@90c Broom Corn and Early Fortune Millet, 75@90c Mustard, $ @$1 15 Buckwheat steady; good milling quotable at $1 15@1 20

HOG PRODUCTS Quite a good speculative business reported in the market for Hog Products, and the feeling was somewhat unsettled. Outside orders were fair, and local trading was rather active The market opened stronger with fair miscellaneous buying, credited to "shorts," and mainly in sympathy with the strength in the Grain markets. Prices were advanced materially all around At the advance, there was some inclination to realize, and a weaker feeling was developed, and prices receded again, though trading was moderate. During the latter part of the session a little more steadiness prevailed and prices rallied slightly, and closed rather steady Trading was chiefly in May and July contracts. Receipts of Hogs were fair, and prices rather steady Arrivals at the leading Western packing points were estimated at 67,700, compared with 51,300 one year ago Returns of the packing of the West for the week exhibited an increase of 100,000 Hogs compared with the returns for the corresponding week in 1903. Foreign markets were quiet for Meats, with Hams quoted 6d lower, while Lard was steadier and 3d higher Domestic markets were quiet and steady. Receipts of Product were moderate—of Lard and Meats about 18 cars. Shipments were fair—of Lard and Meats about 122 cars Inquiry on shipping account was moderate, but chiefly for small quantities for domestic wants. Exporters out of the market Offerings were not very large and holders rather firm in their views Sales were moderate and prices rather inclined in favor of sellers

Mess Pork—Trade was quite active in Mess Pork, and the feeling was unsettled Offerings were fair, and the inquiry rather active. Prices were irregular. Market opened rather firm at 2½@5c advance and prices further improved 12½@15c At outside figures, there was a little pressure to sell and prices settled back 15@17½c Toward the close, a little more steadiness prevailed, and prices rallied 2½@5c, and the market closed steady Trading chiefly in May contracts Shipping demand was light, and offerings were moderate. Cash lots were quotable at $13 62½@13 75

MAY Offerings were fair, and the demand was rather active. Sales were made at $13 67½@13 85. Opened at $13 67½, to $13 70, sold to $13 75, to $13 72½, to $13 80, to $13 76, to $13 85, to $13 82½ to $13 85, to $13 67½, to $13 75, to $13 67½ to $13 72½, to $13 70, to $13 72½, and closed steady

Lard—An active business was transacted in Lard Offerings were moderately free, and the demand was fairly active Market opened with quite a good miscellaneous demand and prices ruled 5@15c higher and the appreciation was fairly well supported temporarily Later, there was some pressure to sell, and a weak feeling was developed Prices receded 15@17½c on the whole range At the decline there was a little more inquiry, and prices rallied 2½@5c, and the market closed steady Foreign advices more favorable to holders Trading almost exclusively in May and July contracts Inquiry on shipping account was very light and the offerings were moderate Cash lots quotable at about $7 12½@7 15. Loose lots called for moderately and offerings were only fair Prices were steady at about 70c discount on May figures Leaf Lard in fair request and offerings were moderate Prices were quotably steady at $8 87½ Neutral in only moderate demand, with fair offerings Prices quotably steady at $8 37½@8 50 for No 1 and $7 62½@7 75 for No 2

MAY Offerings were fair and the demand was rather active Sales were made at $7 57½@7 75. Opened at $7 60 to $7 75, sold to $7 72½ to $7 75, to $7 70, to $7 72½ to $7 62½ to $7 65 to $7 57½@7 60, to $7 65 to $7 60 to $7 62½ and closed steady

JULY Demand was fairly active and offerings were moderately free Sales were made at $7 62½@7 80 Opened at $7 70 to $7 80 sold to $7 75 to $7 77½ to $7 62½ to $7 70 to $7 67½ and closed steady

SEPTEMBER Quiet with small sales at $7 82½

Short Rib Sides Rather a good trade was reported in the market for Short Rib Sides, and the feeling was somewhat unsettled Offerings were fair and the demand was moderately active Trading confined to May and July contracts Early the feeling was rather firm and prices ruled 5@10c higher Later offerings were moderately free and prices receded 7½@10c Toward the close the feeling was stronger and prices rallied 2½c and the market closed comparatively steady Shipping demand was moderate and offerings were somewhat limited Cash lots were quotable at $6 62½@6 87½, according to weight

MAY - In fair request and offerings were moderately free Sales were made at $6 80@6 90 Opened at $6 85 to $6 87½, sold to $6 85 to $6 90 to $6 80 to $6 82½ to $6 80 to $6 82½, and closed steady

JULY—Offerings were fair and the demand was moderately active Sales were made at $6 92½@7 02½ Opened $7 00 sold to $7 02½ to $6 92½ @6 95, to $6 95, $7 02½ to $6 95 and closed steady

Other Meats—Only a moderate trade reported in Meats Domestic demand only fair, and export demand was light Offerings of all kinds were fair and holders rather firm in their views Green Meats were in small request, with moderate offerings, and prices were unchanged Pickled Meats in moderate demand with only fair offerings, and prices well maintained Dry Salted Meats in moderate demand and offerings not very large. Prices ruled well supported. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows.

*Minnesota and Dakota mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

There was a decrease in the Flour output last week of about 6 500 brls. This week the production will be greatly reduced, as the mills will all be idle until Thursday morning. At that time about 20 will be started, and the week's output will probably approximate 185,000 brls. The curtailment of output is due to dull Flour trade.

Last week trade with Minneapolis mills was rather irregular, orders coming in somewhat in accord with the changes in Wheat. When there were heavy advances in Wheat domestic buyers seemed to take hold, especially if they could buy at old prices. As soon as any decline took place buyers absented themselves from the market. Thus there were some days in which fair bookings were made, while on others trade was dead. On an average perhaps as much Flour was sold as was made. Shipping directions did not come in with special alacrity, though some mills reported the situation somewhat better in that respect than it was previously.

Foreign markets were extremely dull. Few bids were received, and where they were vouchsafed on the part of the importers, it was on a basis 1@2s too low for the miller, taking into account the high cost of spot Wheat. The United Kingdom appears to have a surfeit of spot Flour, and resellers are able to undersell millers by a considerable margin. On clear, local millers have shaded prices some and this permitted considerable business to be done with Holland.

Most of the mills to-day advanced prices of Patent 10c per brl and it is now held at a range of $4 50@4 75 per 196 lbs in wood.

The range of Eastern prices to-day, Feb. 2, asked by Minneapolis mills for Patent in wood was: Boston, $5 25@5 50; New York rate points, $5 20@5 40; Pittsburg points, $5 10@5 25; Baltimore, $5 10@5 25, Philadelphia, $5 15@5 25; Albany, $5 20@5 40; Buffalo, $5 10@5 35; Michigan, $4 75@5 00, Iowa, Illinois and Wisconsin, $4 70@4 90.

Ohio Valley mills report improved trade. In Michigan transportation has been interrupted by snowstorms and generally bad weather, with the usual results as to Wheat receipts and trade. Shipping directions came in freely at St. Louis, and a fair number of small sales were made to domestic markets. Kansas City had no foreign business and but little to Eastern markets.

WOOL CLIP FOR THE YEAR 1903.

A comprehensive review of the Wool trade for the year 1903 is given by the National Association of Wool Manufacturers in their annual report, just issued. The report says:

"The estimates of the best-informed dealers vary greatly as to the quantity of Wool produced this year as compared with the preceding one. Nearly all claim a shortage of 30,000,000 to 40,000,000 lbs, while some estimate it to be a much greater amount. All agree that the Wools in general are lighter, poorer grown and more uneven than last year, owing to lack of forage and severe weather. These conditions are reflected in our estimate of average weight of fleeces and shrinkage. The average weight for the whole country shows a reduction from 6.50 lbs in 1902 to 6 25 lbs in 1903. This falling off is most noticeable in the territorial States, and it influences, in some degree, the quantity produced in most of the States and Territories.

"On the basis of 39,284,000 Sheep, the quantity of Wool produced, not including pulled or butchers' Wool, is 245,450,000 lbs, as against 274 341,032 lbs last year—a decrease of 28,891,032 lbs.

"Should the Census Bureau be empowered to make a count of Live Stock in 1905, the amount of pulled Wool produced, in the nature of the case, will become a part of the investigation in connection with the Wool clip and the slaughter of Sheep. An opportunity will then be presented to ascertain more scientifically than has hitherto been possible the quantity of Wool pulled from skins, and the data on which an estimate may be founded in the years between the census inquiries. So far as we can judge from the information at hand, there is no reason to suppose the total for this year varies materially from the amount reported a year ago, viz., 42,000,000 lbs, shrinking 33 per cent, and equal to 28,140,000 lbs of clean Wool. The total Wool production of the year, therefore, equals 287,450,000 lbs of Wool, equivalent to 124,366,205 lbs of scoured Wool. This is 13,546,680 lbs less than the estimated production of clean Wool in 1902.

"The farm value of the Wool clip as reported by the twelfth census in June, 1900, was $15,723,739, and represents the value of Wool washed or in the grease, as the case may be. Our estimates are based on the value of the scoured pound at the seaboard, and for the last three years are as follows:

	Fleece and pulled, lbs.	Total value.	Value per pound Fleece.	Value per pound Pulled.
1901	126,814,690	$51,164,709	$ .41.1	$ .36.7
1902	137,912 085	60,678,127	.45.2	.39.7
1903	124,366,205	58,775,373	.48.8	.43.4

"The total value of the Wool crop for the year is 3.14 per cent less than that of the previous year, but the average value per pound of the fleeces has increased 7.88 per cent and of pulled Wool 9.32 per cent. The decrease in the total value is caused by the reduction in the total quantity of Wool produced.

"The receipts of domestic Wool in Boston up to October 1 are only 550,560 bales, as against 663,354 bales for the same period in 1902, a decrease of 112,794 bales, but represent without doubt fully as large a proportion of the year's product. There has been no recent year in which the Wool seems to have passed so early and to so great an extent out of the growers' hands as the present."

THE FOOD SUPPLY.

[From World's Work.]

Since 1870 we have gained from 12,000,000 to 14,000,000 in population in each census period of ten years. At the end of the twentieth century, granting a similar rate of increase, how shall Americans of that day be fed? Sir William Crookes asserted not long ago that in the near future the world will be Wheat hungry, and an eminent American statistician thinks that by 1931 the United States alone will need a Wheat crop of 700 000,000 bu, with none to spare for export. Other staples will, of course, be proportionately in demand, and if we have no Wheat to export by 1931, hard indeed will be the pinch by the end of the century.

Since the twentieth century opened we have seen a Wheat crop of 748,000,000 bu, a Corn crop of more than 2 700,000,000 bu, an Oats crop of close upon 1,000,000,000 bu, a Rye crop of 33,000,000 bu, a Potato crop of nearly 285,000,000 bu, and incidentally something more than 821,000,000 lbs of Tobacco. We feed ourselves, in fact, better than any other nation is fed, and we help to feed many of the peoples of the old world. But will there be the proper increase?

Let us see. The average production of Wheat per acre has gradually increased since 1866, though the increase has not been regular. The average yield per acre has been raised from 10 bu per acre in 1866 to 15 bu in 1901, and there is little doubt that it can be raised even higher by improved cultivation, by the selection of better varieties and by increasing knowledge of ways to combat diseases. By the use of Wheats that grow well in regions of light rainfall the area of actual production has already been considerably extended, and there is every reason to suppose that this increased area can be still further widened.

Look, for a moment, at Corn. The 1902 Corn crop of more than 2,500 000,000 bu was produced by an average yield for the whole country of 26.8 bu per acre, not equaling, in this respect, the crop of thirty years ago. If the 1902 acreage in Corn (94,000,000 acres) were not widened a rod, but if the general average for the country were raised to something like the highest State average for that year, the total production of Corn would be increased by more than 1,000,000,000 bu. The heaviest recorded yields are many times the highest State averages for the crop of 1902, and good farmers often produce from 75 to 100 bu per acre. There is a low average yield in some of the Southern States where it often falls below 10 bu per acre, but Southern agriculture is improving in two directions—farmers cultivate a greater variety of crops, which improves their farms, and they are learning to farm more scientifically.

PIG IRON CONDITIONS IN 1903.

The American Iron and Steel Association has received from the manufacturers complete statistics of the production of all kinds of pig Iron in the United States in 1903. The total production of pig Iron in 1903 was 18,009 252 gross tons, against 17,821,307 tons in 1902, and 15,878,354 tons in 1901. The following shows the half-yearly production in 1903 of pig Iron, in gross tons: First half, 9,707,367; second half, 8 301 885; total, 18,009,252. The production of Bessemer and low phosphorus pig Iron in 1903 was 9,989,908 tons, against 10 393,168 tons in 1902. The production of basic pig Iron in 1903 was 2 040,726 tons, against 2,038,590 tons in 1902. The production of charcoal pig Iron in 1903 was 504,757 tons, against 378,504 tons in 1902. The production of mixed charcoal and coke pig Iron in 1903 was 927 tons. The production of spiegeleisen and ferromanganese in 1903 was 192,061 tons, against 212 981 tons in 1902.

The stocks of pig Iron which were unsold in the hands of manufacturers and which were under their control in warrant yards and elsewhere at the close of 1903, and were not intended for their own consumption, amounted to 591,438 tons, against 126,301 tons on June 30, 1903, and 49,951 tons on December 31, 1902. The American Pig Iron Storage Warrant Company held no pig Iron whatever in any of its yards on December 31, 1902, but on December 31, 1903, it held 47,200 tons, of which 40,149 tons were still controlled by the makers and 7,051 tons were in other hands. The whole number of furnaces in blast on December 31, 1903, was 182, against 320 on June 30, 1903, and 307 on December 31, 1902. The number in blast at the end of 1903 was the smallest at the close of any calendar year since December 31, 1896, when 159 furnaces were in blast.

THE WEATHER CONDITIONS.

The almost complete lack of moisture is the feature of the weather map this morning. There is a trace of snow at Chicago and a few traces in the Ohio Valley. There is absolutely no precipitation in the Southwest where it is so much needed. The temperatures are low.

Generally fair weather indicated although threatening in localities. There will be a general moderation of temperatures.

ITEMS OF GENERAL INTEREST.

The Blakely Furniture Company, Shelbyville, Ind., assigned, Tuesday, in favor of its creditors. The liabilities are placed at $25,000, with assets at $17,000.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Jan. 17 have amounted to 3,532,000 bu, against 3 768 000 bu in the previous year, and 2,076,000 bu in 1901-2.

The Wheeling and Lake Erie machine shop at Canton, O., was destroyed by fire Tuesday. Valuable machinery and two locomotives were practically ruined. The loss is from $75,000 to $100,000.

Diamond Match Company's gross earnings for 1903 were $1 824,089; decrease, $135,516. Net surplus, $321 089, decrease, $133,595. There was $1,618,682 charged off for depreciation. Net surplus is now $1 000,000.

Advices from London state that the International Mercantile Marine Company has postponed the payment of the dividend for the first half year upon the preference shares of the Leyland Line (Frederick Leyland & Co.) limited.

The London *Standard* says it understands the Government and Joseph Chamberlain are considering a suggestion which has been made that, instead of a duty on foreign Wheat, a bounty shall be given on Wheat grown in Great Britain and the colonies.

The Wisconsin Land and Lumber Company's logging line in Shawano County, forty-five miles in length, from Aniwa to Regina, Wis., has been sold to the Chicago and Northwestern Railway Company for $50,000. The road will be modernized and extended to Shawano.

An officer of the Paper Products Company says there is a noticeable improvement in the demand for Box Boards. The improvement has been nothing like a rush, but there is the usual slow gain in orders which sets in early in February, preliminary to spring business.

The receipts of Flax Seed in the Argentine for the week ended Dec. 24 were 20,000 bu, against 32 000 bu in the previous week and 16,000 bu in the same week last year. The total receipts from Jan. 1 to Dec. 24 amount to 27,892,000 bu, against 15,132,000 bu during the same period last year.

The shipments of Flax Seed from India from April 1 to date amounted to 17,296,000 bu (Calcutta 11,448,000 bu and Bombay 5,848,000 bu), against 12,240,000 bu last season (Calcutta 8,528,000 bu and Bombay 3,712,000 bu), and 13,632,000 bu in 1901-2 (Calcutta 10,176,000 bu and Bombay 3 456,000 bu).

The receipts of Flax Seed at Bombay for the week ended Dec. 30 amounted to 1,655 tons, against 508 tons in the previous week and 244 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Dec. 30 amount to 150,903 tons, against 101,280 tons in the corresponding period in 1902.

The *Corn Trade News* of Jan. 23 says: "Our correspondent at Oporto, Portugal, now writes that the Government recently published a decree authorizing the import of 2,240,000 bu Wheat before next July, with a duty of about 14s per quarter. Little or nothing has been imported so far owing to the high prices ruling abroad."

The Traders' National Bank, Clarksburg, W. Va., has been closed by order of the Comptroller of the Currency and a national bank examiner has been placed in charge. It is the largest bank in the city, with assets of $1,250,000, and deposits of $975,000. It is thought the bank will resume business. No statement of its condition has been made.

A Berlin letter discussing the probable effects of war between Russia and Japan, says: "Russian banks, which loaned so much money to farmers on their Wheat holdings, would recall their loans in case of a war, and a deluge of cheap Russian Wheat would be forced on the Continental markets. Berlin, however, believes that peace will be maintained."

Cuba exported 303,116 bales of Tobacco in 1903, valued at $12,124,646, or 43,424 bales less than in 1902. There were 208,608,450 cigars shipped, valued at $14,616,507; 14,341,440 packages of cigarettes, valued at $358,536, and 106,873 bales of cut Tobacco, valued at about $128,248. The United States took 45,800,000 cigars and 181,428 bales of Tobacco. England bought 92,000,000 cigars.

A Boston dispatch says: "Trading in Wool has been fairly active, with steady calls on dealers. The price has held firm on all grades. The situation is regarded as being more in the sellers' favor than for many weeks. Territory Wools have been active, with sales estimated between 4,000,000 lbs and 5,000,000 lbs. Pulled Wools continue strong and active. For foreign Wools the market is firm."

According to officials of the Chicago City Railway and Union Traction Companies, the elevated lines were not alone in feeling a diminution of traffic during January. The closing of the theaters had an equally depressing effect upon surface line travel. Besides the unusually heavy expense of removing snow the lines are said to have suffered a loss of fully 10 per cent in traffic for the month.

In a circular sent to stockholders of the South Side Elevated Railroad Company, Chicago, Wednesday, the president and the board of directors announce April 7, 1904, as the date of the special meeting of the stockholders to vote on the proposition to increase the capital stock from $10 323,500 to $17,550,500, for the purpose of making the extensions and improvements previously announced as being contemplated.

The Ohio Supreme court, Tuesday, declared unconstitutional the law permitting trust companies to administer estates. The opinion was given in a case appealed from the courts of Franklin County involving the estate of the late ex-Mayor Cotton Allen. The Probate court had appointed the State Savings and Trust Company administrator after a disagreement among the heirs and the appointment was contested.

Interests usually well informed say the Steel corporation's net earnings for January were slightly in excess of the fixed charges and the full dividend on Steel preferred. If this estimate is correct, it means in figures nearly $6,600 000 net, or within $825,000 of January, 1903, and $2,300,000 of January, 1902. It is also double the net returns of last December, estimated at $3,100,000, and within $1,000,000 of the net returns for October, 1903.

A director of Street's Western Stable Car Line says there is little likelihood of an increase in dividends on the common stock of the company. He says the annual statement of earnings to be submitted at the annual meeting the last of this month will show a substantial cash surplus has been earned, but that it is not the policy of the company to disburse it, especially when it is not clear what railroad business will show during this year.

A Chicago exporter has advices of very bad markets for recent consignments of Cattle landed in England and Scotland. Very heavy losses on various cargoes are reported, which with the missing of several boats recently in which space had been contracted, and which space must be paid for, even though the vessel sailed without the Cattle, renders the last ten days about the most disastrous to exporters that have been encountered in a long time.

The Monarch and Atlas Distilleries of Peoria, Ill., two of the largest houses owned by the Distilleries Securities Corporation, have shut down for an indefinite period. The closing is due to a lack of demand at present and the large amount of spirits on hand. The Corning Distillery, compelled to shut down last October because of an explosion and a subsequent fire, has begun operations while the new Wooiner Distillery will start in a few days. Both are independent houses.

The *North British Agriculturist* of Jan. 20 says: "In the northern counties of Scotland field work is greatly in arrear on account of the long spell of frost, but in most other parts the field work is now getting to be passably well forward. The stores of roots are being replenished, but over most parts of the country the root crops are disappearing rapidly, as also are the stack yards. Over the greater part of the country both roots and fodder will be very scarce by spring. Up till now the winter has been a fairly favorable one and the usual routine of farm work is being carried on in good style."

The following notice has been sent to the Chicago Stock Exchange: "The transfer books of the West Chicago Street Railroad Company will be closed at the close of business Friday, Feb. 5, 1904, for the purpose of determining what the stockholders of the road are entitled to Feb. 15, 1904, to distribute on the shares for rental for the quarter year commencing Sept. 1 and ending Nov. 30, 1903, if any may have been earned under the lease of the West Chicago Street Railroad Company to the Union Traction Company dated June 1, 1899, as modified by the agreement between said companies of July 24, 1903, such rental, if any, being payable under the said lease Friday, Feb 15, 1904." This is the same form as used in the notification regarding North Chicago dividends, and indicates that the amount of dividends have not yet been determined, or whether any will be paid. It is considered probable that the West Side lines will get some payment.

The Kirby Lumber Company and the Houston Oil Company, Houston, Texas, were placed in the hands of receivers, Tuesday. The Kirby Lumber Company is capitalized at $10 000,000, of which $5,000,000 is preferred stock and $5,000,000 common stock. Of the Houston Oil Company's capital stock of $30,000,000, $10,000 000 is preferred stock and $20,000,000 common stock. The property of the Kirby Lumber Company consists of eighteen Lumber mills and mercantile stores, all in Texas; 142 miles of railroad, 700 cars, 55 locomotives, 240,000 acres of pine land, logging outfits, tie and piling outfits. This company's inventory shows $1,000,000 worth of Lumber on hand. Its assets are claimed to be $12,500 000 in excess of liabilities. The Houston Oil Company owns 1,000,000 acres of pine land, valued by experts at $30,000,000, and Oil property of enormous value. It controls a large part of the Corsicana Oil fields, the Sour lake region, and the Nacogdoches Oil field.

Broomhall cables: "With the exception of rain in parts of Santa Fe, late planted Corn in many districts of Argentina is suffering from drouth."

In the suit of the estate of Max Meyer against the Metropolitan Elevated and Cons. Loop Company of Chicago, for $300,000 damages to property, the jury disagreed.

A London cable says: "Argentina advices from the interior are of a satisfactory tenor on account of drouth in some sections. Fears of damage to Corn is entertained."

Directors of A. Booth & Co. have declared the regular semi-annual dividend of 4 per cent on the preferred stock, payable March 1. Books close Feb. 21 and reopen March 10.

The receipts of Wheat at Liverpool during the past three days were 264,000 bu, of which 104,000 bu were American. Receipts of Corn, 232,000 bu, of which 128,000 bu were American.

Argentine Wheat visible is 3,680,000 bu, against 3,550,000 bu the previous week, and 1,800,000 bu last year. Argentine Corn visible is 789,000 bu, against 850,000 bu the previous week, and 197,000 bu last year.

Local Securities were moderately traded in and prices were irregular. Biscuit common broke ½ on heavy selling, but reacted on good buying. Metropolitan Elevated preferred advanced ½ and broke 1 point.

Average cost price of Hogs at Chicago, Thursday, was $4 85, against $4 89 Wednesday, $5 03 a week ago and $6 80 a year ago. Average cost the first four days of this week, $4 81, against $5 03 a week ago, and $6 71 a year ago.

Shipments of Wheat from Argentina this week were 2,816,000 bu, against 2,056,000 bu the previous week, and 1,274,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 7,096,000 bu, against 3,082,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 694,000 bu, against 440,000 bu the previous week and 113,000 bu for the corresponding week year. Shipments since Jan. 1 reported at 3,944,000 last bu, against 633,000 bu for same time last year.

The shipments of Flax Seed from Argentina this week were reported at 1,520,000 bu, compared with 1,104,000 bu last week and 1,688,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 4,192,000 bu, compared with 3,520,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 2,604,000 bu, against 2,917,000 bu for the previous week, and 3,535,000 bu for the corresponding week last year. Exports from July 1 reported at 104,994,000 bu, compared with 150,987,000 bu for the corresponding time in 1902-03.

Broomhall cables: "Conditions affecting the Argentine Wheat markets are about the same as a week ago, the tone being steady and the demand for export good, while arrivals from the interior are again liberal and quality satisfactory. Corn markets easy in tone, with but small foreign demand. Arrivals at ports of shipment small."

In the New York Cotton market the excitement showed no abatement. Weakness was the feature. Liverpool opened 60 to 70 points lower. This started selling and demoralized the market. Prices dropped 100 to 175 points after a slightly higher start. "Bull" leaders who recently sold out were credited with large buying. The market closed 35@48 points lower.

Stocks in New York were weak and lower on apprehensions of war and in sympathy with the break in Cotton. There was liberal selling by pool brokers, but on the breaks the latter bought. Industrials lost ¼ to 2¼, Railway shares ½ to 2 points, and Tractions declined ½ to 2 points. It is said that the Pennsylvania will borrow $40,000,000 for eighteen months.

The *Modern Miller* says: "The Wheat crop appears to be in fair condition in all parts of the Winter Wheat belt excepting in Eastern Kansas, Oklahoma and Texas, where there has been insufficient moisture ever since the crop was seeded, and where there is a complaint of poor germination. Other sections of the Winter Wheat country show the top growth is backward, and appearance not the best, but a good root growth. The movement of Hard Winter Wheat to market is decreasing, as supplies in the interior are greatly reduced. No Soft Winter Wheat is being offered."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is somewhat unsettled owing to the action of Wheat. Soft Winter Wheat Flours, however are wanted and are firm. Foreign sales limited.

WINTER WHEAT Was quiet and the feeling easier with no special change in prices. Buyers were less anxious to purchase. However, receipts were very small and this itself restricted trading. No. 2 Red in store quotably 92c, 93c and fresh arrivals free on board quotably 95@96c. No. 3 Red fresh receipts sold at 93c and ranged at 90@93c for ordinary to very choice soft bright Wheat. No. 2 Hard at the river quotable at 86@88c. No. 3 Hard at the river sold at 80@84c, with a choice car at 87c.

SPRING WHEAT Was quiet and easy. There was no special change, in fact so little doing it was difficult to establish a market. Choice Wheat would sell and brought about former quotations, but demand not urgent and poor Wheat ruled very dull. No. 1 Northern in store quotable at 90½@93c, and fresh arrivals free on board quotable at 92@95c. No. 2 Northern fresh arrivals quotably 88@93c. No. 3 Spring local quotable at 80@92c for common to very choice hard variety with a sale at the river at 83c. No. 4 Spring sold at 82c for common to 81@85c for good to choice hard variety with poor quotably down to 65@75c.

REGULAR WHEAT—There was a heavy trade and excited, nervous feeling in Wheat the first hour. Later, more normal conditions prevailed, but the close showed the May off ⅜@½c. July advanced ¼c and the September about ⅛c. The opening was most irregular, May touching 96c when there were immense quantities for sale, the break which followed catching many stop-loss orders. The price touched 93½c, rallied to 94⅞c, reacted to 94c and closed at 95c asked. A good share of the selling was credited to the "long" interest, which gave the market support around 91c. Selling July and buying September was a feature. Among the "bearish" influences were the large Argentine shipments, 2,816,000 bu, decline in the Cotton market, irresponsive cables, breaking of the drouth in California, break in cold weather Southwest and rains in Texas and Oklahoma. Consols were higher early. Argentine shipments since Jan. 1 are 7,096,000 bu, against 3,082,000 bu one year ago, and the visible supply was reported 3,680,000 bu, compared with 1,800,000 bu last year. Receipts in the Northwest were larger than last year, but primary receipts 167,000 bu smaller. Kansas City and St. Louis received 195,000 bu; last year, 60,000 bu. Shipments two points 219,000 bu. Weekly exports but 2,604,000 bu, against 3,06[illegible],000 bu one year ago. Rain or snow was predicted by the Signal Service. Liverpool quoted spot steady to ⅛d higher and futures only ⅛@¼d better. Receipts there the past three days, 264,000 bu. London was ⅛@⅛d lower and Paris 15c higher. Antwerp unchanged. Berlin and Buda Pesth declined ½c. All the mills at Minneapolis were reported as started up. Stocks of Wheat there this week expected to decrease 25,000 to 35,000 bu. Winnipeg received 16 cars, against 74 cars last year. Primary receipts July 1 to Feb. 1, 172,000,000 bu; 1902-03, 201,000,000 bu; 1901-02 185,000,000 bu. Winnipeg reported 56,000 bu cash sold at best prices of the crop. Consols closed ¼ point lower. Odessa stocks Feb. 1 reported 7,200,000 bu, decrease during January 5,000,000 bu. Stocks a year ago, 6,000,000 bu. Duluth stocks Wheat expected to increase 25,000 bu. Receipts at Duluth 34 cars and at Minneapolis 302 cars, a total of 336, against 237 cars yesterday, 229 cars a week ago, and 304 cars last year. Local receipts included 17 cars Winter, 6 cars Spring and 2 cars mixed, a total of 25 cars, against 20 cars last year. Included in above was 1 car of contract grade. There were 15 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 20 cars. Withdrawals were 7,000 bu. Receipts at Western points were 553,710 bu, against 728,716 bu last year. At eastern points 34,725 bu, against 83,111 bu last year. Shipments from Western points were 297,095 bu, against 207,159 bu last year, and from Eastern points 97,443 bu, against 106,005 bu last year. Shipments of Flour were 24,354 brls. Exports of Wheat in Flour were equal to 219,042 bu.

Future Deliveries of Regular Wheat—Good trade and closing lower.

FEBRUARY—Entirely nominal, and closed at about 92c.

MAY Sold at 93½@96c. Opened with sales at 95c to 96c; sold to 95¼c, to 94⅞c, to 95½c, to 93½c, to 94¼c, to 93½c, to 94¾c, to 94⅛c, to 94¼c, to 94c, to 94½c, to 94¼c, to 94⅝c, to 94⅛c, to 94¼c, to 91⅞c, to 95c, and closed at 95c asked.

JULY—Sold at 84½@86⅛c. Opened with sales at 85¾c to 85⅛c; sold to 84¾c, to 85⅛c, to 84½c, to 85¼c, to 84⅜c, to 85¼c, to 86c, to 85⅜c, to 84¼c, to 86⅛c, to 85⅞c, to 85⅞@86c, and closed at 85⅞@86c.

SEPTEMBER—Sold at 79¼@80⅛c. Opened at 80c to 79¾c; sold to 79⅜c, to 79⅜c, to 79⅝c, to 79⅜c, to 80c, to 79⅜c, to 79⅜c, to 79⅞c, to 80⅛c, and closed at 80⅛c.

CORN May closed shade better while the July was ⅛@¼c higher. There was an immense trade and erratic, excited market in Corn. Liquidation in May was early feature, offerings being heavy, the selling coming from the principal "longs." The break in Wheat and Cotton and irresponsive cables started the early rush of selling and stop-loss limits were reached around 55c, which tended to demoralize the market. July on the contrary was wanted and the spread narrowed to about 2¾c, as against 4¼c yesterday, Provision interests being credited with unstraddling. This difficulty in selling May and relative strength of July was the chief feature. Receipts this week 1,93[illegible] cars, with 81 per cent low grades, against 1,623 cars last year, with 43 per cent off grades. Estimates to-morrow 200 cars. Liverpool advanced only ⅛d and spot unchanged. Argentine shipped 694,000 bu and visible there is 789,000 bu against 197,000 bu last year. The weather was mild and rain or snow predicted West. Receipts West 544,000 bu; last year 593,000 bu. Shipments 389,000 bu and 568,000 bu respectively. Local arrivals 241,000 bu; shipments 181,000 bu. Transfers from private to public elevators 20,000 bu and 218 cars. Exports for the week 1,411,000 bu, against 2,400,000 bu last year. Bookings at the seaboard 10 loads. Cash sales here small. Late planted Corn reported in need of rain in Argentine. Argentine shipments since Jan. 1 3,944,000 bu; year ago 633,000 bu. Kansas City was easy, while St. Louis was relatively steady. Car lots were in good demand and small supply. Feeling firm and prices 1@2c higher. No. 2 closed about 52¼c and No. 2 Yellow at 52¼c. No. 3 closed at 44½@51¾c. No. 3 Yellow closed at 45@52¼c. No. 4 sold at 43c. No Grade sold at 37½c.

Corn by sample—Offerings were moderate and the demand good. Feeling was firm and prices advanced 1@2c. Sales on track and free on board. No Grade sold at 35@39½c. No. 4 at 33@44c. No. 3 at 45½c. No. 3 Yellow at 43¼@53c. No. 3 White at 45½@46c. Billed through No Grade at 38@39½c. No. 4 at 37@43½c. No. 3 at 41c. No. 3 Yellow at 44½@44¾c. No. 2 Yellow at 52c. No. 3 White at 44@45c.

Future Deliveries of No. 2 Corn—Active and market unsettled, and closed ⅛c to 1¾c higher.

FEBRUARY—Sold at 51⅜c and 52c, and closed about 52¼c nominally.

MAY—Sold at 54⅜@56¼c. Opened at 56c to 55½c and sold at 55¾c to 55½@55⅝c, to 55⅞c to 55¼c, to 55½c, to 54⅜c, to 54¾c, to 55¼@55⅜c to 55c, to 55⅜c, to 54⅞c, to 56¼c, to 56c, to 56⅛c, and closed at 56¼c.

JULY—Sold at 51⅜@53½c. Opened at 51¾c to 52c, and sold at 51⅝c, to 52c, to 51⅛c, to 52⅛c, to 51⅝c, to 51⅞c, to 51½c to 51⅝c, to 53⅛c, up to 53½c to 53⅜c, and closed at 53⅜c.

SEPTEMBER—Sold at 50⅜@52⅜c. Opened at 50⅝c to 50½c and sold at 50¾c, to 50⅜c, to 50¾c, to 50½c to 50¾c, to 50⅞c, advanced rapidly to 52¼c and closed at 52¼c.

OATS There was an excited market, with greater fluctuations. A selling movement, engineered by a few local traders forced a break of 2c in May within a short time after the opening. It caught the market full of stop orders and forced a good part of the decline. On the bottom, those who led the selling turned buyers, and with the help of a rally in other Grains and war news caused a complete recovery, the close being at the same as yesterday for all months. The deferred deliveries were off ⅜@⅝c early in the session, as they were not offered quite as freely as the May. Commission house trading was not so large, but the market was active. Cash lots were in better demand, with sales of 45,000 bu at the best of the season. At the same time the East was offering to resell cheaper than they can be put down for. Arrivals were 98 cars, with 110 cars expected for to-morrow. Withdrawals 2,000 bu. Seaboard clearances were 12,300 bu. Car lots to go to store were lower early, but recovered the loss. No. 4 White sold at 43@43¾c. No. 3 White at 44@44½c. Standard at 44½@45c. Standard in store closed at 43¼@43¾c as to location.

Oats by sample were ½@1c lower early with futures but recovered the loss and closed about the same as yesterday. Offerings were moderate and demand from East and South good. Sales on track and free on board. No. 4 at 41½@43c. No. 4 White at 37½@44½c. No. 3 at 40¾c. Standard at 41¼@41½c. No. 2 White at 45½c. Billed through No. 4 White at 40½@43¼c. No. 3 White at 44@44½c. At the river No Grade at 36c. No. 4 White at 35@42c. No. 3 White at 41@43c.

Future Deliveries of Contract Oats Were unsettled within 2c range and closed the same as yesterday.

FEBRUARY—Offered at 2½c under May with 42c bid. Closed about 43¼c.

MAY Excited Sold at at 44¼@46¼c. Opened at 46c to 46⅛c, sold down to 45c then dropped quickly to 44¼c. Stop orders at 45c were executed at 44¾c to 44½c during the rush to sell. A quick recovery was made, and closing sales were at 46¼c.

JULY—Moderate trading. Sold at 39⅛@39¾c. Opened at 39¾c, sold to 39c, to 39¾c at close.

SEPTEMBER—Sold at 33⅜@33¾c. Opened at 33⅝c, sold to 33¾c at close.

RYE Ruled firm and quotably ½c higher. There was a light demand and light offerings. Scarcely any business doing. The receipts were three cars, and there was withdrawn from public elevators 5,200 bu. No export clearances from the seaboard. No. 2 Rye in store nominally 62½c for round lots, and quotably 61@66c for car lots fresh arrivals. No. 4 sold at 54c for good, and some offered for which 50c was the best bid.

Future Deliveries of No. 2 Rye Quiet and firm. February nominally 62½c. May sold at 64½c, and that the close.

BARLEY The extreme outside prices lately quoted for Screenings and feed Barley were not obtained to-day. Perhaps it was that the goods on sale were not quite good enough. No change was quoted and no weakness noticed. The market was quotably steady all around. The demand was not large in any case, and the same may be said of the offerings, they being moderate. Forty-one cars were inspected in. In some cases both Barley and Screenings were held at limits not obtainable and some lots were held over. Screenings were quotable at 33@34c for poor to choice. Barley, feed or mixing, was steady at 35@40c, possibly to 41c if thin and nice color, poor, musty nominally lower, malting—low grade about 42@43c; very dirty below, common, 44@46c. Fair was about 48@51c; good, 52@56c; choice 56@58c, fancy possibly above.

SEEDS No essential change in any part of the market. In Grass Seeds no business was done, and in the Flax market only a few cars were sold. Dullness of trade and steadiness of prices appeared to be the features present.

Timothy There was an inactive and unchanged market. Cash offerings remain absent. Some to arrive Seed was shown for bids. In a speculative way, March was the only future named. For this buyers and sellers were apart. There really was no quotable change in prices. Market for contract spot Seed was nominally about $3 65. For March delivery $3 15 asked and $3 10 bid. Country lots quotable over a range of $2 2[illegible]@3 1[illegible] for poor to fancy, fair to good quotably $2 80@2 95; choice, $3 00@3 00 and rough, dark and foul lots about $2 40@2 50.

Flax—Was about unchanged. The market remained quiet. Offerings and demand as of late were restricted. Movement light. There was not enough change in the Northwest to have any particular influence here. Local receipts were 6 cars or 5,100 bu and output 4 cars or 3,400 bu. There were 36 cars received at Minneapolis and 27 cars at Duluth. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 18 with that paid, and No. 1 salable at $1 11. Rejected quotably $1 05@1 12 as to quality; a car of choice Northwestern sold at $1 12. February was nominally $1 11, May was $1 14 bid and $1 15 asked.

Clover—Remained nominally unchanged in the absence of offerings. It was salable, and quotably steady for good qualities at least. Contract spot Clover was quotably $10 75@11 00 and March delivery at $11 00. Country lots, common to choice $8 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00; inferior lower, fair to good quality about $9 00@10 00.

Other Seeds—Some Hungarian to arrive appeared on sale. No one in particular looking for Seeds under this head to-day, and yet all were quotably steady, as follows: Hungarian, common and light color to choice, dark at $1 50@1 85. Common Millet 90c@$1 25 for poor to fancy. German Millet, 90c@$1 25. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 8c@$1 05. Buckwheat steady; good milling quotable at $1 15@1 20.

HOG PRODUCTS Trading was quite active in a speculative way, and the feeling was considerably unsettled. Prices ruled irregular. Hogs were in fair supply and lower, and the Grain markets were easier, and this combination of circumstances encouraged rather free offerings from packers and "longs" especially early in the day. Demand was moderately active and chiefly from parties who were willing to accept moderate profits. Outside orders were fair and local trading was rather active. Prices declined materially early in the session. At inside figures, there was a fair inquiry, and a little more steadiness was manifested, with a moderate rally in prices. The market closed rather steady around medium figures. The receipts of Hogs at the leading Western packing points were estimated at 72,300, compared with 57,000 one year ago. Foreign markets were quiet and rather easy. Liverpool quotations were reduced 6d on Backs and Cumberland Sides. Domestic markets were comparatively steady. Receipts of Products were moderate—of Lard and Meats about 15 cars. Shipments were only fair of Lard and Meats about 100 cars. Inquiry on shipping account was only fair, and exclusively for domestic wants. Offerings were not very large. Sales moderate, and prices unchanged.

Mess Pork—Rather an active business was reported in Mess Pork, and the feeling was unsettled. Offerings were moderately free, and the demand was only fair. Bulk of the trading was in May contracts. Market opened at about the closing figures of Thursday but there was some pressure to sell, and prices irregularly declined 22½@25c. At the decline, the demand improved and prices rallied 10@12½c, and closed rather steady. Shipping demand was limited and offerings were moderate. Cash lots quotable at $13 50@13 62½.

MAY—Offerings were quite free, and the demand was fairly active. Sales were made at $13 45@13 72½. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Feb. 4.]

The marketing of Hogs is being maintained in fairly liberal numbers, which considerably exceed the corresponding time last year for the week. Total Western packing, 650,000, compared with 520,000 the preceding week and 580,000 two weeks ago. For the corresponding time last year the number was 450,000, and two years ago 455,000. From Nov. 1 the total is 6,980,000, against 6,815,000 a year ago—an increase of 125,000. Prices at the close are about the same as a week ago, indicating for prominent markets an average of $4 90 per 100 lbs. compared with $4 90 a week ago, $4 75 two weeks ago, $6 75 a year ago, $6 10 two years ago, $5 25 three years ago, and $4 75 four years ago.

The speculative Provision market was fairly active the past week, and prices at the close are slightly above the close a week ago for leading articles, at Chicago. The influence of the coarse Grain markets seem to be the most important factor in the situation. Trading was mainly in May contracts although July deliveries are gaining in attention. The export clearances of Product were fairly liberal, showing an increase over the preceding week, and a gain as compared with the corresponding week last year.

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows:

	Feb 1, 1904.	Jan 1, 1904	Feb 1, 1903
Chicago	131,310,000	123,165,000	155,787,000
Kansas City	34,248,000	28,317,000	21,765,000
Omaha	34,449,000	27,883,000	34,352,000
Milwaukee	17,905,000	12,014,000	12,905,000
St. Joseph	19,842,000	15,822,000	20,172,000
Total, lbs	236,579,000	20[illegible],011,000	209,291,000

This indicates an increase of 30,000,000 lbs in the total compared with a month ago, while the stocks were increased 130,000,000 lbs last year for the corresponding period. The total at these points is now 27,000,000 lbs more than a year ago and 55,000,000 lbs less than two years ago. The total stocks of Lard at the five centers named in the foregoing table on Feb. 1 were 49,000 tcs, compared with 33,400 tcs a month ago and 39,100 a year ago.

The total stocks of Cut Meats, of Short Rib Sides, of Sweet Pickled Hams, in pounds, and of Lard in tierces, at Chicago, Kansas City, Omaha, Milwaukee and St. Joseph, compare as follows, for dates indicated:

	Feb 1, '04.	Jan 1, '04	Feb. 1, '03.
Total Cut Meats	236,579,000	207,691,000	209,291,000
Short Rib Sides	37,437,000	38,013,000	15,352,000

MILLS CURTAILING OUTPUT.

[From the Northwestern Miller, Feb. 3.]

Many mills in the Northwest will run half capacity or less this week. This fact has been caught up by the daily papers and some Grain interests as a basis for sensational statements. One of these was that the mills were after the scalp of the Armour people in Chicago, who are popularly supposed to be engineering a deal in Wheat. Another was that they wanted to break the cash Wheat market. The simple truth is that the mills are unable to sell Flour, and rather than continue running and to throw more of their product on a dead market, they are curtailing their output. This incidentally affects cash Wheat and perhaps takes some support from the speculative market. To the Grain and Flour trade this may seem an innovation and a departure from old methods, but it is nevertheless in line with common sense. In the past, the mills have persisted in running when there was no demand for Flour and if not able to get cost, to sell at a loss. The mania was to turn out Flour whatever the sacrifice. One miller did this because the other fellow did it. Incidentally, the price of cash Wheat was kept at high point; millfeed was depressed, while Flour was piled on an already depressed market, and slaughtered. Though a little late, millers have found this sort of thing did not pay. They are now exercising a little common sense. While possessing plenty of old orders, shipping directions can not be obtained fast enough to keep the mills in operation. The result is that they are making less Flour.

The Northwestern Wheat crop is conceded to be short of the requirements of the mills, and were they to run full capacity at this time, it would only be to "bull" cash Wheat and make it the scarcer later in the year.

Many Eastern buyers, though they have a good profit in Flour booked with millers, are not ordering it out for the simple reason that it can not be sold. As an illustration, one miller yesterday stated that he knew of Flour on track at a point in Pennsylvania upon which the owner had 30@35c profit but it could not be disposed of and had to go into store.

The foreign situation seems even more unfavorable than the domestic. Reports indicate that Flour stocks in the United Kingdom are large and that spot stuff is being resold at a price much under what millers could afford to accept.

Taking into account the conditions which apply to Flour, the manufactured article, it is a little difficult to work up enthusiasm for dollar Wheat.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Feb. 4.]

The past week was generally very cold, though in the more southerly part of the Winter Wheat section there was a day or two of thawing weather. Over most of the area east of the Mississippi River the ground is still covered with snow, and Iowa and Nebraska are fairly well covered; there is very little, however, in Missouri and Kansas. The status of the crop is about the same as a week ago, compared with a month ago the condition has been maintained. The season, while cold, has been unusually even tempered, until lately, and consequently there has been only a little complaint of winter killing, notwithstanding the tender development of the plant when the winter set in. The small growth and unpromising appearance of top growth, particularly in the Southern portions, and probably healthy root condition, are the characteristic features of the situation. Complaints of insects have been very limited all season. At present there is no essential lack of moisture.

The interior movement of Wheat is moderate. Some reports indicate that farmers are selling at present prices, others that they are holding for higher prices. The movement to primary markets is being affected some by the freight rate cutting in the West. The average weekly primary receipts of Wheat during the past five weeks and the average weekly receipts during the same period in the past five years are shown as follows, in bushels:

	This season	Past 5 years.
St. Louis	548,000	209,000
Toledo	35,000	89,000
Detroit	23,000	55,000
Kansas City	1,149,000	843,000
Chicago	331,000	531,000
Milwaukee	162,000	151,000
Minneapolis	2,229,000	1,807,000
Duluth	352,000	382,000

The movement of Corn continues light to moderate, except in limited areas, where there is a liberal movement. There is no apparent change in the condition of the crop, complaints of the Grain not drying out properly being characteristic of reports in general. The poor grading, due to excessive moisture, tends to restrict the shipping of Corn.

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for thirty-one weeks, from June 30 to Feb. 1, with comparisons, as compiled by the Cincinnati *Price Current:*

THE WEATHER CONDITIONS

The weather map shows some rains in the Southwest this morning and quite general rains on the Pacific Coast. There are heavy rains in Texas, and it was raining at Wichita and Oklahoma at 7 A. M. Temperature in Northwest keeps low. Moderate in the West and Southwest. Light general snows in Manitoba.

Rains in California are quite general and heavy—Los Angeles, .70; 'Frisco, .60; Fresno, .20. Rains in Texas are also heavy—Fort Worth, 1.56, and at Oklahoma, .10, and beginning to rain at Wichita.

Indications are for unsettled weather, with snow or rain. Colder to-day and Saturday.

ITEMS OF GENERAL INTEREST.

The building occupied by the Great China Tea Company, at Cincinnati, was totally destroyed by fire, Tuesday. Loss, $250,000.

Depression in the Iron and Steel industry caused a decrease in Pittsburg's January bank clearances of over $9,000,000 compared with the same week last year.

During January 12,617 Live Cattle and 69,335 quarters of Beef were exported from Boston, being the largest January exports on record from that port.

It is reported that the American Sugar Refining Company, during the depression of last August, invested $20,000,000 of its cash reserves in good securities at cheap prices.

The Southern Pacific Company has applied to the New York Stock Exchange to list $15,000,000 additional two to five-year 4½ per cent collateral trust bonds of 1905.

The National Webster Bank and the Atlas National Bank, two of the larger Boston financial institutions, will consolidate. The combined deposits of the banks are $4,500,000.

Net earnings of the Diamond Match Company for the year ending Dec. 31 applicable to stock were $1,824,189, or 12.10 per cent on the $15,000,000 capital stock. For the previous year they were $1,957,071, or 13.05 per cent on the stock.

A dispatch from Washington says that new Philippine bonds to the amount of $255,000 have been accepted by the Treasury Department as security for public money in depository banks in exchange for a like amount of the matured 5 per cent bonds.

A party of Denver was given a verdict of $5,000 in the United States Court of Appeals at Milwaukee Wednesday against the Northern Pacific Railroad for injuries received in a collision, although the party obtained the railroad ticket from a scalper.

Notices have been sent to stockholders of the annual meeting of the Chicago Pneumatic Tool Company, to be held in Jersey City, Feb. 15. No stock can be voted which has been transferred on the books of the company within twenty days next preceding the annual election.

The Illinois and Kentucky Railroad Company was incorporated Wednesday. The offices are to be in Chicago. The line will extend from Harrisburg, on the Ohio River, to Marion, Carrier Mills and Eldorado, through the counties of Williamson, Saline, Pope and Hardin.

A Pottsville, Pa., dispatch says: "A receiver has been asked for the Lytle Coal Company, which has 17,000,000 tons of Coal proven in the veins. The Pennsylvania Coal Company owns 40 per cent of the stock, the Reading 30 per cent, and individuals the remainder. There have been dissensions over the management."

A St. Louis telegram says: "Rumors that the St. Louis Transit Company is on the verge of a receivership and that an assessment is to be made soon caused a second heavy slump in the stock Wednesday. Another rumor that appeared is that a reorganization and a new management will be announced soon."

The independent sheet Steel manufacturers have advanced their prices about $2 00 a ton, as they find that the prevailing prices are below the actual cost of production. When the American Sheet Steel Company reduced the price to $18 00 a ton the independent companies met the cut and went $2 00 lower. The bar Iron price has been advanced $1 00 to $3 00 a ton.

Articles of incorporation for the Herrin and Southern Railroad Company, with principal offices in Chicago, and a capital stock of $10,000 were filed in the office of Illinois Secretary of State, Wednesday. The line is to be constructed from a point on the Illinois Central road near Herrin, in a southeasterly direction, a distance of about five miles.

It is reported that the Ofen-Pester Mill at Buda Pesth has secured a controlling influence in two other mills there, the capacity of the three establishments being some 7,000 sacks of 220 lbs per day. Other mills are said to be likely to join the combine, the chief object of which appears to be to put the Wheat buying and Flour selling of the various mills under one directorate.

Net earnings of the Knickerbocker Ice Company, Chicago, for the fiscal year ending Dec. 31, 1903, amounted to $390,285, an increase of $72,760 over those of the previous year. Earnings applicable to stock were $190,651, or 6 per cent on the preferred issue and 2.77 per cent on the common issue. In 1902 the earnings for stock were $220,013, or 6 per cent on the preferred and 1.3 on the common.

The *Coal Trade Journal* says: "Weather conditions continue to dominate the Coal trade. Such will aid very materially in the cleaning up of stocks which dealers and others have been carrying, and put the general market in good shape to enter upon the new season of 1904-5, a condition to be desired, for, as is only too well known, the production last year was a large one all along the line."

A dispatch from Butte, Mont., says that Judge Harney signed an order enjoining the mining of ore in the Pennsylvania mine owned by the Boston and Montana Mining Company, from a vein claimed by the Johnstown Company, one of the Heinze properties. The order was issued in a suit filed by the Heinze interests. It is based on a variation of the claim to ore on a basis of apex rights.

The terrible destructiveness of the drouth in Australia during the past ten years in the Sheep industry is told in the figures giving the census of the stock for that period. In 1894 Australia had 100,000,000 Sheep; in 1904 the number is scarcely 50,000,000. With the number cut in two flock masters have had a hard struggle to keep their heads above water, as the range was almost ruined. Recently there has been enough rain to be of great benefit, but under the most favorable circumstances it will take a good while to get the grass and the Sheep back to where they were ten years ago.

A report from Birmingham, Ala., says: "There will be no further move made in the matter of consolidation of Southern Iron properties until next Saturday, at which time President Thompson of the Republic Iron and Steel Company is expected to be in the city. Several informal conferences were held on Monday between the executive heads of the Sloss and Tennessee companies, but no formal action was taken owing to the absence of Mr. Thompson. It can, however, be stated as a general proposition that those interested in the proposed combine appear to be getting in more of a hurry than they were six weeks or a month ago."

The London *Statist* prints a leading article pointing out that "one strong reason for the hope that exists of hostilities being avoided is the evident fact that peace is in the highest interest of Russia." The evident interest of other nations to avert a conflict is cited as a further ground for optimism, and in this connection the *Statist* goes so far as to say that its information is to the effect that "there is an understanding between England and France that both countries shall remain neutral if a struggle takes place. At any rate, confidence is growing that war, if war should come, will be localized."

The annual report of *New England Homestead* estimating the value of farm animals in the different States, says: "With the exception of Horses and Mules, the average value of all classes of animals is lower than a year ago. A slight increase is shown in the numbers of each of the different classes of stock, but this increase is not as large as it was a year ago, nor is it so large as the normal increase in population. The total value of all classes of farm animals is $3,433,000,000, or a net decrease from the figures reported a year ago of $124,000,000. It is estimated that the average price per head of milk cows on the farm has declined 5½ per cent compared with one year ago, other Cattle 13 per cent, Hogs 9 per cent, Sheep 7½ per cent, while Horses show a gain of 6 per cent."

A New York dispatch says: "It was reported in Wall street, Tuesday, that certain dissatisfied members of the Sheldon United States Ship Building Company syndicate had demanded an accounting of the operations by the managers and that unless their demands were complied with legal proceedings might be instituted with a view to bringing this about. The syndicate expired by limitation Jan. 29. Interest is intensified by the fact that some of the members have not paid in all that the agreement calls for, some of them, it is alleged, having neglected to pay the third, fourth and fifth calls, amounting to 50 per cent. It was asserted that some of the persons who have been demanding an accounting fall in this category. However, these various reports lacked confirmation.

The new financial plan of the Colorado Fuel and Iron Company will probably be declared effective by the bondholders' protective committee Saturday. The committee provides two ways of raising the $13,600,000 cash which the company needs for its rehabilitation, each of which includes the issue of $45,000,000 of new 5 per cent bonds and provides for the retirement of the outstanding $14,000,000 of debentures. The holders of the debentures are to receive 20 per cent in new common stock and 100 per cent in new bonds of the company to be organized, while $17,000,000 of new bonds and $3,400,000 of new stock will be issued for the purchase of property sold to the Rockefeller-Gould combination when it acquired control. Not less than $5,000,000 of the new bonds will be reserved to retire that amount of outstanding first mortgage bonds, while $8,000,000 will be kept in the treasury for future requirements.

"The total valuation of the 1,620,332 head of all kinds of Stock received at Chicago last month," according to figures published by the *Drovers' Journal*, "stands $25,698,500, or at the rate of about $318,000,000 for the twelve months of the year. Prices, considering the immense receipts for the month, were comparatively high, especially Hogs and Sheep, as compared with January average prices of the past ten years. Notwithstanding all the talk regarding the large number of half-fat Cattle forced on the market for several weeks past, the average weight the opening month of this year was the heaviest for any month since February, 1901. Considering the fact that Chicago received in round numbers 318,500,000 lbs of Beef on the hoof, it is surprising that Cattle prices held up as well as they did, and yet again average prices at the close of this month are as high as a year ago, showing a wonderful demand for Beef. Cattle exporters were good buyers throughout the month and the Eastern demand was brisk, with prospects of a continued good demand, especially after the car shortage on Eastern roads is straightened out."

SPECULATIVE TRADING ACTIVE.

Following the attention and excitement in the Cotton and Coffee markets, there was marked activity in the Grain and Provisions markets during the week just closed. A larger business was transacted in Chicago than for some months, and fluctuations in prices were frequent and within quite wide ranges. Outlook now favors a good speculative business in Grain and Hog Products, with more general interest and increased trading, owing to the unsettled feeling in the East.

Stocks in New York were sold on the war news and on the poor bank statement Good losses were made throughout the list. At the last a rally came and Alton preferred, Wabash preferred and Steel made fair net gains. Pennsylvania was a feature and lost 1¾, but recovered 1 point.

The following table exhibits the number of Hogs estimated packed from Oct. 30 to date in this city as compared with the returns of previous years

1903–4	2,315,000	1900–1	2,539,000
1902–3	2,482,000	1899–1900	2,512,000
1901–2	2,951,000	1898–9	2,957,000

The New York Cotton market again felt the effects of the withdrawal of the outside public from the buying side. There was poor support at the start and heavy selling, resulting in further breaks. Prices fluctuated violently, with moderate trading, and closed at net losses of 45@73 points for the day.

The receipts of Flour and Grain at Chicago for the past week were equal to 4,318,000 bu and the shipments were equal to 3,074,000 bu For the corresponding week in 1903 the receipts were equal to 5,238,000 bu and the shipments to 2,974,000 bu. Corn Trade News of Jan. 25 says: "Our correspondent at Christchurch, New Zealand, writes that the official estimate of the area under Wheat this year is 230,000 acres, compared with 194,000 acres last season The yield is expected to be 30 bu per acre, and this would give some 2,000,000 bu for export. Of Oats there is also expected to be a good quantity for export

According to a special cablegram from the Liverpool *Corn Trade News* to the DAILY TRADE BULLETIN the aggregate stocks of Breadstuffs in store in Europe and Argentina and afloat on Feb. 1 were equal to 80,100,000 bu, compared with 86,862,000 bu on Jan. 1, and 70,48,000 bu on Feb. 1, 1903 Stocks were reduced 6,762,000 bu during January, compared with a reduction of 2,834,000 bu in January, 1903.

The Great Western Railroad has announced another cut in the Western Grain rates—a reduction in the proportional Grain rates from Omaha to Chicago of 2c per 100 lbs. The rates will go into effect probably on Feb 10 The reduction makes the rate on Wheat 10c and on Corn 9c, and is sufficient to re-establish the adjustment which the Great Western made in the rates when the company first opened its line to Omaha

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 218,000 brls of Flour and 545,000 bu Wheat, against 322,000 brls of Flour and 517,000 bu of Wheat the preceding week, a decrease of 104,000 brls of Flour and an increase of 28,000 bu of Wheat. For the corresponding week last year the exports were 192,000 brls of Flour and 779,000 bu of Wheat.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The domestic call is said to be fair, but little doing in the way of exports. Prices firm.

WINTER WHEAT—Very quiet and prices about 1c lower. Not enough fresh arrivals really to make a market. Choice Wheat would sell to the usual buyers, chiefly millers. Poor Wheat is dull No. 2 Red in store nominally 93¾@97¾c and fresh arrivals were nominally 95@97c. No. 3 Red—although a choice car sold at 98c—was quotably 90@96c at the close. No 2 Hard at the river quotable at 85@89c. No. 3 Hard at the river quotably 78@88c and a choice car sold at 91½c.

SPRING WHEAT Nothing whatever was done in Spring Wheat to-day Scarcely any arriving and choice Wheat would sell to millers. Market quotations entirely nominal. No 1 Northern in store quotably 96¾@97¾c and fresh arrivals quotably 92@95c No 3 Spring nominally 80@91c for ordinary to choice hard variety. No. 4 quotable at 55@60c for common to 65@70c for ordinary up to 80@85c for good to choice

REGULAR WHEAT—The trade was large and market quite unsettled within 1⅞@2c range Closing prices were 1c lower for May, the July losing 1@1⅛c and the September ⅝c The drop of five-sixteenths in British Consols, and more warlike advices from the far East, started the market strong and higher. May sold to 95¾c, but "long" property soon came out in large quantities causing a break to 91⅞c. A rally to 91⅞c followed, but broke badly to 93¾c later in the day, and the close was 94c sellers. The "bull" party in May was credited with selling May at the start, but supported the market later on Among the "bearish" influences were the large Australian shipments, 2,008,000 bu, irresponsive cables further rains in California and the Southwest, with rain or snow predicted for the West and Southwest. *Broomhall* estimated the world's shipments at 11,200,000 bu and predicted a liberal increase in the quantity afloat. Liverpool was unchanged on spot, and ⅛d higher for futures London came ⅛d higher. Paris was ⅛@¼c lower and Antwerp unchanged. Receipts in the Northwest were small and total for the week 1,743 cars against 1,574 cars last week, and 2,069 cars the same week last year. Local weekly receipts were 285,000 bu, and shipments 205,000 bu. Primary receipts this week 3,557,000 bu; last week 3,323,000 bu; year ago 3,580,000 bu. English farmers' deliveries were 496,000 bu at 81c, against 482,000 bu last week at 81¼c and 488,000 bu one year ago at 77¼c Kansas City and St Louis received 265,000 bu, against 52,110 bu last year, and shipments at two points 183,000 bu. The English visible increased 718,000 bu against 1,070,000 bu decrease same week in 1903 European Breadstuffs supply decreased 6,422,000 bu last month, against 2,834,000 bu decrease January, 1903. Imports into the United Kingdom this week 4,000,000 bu; last week 1,000,000 bu; year ago 2,000,000 bu. Part of the early strength was on rumors that the Japanese Minister at St Petersburg had asked for his passports, and that a naval battle had occurred in the far East. Winnipeg received 8 cars, against 101 cars one year ago Last prices about inside. Receipts at Duluth 24 cars and at Minneapolis 244 cars, a total of 268, against 738 cars yesterday, 253 cars a week ago, and 401 cars last year. Local receipts included 12 cars Winter, 5 cars Spring and none mixed, a total of 17 cars, against 33 cars last year. Included in above was 1 car of contract grade There were 4 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 40 cars. Withdrawals were 4,000 bu. Receipts at Western points were 577,693 bu, against 505,453 bu last year. At Eastern points 53,872 bu, against 72,597 bu last year. Shipments from Western points were 316,870 bu, against 177,239 bu last year, and from Eastern points 35,665 bu, against 159,086 bu last year. Shipments of Flour were 48,181 brls. Exports of Wheat in Flour were equal to 252,479 bu.

Future Deliveries of Regular Wheat—Good trade and prices lower

FEBRUARY—Entirely nominal; closing about 91c.

MAY—Sold at 93¾@95¾c. Opened at 9¾c to 95¼c; sold to 94⅛c, to 94⅞c, to 94⅛c, to 94¼c, to 94⅞c, to 94¼c, to 94⅛c, to 94¼c, to 93¾c, to 94c and closed at 94c sellers.

CORN—A large trade and nervous, erratic market, with last prices 1⅜c lower for May, while the July lost 1¼@1⅜c. There was an urgent demand from "shorts" at the start, the bulge in Wheat, drop in British Consols and war talk being responsible for the advance It soon developed, however, that "bull" leaders have considerable "long" Corn for sale and prices settled back. Later there was more general selling. Brokers supposed to be acting for Provision interests bought May and sold July, or just the reverse of yesterday. At one time the spread was only 2½c, but later widened out to 3c. Elevator interests were credited with selling May. Receipts 195 cars, with 113 cars off grades, last year 287 cars and 139 cars respectively Estimates for Monday 455 cars. Liverpool unchanged; futures only ⅛d better. Local weekly receipts, 1,005,000 bu; shipments, 1,273,000 bu Primary receipts this week, 4,250,000 bu; last week, 3,572,000 bu; year ago, 4,265,000 bu. Weather was soft and more rain or snow indicated. Southwestern markets acted weak. Exports were 251,000 bu and 12 boat loads accepted at the seaboard. Local shipping demand fair, but cars scarce and checking transactions. Transfers from private to public elevators 163 cars Car lots were in good demand with moderate offerings. Feeling easy and prices 1@3c lower. No. 2 closed about 50¾c and No 2 Yellow at 50¾c. No. 3 closed at 43½@50½c No. 3 Yellow closed at 44@50¾c No. 4 sold at 43¼c and No Grade at 33@37c—outside for yellow.

Corn by sample—Demand was only fair and the offerings larger and mostly of poor quality. Good, dry Corn was firm, while poor and wet was 1@3c lower Sales on track and free on board: No Grade sold at 30@38c No 4 at 36@44½c No. 3 at 41½@46c. No. 3 White at 45⅞@50c Ears at 45c. Billed through. No Grade at 33@38c. No. 4 at 38@41c. No. 3 at 44c No. 3 Yellow at 44¼@44⅜c No 3 White at 45c.

Future Deliveries of No. 2 Corn—Active and most unsettled, closing 1⅜@1½c lower

FEBRUARY Sold at 51¾c, and closed about 51c.

MAY—Sold at 54¼@56⅝c Opened at 56¼c to 56c, and sold at 56¼c, to 55¾c, to 55⅞c, to 55⅝c to 55⅞c, to 55⅝c, to 55⅞@56c, to 55⅝c to 56c, to 54⅞@55c, to 55¼c, to 54¾c, to 55c, to 54⅝c, and closed at 54⅝c

JULY—Sold at 52@53⅞c Opened at 53⅞c to 53½c and sold at 53¼c, to 53⅜c, to 53c to 53⅛c, to 53⅛@53¼c, to 53⅜c, to 52⅝@52⅞c, to 52⅞@53c, to 52c, to 52⅛c, to 52c, to 52¼c, to 52⅛c, and closed at 52@52⅛c

SEPTEMBER Sold at 51@52⅝c Opened at 52⅝c to 52¼c, and sold at 51⅞@52c, to 52c, to 51⅞c, to 52⅛c, to 51¼c, to 52c to 51½c, to 52c, to 51c, to 51⅛c, to 51½c, and closed at 51⅛c.

OATS—Were sold freely by all classes of holders, especially the larger, and the market closed easy at the bottom, with net losses of ⅞c to 2⅛c the latter on May. The opening was strong and July advanced ⅛@¼c and September ⅛c while May held yesterday's closing rally. The war news was the feature. Later, the break in other Grains, combined with selling by "longs" and a reduction in the outside buying, demoralized the market and precipitated general selling. The weather in the West was wet Receipts were 128 cars, with 250 cars expected for Monday. Withdrawals were 1,500 bu. Seaboard clearances 46,000 bu. Car lots to go to store were steady to ⅛c lower and closed weak. No 3 White sold at 43½@44¼c. Standard in store closed about 41⅛@41⅞c as to location.

Oats by sample were in moderate request, with offerings larger Good lots were taken freely, the feeling easy, but prices no lower Poor declined ½c. Sales on track and free on board. No Grade at 37c. No. 4 at 39c No. 4 White at 39½@43¾c No. 3 at 41@42c No 2 White at 43½@45¼c Standard at 44½@45c No 2 at 41c No 2 White at 45c Billed through No. 1 White at 41c No. 3 at 39¼c No. 3 White at 43½@44¼c. Standard at 44½@44¾c No 2 at 40½@40¾c At the river No. 4 at 38c No 4 White at 36@42c. No. 3 at 39½c No 3 White at 42@43c

Future Deliveries of Contract Oats—Stronger early, but closed lower.

FEBRUARY—Inactive at 2⅛c under May bid; closed at 41⅜c

MAY—Active and unsettled. Sold at 45⅜@46¼c Opened at 45⅞c to 46¼c, sold to 44⅜c, to 44⅛@44¼c at close

JULY—Unsettled. Sold at 39¼c and 40¼@40⅜c Opened at 39¾c to 40c, sold to 40¼@40⅜c, to 39⅝c, to 39⅜c at close

SEPTEMBER—Sold at 33½@34c Opened at 33¾c, sold at 34c to 33⅝c, to 33⅝c at close.

RYE The market developed a weaker feeling, influenced by the decline in other Grains and prices 1½c lower for the May delivery. Cash lots fresh arrivals ruled easier There was more doing at the decline, but entirely in speculative way The receipts were three cars and there were withdrawn from private warehouse six cars No export clearances reported No 2 in store nominally about 64c for round lots and car lots fresh arrivals quotably about 62c, with a sale at the river at 59c. No. 3 fresh receipts sold at 58c free on board. Two cars of choice No 4 sold at 57c and an ordinary car at 56c.

Future Deliveries of No. 2 Rye Little more doing Market opened ¼c lower and declined 1¼c more May sold at 64¼c down to 63c and the latter figure the close. February nominally 61½c

BARLEY—Ruled steady Some screenings held over sold for a little more than could be obtained yesterday. Offerings of feed Barley were mainly heavy dark and somewhat musty Some of this Barley did a little better, river billed cars sold at ½c advance. Malting Barley was steady and firm also The supply was small Demand rather time yet enough to clean up the market To arrive lots not much sought for at present still some were sold. There were receipts of 48 cars to-day Screenings were quotable at 30@42c for poor to choice, sales made at 38@42c. Barley, feed or mixing, sold at 36@40c; some cars were musty; if thin and nice color quotable up to 41c; malting—low grade about 43@44c; very dirty below; common, 45@46c Fair was about 48@51c; good, 52@55c; choice 56@58c, fancy possibly above A to-arrive lot sold at 54c.

SEEDS—There was a repetition of the late quietness. Offerings of all kinds very limited and demand the same There was nothing to cause any material change in prices

Timothy Remains quiet and dull A few lots of cash Seed offered, usually dark and rather rough. Some sold and some remained over Demand restricted Order trade reported as light. Futures were lifeless and nominal. Contract spot or February about $3 05 March delivery nominal at $3 15, with $3 10 bid Country lots quotable over a range of $2 20@3 15 for poor to fancy, fair to good quotably $2 70@2 85; choice, $2 90@3 00, and rough, dark and foul lots about $2 40@2 55

Flax—Values were just the same as yesterday. There was little done—little interest shown. A few trades were made without causing a ripple on the market. Nine cars or 7,550 bu came in and 8 cars or 6,650 bu taken out. Minneapolis received 31 cars and Duluth got 40 cars. Little change in Northwestern markets. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 18 sold at that. No. 1 salable at $1 11. Rejected quotably $1 08@1 12 as to quality. February was nominally $1 11; May sold at $1 14.

Clover—Was quotably salable and steady, especially if of good quality. Order trade was said to be improved Market entirely devoid of offerings, hence inactive Nominally steady as follows: Contract spot Clover $10 75@11 00 and March delivery at $11 00. Country lots, common to choice $8 00@10 50: fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@7 00; inferior lower; fair to good quality about $9 00@10 00.

Other Seeds—Nominally steady to firm all around. Some samples of Hungarian shown, but no sales made. Hungarian, common and light color to choice, dark at $1 50@1 85. Common Millet, 90c@$1 25 for poor to fancy German Millet, 90c@$1 25. Siberian, 75@90c Broom Corn and Early Fortune Millet, 75@90c Mustard 85c@$1 15 Buckwheat steady; good milling quotable at $1 15@1 20.

HOG PRODUCTS A fairly good business was reported in Hog Products for the closing day of the week and the feeling was considerably unsettled. Some realizing by "longs," fair purchases by "shorts," and a moderate inquiry on investment account Prices fluctuated considerably. Outside orders were fair, and the demand was moderately active Hogs were in fair supply and higher, and the market for Products acted a little independent of the changes in the Grain markets Market opened rather firm in a speculative way, and prices ruled higher for the leading articles. Later, there was some inclination to realize, and a weaker feeling was developed, with moderate reductions all around. During the latter part of the session, a steadier feeling was developed, and prices rallied to medium figures, but gradually settled back again, and closed rather steady. Good supply of Hogs anticipated for the coming week. Receipts at the leading Western packing points were estimated at 40,600, compared with 51,400 one year ago. Foreign markets were steady and Cumberland Sides were quoted 6d higher. Domestic markets were quiet and steady. Receipts of Products were liberal—of Lard and Meats about 24 cars Shipments were fair—of Lard and Meats about 120 cars Shipping demand was fair in a quiet way, and offerings were not very large. Prices were comparatively steady, with moderate trading.

Mess Pork—Trade was fairly active in the market for Mess Pork, and the feeling was somewhat unsettled Offerings were moderately free and the demand was fair. Opening trades were made at 5@10c advance, and prices further improved 5c, with moderate buying. At the advance there was a little pressure to sell, and an easier feeling prevailed, accompanied with a decline of 10@17½c. Toward the close, the feeling was stronger, and prices rallied 5@7½c, but settled back again, and the market closed steady. Shipping demand was light and offerings were moderate Cash lots quotable at $13 50@13 62½.

MAY—Offerings were moderately free, and the demand was fair. Sales were made at $13 57½@13 75 Opened at $13 65 to $13 70, sold to $13 57½, to $13 65, to $13 60 to $13 67½, to $13 57½, and closed steady

JULY Called for sparingly and offerings were light A few trades were made at $13 67½@13 75, and closed quiet at $13 67½.

Lard—A fair business was reported in the Lard market, and the undertone was comparatively easy Offerings were fair and the demand was only moderately active Foreign advices were unchanged At the opening, the feeling was stronger and prices ruled 10@12½c higher Later a weaker feeling was developed and prices receded again, and the market closed comparatively steady. Trading was almost exclusively in May and July contracts Inquiry on shipping account was very light, and the offerings were moderate Cash lots quotable at about $7 35@7 37½ Loose lots called for moderately and offerings were only fair. Prices were steady at about 7½c discount on May figures Leaf Lard in fair request and offerings were moderate Prices were quotably steady at $6 57½. Neutral in only moderate demand, with fair offerings Prices quotably steady at $8 25@8 37½ for No. 1 and $7 50@7 62½ for No. 2

MAY Offerings were rather free, and the demand was fair. Sales were made at $7 50@7 67½. Opened at $7 65 to $7 67½ sold to $7 60, to $7 62½, to $7 55 to $7 57½, to $7 50, to $7 60, to $7 50, to $7 52½, and closed steady

JULY—Demand was moderate and offerings were only fair Sales were made at $7 55@7 70. Opened at $7 70 sold to $7 55, and closed steady.

Short Rib Sides Trade was fairly active in the market for Short Rib Sides, and the feeling was steadier Offerings were not very free, and the demand was moderately active. Prices were advanced 5@7½c on the whole range, but receded again 2½@5c, and the market closed steady at medium figures. Demand on shipping account was light and offerings were moderate Cash lots quotable at $6 50@6 75 according to weight.

MAY In rather good request, with fair offerings. Sales were made at $6 77½@6 85 Opened at $6 82½ to $6 85, sold to $6 80, to $6 85, to $6 77½@6 80, to $6 80, and closed steady

WEEKLY TRADE REVIEW.

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, Feb. 5, 1904.

No material change has taken place in the money markets the past few days. The demand for money at Chicago banks is light and the majority of the loans are at 5 to 5½ per cent. Occasional short call loans are put out at 4½ per cent, but it is a special transaction and does not reflect the real condition of the market. There are moderate offerings of paper. Cattlemen in some sections are offering paper as they need money to carry them through. Prices of Cattle are much lower than last year, and some of the Northwestern ranch men have not sold and are waiting for a better market. This necessitates their calling for assistance. Some of the country banks in section where there has been extensive land speculation, are borrowing a little money here, but receipts of currency from the interior are of fair volume. In the East the market was easy at 1¾ for call loans on the Stock Exchange and 3 to 4 per cent on time money.

New York exchange sold at par to 25c premium and closed at 10c premium.

Foreign exchange was easier with the range on shippers sixty-day documentary sterling bills on London at 4·82¾ to 482½.

The mercantile trade has been affected by cold weather in the interior restricting sales of retailers. There has been such a long siege of low temperatures this winter that the jobber and retailer has been able to close out supplies of heavy goods to better advantage than in many years. There is nervousness in the Cotton goods market owing to the wild speculative fluctuations in the raw material. Stocks of goods everywhere are light and everyone is afraid to buy more than there is a chance of turning over at once. Mills are making prices from day to day. Print cloths are over 4c the highest in years, and Cotton goods have advanced ¼c to ½c in less than 30 days. Woolen goods are well cleaned out. Advance orders are being restricted by the cold weather. Rubber goods advanced 5 to 10 per cent. Leather is firmly held and tanners have lighter supplies than usual and are in the market for Hides to a greater extent than is their custom at this season. The buying of pig Iron was slow and the market easy. Despite the reduced production there has been an accumulation and holders are showing more inclination to sell. Purchases of finished material were of fair volume reflecting decreased supplies in the hands of consumers and a steady consumption of liberal volume. There are rumors of a reduction of $2 00 a ton in Steel rails, but those in position to know explain the situation by saying that it is necessary for manufacturers to hold prices at $28 00 to affect the export trade, and they are preparing to give the railroads concessions in other ways. The movement of lumber and building material was restricted by low temperatures preventing outdoor work. Coffees were firm, with an upward tendency and a large consumption. Collections were fair.

There appears to be no limit to fluctuations and trading in Cotton. Changes were the most violent ever witnessed and prices advanced to the highest in thirty years. Changes at times were so rapid that operators became accustomed to look at the market as one of great possibilities on either side. On Tuesday there was a break of 130 points on selling led by one of the largest of the "bull" leaders. It started a general realizing movement and a panic ensued. Speculators who have been in the market on a large scale evinced more disposition to get out and the largest "bull" interest unloaded. On Friday the decline was 100 points to 175 points. Receipts at the ports were moderate, especially when the high price is considered. They reflect a crop of below 10,000,000 bales. As the Cotton industry of the country was built up on Cotton at less than 10c per lb, present prices have upset all calculations and the manufacturer, the jobber and the producer is at sea. Closing prices as compared with a week ago show net losses of 91 to 138 points.

Local Securities were handled to a lighter extent. There was more pressure on a few stocks and a lower range secured on Can, Diamond Match and Quaker Oats. Biscuit shares were strong, as the supply of common in the open market decreases as the date for the annual meeting draws nearer, and it was more difficult to buy. The annual statement of the Diamond Match Company looks better than some of the largest stockholders expected. Large amounts of money were spent the past year in developing the business and on their timber lands in California. The latter were acquired several years ago and have appreciated in value to such an extent that they are to be sold out at a profit. The net surplus for the year decreased $1... 000, and the surplus is $1 0 0,000 after charging off $1,618,000 for depreciation of plants. It was thought best to charge it all off at once, as the company is not in need of extra money. The earnings on its stock were 12.15 per cent. The bond market was more active and firm.

Stocks in New York had a lower range. There was more pressure to sell on all the hard spots, its being popular for the time being to operate on this principle. The Western "bull" interests who recently started the advance, suddenly found they were "long" 250,000 shares of stock, a large part sold by a leading Wall Street banking house that has been heavily "long" and interested in numerous properties. This checked their buying and brought the "bull" movement to a sudden end. Uneasiness over the situation in the far East was a disturbing influence, and the death of W. C. Whitney, who held stocks in various corporations valued at $25,000,000 also creating uneasiness. Prices yielded more especially, on the selling for profits and the increased offerings by the "bear" interest and closed with good losses. The Amalgamated Copper Company won its suit in Montana and although this had a good effect the appreciation was lost. Railway earnings continue to make fair gross increases. Bonds were more active. Total sales on the New York Stock Exchange for the week 2 481,000 shares, compared with 3,640,000 shares the previous week and 8,106,000 shares last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

COMMERCIAL.

A good business was transacted on the Chicago Board of Trade the past week, all the leading markets attracting increased attention. Fluctuations in the principal commodities were sharp and frequent and offered many opportunities for investment. Outside interest was more pronounced—practically from Southern points, and local speculators traded with greater freedom. Orders from the smaller operators in the interior were more numerous and in a majority of instances favored the "long" side of the market. Coarse Grains attracted more attention, the trade broadening to the expense of Wheat, and the Provision list was also more animated. The late "bull" movement in Cotton and Coffee no doubt has stimulated the speculation in Grain and Hog Products and indications are for continued active markets.

The crop outlook abroad, according to the cable advices received this week, is not very satisfactory. The weather in the United Kingdom was wet, and it is now practically certain that the Wheat area harvested the coming summer will be the smallest on record. Condition of the autumn sowings is rather poor. Climatic conditions in France, Germany and Italy were unseasonably mild and rainy, while in Roumania, Hungary and Russia the crop situation is practically unchanged, being fairly unsatisfactory. In India the outlook is favorable and the weather in Argentina has been more satisfactory for late threshings.

Weather conditions in the United States were again quite severe the past week. Zero temperatures were recorded in many sections, and where the crops lacked snow protection there must have been some impairment in the condition. There is little snow protection in Kansas and Oklahoma, but general covering from Illinois eastward. The Southern portions of the Winter Wheat belt were largely without any snow protection until near the close of January, when the Northern, Central and Eastern portions were well covered. In the Middle Atlantic States and portions of the Ohio and Central Mississippi Valleys the crop suffered as a result of protracted cold and absence of snow covering during a large part of the month. Considerable complaint is still heard regarding the poor quality of the Corn Crop. It has not dried out well and high grade is expected to be scarce in several of the surplus States.

The movement of Grain to distributing markets was moderate the past week. Weather conditions however were not of the best and no doubt in a measure tended to retard the handling of Grain. The low temperature and blizzards interfered with transportation in many sections. In the Northwest the marketing of Grain and Flax Seed was moderate and somewhat smaller than a year ago. Stocks of Wheat in interior elevators of the Northwest were reported at 5,936,000 bu, compared with 6,514,000 bu, one month ago, 6,427,000 bu one year ago, and 8,567 000 two years ago. Through the West coarse Grains as well as Wheat were marketed with only moderate freedom, there being a tendency on the part of growers to hold. In the Southwest arrivals at terminal points were fairly large and in excess of last year, but outward movement at the same time liberal. Through the Central West outside of Corn the movement was small. On the Pacific coast and through the South the marketing of Grain was limited. The movement toward the seaboard was only fair, the car scarcity being a factor in checking shipments. Exports of Grain were moderate and new bookings for forward shipment rather limited. According to and weekly report of the visible supply of Grain in the United States and Canada, as compiled by the Secretary of the Chicago Board of Trade, there was a decrease in the stocks of Wheat, Oats Rye, and Barley and an increase of Corn.

An immense speculative business was transacted in the leading markets on 'Change this week and the high prices on the crop were established in all the markets. Investment buying was more in evidence both for local and outside account and the trade was broader in all the pits. "Short" lines were provided for on the advance, and while liquidation and profit taking by the "long" interest was general, the offerings were well absorbed. On the high prices recorded this week Corn shows an advance of about 15 and Oats 1½c. Commission houses with connections in the South claim it is amazing the amount of money that has been made in Cotton operations by the speculative class there, and part of the money is being invested in coarse Grains and Provisions, particularly in the latter commodity. Ordinary and routine news had little or no effect on values, the advance being due chiefly to the "bullish" sentiment, which was most pronounced the first of the week. The war scare was possibly more of a factor in all the markets. The stock of Provisions reported on hand Feb 1 were not quite as large as expected, especially of Lard and Short Rib Sides. Stocks of Pork increased 2,900 brls. The world's stock of Lard is estimated to have increased 25,000 to 40,000 tcs during January. Packing of the West for the season was reported at 6,980,000 Hogs, against 6,845,000 in 1902-3, an increase of 135,000 Hogs.

Just a fair business was reported in the market for cash Grain the past week. The quality of the offerings showed little if any improvement, which was more particularly the case with Corn. Receipts were only moderate and the better qualities found ready sale. Wheat was in good request from millers and speculators and choice Red Winter sold at $1 00 this week. Poor and inferior grades, while not as ready sale, also ruled higher. Corn was in fair request, that is, choice dry, while poor and wet was slow sale. Prices failed to follow the advance in futures. Shippers were handicapped to some extent owing to the scarcity of cars. Oats were more firmly held and sold fairly well. Rye was in better request and higher prices ruled. Hay was in liberal supply and in moderate demand. Timothy was steady and Prairie dull. Flax was higher. There was a fair demand for Hog Products, but the majority of the bids were below the views of sellers. Offerings were moderate. Sales just fair and prices more in sellers' favor. Exports for the week, compared with the corresponding week in 1903, exhibited increases of 2,450 brls Pork, 3 363,000 lbs Lard, and 9,648 boxes Meats. Cattle were marketed with moderate freedom and prices ruled firm. Receipts of Sheep were fair and prices without important changes.

FREIGHTS—Railroads East and West were blocked the past week by cold weather and snow storms and the movement of cars was slow. There is a scarcity of cars in Central Illinois and on Eastern roads. Western roads are reducing rates on Grain from West of the Missouri, another cut of 2c being made by the Northwestern. The Eastbound tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	23	15	25	17½
New York	20	15	22	17½
Philadelphia	18	14	20	16½
Baltimore	17	13½	19	16
Newport News	17	13½	19	..
Buffalo	13	....	15	..

Flour rates are 20c domestic and 16½c for export. Provision rates are 30c per 100 lbs, Chicago to New York.

Rail rates from Buffalo to the seaboard are 4½c per bu on Wheat, 4¼c on Corn, and 3½c on Oats. To New England they are 5¼c on Corn and 3¼c on Oats.

Ocean rates on Grain steadier with a moderate demand. Rates on Grain are ⅞@1d per bu from New York and ¾d from Boston. Through rate on Wheat from Chicago to Liverpool is 11¾c per bu and Corn 11½c. Flour 24.94c per 100 lbs and Provisions 44.05c per 100 lbs.

FLOUR—Millers have been forced to advance the asking price for all grades of Flour at Chicago and elsewhere, owing to the fact that cash and futures of Wheat have shown further large gains. The buying side of the Flour market, as is always the case, is refusing to follow the advance and the market is quiet in consequence. The offerings of all kinds of Flour are small, with the market about bare of soft winter descriptions. The latter have enjoyed several advances during the week and the demand is persistent, even at the higher rates. This is about the only exception from the general rule. The business of the week has been mainly on domestic account, there being only a few lots changing hands for export. As a general thing the bids from abroad were 1s per 280-lb sack out of line. Seaboard points have bought fair quantities. The stock of Flour in Chicago public warehouses are now 20,780 brls, showing an increase of 2,000 brls for the month. Sales have ranged during the week:

MILLSTUFFS—The receipts have been small all week and the demand good. Offerings were quickly taken and higher prices paid. Bran sold at $17 50 per ton in bulk and at $18 50 per ton in sacks, sacks included.

WINTER WHEAT—A strong feeling was developed the past week and prices reached the highest of any this season. Fresh arrivals, especially of choice soft Wheat, owing to the scarcity, commanded fancy prices and reached the dollar mark. All offerings were taken up readily and wanted by millers. There have been very small receipts and really not enough for the legitimate requirements of the trade. This soft Wheat in particular was wanted. Choice Hard Winter was also steady, but the poor Wheat was dull and did not appear to be wanted, excepting at relatively low prices. There was no regular outlet for it and hence met with no competition like the more desirable Wheat. The grade Wheat or contract grade in store followed the fluctuations of the speculative market, and held at fair premium over the Spring Wheat. No shipping business was transacted and no round lots were reported sold. The receipts for the week aggregated 107 cars, against 102 cars the previous week. There were withdrawn from public elevators 27,003 bu and from private warehouses only 53 cars. No 2 Red in store ranged from 1c under May to 2c over May prices, and ranged at 88¾@93c, with sales of fresh arrivals free on board at 98c@$1 00 and ranged at 92c@$1 00, depending on quality. It required bright yellow Wheat to command top prices. No. 3 Red fresh arrivals free on board sold at 95@99c, and ranged at 87@99c. No. 4 Red sold at 85c. No. 2 Hard local sold at 87¾@88c and at the river at 81@85c. No. 3 Hard local sold at 77@83½c and at the river at 75@87c. No. 4 Hard local sold at 73@80c and at the river at 67@70c. A sale of No 3 White was made at 92c.

SPRING WHEAT—Influenced some by the strong tone which pervaded the speculative market, and more so by the very small receipts, fresh arrivals of choice hard variety of Wheat showed decided firmness and 2@4c higher prices were established. The regular grade Wheat in store followed the fluctuations in futures, but the fresh arrivals were not affected by the speculative changes and held independently firm. Choice hard variety of Wheat met with a demand from the milling and shipping interests. Very little choice Wheat received, only an occasional car. Not alone were the fresh arrivals taken up readily, but some round lots of No. 1 Northern in elevator, grade Wheat, were sold. Prices have averaged higher, but top figures reached were not maintained. Of the poor Wheat there have been a number of cars received, and while ordinary Wheat was salable there has been no special call for it, and low prices had to be accepted—it did not improve to the same extent that the better samples did. The receipts of the week aggregated 72 cars, against 79 cars the previous week. There were withdrawn from public elevators 54,800 bu, and only 29 cars were taken from private warehouses. No. 1 Northern in store ruled 3@3½c under May prices and ranged at 88¾@93c, and fresh arrivals free on board at 88@95c. No. 2 Northern fresh arrivals free on board were quotable at 84@93c. No. 3 Spring fresh arrivals free on board ranged at 78@85c for ordinary to good, and at 86@92c for choice to fancy hard variety. No 4 Spring local quotably 55@60c for common, 62@72c for ordinary to fair, 75@80c for good and 82@85c for choice to fancy hard variety, with sales at the river at 65@78c.

REGULAR WHEAT—An active week, with price changes frequent and sudden within the following range: May sold between 89⅜@96c and closed at 95c asked, showing a gain of 4¼c. July sold at 81⅛@86¼c and final prices were 2⅞c above those of last Friday. September sold at 77½@80⅝c and rested at 80⅜c, as compared with 78⅛@78¼c one week ago. The market started out weak and lower, with "bear" interests more aggressive on the selling side. The more peaceful outlook in the far East, declines abroad, large world's shipments and liberal addition to the amount on ocean passage being among the principal influences. The closing down of all the Minneapolis Flour mills as per agreement last week, too, was construed as a "bear" factor. Many of the smaller holders liquidated their holdings and short selling was more conspicuous, under which May touched 89⅜c and the July 81⅛c. World's shipments were larger than expected at 11,016,000 bu, compared with 10,456,000 bu previous week and 9,240,000 bu one year ago. The quantity on ocean passage increased 3,384,000 bu, and is now 27,192,000 bu, as against 25,112,000 bu same date in 1903. Liverpool stocks February 1 were reported at 2,672,000 bu, a decrease of 776,000 bu during January. The visible supply decreased 852 000 bu, compared with 608,000 bu decrease same week in 1903. Total is now reported at 39,780,000 bu, against 48,447,000 bu in 1903 and 57,929,000 bu in 1902. Local public stocks increased 6,000 bu to 2,939,000 bu, compared with 7,270,000 bu the corresponding date one year ago. Stocks here in all positions were reported 5,993,000 bu, a decrease last week of 131,000 bu, and are 4,959,000 bu smaller than on hand one year ago. Contract stocks decreased 40,183 bu and now include 1,751,820 bu, compared with 3,614,746 bu one year ago. *Bradstreet's* available supply decreased 2,507,000 bu, against 2,118,000 bu increase for same period in 1903. Stocks of Wheat in interior elevators of the Northwest are reported at 5,936,000 bu, compared with 6,514,000 bu one month ago, 6,427,000 bu one year ago, and 8,567,000 bu two years ago. At the decline the "bull" party in May gave that delivery good support and "shorts" covered quite freely. The news coming more "bullish" caused many operators to reinstate lines sold and situation turned very strong. The sharp bulge in coarse Grains, as well as Provisions, was one of the strengthening factors, as also the moderately "bullish" advices regarding the crop outlook. Cold wave and lack of snow protection gave "shorts" considerable uneasiness and the upturn was very rapid, May touching 96c. The monthly crop report issued by the Agricultural Department stated that over the Southern portions of the Winter Wheat belt the plant was largely without snow protection until near the close of January, when the Northern, Central and Eastern portions were well covered. In the Middle Atlantic States and portions of the Ohio and Central Mississippi Valleys the crop suffered as a result of protracted cold and absence of snow covering during a large part of the month. The Illinois monthly crop bulletin claimed the Wheat plant was in normal condition, but in the Southern districts the crop is said to be quite uneven, having suffered from adverse fall conditions. The weekly snow map showed no covering in Kansas and Oklahoma. There is snow in the Northwest and snow in Northern Nebraska and general covering from Illinois eastward. The crop outlook on the Pacific Coast also attracted considerable attention. The San Francisco *Commercial News* of Jan. 28 said: "The Grain freight market is devoid of interest. The continued dry weather is causing considerable anxiety among shippers and Grain dealers generally, and prices of Grain are, consequently, firmly held, while on the other hand, owners look askance at rates offered." "There has been no rain since April 16," wrote a member of the Board from his home at Santa Barbara. "The Cattle there are dying for lack of rain on the ranges. It does not look as if California would raise her own supply of anything this season." The situation in the Northwest was looked upon as "bullish." "We get our demand for Wheat at Duluth from the Eastern millers in March," said one of the prominent elevator men there. "We always get the buying at the same time of the year. The millers always assume the Wheat will be there. This year when the millers come to us for their supplies we will not have the goods. We have got but 500,000 bu of contract Wheat, and our total stock of all kinds of Wheat is less than 3,000,000 bu. Minneapolis is paying higher prices than we can afford to pay by 1½c. There would be 3½c loss on the face now if we competed with Minneapolis. I expect that by March, when the milling demand comes to us, that our prices will advance. Most of the trade at Duluth is "bullish." I myself expect higher prices when it becomes clear to consumers how little Wheat there is to supply the spring demand." The Liverpool *Corn Trade News* figured the estimated arrivals in Europe during the thirty weeks ending with next July, will be 268,000,000 bu of Wheat and Flour. They expect 60,000,000 bu from Argentina in that time, 28,000,000 bu from India, 16,000,000 bu from Australia, 88,000,000 bu from Russia and Danube, 65,000,000 bu from America, or about 2,333,000 bu weekly. This is in addition to the 24,000,000 bu afloat on Jan. 1. The total amount is 24,000,000 bu greater than the imports during the corresponding time last season. Realizing again set in around 96c for May and the price settled back to 93½c, and the July to 84½c, but rallied again to 95c and 86½c respectively. The movement from first hands was moderate the past week and arrivals at primary markets July 1 to Feb. 1 aggregate 172,009,000 bu, compared with 200,904,000 bu in 1902-3, and 158,594,000 bu in 1901-2. The foreign demand was only moderate, and bookings at Atlantic and Gulf ports small. Exports were likewise moderate at 2,604,000 bu and the total since July 1 aggregates 104,994,000 bu, compared with 150,987,000 bu same period in 1902-3. The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1903, to January 30, 1904, compared with the corresponding period in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
America	113,928,000	157,823,000
Russia	89,010,000	72,424,000
Danubian	43,184,000	38,301,000
India	30,288,000	11,280,000
Argentina	20,880,000	3,912,000
Australasia	5,240,000	....
Austria-Hungary	4,152,000	1,880,000
Chili, North Africa	6,250,000	11,692,000
Totals	312,968,000	297,315,000

Foreign crop news was in the main rather unfavorable this week. The Liverpool *Corn Trade News* weekly summary of crops, cabled on Tuesday, was as follows: "United Kingdom—The weather has again been wet and it is now practically certain that the Wheat area harvested next summer will be the smallest on record. Condition of the autumn sowings is rather poor. France, Germany and Italy—Weather during the past week unseasonably mild and rainy. Roumania, Hungary, Russia—Crop situation practically unchanged; conditions satisfactory. India—Crops progressing satisfactorily. Argentina—Weather favorable for late threshing and crop movement." Argentine shipments were free at 2,816,000 bu, and the total since January 1 aggregates 7,096,000 bu as compared with 3,082,000 bu same period in 1903. The visible supply was reported 3,680,000 bu, compared with 3,568,000 bu last week and 1,800,000 bu one year ago. Stocks in the Northwest this week are figured to decrease 10,000 bu. Flour output this week was 502 000 brls, compared with 481,000 brls same week in 1903. Odessa stocks February 1 reported 7,200,000 bu; decrease during January 5,600,000 bu. Stocks a year ago 6,000,000 bu. Duluth stocks of Wheat expected to increase 25,000 bu.

CORN—Was active and broader the past week, fluctuations covering a wider range. Outside interest was more marked and local traders operated in larger quantities. Prices were much higher, the top figures on the crop being scored. May ranged at 49¾@56⅝c and closed at 56¼c, showing 5¾@5⅞c advance. July ranged at 47⅞@53½c and rested at 58⅝c, as against 48⅝c last Friday. September sold at 47½@52¼c, and last trades were 4¼c over the final figures last Friday. The news and influences at hand most of the week were in the main "bullish" and "shorts" covered freely. Investment buying was more in evidence and before the demand was satisfied May touched 56⅝c. The inferior grading, reports of American Corn arriving at Liverpool in poor condition, and damage to the Argentine crop by drouth were among the early "bull" helps. Notwithstanding the cold winter Corn continues to grade poorly and was one of the chief "bull" influences. Out of the 1,933 cars in this week 81 per cent consisted of No. 4 and No Grade. For the corresponding week last year 1,623 cars were received and 43 per cent were off grades. The Illinois monthly crop report, published Feb. 1, said that Corn is not being marketed freely, a considerable proportion not having been dried out. High-grade Corn will be scarce. One of the largest firms in the State of Iowa wrote: "We are still able to place Corn to feeders at much above Chicago prices. It seems impossible to buy any Corn here in Iowa now at anything under 40c, and there is very little offered at that price. We have talked recently with some of the line houses here, and they tell us that they are not buying any Corn or Oats. Farmers now have an idea that they will get 50c for this Corn, and those who have any to sell are holding for considerably higher prices. This shortage on Corn is going to cause a great many Oats to be fed that would have otherwise have gone on the market. It has now been nearly two weeks since our ground has been covered with snow and impossible for Cattle to get any feed in the fields." Foreign markets were stronger and domestic markets were also higher. A fair shipping demand was reported, but the car shortage is still interfering with business. The movement through the West was fair and about in line with that of a year ago. World's shipments were 2,588,000 bu; previous week, 3,614,000 bu; year ago, 2,782,000 bu. The amount on ocean passage decreased 471,000 bu, and is now 9,720,000 bu, compared with 7,528 000 bu corresponding date in 1903. Liverpool stocks Feb. 1 reported 891,000 bu, a decrease in January of 275,000 bu. The visible supply increased 672,000 bu, compared with 905,000 bu increase same week in 1903. Total reported 7,1?0,000 bu, compared with 8,290,000 bu in 1903 and ?,632,000 bu in 1902. Local public stocks increased 152,000 bu to 2,324,000 bu, against 2,600,000 bu in 1903. Stocks here in all positions were reported 4,672,000 bu, an increase last week of 253,000 bu, and are 32,000 bu smaller than a year ago. Contract stocks increased only 6,969 bu last week and now include 2,005,185 bu, compared with 2,396,636 bu on the corresponding date one year ago. *Bradstreet's* available supply increased 1,757,000 bu, against 1,175 000 bu increase corresponding week in 1903. Around 56⅝c for May the market run into a lot of "long" Corn and the liquidation which followed carried price back to 54⅝c, July reacting to 48@51⅝c. Buying July and selling May was late feature, spread narrowing to 2¾c. New business booked at Atlantic and Gulf ports was moderate, while the exports were fair. Clearings for the week were 1,411,000 bu and the total since July 1 34,491,000 bu, compared with 21,793,000 bu for the same period in 1902-3. Argentine shipments are still being curtailed by the strike, the total this week being 804 000 bu making 3,944,000 bu since Jan. 1, against 633,000 bu same time in 1903. The visible supply there is now 789,000 bu, against 107,000 bu same date last year. Receivers experienced considerable difficulty in disposing of the low grades this week. Offerings were large and prices did not follow the speculative market. Choice dry is scarce and wanted. Corn coming from Nebraska and the Dakotas is commanding 1@2c premium over that from Iowa and Illinois owing to the better quality.

OATS—New records were made in the Oats market the past week. May advancing from 42¾c to 46⅞c and closed at 46¼c, gaining 3¼c. July sold from 37¾c to 40c and closed at 39¾c, a net advance for the week of 1¾c. A wave of outside speculative buying, which has not been seen in years, combined with active covering by "shorts," and in sympathy with other Grains, was the feature. On Tuesday there was a break of 1c, from 45¼c to 44⅛c, but it was quickly recovered, and Friday a drop from 46⅛c to 44¼c, and a rally to 46¼c. The break was due to selling by the largest holder, but seeing the market in no condition to stand his offerings, he bought them back. Most of the small local holders sold out around 45c, only to see the price continue to advance on new buying from the outside. The cash demand did not follow the advance closely, although prices in the sample market for good Oats gained 2½c, while the poorer grades were up about 1c. Receipts for the week were 747 cars, compared with 865 cars the previous week and 1,197 cars last year. The grading has improved, there being more No. 3 White in the inspection than heretofore. The poor Oats have been marketed and the good ones held back and the latter are now coming out on the advance. Iowa sold Oats more freely than for some time and in parts of Central Illinois holders showed more disposition to sell, but a scarcity of cars restricted the movement. Stocks in public houses increased 49,628 bu and were 1,181,636 bu, compared with 511,604 bu last year. Stocks in all positions increased 720,000 bu and were 4 23?,000 bu. The visible supply decreased 106,000 bu and was 8,446,000 bu, compared with 4,030,000 bu last year. Seaboard clearances were 87,000 bu, against 87,000 bu the previous week and 151 511 bu last year.

RYE—The Rye market shared in the improvement with other Grains the past week, and prices were advanced about 6½c for May delivery, while round lots of contract grade in store advanced about 5½c. The fresh arrivals which have been commanding a large premium over grade lots in store did not advance to the same extent and quotably about 1@2c higher. A very strong feeling developed, and due largely to speculative influences. The most interest centered in the May delivery. The demand has been good and the offerings light. The generally strong tone made holders indifferent about selling. The only cash business done was a few car lots of fresh arrivals which met with good sale to the regular buyers. The best car lots were wanted by millers, distillers and for manufacturing purposes, but did not command the big premium they did last week, or heretofore. Poor Rye did not meet with any special call and was slow. Receipts for the week aggregated 32 cars, compared with 19 cars last week. There were 11,400 bu withdrawn from public elevators and 13 cars from private warehouses. Export

clearances from the seaboard none. The visible supply increased 110,000 bu and was reported at 1,190,000 bu against 1,300,000 bu the previous week and 606,000 bu one year ago. The local stock in store was 320,000 bu and a year ago was 346,000 bu. No. 2 in store quotable at 57c to 59½c, with sales of car lots of fresh arrivals free on board at 60@61½c, and at the river at 57c. No. 3 fresh arrivals free on board good Rye sold at 56@56c, and at the river at 54c. No. 4 Rye sold at 54c for good. Some ordinary offered for which 50c was the best bid. Future deliveries of No 2 Rye in good demand. February was quotable at 58@59c and March at 59@59½c. May opened at 57c to 57½c, was asked, and sold later at 59c up to 61½c, and closed at 61½c.

BARLEY—A dull, slow, easy market was experienced early. There was a better showing made later. There existed a fair demand—it was not large. Low grades for mixing were wanted on account of firmer Oats. Offerings were scarce and there came about 16@2c advance in prices. This helped under grade malting Barley, causing it to become firmer and in some instances 16@2c advance was obtained. The malting demand was fair. Sellers were considerably disposed to complain early, not so much late in the week; at their respective value the different grades appeared to sell. The low grades improved only slightly. Maltsters seemed to be well supplied as a rule. Car lot offerings sufficient to supply the demand and round lots to arrive were neglected. Receipts the past week were 205 cars, compared with 240 cars the preceding week and 243 cars two weeks ago No output reported. There were no exports from New York, a week ago there were 40,735 bu and two weeks ago 1,333 bu. Local stock last week gained 6,014 bu; it was given as 351,070 bu, a year ago 1,328 bu. Visible supply, with 124,000 bu decrease, was 4,846,000 bu, compared with 2,311,000 bu last year. Prices were quotable at 39@40c early for poor to choice, to 39@43c later. Feed Barley or mixing in same way ranged at 35@39c to 39@41c, with poor many cars occasionally a shade lower. Malting-low grade was 39@43c early to 42@45c later. Common improved from 42@44c to 44@46c. Fair to good changed from 45@50c to 49@55c. For choice to fine there was a quotable range of 55@58c, very fancy possibly up to 60c.

SEEDS—The market lacked life. Cold weather has held back the trade in Grass Seeds. Both demand and offerings were small. In prices little change occurred. Offerings too small to weaken prices and demand too small to have the opposite effect. Fair quiet, also steady, and the fluctuations were within a narrow range.

Timothy—A slow and very quiet market was experienced. The movement, both receipts and shipments, very small compared with a year ago. Protracted cold and stormy wintry weather have been an obstacle to movement and to trade. Orders were so small that dealers complained of dullness. There were at the same time few consignments to be offered and there was nothing to depress the market. Values under the circumstances were about the same from day to day. Contract grade spot or February delivery was quoted nominally at $3 10. For March $3 10 was bid and $3 20 asked. Some sold at $3 15 and offered at that finally. Country lots were quoted over a range of $2 85@3 15 for poor to fancy; fair to good, mainly $2 60@3 00; choice, $2 90@3 00, and rough, dark and four lots about $2 40@2 50. Receipts and shipments with comparisons were as follows:

Receipts—The past week, lbs.	542,901
A week ago	706,800
Two weeks ago	999,021
Same time last year	1,556,900
Shipments—The past week, lbs.	239,540
A week ago	164,200
Two weeks ago	415,095
Same time last year	1,494,281

Flax—Steadiness prevailed. Sales were few. Prices fluctuated over but a small range; they held their own well. The trade was of a small volume. Occasionally small lots for May delivery would sell, and there was a fair inquiry for cash, but there was no real life to the market. Condition of the market in the Northwest had more or less influence, though fluctuations there were not always followed. Local movement was not quite what was different than it had been. From the receipts larger cash offerings than existed would be expected; very few cars came on sale. The market was without special feature. Receipts of 90 cars, compared with 64 cars a week ago, and 90 cars two weeks ago. There were taken out 31,875 bu; the week before 24,237 bu were taken out, and two weeks ago 16,000 bu. There was a small increase in Western supply last week. Chicago decreased 20,387 bu, while Minneapolis gained 6,699 bu and Duluth 3,345 bu. Stocks the first of the month compared with a year ago were as follows:

	1904.	1903.
Chicago, bu	31,579	6,214
Duluth, bu	6,891,716	3,202,511
Minneapolis, bu	1,723,746	1,594,487
Total	7,636,041	4,803,212

No. 1 cash Flax ranged at $1 03@1 11; opened at $1 10 and closed at $1 11. No 1 Northwestern or No. 1 from the Northwest was quotable at $1 06@1 16 and improved to $1 18; closed at $1 18. Rejected was entirely nominal with a quotable range of $1 02@1 12, depending on quality. February delivery nominal at $1 07 and closed at $1 06 and 07c later, and May ranged at $1 17@1 14; opened at $1 13, and closed at $1 14 bid with $1 16 asked.

Oats—During the greater part of the week futures were inactive and the market was almost devoid of country lot offerings. There was a steady market early, but later values were nominally 2@2½c lower. Contract No 2 was held at 25@25c for country lots, after which there was little or no change. Contract Sed ranged 31@32¾@31 60; country lots, common to choice 28@30½@31 60; fancy above, mainly 32@32½c per bu. Timothy Seed $3 00@3 90; poor cleaned out of Timothy, very foul, down to $3 00@3 60, inferior to fair; fair to good quality $3 90@4 00. Movements the past week with comparisons was as follows:

Receipts the past week, lbs.	129,337
The previous week	140,610
Two weeks ago	191,157
Same time last year	138,900
Shipments—The past week, lbs.	31,875
The previous week	180,985
Two weeks ago	415,095
Correspond week last year	24,237

Other Seeds—Very little or no change was noted in this market during the week. There was a steady but unexciting demand, and there was no special change. Offerings of all varieties were small, the movement being restricted, output exceeded the arrivals considerably. Prices quoted as close as follows:

Receipts the past week, lbs.	242,250
The previous week	248,120
Two weeks ago	257,202
Same time last year	246,569
Shipments the past week, lbs.	231,384
The previous week	257,202
Two weeks ago	176,035
Same time last year	246,569

Buckwheat was nominally steady. There were decreased offerings. Good milling was salable at $1 10@1 20.

Hay—The receipts for the week were 5,560 tons, against 5,142 tons for the previous week. Shipments for the week were 101 tons, against 305 tons for the previous week. The market for Timothy Hay ruled steady during the past week. Only a moderate demand existed and the offerings were almost wholly for shipment, local dealers were the only buyers. Prices exhibited no material change. Prairie Hay was in large supply and very dull during the week. The demand was light and receivers experienced considerable difficulty in disposing of consignments. Prices were about unchanged. Quotations at the close ranged as follows: Choice Timothy, $14 50@15; No. 1 Timothy, $11 00@11 50; No. 2 Timothy, $9 00@10 00; No. 3 Timothy, $8 00@9 50; Choice Prairie, $10 50@11 00; No. 1 Prairie, $9 00@10 00; No. 2 Prairie, $8 00@8 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 00@8 00 for tair to choice Timothy, $6 00 for No. 1 Timothy, $5 50 for State, and $8 50@10 50 for Iowa, Kansas and Nebraska Prairie Hay. Rye Straw sold at $8 00@9 00, and Oat Straw at $5 50@7 00.

COOPERAGE—Trade was moderate in the market for Cooperage during the past week, and the feeling was comparatively steady. Offerings were fair, while the demand was only moderate. Local packers were slow to purchase, and outside orders were somewhat limited. Pork Barrels were in moderate request. Ash were in rather good supply and sold at irregular prices—ranging $1 10@1 20, and closed at $1 12½@1 15. Oak were quiet and quotable at $1 17½@1 20. Lard Tierces were in rather good request and prices ruled steady at $1 45@1 50. Iron bound Lard Tierces were dull and slow sale at $1 20@1 32½ for six hoop and $1 37½@1 40 for eight hoop.

HOGS—The receipts of Hogs were only fair during the week just closed, and marketed somewhat irregularly, owing to the stormy weather in most sections of the West. The quality was fair, but not exactly suited to the general wants of the trade—rather too many Pigs and light averages. Market was fairly active throughout the week, but somewhat unsettled. Packers purchased with considerable freedom, though sale slow to them the views of sellers, while shippers provided for fair orders from the Eastern markets. Early the feeling was rather easy, with liberal arrivals, and prices declined 10@20c, especially on Pigs and coarse lots. Later, with a falling off in the supply, and an advance in price of Provisions and Grain, the market grew stronger, and prices rallied 10@15c. Toward the close the feeling to-day was strong, and prices receded slightly, and the market closed steady. Sales during the week were made at $4 30@4 95 for light, $4 60@4 85 for rough packing, $4 80@5 10 for mixed, and $4 75@5 10 for heavy packing and shipping lots, with the bulk of the trading within the range of $4 65@5 00 for fair to good average. At the close, about 4,000 Hogs remained in the pens unsold. Pigs were in liberal supply with a fair demand, and sales were made at $3 90@4 50, according to size and quality. Receipts of Hogs at the other large Western packing points were fairly large, but the quality was not as good as previously reported.

PACKING—With a fair supply of Hogs, there was considerable activity on the packing houses during the week just closed. Packers purchased with some freedom, and the manufacture of Products was fairly liberal. Production as much as possible confined to descriptions most wanted. Mess Pork made moderately. Other cuts of Pork made in fair quantities. Lard produced rather freely, but the average yield was not very good, owing to the lighter weight of Hogs. Shipped in tierces. Domestic cuts of Hams made rather freely, and only a small proportion delivered from the block. Skinned Hams cut in fair quantities and the bulk packed by manufacturers. Foreign cuts of Hams made sparingly. Shoulders cut in only limited quantities, and a fair proportion sold from the block to the retail trade. Picnic Hams made in fair quantities and the bulk packed by manufacturers. Long Clear Sides and Extra Long Clear Sides made sparingly. Short Clear Sides cut in moderate quantities. Extra Short Clear Sides cut in fair quantities—chiefly by the larger houses. Short Rib Sides made moderately. Extra Short Rib Sides met with a little more favor. Hogs to be principal rather in and chiefly of light and medium weights. Bellies made moderately. Backs cut in limited quantities. Loins cut rather freely to meet the wants of the local and Eastern trade. Regular Pork, Lard and special cuts of Meats made in very small quantities.

PROVISIONS—Quite an active speculative business was reported in Provisions during the past week, and the feeling in a general way was rather firm, mainly in sympathy with the course of the Grain markets. Offerings in a general way were not very free, but the demand was quite active from miscellaneous sources. "Shorts" were quite anxious to purchase, and there was a moderate inquiry on investment, partially credited to parties who are supposed to be insiders in the Grain markets. As the changes in the prices of Hogs were not marked, packers apparently gave the selling side the preference. The advance in Corn particularly had considerable influence on the market. It was claimed that merchants in the distributing centers have purchased Meats freely for future delivery, and this was a fair little effect on the general market. Supply of Hogs was not as large as generally anticipated, owing to the stormy weather in some sections of the West, and the quality was not as good as it might be. Irregular within a small range Returns of the packing of the West for the week exhibited an increase of 100,000 Hogs compared with the returns for the corresponding week last year. The speculative was rather "bearish," but its effect was offset by other features. Outside speculative orders were fairly large, and trading by local packers and speculators was rather active. Prices at the close were advanced materially. While there was considerable realizing at times, the effect of increased offerings was more than offset by the demand. Extreme figures were not fully supported to the close—a fair advance on the closing prices of one week ago was established. Foreign markets were rather irregular, while the demand was unchanged in prices, while Lard was stronger and prices advanced. Domestic markets was quiet and prices favored sellers. The receipts of Products were fairly liberal, as packers were running quite freely on contracts. Shipments were not very large, and only a moderate proportion forwarded to foreign markets. Exports for the week were quite large. The reports of supplies on hand were somewhat disappointing—the stocks of Mess Pork and Short Rib Sides being considerably less than expected. In a speculative way there was a fair trade, there was only a moderate business transacted The demand was fairly active, and the offerings were moderate. Holders rather indifferent in their views, owing to the value placed on them. Orders were fair from the Southern markets. Exporters were virtually out of the market for the week. Only a small business in Pickled Meats was conducted in a quiet way. Some lots accepted for mid-summer delivery. Prices inclined in favor of sellers.

LARD—Considerable interest was manifested in the market for Mess Pork, and the volume of business was quite liberal. Offerings were rather free at times, while a good miscellaneous demand prevailed. Trading was almost exclusively in contracts for May delivery. "Shorts" purchased with considerable freedom, and their influence on the market was plainly manifested at times. Stocks on hand increased about 2,900 brls during January. Early in the week, the feeling was rather easy with some pressure to sell, and prices receded 35@37½c. At the decline, there was quite a good mi-

irregular. Offerings were moderately free and the demand was quite active from the trade, including the taking of 2,000,000 lbs during January, which was greatly unexpected by the trade, as private estimates had been reporting an increase, probably nearly 5,000,000 lbs for May and July. Early in the week, the feeling was rather easy, with some pressure to sell, and prices receded 17½@20c. At the decline the demand improved, while other influences were more favorable. At the close the range were advanced 37½@40c Toward the close, the feeling was not so strong, with a little inclination to realize. Prices settled back 12½@13c, and closed rather irregular and steady. Demand on shipping account was moderate, and offerings were somewhat limited. Trading chiefly in a quiet way to fill small orders from the South. At the close, cash lots were quotable at 36 30@6 75, according to weight.

Green Meats—Trade was somewhat limited in the market for Green Meats the past week, and there was no particular changes to note. Packers were not disposed to sell to any extent, and the demand was limited Local curers were slow to purchase, and cautious to purchase, and at times "longs" realized on moderate quantities. Production only fair, and yield moderate. Early in the week, there was little pressure to sell in a general way, and an easy feeling prevailed. Prices gradually receded 17½@20c. At the decline the demand was considerably enlarged, while the offerings were moderate. Prices irregularly advanced 40@45c on the whole range. Toward the close, there was moderate realizing by "longs" and an easier feeling was developed. Prices settled back 50@55c, and the market closed comparatively steady. Trading was chiefly in May and July contracts. Demand on shipping account was light and there was no particular pressure to sell. A few trades were made at about 20c discount on May figures, and closed steady at $7 35@7 37½. Refined in only fair demand and prices entirely nominal. Loose was very dull in fair demand, and offerings were somewhat larger. A few trades were made at 70c discount on May figures. Leaf Lard offered rather freely and the demand was active. Prices ruled steady, and fair sales were made at $6 75@7 00, and closed steady at $6 87½. Neutral was in fair supply, with only a moderate demand. Prices ruled steady, and at close ranged at $6 37½@6 50 for No. 1, and $7 62½@7 75 for No. 2.

Short Rib Sides—A good speculative business was reported in the market for Short Rib Sides, and the feeling was somewhat unsettled and prices

Hams were in fair request in a quiet way, and prices were somewhat higher. A few lots accepted for mid-summer delivery. Bellies were in light request, and prices were well supported, especially for the lighter averages

Dry Salted Meats—Quite a large business was reported in Dry Salted Meats during the past week, and the undertone to the market was stronger. Offerings were not very free, and the demand was moderately active, principally for small private quantities for the domestic trade Foreign inquiry was light Holders rather firm in their views, and in some instances were disposed to withhold free offerings. Supplies are quite liberal. Packers sold moderately. Foreign cuts of Hams were in small request and prices unchanged Shoulders were in moderate request and prices ruled steady. Long Clear Sides were quiet, with prices favoring buyers Extra Long Clear Sides inactive, and prices entirely nominal Short Clear Sides of moderate inquiry, and prices ruled rather steady. Extra Short Clear Sides were called for in moderate quantities, and prices ruled slightly higher Extra Short Rib Sides were rather quiet and firmly held—prices quotably slightly higher at the close at 6¾@6¾c Rough Sides were in rather good request for small lots, and offerings rather fair. Inquiry chiefly for medium averages. Prices favored sellers—closing at 6¾@6¾c according to weight Butts were in moderate request and prices well maintained Plates in fair demand and prices were well supported. Bellies were in rather light request and prices steadier Backs were in rather small demand, and prices ruled steady. Foreign fancy and special cuts of Meats were called for sparingly, and prices favored sellers.

Smoked Meats—Trade was fair in the market for Smoked Meats during the past week and the feeling was stronger. Offerings were not very large and the demand was somewhat improved. Jobbing trade was fair and there was a better inquiry for car lots. Some round lots were accepted for mid-summer delivery. Orders chiefly from the Southern markets. Hams were in rather good demand and prices ruled ¼@¾c higher. Skinned Hams in fair request and prices ruled ¼@¾c higher. Shoulders were stronger and prices were advanced ¼@¾c. Picnic Hams in fair demand and prices ruled ¼@¾c. Bellies in small orders and prices were advanced ¼@¾c. Sides of all kinds were in fair request and

prices ruled ½@¼c higher. Breakfast Bacon in moderate request and prices favored sellers.

Beef Products—Trade was moderate in Beef Products during the past week. Offerings were not very large, and holders rather firm in their views. Demand was moderate, and chiefly for domestic wants. Prospects of war in the East, and anticipated increase in the demand for some descriptions tended to a little more steadiness. Bids were received for a few lots, but holders refused to accept them. Foreign markets were steady. Home markets rather quiet. Receipts of Cattle were fair, and prices favored sellers. Manufacture of Products was fair. Shipments of Dressed Beef were quite large. Beef Hams were in moderate request and prices ruled steady. Extra Mess Beef was called for in fair quantities, and prices well maintained. Plate Beef in rather light demand, and prices rather steady. Extra Plate Beef was in moderate request and prices unchanged. Tallow was in fair request in a quiet way, and offerings were not very large. Prices ruled steady. Oleo-Stearine was in fair request and ruled steadier at 6¾@7c.

Greases—Only a moderate trade was reported in Greases during the past week. Offerings were only fair and the demand was moderate. Prices without material change for all grades.

THE WEATHER CONDITIONS.

The weather map shows light precipitation quite generally over the West and Northwest. In all cases it is very light—in most cases traces. There is .02 at Wichita, and .10 at Ft. Worth, but there is light general precipitation over Manitoba, Dakotas, Minnesota, Illinois, Nebraska, Missouri and the Ohio Valley.

Temperatures in the Northwest again low -10 below in the extreme North. In the West and Southwest temperatures are unseasonably high.

Indications are for rain turning to snow; colder Sunday.

ITEMS OF GENERAL INTEREST.

The Delaware and Hudson Company is to increase its stock $7,000,000 to take $5,000,000 in bonds and meet obligations.

A fire in the business district of Clarksville, Tenn., destroyed property to the extent of $100,000, Monday. Partly insured.

The Coal operators of Wise County, Virginia, have made a 12 per cent reduction in the wages of miners. Five thousand men are affected.

The Southern Pacific Company applies to the New York Stock Exchange to list $15,000,000 additional two to five years 4½ per cent collateral trust bonds of 1905.

Application has been made to the New York Stock Exchange to list $2,529,000 additional 4 per cent refunding mortgage bonds of 1951 of the St. Louis and San Francisco Railroad Company.

It is stated that the Anniston, Ala., plant of the Southern Car and Foundry Company will pass into the hands of the American Car and Foundry Company as soon as the receivers of the Southern Company are able to vacate.

The Missouri Pacific Railway Company sold on Tuesday last $6,000,000 two-year 5 per cent secured notes to Eastern bankers. These notes have already been placed with investors in France, Holland, England, and New England.

Traffic on the Lake Street Elevated Railroad, Chicago, showed a falling off in January of 2.75 per cent as compared with the same month last year. The trouble was laid to the closing of the theaters and the severe weather, which stopped shopping travel.

The Adams Express Company will, on March 1, pay to shareholders of record on Feb. 11 an extra dividend of $2.00 per share. The funds for this payment represent the proceeds derived from the sale of some property not needed to conduct the company's business.

Bolton, De Ruyter & Co., one of the largest Grain, Provision and Stock houses in San Francisco failed, Wednesday. The cause assigned is the inability of a large customer who was "long" on Cotton to respond to margins. Their liabilities are said to be $100,000.

The directors of the Chicago Telephone Company met Wednesday and reelected the retiring officers for another year. No action was taken looking toward an issue of authorized new capital as the company has plenty of cash to go ahead with new construction for some time.

Railroad earnings for the fourth week of January made showings of decreases rather generally. The St Paul December net, however, increased $214,141, while the Southern Pacific December statement exhibited a gross increase of $643,486, practically all of which was saved in net.

The Reading Company will make the following announcement on Monday: "The Board of Directors has declared from net earnings, after providing for sinking fund on Coal, a dividend of 2 per cent on the first preferred stock, payable March 10. Books close Feb. 25 and reopen March 31."

The St. Louis, Iron Mountain and Southern Railway Company has applied to the New York Stock Exchange to list $1,731,000 additional unifying and refunding mortgage 4 per cent bonds of 1929 and $611,000 additional general consolidated railway and land grant mortgage 5 per cent bonds of 1931.

The Kansas Oil fields, which are 50 miles long and 125 miles wide, produced 1,000,000 brls of crude Oil in 1903 of a quality equal to the Indiana and Ohio production and the development warrants the assertion that the production will reach 2 000,000 brls in 1904. The Standard Oil Company controls the field.

The Inter-State Commerce Commission has decided that the action of the three railroad companies entering Hutchinson, Kan., in dividing rates on Salt with the Hutchinson and Arkansas Railroad Company, a so-called railroad company is unlawful, and that the joint tariff made is a mere subterfuge to give a concession in rate.

The Lake Street Elevated Railroad Company, Chicago, securities committee Friday announced another extension in the time for receiving deposits of securities under the reorganization plan. This time the extension is to March 5. The process of completing the details of the reorganization is reported to be progressing, but time is required to work them out.

The Liverpool *Corn Trade News* of Jan. 23 says: "A correspondent writes from Odessa under date of Jan. 19, that although the crops in several regions have sufficient snow cover, yet he does not consider the general outlook as favorable, and unless large quantities of snow fall in the near future there will be bad yields at next harvest over a great extent of Russia."

It is likely that the dissenting bondholders of Colorado Fuel and Iron who are objecting to lifting the indebtedness of the company through the new financial plan will also oppose the transfer of the Coal and Iron lands of the company to the Rocky Mountain Coal and Iron Company. In that event the dissenting holders will be fought by the company and the bondholders' protective committee working in harmony for reorganization.

It was stated unofficially, but still authoritatively, in Washington, Wednesday, that the Secretary of the Treasury had decided to call in about ten days for 20 per cent of the $172,000,000 of public funds now deposited with the National banks, and in a couple of weeks later to issue a call for an additional 10 per cent of these public moneys, so that, as it seems, the National bank depositories will soon be required to pay in about $45,000,000 to the National Treasury.

A New York dispatch says: "Denials to the contrary notwithstanding, it is learned on the very best authority that the United Seates Steel Corporation and other members of the Steel rail pool are still considering the question of cutting the price of Steel rails from $28 a ton to $26 a ton. It all depends upon the attitude of the railroad companies. If they agree to take 1,000 000 tons at $26 it is likely that a new price schedule will be enforced."

Sweeping reductions in freight rates in Missouri were made, Thursday, by the State Board of Railway Commissioners. It ordered reductions of rates on Grain from 30 to 35 per cent, on Live Stock from 5 to 40 per cent, on soft Coal about 50 per cent, on hard Coal about 25 per cent, on Lumber about 15 per cent, on merchandise from 5 to 50 per cent, and on other classes from 6 to 50 per cent. This drastic action on the part of the commission is likely to be resisted vigorously by the roads.

A New York dispatch says: "Announcement has been made by President Burgess of the New York Produce Exchange that trading in New York-Buffalo contracts for future delivery of Grain may now take place and actual deliveries on such contracts may be made, beginning Aug. 1. This movement is the result of efforts on the part of the Produce Exchange to broaden the Grain market here, lack of storage facilities having in recent times caused considerable contraction in the trade."

At the annual meeting of the stockholders of the Diamond Match Company in Chicago, Wednesday, the charter of the company was so amended as to bring it beyond peradventure under the laws of the State of Illinois relating to manufacturing companies. At present the company is engaged in litigation with the State regarding the payment of taxes on its capital stock, the State taking the position that the company is not exempt under the laws relating to the taxation of manufacturing companies. While disputing this contention the company management thought it best to settle the question for the future by changing its charter. The action ends all danger of the corporation removing its legal headquarters from the State.

All the railroads in the country are interested in a decision just rendered against the Chesapeake and Ohio Railroad by the United States Circuit Court of the Western district of Virginia. The evidence in the case showed that the Chesapeake and Ohio agreed to deliver from its soft Coal mines a quantity not exceeding 400,000 tons annually to the New York, New Haven and Hartford Railroad at a lower rate than the price at the mines plus the regular freight rates. In other words, the Chesapeake and Ohio Railroad, by owning both the mines and the transportation facilities, was able to discriminate in favor of any purchaser of its Coal. The Court declares that such action is contrary to the Elkins amendment to the Inter-State Commerce law. The Chesapeake and Ohio Railroad will carry the case to the Supreme Court of the United States.

Representative Martin of South Dakota wants an investigation of the discrepancy between the low price of Cattle and the high price of Beef to the consumer. He has introduced the following resolution in the House: "That the Secretary of Commerce and Labor be requested to investigate the causes of the low prices of Beef Cattle in the United States since July 1, 1903, and the unusually large margins between the prices of Beef Cattle and the selling prices of fresh Beef, and whether the said conditions have resulted in whole or in part from any contract, combination in the form of trust, or otherwise, or conspiracy in restraint of commerce among the several States and Territories or with foreign countries; also whether the said prices have been controlled in whole or in part by any corporation, joint stock company, or corporate combination engaged in commerce among the several States or with foreign countries; and, if so, to investigate the organization, capitalization, profits, conduct, and management of the business of such corporations, companies, and corporate combinations, and to furnish to this House at his earliest convenience the results of the investigation herein requested."

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Documentary Sterling steady at 482½.

Chicago Bank Clearings to-day, $30,069,702.

Cables say: "Odessa exporters have ceased offering Wheat."

Consols closed at 86¾ money and 86⅞ account, both being ⅝ lower than Saturday's close.

Estimated receipts for to-morrow are: Wheat, 45 cars; Corn 424 cars; Oats 319 cars. Hogs, 32,000.

Reported that 376,000 bu Wheat and 408,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 21,000 Hogs to-day; shippers, 10,600; left over, 3,000. Market closed weak and 5c lower.

The output of the St. Louis Flour mills for the past week was 71,900 brls, against 81,700 brls for the previous week.

Yokohama cables: "All of the banks in this city have withdrawn their open letters of credit to the entire world."

The packing at Milwaukee since Nov. 1 is estimated at 283,102 Hogs, against 346,074 for the corresponding time in 1902-3.

The quantity of Flour and Wheat on passage to Europe during the past week increased 3,472,000 bu, and the quantity of Corn increased 1,307,000 bu.

A dispatch from Baltimore says: "The Grain elevators in the harbor of Baltimore have not been destroyed by fire. They are across the river."

Exports of Flax Seed from India the past week were 72,000 bu, compared with 24,000 bu for the week previous, and 120,000 bu for the corresponding week in 1903.

The stock of Flax Seed at Duluth on Feb. 6 was 5,961,765 bu, compared with 5,875,716 bu the previous week—an increase of 86,049 bu. Stock last year, 3,260,074 bu.

The Winter Wheat acreage of France is officially estimated at 259,000 acres less than a year ago. Condition is 71.3 per cent compared with 70.5 at corresponding time last year.

The average weight of the Hogs received at Chicago last week was 200 lbs, the lightest since January, 1902, against 204 lbs the previous week, 209 lbs the corresponding week in 1903, and 205 lbs in 1902.

Stocks of Wheat in public warehouses in Liverpool reported at 2,380,000 bu, against 2,072,000 bu one week ago and 2,176,000 bu one year ago. Stocks of Corn reported at 574,000 bu, against 891,000 bu one week ago, and 195,000 bu last year.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 560,000 bu Wheat, 105,000 bu Rye, and 114,000 bu Barley, and an increase of 871,000 bu Corn, and 150,000 bu Oats.

Broomhall cabled: "The Liverpool strength was on the virtual commencement of the war, the drop in Consols and on covering by "shorts." There was considerable covering by large "shorts" who were taking in hedges against Argentine cargoes."

East-bound rail shipments from Chicago and Chicago junction points compare as follows:

	Flour, brls.	Grain, bu.	Prov., tons.
Past week	168,076	2,316,000	27,301
Previous week	184,121	2,498,000	28,670
Last year	96,804	2,537,000	26,425

Advices regarding the disastrous fire at Baltimore are conflicting owing to a lack of direct telegraph facilities. Some dispatches state that the fire was under control at noon, except in the Lumber district, while other reports claim it had spread to the residence district, and beyond control of the firemen. The impression prevails that the financial loss has been exaggerated.

The Local Security market was irregular, but local issues do not reflect the sharp decline of the New York market. Some of the Stocks show small declines, while others are fractionally higher. There has been only a small scattered trade and no feature to the market. Biscuit and Can preferred have divided attention between them and both are steady. Swift's was strong and higher.

Cotton in New York continued its downward course. Liverpool closed 37 to 30 points lower. At the start New York advanced 11 to 25 points on covering by "shorts" and efforts of "bull" leaders to check the decline. Distant futures were sold heavily and suffered losses of 41 to 95 points. As prices yielded "shorts" covered more extensively. The market rallied at the last and closed 16@29 points lower.

Stocks in New York were heavy and closed with severe losses. The depressing factors were the fire at Baltimore and the war news. The former, it was feared, will cause insurance companies to throw large holdings of Securities on the market at a time when it has troubles of its own. Railway shares declined 1 to 3 points, Coalers 1½ to 2, Industrials 1 to 5 lower. Steel lost 1¾ but recovered ½. The Steel interest will be benefited by an increased demand for structural material growing out of the Baltimore fire. Money 1¾ to 2 per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is reported steady, with a moderate local and domestic demand.

WINTER WHEAT—Very quiet and steady for choice soft but easier for ordinary Wheat. There was some milling demand for choice Wheat and fine prices were paid, but the poor Wheat was slow. No. 2 Red in store ranged at 94@97c and fresh arrivals free on board sold at 96@98c inside for Southern Wheat. No. 3 Red, very choice soft, sold at 98c, and ranged down to 90c for ordinary. No. 2 Hard sold at the river at 88c and ranged at 83@88c. No. 3 Hard sold at the river at 75@83c and ranged 75@87c. No. 4 Hard sold at 68c at the river.

SPRING WHEAT—Was quiet and easier, with prices quotably a shade lower. Scarcely enough arriving to make a market. No. 1 Northern in store quotable at 94@95c, and fresh arrivals free on board quotably 92@95c. No. 3 Spring at the river sold at 83c and was quotably 80@91c for common to choice hard variety. No. 4 sold at 58@78c for poor to good and at 83c for very good hard variety.

REGULAR WHEAT—A very heavy trade and erratic, unsettled market, price changes being easily influenced. The close was unchanged for May and ¼c lower for the July. The market started stronger on the ⅝ decline in British consols, stronger cables and war news. There was a rush on the part of local and outside "longs" to liquidate and the price receded quickly. At the decline there was good support by the "bull" party in May and a 1⅝c recovery followed. Market then broke 1⅛c and closed at 94c. The map showed cold weather and absence of moisture in Oklahoma and Kansas and snow flurries with little change in temperatures indicated by the Signal Service. Liverpool quoted spot steady to ½d higher and futures ¾d higher. Stocks there, 2,380,000 bu, decreased 104,000 bu last week. London was ⅜@½d higher, and Paris up 1¼@2c. Antwerp unchanged. Berlin 1¾c higher, and Buda Pesth ½c higher. World's shipments were 11,552,000 bu, compared with 11,036,000 bu the previous week and 9,738,000 bu one year ago. The quantity on ocean passage increased 3,472,000 bu, to 39,664,000 bu, against 28,872,000 bu one year ago. The visible supply decreased 560,000 bu, compared with 18,000 bu decrease same week in 1903. Total is now 39,200,000 bu, against 48,420,000 bu in 1903 and 56,550,000 bu in 1902. Local public stocks decreased 30,000 bu, to 2,903,000 bu, compared with 7,780,000 bu one year ago. Primary receipts were 92,000 bu less than a year ago. Arrivals in the Northwest were were 89 cars smaller. Kansas City and St. Louis received 273,000 bu; last year 167,000 bu. Shipments at two points 234,000 bu. The area seeded to Winter Wheat in France was reported 259,000 acres less than one year ago, and condition 71.3 per cent, against 70.5 per cent same date in 1903. *Broomhall* cabled Odessa had temporarily stopped all offers. The seaboard reported 31 boat loads accepted. Receipts at Duluth 35 cars and at Minneapolis 441 cars, a total of 476 against 278 cars Saturday, 431 cars a week ago, and 683 cars last year. Local receipts included 14 cars Winter, 7 cars Spring and none mixed, a total of 21 cars, against 51 cars last year. Included in above was none of contract grade. There were 13 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 25 cars. Withdrawals were 6,000 bu. Receipts at Western points were 760,997 bu, against 851,633 bu last year. At Eastern points 33,700 bu, against 192,275 bu last year. Shipments from Western points were 299,874 bu, against 194,862 bu last year, and from Eastern points 126,000 bu, against 457,694 bu last year. Shipments of Flour were 67,550 brls. Exports of Wheat in Flour were equal to 423,975 bu.

Future Deliveries of Regular Wheat—Good trade and feeling easy.

FEBRUARY—Entirely nominal and quotably about 94c at the close.

MAY—Sold at 93⅜@95c. Opened with sales at 95c to 94½c, sold to 94⅝c, to 93⅞c, to 94c, to 93⅞c, to 94⅝c, to 93⅝c, to 94¾c, to 93⅞c, to 94⅝c, to 93⅝c, to 94¼c, to 94⅜c, to 94¼c, to 94c, and closed at 94c.

JULY—Sold at 84⅛@85¾c. Opened with sales at 85¾ to 85¼c; sold to 84⅛c, to 84c, to 85¾c, to 84⅞c, to 84⅝c, to 85¼c, to 84⅝c, to 85c, to 84⅝c, to 84⅝c, to 84½c, to 84⅞c, to 84⅝c, and closed at 84⅝c bid.

SEPTEMBER—Sold at 78⅞@80½c. Opened with sales at 80½c to 80c; sold to 79¼c, to 79½c, to 78⅞c, to 79½c, to 79⅞c, to 80⅛@80¼c, to 79½c, to 80⅛c, to 80@80⅛c, and closed at 80@80⅛c.

CORN—A large trade and broad, excited market, with last prices on the May 1⅞c lower, while July lost 1⅝@1¾c and the September 1c. The opening was strong and higher on the decline in British Consols and war news, but immense quantities of "long" property soon came on sale and the price declined rapidly. Part of the selling was credited to large Eastern holders and local Provision interests. May broke from 55c to 52c, but later rallied to 53⅛c. May-July spread varied from 1⅝c to 2½c. The market was sensitive and nervous and at times it was quite difficult to trade stop-loss orders being numerous on the early break. Outside markets were all weak and Liverpool ½d lower. Stocks there, 574,000 bu decreased 43,000 bu last week. The map showed much colder conditions West and little change in temperatures indicated. Receipts 423 cars, with 383 cars low grades. Last year 458 cars, with 225 cars off grades. Estimates for Monday, 420 cars. World's shipments quite moderate at 3,509,000 bu, against 2,584,000 bu the previous week and 3,011,000 bu one year ago. Quantity on ocean passage increased 1,307,000 bu to 11,126,000 bu, compared with 7,800,000 bu 1903. Visible supply increased 871,000 bu compared with 1,225,000 bu increase one year ago. Total is now 8,061,000 bu, against 3,540,000 bu 1903, and 11,580,000 bu in 1902. Local public stocks increased 133,000 bu to 2,457,000 bu compared with 2,807,000 bu one year ago. Western receipts 745,000 bu; last year 870,000 bu. Shipments 457,000 bu and 783,000 bu respectively. Local arrivals 241,000 bu, and 156,000 bu. Exports 230,100 bu and 51 boat loads accepted at the seaboard. Transfers from private to public elevators 66 cars. Shipping demand moderate and sales 100,000 bu. Car lots in fair demand and prices 1@⅜c lower. No. 2 and No. 2 Yellow closed at 49c. No. 3 closed at 43⅞@48½c. No. 3 Yellow closed at 43½@49c. No. 4 sold at 42@42½c. No Grade sold at 33@38c.

Corn by sample—Was in demoralized condition. Offerings large and quality very poor. Feeling decidedly weak and anywhere from 1@3c lower. Sales on track and free on board. No Grade sold at 25@39c. No. 4 at 30@44c. No. 3 at 41½@45c. No. 3 Yellow at 41@50c. No. 2 Yellow at 50¾c. No. 3 White at 44@45½c. Billed through: No Grade at 31@39c. No. 4 at 33@42½c. No. 3 at 42@44c. No. 3 Yellow at 43½@45c. No. 3 White at 44@44½c.

Future Deliveries of No. 2 Corn—Active and unsettled and closed 1c to 1⅞c lower.

FEBRUARY—Inactive; closed at 49c.

MAY—Sold at 52@55c. Opened at 55c to 54¾c and sold at 53¾c, to 54c, to 53⅝c, to 54⅛c, to 53⅝c, to 54¼c, to 53⅝c, to 54⅛c, to 53c, to 53⅛c, off to 52c, to 53⅛c, to 52¾c, to 52⅞c and closed at 52⅞c asked.

JULY—Sold at 50⅝@52½c. Opened at 52½c to 52⅛c and sold at 51¼c, to 51¾c, to 51⅜c, to 51½c, to 51⅞c, to 50⅞c, to 51⅛c, to 51c, to 51¼c, to 50⅝c, to 51⅛@51¼c, to 50¾c, to 50⅞c, and closed at 50⅞c.

SEPTEMBER—Sold at 49⅞@51½c. Opened at 51½c to 51c, and sold at 51¼c, to 50¼c, to 51¼c, to 50⅝c, to 50⅞c, to 50c, to 50⅜c to 49⅞c, to 50⅛c, to 50⅛c, and closed at 50⅛c.

OATS—Were under the influence of heavy selling by the largest holders. There was also the same experience as in other Grains, traders being "long" in anticipation of a war bulge. The selling was continuous, the larger offerings bringing out those from smaller holders. Prices opened ⅛c to ¼c higher on the war news, but declined 3¼c on May and ⅛c to 2c on other months. Good rallies followed the break, but the close was easy at net losses of ⅝@2⅛c. The support came mainly from elevator interests who were "short." Weak holders were forced out and there was a general evening up. Statistics were "bearish." Local stocks increased 28,000 bu and are 1,474,000 bu. The visible supply increased 150,000 bu, against 695,000 bu last year. Receipts were 307 cars, with 310 cars estimated to-morrow. There were 17 cars Standard in the fresh receipts and 19 cars from private elevators. Seaboard clearances, 1,943 bu. The cash market was demoralized by the break in futures, but on the decline 65,000 bu sold for shipment. Car lots were 1@3c lower. No. 3 White sold at 40c. Standard in store closed about 39⅜@39⅝c, as to location.

Oats by sample were weak, with prices 1@3c lower. There were larger offerings and a slow demand, especially for the poorer samples. The break in futures had a depressing influence. Sales on track and free on board: No. 4 at 37@38½c. No. 4 White at 38@43c. No. 3 at 38½@39½c. No. 3 White at 38½@41½c. Standard at 42½@44c. No. 2 at 38½@40c. Billed through: No. 4 White at 39@40c. No. 3 White at 41@43½c. Standard at 41@43½c. No. 2 at [illegible]. At the river: No. 4 White at 36½c. No. 3 at 37½@38c. No. 3 White at 39@41½c.

Future Deliveries of Contract Oats—Were higher early and lower later.

FEBRUARY—Inactive. Closed at 2½c under May at 38⅞c.

MAY—Active and unsettled. Sold at 41½@44¾c. Opened at 41½@41⅝c to 44¾c, sold to 41½c, to 42½c, to 41⅞c at close.

JULY—Active. Sold at 37½@39½c. Opened at 39⅜ to 39c, sold to 37½c, to 37⅞c at close.

SEPTEMBER—Sold at 33@33½c. Opened at 33½c, sold at 33c, to 33⅛c at close.

RYE—Was dull and neglected. No demand to speak of and prices 1@2c lower. There were seven cars received, and 10,000 bu withdrawn from public elevators. No export clearances reported. The visible supply decreased 105,000 bu and local stock decreased 10,000 bu. No. 2 in store nominally 60c, and fresh arrivals quotably 56@60c, with a sale of poor free on board at 56c, and a car at the river at 59c. No. 3 nominally about 55c. No. 4 sold at 50c.

Future Deliveries of No. 2 Rye—Nothing doing and prices 1@3c lower. February nominally 60c. March nominally 61c. May closed at 60c bid and 62c asked.

BARLEY—There was about 1c decline in prices today for Screenings and feed Barley, caused by depreciation in Oats values. Offerings of these grades were at the same time meagre. In the market for malting grades no essential change developed. Demands were fair. Supply a little larger. It was made up mainly of common to good and trading was firm within the range of 44@50c. Choice to fancy Barley was absent in the spot offerings. Nothing was heard about to arrive lots, they were neglected. Visible supply increased fairly the past week; figures are elsewhere given, local stock unchanged. Receipts posted 85 cars. Screenings were quotable at 30@41c for poor to choice, sales made at 34@40c. Barley feed or mixing, quotable at 38c to 41c; if thin and nice color possibly above; river billed sold at 39½c; malting low grade about 41@44c, very dirty below; common, 44@46c. Fair was about 47@50c, good, 51@54c; choice nominally, 55@58c; fancy possibly above.

SEEDS—There was an easy slow market for Timothy and Flax prices declined some. There were no other changes, the entire market ruled very quiet.

Timothy—Was slow and heavy. Spot offerings were somewhat larger than at the close of last week. Some March delivery offered at the $3 10 nominal quotation. The demand from all sources remains tame. Weather cold, and that seems to hold orders back. Market for contract spot or February remains at nominally about $3 05. March delivery offered at $3 15. Country lots quotable over a range of $2 25@3 15 for poor to fancy; fair to good quotably $2 60@2 80; choice, $2 85@3 00, and rough, dark and foul lots about $2 40@2 55.

Flax—An easy feeling developed. The market here was framed after the market in the Northwest in which quarter an easier feeling prevailed. There was 1@2c decline in prices compared with Saturday's quotations. Very little was done. No trading aside from a few car lot sales. Local receipts very good, 35 cars or 49,780 bu, and 3 cars or 3,119 bu taken out. Local stock last week decreased 12,857 bu; leaving 18,722 bu, against 6,214 bu a year ago. Receipts at Minneapolis 33 cars, at Duluth 27 cars. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 16½; sold at that. No. 1 nominally $1 16. Rejected quotably $1 06@1 11 as to quality. February was nominally $1 10; May was $1 12 bid.

Clover—Was quotably steady and salable, but market without offerings and therefore lifeless. Contract spot Clover $10 75@11 00 and March delivery at $11 00. Country lots, common to choice $8 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00; inferior lower; fair to good quality about $9 00@10 00.

Other Seeds—No spot lots on sale. Some Hungarian offered to arrive, but held above current prices or what buyers would pay. At former prices there was said to be a steady market, with all lines salable. Hungarian, common and light color to choice, dark at $1 50@1 85. Common Millet 90c@$1 25 for poor to fancy. German Millet, 90c@$1 25. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05. Buckwheat steady; good milling quotable at $1 15@1 20.

HOG PRODUCTS—Rather a good business in a speculative way was transacted in Hog Products, and the feeling was considerably unsettled and nervous. Outside orders were not so free, while local trading was fairly active. Offerings were moderate early, owing to the fact that the receipts of Hogs were smaller than generally anticipated, with prices higher, and prices of Products ruled higher temporarily. After the early orders were provided for, there was a little pressure to sell, especially as the Grain markets were easy and a weaker feeling was developed. Prices receded moderately on all the leading articles and market closed steady at nearly inside figures. Trading continued to May and July contracts. Receipts of Hogs at the leading Western packing points were estimated at 65,300, compared with 62,200 one year ago. Foreign markets were steady and Cumberland Sides were quoted 6d higher. Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 25 cars. Shipments fair—of Lard and Meats about 11 cars. Shipping demand was moderate in the way of filling small orders, and offerings were only fair. Sales were comparatively light, and prices unchanged. Exports for the week compared with the corresponding week in 1903, exhibited increases of 520 brls of Pork, 1,344,000 lbs Lard, and 3,388 boxes Meats.

Mess Pork—Trade was fairly active in Mess Pork and the feeling was unsettled. Offerings were rather free and the demand was moderately active. Market opened rather firm and prices were 15@30c higher. Later a weaker feeling was developed, with some pressure to sell, and prices receded 7½@20c, but near the close rallied 5@7½c, and the market closed rather steady. Trading chiefly in May contracts. Shipping demand was light and offerings were moderate. Cash lots were quotable at $13 50@13 62½.

MAY—Offerings were rather free, and the demand was only fair. Sales were made at $13 60@13 90. Opened at $13 75 to $13 90, sold to $13 72½, to $13 80, to $13 70, to $13 75, to $13 72½, to $13 80, to $13 70, to $13 77½, to $13 62½, to $13 65, to $13 70, to $13 67½ and closed steady.

JULY—Quiet, with small sales at $13 82½@13 95, but closed nominally $13 77½.

Lard—Rather a good business was reported in the Lard market, and the feeling was unsettled. Offerings were moderately free and the demand was fair. Market opened rather firm, and prices ruled 7½@10c higher. Later, a weaker feeling prevailed, and prices irregularly receded 12½@15c, and the market closed steady around inside figures. The foreign advices were unchanged. Trading was almost exclusively in the May and the July contracts. Inquiry on shipping account was very light, and the offerings were moderate. Cash lots quotable at about $7 35@7 37½. Loose lots called for moderately and offerings were only fair. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $8 87½. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 25@8 37½ for No. 1 and $7 50@7 62½ for No. 2.

MAY—Offerings were rather free, and the demand was fair. Sales were made at $7 55@7 67½. Opened at $7 65 to $7 67½, sold to $7 55, to $7 57½, to $7 55, to $7 60, to $7 52½, to $7 55, to $7 62½, to $7 57½, to $7 52½, and closed steady.

JULY—In rather good demand and the offerings were fair. Sales were made at $7 57½@7 72½. Opened at $7 70 to $7 72½, sold to $7 70, to $7 72½, to $7 60, to $7 65, to $7 57½, to $7 60, to $7 57½, to $7 65, to $7 67½@7 60, and closed steady.

Short Rib Sides—Quite a good business was reported in Short Rib Sides, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was fairly active. Market opened rather firm at 5@7½c advance, and a further improvement of 2½c was gained. Later, a weaker feeling was developed and prices receded 5@7½c. Later, a stronger feeling was manifested and prices raised again, but toward the close settled back 10@12½c, and the market closed steady at nearly inside figures. Shipping demand was light and offerings were moderate. Cash lots quotable at $6 55@6 75 according weight.

MAY—Offerings were rather free, and the demand was fair. Sales were made at $6 77½@6 90. Opened at $6 85 to $6 87½, sold to $6 90, to $6 82½, to $6 85, to $6 82½, to $6 87½@6 80, to $6 80, to $6 82½, to $6 77½, to $6 82½, and closed steady.

JULY—In fair request and offerings were moderate. Sales were made at $6 92½@7 02½. Opened at $7 00, sold to $6 95, to $7 02½, to $6 97½, to $7 00, to $6 92½@6 95, to $6 95@6 97½, and closed steady.

Other Meats—Only a moderate trade reported in Meats. Domestic demand was fair, and export demand was limited. Offerings of all kinds were fair, and holders rather firm in their views. Green Meats were in small request, with moderate offerings and prices were unchanged. Pickled Meats in moderate demand, with only fair offerings, and prices well maintained. Dry Salted Meats in moderate demand and offerings not very large. Prices ruled rather steady. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs, 9¼@9⅜c; av 12@14 lbs, 9⅛@9¼c; 14@16 lbs, 9⅛@9¼c; 18@20 lbs 9¼@9⅜c. Skinned Hams [illegible]; Shoulders, 6@6¼c; Picnic Hams 6⅛@6¼c; Bellies 8¾@10c. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Jan 26.]

United Kingdom—We have had less rain and more frost during the past seven days, and although the weather has not been entirely satisfactory to farmers, yet they have been able to make a little progress with preparations for spring seeding. Little or nothing is now said about additional Wheat seeding and there is no doubt we must expect to see a very small acreage indeed under the premier cereal when the government figures are next issued.

Russia—The majority of our correspondents are inclined to take rather a gloomy view of crop prospects, but if the next month or two should bring abundant falls of snow to give the land adequate supplies of moisture for the spring crops, it is quite possible that the deficit in the Winter Wheat crop may be made good. This is not the case with Rye, however, for this cereal is essentially a winter crop, and any considerable deficit in area or weather damage would be a serious matter. Nicolaieff and Odessa are now little troubled by ice, and shipments last week increased to a considerable extent. These shipments, however, are being mostly drawn from stocks at Southwestern ports, but at Novorossisk stocks are being well maintained.

Roumania—The weather is generally seasonable and, although the cry is still for more snow cover, the crops show mostly satisfactory condition.

Bulgaria—The condition of new cereal crops is reported to be very good throughout the country, but owing to lack of snow they are exposed to damage by frost.

Austria-Hungary—The weather last week was rather mild. The crops should have abundant snow cover from the heavy falls in the week previous.

Argentina—Sellers are pressing their offers on the markets, which is good evidence that all continues to go well. The strike is still lingering at the ports, although it is easy to see by the shipments that the situation has greatly improved.

Australasia—Mail advices just to hand from Melbourne confirm the news that more or less loss was experienced in various districts from failure to fill or "deadheads," insects and storms, but taking the crop as a whole, it can still be called abundant. Our correspondent at Christchurch estimates that the New Zealand crop will give a surplus of 2,000,000 bu.

India—We can repeat what we said last week, viz., that the crop has sufficient supplies of moisture and is doing well. Shipments now are light. The first official memorandum just to hand shows that the increase in area has been general. Even in Bombay there is some improvement if the preliminary returns are compared with the preliminary returns for last season. The only complaints worth mentioning, contained in the first official report refer to damage in Bombay from locusts and want of moisture.

France—The weather has been more seasonable, but no snow has fallen yet. Growers continue to offer sparingly, and prices on country markets have continued to rule very steady.

Germany—The crops have now a protective covering of snow, but our Hamburg correspondent writes that the outlook is not considered very satisfactory.

Sweden—The winter so far has been mild. Home-grown Grain has been in small supply and of poor quality. It is thought that the officials estimated the last crop at too high a figure.

THE WEATHER CONDITIONS.

The weather map shows intensely cold weather in the Northwest and prospect of very cold weather everywhere by to-night. Kansas is still without moisture and so is Oklahoma. There is very little precipitation shown this morning, but the Sunday map showed some precipitation generally except in Kansas and Oklahoma, and heavy all over the Ohio Valley.

The mercury at 7 A. M. was 14 to 38 below in the extreme North, 18 to 26 below in the Dakotas and Minnesota, 6 above to 12 below in Iowa and Nebraska, 4 to 22 above in Kansas, Missouri, Illinois, Indiana and Ohio.

Indications are for some snow. Slight change in temperatures.

ITEMS OF GENERAL INTEREST.

The Athern Hotel at Ashland, Wis., was destroyed by fire, Thursday. Loss, $15,000.

The *Journal of Commerce* building, at Montreal, Can., was burned, Friday. Loss, $61,000.

Fire practically destroyed the Indiana Brick works at Anderson, Ind., Friday. Loss $50,000.

The plant of the Printz Degreasing Company in Philadelphia was damaged $60,000 by fire, Thursday.

The Brooklyn Union Gas Company has declared a regular quarterly dividend of 2 per cent, payable March 1.

The Pennsylvania Railroad dividend requirements are now $4,500,000 per annum greater than a year ago.

The gross earnings of the Canadian Pacific for the fourth week of January were $802,000, a decrease of $112,000.

A New York Coffee Exchange membership certificate has been sold for $4,000. This is the highest price ever paid.

The plant of the Peck-Williamson Heater Company at Wellston, Ohio, was destroyed by fire, Thursday. Loss, $60,000.

General Chemical Company's net profits for the year 1903 were $1,278,702, decrease, $228,849. Total surplus is $817 5.9, increase, $54,831.

The baby carriage works of the H. N. Thayer Company at Erie, Pa., was totally destroyed by fire, Thursday. Loss, $150,000; insurance, $61,000.

Concord, N. H., has awarded an issue of $30,000 3½ per cent nineteen to twenty-year water bonds at a premium of $261. This is equivalent to 100.87.

The Daly West Mining Company has declared the usual monthly dividend of 65c per share, payable Feb. 10. Books close Feb. 10 and reopen Feb. 16.

Business failures in the United States and Canada for the past week were 271, against 330 the previous week and 296 for the corresponding week last year.

A special meeting of the stockholders of the Delaware and Hudson Company has been called for March 7 to consider the proposed $7,000,000 issue of new stock.

The Hocking Valley Railway Company applied to the New York Stock Exchange, Friday, to list $1,000,000 additional first consolidated mortgage 100-year 4½ per cent bonds of 1999.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $2,145 042,068, a decrease of 9.9 per cent compared with the corresponding week last year.

The Niles-Bement-Pond Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock; also the regular semi-annual dividend of 4 per cent on its common stock.

A charter was granted at Topeka, Kan., Friday, to the Arkansas, Missouri and Kansas Railroad Company, capital $1,500,000, to build a line southeast from Chanute, Kan. Boston capitalists are behind the company.

The *Review of the River Plate*, Jan. 2, says: "The news about the damage done by the severe frosts in the South of the Province of Buenos Ayres has been confirmed, but not to the extent that was at first estimated. Tres Arroyos, Pringles and Juarez have all suffered. The Wheat has suffered about 20 per cent, but young Corn has all been nipped."

A New York dispatch says: "The deposits of United States Government money in the New York banks approximate $35,890,000. The total deposits of Government funds in the national banks throughout the country amount to $156,344,119. Taking 20 per cent of the deposits of the New York City banks, in conformity with the call of Secretary of the Treasury Shaw, which would amount to about $7,300,000, this would leave about $22,700,000 to be taken from the country banks to be deposited here in New York. It is contrary to the traditional policy of the Government to disturb the money market by arbitrary proceedings, therefore it is obvious that this $22,700,000 of money brought to New York would remain here on deposit with the national banks in this city until at least the Panama Canal treaty is ratified by Congress."

Here is a theory by the financial writer of the New York *Evening Telegram:* "It ought to be apparent to every student of financial matters that the arranging of Pennsylvania's $50,000,000 loan is simply part of Mr. Cassatt's policy to prevent Wabash extensions by the exhaustion of financial accommodations. A year ago the same tactics were adopted and resulted in a midsummer disaster. Now the work of the Pennsylvania management starts a little earlier, and if persisted in must have the same result. Without available accommodation financially business must be restricted whether it is in the shape of Wabash extension or not, and all that can be done by Wall Street interests is to regret that conditions exist that induce Mr. Cassatt to absorb for the Pennsylvania Company funds necessary for Wall Street purposes and the country's development."

The Great Western Railroad's action in reducing Grain freights is due to the reduction which the Northwestern Railroad made on Grain from Nebraska points, and which made the through rate less than the sum of the local rate into Omaha from Nebraska points and out of Omaha to Chicago. Had the Great Western refused to notice the Northwestern's reduction it would have had the effect of destroying the Grain market which Mr. Stickney has been trying to establish at Omaha. The bitterness of the Grain rate war is evidenced by the fact that the reductions which are now being made are being put in without notice to the Western trunk line committee, which is contrary to the articles of agreement. The fight is a three-cornered one, in which the interests are the lines east of the Missouri River, the lines extending both east and west of the river and the lines extending from the Missouri River territory to the Gulf.

The Michigan Telephone Company has paid no interest on its consolidated mortgage 5 per cent bonds since Jan. 1, 1902. During the two years since then the property has passed into the hands of a receiver; no indebtedness has accumulated; no receiver's certificates have been issued; $1 903,275 has been expended on the property for maintenance and new construction; the condition of the property and the quality of the service rendered has been much improved; the number of subscribers has been increased from 46,866 to about 54,900; the number of Blake transmitters (an unsatisfactory and unprofitable form of instrument) has been reduced, and the number of metallic circuit instruments (more satisfactory and profitable) has been increased 8,372. The Michigan State Telephone Company succeeds to the operating contracts existing between the Michigan Telephone Company and the American Telephone and Telegraph Company, and it is expected that mutually satisfactory arrangements can be made to operate under them.

WORLD'S SUPPLY OF BREADSTUFFS.

The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named.

	Feb 1,'04. Bu.	Jan 1,'04. Bu.	Feb 1,'03. Bu
Afloat for Europe	27,000,000	24,000,000	25,100,000
In store in Europe	49,250,000	61,800,000	33,000,000
In store Argentina	3,600,000	2,52[illegible],000	[illegible]
In store America	89,[illegible],000	91,39[illegible],000	113,40[illegible],000
Total	169,7[illegible]5,000	178,[illegible]71,000	171,378,000

The decrease during January equaled 8,556,000 bu compared with an increase of 4,185,000 bu during December, and a decrease of 1,804,000 bu during January, 1903.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Refined Sugar is five points higher.

Documentary Sterling steady at 482¾.

Chicago Bank Clearings to-day, $26,406,108.

Odessa cables: "Wheat very firm. Buda Pesth up 1½c on Wheat. Berlin up ⅝c."

Consols closed at 86 9-16 money and 86 11-16 account, a decline of 3-16 on both from yesterday.

Estimated receipts for to-morrow are: Wheat, 20 cars; Corn, 185 cars; Oats, 115 cars; Hogs, 38,000.

Duluth wires: "Liverpool bidding $1.00 for No. 1 Northern, spring shipment. Pretty near business."

Ten packers purchased 18,600 Hogs to-day; shippers 6,500; left over, 5,000. Market closed strong. Top price on Hogs $5.35.

The London *Standard* says Russia is negotiating with a syndicate of Belgian, French and Dutch bankers for a $250,000,000 loan.

The St. Petersburg correspondent of the *Central News* wires that a panic occurred on the bourse to-day and prices fell heavily.

A Chicago Board of Trade membership sold, Monday, at $3,100 net to the seller. This is an advance of nearly $500 over the price of thirty days ago.

The receipts of Wheat at Liverpool during the past three days were 272,000 bu, of which 192,000 bu were American. Receipts of Corn, 192,000 bu, of which 176,000 bu were American.

Average price of Hogs at Chicago, Monday, was $5.08, the highest since Oct. 28 and 90c above the low day last November. Average Saturday, $4.95; a week ago, $4.72, and a year ago, $5.74.

Michael E. Hally doing business under the name of Hally and Company, dealers in Grain Cotton and Stocks at No. 25 Broad Street, New York, to-day, made an assignment for the benefit of creditors to Wilson B. Brice. The failure is unimportant.

The Government report shows that 9,485,537 commercial bales, equivalent to about 500 lbs each, have been ginned up to Jan. 15. This seems to have been considered against the market by most traders, as it exceeds earlier estimates from 200,000 to 300,000 bales.

The weekly snow map shows a trace of snow in the northeast corner of Kansas and the northwest corner of Missouri. With this slight exception there is no snow covering in Kansas, Missouri, or Oklahoma. The Southwest in a general way is without protection.

Local Securities were mostly stronger with moderate trading. There were fair gains in Biscuit and Diamond Match, and declines in Radiator common and Title and Trust Company. Metropolitan Elevated passed its dividend on preferred, but its shares were not traded in to-day.

Washington has official confirmation of the attack of the Japanese torpedo boats on three Russian warships in the harbor of Port Arthur—received by the State department. Russian vessels were badly damaged. The Associated Press reports a naval battle off Port Arthur with eleven Japanese boats and one Russian sunk.

Cotton in New York was stronger, and made substantial gains. Liverpool closed 10 points higher. The ginners report had a depressing effect for a time and at New Orleans prices broke 109 points in six minutes. A quick rally followed, the market getting good support, and a higher range was established. Later the market broke, and closing sales were 60@90 points lower.

Bradstreet's report of the available supply for the past week shows the following changes:

		1904, bu.		1903, bu.
Wheat east of Rockies	Inc	105,000	Dec.	400,000
Afloat and abroad	Inc.	2,500,000	Inc.	1,800,000
Total	Inc.	2,605,000	Inc.	1,400,000
Corn	Inc	1,357,000	Inc.	2,519,000
Oats	Dec	412,000	Inc.	911,000

Stocks in New York were stronger to-day than they were weak yesterday. London was lower, but traders ignored it. There was not the selling pressure that operators expected and there appeared to be a disposition to mark prices up, which forced "shorts" into covering. Railway shares gained ⅝ to 2 points; Industrials 1¼ to 3½, and Tractions 1⅜ to 2. Money 1¾ per cent.

Broomhall cabled: "The action of the American markets yesterday was a disappointment to the trade, and an opening decline of ⅛d resulted. Later, the distant months recovered this loss on a report that the Japanese had made a naval attack. The feeling is nervous. Corn slightly reflected declines in America, opening prices being ¼d lower. During the morning both futures reacted ⅛d on firm and smaller offerings from America and in sympathy with the steadier feeling in Wheat."

Broomhall's weekly foreign crop summary was as follows: United Kingdom—Weather last week continued extremely wet and very unfavorable for Wheat plant. France, Germany, Hungary, Italy and Spain—Another week of unseasonably mild and wet weather. Few complaints have been received as yet. Russia—It is now somewhat colder than a week ago and on the whole the position of crop is unchanged. Roumania—Weather turned milder after our report of last week, and as a result of the thaw, navigation on the Danube has reopened. India—Crop prospects continue most favorable."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The local call is fair and the Eastern demand more general. Foreigners accepted only moderate quantities. Prices firm.

WINTER WHEAT—Good Wheat continues to meet with ready sale to millers and is ruling firm, while poor Wheat remains dull. The closing market is about 1c higher than yesterday. No. 2 Red in store nominally 97½, 97½c and fresh arrivals ranged at 95@96c free on board, with a sale at 96c. No. 3 Red fresh arrivals sold at 91@97c. No. 2 Hard quotable at the river at 85@86c. No. 3 Hard local sold at 84@88c and at the river at 74@82c and ranged at 75 [illegible].

SPRING WHEAT—Was quiet for lack of receipts. Choice milling Wheat fresh arrivals in good demand and poor Wheat dull. Desirable Wheat closed about 1c higher. No. 1 Northern in store ranged nominally 98@99½c, and fresh arrivals free on board at 92@98c with a sale at the river at 90½c. No. 2 Northern fresh arrivals quotable at 88@93c. No. 3 spring fresh arrivals free on board quotable at 80@92c for common to choice hard variety, with a sale at the river at 84c. No. 4 fresh receipts sold free on board at 75@80c for ordinary to good, and ranged as low as 70@80c for poor to 83@85c for choice hard variety.

REGULAR WHEAT—There was a good trade and firmer undertone to the market, the close being 1@1⅛c higher for May while the July gained 2⅛c and the September 1⅝@1⅞c. The chief feature to the trade was the buying of July by local professionals. Early there was selling of May by the principal "long" interest. Weather conditions were not of the best. Flour news from the Northwest was "bullish" and market was indirectly affected by the war news from the far East. Consols were off early and closed 3-16 lower. The snow map showed a trace of snow in the northeast corner of Kansas and northwest corner of Missouri; with this slight exception there is no snow covering in Kansas, Missouri or Oklahoma. It was cold West and Southwest and little change in temperatures indicated. Cables were indifferent. Liverpool quoted spot unchanged and futures steady to ⅛d lower. London came ⅛@¼d higher. Paris steady to ⅛c lower and Antwerp unchanged. Foreign crop news was unfavorable. Odessa cabled: "It is impossible to foresee whether or not our exports will be stopped by war." Antwerp cabled that there was no probability of Russia prohibiting exports in case of war. Stocks here in all positions decreased 166,000 bu last week to 5,527,000 bu and are 5,387,000 bu smaller than a year ago. Contract stocks decreased 14,571 bu and are now 1,706,549 bu, against 3,629,893 bu in 1903. *Bradstreet's* increased 2,605,000 bu, compared with 1,400,000 bu increase same week last year. According to the monthly statement of the DAILY TRADE BULLETIN the world's stocks of Breadstuffs decreased 8,556,000 bu last month against 1,804,000 bu decrease in January, 1903. Total Feb. 1, 179,148,000 bu compared with 13,478,000 bu same date one year ago. Duluth reported Liverpool was bidding $1.00 for No. 1 Northern for spring shipment. Primary receipts were 81,000 bu larger than a year ago, the Northwestern receipts 46 cars smaller. Kansas City and St. Louis received 316,000 bu, last year, 133,000 bu; shipments, 222,100 bu. New York reported a better foreign demand and 25 boat loads accepted. Minneapolis reported the mills grinding 250,000 bu daily and claimed stocks had decreased 800,000 bu so far this week. Receipts there expected to be smaller. Kansas City expects 70 cars to-morrow. Buda Pesth advanced 1½c. Berlin was up ⅝c. Winnipeg received 32 cars, compared with 47 cars corresponding day last year. Receipts at Duluth 78 cars and at Minneapolis 260 cars, a total of 318, against 476 cars yesterday, 276 cars a week ago and 861 cars last year. Local receipts included 27 cars Winter, 16 cars Spring and none mixed, a total of 44 cars, against 32 cars last year. Included in above were 6 cars of contract grade. There were 2 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 20 cars. Withdrawals were 11,500 bu. Receipts at Western points were 649,030 bu, against 568,173 bu last year. At Eastern points 35,350 bu, against 278,316 bu last year. Shipments from Western points were 355,892 bu, against 209,563 bu last year, and from Eastern points 41,000 bu, against 22,531 bu last year. Shipments of Flour were 34,000 brls. Exports of Wheat in Flour were equal to 195,540 bu.

Future Deliveries of Regular Wheat—Good trade and closing higher.

FEBRUARY—Entirely nominal at about 92⅜c.

MAY—Sold at 94⅛@95⅛c. Opened with sales at 94⅛c to 94⅝c; sold to 94¼c, to 94⅝c, to 94¾c, to 94⅞c, to 94⅝c, to 95c, to 94¾c, to 95⅛c, to 94¾c, to 95⅛c, to 95@95⅛c, and closed at 95@95⅛c.

JULY—Sold at 84¾@86⅞c. Opened at 84¾c to 84⅞c, sold to 85c, to 81⅞c, to 85¼c, to 85⅛c, to 85¾@85⅝c, to 85⅛c, to 85⅞c, to 86⅛c, to 85¾c, to 86⅛c, to 86⅝c, to 86⅛c, to 86¾c, to 86⅜c, to 86⅞c, and closed at 86⅞c sellers.

SEPTEMBER—Sold at 80@81⅞c. Opened with sales at 80¼c to 80c; sold to 80¾c to 80⅝c, to 80⅞c, to 81⅛c, to 81c, to 81¼c, to 81⅜c, to 81⅛c, to 81⅝c, to 81⅞c, and closed at 81⅞c asked.

CORN—Just a fair trade, the market being less animated, with May closing 1½@1⅝c better, while the July gained 1⅝c, the spread at one time being only 1¼c. July was in better demand than May, there being scattered liquidation by "longs" in the latter delivery. "Bull" leaders were less conspicuous in their operations. New York reported a better foreign demand with 10 boat loads accepted and the grading here shows little if any improvement. Receipts were 389 cars and 341 cars were low grades, against 445 cars last year, when 160 cars were off grades. For to-morrow 185 cars are estimated. Liverpool quoted spot steady to ¼d lower and futures ¼d lower. Receipts there the past three days 192,000 bu, of which 176,000 bu came from America. The weather was cold and continued low temperatures are indicated. South western markets were all stronger. The strength in Provisions was one of the late "bull" helps. Stocks here in all positions increased 916,000 bu to 5,585,000 bu and are 273,000 bu smaller than a year ago. Contract stocks increased 89,198 bu to 2,103,383 bu, against 2,581,416 bu in 1903. *Bradstreet's* increased 1,357,000 bu, compared with 2,519,000 bu increase same week in 1903. Western receipts were 763,000 bu; last year, 784,000 bu. Shipments 465,000 bu and 418,000 bu respectively. Local arrivals 349,000 bu and shipments 213,000 bu. Exports were 2,000 bu, last year, 169,000 bu. Transfers from private to public elevators 0,4[illegible] bu and 167 cars. Cash sales here 150,000 bu. Car lots were in smaller supply and fair demand. Feeling firmer and prices ½@1c higher. No. 2 and No. 2 Yellow closed about 50c. No. 3 closed at 48¼@48½c. No. 3 Yellow closed at 48@49c. No. 4 sold at 41c. No Grade sold at 32c.

Corn by sample—Demand was rather better and the offerings smaller. Feeling firmer and prices ½@1c higher than yesterday's low prices for all grades, except No Grade which averaged 1@2c lower than yesterday. Sales on track and free on board. No Grade sold at 25@37½c. No. 4 at 31@41c. No. 3 at 41c. No. 3 Yellow at 44½@48¾c. No. 3 White at 40¾c. Ears at 42c. Billed through. No Grade at 30½@33c. No. 4 at 30½@41c. No. 3 at 42½@47c. No. 3 Yellow at 44@44½c. No. 3 White at 43½@43½c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed 1½@1⅝c and 1⅝c higher.

FEBRUARY—Inactive and closed about 50½c.

MAY—Sold at 52⅞c and 44⅝@54½. Opened at 53⅛c to 53⅜c and sold at 54c to 53¼c to 52⅞c to 53⅞@54½, to 53c, to 53⅞c to 53⅝c, to 53⅞c, to 54⅛c, to 53¾c, to 53⅞@54⅛c, closed at 54⅛@54½c.

JULY—Sold at 50⅞@52½c. Opened at 51c to 51¼c and sold at 50⅞c to 51¼@51⅜c, to 51¼c, to 51½c, to 51⅝c, to 51⅞c, to 51½c, up to 52⅛c, to 51¾c, to 52⅛c, and closed at 52½c.

SEPTEMBER—Sold at 50⅝@51½c. Opened at 50⅝@50¾c and sold at 50½c up to 51½c, to 51⅜@51½c, and closed at 51⅜@51½c.

OATS—Were stronger and had the help of the advance in Wheat and Corn, also the buying of the leading sellers of yesterday. There was no pressure to sell at the start and first sales were at ⅛c to ¼c over yesterday's close. The top prices were up 1⅛c to 1⅝c and the close was at the best prices. On the bulge, part of the early buyers turned sellers, but it had no effect on prices. Country offerings were smaller. Contract stocks increased 295,000 bu last week and are 1,673,000 bu. Private elevator stocks decreased 316,000 bu and in all positions decreased 61,000 bu. *Bradstreet's* decreased 412,000 bu, against an increase of 911,000 bu in 1903. Arrivals were 389 cars, with 185 cars estimated for to-morrow. Withdrawals were 1,000 bu. There was 38 cars and 31,600 bu Standard taken from private elevators. Seaboard clearances were 30,000 bu. Sales for shipment were 50,000 bu here and 50,000 bu at the seaboard for export. Car lots to go to store were stronger and ½@1c higher. No. 4 White sold at 39¾@41½c. No. 3 White at 41@43c. Standard in store closed at 41¾@41½c as to location.

Oats by sample met a better demand and prices advanced 1½@1c. Offerings were small. Sales on track and free on board. No. 4 at 37@38c. No. 4 White at 39@41c. No. 3 at 38½c. No. 3 White at 39½@43c. Standard at 41@44c. No. 2 at 42½c. Billed through. No. 4 White at 41c. No. 3 White at 42@42½c. Standard at 42½c. No. 2 at 42c. At the river. No Grade at 33@34½c. No. 4 White at 36@38½c. No. 3 at 37½c. No. 3 White at 38@40½c.

Future Deliveries of Contract Oats—Were active, stronger and higher.

FEBRUARY—Inactive at 2½c under May. Closed at 41c.

MAY—Active and firmer. Sold at 42⅞@43½c and at 43½c. Opened unsettled at 42⅛c to 42⅜c, sold to 42@42⅛c, to 43½c to 43¼c, to 43½c at close.

JULY—Liberal trading. Sold at 38@39⅛c and at 39¼c. Opened at 38⅛c, sold to 38@38⅜c, to 39¼c to 39⅛c at close.

SEPTEMBER—Sold at 33⅛@33⅝c. Opened at 33⅜c; closed at 33⅝c.

RYE—Ruled quiet, but market firm and prices about 1c higher. There was a little more disposition to buy in view of the advance in other Grain and war news. The receipts were six cars. There were four cars withdrawn from private warehouses. No export clearances from the seaboard. New York reported 16,000 bu freight room engaged. No. 1 in store nominally 61c for round lots and a poor car to go to store sold at 58½c, and sold free on board at 59@61c for poor to good. No. 3 sold at 61c.

Future Deliveries of No. 2 Rye—Quiet and 1c higher. February nominally 62c. March nominally 63c. May sold at 64c and closed at 64c.

BARLEY—A steady to firm market was presented. Feed and mixing Barley reacted fully from yesterday's decline. Demand for for this grade and supply was small. For malting Barley there was a fair demand. It was fully equal to the supply. Offerings were fair. Quantity on sale possibly a little less than yesterday still not materially so. The market was in a firm, healthful state, values in some cases quoted a shade better, in others as not changed. Receipts very good, 84 cars being posted. Screenings remain quotable at 30@41c for poor to choice with sales at 36@41½c. Barley, feed or mixing, quotable at 38@40c local, river billed 37@38½c, depending on quality. Malting—low grade about 40@44c; very dirty below; common, 44@46c. Fair was about 47@50c; good, 51@54c; choice nominally, 55@58c, fancy possibly above.

SEEDS—There was an easy tone to the Timothy market with some depreciation in prices but in other respects the market showed no unfavorable features. Flax Seed in fact was a shade firmer.

Timothy—Weakness was apparent in the Timothy market. Not much spot Seed on sale, but more or less offered to arrive. Order trade remains dull. Cold weather evidently is holding it back. It also is difficult to get Seed through to some points in the East. March was offered at a shaded figure and there were no bids. Values were quotable as at least 5c lower. Market for contract spot or February remains at nominally about $3.00. March delivery quoted at $3.05; offered at $3.10. Country lots quotable over a range of $2.25@3.10 for poor to fancy; fair to good quotably $2.75@2.90; choice, $2.85@3.00, and rough, dark and foul lots about $2.40@2.70.

Flax—For Northwestern cash Seed and for May delivery there was ½c advance. In other respects there was no change. What improvement there was reflected the change in the Northwest. Extreme quietness prevailed, there were no sales aside from a few cars. There were smaller arrivals here, 7 cars or 5,970 bu reported, against 5 cars or 5,134 bu taken out. The Minneapolis receipts were 18 cars, and Duluth got 91 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1.17. No. 1 nominally $1.10. Rejected quotably $1.08@1.12 as to quality; choice Northwestern sold at $1.12. February was nominally $1.10; May held at $1.11, and $1.12½ bid.

Clover—The market could be called nominally easy, in accord with the advices from outside. No special change at the same time quotable, and there was no business doing because there were no offerings on the regular market. Contract spot Clover and March delivery at $11.00. Country lots, common to choice $8.00@10.50; fancy above; mixed with Buckhorn or other weed Seeds $5.00@9.00; poor, cleaned out of Timothy, very foul, down to $3.00@6.00; inferior lower; fair to good quality about $9.00@10.00.

HOG PRODUCTS—An active speculative business was transacted in Hog Products. Outside orders were moderately free, and local trading was rather active. The war news had some influence on the course of the market. Offerings were not very free, and the demand was rather active. Undertone to the market rather firm. "Shorts" rather anxious about their outstanding contracts. Prices advanced materially on all descriptions, more particularly on Mess Pork on outside account, but extreme figures were not fully supported to the close. Hogs were in moderate supply and higher, and the Grain markets stronger in a general way and these features had a little influence on the market. Receipts of Hogs at the leading Western packing points were estimated at 72,000, compared with 71,000 same time one year ago. Foreign markets were quiet and prices were advanced 6d on Backs. Domestic markets were quiet. Receipts of Products were good of Lard and Meats about 25 cars. Shipments were only fair—of Lard and Meats about 17 cars. Shipping demand was fair for domestic wants. Export inquiry limited. Offerings of all kinds were fair, but firmly held. Sales were moderate, and prices favored sellers.

Mess Pork—Quite a good trade was reported in the market for Mess Pork and the feeling was stronger. Offerings were fair, and the demand was rather active. Market opened rather firm, and prices ruled 20@27½c higher, which was followed by a further improvement of $1.00@1.15, with considerable excitement and good trading at the advancing scale. Toward the close the feeling was somewhat unsettled and prices receded 10 to 42½c, but rallied again 10@15c, and closed steady. Buying credited to Eastern and foreign account. Shipping demand was light, and offerings were small. Cash lots quotable at $14.50@14.75.

MAY—Offerings were only fair, and the demand was active. Prices irregular with sales at $13.70@14.90. Opened at $13.70 to $13.75, sold to $14.10, to $13.72½, to $13.85, to $14.02½, to $14.00, to $14.02½ to $14.07½, to $14.05, to $14.10, to $14.05 to $14.50, to $14.70, to $14.80, to $14.47½, to $14.71, to $14.50 to $14.77½, to $14.70 and closed steady.

JULY—Demand light and offerings were limited. A few scattering sales made at $13.85@14.85 and closed nominally at $14.77½.

Lard—Rather an active business was reported in the local market and the feeling was decidedly stronger. Offerings were not very free, and a good general demand prevailed. Foreign advices were unchanged. "Shorts" accepted fair quantities. Trading chiefly in May and July contracts. Market opened rather strong at 5@12½c advance which was followed by a further advance of 17½@20c. About the middle of the session the feeling was not quite so strong, and prices settled back 2½@7½, but rallied to outside figures, and the market closed rather steady. Inquiry on shipping account was very light and the offerings were moderate. Cash lots quotable at about $7.55@7.70. Loose lots traded for moderately and offerings were only fair. Prices were steady at about 7½c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $8.50@8.57½. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8.62½@8.87½ for No. 1 and $7.50@7.62½ for No. 2.

MAY—In active request and offerings were only fair. Sales were made at $7.57½@7.80. Opened at $7.57½@7.60 to $7.70, sold to $7.62½, to $7.65 to $7.72½, to $7.70 to $7.77½, to $7.75 to $7.77½ to $7.75, to $7.80, to $7.77½, $7.80 and closed steady.

JULY—Offerings were not very large, and the demand was fairly active. Sales were made at $7.65@7.87½. Opened at $7.65, sold to $7.80 to $7.75, to $7.85, to $7.82½, to $7.87½ and closed steady.

Short Rib Sides—Quite an active business was reported in the market for Short Rib Sides and the feeling was decidedly stronger. Offerings were fair and the demand was active. Trading chiefly in May and July deliveries. Market opened rather firm and prices were 2½c higher which was followed by a further advance of 15@17½c. Toward the close the feeling was not quite so strong and prices receded 2½@5c, but rallied again 1@1½c, and the market closed steady. "Shorts" bought fair quantities. Demand on shipping account was moderate, and the demand was rather light. Cash lots were quotable at $6.75@7.00 according to weight.

JULY—Offerings were fair and the demand was active. Sales were made at $7.02½@7.22½. Opened at $7.02½, sold to $7.02½@7.05, to $7.02½, to $7.07½@7.10, to $7.07½ to $7.05, to $7.12½, and closed steady.

MAY—Demand was quite active, and offerings were fair. Sales were made at $6.85@7.25. Opened at $6.85, sold to $6.92½, to $6.90, to $7.00, to $6.97½, to $7.02½, to $7.00 to $7.02½, to $7.00, to $7.07½, to $7.25, to $7.22½ and closed steady.

Other Meats—Only a moderate trade reported in Meats. Domestic demand was fair, and export demand was limited. Offerings of all kinds were fair, and holders rather firm in their views. Green Meats were in small request, with moderate offerings, and prices favored sellers. Pickled Meats in moderate demand with only fair offerings, and prices ruled slightly higher. Dry Salted Meats in moderate demand and offerings not very large. Prices ruled slightly higher. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

THE HOP SITUATION.

[New York Producers' Price Current, Feb. 6.]

The hop demand noticed in our last review has shown little indication of reaction, and market continues to present a slow appearance. There is, however, little question but what there is a short supply of hops with the comparatively small remaining stocks under control of strong holders, who are quietly awaiting future developments, and do not show a particle of anxiety regarding the future. Prices are running on shorter principles, but when compelled to take on more stock are generally disposed to operate in a hand-to-mouth manner. The situation, however, is on the basis of full late values: in fact, many holders are indifferent about offering desirable grades except at a further enhancement in values. On the Pacific Coast the crop of 1902 is nearly small of growers' hands and remaining stocks are owned by dealers and speculators who are strong in their views and generally inclined to ask 30 cents, while 25c has been bid and some bales of this refused. Litue, if anything, doing in this State, the crop is practically exhausted. Foreign advices continue firm

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, Jan 25.]

There was a great improvement in the weather last week. The rain kept the land too wet for advantageous plowing in the first half of the week; but the work could be done after Wednesday, when the temperature was rather above the mark. Consequently, some progress in preparing fields for spring crops, though not very much, was made. Drains were running freely up to the end of the week, in spite of the slightness of the rainfall, showing how wet the land still was internally. Very little rain is enough to render the soil unworkable for a day or two, and it would be a great advantage to have a complete month during the rest of this month, with hard frost to follow for a week or more. Hitherto the frosts have not been sufficiently severe since most of the autumn work was done to bring the land into good condition for spring tillage. Threshing was pursued busily during the latter half of last week, under more favorable circumstances than had been common previously for some time.

THE WEATHER CONDITIONS.

The weather map shows very low temperatures in the Northwest—21 to 40 below. It is cold over West and Southwest. Some light snows in Iowa, Nebraska, and a light snow at Concordia—01. Very little precipitation anywhere—merely light snow flurries

Weather indications for 36 hours: Kansas, Nebraska and Iowa—Light snows to-night and Wednesday. Colorado, Indiana and Missouri—Snow; colder. Dakotas, Michigan and Minnesota—Fair; colder

ITEMS OF GENERAL INTEREST.

The Masonic Temple Association, Chicago, has declared a dividend of 1 per cent, payable April 1.

January Bank Clearings in ninety three cities amounted to $9,364,482,232, the largest since July 1, 1901

A fire at Buckingham, Can., Friday, destroyed the center part of the city. The loss is estimated at $125,000

A Paris cable says the German banks have just taken over in bulk 87,000,000 francs of Prussian rentes for the Berlin market.

The First National Bank of McGregor, Texas, has failed Liabilities, $134,605. Loans and discounts, $67,931. Deposits, $63,545.

The annual meeting of the Quaker Oats Company will be held in Jersey City Feb 12. The American Cereal meeting will be in Akron, O., two days earlier

The Rock Island A and B elevators, Chicago, have been re-opened for business. Arrangements are to be made to secure a reduction in switching charges, which will facilitate the handling of Grain and Flax.

A plan is afoot to submit the United States Sub-Treasury in Boston into the clearing-house there, and will doubtless be successful. The Sub-Treasuries in New York, Philadelphia and St. Louis are members of the various local clearing-houses.

Louisiana is about to make efforts to fight the Cotton weevil. A special quarantine will be established and no cotton or cotton seed from Texas, where no seed, bulls, seed Cotton, Hay, Straw, Oats or Corn products of the three counties shall be brought into Louisiana, or never penetrate.

The advisory committee of the Western Immigrant Bureau has decided to reduce the commission paid to steamship lines on immigrant business to Pacific Coast points from 10 per cent to 5 per cent and to extend the commission to Colorado, Utah and other far Western points 10 per cent.

The Echo Agricole, Paris, Jan. 23, reports that the weather during the last week was variable, at times very cold, then followed by rain, but no snow has fallen. In the Northern districts the crops do not look so well. In other parts of the country prospects are more hopeful, the young Wheat growing vigorously.

No official statement has been given out, but it is known that the earnings of the Manufacturers' Light and Heat Company of Pittsburg for the year ended Dec. 31 were $750,000. After paying the 6 per cent dividend, bond charges, and the cancellation of $200,000 bonds, there is over $1,000,000 left for the surplus. It was this surplus that business men had fallen. A special meeting of stockholders of the Delaware and Hudson Railway will be held March 7 to vote upon a recommendation of the directors that the capital stock of the company be increased by $7,000,000 to take up the bonds for $5,000,000 of the New York and Canada Railroad and pay for the work of making of standard gauge the Chateaugay Railroad.

Reports of sixty-three railroads for December show an aggregate decrease of $1,068,000 or 4.5 per cent in net earnings, as compared with the same month in December, 1902. In the same month gross earnings of the same roads increased $3,579,-000, or almost 5 per cent. The gross earnings of those roads increased $11,000,000 for the year, the months ended Dec. 31, and the net increased 10.5 in the period.

The London *Times*, Jan. 25 says: "Lately the general impression has been above the normal for the time of year. The present precocity of vegetation is far from desirable, and is almost certain to end in disaster. Last week some ploughing was done and the sowing of Wheat began. Any spring sowing of Wheat is exceedingly doubtful; two factors are against it, namely poor prices and backwardness of tillage work."

Should the Baltimore interest say that it is yet too early to discuss, except in the most general terms, the plans for readjustment of the corporations capitalization, but explicit statements of the number of shares and Fuller Construction Company is to be separated from the parent corporation with a pro rata distribution of Fuller stock to the stockholders is thought necessary to the outlook, officials of the company are hopeful.

A. E. Ames & Co. of Toronto, who failed last year owning over $9,000,000, inform creditors that they have over $6,000,000 in assets, however, in addition to their securities holding proposition, that the situation is precarious and cannot much longer be continued. Unless further consents come in sufficient numbers to enable the firm to carry out its plan, the firm will make a general assignment for the benefit of all creditors. The estate will yield little for the unsecured creditors if forced liquidation becomes necessary.

The alliance just made by the Wabash and the Cincinnati, Hamilton and Dayton Railroads for through passenger service between Chicago and Cincinnati, Indianapolis and Decatur, threatens to cause a big railway fight. "This deal involves the Vanderbilts in the Gould-Cassatt fight," said an official of one of the big Eastern roads Thursday. "Heretofore the Wabash Railroad has not attempted to handle passenger traffic from St Louis to Indianapolis and Cincinnati, while the Cincinnati, Hamilton and Dayton has never tried to do St. Louis business."

When Freight Traffic Manager Haught of the Northwestern told a committee of traffic officials, Monday, that the road was "sticking for a principle" in maintaining a lower rate on through shipments from Omaha than the sum of the local Grain rates from that point of origin to Omaha, and from Omaha to the East, it was seen that all hope of peace was over. "We propose to make a further reduction in through rates on Grain from Omaha to the seaboard than the sum of the proportional rate of the Great Western east from Omaha," said Mr Haught.

The Chicago *Inter Ocean* says: "The time for subscriptions to the new issue of Swift & Co. expired, Monday. Officials of the company would not make public the amount of the new issue that was subscribed for. It is understood a considerable per cent of the stock was not taken by the general stockholders. The members of the Swift family, who are selling their retail plants and transportation lines to the company, will be introduced some time ago, are willing to take the unsubscribed stock, and without doubt the entire authorized amount will be issued and disposed of in accordance with the plans of the promoters."

During January the United States Steel Corporation sold a total of 25,000 tons of finished Steel products daily, which compares with total sales of 30,000 tons daily during January, 1902. A considerable portion of this business was for export trade at prices which, while netting the company a profit, were considerably lower than those obtained in January, 1903. Now that the railroads are succeeding in selling securities and placing themselves in a position to make needed improvements, the railroad Steel trade is looking up, and there will be rapid change in Steel trade conditions, due to the placing of railroad orders.

The report from New York that the Ailis-Chalmers Company will extend its field of manufacture to electrical machinery was admitted to be correct by Vice-President H. W. Hoyt Monday afternoon. The statement was not taken by the Stock Exchange to be of sufficient importance to be considered generally speaking, the story is correct, and the company probably will make a formal statement later." Mr. Hoyt would not talk of the complete scope of the new scheme, although he conceded that the company will come in direct competition with the Westinghouse and General Electric companies in the manufacture of heavy electrical machinery.

An Eastern authority says concerning the position of the Boston and Montana Company: "The Amalgamated Company was formed without any considerable amount of cash but it controlled by a holding rather than an operating concern When the Boston and Montana was taken over in July, 1901, $7,000,000 of cash and Copper went with it. This was reduced later to $4,000,000 though a $3,000,000 shrinkage in the price of Copper supplies or this by investment on a 12c Copper market. Since the original Boston and Montana dividend disbursements the Boston and Montana has declared dividends of $19 per share, while its net surplus earnings for the two years following its absorption were $ 6,063,000."

It was announced in Wall Street, Friday, that the Pennsylvania Railroad had arranged to borrow $50,000,000 for eighteen months at equivalent to 4½ per cent net; that the company would receive the money on April 1 and that it would give coupon notes secured by collateral as security. Several influential banks and institutions are to participate in it. It was officially stated that the loan would not be used to construct Pennsylvania Railroad lines from Pittsburg to Chicago; to make practically a new road. It was stated also that no new stocks or bonds were to be offered in connection during the life of the notes, which will not be offered to the public. A syndicate takes them. It is said that the notes net the company about 98%.

The *Times of Argentina*, Dec. 32, says: "The labor troubles have tended to restrict buyers from operating in prompt Grain, with the result that the supply greatly exceeded the demand. Prices have consequently weakened all around. The immediate tendency is toward weakness in prices, especially for Seed, as the small quantities as yet being offered are of inferior three-day sales. Sellers cannot now rely on cheap rates of freight, as it is becoming evident that tonnage is only attracted by rates commensurate with ships' expenses on the round voyage. Shipping Grain, therefore, meet the inevitable and sell at shipping parity reckoning a fair rate of freight."

The *Mark Lane Express* of Jan. 5 says: "Although the supplies of imported Wheat on hand is not excessive, it is more than the saturated soil bequeathed to us by 1903, had any occasion for. The land is in a bad state for plowing, and, indeed, for all agricultural work, and the unsatisfactory state of the roads and lanes makes every form of haulage difficult and expensive Buyers for seed Barley, Oats and Pulse have been met with at unsatisfactory markets. Seed Barley is reported to be purchasing in any quantity, and the good prices they pay, while imparting a slight flip to the Exchanges, are largely due to the severe and genuine scarcity of sowable quality in the offerings."

The Texas and Pacific Railroad directors met, Monday, in New York and decided to pass the interest on the second income bonds. It is officially stated after the meeting that, in view of the company's floating debt, it was decided not to declare interest on the second income bonds The floating debt is given in the last annual report, was about $1,600,000. The debt was not increased to any extent in the last fiscal year, but the directors were of the opinion that the earnings for the year should be used for wiping out this debt. It was pointed out also that seven eighths of the Texas and Pacific second incomes are held by the Missouri Pacific Railroad, and that the officials of the company were perfectly willing to have the interest passed at this time.

The directors of the Metropolitan West Side Elevated Railroad Company, Chicago, at their meeting, Monday, decided to declare a 2 per cent dividend on the preferred stock for the year. The directors issued the following statement: "The board of directors, in view of improvements now under way and those contemplated for, and in view of present general conditions forbidding the sale of bonds on terms that could be considered advantageous, have declared a dividend for the fiscal year." The directors also stated that the net earnings for the fiscal year ending Feb. 29, 1904 (January and February estimated), will exhibit a surplus of $270,000 carried over from last year, are $271,302. Outside of the surplus, this amounts to $200,417. This is 2.34 per cent on the $9,000,000 preferred stock, and scarcely justifies a declaration of dividend.

The San Francisco *Weekly Commercial News* of Feb. 4 says: "The outlook for the new Wheat crop is growing rapidly worse. The South is undoubtedly in a very bad condition for Wheat, and the acreage cannot to make any kind of a crop at all. But the northern and middle sections are also badly in need of rain. Taking the State at large, the condition is poorer than at any time in many years, and it is probable that we will have to import more Wheat next year than we are doing this. There has been some talk of the possibility of importing Wheat from Australia if the present drouth continues, but that possibility is quite remote inasmuch as it is considerably cheaper to purchase supplies from the Atlantic ports as the demand is constantly increasing, and from Kansas and other portions of the West. Adding the import duty to the present price of Wheat in Australia, it would be entirely out of the question to bring it here in competition with home-grown stock."

New York banks will not need to send a great deal of money to Baltimore for the time being, although the interior situation is said to be drawing a good many drafts on Baltimore, and sending them to this city for collection, which means the drawing down of Baltimore bank balances there.

The Berlin Bourse has been adversely affected by the announcement of the failure of S. Luhrman & Son, of Bremen. The house is said to have been interested largely in Russian Bonds and was crippled by the severe fall in those Securities, which followed the outbreak of war in the far East.

An official report from Japan received in Washington says: "A terrific battle, which lasted four hours, took place at Chemulpo, Korea, when Japanese transports, under convoy of Japanese fleet, attempted to land. Russian cruiser was set on fire and disabled. Russian gunboat Koreitz was sunk."

In the New York Stock market prices were advanced by room traders, while the large interests apparently sold under cover. There were good advances in Tractions, Coppers, and small gains in Railway shares. After midday weakness developed and selling became general, all the gains disappeared and good losses were made, the close on a majority of the list being lower. Money was 1¾ to 2 per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Moderate demand and market rather quiet but firm, with prices 10@15c higher than a week ago.

WINTER WHEAT—Ruled firm and prices advanced 1c. Receipts small and trading restricted in consequence. Choice Wheat continues in good demand. No. 2 Red in store quotable at 97¼@98c, and fresh arrivals free on board ranged at 96@$1 00, depending on quality. No. 3 Red sold at 99c and ranged at 90@92c. No. 4 Red sold at 73c. No. 2 Hard at the river quotable at 86@90c. No. 3 Hard local sold at 84c and ranged at the river at 76@88c. No. 4 Hard at the river sold at 76c, and ranged at 68@72c.

SPRING WHEAT—Was quiet. Light receipts prevented larger business. Demand good for choice Wheat and prices quotably ½@1c higher. No. 1 Northern in store quotable at 91¾@94c, and fresh arrivals free on board ranged at 94@97c. No. 3 Spring local sold at 81½c and ranged at 81@91c for poor to choice hard variety. No. 4 Spring local sold at 82@75c for common to fair, to 80@81½c for good hard variety, and at 84c for a fancy car. No. 2 Northern sold at 89⅛c free on board.

REGULAR WHEAT—There was a large general trade and active, broad market, interest in July steadily increasing. The feeling, while rather unsettled at times, was stronger, and new high records established. May selling to 97c and July to 88½c. Part of the gain was held and the close was 1⅜c higher for May, while the July was up ⅞c. The "bullish" mood was influenced chiefly by the war situation, there being rumors in circulation that Turkey had declared war on Bulgaria, which, in connection with the advices from the far East, caused a very nervous feeling to prevail. Consols were about ⅛ point lower, cables, both English and Continental, stronger, the movement moderate, while the cash demand was reported good. Liverpool quoted spot ¼d higher and futures ⅛ ¼d better. A private Liverpool cable reported the Continent buying Australian Wheat. London came ⅜@½d higher. Paris was up ⅛@⅜c and Antwerp 1⅛c higher. Berlin was firmer. It was rumored the strike at Buenos Ayres had ended and weather in Argentina was reported favorable for marketing Wheat. Receipts in the Northwest were 101 cars smaller than last year and cash Wheat quoted at 9_c at Minneapolis and 94¼c at Duluth. Stocks at Minneapolis have decreased 400 000 bu the past four days. Primary receipts were 19 000 bu smaller than a year ago. Kansas City and St. Louis received 184,000 bu; last year, 94,000 bu; shipments at the two points, 219,000 bu. The map showed light snows in Kansas and Oklahoma and the signal service predicted snow flurries and colder for Illinois, Indiana and Missouri and fair and warmer for Kansas and the Dakotas. Winnipeg had 23 cars compared with 190 cars the corresponding day in 1903. Exports were small and 18 boat loads accepted at the seaboard. Part of the buying was credited to professionals with packing interests. Selling on the advance was by locals and commission houses with profits in sight. May reacted to 95c, closing 95⅜@95½c. The Michigan State report makes the condition of Winter Wheat 95 per cent, and no damage reported to the crop during January. Receipts at Duluth 14 cars and at Minneapolis 213 cars, a total of 227, against 318 cars yesterday, 194 cars a week ago, and 383 cars last year. Local receipts included 15 cars Winter, 6 cars Spring and none mixed, a total of 21 cars, against 19 cars last year. Included in above were 1 car of contract grade. There were 1 car and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 15 cars. There were no withdrawals. Receipts at Western points were 520,418 bu, against 539 030 bu last year. At Eastern points 7150 bu, against 76,922 bu last year. Shipments from Western points were 571,911 bu, against 183-842 bu last year, and from Eastern points no bu, against 119 765 bu last year. Shipments of Flour were 6,180 brls. Exports of Wheat in Flour were equal to 27 817 bu.

Future Deliveries of Regular Wheat—Active trade and prices higher.

FEBRUARY—Ruled entirely nominal, and closed at about 93⅜c.

MAY—Sold at 94⅝@97c. Opened with sales at 95⅜c to 96, sold to 95¾c, to 95¼c, to 95½c to 94¾c, to 96⅛@96¼c, to 97c, to 96⅝c to 96⅞c, to 94½c, to 95⅞c, to 96c to 95½c, to 96⅛@96½c, and closed at 95⅜@95½c.

SEPTEMBER—Sold at 81⅝@83⅜c. Opened at 82c to 82¼c; sold to 81⅝c, to 82⅛c to 82, to 82¼c, to 82⅜c, to 83c, to 82⅜c, to 83⅜c, to 83⅛c to 83½c to 83⅛c, to 82¾c, to 81¾c, and closed at 83⅛c bid.

CORN—This market was decidedly nervous, being subject to sudden and frequent changes, last prices showing May ⅝c lower, the July losing ⅜c, and the September lost ⅛@¼c. The start was lower, with liquidation by "longs" a feature, but the prices quickly rallied, the war situation being responsible for the "bullish" sentiment. Rumors of pending trouble between Turkey and Bulgaria added to the nervousness prevalent in the market. Selling May and buying July was one of the chief features of the trade, part of the same being credited to Provision interests. Cables were firm, receipts small, and the cash inquiry reported good. Liverpool quoted spot steady to ⅛d higher and futures ⅛@¼d better. Receipts were 217 cars, with 165 cars low grades, against 268 cars last year, when 101 cars were off grades. Estimates for to-morrow were 220 cars. Market was indirectly affected by Wheat, and there was realizing and profit taking, causing a sharp decline toward the close. Southwestern markets were stronger. Western receipts were 157,000 bu, against 795,000 bu last year. Shipments were 425,000 bu and 319,000 bu respectively. Local arrivals were reported 300,000 bu and shipments 109,000 bu. The exports were quite limited at 6 700 bu, compared with 249 000 bu one year ago. Transfers from public to private elevators 20,100 bu and 158 cars. Seaboard reported 34 boat loads accepted and cash sales here were 50 00 bu. Colder weather was predicted for Iowa, Illinois, Indiana and Missouri; fair and warmer for Kansas. Car lots were in good demand with moderate offerings. Feeling firm and prices ½@1c higher. No. 2 and No. 2 Yellow closed nominally 49½c. No 3 closed about 44@46c. No. 4 White sold at 45½c. No. 3 Yellow sold at 46c and closed at 44½@49½c. No 4 sold at 41¼c.

Corn by sample—Was in good demand and offerings moderate. Feeling was firm and better grades unchanged to 1c higher; while the low grades were 1@2c higher. Sales on track and free on board. No Grade sold at 3_@38c. No. 4 at 3_@43c. No 3 at 45½@48c. No. 3 White at 44½@45½c. Ears at 4_½@45c. Billed through: No Grade at 33@35½c. No 4 at 33@46c. No 3 at 43@44c. No. 3 Yellow at 44½@48c. No. 3 White at 43½@48c.

Future Deliveries of No. 2 Corn—Active and most irregular, closing ⅜@⅝c lower.

FEBRUARY—Inactive; closed at 50c.

MAY—Sold at 53¾@55⅛c. Opened at 54⅛c to 54¼c, and sold at 55⅛c, to 54⅜c, to 54¾c, to 54c, to 54½c, to 54c, to 54⅜c to 54⅛c, to 54½c, to 54¼c, to 53¾c, to 54½c, to 54⅜c, to 54c, to 5_¾c, to 53¾@53⅞c and closed at 53¾@53⅞c.

JULY—Sold at 51⅞@53⅛c. Opened at 52½c to 52⅝c and sold at 53⅛c to 52⅛c, to 52¼c, to 52⅝c, to 52⅜c, to 52¼c, to 52⅝c, to 52¾c, to 53⅛c, to 51⅞c, to 52⅛c, to 52c, to 52⅛c, and closed at 52⅛c asked.

SEPTEMBER—Sold at 50⅝@52⅛c. Opened at 51¼c to 51⅜c and sold at 52c, to 51½c, to 51⅜c, to 51⅝@51¾c to 51¾c, to 51½c, to 52⅛c, to 50⅞c, to 51⅛c, and closed at 51⅛c sellers.

OATS—Were excited and strong at the start with an advance of ⅛c on May and ⅜c on July. The strength was on the war news and in sympathy with other Grains. A break was started by heavy selling by the leading "long" interests and prices receded ⅜@1⅛c and closed at about the bottom with net losses of ⅜c to ¼c on the distant months and 1⅛c on May. Toward the close the same houses that led the selling were the best buyers on the break. "Shorts" also came in freely. A good cash demand developed, with sales of 100,000 bu for shipment. Offerings were lighter. 143 cars, with 165 cars estimated to-morrow. Withdrawals were 30,940 bu and there was 20,000 bu and 43 cars Standard run into public from private elevators. Seaboard clearances were 5,000 bu. Car lots were ¼@½c higher. No. 4 White sold at 40c. No 3 White at 41c. Standard at 43½c. Standard in store closed about 39⅝@40½c as to location.

Oats by sample were ¼@½c higher, with a good demand and smaller offerings. Sales on track and free on board: No 4 at 37¾@40c. No. 4 White at 37@42c. No. 3 at 3_¾c. No 3 White at 4_@41c. No 2 at 41c. Standard at 43½c. Billed through: No 4 White at 39¾@41¼c. No. 3 White at 42½@43¼c. At the river. No Grade at 33½@36c. No. 4 at 3_@37c. No. 4 White at 3_@39½c. No. 3 at 38½@39c. No. 3 White at 39¾@41½c.

Future Deliveries of Contract Oats—Were active and higher early but lower later.

FEBRUARY—Dull. Offered at 2¾c under May. Closed at 39⅝c.

MAY—Active. Sold at 42⅛@43⅝c. Opened at 43⅜c to 43½c, sold to 43⅝c, to 42⅛c, to 42⅜c at close.

JULY—Larger trading. Sold at 38⅞@39⅝c. Opened at 39⅜c to 39½c, sold to 39c, to 39⅜c, to 38⅞c, and closed there.

SEPTEMBER—Sold at 33⅝c and 33¾@33⅞c. Opened at 33¾c, sold to 33¾@33⅞c to 33⅜c, and closed at 33¼c.

RYE—Ruled firmer and prices 1c higher. A fair demand existed, chiefly speculative, and there was trading to-day for July delivery. Cash offerings met with fair demand. Only one car was received. There were withdrawn from elevators 9,_00 bu and one car. No export clearances reported from the seaboard. No 2 in store round lots nominally 62c and fresh arrivals local sold at 64c and at the river at 61c. No. 4 sold at 56c.

Future Deliveries of No. 2 Rye—In fair demand and prices higher. February nominally 62c. March quotably 63c. May sold at 61c and closed at 64c sellers. July sold at 62c.

BARLEY—The market was strong for everything. It was especially for mixing or feed Barley. This brought the outside of late quotations; it might be said to be quotably about 1c higher. There was a stronger Oats market backing up mixing Barley. Screenings were firm, not quotably changed. Malting Barley was in smaller supply than for some days. Buyers were present, and firmness prevailed. No essential change to note, unless it might have been for low grade, which was made a little stronger by improvement of the grade below, feed or mixing. Posted to day 16 cars in, against 84 cars yesterday. Screenings remain quotable at 3_@42c for poor to choice, with sales at 34@36c. Barley, feed or mixing, quotable at 40c local some high grade sold at 41c; river billed 37½@40½c, depending on quality. Malting—low grade about 41@43c; very dirty below; common, 4_@46c. Fair was about 47@50c; good, 5_@53c; choice nominally, 55@58c; fancy possibly above.

SEEDS—Weakness was again the feature of the Timothy market. Otherwise steadiness prevailed in Grass Seeds, and Flax was really ½@1c better.

Timothy—Late dullness and weakness were again present in this market. Some spot lots offered and held over; bids were not satisfactory. More or less to-arrive Seed on sale; besides there were March delivery offerings with no bids. Market all around dull, and fully 5c decline quotable. Contract spot or February nominally about $2 95. March delivery quoted at $3 00; offered at $3 05. Country lots quotable over a range of $2 25@3 10 for poor to fancy; fair to good quotably $2 50@2 75; choice, $2 80@2 90, and rough dark and foul lots about $2 00@2 20.

Flax—There was ½@1c advance over yesterday's quotations. No business transpired; the market was practically without offerings. Improvement due to strength in the Northwest. Firmness in the Grain markets and the war situation were the stimulating influences. Arrivals all around have fallen off very much. Local receipts were 4 cars or 3,100 bu, and there were taken out 4 cars or 4,027 bu. No receipts at Minneapolis to day; Duluth got 10 cars. No 1 Northwestern No. _ from the Northwest met with $1 17½ bid. No 1 nominally $1 11. Rejected quotably $1 06@1 12 as to quality. February was $1 11 bid; May held at $1 14, and $1 13 bid.

Clover—Was quotably steady. It was salable at about late prices. The market was without offerings hence inactive. When country lots come on sale they are usually of an ordinary grade and sell within a range of $8 75@9 75. Contract spot Clover and March delivery quotable at $10 75. Country lots, common to choice, $8 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00; inferior lower; fair to good quality about $9 00@10 00.

Other Seeds—No news could be given. There were no consignments on sale. The different lines were salable and were quotably steady. Hungarian, common and light color to choice dark $1 50@1 85. Common Millet, 90c@$1 25 for poor to fancy. German Millet, 90c@$1 25. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 15. Buckwheat quiet; good milling quotable at $1 15@1 20.

HOG PRODUCTS—Quite an active speculative trade was reported in Hog Products, and the feeling was considerably unsettled. Offerings were rather free and mainly from "longs," while the demand was fairly active, and chiefly from "shorts." Prices fluctuated considerably. Outside orders were fairly liberal, and local trading was rather active. Hogs were in good supply, and prices ruled higher, and the Grain markets were stronger, and these features had some influence on the market for Products. Market opened somewhat excited, and prices ruled higher on all the leading articles. There was some pressure to sell however, and a weaker feeling was developed. Prices declined moderately all around. Later, there was a little more steadiness manifested, and prices rallied sharply, but receded gradually again toward the close all around, and closed rather steady. Trading chiefly in May and July contracts. Receipts of Hogs at the leading Western packing points were estimated at 96,700, compared with 88,500 one year ago. Foreign markets were stronger, and prices were advanced 6d on Backs and Cumberland Sides and 1s on Lard. Domestic markets quiet. Receipts of Products were liberal—of Lard and Meats about 40 cars. Shipments were moderately large—of Lard and Meats about 158 cars. Inquiry on shipping account was fair and offerings were moderately free. Buyers and sellers were somewhat apart in views. Sales were fair, and prices favored sellers.

Mess Pork—Rather an active business was reported in Mess Pork, and the feeling was unsettled. Offerings were fair, and the demand was rather active. Prices fluctuated considerably. A little more doing in July. Market opened rather strong at 20c advance, but some pressure to sell caused an easier feeling, and prices receded 2_½@2_c on the whole range. Later, a firmer feeling was developed with fair miscellaneous buying, and prices rallied 2_@27½c, but settled back again 2_@2_c, and the market closed rather steady at nearly inside figures. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 37½@11 _0.

FEBRUARY—Offered at $14 50.

MAY—Offerings were moderately free, and the demand was fairly active. Prices irregular, with sales at $14 65@14 92½. Opened at $14 90, sold to $14 80, to $14 8_, to $14 7_, to $14 80, to $14 7_, to $14 80, to $14 _5, to $14 85, to $14 80, to $14 _2½, to $14 72½, to $14 75, to $14 67½, to $14 75, and closed steady.

JULY—In fair request and offerings were moderate. Sales were made at $14 75@14 85. Opened at $14 85, sold to $14 80, to $14 82½, to $14 75, to $14 80, and closed steady.

Lard—Trade was rather active in the Lard market, and the feeling was somewhat unsettled. Offerings were not very free, and the demand was fairly active. Market opened rather firm and prices ruled 2½@5c higher. After the early orders were provided for, there was a little pressure to sell, and prices receded 10@15c. Toward the close, the feeling was steadier, and prices rallied 1_@12½c, but settled back to inside figures, and the market closed rather steady. Foreign advices more favorable to sellers. Inquiry on shipping account was very light, and the offerings were moderate. Cash lots quotable at about $7 70@7 _0. Loose lots called for moderately and offerings were only fair. Prices were steady at about 30c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably higher at $7 00. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 25@8 37½ for No. 1 and $7 50@7 62½ for No. 2.

MAY—Offerings were rather liberal and the demand was fairly active. Sales were made at $7 70@7 85. Opened at $7 80 to $7 85, sold to $7 75 to $7 80, to $7 75, to $7 77½, to $7 70, to $7 82½, to $7 75, to $7 77½, to $7 70 and closed steady.

JULY—In moderate request and offerings were fair. Sales were made at $7 77½@7 90. Opened at $7 90, sold to $7 80, to $7 82½, to $7 77½@7 80, to $7 80, and closed steady.

Short Rib Sides—An active business was reported in the market for Short Rib Sides and the feeling was stronger in a general way, but somewhat unsettled. Offerings were moderately free, and the demand was fairly active. Trading chiefly in May and July contracts. Market opened rather firm, and prices ruled 2½@10c higher. Later, there was some inclination to realize, and prices receded 10@12½c. At the decline, the demand improved and prices rallied 7½@10c. Toward the close the feeling was not so strong, and prices settled back 2½@5c, and the market closed steady at medium figures. Demand on shipping account was rather light, and offerings were fair. Cash lots were quotable at $6 75@7 00 according to weight.

MAY—Offerings were fairly liberal and the demand was rather active. Sales were made at $7 10@7 22½. Opened with sales at $7 15 to $7 22½, sold to $7 15, to $7 17½, to $7 10, to $7 17½, to $7 15, to $7 20, to $7 12½@7 15 to $7 15, to $7 15@7 17½, and closed steady.

JULY—Demand was moderately active, and offerings were fair. Sales were made at $7 20@7 30. Opened at $7 27½ to $7 30, sold to $7 25@7 27½, to $7 27½, to $7 20@7 22½, to $7 27½, to $7 25, to $7 30, to $7 27½, to $7 27½@7 30, and closed steady.

Other Meats—Only a moderate trade reported in Meats. Domestic demand was fair, and export demand was limited. Offerings of all kinds were fair, and holders rather firm in their views. Green Meats were in small request, with moderate offerings, and prices favored sellers. Pickled Meats in moderate demand, with only fair offerings, and prices were well maintained. Dry Salted Meats in moderate demand and offerings not very large. Prices ruled slightly higher. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

BREADSTUFFS ON THE PACIFIC COAST.

(From the Portland Commercial Review, Feb 4)

Wheat - No apparent change can be noted in the Wheat market here or on Puget Sound. The only buyers have been millers who desire to stock up on certain grades of Wheat, and they only bought sparingly. Most of the mills have sufficient stock on hand to carry them along for several months, as a great many are out entirely, as well as out of orders. Exporters having no urgent need of Wheat are out of the market for the same reason, and can buy Wheat on an equal footing. Wheat is dull for export is worth only 71c for club, and sales are not made on that basis. Cargoes shipped are lower than a week ago. Wild stories are afloat in regard to prices, as cheaper Wheat can be bought from Argentina and India. With no milling demand and no demand for our carcoes from European buyers, those who have Wheat to sell for export for higher prices will come to realize that they held too long. The annual visit of county assessors is due, and takes with it a tax to be paid on Wheat owned by the farmer who wanted more money than what was offered him several months ago. After figuring what his storage charges and insurance have amounted to, interest on the money, he will find that the grower who sold early in October or November was the one that made the money on his crop, and not the wise one who held for what Wheat that was sold later received. Quotations are from 72c to 74c for Club, 79c to 80c for Blue Stem, and Valley is worth whatever the farmer can obtain from the miller who needs the same.

Flour—Market very dull. There is a good demand, but prices offered are too low, and the same is continually rejected by millers. Prices are too high for enable millers to come out even on the bids cashed. A few more steamers in the month of February will be implenty bulk sail orders unfilled. There is no demand for thirty days, as the mills will have very little to do. This will enable some of them to accumulate stock, as stocks on hand today are lower than for a number of years at the same time. One of the reasons of dullness may be attributed to the Chinese holidays, and very little buying is done until the festivities are over with. Millers do not look for any great activity for some time to come. Stocks in China and Japan are very large, and the same will have to be decreased before any renewed activity can occur. Shipments so far this week have been unusually heavy, owing to cheap freight rates. The same is now settled. Millers will have to await developments over there. Shipments to California have been good, and the quality of the same is being reshipped to other parts of the globe. Outside of a small jobbing trade there is nothing to note. Quotations are from $3 35 to $3 50 per barrel, according to quality. Patents are firm from $4 00 to $4 25 per barrel.

GOLD IN THE UNITED STATES.

[From the Brooklyn Eagle]

The real wealth of the United States is better appreciated in reading of the enormous holdings of Gold in the treasury, and in comparing them with the riches of other governments. In comparisons of this kind the United States rank head and shoulders above all other countries, standing preeminently as the richest government on the earth.

At the present time the Gold in the stock of money of the United States is, in round numbers, $1.3 billion. If this stock of Gold were to be brought together and melted into a solid mass, it would make a cube of nearly sixteen feet, weighing 2,285 tons, requiring 147 freight cars to move it. The cube would have a horizontal edge to edge the line would be 2,166 miles long, or from New York to sixty miles west of Colorado Springs.

In Gold, in coin, in bullion, and in official holdings our country surpasses every other nation. The stock of Great Britain is $628,000,000, so that ours is double. The increase in five years here has been $377,000,000. In that time Great Britain has added $90,000,000. France has added $137,000,000, Germany $35,000,000, Austria-Hungary $35,000,000, while Russia has only added $10,000,000 to her stock. In several other countries there has been a reduction

BOSTON WOOL MARKET.

BOSTON, Feb. 5 - The *Commercial Bulletin* says: "The Wool market is not as active as last month. Large consumers have temporarily supplied their wants, and while not wholly withdrawing from the market are buying for present needs only. A good business in a small way has been accomplished this week. The market is firm. Supplies have been unusually reduced by the recent heavy operations, and the selection is much poorer than on Jan. 1. There is a hardening tendency and slightly higher prices are obtained when quality is considered. Medium and low Wools are all very strong and sold ahead.

"At Buenos Ayres prices are firm for cross-breds, with no importations into the country possible at less than 5 c for quarter-blood. The domestic quarter has not sold at higher than 25½c.

No Cheese is sold on the Board. The Butter value was $10,056,616, and the Cheese $315,-407, an average of Butter last year, 33.0c; of Cheese, 7½c. There are 457 factories represented.

More than 17,000 loaded freight cars are now stalled at different points between Pittsburg and York and Pittsburg. This does not include cars in transit. About half the cars are East-bound and the rest West-bound. The railroad officials say the cars are sold weather and are causing the congestion. A good deal of complaint is being made by shippers because of this.

It is believed by leading bond brokers in New York that the great task of providing means of rebuilding Baltimore must be provided for in Baltimore, and that individuals and corporations will appear in the Bond market as sellers of Securities in order to obtain funds for reconstruction. It is assumed that insurance companies will appear in the market as sellers of Bonds as well as investment Stocks to pay their losses.

According to the figures of *United States Investor* bond sales for the month of January amounted to $20,764,681 over and including temporary loans. Of this above amount $15,723,981 was issued by cities and towns, $758,000 by counties, $3,450,000 by the State of Massachusetts, and $10,000,000 by the Philippine Islands. This amount shows an increase of $5,-297,365 over the $15,292,816 reported for the month of December, and an increase of $14,485,814 over the $15,858,838 reported for the month of January, 19 3.

The Liverpool *Corn Trade News* of Jan. 28 says: "No. 1 Wheat has fallen in France yes and the temperature has risen. Crop conditions on the whole are satisfactory, but there are some complaints of damage by vermin, and a correspondent in Algeria has injured if spring frosts follow a period of mild weather now. Provincial markets keep firm. At yesterday's weekly Paris market good Wheats made the prices of the week previous, but inferior qualities were the turn lower."

The Canadian Pacific Railroad has declared the regular semi-annual dividend of 3 per cent. The surplus after dividends for the year is $2,000,000. This compares with $3,20?,907 in the corresponding period of 1902 and $3,?56,887 in 1901. The dividend in the six months of 1902 was 6 per cent and was paid on only $50,000,000 of the increase in capital stock. In 1903 the dividend was 3 per cent, and will be paid on the full $84,500,00 of stock. In 1901 the dividend was 3½ per cent and was paid on $60,000,000 of stock.

The $15,00,0,000 of Southern Pacific 4½s that will be listed on the New York Stock Exchange this week are the bonds recently sold to Kuhn, Loeb & Co. and other bankers. The total issue of these 2-5-year bonds is $30,000,000, of which $24,000,000 is now outstanding. They are subject to call at any time after one year at par and interest. The bonds are secured on $11,-200,000 of bonds and over $60,000,000 of stock, in addition to steamships, equipments, etc., otherwise unpledged.

The bondholders' protective committee of the Colorado Fuel and Iron Company has decided to grant no further extensions of time for the deposit of debenture bonds in favor of the proposed reorganization plan. Later the committee will officially declare the plan operative whereby it is proposed to issue $15,000,000 of bonds for the purpose of raising $13,000,000 to redeem properties of the company sold to the Rockefeller-Gould party and to furnish new capital to complete improvements.

The San Francisco *Weekly Commercial News* says: "Reports from Washington state that the Hop market is steadily increasing in strength; 28½c has been paid for 1903 crop, and 30c is said to be reported to have been reached for 1904 crop. In Yakima Valley but 485 bales remain in growers' hands. In Oregon the market is more quiet, though prices for 1903 grade are low at 28 and 2 000 bales. California Hops are very firm, stocks in first hands being a little more than 2,000 bales."

Dornbusch's Buda Pesth c respondent, writing under date of Jan. 23, says of flour: "The previous week's dulness continues. The sales were very small, neither the home market nor Austria having any pressing needs, and the export demand is practically suspended. Considering the closed navigation, deliveries were fair and stocks have decreased somewhat, but some mills were unable to supply immediate wants. Neighboring stuffs had rather a better market. Prices unchanged all round."

Dornbusch of Jan. 26 says: "From Odessa correspondents we learn that a severe frost is in southern districts and crops are still without snow cover. Lower temperature has caused much drift ice in the harbor, necessitating constant use of steam vessels to keep navigation open for vessels from barges. On the 22d inst. sixteen steamers were waiting berth and half-a-dozen at Nikolaieff. Grain stocks in Odessa are considerably reduced and do not exceed 3,000,000 bu. Of this about 2,410,000 bu are Wheat—being about the same quantity as in two previous years."

The Chicago *Inter Ocean* says: "The announcement was made from the office of E. R. Harvey, office of Swift & Co., Tuesday, that all the new issue of stock of the company had been taken by stockholders. This was expected, and is in accordance with the plan by which it was declared that all stock not subscribed for pro rata by the general stockholders should be taken by a syndicate composed of the large stockholders, the proceeding their retail plants and transportation lines to the company. The amount which the syndicate had to take, however, has not been stated. Some estimates place it as close to one-half of the total issue of new stock."

The first general report on the Indian Wheat crop of 1903-4 states that information from the Chief Wheat growing provinces in the Upper India the area sown is likely to exceed last year's area by 10 per cent. In the Central Provinces the increase is 40 per cent, in Berar 35 per cent, and in Sind 20 per cent. Prospects depend largely on the winter rains and if these are favorable a bumper crop is expected in the Central Provinces and a good crop in other districts. Reports in parts of Bombay, where the crop has been damaged. The estimates of area, so far as they are given, are: Punjab, 7,789,300 acres; Northwestern Frontier Provinces, 782,000 acres; Bombay, 1,811,-000 acres

The efforts which the executive officials have made to end the Western Grain rate war have proved unavailing. In order to reconcile the problem, Tuesday, the committee appointed to try to effect a settlement abandoned the attempt, and it is confidently expected that the most disastrous rate war of years will follow. The cause of the war was due to the Northwestern's refusal to recede from the position it had taken and a declaration on its part that it proposed to meet the cut by preserving an adjustment of rates through Omaha which would enable the company to haul Grain originating on its lines west of Omaha through to Chicago instead of Council Bluffs into Omaha, there to be competed for by all lines.

The vice president of the Ails-Chalmers Company says of the outlook for business: "Business is very satisfactory. I wish to make it clear that I have plenty to do. But I cannot speak with great enthusiasm regarding the outlook. The prevailing depression in the Iron and Steel business and the general hesitancy have had a chilling effect being felt by us, of course. Take the matter of blowing engines for blast furnaces, for instance. We make a specialty of them, and when the Steel business is good. None are needed now. It is the same in other lines of manufacture. We feel the reduced requirements for new machinery. Still, we have plenty to do at present in the way of repairs, about, but the outlook We have plenty to do, and new things coming up all the time. But when it comes to the feel ea-y business of a year ago a half's work on our books and business for two years further on in sight."

A New York telegram says: "The actual property destroyed in the conflagration in Baltimore will exceed $150,000,000, according to the most conservative estimates of New York fire insurance brokers. More than 2,500 buildings were destroyed up to the time the estimates were made, and it is admitted that the final reckoning of the cost will probably far exceed the $150,000,000 figure. This sum only represents, as far as can be ascertained, the actual property loss. It is impossible yet to gauge the total inclusive cost of the conflagration. The tremendous loss caused by the fire has completely staggered underwriters in this city. The loss to the big New York companies alone is conservatively estimated at from $30,000,000 to $40,000,000, with all the prospects in favor of a much larger sum. Underwriters here refuse to attempt any estimate of the loss incurred by companies in other cities."

Commercial failures during January, according to Dun & Co.'s figures, numbered 1,406, with an aggregate defaulted indebtedness of $18,833,573, as compared with 1,3?6 failures in the corresponding month of 1903 for $1,978,970. Of manufacturers there were 271 defaults involving $6,647,636, against 2?9 last year for $5,?36,816. In trading 1,079 failures for $11,??0,?37 are largely exceeded 8?5 in 1903, when liabilities were $8 348,179. Other commercial failures numbered 56 for $3,571,160, against 54 failures for only $896,484. In addition to these regular suspensions there were 11 banking suspensions for $3 233 0.0, the Clairton Steel Company, which involved $1,500,000, and the International Fire Engine Company, with $1,000,000. Another notable feature was the small number of large failures during January, 1903, numbered 10, and the amount involved was $2,453,954, while two years ago there were 12 failures in this class for $11,160,228.

Within the last few months St. Louis and San Francisco has paid off, mostly before maturity, notes aggregating over $4,000 000, and has reduced its floating debt to such an extent that no more notes have been extended or renewed during that time. The elimination of these high rate notes marks the progress of the recovery of the road from receivership. The debts were incurred mostly through the purchase of small roads, Oklahoma City and Western, Oklahoma Central and Texas, etc., for which 4 per cent bonds have been issued. The market being bad, these bonds were deposited as collateral and 4½ to 5 per cent notes issued against them. The collateral has now been sold, and the notes eliminated. The last note of these notes, due March 10, 1904, was taken up recently. This was one of two one-year notes for a similar amount, paying 4½ per cent. Payment for Oklahoma City & Western was made from funds in cash and two-thirds in notes, now being taken up and paid off.

The Paris *La Patrie* to-day publishes a telegram from Bucharest stating that Bulgaria has commenced the mobilization of all her forces and that all her officers have been ordered to their posts. Thirty million cartridges have been ordered from France. War is expected with Turkey in the first days of March.

Eastern roads continue in such a congested state that their Western connections are refusing to accept orders to transfer cars. The Northwestern Road issued an order, Wednesday, that it would not accept car loads for shipment, east-bound over the Nickel Plate, excepting Live Stock and perishable stuff.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,746,000 bu, against 2,664,000 bu for the previous week, and 2,856,000 bu for the corresponding week last year. Exports from July 1 reported at 105,740,000 bu, compared with 153,843,000 bu for the corresponding time in 1902-03.

The Cincinnati *Price Current* reports the packing of the West for the week at 475,000 Hogs, compared with 550,000 for the week previous, and 425,000 for the corresponding week in 1903. Aggregate packing since November 1 reported at 7,455,000 Hogs, compared with 7,270,000 for the corresponding time last year—an increase of 185,000 Hogs.

Stocks in New York averaged lower, but changes were mostly narrow, an early break being followed by a good reaction. St. Paul was strengthened by a denial that it will issue new securities. There was little, if any, selling by the insurance companies, and latest reports are that losses will be smaller than expected. Money was 1½ to 1¾ per cent.

The Cincinnati *Price Current*, in its weekly crop summary, says: "The northern half of the Wheat crop is favorable; the southern portion is variable. Altogether fair, but small growth. Slightly increased tendency to hold Wheat and Corn. A large acreage of spring crops expected in the Eastern Grain States. Live Stock doing well. Rough feed is generally plentiful. Consumption is now heavy."

A dispatch from Chifu says: "The attempt of the Japanese to land on a neck of land in rear of Port Arthur was made under cover of a continuous fire from the Japanese fleet. The Japs were repulsed with heavy losses. The Russians suffered severely. The object of the Japanese was to obtain possession of high land overlooking the port, and from this position to compel the Russian fleet to seek the open sea and accept battle from the Japanese ships."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is reported firm, but at the same time rather quiet, buyers refusing to follow the recent advance in prices.

WINTER WHEAT—Ruled firm. The receipts were small and trading restricted in consequence. Choice Wheat in good demand, poor Wheat is slow. No. 2 Red in store quotable at 98¼@98½c and fresh arrivals free on board sold at $1.01 and at the river at 98½c. No. 3 Red, very choice fresh receipts sold at $1.00 and ranged at 94c@$1.00. No. 2 Hard at the river ranged at 86@89c with a choice car selling at 92c. No. 3 Hard at the river quotably 88@89c. No. 4 Hard at the river quotably 80@87c.

SPRING WHEAT—There was more doing and sales of 75,000 bu of No. 1 Northern in store grade Wheat were made. Fresh arrivals of choice Wheat would sell readily—none arriving. Poor Wheat dull. No quotable change in prices. No. 1 Northern in store ranged at 91⅜@94½c, with sales of 25,000 bu at 3½c under May price and 50,000 bu at 3½c out of store free on board. Fresh arrivals free on board quotable at 91@98c. No. 2 Northern fresh arrivals free on board quotable at 85@97c. No. 3 Spring ranged at 80@94c for common to choice. No. 4 sold local at 67@63c for common to choice hard variety.

REGULAR WHEAT—A fair trade in the aggregate, but market at times was only moderately active. The feeling was mixed and sentiment more divided, with last prices on May showing ⅝@¾c decline with July unchanged, and the September up 1⅛c. Considerable May came on sale at the start, the irresponsive cables being something of a factor. The break in May affected the July and a good many stop-loss orders were uncovered in the latter delivery. The Southwest was again credited with selling the July. On the decline "shorts" accepted liberal quantities and there was fair investment buying. Rumors of more complicated political conditions in Bulgaria helped bring about the recovery in prices. Receipts in the Northwest were small, and Kansas City and St. Louis shipped 78,000 bu as against receipts of 146,000 bu. The *Price Current* stated Wheat in the Northern half was in a favorable condition, while in the Southern half conditions were variable. Receipts July 1 to Feb. 8 aggregate 175,627,000 bu, against 184,318,000 bu in 1902-03 and 180,900,000 bu in 1901-02. British Consols closed 1-16 higher. Flour output for the week was 330,000 brls, against 415,000 brls for same week in 1903. Minneapolis reported that stocks there the past five days had decreased 100,000 bu. Liverpool quoted spot unchanged and futures steady to ⅛d lower. London came steady to ¼d higher. Paris was steady to ⅛c higher making an advance of ¼c the past five days. Berlin has in the same time sold up ¾c and Buda Pesth 5¾c. Exports were moderate and 25 boat loads accepted at the seaboard. Sales here included 50,000 bu No. 1 Northern at about 98½c f. o. b. Argentine shipments for the week were estimated at 2,800,000 bu. Minneapolis reported Flour sales to the Continent this morning at the highest prices on the crop. Duluth reported the sale of a round lot of Flour to go to South Africa. Exports for the week were moderate, 1,746,000 bu. Receipts at Duluth 27 cars and at Minneapolis 201 cars, a total of 228, against 227 cars yesterday, 237 cars a week ago, and holiday last year. Local receipts included 7 cars Winter, 4 cars Spring and 2 cars mixed, a total of 13 cars, against holiday last year. Included in above were no cars of contract grade. There were 7 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 25 cars. Withdrawals were 38,000 bu. Receipts at Western points were 432,122 bu, against holiday last year. At Eastern points 13,400 bu, against holiday last year. Shipments from Western points were 481,315 bu, against holiday bu last year, and from Eastern points 186,400 bu, against holiday last year. Shipments of Flour were 10,202 brls. Exports of Wheat in Flour were equal to 231,370 bu.

Future Deliveries of Regular Wheat—Active trade and the closing was lower than yesterday.

FEBRUARY—Entirely nominal and the closing was about 94⅜c.

MAY—Sold at 94⅞@96½c. Opened with sales at 96½c to 96c; sold to 95¼c, to 95½c, to 94⅞c, to 95¼c, to 95¾c, to 95¾, to 95⅛c, to 96¼c, to 95⅝c, to 96½c, to 95¾c, to 96c, to 95½c, to 95⅞c, to 95¾@95⅞c, and closed at 95¾@95⅞c.

JULY—Sold at 86¾@88⅜c. Opened with sales at 87¾c to 87½c; sold to 87⅜c, to 87¾c, to 86⅞c, to 87⅛c, to 86¾c, to 87⅜c, to 86¾c, to 87⅜c, to 87¼c, to 87¾c, to 87½c, to 88c, to 87⅝c, to 88⅜c, to 87⅝c, to 88c, to 87⅝c, to 87¾c, and closed at 87¾c bid.

SEPTEMBER—Sold at 82¼@84⅛c. Opened at 83⅝c to 82⅞c; sold to 83¾c, to 83⅛c, to 82⅞c, to 83c, to 82¼c, to 82⅝c, to 82½c, to 83¾c, to 82⅞c, to 83¼c, to 83⅛c, to 83¼c, and closed at 83¼c.

CORN—A fair trade was reported in Corn and the feeling manifested was quite unsettled. Lower prices ruled at the start and a decline of ⅞c took place. Later prices rallied 1¼@1⅜c, and was well held, the close showing May ⅛c higher, while the July was ¼c higher. Selling May and buying July was a feature, the spread again narrowing to 1¼c. The clear, cold weather through the Corn belt and decline in Wheat were possibly responsible for the early break, considerable "long" property coming on sale. The rally later was partially attributed to the political situation in the Balkans. "Shorts" covered freely and investment buying was also a feature. Receipts here to-day were 235 cars, making a total of 1,460 cars this week, with 81 per cent low grades, against 175 cars a year ago, when only 15 per cent was No. 4 and No Grade. Estimates for to-morrow 220 cars. Liverpool was quoted unchanged on spot and futures ⅛d lower. The *Price Current* reported a growing tendency on the part of growers to hold their Corn, and the Iowa Grain Dealers Association claimed stocks in dealers' hands in that State were 700,000 bu smaller than a year ago. Southwestern markets were firm. Signal service generally predicted rising temperatures. Exports were 181,000 bu and 20 boat loads were accepted at the seaboard. Transfers from private to public elevators 30,000 bu and 145 cars. Shippers reported a fair demand, but a scarcity of cars. Purchases made some time back by exporters are in consequence unable to be forwarded. Western receipts were 418,000 bu and the shipments 418,000 bu. Local arrivals were 219,000 bu and shipments 196,000 bu. Car lots were in good demand and small supply. Prices were a shade higher. Argentine shipments were estimated at 400,000 bu. Exports for week, 589,000 bu; last year, 1,830,000 bu. No. 2 and No. 2 Yellow closed at 49½c. No. 3 closed at 43½@44c. No. 3 Yellow closed at 44½@49½c. No. 4 sold at 40¼c.

Corn by sample. Was in good demand and small supply. Feeling firm and prices unchanged to a shade higher. Sales on track and free on board: No Grade sold at 37@39½c. No. 4 at 38½@45c. No. 3 at 43@45c. No. 3 Yellow at 41½c. No. 3 White at 44½@44½c. No. 2 White at 49¾c. Ears at 43c. Billed through: No Grade at 34@36c. No. 4 at 31@44c. No. 3 at 42½@44½c. No. 3 Yellow at 44½@45c. No. 3 White at 43½@43¾c.

Future Deliveries of No. 2 Corn—Active and very irregular, closing ⅛c to ¼c higher.

FEBRUARY—Inactive, closed nominally at 50½c.

MAY—Sold at 52⅞@54¼c. Opened at 53¾c to 53½c, and sold at 53¾c, to 53¼c, to 53⅜c, to 53¼c to 53½@53⅝c, to 53⅛c, to 52⅞c, to 54c, to 53⅝c, to 54¼c, to 53⅝c, to 54c, to 53⅞@54c, and closed at 53⅞@54c sellers.

JULY—Sold at 51½@52¾c. Opened at 51⅞c to 51¾c and sold at 51¾@51⅞c, to 51⅜c, to 51⅝c, to 51¾@51⅞c, to 51⅝c, to 51¾@51⅞c, to 52½c, to 52¾c, to 52⅝c, to 52½c, to 52⅜@52½c, and closed at 52⅜@52½c.

SEPTEMBER—Sold at 50½@51⅜c. Opened at 50⅞c to 50¾c and sold at 50½c, to 50⅝c, to 50½c, to 51⅛c, to 51⅜c, and closed at 51⅜c.

OATS—There was a good speculative trade with free selling early by leading holders and buying by them later. Prices receded ⅜@⅝c, advanced ⅝@1c, and closed at nearly the top at a net gain of ⅝@⅞c. May had the largest trade and the widest fluctuations. Prices were influenced by the war news and by that of other Grains. A good deal of profitable trading was indulged in early. Cash demand was fair, with 70,000 bu sold here for shipment, and 30,000 bu at New York for export. Seaboard clearances were 10,000 bu. Arrivals 171 cars with 155 cars estimated for to-morrow. Car lots to go to store were steady to a shade higher. No. 4 white sold at 40¾c. Standard in store closed at 40½@41c, as to location.

Oats by sample met a fair general demand. Offerings were lighter and prices steady to a shade higher for the better grades. Sales on track and free on board: No Grade at 37½c. No. 4 at 37@39c. No. 4 White at 37½@41½c. No. 3 at 38@39¾c. No. 3 White at 40@41¾c. Standard at 41c. No. 2 at 39@41c. Billed through: No. 4 White at 40@41¾. No. 3 White at 41@42½c. At the river: No Grade at 32c. No. 4 White at 36@38½c. No. 3 White at 38@41c.

Future Deliveries of Contract Oats—Were liberally traded in and prices were unsettled.

FEBRUARY—Sold at 2¾c under May, and closed at 2½c discount at 41½c.

MAY—Active. Sold at 41½@43¼c. Opened unsettled with considerable selling pressure at 42½c to 41⅞c, sold to 41½c, to 42½c, to 43c at close.

JULY—Liberal trading. Sold at 38½c and 39¾c. Opened at 38¾c, sold to 38½c, to 39⅜@39½c, to 39¼c at close.

SEPTEMBER—Sold at 33½@33⅞c. Opened at 33¾c, sold to 33½c, to 33⅞c, to 33¾@33⅞c.

RYE—The market was quiet and steady. There was not much of any demand and at same time no special desire to sell. The receipts were 6 cars. There was 1 withdrawn from private elevators one car. No export clearances from the seaboard. No. 2 in store was quotably 60c for round lots and a car taken out of store free on board sold at 62c and fresh arrivals free on board quotably about 64c. No. 3 fresh receipts sold at 58c.

Future Deliveries of No. 2 Rye—Nothing doing. February nominally about 62c. March quotably about 63½c. May nominally about 66c. July nominally about 65c.

BARLEY—There was a very steady and fairly strong market for everything in the line of Barley from the low grade used for mixing to fine malting. Demand seemed to be good without being urgent. Of mixing grades, the offerings were again small, and of malting they were just about enough on the spot market. Little attention at present given to arrive lots. Receipts very moderate again, 39 cars. Screenings remain quotable at 30@42c for poor to choice, with sales at 37@42c. Barley, feed or mix be quotable at 37@40c for ordinary; for a high grade, river billed quotable at 50@40c, depending on quality. Malting, low grade about 41@42c; very dirty yellow, common 44@46c. Fair was about 47@50c; good, 51@53c; choice nominally 55@58c; fancy possibly above.

Seeds—Remained very quiet and dull. Feeling in the Timothy market continues weak. Other Grass Seeds were steady and Flax was a shade firmer.

Timothy—There was some to-arrive Timothy offered, but so far as noticeable the market was bare of cash Seed. The weather remains cold and conditions generally unimproved. There was no demand especially. The market was dull and heavy. A small quantity for March delivery sold at 2½c reduction in price. Contract spot or February were quotably about $2.95. March delivery sold at $3.02½ and later was $3.00 bid. Country lots quotable over a range of $2.25@3.10 for poor to fancy; fair to good quotably $2.50@2.75, choice, $2.80@2.90, and rough dark and foul lots about $2.00@2.40.

Flax—Cash and near futures were ½c improved. The change was due mainly to favorable outside advices. Little business was done; none in futures. Movement remains small. Only 4 cars or 3,400 bu received and 2 cars or 2,000 bu taken out. Minneapolis got 21 cars and Duluth 18 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1.18. No. 1 was $1.11½ bid. Rejected quotably $1.06@1.12 as to quality. No Grade, part car, sold at $1.13. February was $1.11½ bid. May held at $1.14, and $1.13 bid.

Clover—There was not the least news. No Clover was offered. Trade said to remain slow on account of cold weather. Prices as of late continue. Contract spot Clover and March delivery nominal at $10.75. Country lots, common to choice, $8.00@10.50; fancy above; mixed with Buckhorn or other weed Seeds, $5.00@9.00, poor, cleaned out of Timothy, very foul, down to $3.00@6.00; inferior lower. Main run of such lots as come to market quotable at $8.75@9.00.

Other Seeds—Nominally unchanged. There were no consignments offered. Hungarian quotable, common and light color to choice, dark $1.50@1.85. Common Millet 90c@$1.25 for poor to fancy. German Millet, 90c@$1.25. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1.05. Buckwheat quiet; good milling quotable at $1.15@1.20.

HOG PRODUCTS—Speculative trading was quite active in Hog Products, and the market was considerably unsettled. Hogs were in good supply, and prices comparatively steady, but the Grain markets were easy, and this feature encouraged "longs" to realize and packers to sell moderate quantities. Outside orders were fair, and local trading was quite active. Prices fluctuated considerably, especially for Mess Pork. Offerings were moderately free, and the demand was only fair. "Shorts" bought moderately. Market opened with rather free sellers at the closing figures of Wednesday, and after a few orders were provided for, a weak feeling was manifested, and prices declined materially all around. At the decline, the demand improved, and prices rallied considerably, and the market closed steady at nearly outside figures. Trading chiefly in May and July contracts. Receipts of Hogs at the leading Western packing points were estimated at 88,900, compared with 81,000 one year ago. Returns of the packing of the West for the week, compared with that of one year ago, exhibited an increase of 5,000 Hogs. Foreign markets were stronger for Meats and Live Hog quotations were advanced 6d on Backs, Cumberland Sides and Hams while Lard was quiet and 3d lower. Domestic markets were quiet. Receipts of Products were liberal—of Lard and Meats about 33 cars. Shipments were moderately large—of Lard and Meats about 80 cars. Demand on shipping account was fair in a quiet way. Offerings were not very large. Sales were fair but not fully reported, and prices were well supported.

Mess Pork—A fairly active business was reported in Mess Pork, and the feeling was considerably unsettled and prices irregular. Offerings were moderately free, especially early in the day while the demand was moderately active. May contracts met with most favor. Market opened rather steady around the closing figures of Wednesday, but the offerings were quite free, and a weak feeling was developed. Prices declined 30@32½c on the whole range. At the decline the demand improved and prices rallied 10@17½c, but settled back again about 10c. During the latter part of the session the demand improved and prices rallied 30@33c, but settled back again 20@25c, and the market closed rather steady. Shipping demand was light and offerings were moderate. Cash lots quotable (mg $14.50@14.62½.

MAY—Offerings were rather free, and the demand was moderately active. Sales were made at $14.42½@14.95. Opened at $14.70 to $14.75, sold to $14.42½, to $14.60, to $14.50, to $14.80, to $14.67½, to $14.77½, to $14.65, to $14.85, to $14.80, to $14.82½, to $14.80, to $14.82½, and closed steady.

JULY—In fair request, and offerings were not very large. Sales were made at $14.55@14.82½. Opened at $14.77½, sold to $14.55, to $14.77½, to $14.70, to $14.82½, to $14.70, to $14.77½, and closed steady.

Lard—Quite a good speculative business was transacted in the Lard market, and the feeling was not quite so strong. Offerings were fair, and the demand was moderately active. Foreign advices unfavorable to holders. Prices declined 5@7½c early in the day, but rallied again 7½@10c toward the close and the market closed rather steady at outside figures. Inquiry on shipping account was very light, and the offerings were moderate. Cash lots quotable at about $7.70@7.50. Loose lots called for moderately and offerings were only fair. Prices were steady at about 7c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $7.00. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8.37½@8.50 for No. 1 and $7.75@7.87½ for No. 2.

MAY—In rather good request and offerings were fair. Sales were made at $7.65@7.75. Opened at $7.70 to $7.72½, sold to $7.65, to $7.75 to $7.72½, and closed steady.

JULY—Offerings were fair, and the demand was moderate. Sales were made at $7.75@7.82½. Opened at $7.75 to $7.77½, sold to $7.70, to $7.82½, and closed steady.

Short Rib Sides—Trade was quite active in the market for Short Rib Sides, and the feeling was unsettled and prices irregular. Offerings were fair, and the demand was moderately active. Market opened rather steady at the closing figures of Wednesday, but a weaker feeling was developed, with some pressure to sell, and prices declined 10@12½c. At the decline, the demand improved, and the market was stronger. Prices were advanced 7½@10c, but settled back 2½c and the market closed rather steady at medium figures. Inquiry on shipping account was moderate, and offerings were rather light. Cash lots quotable at $6.75@7.00 according to weight.

MAY—Offerings were moderately free, and the demand was fair. Sales were made at $7.05@7.17½. Opened at $7.15, sold to $7.17½, to $7.05, to $7.17½, to $7.05, to $7.17½, to $7.15, to $7.15, to $7.15, to $7.17½, to $7.12½, and closed steady.

JULY—Demand was fair, and offerings were moderate. Sales were made at $7.17@7.30. Opened at $7.27½, sold to $7.25, to $7.27½, to $7.17½, to $7.25, to $7.25 to $7.30, to $7.25, to $7.27½, to $7.25, and closed steady.

Other Meats—Rather a limited trade reported in Meats. Domestic demand was fair, and export demand was limited. Offerings of all kinds were fair, and holders rather firm in their views. Green Meats were in small request with moderate offerings, and prices were unchanged. Pickled Meats in moderate demand with only fair offerings and prices were well maintained. Dry Salted Meats in moderate demand and offerings not very large. Prices ruled rather steady. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

SUPPLY OF BREADSTUFFS

Stocks in Europe and America.

According to the special cablegram from Broomhall's from *Trade News*, Liverpool, to the DAILY TRADE BULLETIN, the supplies of Breadstuffs Flour and Wheat—in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on February 1, 1904, exhibited a decrease equal to 6,722,000 bu during January, compared with a decrease of 4,050,000 bu during December and a decrease of 4,834,000 bu during January, 1903. The aggregate quantity of Breadstuffs afloat for Europe on February 1, 1904, exhibited an increase of 2,870,000 bu during January, compared with a decrease of 1,000,000 bu during December, and a decrease of 2,210,000 bu during January, 1903. Supplies en route to the United Kingdom were reduced 120,000 bu, those for the Continent reduced 2,210,000 bu and those "for orders" increased 1,360,000 bu. The aggregate supplies afloat for Europe on February 1, 1904, were 2,870,000 bu more than reported one year previous, and 12,46 bu less than reported two years previous. During January, 1904, the aggregate supplies in store in the principal countries of Europe were decreased 12,316,000 bu, compared with a decrease of 7,340,000 bu during December, and a decrease of 3,482,000 bu during January, 1903. Stocks in the United Kingdom were reduced 1,760,000 bu, those in France increased 170,000 bu, those in Germany, Belgium and Holland decreased 310,000 bu, those in Italy decreased 1,000,000 bu, and those in other portions of Europe decreased 3,410,000 bu. Stocks in Russia were decreased 1,360,000 bu during December and were decreased 2,720,000 bu during January, 1904. Supplies in store in Russia are about 1,360,0 bu more than reported one year ago, and 6,66 ,000 bu more than reported two years ago. The aggregate stocks in store in Europe on February 1, 1904, were 15,80 ,000 bu more than rep orted one year previous. Compared with the returns of one year ago the supplies of Breadstuffs in store and afloat for the United Kingdom on February 1, 1904, were 6,810,000 bu more, those for the Continent 9,06 ,000 bu more, and those "for orders" 500,000 bu less. The aggregate supplies of Breadstuffs credited to Europe in all positions on February 1, 1904, were 16,750,000 bu more than reported on February 1, 1903. Advices from Europe are not very favorable for the growing Wheat crop. The prospects, so far, has been backward and wet in some sections, and dry in other quarters. As a rule the outlook is not as good as one year ago. India reports the crop in good condition, and the shipments from Argentina and Australia continue quite liberal

DOMESTIC SUPPLIES OF BREADSTUFFS.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States and Canada on February 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record*, exhibited a decrease during January equal to 4,834,000 bu, compared with an increase of 7,891,000 bu during December, and an increase of 1,030,000 bu during January, 1903. The decrease was rather larger on the Atlantic seaboard ports, and slight through the Central West, South, Southwest, and on the Pacific Coast, while there were moderate increases at the Lake ports, in the Northwest, and in Canada. Farmers as a rule rather slow to sell Wheat and the demand from all sources was on a moderate scale. Aggregate supplies of Flour in the United States and Canada were reduced about 36,000 bris during January, compared with a reduction of 28,000 bris in December and an increase of 10,000 bris in January, 1903. Supplies were reduced moderately in the Eastern States and slightly through the Central West and South. Supplies in the Northwest and Canada were slightly enlarged. The following table exhibits the stocks of Flour in the principal cities of the United States on the dates named:

Cities.	Feb. 1, 1904. Bris.	Jan. 1, 1904. Bris.	Feb. 1, 1903. Bris.
Philadelphia	150,000	150,000	150,000

Duluth	30,500	29,000	23,000
Total	562,735	561,231	543,709

Stocks of Flour at these points were reduced 2,496 bris during January, compared with a decrease of 28,000 bris during December, and a decrease of 45,353 bris during January, 1903. The aggregate supplies of Flour at these markets on February 1 were 18,978 bris more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on February 1, 1904, were 388,185 bris, compared with 425,691 bris on January 1, and 341,787 bris on February 1, 1903. The aggregate supplies of Flour in the United States and Canada on February 1, 1904, were 117,000 bris more than reported on February 1, 1903.

During the month of January the supplies of Wheat in the United States and Canada were reduced 1,672,000 bu, compared with an increase of 8,017,000 bu during December, and an increase of 1,030,000 bu during January, 1903. The reduction was moderate on sections, except in the Northwest and Canada. The increase in the Northwest was equal 1,472,000 bu, against 1,057,000 bu in January, 1903. Stocks in the interior elevators of the No. thwest were reduced 570,000 bu during January, compared with a reduction of 1,175,000 bu during December, and a decrease of 1,000 bu during January, 1903 The stocks on hand are to-day 8,030,000 bu, compared with 6,514,000 bu on January 1 and 6,570,000 bu on February 1, 1903 The aggregate supplies of Wheat in second hands in the United States and Canada on February 1, 1904, were 24,2 9,000 bu less than one year ago, and 2,005,000 bu less than two years ago.

SUPPLIES AT HOME AND ABROAD.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in the United States and Canada on February 1, 1904 including a larger number of points than in any other compilation—were equal to 166,748,000 bu, against 178,374,000 bu on January 1, and 167,578,000 bu on February 1, 1903. The decrease during January was equal 6,558,000 bu, compared with a decrease of 1,834,000 bu in January, 1903. The aggregate supplies in all positions in America, Europe and Argentina on February 1, 1904, were 2,960,000 bu less than reported one year previous, and 40,776,000 bu less than reported two years ago.

POSITION OF WHEAT IN THE UNITED STATES.

The movement of Wheat in the United States at the principal markets from July 1 to February 1 was about 172,000,000 bu, compared with 209,000,000 bu for the corresponding period in 1903. The exports of Flour and Wheat during the same period were about 96,000,000 bu, compared with 137,000,000 bu for the same time last year—a decrease of 41,000,000 bu, or 3 per cent. The official visible supply is about 6,000,00 bu smaller than one year ago. DAILY TRADE BULLETIN and allowing 78,000,000 bu for supplies in all positions on July 1, 1903, the aggregate supplies for the twelve months would be approximately 765,000,000 bu. Allowing 450,000,000 bu for domestic consumption, 75,000,000 bu for seeding purposes, 96,000,000 bu for exports to date, and 90,000,000 bu for supplies on hand July 1, 1904, makes an aggregate to be used for of 681,000,000 bu, and would leave for export during the remaining five months $5,000,00 bu, or an average of 17,000,0 0 bu per month. The exports from February 1, 1903, to July 1, 1903, were about 63,000,000 bu, or equal 12,600,000 bu per month

FLOUR TRADE DURING JANUARY.

In a general way there was quite a good trade in Flour during January, but the movement was somewhat During September and October, Winter Wheat grades were most in request and sales were liberal. During November and December, the inquiry for Spring Wheat grades was active, and sales were liberal, while Winter Wheat grades sold moderately. Within the past month the trade was unsettled, owing to lower prices for Winter Wheat grades, while the demand for Spring Wheat grades slackened somewhat, and the manufacture was on a moderate scale. However, toward the close of the month, owing to lower prices for Wheat and the prospects of war in the East, there was a little more inquiry for all grades at satisfactory prices. The production of Flour was rather good in the aggregate, and the local demand was sufficient to absorb the manufacture and slightly curtail the supply In New England, New York, Pennsylvania and Maryland there was quite a good domestic trade, and fair export orders were provided for In Virginia, West Virginia, Kentucky and Tennessee, trade was fairly good, with sales somewhat heavy to buyers for local and export trade In Ohio Michigan, Indiana Illinois and Missouri millers generally reported a fairly good local inquiry and for export was comparatively light. In Kansas trade was moderate, and calls for home wants In Oklahoma and Texas, the demand was rather good, and a few export orders were received In Iowa and Nebraska there was a little improvement in the trade, and millers in Wisconsin reported a fair business. At the larger markets of the Northwest the production was not so heavy as formerly, with interior millers made fair quantities. Sales were not as large, either on home or to-eign account. In the Rocky Mountain districts trade was fairly good. On the Pacific Coast, millers enjoyed a fair trade, with a moderate proportion for export. Flour trade in Canada was rather good, especially for home wants, and the production was fairly liberal.

WHEAT MOVEMENT DURING JANUARY.

The movement of Wheat from the farms of the United States during the month of January was only fair—only about 47,000,000 bu, compared with about 46,000,000 bu for the corresponding week in 1903. The movement was rather free in the North and Northwest, but was small in other sections of the month, but comparatively small in other sections of the country. Correspondents state that since the advance in prices at the central markets, and the prospects for war in the East, farmers are more independent, and are holding their Wheat for still higher prices. Lack of transportation facilities interferes with the movement in some quarters In New England, the receipts from the West were moderate and exports not very large. In New York, Pennsylvania, and Maryland, the offerings were rather light. In Virginia, West Virginia, Kentucky and Tennessee, the movement was light, and the supplies on hand are small. Reports from Ohio indicate only moderate offerings, and in Michigan, Indiana and Illinois were comparatively light. In Missouri there was a fairly good movement in some portions of the State, and rather light in others. In Kansas the movement was quite liberal, especially in the western part of the State. In Oklahoma and Texas the offerings were moderate to low grade. Nebraska the movement was only fair. Reports from Wisconsin indicate moderate offerings. In the Northwest the movement was fairly liberal, with a moderate increase in supplies. Reports Rocky Mountains district offerings were somewhat larger. On the Pacific Coast, the movement was comparatively small In Canada, the movement was fair, though checked to some extent by severe winter weather.

OUTLOOK FOR WINTER WHEAT.

The reports received by the DAILY TRADE BULLETIN are not very favorable to Winter Wheat. The greater portion of the area is covered with snow, but the plant went into winter quarters in rather poor condition. Through the Middle and Central Western States the plant is in fair condition and also in portions of the West and Southwest. Through the South, southern portions of the Southwest, and in California, the prospects are rather poor.

THE WEATHER CONDITIONS.

The weather map shows a few light snows in the Ohio Valley. With this exception there is no precipitation shown on the map this morning. The mercury is low—only 2 above at Concordia, Kan. It keeps cold and dry in Kansas and Oklahoma.

Indications are for further moderation of temperatures in Northwest. No decided change in this locality. Light snows possible.

VALUE OF FARM ANIMALS.

WASHINGTON, Feb. 10.—The acting statistician of the Department of Agriculture has completed his estimate of the number and value of farm animals in the United States on Jan. 1, 1904. The totals for the country are the following table:

TRADE NEWS ITEMS.

Temperature in Chicago at 7 A. M. to-day was 5° above.

No market quotations from New York to-day, owing to observance of holiday.

Some Turtles received to-day. They were of the ordinary kind and hard to sell.

There were no important changes made in the market quotations from yesterday. A firm feeling generally existed.

Country shippers of Dressed Poultry should be more careful and not pack their stock until it is properly cooled off. Packing dressed stock when warm accounts for some arriving heated and off in condition.

STOCKS OF PROVISIONS IN LIVERPOOL.

The following were the stocks of Provisions in Liverpool on the dates named:

	Feb. 1, 1904.	Jan. 1, 1903.	Feb. 1, 1903.	Feb. 1, 1902.
Bacon boxes	17,036	16,078	22,451	29,545

STREET PRODUCE MARKETS.

BUTTER—The receipts at Chicago (not including through shipment) for the days mentioned were as follows:

	This week. Tubs.	Last week. Tubs.	Last year. Tubs.
Monday	2,700	4,402	5,170
Tuesday	4,635	4,328	4,566
Wednesday	3,302	3,307	3,790
Thursday	2,942	3,020	4,088
Friday	3,921	3,936	4,559
Total	17,503	18,993	22,173

Everything in the line of Butter is ruling steady and for Extras in Creameries the feeling is decidedly firm. The receipts are moderate, but among the arrivals there is very little really fancy Butter, hence the firmness which exists. A good demand continues and trade is satisfactory all around. Demand is on home and on order account, and the market is being kept cleaned up quite closely, there being no lots pressing on sale and Extras in Creameries are really scarce.

Extras in Creameries remain firm. The demand is good and offerings of fancy makes are light. Buyers unable to secure all the fancy makes needed. The quotable price remains at 25c.

June Extras in Creameries meeting with little better sale and ruling firm at 19@20c.

Firsts in Creameries are quotably 19@22c and meeting with fair sale. Offerings fair.

Seconds in Creameries are quiet and quotable at 15@16c.

Thirds in Creameries quotable at 14c. Very little of the receipts going into this grade.

Imitation Creameries in light supply and in light demand. Quotably about 16½@17½c.

Process Butter (renovated) is quotable at 17@17½c per lb.

Ladles are quiet. Offerings moderate. Demand light. Quotably about 14c for No. 1.

Dairies are quotably steady. Demand is fair and the offerings moderate. Very few really fine Dairies, suitable for table use coming. Most of the goods show wintry defects. Fine makes quotably 21@22c. Firsts are quotable 16@18c. Seconds or such goods as lack flavor and not of uniform color are quotably 13½@14c—occasional lots sell in with packing stock.

Packing stock is in fair supply and in moderate demand. Fresh sweet solid stock is salable at 12@12½c, and unless it is very nice it will not bring these figures, and ranges down to 8@10c for soft, cheesy drawing and rancid stock.

Roll Butter is in fair supply and meeting with a good demand. Supply fair, and fresh sweet stock is salable at 12@13c outside for solid stock—when crumbly 12c is all that can be obtained, and when nicely put up, each roll wrapped separately and all sweet, uniform color, it sells in a small way above current quotations.

BEANS—Are holding up firm. Demand keeps up very well. Some Beans are coming in, not many however. Such as do come, when nice are immediately taken. There is no stock of consequence. Michigan is offering spot Beans sparingly and not many for nearby shipment. The war in the far East is thought to be having an influence on the seaboard markets. There are stocks of foreign there but there is so strong a feeling that more or less Michigan are attracted to that quarter. Quotable as follows:

Pea Beans—
- Hand-picked, new ... $1 95 @... ..
- Off color ... 1 90 @1 95
- Screened and low grades ... 1 30 @1 70

Medium—
- Hand-picked ... 1 90 @... .
- Screened ... 1 30 @1 55

Red Kidney, per bu ... 2 30 @2 55

Limas, California, per 100 lbs ... 4 00 @ ...

BUCKWHEAT FLOUR—Offerings are fair and the demand of a moderate character. Most of the dealers are supplied. Western in a small way commands $2 25@2 50 per 100 lbs, and in car lots quotably $2 10 per 100 lbs.

CHEESE—A little stronger market quoted for regular fall goods. Orders were said to be steady and fair in volume. The weather has toned up from the recent cold so that a little more filling of orders can be done. It is in view of moderate stocks that holders are firm. They say it is very apparent that there are no larger stocks than will be needed to carry them through to the new season. While holders of the goods named feel firm and report a stronger tone, they do not at the same time indicate any change in prices.

- "Off" grades ... 6 @ 9

DRESSED HOGS—The receipts are moderate and the demand fair. Real fine Hogs are selling all right, but poorly handled, dirty and staggy stock is dull.

Per 100 lbs—
- Choice, smooth, clean, straight stock, medium weights ... $5 50@6 00
- Very heavy ... 5 00@5 50
- Pigs, 50@75 lbs weight ... 5 00@6 00
- Staggy and crippled ... @3 50

DRESSED LAMBS AND MUTTON—A few genuine Spring Lambs are being received and sell slow, it being too early in the season. Yearlings and Mutton are slow sale.

- Spring Lambs, pelt on, 25@40 lbs each .. $ 3 50@5 50
- Yearlings pelt off, poor to choice, per lb. 3@ 7
- Mutton, pelt off, poor to good, per lb.. 3@ 6

EGGS The receipts at Chicago (not including through shipments) for the days mentioned were as follows:

	This week Cases.	Last week. Cases.	Last year. Cases.
Monday	4,086	4,721	4,536
Tuesday	5,952	5,564	4,759
Wednesday	6,166	2,735	5,042
Thursday	2,891	4,746	4,826
Friday	4,043	4,368	4,727
Totals	23,138	22,634	23,890

The market is ruling steady—the feeling is not so firm. The receipts are small, they are showing much lighter the last few days than they did earlier in the week. But the trade was slower, buyers all taking hold very reservedly and with a degree of uncertainty—they did not manifest that positiveness they did early in the week. Retail dealers report that the consumption has fallen off very materially and they are confining their purchases to actual wants from day to day, as prices are considered high, especially for this season of the year. Jobbers and speculators too were inclined to go easy.

Fresh Eggs at mark—as received from the country, cases returned—quotable at 27½@30½c per dozen, depending on quality for fair to good lots.

Fresh Eggs at "mark" general receipts, new cases included, were quotably 28½@31½c, and in shipping cases at 29@31c. Small miscellaneous lots do not sell for as much as large lots of straight packing.

"Prime Firsts" are quotable at 32c. To meet this classification the Eggs must be fresh gathered, be packed in new white wood 30-dozen cases, unless otherwise specified, shall be reasonably clean, of good average size, and between Jan. 1st and Feb. 15th shall contain 65 per cent of fresh, reasonably full, strong, sweet Eggs; the balance, other than the loss, may be defective in strength and fullness, but must be sweet. There may be a total average loss of one dozen per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of the excess.

"Extras" are quotably 33½c and ruling firm. This is a very high grade of Eggs, put up by some of the city merchants to meet the requirements of a particular high class of trade. It requires going through a good many cases to get one case up to this standard, as nothing but large, full, strictly fresh laid Eggs are taken.

Dirties very quiet; few of them; quotable at $6 75@7 50 per case of 30 dozen, depending on quality.

Seconds, including small, shrunken and dirty, and there are not many on sale, quotable at $6 30@6 60 per case, depending on condition.

FRESH FISH—Only small consignments offered. Not much demand early in the week. It is best about Thursday.

Fine Bass, and Pickeral will sell at all times. Carp; Buffalo and Suckers are always dull. Perch of good size will sell. Sun Fish very dull.

Black Bass smaller than 11 inches in length, should not be sent to market; the State laws prohibit the marketing of Bass smaller than this. They are liable to confiscation.

Medium size Bass are preferred to large. The very large ones are not as desirable as the medium size for the reason that restaurants want to serve a whole Fish, and the large ones are too large to serve—they do not care to serve half a Fish.

Quotable:
- Black Bass, per lb ... @12
- Carp and Buffalo ... 1 @ 2
- Pike, per lb ... 5 @ 6
- Pickerel ... @ 5
- Perch ... 3 @ 4
- Sun Fish ... 1 @ 2

POULTRY—Live—A steady feeling existed in the market. There were only moderate offerings, the express runs being light and only part of a car load of freight stock was unloaded. A moderate demand existed from the usual buyers. Dressers bought most of the stock, and speculators picked up some of the Fowls.

Some of the young Chickens are coarse and young Roosters, show large spurs and staggy and buyers discriminate against these and will not pay as much for them.

Live Turkeys were quiet; not many offered and little demand for them. There are so many cull Turkeys among the receipts that buyers do not care to purchase.

Live Chickens were in moderate supply and in moderate demand. Market steady for both Fowls and Springs.

Live Ducks continue in light supply and in moderate demand when fat and nice. Some are coming rather thin and these are slow.

Live Geese selling fairly well when fat, but the poor Geese are dull.

- Extra heavy, fat, selling higher.

Dressed Poultry—There was no change to note in the market. All descriptions ruled about the same as noted the past few days.

The receipts were only moderate—there were more Chickens than anything else on sale, but supply was not any larger than required.

The demand was of a moderate character. Retailers and jobbers were looking for fine fresh-killed stock and kept the market cleaned up of such goods, but the frozen and ordinary stock moved slowly and did not close out so readily.

Dressed Turkeys remain firm. There was a fair demand and receipts only moderate. For selected Hens and young Gobblers, dry picked, fresh killed, 16½c was obtainable. Old Toms salable at 14c, and Culls at 11c.

Dressed Chickens were in fair supply and there was a moderate demand for fine fresh killed stock. Ordinary stock and frozen slower sale.

Frozen Chickens do not sell as well as stock which is not frozen. A good share of the receipts are frozen.

Capons are in fair demand if six-pound average or heavier. Thin stock not wanted. Receipts are moderate.

Capons should weigh not less than six pounds, and eight pounds and heavier are more preferable. Some received which do not weigh over three or four pounds and these will not sell as well as ordinary Chickens.

Dressed Ducks are in light supply and in good demand. They are scarce and firm. Nice, fat, clean stock is wanted.

Dressed Geese moderate sale. There were moderate offerings, but most of the Geese were of ordinary quality. They were small, dark colored, or red skinned, and such stock was slow. Fine fat stock fair sale.

POTATOES—Arrivals by car loads compare as follows:

	This week.	Last week.	Last year.
Monday	60	86	58
Tuesday	8	10	21
Wednesday	13	15	22
Thursday	30	10	27
Friday	18	31	39
Total, 5 days	129	152	167

The market is in a strong position, where prices are easily crowded higher. Arrivals are not any larger than the trade is able to take care of, and stock is firmly held and prices on fancy Rurals are easily crowded higher. Weather remains cold, but dealers are unloading cars quite freely, as they are required to have stock for their regular trade. There is some outside demand, and were temperatures to moderate shipments would increase. Another drawback to large outside sales is that prices here are higher than in other markets.

About as much stock is coming in sacks as there is in bulk. The outside trade prefer the sacked and local dealers the bulk.

There was no change from yesterday's strong market, the advance being held.

Sales were 1 car fancy dusty Rurals at 95c, 2 cars choice in bulk at 93c, 1 car at 92c, 1 car good at 90c, 1 car medium Rurals at 86c, 1 car at 85c.

ROASTING PIGS—A few are being received and the demand is light. Pigs weighing 15 to 20 lbs when dressed are the most desirable.

Pigs, 16 to 20 lbs dressed, in fine order.

STRAW Rye Straw quotable at $8 00@9 50. Wheat Straw at $6 00@6 50. Oat Straw at $6 50@7 00.

SWEET POTATOES—The two cars expected yesterday came to-day. A better demand existed from the local and shipping trade, and on fancy stock, which was none too plentiful, a firmer feeling prevailed. Some of the receipts show rot and sell slowly.

Barrels—
- Illinois, fancy ... $2 75@3 00
- Choice ... 2 50@
- Small, uneven, not perfect ... 1 75@2 00
- Some poor in cleaning up have to be sold for less, down to ... 50@1 25

TAME PIGEONS The demand is good for Live Birds good flyers are wanted. Dead Birds are in moderate demand. Squabs are in fair supply and in fair demand. Squabs just ready to leave the nest, full feathered, are the most desirable. They are fatter before they commence to fly. However they should not be taken too young, as they must be feathered to make a good appearance.

- Live, old, per doz, good flyers ... $1 25@1 40
- Dead, old, per doz ... 85@ 90
- Live Squabs, thin and poor ... 75@1 00

- Feathered Nestlings ... @2 00

VEAL—The market was rather quiet to-day, and while yesterday's quotations were maintained during the morning, an easier feeling developed towards noon. There were not many Calves on sale—that is, the supply was not heavy, but there were enough to go around and supply the demand, for there was not very much inquiry. Butchers bought only moderately, and while receivers may close out all right yet they were not too sure of it, and some Calves may have to be carried over.

The frozen carcasses do not sell as well as Calves which are not frozen. What buyers want who pay the best prices is Calves which they can dress out immediately. The frozen carcasses can not be dressed out for several days.

The health Department has notified commission merchants that the ordinance in regard to small Calves will be rigidly enforced. The health officers are watching the market closely.

GREEN FRUITS.

APPLES—Sales are moderate of choice stock. The weather has moderated just enough to permit some movement. Some orders from the country were being filled. Local demand fair.

A little more speculative demand exists. Some round lots of cold storage Apples have been sold.

There were reported light arrivals and some Appels coming in have been frosted. This class of stock not selling at present. No one but peddlers can use it. It has been too cold lately for these parties to do anything. They are not disposed to buy frosted stock until the frost is out and the extent of damage can be told.

Choice to fancy fruit remains steadily held. There are good stocks in coolers.

Sales: 3,500 brls Baldwins, cold storage, at $3 00@3 25; 2 cars Spies, Greenings and Baldwins at $3 50.

Tomatoes Trade only moderate. Really fancy sell fairly. The present demand is only for fine stock that is right for slicing. When Tomatoes are small part green or all green or else soft they sell slowly. Supply is mainly of Floridas; it is good and includes all qualities, so that prices are very irregular. There are a few Californias on market, which sell well.

A car of Cubans on the market. They are not so fine as the best Floridas. They have not got the body—not so good for slicing—and they were rather slow.

HOW TO DRESS CALVES.

Calves from three to six weeks old, and weighing about one hundred pounds, or say from eighty to one hundred and twenty pounds, are the most desirable weights for shipment. The head should be cut out, so as to leave the hide of the head on the skin. The head should be cut off at the knee joint. The entrails should all be removed, excepting the kidneys; the liver, lights and heart should be taken out. Cut the carcass open from the neck through the entire length—from head to bungnut if it is done they are not so apt to sour and spoil during hot weather. Only a few carcass has spoiled in hot weather because of it is done this open. Don't wash the carcass out with water, but wipe out with a dry cloth. Don't skip until the animal heat is entirely out of the body, and then tie the legs up in a bag, as this keeps the air from circulating, and makes the meat more liable to become tainted.

It is very essential that the directions for dressing Calves is followed, especially in regard to letting the Calves cool off properly before shipping in hot weather, as hundreds of Calves are received in bad order and sold for not much more than charges and some do not bring freight. Numerous carcasses are also condemned by the health officers. They should hang up 6 to 8 hours or over night in an airy place to properly cool off before shipping.

Calves under fifty pounds should not be shipped, and are liable to be condemned by the health officers as being unfit for food. Merchants, too, are liable to be fined, if found selling these skunks, for violation of the law. Very heavy Calves, such as have been fed on buttermilk, never sell well in our market—they are neither Veal nor Beef.

Fasten the shipping tag with your name and address written plainly thereon so the bind leg.

The best selling days for Calves are Tuesday, Wednesday, Thursday and Friday morning. The first and last days of the week there is not much demand, and after Friday morning—that is, Friday afternoon and Saturday—buyers generally have their wants supplied.

Of course there is some demand every day, but usually the best days to sell Calves are Tuesday, Wednesday, Thursday and Friday morning.

HOW TO DRESS AND SHIP POULTRY.

In the first place, Poultry should be well fed and well watered, and then kept from 18 to 24 hours without food before killing. Stock dressed out brighter when well watered and adds to the appearance. Full crops injure the appearance and are liable to sour, and when this does occur correspondingly lower prices must be accepted than obtainable for choice stock. Never kill Poultry by wringing the neck.

To Dress Chickens—Kill by bleeding in the mouth or pealing the veins of the neck; bang by the feet until properly bled. Leave head and feet on and do not remove intestines nor crop. Scalded Chickens sell best. For scalding Chickens the water should be as near boiling point as practicable without boiling—160@175° Fahrenheit; pick the legs dry before scalding; hold by the head and legs and immerse and lift up and down five or six times; if the head is immersed it turns the color of the comb and gives the eyes a shrunken appearance, which leads buyers to think that the fowl has been sick; the feathers and pin feathers should then be removed immediately, while the body is warm, very easily and without breaking the skin; then "plump" by dipping ten seconds in water nearly or quite boiling hot, and then immediately into cold water; hang in a cool place (or in ice) place on shelves in the shape you wish them to appear when cooled—hanging draws the breast muscles and makes them look thinner when cool and harder to pack) until the animal heat is entirely out of the body. Today pick Chickens prop erly that you may should to-morrow while Chickens are bleeding; do not wait and let the bodies get cold. Dry picking is much more easily done while the bod es are warm. Be careful and do not break and tear the skin.

To Dress Turkeys—Observe the same instruc tions as given for preparing Chickens, but always dry pick. Pick when warm to avoid tearing. The tail feathers come off with a twist—a straight pull will "set" them. Dressed Turkeys, when dry picked, always sell best and command better prices than scalded lots, as the appearance is brighter and more attractive. Endeavor to market all Old and Heavy Gobblers before Christmas, as after the holidays the demand is for small fat Hen Turkeys only, old Toms being sold at a discount to canners.

Ducks and Geese—Should be scalded in the same temperature of water as for other kinds of poultry, but it requires more time in the water to penetrate and loosen the feathers. Some parties advise, after scalding, to wrap them in a blanket for the purpose of steaming, but they must not be left in this condition long enough to cook the flesh. Do not undertake to dry pick Geese and Ducks just before killing for the purpose of saving the feathers, as it causes the skin to become very much inflamed, and is a great injury to the sale. Do not pick the feathers off the head; leave the feathers on for two or three inches on the neck. Do not singe the bodies for the purpose of removing the down or hair, as the heat from the flame will give them an oily and unsightly appearance. After they are picked clean they should be held in scalding water about ten seconds for the purpose of plumping, and then rinsed off in clean cold water. Fat heavy stock is always preferred.

Packing and shipping.—Poultry should be thoroughly dry and cold, but not frozen; the animal heat should be entirely out of the body; pack in boxes or barrels; boxes holding 100 to 200 lbs are preferable, and pack snugly; straighten out the body and legs, so that they will not arrive very much bent and twisted out of shape. Fill the packages as full as possible to prevent moving about on the way; barrels answer better for Chickens and Ducks than for Turkeys or Geese; when convenient, avoid putting more than one kind in a package, mark kind and weight of each descrip tion on the package and mark shipping directions plainly on the cover.

HOW TO DRESS CAPONS.

First be sure and not kill them until crops are empty, and that they are fat. A thin Capon is not as good as an extra fine Cockerel, and is not large or a proper Capon they are not wanted as Capons or Chickens either. Leave feathers on neck from head down two-thirds way to the shoulders. Leave feathers on two first joints of wings. Leave feathers on tail and half way up the back. Leave feathers from knee joint two-thirds up the hips. All the rest of the feathers come off. Feathers that are removed should be saved and will sell if kept dry and clean. Be careful and keep the Capon clean. Wrap paper around head. Appearances add to the sale and of course price.

The Galveston Board of Trade reports foreign shipments of Wheat in January at 1,498,889 bu, an increase of 353,433 bu compared with January, 1903. From date Sept. 1, 1903, 9,87 ,01 bu, an increase of 2,717,5 0 bu compared with the same time in the previous year.

The Echo Agricole, Paris, Jan. 27, reports terminal crop estimates throughout Tunis last week. At present it is very cold and snowy, and the crops were to-day registered. The mountains are covered with snow; the winter is a vigorous one and crop prospects are not cheerful.

President A. W. Thompson of the Republic Iron and Steel Company was quoted, Monday, as saying that, so far as he knows, there is nothing in the report that plans are on foot for the amalgamation of the Colorado Fuel and Iron, Pressed Steel and Iron, and Republic Iron and Steel companies.

The shipments of Flax Seed from India from April 1 to date amounted to 17,320,000 bu (Calcutta 8,000,000 bu and Bombay 9,320,000 bu) against 12,- 31,000 bu last season (Calcutta 8,562,000 bu and Bombay 3,7 0,000 bu), and 13,683,000 bu in 1901 (Calcutta 10,215,0 0 bu and Bombay 3,4 2,000 bu).

The St. Louis, San Francisco and Southern Railway Company applies to the New York Stock Exchange to list $1,3 1,000 additional unifying and refunding mortgage 4 per cent bonds of 1951 and $ 1,000,000 additional general mortgage 4 per cent bonds, and Flax and land grant mortgage 5 per cent bonds, 1941.

The receipts of Flax Seed in the Argentine for the week ended Dec 31 were 140,0 0 bu, against 1 0,000 bu in the previous week and 41,0 0 bu in the same week last year. The total receipts during the past year amounted to 28,032,000 bu, against 14,920,000 bu during the previous year, and 15,782,0 0 in 1901.

Cables to a Chicago house as to the likelihood of a prohibition of Russian Wheat exports are as follows: Odessa cables: "It is impossible to foresee whether Russia will prohibit exports in case of war." Antwerp cables: "There is no prohibition of Russia prohibiting Grain exports in case of war."

A Boston dispatch says: "There is a steady business in the Wool market, with values strongly maintained The trouble in the far East has checked any tendency toward extensive buying. Territory Wools are in demand, with fine grades in moderate supply In the market for pulled Wools, a firm tone is noted. Foreign Wools are quiet."

The following resolution was passed by the Governing Committee of the Chicago Stock Exchange, Tuesday: "That hereafter, on all transactions made in either North Chicago Street Railway Company stock or in West Chicago Street Railway Company stock, the same shall be 'dividend off' from the time of closing of books of either company."

The detailed report of the Elgin Dairy Board of Trade shows the amount of Butter made in the Elgin district during 1903 to have been 16,271,471 lbs, and of Cheese 4,477,107 lbs. No cheese is sold on the Board. The Butter sales were 316,206, and the Cheese 313,365. Average price of Butter last year, 23 0c; of Cheese, 7½c. There are 157 factories represented.

The total number of loaded freight cars are now stalled at different freight yards between New York and Pittsburg. This does not include cars in transit. About half the cars are East bound and half West-bound. Some railroads claim they the severe cold weather and snow causes the congestion. A good deal of complaint is being made by shippers because of the delay.

It is believed by leading bankers in New York that the great part of the expense f rebuilding Baltimore must be provided for in Baltimore, and that individuals and corporations will appear in the market as sellers of bonds as well as buyers in order to obtain funds for reconstruction. It is assumed that insurance companies will appear in the market as sellers of Bonds as well as investors to the extent of $ 0,000,000.

According to the figures of *United States Investor* bond sales for the month of January are stated to be $ 8,584,881 not including temporary loans Of the total amount $17,2 3,500 was issued by cities and towns, $ 5,8 0,0 0 by counties, $3,7 0,000 by the State of Massachusetts, and $10,000,000 by the Philippine Islands. This amount shows an increase of 3.8- 9% over the total for January, 1903, and a decrease of 4,079 millions from the total for the month of December, and an increase of $ 13,485,881 over the $15,098,8 0 reported for the month of January, 19 3

The Liverpool *Corn Trade News* of Jan. 25 says: "No one will deny that the present cold spell in temperature has risen. Crop conditions on the whole are satisfactory, but there are some complaints of damage by vermin, and growers fear that the crop may be injured if they do not follow a period of mild weather now. Provincial markets keep firm. At yesterday's weekly Paris market good Wheats made the prices firm and quiet, but inferior qualities were the turn lower."

The Canadian Pacific Railroad has declared the regular semi-annual dividend of 3 per cent. The total dividends paid during the past year are six months. This compares with $ 3,201,907 in the corresponding period of 1902 and $2,736,37 in 1901. The dividend in the six months of 1902 was 2½ per cent, and was paid on only $ 0,000,000 of stock in capital stock. In 1903 the dividend was 3 per cent, and will be paid on the full $84,5 0,0 0 of stock in 1904 the dividend was 2½ per cent and was paid on $ 5,000,000 of stock.

The $15,0 0,000 of Southern Pacific 4½s that will be listed on the New York Stock Exchange this week are the bonds recently sold in two lots to Kuhn, Loeb & Co. and associates. The total issue of these 2½-year bonds is $ 0,000,000, of which $ 5,000,0 0 is now outstanding. They are dated Jan. 1, 1904, and will be due and payable on Jan 1, 1905. They are more like a one year note than a bond, and sell as such. They are secured on all, or nearly all, bonds and over $60,000,000 of stock, in addition to steamships, equipment, etc., otherwise unpledged.

The San Francisco *Weekly Commercial News* says: "Reports from Washington state that the Hop market is practically unchanged, and that no sale has been paid for 1903 crop, and the 20c mark is reported to have been reached for 1904 crop. In Yakima Valley but 485 bales remain in growers' hands. In Oregon the market is more quiet, stocks in growers' hands are between 1,500 and 2 0 0 bales. California hops are very firm, stocks in first hands being little more than 2,000 bales."

Dornbusch's Buda Pesth c respondent, writing under date of Jan. 23, says of Flour: "The previous week's dullness continues. The sales were very small, neither the home market nor Austria having any pressing needs, and the export business is practically suspended. Considering the closed navigation, deliveries were fair and since 8 have decreased somewhat, but some mills were not running full time until last week. Feedingstuffs had rather a better market. Prices unchanged all round."

Dornbusch of Jan. 26 says: "From Odessa comes re-purchases of Wheat, and the milder weather prevails in Southern districts and crops are still without snow cover. Lower temperature has caused much delay in the Danube harbor, necessitating constant use of the ice-breaker, and steamers are being detained from barges. On the 23d inst. sixteen steamers were waiting both and half-loaded in N Constanti Galatz 10 and Braila 6. Navigation is still closed and do not exceed 5,600 00 bu, of which about 4,400,000 bu are Wheat being about the same quantity as in two previous years."

The Chicago *Inter-Ocean* of Tuesday says: "The announcement was made from Secretary D E Hartwell's office of Swift & Co., Tuesday, that all the new issue of stock of the company had been taken by shareholders of record. This was expected, and in accordance with the plan by which it was arranged that all stock not subscribed for pro rata by the general stockholders should be taken by a syndicate composed of the larger shareholders, the proceeds selling their retail plants and trans-portation lines to the company. The amount which the syndicate had to take, however, has not been stated. Some estimates place it as close to one-half of the total issue of new stock."

The first general report on the Indian Wheat crop of 1903-4 states that information from the Provinces of Punjab, Sind and the United Provinces India the area sown is likely to exceed last year's area by 10 per cent. In the Central Provinces the increase is 10 per cent. in Berar 35 per cent, and in Sind 5 per cent. Last year's crop was a failure on the winter rains and if these are favorable a bumper crop is expected in the Central Provinces and a good crop in other provinces, except the Punjab, where rains will follow if they are delayed. The estimates of area so far as they are given, are: Punjab, 7,780 300 acres; Northwestern Frontier Provinces, 352,000 acres; Bombay, 1,811 - 0,0 acres

The efforts which the executive officials have made to end the Western Grain rate war have proved unavailing. After considering the whole problem, Tuesday, the committee appointed to try to effect a settlement abandoned the attempt, and it is confidently expected that the most disastrous rate war of years will follow. It is declared that the war was due to the Northwestern's refusal to recede from the position it had taken and a declaration on its part that it would persist to the end in granting to shippers a rebate of 2 cents per 100 lbs which would enable the company to haul G ain originating on its lines west of Omaha through to Chicago instead of dumping it into Omaha, there to be compelled to sell for all lines.

The directors of the Metropolitan West Side Elevated Railroad Company, Chicago, at their meeting, Monday, decided to formally pass the dividend on the 6 per cent preferred stock for the year. The directors issued the following statement: "The board of directors, in view of improvements made during the past year and those contracted for and in view of the present general financial conditions forbidding the sale of bonds on terms that could be considered, deemed it wise to pass the dividend for the fiscal year." The directors also stated that the profit for the Road during the month Feb. 29, 1904 (January and February estimated) including a sum up to $10,853 carried over from 1903, will be distributed pro rata on the basis of the amounts to $360,417. This is 2.31 per cent on $9,600,000 preferred stock, and scarcely justifies a dividend declaration.

In a new circular of the Adle-Chalmers Company says of the outlook for business: "Business is still good with us. By this I mean that we have plenty to do. But I cannot speak with great confidence of the future of the trade. The prevailing depression in the Iron and Steel business and the general hesitancy in all lines of trade are being felt by us, of course Take the matter of boiler tubing for instance. Our mills have limited orders We make a great many of them when the steel business is good. None are needed now. It is the same in other lines of manufacture. We feel the reduced volume keenly, for new shops are being built. It is not pres nt business that we are worrying about, but the out-look We have plenty to do, and new things coming on all the time. But when we look ahead we see nothing to warrant more than a half's work on our books and business for two years further on in sight."

A New York telegram says: "The general property loss and damage in the United States will exceed $150 0,000, according to the most conservative estimates of New York fire insurance brokers. More than 2,500 buildings were destroyed and many thousands of persons rendered homeless. It is admitted that the final reckoning of the cost will probably far exceed the $1 0,000,000 figure. This statement represents, as far as can be ascertained, the actual property loss by fire. It is impossible yet to gauge the total mulct-live cost of the conflagration. The tremendous loss caused by the fire has compelled conservative action in underwriting circles. The loss to the big New York companies alone is conservatively estimated at from $10,0 0,000 to $15,000,- 000, with all the probabilities in favor of a much larger sum. Many companies will lose in a single day nearly one-half of their net surplus. The approximate estimate of the loss incurred by companies in other cities."

Commercial failures during January, according to Dun & Co.'s figures, were 1,3 3 in number, an aggregate defaulted indebtedness of $18,483,573, as compared with 1,3 3 failures in the corresponding month of 1903, with $ 0,0 0,000 Of manufacturers there were 271 defaults involving $ 5,3 0,000 against 249 last year for $5,330,916. Of traders 1,029 failures for $ 2,437,1 0 exceed the 9 6 a year ago, when 1,0 0 defaults for $ 2,3 0,000 were reported. Commercial failures numbered 6 for $ 3,071,40, against 13 failures for only $39,381 In addition to these strictly commercial failures there were 11 banking suspensions for $ 2,0 0,000 In the month of January, 1903, which involved $ 7,0 0,000 and the International Fire Engine Company for $ 30,000 Banking and financial failures during January, 1904, numbered 10, and the amount involved was $ 2,0 0,000, while two years ago there were 12 failures in this class for $10,0 0,326.

Commercial failures for new months St Louis and San Francisco has paid off, mostly before maturity, notes aggregating over $ 0,000 0's, and has reduced its floating debt almost to nominal proportions. No note of the company is outstanding at present time. The elimination of these high rate notes marks the progress of the recovery of the credit of this company. The debts were incurred mostly through the purchase of the Oklahoma City and Western, Oklahoma City and Texas, etc., for which 4 per cent refunding bonds were issued. The market being bare, these 4 0 bds were deposited as collateral and 40 to 5 per cent notes issued against them. The collateral has now been sold and the notes eliminated. One note for $1,474,5 6, due March 16, 1904, was taken up recently. This was one of two one-year notes for a similar amount, paying 4½ per cent. Payment for Oklahoma City and Western was made one-third in cash and two-thirds in notes, now being taken up and paid off.

Local Securities were mostly stronger and higher, with light trading, except in Biscuit common, which furnished the greater part of the business. The only important gains were ½ on Biscuit preferred and Radiator preferred, 2½ on Chicago Edison and ½ on City Railway.

The weekly statement of the New York banks shows the following changes: Decreases—Reserves, on all deposits, $1,463 556; Reserves, less United States deposits, $1,398,175; Specie, $319 4 0; Legal Tenders, $1,343,900; Deposits, $799 000; Circulation, $772,800. Banks hold $20,379,225 in excess of legal requirements.

The shipments of Flax Seed from Argentina this week were reported at 1,352,000 bu, compared with 1,520,000 bu last week and 1,192,000 bu for the corresponding week in 1903 Shipments since Jan. 1 reported at 5,544 000 bu, compared with 4,712 000 bu for the corresponding time last year.

The following table exhibits the number of Hogs estimated packed from Oct. 30 to date in this city as compared with the returns of previous years.

1903-4	2 435,000	1900-1	2,715,000
1902-3	2 649 000	1899-1900	2 800 000
1901-2	3,591,000	1898-9	3,113 000

The receipts of Flour and Grain at Chicago for the past week were equal to 5,202,000 bu and the shipments were equal to 2,822,000 bu. For the corresponding week in 1903 the receipts were equal to 5,760,000 bu and the shipments to 2,430,000 bu. These figures are supposed to include the through shipments of Flour

Stocks in New York were sparingly traded in, 38 700 shares being handled. Influences early were mostly of a favorable nature, and prices strengthened moderately The bank statement was unfavorable and led to moderate selling, and fair recessions from the best prices, but closing sales —with few exceptions—were at fair gains over Thursday's

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans and Galveston included 143,400 brls of Flour and 478 000 bu Wheat, against 218,000 brls of Flour and 545,000 bu of Wheat the preceding week, a decrease of 75,000 brls of Flour and a decrease of 67 000 bu of Wheat. For the corresponding week last year the exports were 186,000 brls of Flour and 1,348,000 bu of Wheat.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A moderate demand is reported and market is steady, as quoted on the second page

WINTER WHEAT—The market is firm for choice Wheat and fancy samples are bringing higher prices under a good demand. Low grade Wheat and poor samples quiet and slow No. 2 Red in store quotable at 94¾@95½c and fresh arrivals free on board quotably 95c@$1 01—outside choice soft Wheat No. 3 Red fresh receipts free on board sold at $1 00@1 01 for choice and fancy Wheat and ranged at 90c@$1 01. No. 2 Hard local free on board sold at 93c, and ranged at the river at 88@92c. No. 3 Hard at the river ranged at 83@90c No. 4 Hard at the river quotable at 63@77c. No 3 White sold at $1 00½.

SPRING WHEAT—Ruled steady A moderate demand existed and some round lots were sold for shipment Receipts small No 1 Northern in store quotable at 93½@93¾c and fresh arrivals free on board quotable at 94@98¼c, with sale of a lot of 15 000 bu at 98½c. No 3 Spring sold to the extent of 30 0 0 bu at about 89c and ranged at 85@ 86c for poor to choice hard variety No 4 sold at 70c and ranged at 58@65c for poor to choice

REGULAR WHEAT—A moderate trade and stronger tone, the close showing May up ⅛@⅜c, July 1c better and the September 1⅛@1¼c above the final prices of Thursday The "bullish" mood early was influenced by the advance in foreign markets, both English and Continental. Liverpool quoted spot and futures up ½d with receipts the past three days 392 000 bu Strength reported due to the active demand for spot London came ½@1d higher. Paris advanced ¾@1¼c Buda Pesth 1¼c and Berlin 1c Antwerp unchanged The strength of cash Wheat in the Southwest was also an indirect "bull" factor New York reported London bidding 3c more for Spring Wheat than on Wednesday and at the close when that 10 boat loads were accepted Minneapolis reported liberal sales of Flour for export and Duluth wired foreign bids for Manitoba Wheat were close to working. Map showed no precipitation in the West and Southwest and colder conditions were indicated Receipts were moderate, the total cars in the Northwest this week being 1,729 cars; previous week 1,743 cars, and 2,589 cars one year ago Local weekly receipts, 220,000 bu; shipments, 215 000 bu. Primary receipts 2,925,000 bu; previous week 3,558,000 bu, year ago 3,364 000 bu There was little feature to the trade. Commission houses were fair buyers early, but at the advance there was free selling credited to "long" interests, which caused values to react. The "bearish" features at hand were the large Argentine and Australian shipments, the *Modern Miller* summary and views of the Secretary of the Kansas State Board of Agriculture that there had been no damage to the crop in that State. British Consols were higher. Argentine shipped 2,984,000 bu and the visible there is now 4,160,000 bu, compared with 2,240 0 0 bu one year ago Australia shipped 960,000 bu English visible increased 10,000 bu against 211 000 bu increase last year. Exports were small. Cash sales here included 15,000 bu No. 1 Northern and 50 000 bu No. 3 Spring. Kansas Hard was reported up 2c—equal to 92c. English farmers' deliveries were 336 000 bu at 80¾c, against 486 000 bu last week at 81c and 480,000 bu one year ago at 77⅛c. Receipts at Duluth 110 cars and at Minneapolis 367 cars, a total of 477, against 226 cars yesterday, 336 cars a week ago and 758 cars last year. Local receipts included 8 cars Winter, 9 cars Spring and none mixed, a total of 17 cars, against 31 cars last year Included in the above was 1 car of contract grade There were 16 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 35 cars. Withdrawals were 5,400 bu. Receipts at Western points were 583,855 bu against 624,780 bu last year. At Eastern points 21,025 bu, against 104 118 bu last year. Shipments from Western points were 639 091 bu, against 236,567 bu last year, and from Eastern points 130,400 bu, against 162,343 bu last year. Shipments of Flour were 21,349 brls. Exports of Wheat in Flour were equal to 239 870 bu.

Future Deliveries of Regular Wheat—Good trade within moderate range.

CORN—Just a fair trade and feeling firmer, the close showing gains of ¼c and ¾@⅞c. Receipts were small, the grading unimproved Wheat was stronger, foreign and domestic markets higher and Argentine shipments moderate, all of which tended to impart a better undertone to the situation. "Shorts" more inclined to provide for outstanding contracts, while the offerings were only moderate. Receipts 194 cars, with 159 cars low grades, and 665 cars estimated for Monday. Argentina shipped 471,000 bu, and the visible there reported at 1,183,000 bu, against 197,000 bu same time in 1903 Crop prospects there improved. Liverpool ¼d better for spot and futures, with receipts past three days 200 000 bu. Local weekly receipts 1 550 000 bu; shipments 1,032,000 bu Primary receipts 3 436,000 bu; previous week 4 269,000 bu; year ago 4,172 000 bu Weather was clear and mild, but cold wave indicated. Cash demand fair, but car situation unsatisfactory. Seaboard reported 9 boat loads accepted. Car lots were in fair demand, with larger offerings. Feeling firm and prices about 1c higher. No 4 at 39@42½c No 3 at 43c No 3 Yellow at 45c No 3 White at 43@45c Ears at 45@46c. Billed through No Grade at 34½@39c. No 4 at 36½@41c No 3 at 42½@43c No 3 Yellow at 44½c. No 3 White at 43@44c.

Future Deliveries of No. 2 Corn—Active and stronger, closing ¼c to ¾@⅞c higher

FEBRUARY Inactive closed about 51c.

MAY—Sold at 54⅛@54⅞c Opened at 54⅛c to 54⅜c and sold at 54⅛c to 54¾c, to 54½c, to 54⅝c, to 54⅜@54½c, to 54⅝c, to 54½@54⅝c to 54⅝c, to 54¼c, to 54⅞c, to 54¾c, and closed at 54¾c

JULY—Sold at 52½@53c Opened at 52⅝c to 52¾c, and sold at 52¾c, to 52⅝@52¾c, to 53c, to 52⅞c to 53c, to 52¾c, to 52⅞c, to 52⅝c, to 53c, to 52¼c, to 52⅞c, and closed at 52⅞c asked.

SEPTEMBER—Sold at 51½@52c Opened at 51¾c, sold to 52c, to 51¾c, to 51⅞c to 51⅝c, to 51⅞c, to 51½c, to 51¾c, and closed at 51¾c.

OATS Were more difficult to buy and under the leadership of the "largest" holders May advanced 1⅛c, July ⅝c and September was steady The strength was also due to sympathy with other Grains, which made the advance more easily attained. Cash business was good, with 51,000 bu sold for shipment Arrivals for the past two days 124 cars with 335 cars estimated for Monday. Seaboard clearances were 31,500 bu Withdrawals here were 4,400 bu There were 26 cars and 31 700 bu Standard run into public from private houses. Car lots to go to store were steady to ½c higher No 4 White sold at 41c No 3 White at 44c. Standard at 44c. Standard in store closed at 41⅝@42⅛c

Oats by sample were in excellent demand with offerings liberal, all of which were cleaned up and prices advanced ½c on the better grades and steady on others Sales on track and free on board No. 4 White at 34½@43c. No. 3 at 39¾@40c No 3 White at 41@44c. Standard at 41@44½c. No. 2 at 40½c Billed through. No. 4 White at 40@40½c. No. 3 White at 42¼@43⅜c Standard at 43½@44c. No. 2 at 39¾c. RYE The market was firm and choice fresh arrivals brought higher prices, and futures quotably unchanged but stronger The demand was moderate and the offerings light. There were 3 cars received and there were no withdrawals from store here and no export clearances from the seaboard No. 2 in store nominally 63c, and fresh arrivals free on board quotably 62@68c, with sale of a choice car at 66c; No 3 fresh arrivals quotably 67@75c

Future Deliveries of No. 2 Rye Firm, with moderate demand February 63c bid. March nominally 63c May sold at 64c and closed at 64c bid and 64½c asked. July 62c bid and 64c asked.

BARLEY—The market exhibited a strong tone Demand good and it covered all grades Screenings also mixing Barley scarce Latter when sweet very strong, a shade more in favor of sellers The demand for malting was equal to the supply Offerings were moderate, and comprised just ordinary to good cars mainly. Prices firm. No really choice or fancy on sale Receipts were 44 cars. Screenings remain quotable at 30@42c for poor to choice with sales made at 39@42c Barley, feed or mixing quotable at 40@42c local outside for good sweet; river billed quotable at 38@41c depending on quality Malting low grade about 43@44c, very dirty below; common, 45@46c Fair was about 48@50c; good, 51@53c choice nominally, 54@55c fancy possibly above Good to arrive sales at 56c reported.

SEEDS—A decidedly firmer speculative market for Timothy developed; bids were raised; cash Seed steady and firm. Good quality scarce All other lines without essential change, and usually steadiness prevailed.

Timothy—In the speculative market there was a firmer feeling Several buyers appeared, but there were no sellers Bids were raised 7½@10c. February was quoted at $3 05, and for March $3 10 was bid Moderate cash offerings appeared, mostly ordinary to fair quality, some also very good, but no fancy Cash market for ordinary grades not changed especially; high grades perhaps would do better. The whole range for country lots remains at $2 25@3 10 for poor to fancy; fair to good quotably $2 75@2 70; choice, $2 75@2 90 and rough dark and foul lots about $2 35@2 50.

Flax—There was no change in the market. Values were just the same as yesterday There was nothing in outside influences to have any effect. Cash Flax was in very small supply and speculative market entirely neglected, apparently without offerings Local receipts were 11 cars or 9,350 bu, and output was 1 car or 1 059 bu. Minneapolis receipts 36 cars. Duluth 31 cars. No. 1 Northwestern or No 1 from the Northwest remained steady at $1 18, with a sale made. No. 1 was $1 11½ bid. WEEKLY TRADE REVIEW.

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, Feb. 12, 1904.

The money market is showing a better tone. The fire in Baltimore has had a strengthening influence and the largest banks are not making loans at under 5 per cent, and some banks are getting as high as 5½ per cent. Chicago banks are holding to their money and are waiting the effect that the Baltimore fire will have upon the insurance companies in the shape of calls for payment of securities. The general situation in the West is regarded as good. Deposits are growing and the demand from country banks is falling off. New York for call rate on money was unsettled, at 1½ to 2 per cent, more money being put out at the latter figure than heretofore. Sixty and ninety day money was 4 per cent and four months' loans 4½ to 4¾ per cent and six months was loaned at 5 per cent. Pennsylvania Company borrowed $5,000,000 in New York at 4½ per cent. Russia was in the market for a $300,000,000 loan, but it will be taken or subscribed by Berlin, Paris and other continental centers.

New York exchange was steady at 10@15c premium and closed at 10c premium.

Foreign exchange was firm, with moderate offerings of bills. Shippers' sixty-day documentary sterling bills on London ranged at 483@483½.

In the security trade sales were made a small gain in dry goods, clothing and shoes. The first of the low rate excursions brought buyers from the South and Southwest in good numbers during the week and there was a marked increase in the attendance. Prices on Cotton goods were firm, maintaining previous advances. The Leather market is firm, with light stocks and a fair demand for orders. The buying of Iron and Steel was of a moderate character. The fire at Baltimore is expected to create a large demand for goods of various kinds, which will materially help the Iron line esp. Bars and plates were taken fairly and the price firmly held. Railroads bought 8,000 tons of Steel rails at $28 per ton. The pig Iron market was little doing. The pig Iron market was a trifle more active with several good sized sales and an easy undertone, and stocks at furnaces in some sections showed an accumulation. Coke was unchanged in request buying of Coal, but the inability of the railroads to move cars rapidly caused much dis atisfaction. The January output of 2,238,264 tons from the same time last year. The movement of lumber and building material was light and the factory distributing trade was quiet and the market for supplies for fut re delivery and paid full prices. Building Brick made a good advance. In the grocery trade there was a good business, with a demand for part and full cargoes and advances of 8 points in granulated Sugar. In other lines business was moderate. Collections are f ir.

The Cotton market in New York was excited as ever with the wi de t fluctuations. A break to the lowest point since the decline started, showing a drop of about 850 a bale from the recent high notch. Liquidation and realizing were on the feature and sharp rallies frequently occurred. The government report given out Tuesday showed 9,185,537 commercial bales ginned to Jan. 16. This was counted as a bearish fe ature, though many operators as it exc eeded earlier estimates by 200 000 to 300,000 bales. Other-, however, figure that there is very little Cotton back to be ginned, the highest estimate being 500,000 bales. Others say that the crop to a little under 10,000,000 bales. Closing prices compared with a week ago recorded losses of 25@60 p nts.

Local securities were traded in moderately and the market was unsettled. There were strong spots a good part of the week, which carried prices higher and held them there, but the close was the most animated trading was in Biscuit shares, which were bought on the supposition that the annual statement will be a good one, making a better showing than last year. The statement to be given out Thursday did not show as good as the two previous years. Net earnings applicable to stock increased $20,177 and were equal to 6.78 on common stock of $3,250,000 and 7.28 on the stock at times and preferred showed the best range. Swifts' sold to par and made a small reaction. The issue of subscription rights to stock was declared during the week, and it was officially announced that all the new issue had been subscribed for. Metropolitan Elevated passed its dividend and its shares broke below 100 for a week. The company's statement showed about 2.34 per cent earned last year on its $9,000,000 of preferred stock, and did not warrant a dividend. The Cereal company made a good showing. The bond market was more active and strong.

In the New York Stock market there were two distinct features the war rumors in regard to Russia being actually on and the Baltimore fire. Both had a depressing effect at the start and there was a bad break. Traders started in to sell securities for the insurance companies, who it was said will have to liquidate to pay their losses, which are placed about $400,000,000, of which $100,000,000 abroad. The insurance men, however, have sixty days in which to pay their losses and many are not likely to be adjusted by that time. Their holdings of high-class securities aggregate $187,780,000. These are divided as follows: Government bonds, $17,000,000; municipal bonds $65,000,000; State and other bonds, $60,000,000; railroad stocks, $45,827,000. Some of these holdings will come on the market, but the question is largely With war on and the prospects of liquidation ahead there was all uneasy feeling, and even in the face of these conditions there was a sharp advance after the opening break. The market remained erratic until the last, with professionals doing the greater part of the busines . London was weak at times lower and sold stocks for some time was also represented by good buying orders. A point made in favor of the Steel shares was that the Baltimore fire would result in a large demand for structural material and make business much better than it could have hoped to see under other conditions. At the close prices on most of the list were lower than the previous week. Bonds were traded in fairly and averaged higher. Total sales on the New York Stock Exchange for the week were 4,842,600 shares compared with 4,651,000 shares the previous week and 3,071,000 shares for the same time last year.

COMMERCIAL.

Business on 'change the past week was good in the leading commercial staples and speculation. Outside interest continues quite marked and local speculators operated with considerable freedom. The principal cereal as well as the Provision market was influenced by the course of affairs in the individual operations. The political situation in the Balkans and war news from the far East was watched with keen interest and crop news had domestic and foreign sources to engage the eye. The movement of Grain, exports, and foreign demand too were factors in shaping the course of values. Fluctuations were wide and sharp, and at times limits quite a feature the entire week. The markets now offer great opportunities for investment and interior speculators should have their trades well arranged, as the volume of business will diminish when the question of the volume of business and with the advent of spring still wider fluctuations should be witnessed.

Crop conditions abroad are reported as unsatisfactory in both the United Kingdom and on the continent. The rains the past week in Great Britain were very beneficial to sowings and growers of the situation is far from satisfactory. Another week of unfavorable weather was reported in France, Germany, Hungary, Italy and Spain, but as yet there are no figures to compare with the official crop report of France made the Winter Wheat area 258,000 acres less than a year ago and condition on February 1, 71.3 per cent, against 76.5 per cent a year ago. The Winter Wheat area reported in Russia, but crop as whole reported little changed. Outlook not as favorable as a year ago at this time. India prospects are said to be very favorable. Private advices noted little change in outlook for Corn

There is very little change to note in the crop situation, the outlook for Winter Wheat west of the Pacific Coast was rather more favorable, due to the recent rains, but the plant in the Southern California districts is said to need further moisture. Kansas is the first State to report the condition of the Winter Wheat has had ample snow protection, but in Kansas, Oklahoma and Missouri and other sections of the Southwest the crop is reported as injured by the severe cold and lack of snow protection. Weather. At the present time it is difficult to determine with any degree of accuracy the extent of the damage, but it is safe to say that many favorable conditions have been such as to enable the crop later to get in his work this spring, and reports from those sections will no doubt be very conflicting.

The movement of Grain from interior elevators was fair the past week. The recent enhanced values of each Grain was productive of somewhat larger receipts and was in part due to Winter and the reduced freights recei ts at terminal points should increase. In the Northwest the movement of Wheat and Flax was fair, owing to receipts under those of a year ago and the mills are running the stocks of Wheat at the principal centers. Through the West the movement was only fair of course Corn and Oats. In the Southwest the movement Wheat is still marketed with considerable freedom Through the South and the Pacific Coast the movement is limited. The movement forward and receipts at primary fair, the variety of cars being something of a factor. Exports of Flour and Wheat were in decrease; also of coarse Grains. The new business reported at the seaboard was somewhat larger of and decriptions of Grain. According to and weekly report of the visible supply of Grain in the United States and Canada, as compiled by the New York Produce Exchange Bureau of Trade, there was a decrease in the stocks of Wheat, Rye, and Barley and an increase of Corn and Oats. According to the monthly statement of the DAILY TRADE BULLETIN of the world's Wheat and Flour stuffs decreased 3,850,400 bu last month, against 1,800,000 bu decrease in January, 1903. Total Feb. 1, 174,750,000 compared with 173,616,000 bu same date one year ago.

The past week, like the one preceding, witnessed a large trade in all the speculative markets. An unsettled, nervous feeling was a prevailing sentiment great y divided at times. Wheat was erratic and sensitive and a new high record established. Various markets were affected to a great extent by the war news received from the far East, the uncertainty over the political situation in Bulgaria also attracting a good deal of attention. Corn was in good demand at times and quite a factor n Wheat and the forward deliveries attracted greater attention Corn was very unsettled, the attitude of Eastern "longs" and several prominent local operators being watched closely. Packing of the West for the season was reported at 7,185,000 Hogs, against 7,370,000 in 1902-03, an increase of 185,000 Hogs.

Receivers reported a fair business in cash Grain the past week Shippers and speculators were in the market for supplies, but the volume of transactions being taken by interests having clearers and dryers Millers wanted choice Wheat and prices varied greatly, depending on quality. Corn sold well, that is, choice dry; poor, soft and wet were slow and dull. Prices broke badly the first of the week, but recovered part of the decline later. Round lots were in better demand from the East. Oats sold well, the inquiry being more general. Prices were in fair request and firm. Seeds were slow and easy. Timothy Hay was in liberal supply and steady. Prairie was in large supply and very dull. The demand for Hog Products was fair. All descriptions were firmly held. Sales moderate and prices more in sellers' favor. Cattle were in fair supply and prices without import nt change. Sheep were marketed with moderate freedom and prices favored buyers.

FREIGHTS—There is congestion on Eastern roads between Chicago and the Atlantic seaboard, and a number of cars loaded with grain are sidetracked, which the roads are unable to move. There is a short age of 6,000 cars in Chicago. The congestion is due to cold weather and unusual movement of the volume of trains. There is also a shortage of cars in Central Illinois, and a little west of the Missouri. The rate war on Grain between the Eastern and Western roads continues, and the latter endeavoring to maintain a lower through rate from Nebraska points to Chicago than the sum of the two locals. The tariff eastbound from Chicago is as follows:

To—	From Chicago. Domestic.	From Miss. River. Export.
Buffalo.....	22	15	25	17½
New York.....	29	15	22	17½
Philadelphia....	18	14	19½
Baltimore.....	17	13½	19	..
Newport News...	17	13½	19	..
Buffalo	18	15	..	..

Export rates are 2c domestic and 1½c for export. Provision rates are 30c per 100 lbs. Chicago to New York. There is a cut of 5c per 100 lbs in Provisions via Southern all-rail route. Through rate on Wheat from Chicago to Liverpool is 11¾c per bu and Corn 11½c Flour 21½c per 100 lbs and Provisions 41½c per 100 lbs.

FLOUR—The Flour market is ruling firm and prices this week were advanced 10@15c on most grades. The betterment in values was naturally due to the advance in the Wheat market, higher prices, and buyers as a rule were slow to take hold at the improvement Stocks are said to be small in all quarters and it is only a matter of time before dealers will be obliged to come to the front for millers' Consignments are small and offerings from interior millers reported light The agents of the large Northwest mills reported just a fair business the past week with Eastern buyers. There was a better call from the East and New England and the offers at hand were closer to millers' views. Foreigners, however, are not taking hold to purchase on any extensive scale, the war between Japan and Russia not stimulating the demand to any noticeable extent. The week closed quite firm at the following quotations:

MILLSTUFFS—The market is quotably firm. None arriving and business is consequently confined to small lots for immediate delivery. Bran quotably $17 50 per ton in bulk and at $18 50@19 00 in sacks, sacks included

WINTER WHEAT—A rather firm feeling has existed for such kinds as were productive of good to choice soft Wheat, owing to the scarcity has held up well. The offerings were taken readily and wanted by millers, even choice hard Winter was taken more readily and was in better request, on account of the scarc ty and high prices ruling for the latter. The receipts have been small, and of choice soft Wheat really not enough for the requirements of the trade. Offerings of these being mostly—being no call for it, and therefore did not partake of any of the general strength which ex ted for the better grades. Values of Wheat f r the contract grade in store followed the fluctuations of the speculative market, and held at fair premium over the Spring Wheat. No shipping issues were reported, and only small lots were reported sold. The receipts for the week aggregated 75 cars, against 167 cars the previous week. There were withdrawn from public elevators 72,000 bu, and 200 cars were taken from private elevators. Sales reported were 5,000 bu, and 5 cars. No 2 Red in store ranged from 1c over May to 2c over May prices, and ranged at 93¾@98c. Local trade arrivals from producers were fair. No. 3 Red fresh arrivals free on board sold at 95c@$1 00, and covered a range of 90c@$1 00 for common to very choice. No 2 Hard fresh arrivals ranged at 94c@96c. No 3 do sold at 93c@94c, and a choice car sold at 94½c, with sales at the river at 94@98c No 4 Hard at the river sold at 66c and ranged at 66@75c.

SPRING WHEAT—There has been a fairly firm feeling in th s market during the past week. Trading has been light and restricted by the very small receipts. Scarcely any change is reported, that is, of the fresh arrivals, on sale to establish quotations. The hard variety of Wheat was particularly wanted and taken by millers. The regular grades of Wheat in the market were the fluctuations in futures, but the fresh arrivals were not so much affected by the speculative changes and held independently steady. Of the poor Wheat there has been a large supply and prices ranged low, while ordinary Wheat was salable there has been no special call for it, and low prices had to be accepted to make sales. The receipts of the week aggregated 41 cars, against 72 cars the previous week. There were withdrawn from public elevators 29,000 bu, and only 25 cars were taken from private elevators. Sales reported were 5,000 bu. Prices ruled about 3@4c under May prices and ranged at 9@9¾c and fresh arrivals free on board were nominally 4@9½ No 4 Northern fresh arrivals free on board ranged at 6@8c. No. 3 Spring fresh arrivals free on board ranged at 80@94c for ordinary to choice hard variety, with a sale at the river at 83c No. 4 Spring ranged at 58@60c for poor, at 63@71c for ordinary to fair, at 72@80c for good, and at 82@88c for choice to fancy hard variety.

REGULAR WHEAT—Was nervous and unsettled all the week, price changes being numerous and the trade of large volume. May sold between 93¾c and 98¾c, against 93¼@95c for 3 to 4 days higher than on last Friday. July ranged at 88½c and 89¾c and finally rested at 89¼c, showing 1¾@1¾c gain. September sold between 79¾c and 83¾c and last trades were at 81¾c, as against 80¾c one week ago. The week started out strong, but a full rush of selling soon followed and market turned decidedly weak. Realizing by holders and a desire to unload a portion of their holdings and many stop-loss limits were uncovered on the break. The disastrous fire at Baltimore added to the weakness, and the close of the week found holders in better mood, a factor in shaping the course of values. The world's shipments were quite moderate at 3,560,000 bu, against 7,880,000 bu the previous week and 9,976,000 bu a year ago Quantity on ocean passage increased 1,307,000 bu to 11,128,000 bu, compared with 7,800,000 bu 1901. Visible supply increased 871,000 bu, compared with 1,425,000 bu increase one year ago. Total now 8,661,000 bu, against 2,810,000 bu 1903, and 11,580 000 bu in 1902 Points gaining 50,000 bu or over were: Philadelphia, 248,000 bu; Boston, 128,000 bu; Galveston, 100, 000 bu; New Orleans, 116,000 bu; Kansas City, 49,000 bu, and Peoria, 66 000 bu. No point lost 50,000 bu in Corn. Local public stocks increased 132,000 bu to 2,187,000 bu, compared with 1,000 bu one year ago Receipts for the week were 1,138 cars, compared with 747 cars the previous week and 945 cars last year Seaboard clearances were 91 933 bu, compared with 80,000 bu the previous week. Export business was light The quality of the Oats arriving is generally good and the greater portion inspected No 4 White and No. 3 Oats. The movement is restricted by the scarcity of cars and by the cold weather In the visible supply there was an increase of 350,000 bu, and the supply is 8,366,000 bu, compared with 8,016,000 bu last week. Stocks in public houses increased 307,000 bu, and were 1,473,785 bu, compared with 534,631 bu last year. Stocks of Standard increased 200,000 bu to 1,200,000 bu, compared with 1,000,000 bu a year. Stocks in public and private houses are 4,160,000 bu, a decrease of 61,000 bu from the previous week.

CLOSING—The market ruled easier early in the week and prices declined fully 2c, but recovered later and advanced 2c and closed steady. A fair business for the Rye market was transacted, but it was of a rather irregular character. The market was scarcely any trading and then suddenly would develop a fair demand and the market was quickly influenced. Most of the buying was by a speculative character and consisted in the May delivery The first trades for July delivery were made during the week. The fresh arrivals shared in the general fluctuations of the market and were quite in keen small and the few car lots arriving met with ready sale, and taken for manufacturing purposes if choice, while the poor lots were rather dull and quotably lower. The movement of Rye through the home market was influenced more or less by the other Grain markets, and to a certain extent by the war news. Receipts for the week aggregated 61 cars, compared with 91 cars the previous week and were 9,100 bu withdrawn from public elevators and 9 cars from private warehouses. Export clearances from the seaboard none. The visible supply decreased 60,000 bu and is now 1,495,000 bu against 1,190,000 bu the previous week and 920,000 bu one year ago. The local stock in store was 240,000 bu and a year ago was 333,000 bu. Sales reported were 5,000 bu. Prices for round lots and a car of fresh arrivals to go to store, poor Rye, sold at 58@c; sales free on board ranged at 60 @61c for No 2 fresh arrivals and at 62@63c for No 2 fresh arrivals free on board sold at 64@65c for poor to choice. Sales of No 4 were made at 59 @59c. For future delivery of No. 2 a fair business was transacted. Prices ruled about unchanged from 62c and March nominally 61@63c May sold at 64½c, down to 63c, and there were sellers one day at 62c, then rallied again and sold to 64c. July sold at

BARLEY—A break in Oats prices early in the week caused feed and Screenings to decline fully 1c. Soon after, owing to small offerings and a fair demand, prices recovered and were firm at the close. The market for malting grades was in good condition. At no time was there any surplus. Within the range of prices as quoted below; within which the demand was fairly good. Sales were made on a very fair supply y, seldom any choice and no really fancy Barley was offered. There was but a small business in to-arrive Barley done. Lots of this kind of Barley are not wanted by maltsters. Such offerings were in very fair request from maltsters; demand was equal to the supply. Trading was over a range of prices as quoted below; within which the demand was fairly good. Sales reported were: On track before; two weeks ago 40,785 bu cleared from there.

SEEDS The trade in Grass Seeds has not shown the gain during the past week regarded as natural for this season That it did not develop more was attributed to continued cold weather and difficulty in some parts the railroads experience in moving property. Timothy especially suffered from lack of orders, and both spot and to-arrive lots were on sale all the time with the result that prices tended downward. Clover and other Grass seeds were inactive because there were no offerings.

CORN—Another active week was witnessed under this head, the market being subject to frequent and sudden fluctuations. The tone was weak and strong by turns with last prices 2@2¼c net lower. The feature of the week was the break in September about the decline. Values were affected more or less at the start by the war news from the far East, and disastrous fire at Baltimore. The Wall Street interests were also a factor in the forces were among the "bear" influences, also the return of much colder weather through the Corn belt. The fire loss at Baltimore was placed at $100,000,000 and this immense loss was quite a factor with speculators. There was selling of Corn here on the apprehension such terrible losses meant heavy purchases of Grain and Provisions would be for all. There were those Monday who thought the Baltimore catastrophe outweighed every consideration. Later the "bears" were quick to take the sharp decline in cash values the poor and wet Corn selling of as much as 6@8c per bu. "Long" Corn came out in large blocks, and stop-loss orders were numerous. May declined on 5-c; July to 60¾c and September to 49¾c, when buying by "bull" leaders stayed the break "Shorts," too, purchased with considerable freedom and the situation turned stronger. Buying July and selling May was a feature on the rally which followed, the spread in values widening. Enforcing the markets were stronger, the foreign demand improved and the grading showed little or no improvement. The strength in Wheat and Provisions were influential for both bulges and before the demand was satisfied May advanced to 55½c, the July to 53¾c and September to 51¾c. May reacted to 52¾c, but rallied again to 54¼c. Receipts the week were 1,138 cars, with 61 per cent No. 1 and No 2 Grades, against 1,781 cars same week in 1903, when 41 per cent were low grades. Routine statistics had but little influence on values, the attitude of the "bull" leaders holders being more of a factor in shaping the course of values. The world's shipments were quite moderate at 3,560,000 bu, against 7,880,000 bu the previous week and 9,976,000 bu a year ago Quantity on ocean passage increased 1,307,000 bu to 11,128,000 bu, compared with 7,800,000 bu 1903. Total now 8,661,000 bu, against 2,810,000 bu 1903, and 11,580 000 bu in 1902 Points gaining 50,000 bu or over were: Philadelphia, 248 000 bu; Boston, 128,000 bu; Galveston, 100, 000 bu; New Orleans, 116,000 bu; Kansas City, 49,000 bu, and Peoria, 66 000 bu. No point lost 50,000 bu in Corn. Local public stocks increased 132,000 bu to 2,187,000 bu, compared with 1,000 bu one year ago The movement this week through the West compared favorably with that of a year ago, but the quality as a rule was inferior. Exports moderate at 1,569,000 bu, compared with 1,800,000 bu last week, 35,080 000 bu, against 23,638 0 0 bu for the same period in 1903 Bookings on the count for forward delivery were noticably larger and shipments from here and the West also showed a gain in one in curtailing the eastward movement. The dryers are still busily engaged in turning out contract Corn and the stock is steadily enlarging. The call for car lots was very small, the most of the offerings of poor quality. No Grade and No. 4 were weak and lower, while choice dry was ready sale at satisfactory prices

OATS—Were active, excited, with a wide range, selling off under heavy offerings by the "bull" leaders and by scattered "longs" who were taking profits on the advance. The tone was weak and when the market constantly stirred up. On the decline the market had support from the largest holders and recoveries were almost as rapid as were the breaks. Receipts were 945 cars, with 41 per cent No "bulls" had millions of bushels to sell. May ranged between 41½@46¼c, with the close at 43c, a net loss of 2¼c. July was given more attention and ranged between 37¾@39¾c, and closed at a loss of 2c. The sample market was depressed 3@4c at the opening and made a partial recovery The demand was improved on the break, the least sale of Oats in any month for a long time. Receipts for the week were 1,138 cars, compared with 747 cars the previous week and 945 cars last year Seaboard clearances were 91 933 bu, compared with 80,000 bu the previous week. Export business was light The quality of the Oats arriving is generally good and the greater portion inspected No 4 White and No. 3 Oats. SEEDS The trade in Grass Seeds has not shown the gain during the past week regarded as natural for this season That it did not develop more was attributed to continued cold weather and difficulty in some parts the railroads experience in moving property. Timothy especially suffered from lack of orders, and both spot and to-arrive lots were on sale all the time with the result that prices tended downward. Clover and other Grass seeds were inactive because there were no offerings

The former was easy and the latter steady. In the Flax market there was an early decline, but a full recovery later and a strong closing. Buckwheat scarce and steady.

Timothy—There was a slow dull market. Continued steady wintery weather had an unfavorable influence. It made orders light. In some quarters of the East it was difficult to place goods owing to the rails being blocked with snow and ice, and some of the roads were behind in the movement of goods. Arrivals were fair here. Country holders also offered quite freely, but prices were easy. These offerings and slow trade caused a weak feeling. There was a 5@10c decline in prices Contract spot or February delivery was nominally given early at $2.85 basis. March nominal at $2.15 early; it was offered later at $3.02½ and $3.00 named as a final quotation. Country Seed, poor to fancy, quoted early at $2.75@3.15, later not over $3.00. Fair to good Alsike sold at $5.50@5.90, and common dark or rough lots were about $3.35@3.50. Receipts and shipments with comparisons were as follows:

Receipts—The past week, lbs.	1,993,050
A week ago	542,991
Two weeks ago	1,000,000
Same time last year	691,010
Shipments—The past week, lbs.	311,730
A week ago	1,000,000
Two weeks ago	164,300
Same time last year	57,300

Flax—Prices early were lower. Cause for what there has been of late. There continued an exceedingly quiet market. Both receipts and shipments were slightly smaller than a week ago Cash business was limited to the sale of only a few cars. Speculation was neglected, and an occasional future delivery trade only was witnessed. An easy feeling prevailed early and a decline of 1c/@2c was witnessed. This was recovered later. The changes in the tone of the market were shaped by what developed in the Northwest. In that quarter the receipts fell off considerably. Late in the week the local market all around was quite strong. Decreased arrivals, firm Grain markets and the beginning of destitution in the far East were influences of strength. Receipts during the week were 61 cars, compared with 79 cars a week ago and 64 cars two weeks ago. Taken out 30,000 bu. the week before 31,850 bu and two weeks ago 31,371 bu. The visible supply there was a small net increase. The change was not great, but stocks remain heavy. Chicago stocks decreased 12,857 bu, with 18,732 bu here, against 6,714 bu a year ago. Minneapolis increased 26,000 bu, reducing 5,001,765 bu, and Minneapolis with 38,087 bu decrease had 1,640,659 bu. For No. 1 there were quoted prices ranging at $1.16@1.11½; closed $1.11½. No 1 Northwestern, No. 1 from the Northwest, opened at $1.18, quoted later at $1.18½ and finally at $1.18. Rejected was quoted at $1.06@1.12, depending on quality. Some choice Northwestern sold at $1.12. For January delivery there were nominal quotations of $1.11 or $1.10 to $1.11½ bid. May sold at $1.14, the market weakened to $1.12 bid and reacted to $1.13 bid and $1.14 asked.

Clover—There was a steady market for Clover. Order business was reported very fair. There were but very meager arrivals. Hardly any consignments appeared on the regular market. Little or no change was reported in the prices quoted from day to day. There was usually quoted a range as follows: Contract spot Seed $10.75@11.00 and March delivery at $11.00. Country lots, common to choice, $8.00@10.50; fancy above; mixed with Buckhorn or other weed Seeds, $8.00@9.00; poor, cleaned out of Timothy, very foul, down to $5.00@6.00; inferior lower; fair to good quality about $9.00@10.00. Movement for the week, with comparisons, was as below:

Receipts the past week, lbs.	69,592
The previous week	185,300
Two weeks ago	140 610
Same time last year	539,000
Shipments the past week, lbs.	361,170
The previous week	321,403
Two weeks ago	321,403
Corresponding week last year	417,100

Other Seeds—There was some Hungarian-to-arrive offered. It was nice Seed, but did not sell. Field not asked for. It was held above quotations and above what buyers were disposed to pay. The market was quotably steady for all lines under this head. No change was noted in values; former prices held to obtain generally all around. The prices quoted are reflected in the table elsewhere shown. Comparative figures representing movement are herewith given:

Receipts the past week, lbs.	408,150
The previous week	342,250
Two weeks ago	240,300
Same time last year	626,500
Shipments the past week, lbs.	85,165
The previous week	95,000
Two weeks ago	405,265
Same time last year	305,100

Malt—The receipts for the week were 6,300 bus, against 5,501 tons for the previous week Shipments for the week were 165 tons, against 101 tons for the previous week. The offerings of choice Timothy were rather small during the past week and a good inquiry existed. A firm feeling prevailed and prices show no particular change. Medium and low grades were in large supply and ruled dull. Prices were weak and lower for the poorer grades. Prairie Hay was dull and dragging throughout the week. The receipts were heavy and the demand was light from all sources. Quality of the arrivals was generally poor and sales were slow. Prices declined about 50c per ton. Quotations at the close ranged as follows: No. 1 Timothy, $9.00@9.50; No. 2 Timothy, $11.00@11.50; No. 2 Timothy, $9.00@10.00; No 3 Timothy, $8.00@9.50; Choice Prairie $10.50@11.00; No. 1 Prairie, $9.00@10.00; No. 2 Prairie, $8.00@8.50; No. 1 Packing Hay, $6.50@7.00; Clover, $8.00@8.50. Inside prices on Prairie Hay are for State and outside are for Kansas, Nebraska and Iowa Hay. Straw ranged at $7.50@8.00 for fair to choice Timothy, $7.00 for Clover and $6.50@7.00 for State, and $5.75@6.00 for Iowa, Kansas and Nebraska Prairie Hay. Rye Straw sold at $6.50@7.00, and Oat Straw at $5.50@7.00.

COOPERAGE—A little more life was manifested in the market for Cooperage during the past week, and the feeling was stronger. Offerings were not very free, and the demand was fair. Local packers accepted fair quantities, and outside orders were moderate. Pork Barrels were in fair request and steady at $1.04@1.17½ for ash, and $1.22½ for oak. Lard Tierces were in moderate demand and prices ranged at $1.47½@1.57½, and closed steady. Iron bound Lard Tierces were quiet and steady at $2.25@2.35 for six hoop, and $1.40@1.42½ for eight hoop.

HOGS—The receipts of Hogs were moderate early in the week and rather liberal during the latter part. The quality was a very good one, rather too many light weights for the general wants of the trade. The market was rather active throughout the week and the undertone was firm, in sympathy with the advance in Provisions and Grain. Packers purchased rather freely, and shippers accepted a fair proportion on orders from the Eastern markets. Prices were advanced 20@30c on the whole range, and the appreciation was fairly well supported to the close. Sales during the week were made at $4.50@5.25 for light, $4.70@5.25 for rough packing, $4.70@5.45 for mixed, and $4.90@5.45 for heavy packing and shipping lots, with the bulk of the trading within the range of $5.05@5.35 for the general average. At the close, about 4,000 Hogs remained in the pens unsold. Pigs were in good supply and in fair demand, and changed hands at $4.05@4.90, according to size and quality. The receipts of Hogs at the other large Western packing points were fair, and the quality not very good.

PACKING—With rather a good supply of Hog during the past week, and prices ruling higher, there was a fairly good business transacted at the packing houses. Fair quantities of Products were manufactured. Mess Pork made in small quantities. Other cuts of Pork made sparingly. Lard produced moderately, and the average yield was fair. Hams and Shoulders were in unfavorable demand. Other cuts of Meats made in fair quantities and chiefly packed by manufacturers. Long Clear Sides and Extra Long Clear Sides made in very small quantities. Short Clear Sides made sparingly. Extra Short Clear Sides made moderately by the larger houses. Short Rib Sides made moderately. Extra and Short Rib Sides made in fair quantities. Rough Sides produced in fair quantities, and chiefly of medium averages. Bellies made in moderate quantities. Backs cut sparingly. Loins cut quite freely. Regular cures were made. Foreign and special cuts of Meats made in very small quantities.

PROVISIONS—The market for Hog Products ruled active and more speculative than usual, and the volume of business was larger than reported for many months. The advance in the Grain markets and the outbreak of war in the East, coupled with a marked reduction in the prices of Hogs, were the stimulating features. Outside orders were quite liberal, with the preference given to the buying side, and local trading was brisk. "Shorts" were quite active, and their outstanding contracts and purchased with considerable freedom. "Longs" realized on moderate quantities at the advance in prices. Packers were credited with being willing to some extent, but not as freely as during the week previous. Speculative offerings were moderately free, and a good general demand prevailed. Investors were credited with fair purchases. Supply of Hogs was fairly liberal at leading points. Returns of the packing of the West for the week exhibited an increase of 50,000 Hogs compared with the corresponding week in 1903. Foreign markets were rather quiet early in the week but somewhat stronger toward the close, with some improvement in prices. Domestic markets were generally firm and rather strong. Products from the interior were rather liberal, as packers were willing to sell moderately in addition to delivering or maturing contracts. Shipments were fair of all kinds and somewhat widely distributed. Exports for the week were rather free, and in the aggregate were larger than for the corresponding week in 1903. Early in the week, the market was fairly active, with higher quotations in prices within narrow ranges, and in a few instances slight reductions were made. Later, there was quite an active demand, while the offerings were not very free. Ammunition was brisk and prices were advanced rapidly on all descriptions. While outside figures were not fully maintained, the market closed with a substantial advance in prices as compared with those of one week ago. Trading was mainly in contracts for May and July, with considerable business in transferring trades also. Stocks on hand are fair and easily controled by capitalists, which feature of the situation makes "shorts" a little cautious in their trading. The demand on shipping account was only fairly active during the past week, and chiefly for dome-tic wants. Exporters accepted only small quantities to meet limited orders. Merchants in home markets purchased moderately, and were slow to follow any rapid rise in prices. Offerings were rather free, but holders generally insisting on higher prices in sympathy with the speculative market. Sales were not very large, and trade was fairly active. A few lots were accepted for mid-summer delivery.

Pork—Quite an active business was transacted in Mess Pork during the past week, and the market ruled strong and excited, and with considerable excitement and rather wide fluctuations in prices. The war news encouraged some buying on outside account, and "shorts" accepted fair quantities. Stocks on hand are not very large, and operators are a little cautious in their trading, as they could be easily controled. Early in the week, the feeling was not very firm, with a little pressure to sell, and prices inclined slightly in favor of buyers. Later, the demand was quite active, and offerings were not very free. There was considerable excitement in the way of offerings, and prices rallied irregularly $1 25@1 30. At the improvement, there was a little pressure to sell, and prices settled back 40@45c on the whole range. At the reaction, there was fair unsolicitanous buying, and prices were advanced 40@45c. This brought a little more property on the market, and prices settled back 45@50c. Again rallied sharply, but not settled, the market closing rather steady. Demand on shipping account was moderate in the way of filling small orders, and offerings were not very large. Prices ruled at $11 70@11 80 for May, with a discount of May figures. Close cash lots were quotable at $11 70@11 85. Other cuts of Pork were called for sparingly, and prices ruled steady. Family Pork prices ruled at 50@75c higher on most descriptions.

Lard—Speculative trading was quite active in Lard during the week just closed, and the undercurrent was strong, with prices ruling higher. Stocks are moderate, and the production is only fair. Foreign advices were more favorable to holders. Offerings were moderately free at times, but were not pressed for sales. Shipping demand was in May and July contracts. Early in the week, the undertone to the market was comparatively easy, with a little pressure to sell, and prices ruled somewhat lower. At the close, the demand was quite generally, while the offerings were moderate. A stronger feeling was manifested, and prices irregularly higher. At the close, the feeling was firm, but toward the close rallied 7½@10c, and the market closed comparatively steady. The July contract showed a decline of 12½@15c. Demand on shipping account was light and there was no particular pressure to sell. A few trades were made at about the discount on May figures, and sales were reported for 5,000 tcs. Sold in fair demand and prices entirely nominal Loose lots were in fair demand, and offerings were somewhat larger. Sales were made at a small discount on May figures. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Feb. 11.]

The marketing of Hogs has been considerably reduced the past week, but shows an increase of 60,000 compared with the corresponding period last year in the packing returns. Total Western packing, 475,000, compared with 530,000 the preceding week and 520,000 two weeks ago. For the corresponding time last year the number was 425,000, and two years ago 590,000. From Nov. 1 the total is 7,455,000, against 7 270,000 a year ago—an increase of 185 000. The quality is generally good, comparing favorably with other seasons for the time of the year, although the weights in some instances appear to be relatively light. Prices have advanced, the average of prominent markets at the close indicating about $5 10 per 100 lbs, compared with $4 90 a week ago, $4 90 two weeks ago, $6 75 a year ago, $5 10 two years ago, $5 30 three years ago, and $4 55 four years ago.

The speculative Provision market made an advance the past week, which was credited to the "outside" element buying. War news from the far East and the strength in the Grain markets were the causes which brought the public into the market. May Pork advanced more than other leading articles, and the close shows a gain of $1 10 per brl at Chicago compared with a week ago. May Lard closed 10c and May Short Rib Sides 35c per 100 lbs higher than a week ago. While the feeling in the trade was naturally firm, the advance was due to speculative buying, and was not occasioned by any material change in general conditions. The export clearances of Product were fair, but show a decrease compared with the preceding week but an increase over corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Feb. 11.]

Weather conditions over the Winter Wheat area have been quite variable during the past week. Several days of mild thawing weather reduced considerably the extent of snow covering. This was followed by severe freezing weather, accompanied by snow only in the more northern portions. Most of Kansas and Missouri, and the southern parts of Illinois, Indiana and Ohio, has lately been bare. Not much complaint regarding the progress of the Wheat crop was reported by correspondents the past week. Generally, in northern portions of the Winter Wheat belt, from New York westward, the prospects are favorable. In the southern portions the condition is variable, some reports favorable, some rather gloomy, on the whole just about fair; top growth small and not encouraging, but root growth generally regarded as healthy. A few report some winter killing, but not extensive enough to be of importance. Kansas again is a little dry, but not seriously.

There was a little more disposition expressed to hold all Grains for still higher prices, farmers seemingly encouraged to do so by war talk and the advancing tendency in prices. East of the Mississippi River supplies of Wheat still held back appear small, also Oats; Corn supplies are relatively more plentiful, but low quality. There is a moderate movement of Corn in Nebraska and Kansas, but very little in Iowa.

There is general uniformity in reports that Live Stock is doing well; it is being marketed closely owing to the high price of Corn; rough feed is generally plentiful, but being consumed rapidly.

Several correspondents from Ohio and Indiana report that a large Corn acreage will be put in this spring, and others that the acreage of all spring crops will be heavy, conditions permitting. It is too early to have any positive opinions on this point, but it is well to keep attention in this direction.

THE WEATHER CONDITIONS.

The weather map shows light snows in Manitoba and in Minnesota. Through the West and Southwest there is no precipitation. Temperatures in the extreme North are lower. In the West and Southwest they are moderate. In the Southwest dry weather continues. No relief in Kansas or Oklahoma.

Weather forecast for 36 hours: Kansas, Illinois, Indiana, Missouri and Iowa, snow flurries; much colder. Nebraska and Minnesota, snow; cold wave. Dakotas, fair; cold wave. Michigan and Wisconsin, snow flurries, colder.

Indications are for unsettled weather with snow flurries. Temperatures will rise east of the Mississippi River, but fall in the Northwest; much colder Sunday. Another cold wave now in the Dakotas.

ITEMS OF GENERAL INTEREST.

Fire destroyed a block of buildings at Lakeland, Fla., Monday, causing a loss of $75 000.

It is reported that the Harriman lines have ordered 35,000 tons of Steel Rails at $28 per ton.

The building of the Brooklyn, N. Y., Chair Company was destroyed by fire, Tuesday. Loss, $60,000.

Now that the Argentine strike is settled an increase in exports of Wheat and Corn is expected.

The American Exchange Bank, Syracuse, N. Y., was closed, Feb. 11, by the bank examiner. It had a paid-up capital of $.00,000 and deposits of $500,000.

The savings department of the Wolfboro, N. H., Loan and Banking Company has been closed. It is alleged the cashier's accounts show a shortage of $57,500.

M. L. Lockwood, one of the largest operators in the Kansas Oil fields, is reported to have failed, with estimated liabilities of $250,000 and assets of $100,0 0.

A London cable says: "A despatch from Chi Fu states that Russian finances they are in a bad way. The Russian bank has been unable to honor its own notes."

A Fort Worth, Texas, message says a commission company who buy Wheat there say they have bought 112 cars in the past three days for millers in Central and Eastern States.

Average weight of Hogs at Kansas City last week was 220 lbs, against 217 lbs the previous week and 219 lbs a year ago. Average at Sioux City last week was 227 lbs, against 230 lbs the previous week and 219 lbs a year ago.

The banking firm of Stephan Luhrman & Son, Bremen, Germany, has failed. The assets are estimated at $250,000 and the liabilities at $1,500,000. Besides Bremen, the principal places affected are New York, London and Paris.

The *Northwestern Miller* says: "As to the new Winter Wheat crop, reports are not so favorable as they were a week ago, and while serious damage is not reported, lack of moisture is apparent in parts of Kansas and Oklahoma, and fly is heard of in a number of places."

Reserve of the Bank of England decreased $4,845,000. Bullion decreased $2,962,285. Proportion of Bank of England reserve to liabilities this week is 48.08 per cent, against 48.02 per cent last week, and compares with an advance from 48⅝ per cent to 49¼ per cent in this week last year.

The second and last call on the syndicate that underwrote the $40,000,000 Lake Shore debenture Bonds is due to-day. The first call amounted to $25,000,000, leaving $15,000,000 unpaid. This $15,000,000 is due to-day, and the whole amount will be paid, making the syndicate fully paid up.

The Census Bureau, Tuesday, issued a report showing the amount of Cotton ginned from the crop grown in 1903 up to and including Jan 16, 1904. There were 30,171 active ginneries in operation. Square bales amounted to 9,038,890; round bales, 717 480 and sea island crop, 72,907; total commercial bales 9,895,277.

A bill has been introduced in the New York Legislature to permit savings banks to invest their money in the mortgage bonds of the Chicago Rock Island and Pacific Railroad. The bill limits the investments, however, to the first mortgage 6 per cent bonds due July 1 1897, and the general mortgage of 4 per cent bonds due July 1, 1988.

Governor Yates, of Illinois, Tuesday issued a proclamation fixing Friday, April 22 as arbor and bird day, and asks that exercises be held in public schools and elsewhere, to show the value of wild birds. The climate of the State is too varied, he says, for any one day to be observed for tree planting, and advises planting trees and vines at the most suitable time.

The insurance companies that have been involved in losses in the Baltimore fire have now figured fairly accurately the amounts which they will be called upon to pay. It is calculated that $10,000,000 will be remitted from Europe to this country by the foreign insurance companies. This will have a depressing effect, doubtless, upon the foreign exchange market.

After a checkered career of less than two years the Equitable National Bank of the City of New York has confessed itself a failure, and the directors decided by a unanimous vote, Tuesday, to ask the Comptroller of the Currency for the appointment of a receiver. The depositors, according to the officials of the institution, will not lose a cent, but the stockholders will lose more than 30 cents on the dollar on an aggregate amount of between $30,000 and $40,000.

A New York message says: "The rate war on Grain among the Western roads threatens to involve all the territory from the Missouri River to the seaboard, and the Burlington and Chicago and Alton will, it is said, Tuesday, reduce Grain rates to all South Missouri River points to South Atlantic ports from 22½c at 15c. This will establish a large differential in favor of the Gulf ports."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Strong, with soft Winter Wheat descriptions in urgent request and the market bare Domestic demand some better for all descriptions and foreign bids are nearer to a working basis

WINTER WHEAT—The market was firm and prices show advances of 2c Demand good and millers wanted choice Wheat. Fancy Wheat taken readily No 2 Red in store quotable at 95¼c@$1 00 and fresh arrivals free on board sold at $1 02½@$1 03, and ranged at 97c@$1 03. No 3 Red fresh receipts sold free on board at 89c@$1 04 and ranged at 95c@$1 03 depending on quality—outside fancy. No 4 Red sold at 79c No 2 Hard local sold at 88c and at the river at 95c and ranged at 9[illegible] No 3 Hard at the river sold at 85@89c and ranged at 85@[illegible] No 4 Hard at the river sold at 79c and ranged at 70@80c

SPRING WHEAT—Ruled firm and prices quotably 1c higher Demand good for choice Wheat No 1 Northern in store sold at 3¼c under May and ranged at 93 [illegible]¾c, and fresh arrivals free on board ranged at 95@[illegible] No 2 Northern at the river sold at 94c No 3 Spring ranged at 85@98c, with sales local at 87@[illegible]c, and at the river at 85@[illegible] No 4 Spring sold local at 85@88c, and at the river at 7[illegible]@89c—outside very choice hard variety

REGULAR WHEAT—There were advances for the day of 1⅝@1¾c, and the market closed pretty well up around the best prices reached The trade was large the volume of business showing improvement over any day for a fortnight Shorts gave most of their attention to July, while investors bought the September Cash sales 16 loads at the seaboard and 15,000 bu No. 3 Spring here at 9[illegible] This market was a nervous one "Shorts" favored the buying side because of the foreign war situation, helped by unconfirmed rumors that one of the leading Governments across the seas was a buyer of Breadstuffs in a sub rosa manner in American markets All of the commission houses were actively engaged on one side or the other The strength in the cash Wheat situation in all the markets was quite a help to the "bulls" No 1 Northern Spring sold at $1 00 at Minneapolis and No. 3 Red Winter and No. 3 White brought $1 0[illegible] at Chicago. One of the features of the day was the strength of September at Chicago and elsewhere, indicating that buyers are purchasing the lowest Wheat on the list The drouth in the Southwest was still a factor and the cash demand in that section was reported as somewhat better Southwestern receipts (St Louis and Kansas City) were larger at 480,000 bu, compared with 213 000 bu one week ago and 130,000 bu one year ago Shipments from those points were 207,000 bu Winnipeg receipts were 74 cars, compared with 96 a year ago Northwestern receipts were larger than last year Minneapolis stocks decreased 150 000 bu in three days Cables were all better and Liverpool reported the undertone as strong, with a scarcity of Wheat on spot The small world's shipments covering by "shorts" and small speculative offerings at Liverpool were also strengthening factors Liverpool gained ⅝d and London was up ⅛@¼d Antwerp ⅝c higher Holiday at Paris Buda Pesth was up 2½c English country markets advanced 6d@1s and Mark Lane Wheat advanced 3d. The decrease of 982 000 bu in the visible supply attracted a great deal of attention It leaves the visible at only 38 218,000 bu, compared with 39,200,000 bu a week ago and 48 970,000 bu a year ago. There was an increase on ocean passage of 2,116,000 bu, making the total now afloat destined for importing countries 32,776,000 bu World's shipments were smaller than looked for at 9,314 000 bu, against 11,552,000 bu the week before and 7,056,000 a year ago The shipments were small from America, India and the Danube Liverpool stocks decreased 108,000 bu for the week. Private and public cables from all the countries on the other side volunteer the opinion that with continued war Breadstuffs are sure to advance to a higher level An Odessa cable says: "Market active and advancing; receipts and stocks are small." A Rosario cable reports holders of Argentine Wheat very firm in their views and not disposed to sell freely unless at higher prices. Local Wheat stocks decreased 41 000 bu and are now 2,862,000 bu, compared with 7,756,000 bu same day a year ago Receipts at Duluth 53 cars and at Minneapolis 417 cars, a total of 470, against 477 cars Saturday, 416 cars a week ago and 446 cars last year. Local receipts included 23 cars Winter, 14 cars Spring and 3 cars mixed, a total of 40 cars, against 27 cars last year. Included in the above was 3 car of contract grade. There were 16 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 50 cars. Withdrawals were 11,400 bu. Receipts at Western points were 948,959 bu, against 769,373 bu last year. At Eastern points 52,094 bu, against 110,288 bu last year Shipments from Western points were 323,241 bu, against 109,352 bu last year, and from Eastern points 17,[illegible] bu, against 81,914 bu last year. Shipments of Flour were 41 618 brls. Exports of Wheat in Flour were equal to 204 568 bu.

Future Deliveries of Regular Wheat—Active trade and prices higher

FEBRUARY—Was entirely nominal and closed at about 94¾c; it was offered 3c under May.

MAY—Sold at 96¼@98c Opened with sales at 96¼c to 96¾c; sold to 96½c to 97½c, to 96½c, to 96¾c, to 96½c, to 97c, to 96¾c, to 97½c to 97¼c to 97¾c, to 97½c, to 98c, to 97¾c, and closed at 97¾c bid

CORN—Advances of ⅝@1½c were made in this cereal The close was strong, yet there were some reactions and declines from the best prices reached "Shorts" gave the May and July the most attention Cash sales were reported 50,000 bu here and 9 boat loads accepted at the seaboard. Commission houses and brokers led the buying, while the selling side was represented largely by the room trading element. As in Wheat, the war news and situation cut some figure And while the undertone was firm trade was of moderate dimensions. Some of the local crowd that was on the selling side early were buyers later The market was a nervous affair, and responded to any pronounced movement in either direction. The visible supply decreased 297,000 bu, leaving the total 7 764 000 bu, compared with 8,061,000 bu a week ago and 10 460 000 bu a year ago Liverpool up ⅜d. Local inspection 658 cars, with only 2 cars contract, 235 cars were switched from private into public houses and 200,000 bu from store. Local receipts were 137 000 bu, and the shipments 341 000 bu World's shipments 2,310,000 bu, compared with 3,[illegible]00,000 bu a week ago and 3,792,000 bu a year ago. Amount on passage decreased 1,166,000 bu for the week Primary receipts were 601,000 bu, compared with 745,000 bu a year ago Clearances were 483 000 bu against 519,000 bu a year ago Car lots in good demand and about 1c higher. No. 2 and No. 2 Yellow closed at 52c. No. 3 closed nominally at 43½@51c No 3 Yellow sold at 45c and closed at 45@51½c

Corn by sample—Demand was good and offerings liberal. Quality shows some improvement Feeling firm and prices were steady to ½c higher for the best grades and about 1c higher for the low grades. Sales on track and free on board: No Grade sold at 30@40c. No 4 at 37@43c. No 3 at 43½@51c No. 3 Yellow at 44½@51½c No 2 Yellow at 54c No 3 White at 44@44c Ears at 47c Billed through No Grade at 36@39c. No 4 at 40@42c No. 3 at 42½@45c. No. 3 Yellow at 45c. No 3 White at 41@50c.

Future Deliveries of No. 2 Corn—Trade only moderate, with gains of ⅝@1½c for the day. The deferred months showed less strength than the nearby

FEBRUARY—Closed at 52½c nominal

MAY—Sold at 55@56⅝c Opened at 55c to 55¼c, sold to 55⅛c to 55⅝c, to 55c to 56c, to 55¾c to 56⅛c to 55¾c to 56⅛c, to 56c, to 56⅝c, to 56¼c, closing at 56⅛@56¼c

JULY—Sold at 52¾@53⅝c Opened at 52⅞c to 53c, sold at 53⅛c to 52¾c to 53½c to 53¼@53⅜c to 53⅝c to 53⅜c, to 53½c, closing at 53⅜@53½c asked

SEPTEMBER—Sold at 51⅝@51¾c to 52⅜c Opened at 51⅞c, sold at 52c to 51⅝@51¾c, to 52¼c, to 52c, to 52⅜c to 52¼c closing at 52⅛@52¼c

OATS—Were active and irregular May advanced ¾c, but reacted and closed the same as Saturday. Distant futures advanced ⅜@⅝c and closed at a net gain of ⅜@⅝c The advance in other Grains, the difficulty in buying early were responsible for the advance The break was led by May and came from heavy selling by leading "longs" War news was also a factor. The visible supply increased 162,000 bu, against 418,000 bu last year Local stocks increased 159 000 bu and are 1,733,000 bu There was 27 cars Standard run into public from private houses Arrivals 400 cars with 295 cars estimated for to morrow Seaboard clearances were 18,500 bu Cash sales were 50,000 bu. Car lots to go to store advanced and were ½@1c higher Standard in store closed at 41⅝@1c as to location No 4 White sold at 4[illegible]c No 3 at 40¼c. No 3 White at 43½@44c. Standard at 44c

Oats by sample were in active request with a liberal supply and prices ½@1c higher. Sales on track and free on board. No 4 White 3[illegible]@41c. No 3 at 39@43c. Future Deliveries of Contract Oats—Were active and averaged higher

FEBRUARY Dull Closed at 41⅝c.

MAY—Active and unsettled Sold at 44@45c. Opened at 44¼c to 44½c, sold to 45c, to 44c, to 44⅛c at the close

JULY Active Sold at 39⅝@40c Opened at 39¾c to 39⅞c, sold to 40c, to 39⅝c to 39¾c at close

SEPTEMBER—Fair trading and sales at 33⅞@[illegible] 34⅛c. Opened at 33⅞c, sold to 34½c to 34¼c at close

RYE—Demand fair offerings light and prices 1c higher. The advance was attributed to the same influences affecting other Grains The receipts were three cars. There were withdrawn 10 bu and three cars. No export clearances from the seaboard. The visible supply increased 34,000 bu and local stock decreased 3,000 bu No. 2 round lots in store quotably at 6[illegible]c and car lots fresh arrivals free on board quotably 55@60c. No. 3 quotably 57@58c and sold at the river at 57c. No. 4 at the river sold at 51c

Future Deliveries of No. 2 Rye—Firm and prices 2c higher February nominally 64c, and March nominally 65c May sold at 66c and that the closing July, 66c bid.

BARLEY—The week started in firm. Demand was good Mixing and malting interests were represented in the buying No large supply of any kind of Barley, in fact the offerings were only fair Screenings sold above any late quotation Barley in some instances brought a small improvement; as a whole at the same time there was no particular advance It was a good selling market for all grades. Eighty-one cars inspected in, but not so many offered Visible supply fell off fairly, but remains a good deal larger than a year ago Local stock not materially changed Screenings remain quotable at 3[illegible]@43c for poor to choice, some sold at the outside, and that was 1c above what has recently been paid Barley, feed or mixing, quotable at 40@42c local, outside for good sweet Malting, low grade about 40@44c; very dirty below; common, 45@47c. Fair was about 48@50c; good, 51@54c; choice 55@58c; fancy possibly above.

SEEDS—An improved market for Timothy, cash and future delivery developed, but all other lines remained without change; ruled very quiet.

Timothy—There was a stronger market. Bids were raised 5@10c for futures and none secured. Sellers scarce and asked above the prices bid. There was a fair quantity of cash Seed offered. This, too was in better request and 5@7½c advance in prices quoted. A number of cars were sold in which cases the prices paid were not obtainable. February delivery, contract grade, was quotable at $3 10 bid For March $3 12½ was bid and $3 15 asked The range for country lots was at $2 2[illegible]@3 10 for poor to fancy; fair to good quotably $2 60@2 75; choice $2 80@2 95, and rough, dark and foul lots about $2 40@2 55.

Flax—Was firm; at the same time very quiet The only change to note in values was in the case of May delivery, for which ½c advance was bid Offerings extremely light and the sale of one car was the extent of the business done Local movement very moderate—11 cars or 9,350 bu receipts and 1 car or 1 033 bu taken out Minneapolis got 30 cars and Duluth 21 cars No change in local stock last week; it remained at 18,722 bu, against 6,214 bu the same time last year No 1 Northwestern or No. 1 from the Northwest sold at $1 18. No 1 was $1 11½ bid Rejected quotably $1 0[illegible]@1 12 as to quality February delivery was $1 11½ bid. May was at $1 13½ bid and $1 14½ asked.

Clover—Some small lots of common to poor quality offered but quantity was of no particular significance. The market was quotably steady to firm for all good to nice attractive Seed and former prices obtainable. Small sales were made at $3 00@8 50. Contract spot and March delivery nominal at $10 75. Country lots, common to choice $8 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00, inferior lower. Main run of such lots as come to market when ordinary to good quotable at $8 00@10 00.

HOG PRODUCTS—A fair trade and rather active market at times with the feeling prevalent stronger. Offerings were moderate, while the demand was more general Outside interest appears to be broadening and orders as a rule favored the buying side. The better tone was attributable chiefly to the war situation and advance in the Grain markets. Prices were higher all around, but settled back slightly toward the close. "Shorts" accepted fair quantities and "longs" and packers were credited with supplying the demand Receipts of Hogs, while liberal were under expectations and prices ruled quite steady Arrivals at the leading Western packing points were estimated at 81,800 compared with 88,500 one year ago Foreign markets quoted stronger and Liverpool Bacon and Hams 1s higher and Lard unchanged. Domestic markets firm Receipts of Product were fair—of Lard and Meats about 32 cars Shipments were more moderate but larger than a year ago, at about 123 cars Exports for the week, compared with the corresponding week in 1903, show an increase of 500 brls Pork and a decrease of 2,114 000 lbs Lard and 1,815 boxes of Meats Shipping demand fair, chiefly on domestic account Sales moderate, and prices inclined to favor sellers

Mess Pork—Trading was fair and the feeling stronger. Offerings were moderate and demand more general, outside interest being more conspicuous Prices were higher the close showing 2[illegible]@27½c advance Opening trades were at 7½@10c advance and sold up 25c. Later receded 1[illegible]c but rallied 10c and closed quite steady Shipping demand very moderate and offerings rather small. Cash lots quotable at $14 77½@14 10.

MAY—Offerings moderate and demand good. Sales were made at $14 80@15 05 Opened at $14 80 to $14 82½c, sold to to $14 97½c, to $14 95, to $15 00, to $14 97½, to $15 05 to $14 97½ to $15 00, to $14 9[illegible], to $15 00 and closed steady.

JULY—Demand improved and offerings moderate Sales were made at $14 75@14 90 Opened at $14 77½, sold to $14 75 to $14 90, to $14 82½, to $14 87½, and closed steady

Lard—Rather a good trade was witnessed in the market for Lard and the feeling manifested was stronger. The demand was good and offerings just fair Market opened 2½@5c higher and advanced 12½c there being considerable profit taking at the advance Later receded about [illegible] and closed steady at [illegible] figures Foreign advices were unchanged Hogs were of better quality than a week ago today [illegible] the average weight seven pounds heavier than the previous week. Inquiry on shipping account was light and the demand moderate Cash lots quotable at about $7 [illegible] Loose lots called for moderately and offerings were only fair Prices were steady at about 7[illegible]c discount on May figures. Leaf Lard in fair request and offerings were moderate Prices were quotably steady at $7 70. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 37½@8 50 for No 1 and $7 [illegible]@7 8[illegible] for No. 2

MAY Demand more general and offerings only fair Sales were made at $7 75@7 90 Opened at $7 87½@7 7[illegible], sold to $7 77½@7 80 to $7 75 to $7 77½ to $7 80 to $7 75, to $7 77½, to $7 75 and closed steady.

JULY Demand fair and offerings moderate Sales were made at $7 82½@7 87½. Opened at $7 82½, sold to $7 87½, to $7 85, to $7 82½ and closed steady

Short Rib Sides—Just a fair trade was reported in the market for Short Rib Sides and the feeling displayed was firm Demand was more general and the offerings moderate The start was [illegible] 7½c higher and advanced irregularly [illegible] At the improvement in prices realizing and profit taking caused a slight reaction but [illegible] was firm around outside figures Shipping demand was light and offerings were moderate Cash lots were quotable at $6 95@7 10, according to weight

MAY Demand better and offerings moderate Sales were made at $7 1[illegible]@7 2[illegible] Opened at $7 10, sold to $7 15 to $7 12½, to $7 15, $7 17½ to $7 15 to $7 17½ to $7 15, to $7 20 to $7 17½, to $7 20 to $7 17½ to $7 17½@7 20 and closed steady.

JULY Offerings were only moderate, and demand very fair Sales were made at $7 2[illegible]@7 3[illegible] and $7 30 7 32½ Opened at $7 25, sold to $7 2[illegible] 7 2½ to $7 2[illegible]@7 25 to $7 30@7 32½, to $7 27½, to $7 30 and closed steady

Other Meats—Only a moderate trade reported in Meats Domestic demand was fair, and export demand was limited Offerings of all kinds were fair, and holders quite firm in their views Green Meats were in small request, with moderate offerings and prices were unchanged. Pickled Meats in moderate demand with only fair offerings, and prices were well maintained Dry Salted Meats in moderate demand and offerings not very large. Prices ruled favored buyers. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows

SEED OATS.

AMES, IOWA, Feb 9, 1904.

To the Editor of the Daily Trade Bulletin:

Several daily and trade journal papers have in the past few weeks given space to the following:

'A Des Moines, Iowa, wire to a Chicago firm says "A careful canvass of the Oat situation reveals the fact that there is going to be a big demand for Seed Oats. Two elevator people here now have orders for twenty-five cars of 1,500 bu each another fifteen cars, and all the others have orders. The Iowa Oats have been tested at the college at Ames and only about 50 per cent will germinate.'"

This last sentence I wish to call attention to. I have charge of the farm crops work at the college and the plant breeding work of the Agronomy Department. I have made no test of last year's Iowa Oats and know of no one on the college campus who has.

The incorrect statement is doing the college and the Oat raising farmers of Iowa a great injustice. For this reason kindly give space to this communication, and also permit me to say that any farmer who has Seed Oats can test them in many different ways to see whether they will grow. One of the simplest is to place a number of Oat kernels between two or three thicknesses of newspaper, 10, 25, 50 or 100 in a fold and duplicating this number several times, place the packets of seeds in a cigar box. Now moisten the seed packets well with water tie the lid down and set in a warm place. By keeping the papers moist, not wet, for a few days, the seeds will sprout readily if vital seeds. After five or six days throw out all seeds having root and stem sprouts, counting them as you throw them away. These are the seeds that have perfect germinaton.

Dividing the number of seeds sprouted or germinated by the total number of seeds used in this test gives the per cent of germination.

Some use moistened sawdust, some wet sand, moist cloths, etc., that which supplies a warm temperature and plenty of moisture will generally make a fair test of the Oats.

Any Oat raiser, by any of these methods suggested, can test his Oats, and I believe the Iowa Oats will be shown to test different from the per cent referred to above.

Respectfully submitted,

W. H. OLIN.

SOUTHERN CALIFORNIA CROPS.

[From the Wall Street Journal, Feb. 3.]

Railroad interests are somewhat disturbed over the unusual weather conditions which have prevailed in Southern California and portions of Texas and New Mexico during the present winter. Some districts report that the aggregate rainfall so far has been less than one inch where the average in other seasons would be six inches or more. Cattle have died for lack of water in some sections and although conditions have not been uniform over a large area they have been such as to suggest rather unpleasant possibilities.

From the railroad standpoint the loss in Live Stock does not count but the factor which gives concern is the extent of possible shortage of water for irrigation purposes. In Southern California irrigation is everything, and so long as the reservoirs and irrigation ditches can be kept full, large crops of Fruits and the other staple products of that region are a matter of course. With a rainfall, however, which in some sections has been hardly one-tenth of the normal, it is a question whether the end of the rainy season, which comes approximately with the beginning of April, will have seen sufficient precipitation to keep the reservoirs full. The elaborate system of dams and ditches will avail little unless there should be sufficient water to keep up their supply. Practical experience has shown that in seasons of light rainfall springs and other sources of water supply have run small.

So far the railroads operating through the affected territory have not suffered from the unusual condition and of course unusually wet weather for the remainder of the rainy season might remove any grounds for alarm.

THE WEATHER CONDITIONS.

The weather map shows very low temperatures in the Northwest and wintry temperatures everywhere. There is no precipitation except a few light snow flurries in the Ohio Valley. The dry weather in the Southwest continues. There is a promise of severe cold weather everywhere.

Indications are for some snow west of the Missouri River, but fair in Mississippi Valley. Temperatures will moderate.

ITEMS OF GENERAL INTEREST.

It is stated officially that no change will be made in the Swift and Company dividend because of the increased amount of capital.

A dispatch from Valparaiso, Chile, says: "The Wheat crops in the Southern provinces are likely to satisfy the most sanguine expectations."

Business failures in the United States and Canada for the past week were 253, against 275 the previous week and 250 for the corresponding week last year.

Iowa Grain Dealers' Association report says that on Feb. 1 the stocks of Oats in dealers' hands in Iowa were 2,000,000 bu less than last year, and the stocks of Corn 700,000 bu less.

A London cable says to the Chicago News Bureau: "The estimated surplus of Wheat in Argentina is being reduced. Conditions mostly favor the growing Corn crop."

Comptroller of Currency, to-day, announced the failure of the First National Bank in Matthews, Ind. National Bank Examiner William D. Fraser has been appointed receiver.

The net earnings of the Chicago and Milwaukee Electric Railroad for the month of January were $8,135 as compared with $5,461 in January 1903. This is a gain of $2,710, or 49 61 per cent.

The Evansville, Ind., Contract Company, Friday, filed a deed of assignment with liabilities amounting to $200,000. The firm has extensive contracts on the Northern Ohio River and at Memphis, Tenn.

Advices received in Chicago, Wednesday, were to the effect that the American Can Company's factory and warehouse in Baltimore were consumed by the fire. These plants were well insured and the loss to the company will be probably less than $100,000.

Judge Kohlsaat, at Chicago, Friday, appointed the Equitable Trust Company receiver of the business and assets of the Model Gold Mining Company, a $900,000 corporation. This action followed the filing of a petition in the United States Circuit Court by a stockholder of Hammond, Ind., alleging "fraudulent mismanagement" of the concern.

The Santa Fe Railroad, Thursday, declared a further reduction of 2c in the rate for Wheat and Corn from country points to the Gulf ports. The Missouri Pacific and Rock Island roads have met the cut. The rates from the territory west of the Mississippi to Gulf ports have been reduced two-thirds since the Grain rate war started three weeks ago.

Heavy rians have again fallen in lower California and the entire Southwestern region that has recently been afflicted with drouth. It may now be said that the drouth in this territory is definitely broken and while a great deal more rain will still be welcome there the fears of disaster to the season's crops, which were at one time very acute, are now sensibly diminished.

The $35,000,000 Cuban loan will be taken by Speyer & Co. of New York. The price to be paid for the bonds is 90½, which is one-half per cent above the minimum rate. The Colonial Trust Company of Boston, Mass., is associated with the handling of the bonds, but the contract is solely in the name of Speyer & Co. The Cuban Government has been assured that the money will be forthcoming in June.

Average cost price of Hogs at Chicago, Saturday, was $5 12, against $4 95 a week ago, and $6 88 a year ago. Average cost price for the week, $5 19, the highest since the third week of last October. Last week's average was 35c above the previous week, $1 60 lower than the corresponding week a year ago, $1 01 lower than two years ago. The average price the corresponding week of 1900 was $4 90, and in 1899, $3 75.

The *Modern Miller* says: "Few complaints have been received concerning the condition of the Winter Wheat crop. Reports from some sections in the Southwestern portion of the Wheat belt are to the effect that there has been ample moisture, and that the crop is doing seasonably well. The complaints received allude only to backward and poor growth of the plant, and it is generally believed that favorable weather in the spring will overcome the backwardness of the crop."

Broomhall cabled the following as its weekly foreign crop summary: United Kingdom Crop prospects are very poor as the result of the almost continuous unfavorable weather since sowing last fall France, Germany and Hungary—The weather the past week has continued unseasonably wet and mild, although actual crop conditions at the present time are fair to good Russia—The condition of Winter Wheat is generally poor. Roumania—Wheat is progressing favorably. The acreage sown last fall is estimated at 4,107,000 acres, against 3,692,000 acres last year, an increase of 415,000 acres India—The crop outlook continues favorable, being unchanged from a week ago.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand only moderate at the recent advances.

WINTER WHEAT—Ruled quiet and easier, prices declining 1@2c from late extreme figures. The receipts continue small and but little fresh Wheat offered, but buyers all around were more timid and inclined to hold off No 2 Red in store nominally 97½c@$1 00 and fresh arrivals ranged at 97c@$1 03. No 3 Red fresh arrivals quotable at 95c@$1 02. No. 2 Hard local sold at 96c and ranged at the river at 90@93c No 3 Hard sold local at 95c and at the river at 90c and the latter ranged at 82@91c. No. 3 White sold at $1 01½.

SPRING WHEAT—Very quiet and prices at the close quotably 1@2c lower. Market weak and buyers less inclined to purchase No 1 Northern in store ranged at 93@95c, and fresh arrivals free on board at 94@98c. No. 3 Spring sold at the river at 92c, and ranged at 85@95c free on board. No 4 Spring sold local at 75c, and at the river at 69@85c, and ranged at 58@85c for poor to choice hard variety.

REGULAR WHEAT—The close showed losses for the day of 1¼@2⅛c. May showing most strength and old July most weakness. The market lacked support up to the very close, and the offerings seemed to increase as the day wore away. While there was no pressure from "bear" interests those on that side made the most of it Considerable Wheat was sold in the way of profit taking. Cash sales were 25 loads at seaboard and 150,000 bu here. The brokers in Wheat were more or less bewildered by the new styles at the opening this morning and the trade was restricted somewhat in consequence, hesitation being shown on all sides. Everyone was anxious to gauge the situation. Prices soon started on a downward course, the market here lacking support and the same state of affairs existed in all the markets of the country. The feature of the morning was the selling of new July by some of the elevator interests. According to a *Broomhall* cable there are continued fears in Liverpool of additional complications in the far East, which has caused Wheat cargoes on passage to become quite strong and the Wheat on spot to present additional strength. English country markets were upheld and Wheat on passage was 3d higher. Liverpool was ½d lower to unchanged. London was ¼@¾d higher. Antwerp was unchanged, while at Paris the market was closed. The snow map shows no protection in Missouri, Kansas, or southward. The line of snow protection is further north this week than it has been, and does not extend further south than Middle Nebraska and Middle Iowa, and in these States not much more than a trace. Liverpool receipts in three days 336,000 bu. of which only 56,000 bu were American. Minneapolis stocks showed a decrease of 250,000 bu thus far in the week. Total stocks of Wheat in all positions at Chicago are now 5,655,000 bu. There are now in regular houses 1,687,894 bu of contract Wheat, a decrease of 39,005 bu being shown for the week; the stocks a week ago were 1,766,949 bu a year ago were 3,646,908 bu. The world's available supply increased 217,000 bu for the week, the decrease East of the Rockies amounting to 583,000 bu, and the increase in Europe and afloat amounting to 800,000 bu While the Northwestern cars were considerably smaller than a year ago those at primary markets were larger Receipts at Kansas City and St Louis 337,000 bu compared with 217,000 bu a week ago and 84,000 bu a year ago. Shipments 253,000 bu. Receipts at Duluth 91 cars and at Minneapolis 204 cars, a total of 295, against 470 cars yesterday, 418 cars a week ago, and 376 cars last year. Local receipts included 37 cars Winter, 13 cars Spring and 4 cars mixed, a total of 54 cars, against 32 cars last year Included in the above was 4 car of contract grade There were 18 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 20 cars Withdrawals were 12,500 bu. Receipts at Western points were 685,703 bu, against 435,005 bu last year. At Eastern points 141,578 bu, against, 82,618 bu last year. Shipments from Western points were 383,826 bu, against 175,659 bu last year, and from Eastern points 180,611 bu, against 58,971 bu last year. Shipments of Flour were 22,576 brls. Exports of Wheat in Flour were equal to 283,203 bu.

Future Deliveries of Regular Wheat—Active trade and market unsettled and irregular. The trading in new and old style in July and later months greatly unsettled the feeling.

FEBRUARY—Entirely nominal—possibly about 93⅝c.

MAY—Sold at 96¼@98c. Opened at 98c to 97¾c: sold to 97½c, to 97¾c, to 97½c, to 97⅞c, to 97⅝c, to 97⅝c, to 96¾c, to 97¼c, to 96¼c to 97⅛c, to 96½c, to 96½@96⅝c, and closed at 96½@96⅝c.

JULY—Old style Sold at 88¼@90½c. Opened with sales at 90½c to 90⅛c; sold to 90⅜c, to 90c, to 90¼c, to 89⅝c, to 90c, to 89⅝c, to 90c to 89⅝c, to 89¾c, to 88⅞c, to 89⅛c, to 88⅝c, to 89⅛c, to 88½c, to 88¾c, to 88¼c, to 88⅜@88½c and closed at 88⅝@88½c.

JULY—New Style—Sold at 87⅝@90½c. Opened with sales at 90½c to 90c: sold to 89¾c, to 90¼c, to 89¼c, to 89¾c to 89c, to 89¼c, to 88¾c, to 89c, to 88½c, to 88⅝c, to 87¾c, to 88¼c, to 88½c, to 87⅞c, and closed at 87⅞c.

SEPTEMBER—Old Style—Sold at 84⅝@86¼c. Opened with sales at 86¼c, to 85⅞c, sold to 85¾c, to 86c, to 85½c, to 86c, to 85⅛c, to 85½c, 84⅝c, to 84¾c, to 84⅝c, and closed at 84⅝c.

SEPTEMBER—New Style—Sold at 83¼@86¼c. Opened with sales at 86¼c, to 85¼c; sold to 85c, to 85¼c, to 84⅝c, to 85c, to 84⅜c, to 84½c, to 84c, to 84⅝c, to 83¼c, to 83⅜c, and closed at 83⅜c.

CORN—Losses of ⅝@1⅜c were made, and the market displayed no great amount of reactionary power Even those who have been rampant "bulls" were rather cautious in their movements. Profits were taken liberally by the sellers. The cash trade was moderate, with sales of 19 loads at the seaboard and 50,000 bushels at Chicago. There was a lack of support in this market, the same conditions existing as regards the demand as existed in Wheat. Some of the houses that have been prominent in the market of late were selling May and buying July, while there were others that were making their trades directly opposite. The world's available supply showed an increase of 217,000 bu for the week, compared with an increase of 1,625,000 bu a year ago Liverpool receipts for three days were 192,000 bu, of which 144,000 bu were American. Total stocks of Grain in Chicago public and private elevators 5,927,000 bu. There are now in Chicago public houses 2,161,111 bu contract Corn, an increase of 57,728 bu having been made for the week. A week ago the total was 2,103,383 bu, and a year ago 2,346,119 bu Receipts were 447,000 bu, and the shipments 446,000 bu. Inspection 528 cars, with 2 cars contract; there were 148 cars and 20,000 bu switched from private to public elevators. Liverpool was unchanged in price. Spot there was ¼d higher. Western receipts were 890,390 bu, compared with 673,170 bu a year ago Car lots were weak and 1@2c lower. No. 2 and No. 2 Yellow closed about 51c. No. 3 at 43½@50c No. 3 Yellow closed at 45@50½c.

Corn by sample—Demand was more moderate and offerings smaller Feeling weaker with low grades unchanged and high grades 1@2c lower. Sales on track and free on board No Grade sold at 35@39c. No. 4 at 40@42c No 3 at 43½@45½c No. 3 Yellow at 45@46c No 3 White at 44½@45¼c. Billed through, No Grade at 31@39c. No 4 at 40@44c. No. 3 at 44c. No. 3 Yellow at 43@48½c No. 3 White at 43c.

Future Deliveries of No. 2 Corn—As in Wheat there was lack of support, and the resting spots show losses of ⅝@1⅜c for the day.

FEBRUARY—Closed at 51¼c nominal.

MAY—Sold at 54⅞c to 56⅜@56½c Opened at 56⅜c to 56⅛c, sold to 56¼c, to 56⅜@56⅛c to 55½c, to 55⅝c, to 55¼c, to 55⅜c, to 55c to 55⅝c, to 55⅜c to 55⅜c, to 55c, to 55¼c, to 54⅞c, closing with latter bid.

JULY—Sold at 52⅝@53⅝c Opened at 53½c to 53⅜c, sold to 53⅝c to 53c, to 53¼c, to 53c, to 53⅜c, to 52⅝c, closed at latter.

SEPTEMBER—Sold at 51⅝@52⅜c Opened at 52c to 52⅜c; sold to 52¼c, to 52c, to 52⅜@52¼c, to 51⅝c, closing at latter.

OATS—Were actively traded in, with an irregular movement of prices. May was bid up ⅛c by the leading "long" interest early, but weakened and declined 1¾c under heavy realizing sales by holders and closed at nearly the bottom at a net loss of 1¼c. July receded ⅝c and closed ½c lower for the day, and September lost ¼c There was no good support to May after the decline started, the market being without the buying of the previous day by "shorts" and commission houses. Statistics were rather "bullish" *Bradstreet's* decreased 382,000 bu. Contract stocks, however, increased 227,000 bu and are 1,650,000 bu. Stocks in all positions increased 16,000 bu are 4,187,000 bu. Shipping business was small and seaboard clearances 7,000 bu. Arrivals were 321 cars with 150 cars estimated for to-morrow There was 25 cars Standard run into public houses. Car lots were slow and ½@1½c lower No 4 White sold at 41c No. 3 White at 42½@43c Standard at 44c. Standard in store closed about 40⅜@40⅞c, as to location.

Oats by sample failed to meet the good demand that characterized yesterday's trading Offerings were smaller, but the slowness of buyers and break in futures caused a decline of ½@1½c and a tame close Sales on track and free on board No Grade at 35c No. 4 White at 36½@43½c No. 3 at 36@39¾c. No. 3 White at 42½@45c Standard at 41@44½c. No 2 at 40@40½c. Billed through No. 4 White at 40c No 3 White at 40½@43¾c Standard at 42½c. At the river No Grade at 30c No. 4 White at 35@41½c. No 3 at 38@38¼c No. 3 White at 38¾@42c Standard at 43c.

Future Deliveries of Contract Oats—Were active and firmer early, but weaker and lower later.

FEBRUARY—Inactive Closed about 40⅜c.

MAY—Active and unsettled. Sold at 42⅝c and at 43⅞@44½c. Opened at 44⅛c to 44¼c; sold to 43⅜@44½c to 42⅝c to 43c, to 42⅞c at close.

JULY—Active Sold at 39¼@39⅞c Opened at 39¾c to 39⅝c sold to 39¼c, and closed there.

SEPTEMBER—Sold at 34@34½c Opened at 34¼c, to 34⅜c sold to 34½c to 34c at close.

RYE—More doing, both in spot and future delivery The feeling was firm and market acted independent of other markets Prices were advanced 1c due to speculative operations There no doubt is some "short" interest in the market and light offerings prevent operators from covering without bidding up There were 11 cars received and 100 bu and two cars were withdrawn from elevators No export clearances from the seaboard. No 2 round lots in store nominally 65c, and car lots fresh arrivals sold at 67@67¼c free on board and to 65c at the river. No 3 fresh arrivals sold at 55@57c free on board and at 55@59c at the river No 4 sold at the river at 55½c.

Future Deliveries of No. 2 Rye—More doing and prices 1c higher February nominally 65c March nominally 66c May sold at 66@67c and closed at 67c. July sold at 64@65½c and closed at 66c sellers and 65½c bid.

BARLEY—Aggregate offerings in the cash market were somewhat smaller. Malting Barley offered came mainly within the grades of common to fair It sold very well and ruled steady Good to high grade or choice malting was very scarce, so much so that such grades were about nominal Demand for feed Barley was fair Steadiness was maintained out for Screenings, at the same time the market was called a little dull, little was done in them A fair business in to-arrive Barley reported and there were said to have been olds put out full up to any recent prices Sixty-one cars were inspected in Screenings very quiet and quotable at 3@14c for poor to choice Barley, feed or mixing, quotable at 40@42c local, outside for good sweet, river billed sold at 39@40c Malting, low grade about 41@44c, very dirty below, common, 45@47c Fair was about 48@50c, good, 51@54c: choice 55@58c, fancy possibly above.

SEEDS—There was increased trading in Timothy and steadiness was maintained. All other Grass Seeds were quiet, not changed, except that Millet sold higher Flax very quiet at a small decline. Feeling stronger for Buckwheat.

Timothy—A good deal of cash Seed was offered, usually common to fair quality; a very little fancy The offerings drew out a very good demand. A very good volume of cash business was done The market developed a steady tone with no essential change in prices. Future delivery Seed also steady. February delivery, contract grade, was again $3 10 bid. First half of March and first five days delivery in March sold at $3 15 The range for country lots was at $2 25@3 25 for poor to fancy, fair to good quotably $2 65@2 70; choice $2 75@2 85, and rough, dark and foul lots about $2 40@2 70.

Flax—There was ½c decline in prices, and a dull, inactive market was experienced. The change was in sympathy with an easier feeling in the Northwest Nothing was done aside from a small sale to arrive. No interest was taken in the market Movement very small. Only 4 cars or 3,400 bu received: none taken out Minneapolis got 24 cars and Duluth 29 cars. No. 1 Northwestern or No. 1 from the Northwest quoted at $1 17½; a sale made to arrive at $1 16½. No. 1 was $1 11 bid. Rejected quotably $1 08@1 11 as to quality. February delivery was $1 11 bid. May offered at $1 13 and no bids.

Clover—Was inactive, the market being without offerings. Steadiness quotable and former prices obtainable Contract spot and March delivery nominal at $10 75. Country lots, common to choice $8 00@10 60; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Inferior lower. Main run of such lots as come to market when ordinary to good quotable at $8 00@10 00.

Other Seeds—Some Millet was offered and sold a shade higher. No other offerings Hungarian, quotable, common and light color to choice, dark $1 50@1 85 Common Millet $1 30@1 30 for poor to fancy. German Millet, $1 00@1 30 Siberian, 75@90c Broom Corn and Early Fortune Millet, 75@90c Mustard. 85c@$1 05. Buckwheat firm; cold weather prolongs milling demand; good milling quotable at $1 2 @1 30.

HOG PRODUCTS—A very fair trade was reported in the market for Hog Products and the feeling developed was somewhat unsettled. The early tone was strong and higher prices ruled, commission houses doing the bulk of the buying. Advance in the Grain markets together with the better prices for Hogs at the Yards started the market higher, the offerings being comparatively small Outside orders again favored the "long" side of the market Realizing and profit-taking followed and prices settled back sharply, and the close was near the inside figures of the day The foreign markets were reported firm and Liverpool quoted Lard 3d higher, Hams 6d better and Bacon unchanged Domestic markets were steady Receipts of Hogs at the leading Western packing points were estimated at 82,800, compared with 53,000 the corresponding day last year Receipts of Products were a little larger—of Lard and Meats about 40 cars and shipments were fair—of Lard and Meats about 133 cars The shipping demand was reported moderate and chiefly on domestic account Sales were not very large and prices were without important change.

Mess Pork—A fair speculative business was transacted in the market for Mess Pork and prices were somewhat irregular Commission houses accepted fair amounts early, while the offerings were small and prices advanced 20c At the improvement in prices holders with profits sold and prices reacted 27½@30c Toward the close the tone was easy, final figures showing a loss of 25@27½c Shipping demand very moderate and offerings rather light Cash lots quotable at $14 5 @14 62½.

MAY—Good demand and larger offerings Sales were made at $14 70@15 20 Opened at $15 02½ to $15 10, sold to $15 12½, to $15 10 to $15 20, to $15 15, to $15 20 to $15 07½ to $15 10, to $15 00, to $15 10, to $15 05, to $15 07½, to $14 97½, to $15 00, to $14 70, to $14 72½, and closed steady.

JULY—Offerings moderate and demand fair Sales were made at $14 65@15 02½. Opened at $14 90 to $14 95, sold to $14 97½, to $14 95 to $15 02½, off to $14 65, and closed with sellers at $14 65.

Lard—Trading was very fair in the market for Lard, and the volume about the same as of late. Feeling manifested at the same time was somewhat unsettled Early sentiment was moderately "bullish" and under a fair miscellaneous demand prices were advanced 5c Offerings were small, but later increased coming mainly from "longs" and the price declined 10c Toward the close there was more pressure to sell and prices declined another 10c, and closed around inside figures of day Inquiry on shipping account was light and offerings moderate Cash lots quotable at about $7 40@7 42½. Loose lots called for moderately and offerings were only fair Prices were steady to about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate Prices were quotably steady at $7 00. Neutral in only moderate demand, with fair offerings Prices quotably steady at $8 37½@8 50 for No. 1 and $7 75@7 87½ for No. 2.

MAY Demand fair and offerings rather more liberal Sales were made at $7 60@7 80 Opened at $7 77½ to $7 80, sold to $7 77½, to $7 80, to $7 70, to $7 72½ to $7 67½ to $7 70, to $7 60, to $7 60@7 62½, and closed steady.

JULY Offerings freer and demand moderate. Sales were made at $7 70@7 87½. Opened at $7 87½, sold to $7 85, to $7 87½ to $7 75, to $7 77½, to $7 75, to $7 77½ to $7 70 and closed steady.

SEPTEMBER—Sold at $7 82½.

Short Rib Sides—Rather a good trade was witnessed in the market for Short Rib Sides and the feeling displayed was very much mixed Demand more general, particularly at the start and prices were advanced 7½@10c Realizing and profit taking caused a reaction of 17½@20c and closed rather easy at inside figures Shipping demand was light and offerings were moderate Cash lots were quotable at $6 75@7 00 according to weight.

MAY—Demand fair and offerings quite liberal Sales were made at $7 07½@7 27½ Opened at $7 20 to $7 25, sold to $7 22½ to $7 27½, to $7 22½, to $7 27½, to $7 17½@7 20 to $7 20, to $7 17½, to $7 20, to $7 07½, to $7 10, and closed steady.

JULY—In fair request with offerings larger Sales were made at $7 20@7 37½. Opened at $7 35 to $7 37½, sold to $7 35 to $7 37½, to $7 30, to $7 32½ to $7 20, and closed steady.

Other Meats—Only a small trade reported in Meats Domestic demand was fair, and export demand was limited Offerings of all kinds were fair, and holders rather firm in their views Green Meats were in small request with moderate offerings and prices were unchanged. Pickled Meats in moderate demand with only fair offerings, and prices were well maintained. Dry Salted Meats in moderate demand and offerings not very large Prices ruled favored buyers. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

GREEN Hams, av 10@12 lbs. 9¼@9¾c; lbs. 12@14 9½@9¾c, 14@16 lbs 9½@9¾c, 18@20 lbs. 9⅛@9¼c; Skinned Hams, 10½@10¾c, Shoulders, 6⅛@6⅜c; Picnic Hams, 6¼@6½c, Bellies, 8¾@10c. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Feb. 2.]

United Kingdom The last week of January was more or less wet, bringing up the rainfall for the month to above the average, and the land is now again so thoroughly sodden that plowing is impossible, except on old grass lands. The last chance of any substantial addition to the small area of Wheat already seeded in the United Kingdom is now going or gone, for although a little Spring Wheat may be put in, this crop is always unimportant now. Should the weather turn fine now and keep fine for a month or six weeks, there would doubtless be plenty of time to get in the spring crops, but the outlook at present is far from being hopeful, and it can be taken for granted that farmers will seize every opportunity to push on with the seeding of their usual crops without bothering very much about Wheat. There is every chance that the British Wheat acreage this season will be the smallest on record, and what is more the present condition is not satisfactory, for there are complaints that autumn sown fields have not a strong plant, while the growth of weeds is abnormal.

Russia—There is no change to note in the crop situation. Odessa reports business slow, but on the whole there appears to be a fair amount of trade passing. Shipments kept liberal for the time of year and as the ports receive less than they send away, stocks are still decreasing.

Roumania—The weather recently has been fairly seasonable, and crop reports can be described as satisfactory. The shipping movement is liberal

Austria-Hungary—The young crops are sufficiently protected by a cover of snow; the weather, however, is not severe.

Argentina—Favorable weather for the Corn crop and for threshing Wheat is now being experienced. The strike still hinders shipments and makes sellers very cautious—the pressure of offers, which was being felt a week ago, is now quite gone In spite of the strike some 2,600,000 bu of Wheat were shipped last week, besides Flax Seed and Corn There are no indications that the crop is anything but a good one; indeed, we hear that shippers have a difficulty in finding sufficient to fill contracts calling for a weight of 62 lbs per bu and are trying to induce buyers to pay a little more for a higher weight.

India—The crop is still making satisfactory progress. Offerings of new crop are, however, perhaps not quite so much to the fore as they were Shipments are naturally running rather light now, but the quantities must be considered very fair for the time of year.

Australia—Mail advices continue to report large yields, notwithstanding losses from various causes. The total quantity shipped last week was 1,424,000 bu, which is a big quantity, being a trifle larger than the biggest weekly shipment reported in 1901.

France The weather is still unseasonably mild and wet, and although the crops are generally regarded as showing satisfactory condition, yet it is acknowledged that the plant is forward and very liable to be damaged should there come a spell of bad weather One of our correspondents states that the present weather is injuring the crop. Farmers continue to offer sparingly on country markets and hold prices firmly In some quarters the view is held that prices will continue firm because the crop was over-estimated, the same as happened in the season previous.

Germany—The weather last week was milder, but snow fell in some parts and crop conditions generally are regarded as satisfactory. Our reports contain mention of some buying induced by talk that interior reserves of Wheat are not so large as had been expected.

Chili—One or two vessels have been fixed for new crop loading, so it looks as if there might be a little shipped after all.

North Africa—The weather recently has been less stormy, which should suit the new crops better.

THE WEATHER CONDITIONS.

Cold without any snow is the general weather condition There is no precipitation except a few light snows in Manitoba. There is no relief to the drouth situation in the Southwest.

It is under zero all over Iowa and only 8 above at Dodge City, Kan.

Indications are for a general rise in temperatures and light snow flurries

ITEMS OF GENERAL INTEREST.

The Town Hall of Meriden, Conn., was destroyed by fire Sunday. Loss, $130,000.

New York has 1,038,000 bu Wheat, of which 100,000 bu is No. 2 Hard, which is owned by mills.

The Oregon Hop market is reported dull with few sales, and if business remains quiet, some easiness is looked for. The price remains 28½c, the top figure of the season.

The Illinois Steel Company has received an order from the 'Frisco system for more than 20,00 tons of steel rails. The contract is said to be for early delivery, and is said to be at $28 00

Paris stocks of Breadstuffs Feb. 1 comprised 280,000 bu Wheat and 28,000 sacks Flour, equalling together 461,000 bu Wheat, compared with 461,000 bu Jan. 1, and 418,000 bu Feb 1, 1903

Quaker Oats directors, Wednesday, declared the usual quarterly dividend of 1½ per cent on the preferred stock, payable Feb. 29 to stockholders of record Feb. 20. Transfer books close Feb. 20 and reopen March 1.

As the result of a ten days' run the Merchants and Farmers' Bank of Dunn, N C., a state institution Wednesday closed its doors. The capital is $22,000, assets, $115,000 Depositors probably will be paid in full.

The Alton Railroad has agreed with the transportation committee of the Chicago Board of Trade to abolish those switching charges on that line which have always been a cause of more or less irritation to the trade

A Pittsburg dispatch says it is reported that bar Iron will be advanced to-day $2 00 per ton, and that the United States Steel Corporation will buy 300,000 tons of pig Iron this week, and that pig Iron will be advanced $1 00 per ton.

A Rosario cable says: "Holders of Argentine Wheat very firm in their views and not disposed to sell freely except at advances." An Odessa cable says "Strong feeling all around. Wheat stocks small Receipts small Market strong, active and advancing."

The exports of domestic products from the United States in January are reported by the bureau of statistics at $84,081,501, as compared with $82,471,571 in January, 1903, an increase of $1,609,930. From July 1 to Jan. 31 they were $542,713,880, against $484,072,248, an increase of $58,641,632.

The Illinois Auditor of Public Accounts, Wednesday, issued a permit to organize the Farmers' State Bank of Lincoln, at Lincoln, Logan County, Ill., capital stock, $50,000. A permit also was issued to organize the Farmers' State Bank of Rapatee, Knox County, Ill.; capital stock, $25,000.

East-bound rail shipments from Chicago and Chicago junction points compare as follows:

The Wabash Railroad Company, Monday, filed with the recorder of deeds at St. Louis a mortgage to cover a $10,000,000 issue of bonds for the new World's Fair improvements and terminals. The mortgage is in favor of the Bowling Green Trust Company and others, trustees for the bondholders to protect first lien fifty-year 4 per cent terminal Gold bonds, and covers property terminals, franchises, etc., of the company.

Nearly $1,250,000 has been paid to retired employes of the Pennsylvania Railroad since the pension department was organized four years ago. Statistics just compiled by the department show the annual distribution as follows: 1903 $359,374; 1902, $326,403; 1901, $292,291; 1900, $244,019. These expenditures do not include the cost of the department's operaton, which is paid by the company.

The first change in the price of Crude Oil for two months came Friday, when a general reduction of 5c per barrel was made, White House Ky., alone remaining unaffected. Daily shipments continue to exceed runs from wells and the reason for a reduction is not apparent. Quotations now are: Tiona, $1 85; Pennsylvania, $1 80; New Castle, $1 67; Corning, $1 60; North Lima, $1 31; South Lima and Indiana, $1 26.

The financial difficulties of the Chicago and South Shore Railway Company, operating an interurban line between La Porte and Michigan City, Ind., precipitated by a receivership suit and proceedings to foreclose a $300,000 mortgage commenced by the Royal Trust Company of Chicago in the Federal Court, have been adjusted, and the road will be operated by a committee of the bondholders, which will settle outstanding claims, improve the line, and continue its management. The present management will retire.

During the month of January the total inspections of Wheat at Winnipeg were 1,929 cars, divided as follows: No. 1 Hard, 6 cars; No. 1 Northern, 96; No. 2 Northern, 294, No. 3 Northern, 605; No. 4, 301; feed, 305; No. 1 rejected, 31; No. 2 rejected, 45; No Grade, 51, rejected, 4; feed, 2. During the same period there were inspected 118 cars of Oats, 18 of Barley, and 54 of Flax, making a total for the month of all Grains of 2,124 cars Last year the January total was 4,009 cars, of which 3,645 were Wheat, 269 Oats, 44 Barley, 50 Flax and 1 of Speltz.

The American Hide and Leather Company is said to have a supply of low-priced Hides sufficient to last it between sixty and ninety days. This fact, combined with an increasingly strong Leather market, has materially improved its finances and reduced its borrowings to the minimum. No hope is held out, however, for dividends for the preferred stock, of which there is $12,548,300 outstanding, and upon which four years' dividends at 7 per cent per annum have accumulated, or a total of 28 per cent.

The Chicago News Bureau says: "In spite of the denials of the president and other officials of the Republic Iron and Steel Company, it is said the proposition to consolidate the Tennessee Coal and Iron, Sloss-Sheffield and Republic companies is being carried out in a practical manner. The plants have been examined, it is said, and the experts who did the work are now engaged in fixing the value of the different properties. The basis of consolidation will depend upon this valuation, it is stated, and it appears to be the only method by which the Southern pig-Iron situation can be controlled."

The *Crop Reporter* for February says: "Correspondents will be requested to report how Winter Wheat and winter Rye have survived the vicissitudes of winter weather, and the condition of these crops April 1 is to be reported with somewhat more particularity than is customary The report for April will state also how Live Stock has fared during the winter and how many Horses, Cattle, Sheep and Swine have died from disease or exposure, and what the condition of the survivors is in health and flesh The more prevalent Live Stock diseases also will be specified."

In its compilations of the pig Iron output for January the *Iron Age* shows that the Steel plants of the country have resumed work on a very considerable scale During January the production of Pig Iron was 965,766 tons, compared with 892,000 tons in December, 1,078,628 tons in November and 1,462,193 tons in October. On Feb. 1 there were 188 furnaces in blast, compared with 153 in blast on Jan. 1, the improvement coming practically altogether from the Steel corporation, which in January blew in 30 furnaces The total furnace stocks on Feb 1 were 680,911 tons, compared with 88,616 tons on Jan. 1, and 663,151 tons on Dec. 1.

The *Mark Lane Express* of Feb. 1 says: "We hear of some regular Spring Wheat being bought for seed, and it may be that some few thousand acres will be so sown But there is now no substantial chance of the area under Wheat in 1904 being other than the smallest since records have been kept The autumn sown Grain is not at all strong, and the growth of weeds is abnormal. Some fields of autumn-sown Barley and Oats look decidedly more healthy than the Wheat of a like sowing, but Rye has evidently been a fellow sufferer with the chief of the cereals from the weather of the last three months."

The stock of Wheat in London has rather decreased during January, and on Feb 1 was about 1,040,000 bu, against 1,304,000 bu on Jan 1, and 520,000 bu on Feb 1 last year. The aggregate Wheat stocks in the nine ports of London, Liverpool, Manchester, Fleetwood, Hull, Bristol, Gloucester, Newcastle, and Glasgow are 9,016,000 bu, against 10,016,000 on Jan. 1 and 6,240,000 bu on Feb. 1 last year. The total stocks of Wheat and Flour in all the ports of the United Kingdom, making full allowance for the non-returning ports, are, therefore, about 18,000,000 bu, against 19,600,000 bu on Jan. 1, 12,400,000 bu on Feb. 1 last year, and 16,000,000 bu in 1902.

A Chicago Hog buyer says there has been a wonderful improvement in the quality during the last two or three days, with the proportion of heavy weights much larger, which is accounted for by the fact that shippers have been able to pay $5 00 in the country He is of the opinion that as long as prices warrant shippers in paying $5 00 at home receipts will continue liberal and the quality good, as farmers are willing to dispose of their good Hogs at that figure; otherwise they sell off lightweights and the half-fat ones. He says there are plenty of Hogs in the country, but farmers are "bullish" on the future market, many of them expecting prices to go to $6 00 on the open market.

An official of the Otis Elevator Company says business of the past year has been gratifying. Earnings have been satisfactory, regardless of the drop in Iron and Steel materials which constitute the basis of the company's business. "There was not so much new building during 1903," he said, "but a great many old buildings were fitted with modern elevators, and that character of business served to make up any deficiency in new work. Much new work is planned for this year, and, besides, there will be a big field for orders in Baltimore. The foreign business is large and has been for some time We are counting on a big volume of trade in the cities of Continental Europe this year."

A dispatch from Kaukauna, Wis., says: "The biggest deal which has taken place here for many years is that between the litigating parties concerning the water power whereby the president of the Green Bay and Mississippi Canal Company becomes the owner of the undivided half interest of Joseph Vilas, Sr., in the Kaukauna Water Power Company and the whole of the Badger Paper Company's properties, including the Brokaw Pulp Company, on the water power canal. The deal involves stock to the total of $23,000,000. The payments have been made, entirely closing the transaction. This does away forever with any further hindrance to the future of Kaukauna, as the whole of the power of the Fox River here will at once be improved."

The *Times of Argentina* says: "This market has been extremely dull for spot Grain, buyers restricting their purchases to what they can conveniently ship by means of the new federation of free laborers. The sales reported for forward delivery aggregate: Wheat, 50,000 tons; Corn, 10,000 tons; Flax Seed, 20,000 tons. Corn is slightly weaker. Wheat has also experienced a slight fall, while Flax Seed is decidedly lower and still tends to a further fall. It is taking place precisely what we foretold when the probable yield of the crop was announced. Argentina cannot produce three-fourths of the world's requirements for Flax Seed without bringing about a fall in prices. Within a few months that fall has been 30 per cent, and the percentage threatens to increase."

The annual report of the General Chemical Company, recently published, contained no allowance in the balance sheet for accrued dividends, which in the 1902 balance sheet figured for $141,240, this being the amount of one quarterly dividend on the preferred stock (the quarterly payments now amounting to $156,000, owing to an increase in the amount of preferred stock outstanding) It seems that the absence of any allowance for accrued dividends in the current balance sheet is due to the fact that a check for the quarterly dividend due in January was drawn on Dec. 30, payable to the trustee in charge of the distribution of dividends, whereas a year ago this payment was not made until January. Had the company carried this year's January dividend on the preferred stock in its liabilities the cash account would, it was stated, have been correspondingly larger than that actually shown.

The annual report of the National Buiscuit Company, made public Thursday, while not quite as good as those of the two previous years in earnings on stock, was in many other respects the best ever presented by the company. In spite of labor troubles and business depression, gross sales for the twelve months ended Jan. 31, 1904, increased $310,189, and net earnings applicable to stock increased $20,177. Owing to the fact that $500,000 of new preferred stock was put out during the year, preferred dividends increased $47,054. The balance applicable to the common stock was consequently $26,877 less than the previous year, being $1,981,950, as compared with $2,008,827. This figures out 6.78 per cent on the $29,234,000 of common stock, as compared with 6.8 per cent in 1902 and practically the same in 1901. The per cent of profit to sales was 9.15 per cent, as compared with 9.17 in 1902 and 9.50 in 1901

The Chicago Union Traction receivers have borrowed $50,000 to pay the February interest on the following underlying bonds of the Chicago Consolidated Traction system: On $868,000 North Chicago Electric Railway first mortgage 6s ($688,000 guaranteed by the North Chicago Street Railroad and $180,000 guaranteed by West Chicago), $1,097,000 Chicago Electric Transit first mortgage 6s ($255,000 guaranteed by North Chicago and $842,000 by West Chicago), $130,000 Evanston Electric 6s (guaranteed by North Chicago). The receivers set forth that the Chicago Consolidated Traction Company, which by the consolidation assumed this underlying interest, has not more than $12,850 on hand to meet the obligations, and "that the cash receipts obtained by them as receivers of the Chicago Union Traction Company have not been sufficient to accumulate a fund with which to pay the interest." Hence the necessity of borrowing It has been known that the Union company had to pay the interest on the Consolidated 4½s, which it guarantees, but it was supposed the Consolidated company was able to take care of the interest on the underlying bonds.

The *Financier* this week says: "The notable features of the official statement of the New York associated banks were the new high record for loans, though the increase in this item, compared with the previous week, was small, and a loss in cash, whereas the estimates, which were based upon the traceable movements of money during the week, indicated a gain in this item. The specie fell off $319,400, and the legal tenders decreased $1,343,900, making the total loss of cash $1,663,300; the estimated gain was $2,039,700. The discrepancy may be accounted for by the fact that the estimates included the five days ended on Wednesday, while the bank statement was made up from transactions during five days ended with Thursday. On that day the banks are reported to have sent more or less money to Baltimore, to facilitate the resumption of active business by the institutions in that city, and this outflow may have contributed to the loss of cash above noted. The daily average of bank clearings for the five days was $214,000,000, or $6,000,000 greater than in the week ended Feb. 6; the clearings reported on Saturday morning, reflecting Thursday's business, were $241,158,147."

PRESENT RULES FOR CONTRACT GRAIN.

The following is the present rule for the future delivery of contract Grain on the Chicago Board of Trade.

On contracts for Grain or Flax Seed for future delivery, the tender of a higher grade of the same kind of Grain or Flax Seed than the one contracted for shall be deemed sufficient. All contracts made for Wheat hereafter, unless otherwise specified, shall be understood as for "contract Wheat," and on such contracts a tender of No. 1 Red Winter Wheat, No 2 Red Winter Wheat, No. 1 Northern Spring Wheat, No. 1 Hard Winter Wheat, or No. 2 Hard Winter Wheat, in such proportions as may be convenient to the seller, subject, however, to the provisions of Section 5 of Rule XXI, shall be deemed a valid tender; provided, however, that on all No. 1 Hard Winter Wheat and No 2 Hard Winter Wheat delivered on such contracts BEFORE July 1, 1904, five cents per bushel shall be deducted, and delivered ON AND AFTER July 1, 1904, two cents per bushel shall be deducted.

The former rule applies to contracts in Wheat MADE on or previous to February 15, and the latter to contracts MADE on February 16 and later.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Documentary Sterling steady at 482¼.

Chicago Bank Clearings to-day, $26,875,650.

Temperature in Chicago at 7 A. M. to-day was 4° above.

Consols closed ⅛ lower at 86 13-16 money and 86⅞ account.

Rain in Southern part of Buenos Ayres; cloudy; light wind. Thermometer 63°.

The has been an advance of about $2 per ton in Steel bars within the past two weeks

Estimated receipts for to-morrow are: Wheat, 25 cars; Corn. 230 cars; Oats. 110 cars; Hogs, 36,000.

Ten packers purchased 27,300 Hogs to-day; shippers, 6,000; left over, 12,000. Market closed weak at the decline.

Reported that 300,000 bu Wheat, 560,000 bu Corn and 150,000 bu Oats were taken at the seaboard to-day for export.

Grain rates at and East of Buffalo have been reduced on lake and rail shipments to 3c per bu on Wheat and 2½c on Corn

Average cost price of Hogs at Chicago, Tuesday, was $5 10, against $5 11 Monday, $5 15 a week ago and $7 15 a year ago. Average the first two days of this week, $5 13, against $5 10 a week ago and $7 08 a year ago.

Local Securities were slow and prices unsettled. Can preferred received the most attention and broke ⅝, only to react. Quaker Oats made a gain of 1¼. A feature was an increased trade in Bonds at good prices.

Bolton, De Ruyter & Co., of San Francisco, who recently failed, have settled. They propose to pay 50c cash, 25 per cent in thirty days, and 25 per cent inside of six months, without interest. Creditors have accepted the offer.

The Portland *Commercial Review* says Wheat trade is quiet, stocks on hand are lower than for a number of years. Stocks of Flour in China and Japan are large, and will have to be decreased before any renewed activity may occur.

In the New York Cotton market the leading "bull" interest was a heavy buyer. Liverpool advanced and sent large buying orders. Receipts were small and the "shorts" were scared into covering. A higher average was made and closing sales were at 24@53 points advance.

Broomhall cabled: "Wheat at Liverpool opened lower on the decline in America. Offerings were light. A firm tone developed by noon. Corn opened lower in sympathy with Wheat, but outside speculative buying and a good spot demand caused a reaction. Also reports rain in Southern part of Buenos Ayres."

A correction in *Bradstreet's* weekly statement of the world's available supplies. The Wheat stocks east of the Rockies decreased 1,583,000 bu, not 583,000 bu, as reported yesterday. Europe's stocks increased 800,000 bu, the same as the figures published yesterday, and the world's stock decreased 783,000 bu, instead of 217,000 bu increase.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904. bu.		1903 bu.	
Wheat east of Rockies	Dec.	1,583,000	Dec.	391,000
Europe and afloat	Inc.	800,000	Inc.	700,000
Total	Dec.	783,000	Inc	309,000
Corn	Dec.	161,000	Inc.	1,625,000
Oats	Dec	382,000	Inc	469,000

In the New York Stock market there was uneasiness, due to the rate troubles East and West, the war news and loss of money by New York banks. Support was not of the character required, and a lower range was established. Railway shares lost ⅜ to 1 point, Tractions 1@1½, Industrials ¼@1¼ and Consolidated Gas 2 points. Money 1¾ per cent.

A Winnipeg, Man., dispatch says: "The Chicago, Minneapolis, Duluth and St. Louis markets were not posted in the Grain Exchange, Tuesday. This is the first time this has occurred except on Sundays and holidays since the board room has been in operation. It is understood it is due to the fact that local Grain men are anxious to encourage the local market and do away with trading in American Wheat as much as possible."

REVIEW OF TO-DAY'S MARKETS.

FLOUR.—Higher, the best Hard Spring Wheat patents being marked up 10c. Soft Winter Wheat Flours are scarce and the demand for them is urgent with prices advancing almost daily. The other Winter Flours are firm and in demand. Business is mainly on domestic account.

WINTER WHEAT.—Very quiet. Really not enough doing to make a market. Receipts small and for fresh arrivals of choice Wheat there is good sale. The feeling was easier early and prices were ½@1c lower, but closed up firmer and decline recovered. No. 2 Red in store ranged at 95c @$1 10 and fresh arrivals during the session ruled at 95c@$1 03. No. 3 Red fresh arrivals quotable at 95c@$1 02. No. 2 Hard local sold at 96¼c and quotable at the river at 88@92c. No 3 Hard at the river ranged at 76@91c.

SPRING WHEAT.—Ruled weak early and prices about 1c lower, but ruled stronger just before the close. Small receipts prevented larger trading. No 1 Northern in store ranged at 93@95c, and fresh arrivals free on board at 96@98c. No 2 Spring sold at the river at 95c. No 3 Spring quotable at 85@96c for poor to choice hard variety. No 4 sold local at 63c and at the river at 78@80c, and ranged at 58@85c for poor to choice.

REGULAR WHEAT.—Advances were shown of 1⅛@1⅜c for the day. The market was a strong affair, and at the same time great nervousness was displayed. Any pronounced buying or selling was responded to quickly, the average room trader as well as the conservative outsider not caring to take any decided stand on either the "short" or the "long" side. There was more doing in cash, the seaboard reporting 20 loads to go abroad, and the sales at Chicago were said to be moderate. Rumors of hostilities in the Balkans overshadowed all else in the Wheat market this morning and veered the whole local situation from that of a dull "bear" market into an active "bull" affair. There was a wild story in circulation that the British minister at St. Petersburg had been handed his passports. Baltimore advices were that foreigners were taking everything in the shape of Wheat at the seaboard, and New York wired that there were bids there from most directions abroad. Another "bull" help was the correction in the world's available supply of Breadstuffs to a decrease of 783,000 bu, compared with the incorrect figures of yesterday, which showed an increase of 217,000 bu. The Wheat stocks at Minneapolis continue to decrease—350,000 bu in five days. Cables failed to respond to the sharp losses in Wheat in the American markets yesterday. On the other hand, Paris was up 1⅛@1¾c, while Antwerp was unchanged. London was unchanged to ⅜d higher for nearby to the more deferred months, while the very far-away futures were off ⅛d. Liverpool was unchanged to ⅛d lower. A special cable from Liverpool said that the offerings of futures in that market were small, and that a firm tone had developed in consequence. Russian prices advanced 10c since war broke out. Southwestern receipts (St. Louis and Kansas City) were 241,000 bu, compared with 184,000 bu a week ago and 47,000 bu a year ago. Shipments from both points were 289,000 bu. Northwestern and primary receipts were larger than a year ago. "Long" May came out in moderate amounts. One of the features of the day was the demand from investors, orders coming from all sections. Advances made in Flour and the urgent demand for the Winter Wheat varieties was a help in Winter Wheat markets, and was reflected at Chicago. Receipts at Duluth 62 cars and at Minneapolis 206 cars, a total of 268, against 295 cars yesterday, 227 cars a week ago, and 257 cars last year. Local receipts included 26 cars Winter, 4 cars Spring and 1 car mixed, a total of 31 cars, against 19 cars last year. Included in the above was 1 car of contract grade. There were 2 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 25 cars. Withdrawals were 7,000 bu. Receipts at Western points were 575,787 bu, against 406,947 bu last year. At Eastern points 12,167 bu, against 107,603 bu last year. Shipments from Western points were 331,702 bu, against 137,098 bu last year, and from Eastern points 56,000 bu, against 165,234 bu last year. Shipments of Flour were 9,372 brls. Exports of Wheat in Flour were equal to 68,174 bu.

Future Deliveries of Regular Wheat—Active trade and closing higher.

FEBRUARY.—Nothing doing—quotably about 94⅝c at the close but entirely nominal.

MAY.—Sold at 96@98c. Opened with sales at 96⅝c to 96½c, sold to 96¼c, to 96⅝@96¾c to 96c, to 96⅞c, to 96½c, to 98c, to 97⅜c, to 98c, to 97½c, to 98c, to 97¾c, to 97⅞c, and closed at 97⅞c asked.

JULY—Old Style. Sold at 87⅝@90c. Opened at 88⅛c to 88⅝c, sold to 88c, to 88½@88⅝c, to 88c, to 88⅛c, to 87⅝c, to 88c to 87¾c, to 88¾c, to 89½c, to 89¼c, to 88⅞c, to 89½c, to 89⅜c, to 89⅝c, to 90c, to 89¾c, and closed at 89¾c.

JULY—New Style—Sold at 86⅝@89c. Opened with sales at 87¼c to 87½c: sold to 87c, to 87½c, to 86⅞c, to 87¼c, to 86⅝c, to 87½c, to 87¼c, to 88⅛c, to 87¾c, to 88½c, to 88c, to 88¾c, to 88½c, to 89c, to 88¾c and closed at 88¾c.

SEPTEMBER—Old Style—Sold at 83⅝@85⅝c. Opened at 81⅝c to 84¼c: sold to 84½c, to 84⅛@84¼c, to 83⅝c, to 84c, to 83¾c, to 85c, to 84⅞c, to 85⅝c, to 84⅞c, to 85⅜c, to 85½c, and closed at 85½c.

SEPTEMBER—New Style—Sold at 82⅝@84¾c and at 84½c. Opened at 83⅜c to 83c, sold to 83¼c, to 83½c, to 82⅝@82¾c, to 84c, to 83⅝c, to 84⅜c, to 84c, to 84½c, to 84¼c, to 84½c, and closed at 84½c.

CORN.—The close was higher, gains of ⅝@¾c being established for the day. There was more doing on export account, the seaboard reporting 70 loads. At Chicago business was only moderate, about 100,000 bu, the scarcity of Eastern cars restricting the demand and movement in the West. Corn was influenced by the war rumors just as Wheat was influenced. The buying of May Corn by one of the leading elevator interests, as well as the taking on of that future by some of those people who were on the selling side yesterday and the day before, was also a "bull" help. There were some in the market who were buying the July and selling the May, while there were other brokers doing the opposite. There was commission-house selling early, which broke the price and started the room trading element to selling. Liverpool not only refused to follow Chicago in its decline of yesterday, but closed ⅛d higher to unchanged. Spot was unchanged. A Liverpool private cable said that there was a better spot demand and increased outside speculative buying. The inspection was 247 cars, but none of it was contract. Local receipts were 463,000 bu and the shipments 116,000 bu. There were 49 cars and 20,000 bu switched from unlicensed houses. Primary receipts were 762,000 bu, compared with 673,000 bu a year ago. Clearances were 358,000 bu, against 1,078,000 bu a year ago. No. 2 closed at 51½c and No 2 Yellow closed at 52¼c. No. 3 closed at 42@50c. No. 3 Yellow sold at 44c and closed at 43½@51½c. No 4 sold at 41c.

Corn by sample—Was weak and 1@2c lower, notwithstanding the advance in speculative value. Demand was fair and the offerings were large. Sales on track and free on board: No Grade sold at 37@39½c. No 4 at 38@43c. No 3 at 42¼@45c. No 3 Yellow at 42½@46c. No 3 White at 43½@44c. Billed through: No Grade at 38@38¼c. No 4 at 39½@42c. No. 3 Yellow at 42@44c. No 3 White at 43c.

Future Deliveries of No. 2 Corn—Large, nervous trade with the changes sharp and frequent and the close at advances of ⅝@¾c for the day.

FEBRUARY—Closed at 52¼c nominal.

MAY—Sold at 54¼@56c. Opened at 55c to 54¾c, sold at 54¼c, to 54¾c, to 54⅝c, to 55c, to 54⅞c, to 55⅝c, to 55⅜c, to 56c, to 55½c, closing at latter.

JULY—Sold at 52⅜@53½c. Opened at 52⅜c to 52⅝c sold to 52¾c, to 52⅝c, to 52⅞c to 52¾c, to 53⅛c, to 53c, to 53½c, to 53¼c, closing at 53¼c bid.

SEPTEMBER—Sold at 51⅜@52⅜c. Opened at 51½c to 51¾c sold to 51⅝c, to 51½c, to 51⅞c, to 52¼c, to 52⅛c, to 52⅜c closing at 52⅛@52¼c bid.

OATS—Were weak and 1¼@3c lower early, but advanced ½@1¼c and closed at nearly the top with a net gain of ¾@1c. May had a range of 1½c and July of 1c. The lowest prices were made soon after the start on heavy selling by houses who are the largest holders and who were followed by the pit element. The advance was in sympathy with other Grains and on the war rumors, outsiders buying on the latter. Some of the early sellers were the best buyers late in the day and at the close were sellers again. In all there was a big trade. Cash business was restricted by a scarcity of cars, but sales were 150,000 bu here and 150,000 bu at New York, the latter for export. Arrivals were 13? cars, with 410 cars expected to-morrow. There was 8,?00 bu Standard inspected from private into public houses. Seaboard clearances 15,457 bu. Car lots to go to store were steady to ½c lower. No 4 White sold at 40@42c. No. 3 White at 43@43½c. Standard in store closed about 41@41½c as to location.

Oats by sample were in fair request, with offerings larger. Prices were steady to ½c lower, due to the early break in futures. The close was steady. Sales on track and free on board: No Grade at 35c. No 4 White at 36@40c. No 3 at 39@39½c. No 3 White at 41½@41½c. Standard at 44c. No 2 at 49c. Billed through: No 4 White at 37@39¼c. No 3 White at 42½@43¼c. At the river No Grade at 35c. No 4 White at 39@41½c. No. 3 at 38@38½c. No 3 White at 38½@41½c.

Future Deliveries of Contract Oats—Were weak early and higher later.

FEBRUARY—Sold at 41¾c, or 2¾c under May; closed at 41c.

MAY—Active trading. Sold at 42½@44c. Opened at 43c to 43¼c, sold to 42¼c, to 44c, to 43⅝@43¾c at close.

JULY—Active. Sold at 39@40c. Opened at 39⅜c, sold to 39c, to 40c, to 39⅞c at close.

SEPTEMBER—Sold at 34⅛@34½c. Opened at 34⅜c, sold to 34⅛c, to 34⅜@34½c at close.

RYE—The market was firm and prices 2@3c higher. There was a speculative demand, with "shorts" anxious to cover and offerings light. The receipts are very small and stocks of contract Rye light and easily controlled. Only one car was received to-day. There were 500 bu and four cars withdrawn from elevators here. No export clearances from the seaboard. No. 2 round lots in store nominally 68c, and fresh arrivals free on board nominally 68@70c. No 3 sold at the river at 61c and No. 4 at the river at 58c.

Future Deliveries of No. 2 Rye—Demand good and prices 3c higher. February nominally 68c and March nominally 69c. May sold at 70c and closed at 70c bid. July 68c bid and 70c asked.

BARLEY.—Steadiness prevailed. Nothing especially new developed. Spot offerings seemed to have fallen off somewhat. They remained about equal to the demand, for the inquiry for spot cars seemed to be rather tame. Average quality of the offerings was perhaps slightly improved. Negotiations for to arrive lots were going on. Some very choice Barley was sold at full up to any late quotation. Posted to-day 27 cars inspected in. Trade fair in Screenings; they are steady; quotable at 3@42c for poor to choice. Barley, feed or mixing, quotable at 40@41c local, river billed about 39@39½c. Malting, low grade about 41@44c; very dirty below; common, 45@47c. Fair was about 48@50c; good, 51@54c; choice 55@58c; fancy possibly up to 59@60c. A round lot of fancy to arrive sold at 59½c.

SEEDS.—With the market for Timothy becoming inactive the entire Seed market was in an inanimate state. No price changes of importance occurred. Clover developed a little more firmness, but otherwise there was nothing new.

Timothy—No trading to-day. Cash offerings suddenly fell off to nothing. Buyers manifested no anxiety. Speculative market neglected. March delivery was offered at $3 15, the figure at which it sold yesterday and to-day $3 10 was bid; this was not suggestive of any particular strength but indicated easiness. February not mentioned; nominally $3 05. Country lots quotable at $2 25@3 25 for poor to fancy; fair to good at $2 55@2 70; choice, $2 75@2 85 and rough, dark and foul lots about $2 40@2 50.

Flax.—In this market there continued an absence of business. Market almost devoid of offerings, and was not much better provided for in the way of demand. There was no interest shown; nothing of any note developed. Only one car or 850 bu received, and 4 cars or 4,086 bu taken out. At Minneapolis there were receipts of 16 cars and at Duluth 20 cars. No. 1 Northwestern or No 1 from the Northwest 1½c lower, with a sale at $1 17. No 1 was nominally $1 11, and Rejected $1 0?@1 11, outside for choice Northwestern. February was nominal at $1 11. May offered at $1 13, and $1 12½ bid.

Clover—There was reported a firmer tone to the market. Demand on orders showing some improvement. Better grades stronger than those below. Contract spot and March delivery nominal at $10 00. Country lots, common to choice, $8 00@10 50; fancy above, mixed with Buckhorn or other weed Seeds, $5 00@9 00, poor, cleaned out of Timothy very foul, down to $3 00@6 00; inferior lower. Main run of such lots as come to market when ordinary to good quotable at $8 00@10 00.

Other Seeds—Were called steady and salable at former prices. No trading, for the market was without offerings. Salable as follows: Hungarian, quotable, common and light color to choice, dark $1 50@1 85. Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard 85c@$1 05. Buckwheat steady; there continues some milling demand; good milling quotable at $1 20@1 30.

HOG PRODUCTS.—Attracted considerable attention and the feeling manifested was again quite unsettled. Outside orders were fairly numerous and the market started comparatively firm, there being some reinstating of lines liquidated yesterday. Offerings, however, soon increased and the market turned weak under continued liquidation, part of which was credited to "bull" leaders. The decline in Hog values at the Yards with reports that packers were not buying and liberal receipts at Western packing points were among the "bear" influences. At the decline "shorts" purchased with considerable freedom, and the Grain markets advancing sharply, the whole list sold up in sympathy. Rumors that war had commenced in the Balkans and predictions of impending political complications between Great Britain and Russia caused rather a nervous feeling to prevail. Foreign advices indicated no particular change in prices, Liverpool quoting Bacon and Hams unchanged, while Lard declined 3d. Domestic markets were steady. Receipts of Hogs at the leading Western packing points estimated at 88,800, compared with 73,100 the corresponding day last year. Receipts of Products were fair—of Lard and Meats about 39 cars. Shipments were liberal—of Lard and Meats about 106 cars. The shipping demand continues moderate and chiefly on domestic account. Sales were not very extensive and prices were without special change.

Mess Pork—Just a fair speculative trade was reported in this market, but sentiment at the same time was rather divided. Market started out firm and 2½@7½c higher, but the advance met with considerable selling pressure and prices settled back 15c. At the decline "shorts" and commission houses purchased fair amounts the market displayed a good deal of strength, advancing 40c. Profit-taking caused a reaction of 15c, but the close was steady around outside figures. Shipping demand was moderate and the offerings again small. Cash lots quotable at $14 75@14 87½.

MAY—Offerings rather free and demand was better. Sales were made at $14 65@15 05. Opened at $14 75 to $14 80, sold to $14 77½, to $14 70, to $14 75, to $14 65, to $14 67½, to $14 65, to $15 00, to $14 87½, to $15 00, to $14 95, to $15 02½, to $15 00, to $15 05 to $14 90, to $15 02½, to $14 95, to $14 97½, and closed steady.

JULY—Demand was fair and offerings moderate. Sales were made at $14 57½@14 90. Opened at $14 70 sold to $14 57½, to $14 80, to $14 72½, to $14 60, to $14 85, and closed steady.

Lard—The Lard market was fairly active, with rather an unsettled feeling prevalent. Initial trades showed 2½c advance, with several of yesterday's sellers credited with buying. Offerings, however, soon enlarged and the price receded 2½c when the demand became more general. "Shorts" buying quite freely and prices advanced 12½c, being helped chiefly by the war news and action in the Grain markets. Realizing on a moderate scale caused a slight decline, but the close was steady at 12½@15c advance. Foreign markets were easy, and the quality of the Hogs received to-day poor. Demand on shipping account light and offerings moderate. Cash lots quotable at about $7 52½@7 55. Loose lots called for moderately and offerings were just fair. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $7 00. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 37½@8 50 for No 1 and $7 75@7 87½ for No 2.

MAY—Offerings were rather free and demand somewhat better. Sales were made at $7 62½@7 75. Opened at $7 62½ to $7 6?, sold to $7 62½ to $7 75, to $7 70, to $7 75, to $7 72½, to $7 75, and closed at $7 75 sellers.

JULY—Demand fair and the offerings not very free. Sales were made at $7 72½@7 85. Opened at $7 75, sold to $7 72½, to $7 82½@7 85, to $7 82½, $7 85 to $7 82½ and closed steady.

Short Rib Sides—The trade in the market for Short Rib Sides was fair and closing prices showed 10@12½c advance. The start was steady to firm, but selling by commission house and longs caused prices to recede 5c. At the decline the demand improved, many of yesterday's sellers buying and prices rallied 12½c. War talk and advance in Grain brought about the change in sentiment. Prices receded slightly later, but the close was as noted above. Shipping demand shows little or no improvement and the offerings continue moderate. Cash lots were quotable at $6 87½@7 12½ according to weight.

MAY—Offerings moderately free and the demand very good. Sales were made at $7 07½@7 10 and $7 22½. Opened at $7 10 to $7 12½, sold to $7 12½@7 15, to $7 10 to $7 12½, to $7 07½@7 10, to $7 15 to $7 12½, to $7 20, to $7 17½, to $7 20@7 22½, to $7 15@7 17½, to $7 22½, to $7 20, and closed steady.

JULY—Demand was fair and the offerings moderate. Sales were made at $7 20@7 32½. Opened at $7 25, sold to $7 20, to $7 30, to $7 27½, to $7 32½ to $7 30@7 32½, and closed steady.

Other Meats—Only a moderate trade reported in Meats. Domestic demand was fair, and export demand was limited. Offerings of all kinds were fair, and holders rather firm in their views. Green Meats were in small request, with moderate offerings, and prices were unchanged. Pickled Meats in moderate demand, with only fair offerings, and prices were well maintained. Dry Salted Meats in moderate demand and offerings not very large. Prices ruled favored sellers. Smoked Meats in moderate demand, chiefly in a jobbing way, and prices ruled steady. Closing prices ranged as follows:

NORTHWEST WHEAT MOVEMENT.

[From the Minneapolis Market Record, Feb. 12.]

From Dec 1 to Feb. 1 this year farm sales of Wheat and other Grains have been somewhat above the average amount sold during the previous four years. The receipts at Minneapolis and Duluth from Dec 1 to Feb. 1 were 21,702 054 bu against a previous four years' average of 19,633,832 bu Last year the receipts at these points amounted to 23,920 585 bu. Two years ago they were 27,088,596 bu In the latter year, however, interior elevator stocks decreased during January nearly 3,000,000 bu more than they did in either January this year or last, which shows that farm sales that year were not far different from those of either of the two years mentioned. In 1901 the receipts from Dec. 1 to Feb. 1 were 16,910,668 bu, and in 1900 they were 12,365,482 bu.

The receipts at Minneapolis and Duluth since Aug. 1 last show a falling off compared with those of the past two years, but are slightly ahead of the average for the previous four years The figures in detail are 83,542,691 bu received this year, 91,709,-347 bu a year ago, 96,146,509 bu two years ago, 61,-382,491 bu three years ago, and 84,716,596 bu four years ago

Notwithstanding that receipts this year are fully up to the four years' average, Northwestern Wheat stocks are materially lighter than they were on Feb 1 during any of the previous four years, as will be seen from the following table:

		Bushels
1904—	Minneapolis stocks	12,915 924
	Duluth stocks	2,912 000
	Interior Elevators	5,936,000
	Total	21 753,924
1903—	Minneapolis stocks	15,147,677
	Duluth stocks	3,991,924
	Interior Elevators	6,427,000
	Total	25,569 601
1902—	Minneapolis stocks	17,400,188
	Duluth stocks	10,314,273
	Interior Elevators	8,566,000
	Total	36,350,461
1901—	Minneapolis stocks	17,538,474
	Duluth stocks	7,020,477
	Interior Elevators	8,566,000
	Total	33,124,951
1900—	Minneapolis stocks	15,112,628
	Duluth stocks	7,277,044
	Interior Elevators	15,550,000
	Total	37 939,670

The receipts this year are below the average in quality and show the effect of the continued wet weather during the latter part of harvest time and early fall The percentage of the Wheat received at Minneapolis this year that graded No. 2 Northern, or better, was 48 per cent, against 63 per cent from the 1902 crop; 52 per cent from that of 1901, and 61 per cent from the 1900 crop

That good milling Wheat in the Northwest will be scarce, before another crop is ready, is not now doubted by any one connected with the Grain trade With available stocks at Minneapolis and Duluth and in interior elevators so far under those of previous years and the large amount of low grade Wheat yet left, milling Wheat is likely to sell even higher than it did last year

The demand for Wheat is active throughout the Northwest with mills in the interior grinding more Wheat this year than last This statement is based on weekly reports received by the *Northwestern Miller* from 30 to 40 mills throughout the Northwest, which indicates a gain of some six per cent in the production from Aug. 1 to Feb. 1 over that of the output a year ago. Up to Feb. 1 the receipts at Minneapolis and Duluth the amount ground by interior mills and that held in country line elevators make an aggregate of some 122,000,-000 bu Farmers will require 20,000 000 bu for seed, making a total of 142 000 000 bu already gone from last year's crop F om now until next August the mills in the Northwest will require some 70 000,000 bu to run them at their usual capacity. Of this amount there is in Minneapolis, Duluth and interior elevators only some 22,000,000 bu, leaving about 48 000,000 bu necessary to come from the farm to supply that demand.

The above figures do not take into account the amount of Wheat that may be wanted by Eastern and foreign mills that grind Spring Wheat and who get the most of their supplies from Minneapolis and Duluth.

THE WEATHER CONDITIONS.

The weather map shows light snows throughout Kansas and Missouri. The precipitation is not much more than traces, but it is general over these States There are heavy snows throughout Manitoba Temperatures generally higher—much higher in the extreme North—and milder weather generally is predicted.

Indications are for rain in the south and snow in the northern part of the district It will be fair in the Northwest. Temperatures will rise in this section, but will fall on the Eastern slope of the Rockies

The Pacific Mail steamer China has arrived at San Francisco, carrying $1,075,000 worth of Gold yen, $160,000 worth of Opium and $1,355,000 worth of raw Silk.

The Atchison, Topeka and Santa Fe Railway Company has applied to the London Stock Exchange to list $7,600,000 additional general mortgage 4 per cent coupon bonds of 1995.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $2,040,381,276, an increase of 7 0 per cent compared with the corresponding week last year.

It is understood that within the last few days the reorganization committee of the Denver and Southwestern Railway has received a fair porportion of the small amount of bonds outstanding

The railroads from St. Louis to Baltimore Norfolk, and Newport News are participating in the Grain rate war and the indications are that all the lines between the Missouri River and the Atlantic will be involved.

The four-story building occupied by the Belle Hickey Show Case Manufacturing Company, the Willbrandt Surgical Instrument Company and the Brooks Goodfellow Shoe Manufacturing Company, at St. Louis, was destroyed by fire, Monday. Loss, $125,000.

J. J. Hill is quoted as saying: "Business has stopped expanding, but the West is a farming region and feels reaction less than the manufacturing districts. I do not see why the war should help this country immediately. Later it will, if we can supply cheap commodities. We shall be able to do that after the war is over."

Holland imported 3 856,000 bu of foreign Wheat in December, against 5 264,000 bu in December, 1902; and re-exported 2,752,000 bu. against 3,264,000 bu. Of Flour the net imports equalled 532,000 bu in December, 1903, against 1,248,000 bu in December, 1902. The net imports of Wheat and Flour from Aug 1 to Dec 31 are, therefore, 8,840,000 bu, against 9,9.0 000 bu last season

The Buenos Ayres *Handels-Zeitung*, of Jan. 8 states that the new Wheat in Argentina arriving was, on the whole, of very good quality, a natural weight of 65 lbs to 63 lbs per bushel being in some cases shown The Rosario Bourse Grain committee had fixed the average weight of the type sample at 78 kil (62½ lbs), against 77 kil (61¾ lbs) last year.

The American Steel and Wire Company has advanced the price of wire products 5c per 100 lbs. Officials of the company say the volume of business has increased so rapidly since the reduction made at the close of the year that it was found necessary to restore at least half of the former cut. It is said that independent mills will follow the advance.

The annual report of the Secretary of the Western Electric Company showed total sales for the fiscal year ended Nov. 30, 1904, of $30,250,000, compared with the total sales of $28 626,800 in 1902, a gain of a little over 5 per cent. The net earnings were $2,760,000. The sum of $920,000 was distributed in dividends and the total surplus on Nov. 20, 1903, was $8,870,000.

The report of the Southern Pacific Railway Company for the last fiscal year has been issued in pamphlet form. It shows an increase of nearly $5,000,000 in gross receipts, but extraordinary expenditures more than wiped out the gain in earnings. All the surplus was devoted to betterments of the property. The company's free assets exceed its floating debt by nearly $7,000,000

The San Francisco *Weekly Commercial News* of Feb. 13 says: "Notwithstanding the rains the Barley market has gained strength during the week, although yesterday the situation was somewhat easier. More moisture is needed in the San Joaquin Valley and the South to insure fair crops, but the northern part of the State can get along very well with the usual spring showers."

A Boston dispatch says: "A healthy condition prevails in the Wool market, although trading is quiet. The demand is steady, even if slight, at firm prices. Medium Wools have been most in demand, and they have felt the impulse toward a higher movement. There is a steady business in Territory Wools, which are firm Pulled Wools seem to be in general demand. Little is being done with foreign Wools."

Dornbusch's Buda Pesth correspondent, writing under date of Jan 30, says of Flour: "The past week has been the quietest experienced for many months. The shipments have been fairly good, seeing that we are in mid-winter, yet they are not equal to the large forward sales made, and are smaller than the arrivals It is therefore more than probable that stocks are increasing."

The Security Savings Bank, Ashland, Wis., was voluntarily closed Saturday, and is in charge of the State Commissioner of Banking. Some months ago a run was started on the bank by an idle rumor, since which time considerable money has been withdrawn The bank is perfectly solvent and, Friday, the directors voted to close and place the bank in charge of the Bank Commissioner.

Alfred F. Stevens, of Newark, Thursday, instituted suit in the Court of Chancery against the United States Steel Corporation to have that corporation show cause why it first increased and subsequently discontinued paying dividends on its common stock. Mr. Stevens in his petition claims that the steel company since its incorporation has had net earnings over and above its fixed charges of $65,000,000. Of this amount $18,000,000 was earned in 1901, $34,000,000 in 1902, and $11,000,000 in 1903. He claims that under its charter the corporation is obliged to pay quarterly dividends to the extent of 4 per cent per annum; that in October, 1903, a dividend of only one-half of 1 per cent, or at the rate of 2 per cent per annum, was declared, and that in January, 1904, no dividend at all was declared on the common stock. He attacks the validity of the recent by-law of the corporation, which authorizes the directors to set aside from earnings of the company from time to time such amounts as they may determine. Mr. Stevens contends that the by-law is in violation of his rights as a stockholder; that he owned his stock before this by-law was adopted, and that he never consented to its adoption. He alleges that even under this by-law no money was set aside for working capital until February, 1904, whereas it was prior to this that the dividend of October, 1903, was reduced and the one of January, 1904, was passed.

STOCKS OF GRAIN IN WAREHOUSES.

The Directors of the Board of Trade of the City of Chicago have adopted the following regulation in regard to warehouses.

"The proprietors or managers of such warehouses shall accord every facility to any duly authorized committee for the examination of their books and records, for the purpose of ascertaining the stock of all kinds of Grain and Flax Seed which may be on hand at any time. Such examination and verification shall be made at least twice each year by the Warehouse Committee, or any other duly authorized committee to be appointed by the President, which committee shall have authority to employ experts to determine the quantity of Grain in the elevators, and to compare the books and records of said regular warehouses with the records of the State Grain Registrar."

Broomhall cables: "Our Argentine agent estimates that the week's shipments will be about 3,200,000 bu Wheat and about 400,000 bu Corn. Corn is maturing well."

National Lead Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable March 15. Books close Feb. 26, and reopen March 16.

The Inter-State Commerce Commission has decided that railroads must publish their export and import tariff rates until the act is changed to permit of such modifications.

The Milwaukee Exchange has posted an amendment to its rules to make No 2 Hard Winter Wheat deliverable at a penalty of 2c, the same as at Chicago. It will be ten days before action will be taken.

Cotton in New York was nervous, with Liverpool higher and port receipts small. Southern buying orders were liberal and Europe and "shorts" bought. Prices had a good range and closed 35@49 points higher.

Stocks in New York ranged lower, traders being disturbed by Balkan developments and by other factors. There was good selling of the list and poor support from the start, but on the whole losses were small. Money, 1¾ per cent.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Variable weather, without snow, causes some anxiety for Wheat Practically no definite harm noted yet. Disposition to hold all Grains, and movement becoming light."

The Chicago *Drovers' Journal* says: "Hogs at present, owing to the very large proportion of light weights among the animals are selling at the widest spread in prices of the year and 10c wider range than a week ago The light Hog trade is certainly in a demoralized condition."

Broomhall cabled. "The outbreak in the Balkans caused rather free covering by anxious "shorts," and as there were very few sellers, there was an opening advance of ⅜d to ½d There was a slight reaction on less urgent Continental demand. Corn opened higher on "shorts" covering, outside buying and a fair spot demand."

The Cincinnati *Price Current* reports the packing of the West for the week at 585,000 Hogs, compared with 475,000 for the week previous, and 460,000 for the corresponding week in 1903. Aggregate packing since November 1 reported at 8,040,000 Hogs, compared with 7,730,000 for the corresponding time last year—an increase of 310,000 Hogs.

The constitutionality of the legislative act of 1901, requiring corporations to make an annual report to the Secretary of State and providing for the cancellation of articles of incorporations for failure to do so, has been upheld by the Illinois Supreme Court. The court also decides that this act applies to corporations not organized for pecuniary profit as well as others.

"The issue of $4,000,000 20-year 3½ per cent bonds of the City of Chicago with which to take up an equal amount of judgments rendered by the Federal Courts and the Courts of Record of Illinois against the City of Chicago is legal, says the Illinois Supreme Court in a decision handed down Feb. 17. The Court also finds that the total indebtedness of the City of Chicago is $15,380,427.51.

It is announced that on next Monday the Northwestern will reduce the through rate on Corn and Wheat 2c per 100 lbs from points beyond the Missouri River to Chicago This will make a total reduction of 8c since the rate war commenced more than three weeks ago, and if the Great Western meets the cut the local rate from the Missouri River will be lowered to a basis of 6c on Wheat and 5c on Corn.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The advance in prices has caused the foreign trade to do very little, while the domestic demand is still fairly active, but no large lots are changing hands.

WINTER WHEAT—Ruled firm and about 2c higher. Demand good and fresh arrivals were snapped up quickly at the advanced prices Besides the car lots 10,000 bu of No 2 Red sold to be taken out of store No 2 Red in store quotable at 99½c@$1 01½ and fresh arrivals free on board sold at $1 05 and ranged at 99c@$1 05, depending on quality. No. 3 Red fresh arrivals sold at 95c for hard variety and at $1 03@1 04½ for soft No 2 Hard at the river quotable at 90@94c No. 3 Hard at the river sold at 80c and ranged at 80@92c No 3 White sold at $1 03.

SPRING WHEAT—Firm and little doing for lack of receipts Demand good for choice milling Wheat and prices 1@2c higher Poor Wheat not doing much better. Sales of 5,000 bu mixed lots made to millers No 1 Northern in store quotable at 91½@94½c and fresh arrivals free on board ranged at 96@$1 00. No 3 Spring ranged at 85@97c for poor to choice hard variety. No 4 sold at 65@70c free on board and at 71c at the river and ranged at 58@82c for poor to choice.

REGULAR WHEAT—Excited and 1@1⅝c higher with the best prices on the crop realized May sold up to 99½c, and old July to 91c. Those who sold out early in order to secure profits were the best buyers as the day wore away. It was a market that was hard to follow, with every house in the market in the trade in a large way The seaboard reported 25 loads No. 2 Red Winter was sold here at $1 05; 15,000 bu No 1 Northern sold here. War news again cut quite a figure in the Wheat markets of the world. There were advances abroad of ⅝c at Buda Pesth. 1½c at Berlin, ½c at Paris, 1¼c at Antwerp, ⅜@1d at London and ½@1d at Liverpool. A cable from Paris said that sealed orders to be opened at sea have been sent to the captains of the French cruisers which are about to reinforce the French squadron in the far East In a special cable *Broomhall* referred to the outbreak in the Balkans, causing rather free covering there by anxious "shorts." The same cable referred to the Continental demand for Wheat cargoes as subsiding. This and other war news that found its way into the Wheat caused a generally strong feeling and at the same time prevented any great rush of selling British consols were lower, and this fact was also a help to the "bull" side The early sales of cash Wheat in this market at $1 04 for No 3 Red and $1 05 for No. 2 Red showed the eagerness of buyers to get hold of the best quality of Wheat. Minneapolis wired that there was a good demand for cash Wheat—even the black, smutty, rejected Wheat was selling at 85@87c, and elevator No 3, a poor mixture, at 91c. Same message reported no receipts of Wheat country points Minneapolis stocks showed a decrease of 435,000 bu for the week The mills up there ground last week approximately 1,515,000 bu Wheat Messages here from Indiana say that Louisville millers in that territory are trying to find Wheat Weather man showed snows throughout the West and Southwest, although the fall in Kansas, where snow is most needed, is very light indeed. Receipts of Wheat at St. Louis and Kansas City were 301,000 bu, compared with 118,000 bu a week ago and 98,000 bu a year ago The Cincinnati *Price Current* spoke of some anxiety being shown over the growing Wheat, but also said that no definite change has yet been shown. The feature in the market as the day wore away was the strength and advance shown in May. A Philadelphia dispatch, received late said that there was no home Wheat offering in that State and that the price was up around 95c@$1 00. Pennsylvania buyers who were indifferent to the Chicago Wheat at a much lower level were reported after Red Winter here to-day Receipts at Duluth 55 cars and at Minneapolis 225 cars, a total of 280, against 268 cars yesterday, 228 cars a week ago, and 186 cars last year. Local receipts included 16 cars Winter, 2 cars Spring and 1 car mixed, a total of 19 cars, against 11 cars last year. Included in the above was none of contract grade. There were 31 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 10 cars Withdrawals were 21,050 bu. Receipts at Western points were 513 820 bu, against 389,462 bu last year. At Eastern points 97,229 bu, against 93,614 bu last year. Shipments from Western points were 415,100 bu, against 130,373 bu last year, and from Eastern points 17,440 bu, against 62,332 bu last year. Shipments of Flour were 26 343 brls. Exports of Wheat in Flour were equal to 135,983 bu

Future Deliveries of Regular Wheat—Active trade and prices higher.

FEBRUARY—Entirely nominal, and the closing about 98¼c

MAY—Sold at 97½@99½c Opened with sales at 98c to 98⅛c; sold to 98½c, to 97⅞c, to 98c, to 97½c, to 98¾c to 98¼c, to 99¼c, to 99c, to 99½c, and closed at 99⅜@99½c

JULY Old Style—Sold at 89⅜@89¼c and at 91c. Opened at 90c to 90⅛c; sold to 89⅞c, to 90¼c, to 89⅜@89¼c, to 90¼c, to 90c, to 90⅜c, to 89⅞c, to 90½c, to 90⅛c, to 90¾c, to 90½c, to 91c, and closed at 91c

JULY—New Style—Sold at 88¼@90⅛c. Opened with sales at 89c to 88⅞c; sold to 89c, to 89¼c, to 88¾c, to 88⅞c, to 88¼c, to 89c, to 88⅞c, to 89¼c, to 89c, to 90⅛c, to 90c, and closed at 90c.

SEPTEMBER—Old Style—Sold at 85@86½c. Opened at 85⅝c and sold to 85⅞c, to 85⅝c, to 85c, to 85⅝c, to 85½c, to 86c, to 85¾c, to 86½c, and closed at 86½c

CORN—The close showed but little change for the day—an advance of ⅛c There were some reactions from the top prices reached. A late cable from *Broomhall* estimates the Argentine shipments for the week at 400,000 bu, and says that Corn is maturing well. Cash sales were 125,000 bu at Chicago and 30 loads at the seaboard The feature of this market was the lack of offerings, especially the May, after first decline of the session. The strength in Wheat owing to the war scare was one of the potent factors in Corn The cash situation is better, too, but the business is restricted by the scarcity of cars on the Eastern roads. The liberal export business at the seaboard is not only a help at Chicago but is attracting the attention of the whole country. The *Price Current* said the movement was light Of the 222 cars of Corn here this morning 6 cars were No. 2, 20 No 3 Yellow, 4 No 3 White and 16 No. 3, 141 cars No 4 and 35 are No Grade There were 217 cars switched from unlicensed houses and 8,200 bu from store. Liverpool was up ⅜@½d Primary receipts were 531,000 bu, compared with 363,000 bu a year ago Clearances for the day 87,000 bu, against 267,000 bu a year ago Car lots in smaller supply and fair demand. Choice old steady, while poor was off 1c. No 2 closed at 51¾c. No. 2 Yellow closed at 52c. No. 3 closed at 42½@50½c No. 3 Yellow sold at 43½c and closed at 43½@51½c No Grade at 37c.

Corn by sample—Offerings were smaller and demand fair Feeling weaker and prices unchanged for good grades while poor Corn was about 1c lower Sales on track and free on board: No Grade sold at 34@39c. No. 4 at 36@42c. No 3 at 42½@43c No 3 Yellow at 43@51c No. 3 White at 43@45¼c Ears at 45c. Billed through: No Grade at 35@38½c. No. 4 at 38@42c. No 3 at 39@42½c No. 3 Yellow at 42@43¼c. No. 3 White at 42½@42¾c.

Future Deliveries of No. 2 Corn—The market closed with an advance of ⅛c for the day. Trade rather active, with "shorts" the buyers on the soft spots.

FEBRUARY—Sold at 52¼@52½c. Opened at 52¼c, sold to 52½c, and closed at 52⅜c

MAY—Sold at 55½@55¼c to 56c Opened at 55⅝c to 55⅜c, sold at 55½c, to 55¼@55¼c, to 55½c, to 55⅜c, to 56c to 55½c, to 55¾c to 55½c, to 55⅝c closing at 55⅝c bid

JULY Sold at 53@53½c Opened at 53⅜c to 53¼c sold to 53½c, to 53c, to 53⅜@53½c, to 53⅛c, to 53⅜c, closing at 53¼@53⅜c

SEPTEMBER Sold at 52@52⅜c Opened at 52⅜c to 52¼c, sold at 52c, to 52⅜c, to 52¼c, and closed at 52¼c

OATS—Were unsettled, but closed at the best prices after being weak and ⅜@⅝c lower in the early trading. The last sales were at a net gain of ⅛@¼c, except on July which was the same as yesterday Trading was large, the feature being the free offerings of May by the leading "long" interest and the general buying of small lots. The strength in Wheat acted as a stimulant at the last, causing the advance Receipts were 129 cars with 80 cars to-morrow. There were 43 cars and 16,000 bu Standard inspected from private into public houses. Cash demand was moderate with sales of 35,000 bu here and 50,000 bu at the seaboard Export clearances were 7,500 bu. Car lots to go to store were steady to ¼c higher No. 3 White sold at 43@43½c. Standard in store closed about 41½@42c

Oats by sample were in moderate request, with offerings lighter. Poor lots were a shade easier and good steady to ¼c higher. Sales on track and free on board: No 4 White at 38@41½c No 3 at 38½@39½c. No 3 White at 42@43½c Standard at 44c No 2 at 40c. Billed through. No 4 White at 40¾c No 3 White at 43@43½c. At the river: No 4 at 32c No. 4 White at 34½@41½c. No. 3 White at 40@41½c.

Future Deliveries of Contract Oats—Were unsettled with fair trading.

FEBRUARY—Inactive at 2½c under May asked No sales. Closed about 41½c.

MAY—Liberal trading Sold at 43⅝@44c Opened at 43¾c to 44c, sold at 43⅝c, to 44c, closed at 44c.

JULY—Sold at 39½@40c Opened at 39⅞c, sold to 39¾c, to 40c, to 39⅞c at close.

SEPTEMBER—Sold at 34⅜@34⅝c. Opened at 34⅜@34½c to 34⅝c, sold to 34⅜c, to 34⅝c, to 34⅝c a close.

RYE—The market to-day attracted unusual attention. Considerable excitement toward the close and prices 5c higher. "Shorts" anxious to cover and "longs" indifferent sellers. Stock in store only about 210,000 bu, and evidently concentrated. The receipts continue small and no addition to the stock taking place Only two cars received to day and six cars withdrawn from private warehouse. No export clearances from the seaboard. No 2 in store nominally 73c and fresh arrivals free on board quotably 73@75c No 3 sold at 67c and No. 4 quotably 58@60c.

Future Deliveries of No. 2 Rye In good demand and prices 5c higher February nominally about 73c March nominally about 74c May sold at 75c, and later one sale at 74½c and closed about 74½c. July nominally 73c

BARLEY—There were moderate offerings of ordinary, or common to fair malting All other grades in small supply Screenings and feed or mixing Barley rather scarce There was a good strong market, with a fair demand, no essential change in prices For the ordinary malting goods there were just certain buyers no large demand. The offerings were taken at steady prices Good to choice Barley scarce and nothing in particular developed, quotably firm The market for to-arrive lots was rather neglected to-day Posted receipts of 54 cars Screenings sold at 40@43c and were quotable at 38@43c for poor to choice Barley, feed or mixing, quotable at 40@41c local, sales at 40½@41c river billed sold at 39½c Malting, low grade about 42@44c, very dirty below, common 45@47c. Fair was about 48@50c good 51@54c; choice, 55@58c, fancy possibly up to 59@60c

SEEDS—The market was in an uninteresting state. Of all Seeds the offerings were small, and in no case was there any essential change

Timothy—Was quiet There was evidence of a strong market for Seed of good quality Offerings remain small. Nothing was done in futures. February delivery contract grade was nominally $3 07½ For March $3 10 was bid and it was offered at $3 12½ Country lots quotable at $2 25@3 25 for poor to fancy; fair to good at $2 55@2 70; choice, $2 75@2 85, and rough, dark and foul lots about $2 40@2 50

Flax—There was an absence of trading aside from a car of No. 1. Prices were unchanged all around. Little interest shown in the market Two cars or 1,891 bu received and 3 cars or 3,067 bu taken out Minneapolis got 23 cars and Duluth 17 cars No 1 Northwestern or No 1 from the Northwest was quotably $1 17 and No. 1 sold at $1 11; Rejected nominal $1 0@1 11, outside for choice Northwestern February was nominal at $1 11 May about $1 13

Clover—Was quotably firm in accord with advices from elsewhere Contract grade quoted at a slight improvement again. There were no offerings Country lots of good quality were quotably firm. Contract spot and March delivery nominal at $11 00 Country lots, common to choice, $8 00@10 50, fancy above, mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Inferior lower. Main run of such lots as come to market when ordinary to good quotable at $8 00@10 00

Other Seeds—Were quotably steady Salable at former prices. There was an entire absence of consignment offerings. Hungarian, quotable, common and light color to choice, dark $1 50@1 85. Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30 Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05 Buckwheat was firmer on wintry weather; good milling quotable at $1 25@1 35

HOG PRODUCTS—A more moderate business was witnessed in the market for Hog Products, the trade being a little on the spasmodic order The feeling was somewhat unsettled, but the close comparatively firm Outside orders hardly as numerous as of late, and local trading only fair The early tone was stronger, influenced chiefly by the advance in the Grain markets and foreign political situation. Moderate advances were scored when the offerings enlarged and prices settled back Packers at the Yards were said to be purchasing sparingly, and the packing of the West for the week was 125,000 ahead of a year ago Packers were moderate sellers. At the decline the demand improved and prices again rallied. "Shorts" and commission houses accepted fair quantities Hogs showed little change in price, and the receipts at the leading Western packing points were at 77,300 compared with 68,800 the corresponding day in 1903 Liverpool quoted Lard 3d higher Hams unchanged and Bacon steady to 6d lower Local stocks are now estimated at 31,000 brls, 37,000 tcs Lard and 27,500,000 lbs Ribs Receipts of Products were fair—of Lard and Meats about 31 cars Shipments were more moderate—of Lard and Meats about 82 cars Shipping demand shows little or no improvement, being only moderate Holders rather firm in their views and offerings only fair. Prices were without essential change

Mess Pork—The trade was only fair, the volume being more moderate than of late. Feeling prevalent, however, was a little unsettled with final figures showing 12½@17½c advance Initial trades were 12½@15c higher, influenced chiefly by action of Grain. The improvement in prices increased speculative offerings and prices receded 17½c, when "shorts" and commission houses purchased, bringing about a rally of 20c. Toward the close, there was a little more pressure to sell, and prices reacted slightly resting as noted above. Shipping demand only moderate and the offerings again light. Cash lots quotable at $14 87½@15 00

MAY—Offerings were fair and demand more urgent. Sales were made at $14 95@15 17½. Opened at $15 10 to $15 12½, sold to $15 02½, to $15 07½, to $14 95, to $15 05, to $14 95, to $15 10, to $14 97½, to $15 02½, to $14 97½, to $15 17½, to $15 12½, to $15 15, and closed steady.

JULY—Offerings fair, and the demand moderate. Sales were made at $14 85@14 97½. Opened at $14 85 sold to $14 90, to $14 87½, to $14 90, to $14 85, to $14 97½, and closed steady

Lard—The trade in Lard was fair, with price changes covering but 7½@12½c range. The close was 2½@7½c higher than yesterday Market started firm to a trifle higher, but reacted 5@7½c on local selling and lack of outside support so pronounced of late At the decline, however the demand became more general, and a recovery of 7½@12½c occurred "Shorts" were moderate buyers and commission houses purchased with more freedom. Liverpool was 3d higher and Grain markets stronger. Realizing by "longs" caused a slight recession in prices, the close being as noted above Demand on shipping account light and offerings moderate Cash lots quotable at about $7 55@7 57½. Loose lots called for moderately and offerings were just fair Prices were steady at about 7c discount on May figures. Leaf Lard in fair request and offerings were moderate Prices were quotably steady at $7 00 Neutral in only moderate demand, with fair offerings Prices quotably steady at $8 37½@8 50 for No 1 and $7 75@7 87½ for No 2

MAY Offerings moderately free and demand fair Sales were made at $7 70@7 77½ Opened at $7 75, sold to $7 72½@7 75, to $7 75, to $7 76, to $7 72½, to $7 70, to $7 75, to $7 72½, to $7 77½, to $7 75, to $7 77½, and closed steady

JULY Demand fair and offerings only moderate Sales were made at $7 77½@7 90. Opened at $7 85, sold to $7 77½, to $7 82½, to $7 80, to $7 85, to $7 87½, to $7 85, to $7 90 and closed steady

Short Rib Sides—Moderate activity was witnessed in the market for Short Rib Sides, and the feeling manifested was rather unsettled Closing prices were 2½@5c higher than yesterday Packers were credited with selling on the early advance, and prices settled back 5@7½c At the decline offerings were more readily absorbed from miscellaneous sources and prices were advanced 5@7½c Advance was fairly well maintained, and the close firm around outside figures Shipping demand shows little or no improvement and the offerings continue moderate. Cash lots were quotable at $6 87½@7 12½, according to weight.

MAY—Offerings moderately free and the demand rather good Sales were made at $7 17½@7 20 and $7 25. Opened at $7 22½ to $7 25, sold to $7 17½@7 20, to $7 25, to $7 20, to $7 22½, to $7 20, to $7 25, to $7 20, to $7 25 to $7 22½, to $7 25, and closed steady.

JULY—In fair request, with offerings moderate Sales were made at $7 27½@7 35. Opened at $7 35, sold to $7 27½, to $7 35, to $7 27½@7 30, to $7 35, and closed steady.

Other Meats—Trade was moderate and the feeling rather firm Offerings were only fair. Demand was moderate for the home trade. Export demand rather small Green Meats in moderate supply and rather light demand, and prices ruled slightly higher Packed Meats in fair request to fill moderate orders, and prices were maintained Dry Salted Meats were in fair demand in a quiet way, and prices well supported Smoked Meats called for in fair quantities, especially in a jobbing way, and prices ruled steady Closing ranges as follows:

GREEN—Hams at 10@12 lbs, 9¾@9½c, 12@14 lbs 9¼@9½c, 14@16 lbs 9¼@9½c; 18@20 lbs 9¼@9½c; Skinned Hams 10½@10¾c Shoulders, 6¾@6⅞c; Picnic Hams, 6¾@6⅞c; Bellies 9@10¼c PICKLED—loose—Hams, 10@12 lbs 9⅝@9¾c 12@14 lbs 9¼@9⅜c; 14@16 lbs, 9¼@9⅜c cash, 9¼@9⅜c March; 18@20 lbs, 9⅝@10c; Skinned Hams, 10@10⅛c cash, 10@10⅛c March Shoulders 6⅜@6½c, Picnic Hams, 6⅜@6⅝, Bellies 9½@10½c DRY SALTED—loose Shoulders, 5¾@5⅞c Short Fat Backs 6¼@7c, Short Clear Backs, 7¼@7¾c, Clear Bellies, 7⅛@8¼c, Rib Bellies, 7⅞c Extra Short Rib Sides, 6⅞@7c, Extra Short Clear Sides, 6⅞@7c Rough Sides, 6¾@7¼c Plates, 5⅞@6¼c; Jowl Butts, 5⅛@5¼c EXPORT CUTS—boxed—Long Cut Hams, 10@10¼c, Cumberland Sides 7¾@8c Long Clear Sides, 7¾@8c; Extra Long Clear Sides 7⅝@7½c; Short Clear Sides, 7¼@7¾c SMOKED—loose—Hams 10½@11¼c, Skinned Hams, 10⅝@11c Shoulders, 7⅝@7¾c; Picnic Hams 7½@7¾c, Short Rib Sides, 7⅝@7¾c; Rough Sides, 7½@7¾c Short Clear Sides, 7¾@7⅞c; Extra Short Clear Sides 7⅝@7½c; Breakfast Bacon, 10¾@11¾c

THE FLOUR PRODUCTION.

MINNEAPOLIS, Feb. 17.—The *Northwestern Miller* reports the weekly Flour output at milling centers, with comparisons, as follows:

*Minnesota and Dakota mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

The increase in the Flour output last week was 182,000 brls. It was about normal, while the week before it was abnormally small. The mills this week are running on about the same basis as a week ago. Out of the total of twenty-two, twenty were in operation to-day, and they promise to make between 325,000 and 340,000 brls.

While Minneapolis mills did not last week sell their output considerable business was done. It was usually on the upturns of Wheat that Flour was wanted, and when it was to be had at old prices bookings were made. Higher Wheat also had the effect of bringing in shipping directions freely and the mills are much better situated in this respect than heretofore. On the whole, domestic trade is described as quiet, as buyers are adverse to paying prices for Flour equivalent to the appreciation in Wheat.

In Patent it is not possible to do any foreign business. While importers have advanced their bids perhaps 1s 6d, and seem to evince more interest in Flour, they are still much too low in the limited number of bids they make. Holland in the last week has taken round lots of First Clear, paying 10½ guilders for it and the impression is that there has been a "short" interest in that direction. London bid some for this grade, but would not pay the price that Holland did. Millers are comfortably situated as to this product and have advanced prices considerably. Second Clear is steady but quiet, with little or no business doing in it at the prices asked by millers.

During the week, local mills have advanced Patent 10c per brl. and the range of prices now is $4 75@5 00 per 196 lbs in wood, f. o. b. Minneapolis.

Ohio Valley mills report improved trade, but they seem to be almost alone in this regard. An unstable rate situation has helped to place the mills in the Southwest in an uncertain position in the fixing of values for possible business.

The attached table shows the output of Flour at Minneapolis and Duluth, together with that of thirty-eight "outside mills" with a daily capacity of 29,600 brls, from Sept 1, 1903, to Feb 6, 1904 with comparisons:

	1903-4 barrels.	1902-3. barrels
Minneapolis	7,009 205	8,074,060
Duluth	587,200	845,625
Thirty eight "outside mills"	3,318,375	2,984,480
Total	10,914,780	11,904,155

These figures represent the consumption of approximately 48 116 000 bu of Wheat for the abovementioned period in 1903-4 against 52,668 000 bu a year ago. It is noticeable that the decreased consumption of Wheat resulted from 1,323,280 brls less Flour being made at Minneapolis and Duluth. In contrast, the outside mills increased their Flour output to the extent of 333,895 brls.

UNITED KINGDOM CROPS, 1903.

The agricultural produce statistics of Great Britain for 1903 as issued by the Board of Agriculture were discussed in the *Times* of Dec 12. Similar figures, dealing with the produce of the crops in Ireland last year, have now been published by the Department of Agriculture in Dublin. By combining the two sets of totals it is possible to acquire a comprehensive view of the produce in 1903 of the crops of the United Kingdom, and it is with this object that we have compiled the following table. It will be noticed to what an enormous extent the production of Oats exceeds that of Wheat and Barley in Ireland, being fully seven times as large. In Great Britain the production of Oats is only about one-sixth greater than the aggregate production of Wheat and Barley, as measured in bushels. Again, while in Ireland the production of Barley is five times that of Wheat, in England it is only one-fourth larger. The meagre extent to which the pulse crops—Beans and Peas—are produced in Ireland is very noticeable.

Estimated produce of farm crops in Great Britain, in Ireland, and in the United Kingdom in 1903:

Crop—	Great Britain.	Ireland	United Kingdom.
Wheat, bu	47,642 816	1,175,972	48,818 788
Barley, bu	59,474,041	5,832 855	65,306 896

Turnips, Swedes, t's	19,727,190	3,595,715	23,323,205
Mangels, tons	7,187 755	1,021 085	8,211,810
Hay, temp., cwt	73,430 344	27,085,010	100,515,424
Hay, perm cwt	121,632,062	76 958,220	198 590,282

It is well understood that the foregoing figures are estimated but every care is taken to ensure that they shall be as close to the truth as possible.

STANDS BY MACARONI WHEAT.

SALINA Kan., Feb. 14.—M A. Carelton, Cerealist of the Bureau of Plant Industry of the Department of Agriculture, the gentleman who was largely instrumental in the introduction of the harder Winter Wheat from Crimea in Kansas, and who is always on the alert for Grains that will stand the dry and the very cold weather peculiar to this climate, does not seem to agree with the Kansas millers in his belief that macaroni Wheat is a good Grain for this country. Mr. Carelton is high in his praise of macaroni Wheat, and he says that the Grain is particularly well adapted to the dry and semi arid region of the western third of the tier of the States from the Dakotas to the Gulf but the millers of Kansas look at the matter in a different light.

The vice-president of the North Central Kansas Millers' Association says that the Flour from macaroni Wheat is harder, darker and stronger in color and could only be used in limited quantities if produced in this State. It is true, he said, that the Wheat is well adapted for this climate, in fact it will grow in a climate where other Grain will not, but then the Grain isn't as satisfactory as the present hard Wheat, especially to the consumer.

He added that if the Grain was grown in this State to any great extent the mills would be compelled to remodel their present equipment, as it is hard for the Kansas mills to handle without being specially prepared for this particular Grain.

BOSTON WOOL MARKET.

BOSTON Feb 12.—The *Commercial Bulletin* says: "The demand for Wool is moderate this week, but there has been a well distributed trade in small lots both the large and small mills buying. Prices are unchanged, ruling strong for all medium and low Wools and steady for fine and fine medium. Buying has started in Arizona, where the 1904 clip is being shorn. At Phoenix, in that Territory, Boston buyers have paid 13c and 14c, the bulk of the arrivals being defective and much poorer than last year, when prices were 2c higher. Better than 14c is bid for the better clips. There is nothing new from foreign markets. A direct cable says the New Zealand markets closed firm.

"The shipments of Wool from Boston to date from Dec. 31, 1903, are 20,335,296 lbs, against 33,761,158 lbs at the same date last year. The receipts to date are 14 885,978 lbs against 19,573,337 lbs for the same period last year."

THE WEATHER CONDITIONS.

Feature of the map this morning is the general snowfall over the West and Southwest. This snowfall is heavy in Iowa, Missouri, Illinois, Indiana and Ohio. It is still snowing from Illinois eastward. There are general snows through Kansas, but they are light. There are light snows in the Dakotas. Temperatures are more moderate—about seasonable. These general snows are the needed condition. Even Kansas has at length some slight relief.

Snow will prevail in this section until Friday morning and from Chicago eastward it will be heavy. Temperatures will be slightly lower Friday, but will rise in the Northwest.

New York Central interests deny absolutely the report that they have borrowed $20,000,000 on notes or are contemplating borrowing any such sum for terminal improvments.

A bill to foreclose a mechanic's lien for $35,000 was filed against the Marseilles Land and Water Power Company, a $500,000 power company of Marseilles, Ill., in the United States Circuit Court, at Chicago, Tuesday, in behalf of contractors of Janesville, Wis.

Officials of the American Radiator Company expect a large business from Baltimore. The rebuilding of the district destroyed by fire will necessitate the use of thousands of radiators, and the company already has its representatives on the ground to secure contracts.

Leading Anthracite railroad company officials authorize a denial of reports published, Tuesday, that for special reasons there will this year be no spring reduction of Anthracite Coal prices. The usual reduction of 50c per ton in wholesale Anthracite prices will be put in force on April 1.

The Batavia, Ill., Supply Company, incorporated a year ago with a capital stock of $600,000, has gone to the wall and the property of the concern is reverting to some of the former owners. The concern operated quarries and mines and carried on the sale of Lumber, Coal and other supplies.

J. P. Morgan & Co. have issued a call to the underwriters' syndicate of the $10,000 000 Erie 4 per cent convertible bonds calling for 25 per cent of their subscriptions to the issue. This is the first call which has been made upon the syndicate and has been expected for some time. The 25 per cent is payable Feb 29.

Freezing weather has made the car shortages worse than ever on Eastern railroads and they are showing decreases in their earnings, but it is not due to diminution of tonnage. They all have ample traffic, but the weather will not let them move it. The car shortage is also curtailing the movement of Grain.

Articles of incorporation were filed with the Clerk of the Circuit Court of Warren County at Monmouth, Ill., Tuesday, of the Chicago, Joliet and Iowa Railway Company. The principal office is to be located in Chicago, and the capital stock is given as $1,625,000. It is proposed to construct a railroad from Chicago to the city of Monmouth, Warren County, Ill.

The annual statement of the Anaconda Mining Company of Cripple Creek shows that there is $22,503 in the treasury besides 392,992 shares of stock. There is $2,974 in bills receivable. On its 100 acres of Gold hill property thirty-five sets of lessees are at work. The production for the year aggregated 2,895 tons, having a gross value of $82 919, upon which the net mill returns were $45,528. In royalties $10,861 was received, which, with other accommodations, brought the receipts of the year to $16,671. The expenditures were $19,102.

The State Bank of Pittsburg, Pa., capitalized at $50,000, with deposits, according to a recent statement, aggregating $150 000, was closed, Saturday, by order of the State Banking Department. The State Bank of Pittsburg was organized in December 1896. It has been paying dividends at the rate of 4 per cent per annumn on its capital of $50,000, and had accumulated a surplus of $8,000 and undivided profits of $2,217. Last November it reported deposits of about $175,000, but since that time its business has been gradually falling off and withdrawals have been more numerous within the past two weeks.

The gross earnings of forty roads for the fourth week of January were $10,265,190, against $11,316,077 for the fourth week of January, 1903, a decrease of $1,050,887. Twelve roads show increases and twenty-eight decreases. Since July 1 the roads referred to above earned $44,828,148, a decrease of $1,598,165 over the $46,436,313 reported for the corresponding period last year. For the longer period thirty-five roads show increases and five decreases. For the month of January forty-eight roads earned $14,838,148, a decrease of $1,597,165 over the $46,436,313 reported for the month of January, 1903.

The Census Bureau, Monday, issued a report showing that the average weight of a Cotton bale for the crop grown in 1903 was 502 1-10 lbs, against 502 in 1902. This figure is obtained by actual weighing of 5,553,271 bales, 1,521 local Cotton weighers reporting. The average weight of commercial bales as pressed at ginneries was 483 1 in 1903 and 479.8 in 1902; average weight of square bales, 503.4 in 1903 and 502.6 in 1902; upland round bales, 247 8 in 1903 and 255 5 in 1902; sea island bales, 378.5 in 1903 and 385.1 in 1902. Applying these averages, the bureau finds that the Cotton ginned from the growth of 1903 up to and including Jan. 16 was equivalent to 9 525,896 bales of a 500-lb standard.

The most interesting feature of the statement made by the American Sugar Refining Company to the Massachusetts Commissioner of Corporations is the large increase shown in its holdings in other companies. The increase over 1903 amounts to approximately $6 500,000. In 1903 the statement showed an increase of about $6 000,000 over 1902. These increases are currently believed to be the result of the purchases of stocks of Beet Sugar concerns in various parts of the country. Within the last two years the report has been persistent that the American Sugar Refining Company had settled its fight with the American Beet Sugar Refining Company and that the Havemeyer company had acquired a large, if not a controlling, interest in its Beet Sugar rival.

The losses occasioned the Chicago City Railway Company by the strike of its car men last fall are indicated by the annual report, made public Tuesday, to have been considerably over $300,000. Net earnings for the year, instead of showing a gain of about $50,000, as would have been probable, in reality showed a decrease of $289,451, practically all due to the strike. Gross earnings for the year increased only $22,383 over 1902, as compared with an increase of $510,971 in 1902 over 1901. Operating expenses, on the other hand, increased $311,837 over 1902. As a result, the net earnings showed a decrease of $289,451. Depreciation charges were $80,000 less in 1903 than 1902. Earnings applicable to stock in 1903 were $1,687,223, as compared with $1,896,677 in 1902, a decrease of $209,454. This figures out 9 37 per cent earned on the $18,000,000 capital stock, as compared with 10 54 per cent earned in 1902.

The following statement has been issued regarding the disposition of the land of the Pullman Company ordered sold by the Illinois State Supreme Court: "A short time ago the Pullman Company applied to the Circuit Court at Chicago for an extension of the time granted it under the judgment in the quo warranto case for the sale of certain real estate in the town of Pullman. Upon proper showing made as to the limited demand for real estate in that region during the period originally designated for the sale, and because of the fact that all efforts made to sell the property, either in bulk or parcels, had failed, and that, while the company had succeeded in disposing of sundry important buildings and lots, the greater part remained unsold, the Court decided, upon the showing made, and after due discussion and consideration of the matter to extend the period of sale five years from the date of the application."

A judgment important to property owners generally and of especial interest to those along the line of the elevated railroads has been signed by Justice Bischoff, in the Supreme Court of New York, in a suit brought by John H. Hindley against the Manhattan Railway Company. The judgment awards to the plaintiff $47,348 for damages to the property No. 819 Sixth avenue, Manhattan, caused by the operation of the elevated railroad. Justice Bischoff in deciding the case overrules the contention of the railroad company heretofore upheld by the court that as the railroad has been built and operated more than twenty years, any property owner bringing suit at the present time, or at any time after the expiration of twenty years, was barred, the company claiming to have acquired the easements of light, air and access in front of the property by adverse possession by reason of such operation for twenty years. The court holds that the right of the company to operate the road is subordinated to the rights of property owners.

The abstract of the reports made to the Comptroller of the Currency, showing the condition of the 5,180 national banks of the United States at the close of business on Friday, Jan. 22, has been completed. The principal items are as follows: Loans and discounts, $3,469,195,013; lawful money reserved in bank, $614 620,152; total resources, $6,579,141,2.9; capital stock paid in, $765 861,640; surplus fund, $385,531,887; undivided profits, less expenses and taxes paid, $177,121,873; individual deposits, $3,300,619,898; United States deposits, $155,390,160. The most striking feature of the abstract is the large increase in individual deposits as compared with the reports for Nov. 17, 1903, and Feb. 6, 1903. The increases in specie and legal tenders were larger in proportion than the loan expansion since Nov. 17, and the percentages of cash on hand and of legal-reserves were correspondingly high. The percentage to deposits of cash on hand in the redemption fund and due from reserve agents was 28.33 per cent on Jan. 22, against 25 97 per cent on Nov. 17 and 27.70 per cent on Feb. 6 last year. The percentage of legal reserves to deposits was 23 per cent on Jan. 22, against 21.61 on Nov. 17 and 22.48 on Feb. 6 last year.

The new Pennsylvania notes are going abroad very rapidly and there is a strong demand for them. This is reassuring as indicating that foreigners are not unduly upset by war. If foreigners take a large amount of these notes, as seems likely, it will bring a lot of exchange into the market, which will help in financing the Panama payments.

ITEMS OF GENERAL INTEREST.

New York Exchange—no market.

Documentary Sterling firmer at 482½.

Chicago Bank Clearings to day, $26,752,127

Consols closed 5 16 lower, at 86¼ for money and 86¾ 5-16 for account.

Stocks of Flax Seed at Duluth this week are expected to increase 200,000 bu.

Estimated receipts for to-morrow are: Wheat, 20 cars; Corn 245 cars; Oats 150 cars; Hogs, 30,000.

Reported that 120,000 bu Wheat and 128,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 24,800 Hogs to-day, shippers 5,000, left over, 10 000. Market closed strong.

Activity in all the leading markets to-day, with more business than usual credited to outside operators.

The receipts of Hogs at Chicago for the week will be about 217,000, compared with 173,214 for the corresponding week last year.

Argentine cables say: "There is now a threat of a railway strike which may prevent movement of crops. Prospects of Corn are excellent as a result of refreshing rains."

A London cable says: "In the interior of Argentina there are complaints of the season being too dry. Holders are refusing to sell Wheat, and are holding for further advance in prices."

The receipts of Wheat at Liverpool during the past three days were 328,000 bu, of which none were American. Receipts of Corn, 240,000 bu, of which 181,000 bu were American.

Local Securities were slow, weak and lower, with losses of ⅛ to ⅝ on Biscuit, ¼ on Can preferred, 2½ on Edison, ½ on Metropolitan Elevated preferred, and 1 on West Chicago Railway.

Argentine Wheat visible is 5,088,000 bu, against 4,160,000 bu the previous week, and 2,576,000 bu last year. Argentine Corn visible is 1,200,000 bu, against 1,183,000 bu the previous week, and 187,000 bu last year.

Shipments of Wheat from Argentina this week were 2,888,000 bu, against 2,984,000 bu the previous week, and 1,724,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 12,988,000 bu, against 8,190,000 bu same time in 1903.

It was officially announced this morning that the Great Western will meet the Northwestern's cut of 2c per 100 pounds in Grain rates effective from the Missouri river next Monday. It is believed this actions will call forth another reduction by Northwestern.

Stocks in New York were slow, weak and lower. There was a disposition to sell of a realizing character. There is a growing belief in Wall Street that recent declines have discounted most of the unfavorable conditions. The losses were for the most part small. Money 1¾ per cent.

Shipments of Corn from Argentina this week were 654,000 bu against 471,000 bu the previous week and 4,000 bu for the corresponding week last year. Shipments since Jan. 1 reported at 5,066,000 bu, against 807,000 bu for same time last year.

Cotton in New York had no "bull" support early, and sold off in sympathy with disappointing cables from Liverpool. The European political situation caused realizing. The break was brief, and a sharp rally on Southern buying carried prices up. Closing sales were at gains of 23@25 points higher.

The shipments of Flax Seed from Argentina this week were reported at 1,520,000 bu, compared with 1,352 000 bu last week and 616,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 7,064,000 bu, compared with 5,328,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 1,291,000 bu, against 589,000 bu for the previous week and 2,739 000 bu for the corresponding week last year. Exports from July 1 reported at 35,371,000 bu, compared with 26,367,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,657,000 bu, against 1,746,000 bu for the previous week, and 2,713,000 bu for the corresponding week last year. Exports from July 1 reported at 103,397,000 bu, compared with 156 556,000 bu for the corresponding time in 1902-03.

Broomhall cabled: "Wheat at Liverpool opened higher on the American strength and then advanced further on the foreign political situation, and the resignation of the French Minister of Foreign Affairs in particular. An additional important factor was that Russian clearances of Grain the past three days were practically nothing. Corn at Liverpool was higher on spot. Good spot demand and in sympathy with Wheat."

Modern Miller says: "The Winter Wheat belt has experienced hard freezing weather with no protection to the plant except in the Northern section, followed by sleet or rain that was general throughout the entire Wheat country, except in the extreme Southwest, including the Territories. A steady cold prevailed, with no alternate freezing or thawing, no damage to the crop is apprehended."

The latest reduction in Eastern Grain rates to a basis of 2.6c per bu for Wheat, made by the Pennsylvania Railroad Company between Buffalo and Philadelphia, goes into effect to-day. The New York Central, the Delaware, Lackawanna and Western and the Erie have reduced their Grain rates from Buffalo to New York to meet the differential rate made to Philadelphia by the Pennsylvania and Lehigh Valley. As a result of the rate cutting, which is claimed to have been started by the Pennsylvania and Lehigh Valley, the Grain rates from Buffalo to the seaport towns have been cut in half within a brief period.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Millers have again advanced the price of Flour, owing to the continued upward movement of the Wheat market. The market, however, is nominal, as buyers have refused to follow the advances asked.

WINTER WHEAT—The market was very firm and sales to-day show further advance of 3c. Demand good and choice Wheat wanted by millers. No. 2 Red in store ranged at 98½c@$1 03 and fresh receipts free on board sold at $1 08 and ranged at $1 00@1 08. No. 3 Red fresh arrivals free on board quotable at $1 00@1 06. No. 4 Red nominal. No. 2 Hard at the river quotable at 93@95c. No. 3 Hard local sold at 90 and ranged at the river at 85@95c—outside choice. No. 4 Hard local sold at 86c for a choice car, largely soft Wheat, and sold at the river at 80@85c, with some offered at 75c without takers, and quoted as low as 72c.

SPRING WHEAT—Ruled firm and prices 2@3c higher. The demand was good and choice Wheat taken by millers; scarcely any arriving fresh and it is wanted. No. 1 Northern in store quotable at $1 00@1 10, with a sale of 10,000 bu at the top figure, fresh arrivals free on board ranged at 97c@$1 01. No. 3 Spring local sold at 85c and ranged at 85@97c for poor to very fancy hard variety. No. 4 sold local at 60@78c for common to fair and at 81@85c, with sales at the river at 60@79c.

REGULAR WHEAT—Gains of 2@3c were made for the day. Not in months have the market seen such rapid and violent changes accompanied by the desire of "shorts" to cover; not in years has the price been so high. The market was a large and general one. No. 2 Red Winter sold at $1 08, the highest in many, many years. The seaboard reported 15 loads for export. Sales here 10,000 bu. There was a wild day in May Wheat, with the changes violent and frequent. There was a semi-panic among the "shorts" in that month, many of whom were eager to get under cover, fearing a still further advance, owing to the fact that the outlook abroad is for additional countries to be drawn into the troubles now existing in the far East. At the opening of the day's business there were many open orders held to buy May Wheat, and had not the principal "long" supplied the demand the price would undoubtedly have been bid up to a much higher level. This selling not only checked the advance for the moment, but caused many of the smaller "longs" to throw over their holdings and secure the profits within easy reach. On all the soft spots where the offerings of May became scarce the price shot upward. The other futures sympathized with the May in a measure. The trade was large, the outsider as well as the room trader being in the market on a liberal scale. Liverpool advices called attention to the fact that Russia has been clearing no Grain the past few days. A *Broomhall* message said that the advances abroad had been caused by the strength in the American markets yesterday coupled with the foreign political situation and the resignation of the French Minister of Foreign Affairs in particular. An Argentine cable said that there was a threat of a railway strike which may prevent the movement of crops. The spot demand at Liverpool was reported as good. Advances abroad were ¾@1¼d at Liverpool for futures and unchanged to ½d better for spot, Paris ¾@1¼c and Antwerp ⅜c higher; London 1½@2¼d higher; Mark Lane 3d@6d up and English country markets 1s higher. Berlin was up 1¼c. Argentine shipments were 2,888,000 bu and the visible 5,088,000 bu compared with 1,724,000 bu and 2,576,000 bu respectively, a year ago. Cargoes afloat are quite strong. The Southwest is not getting the precipitation indicated and needed. The *Modern Miller* was non-committal in a way. Southwestern receipts (St. Louis and Kansas City) were 180,000 bu, compared with 74,000 bu a year ago; shipments from both points, 230,000 bu. Minneapolis Wheat stocks show a decrease of 580,000 bu for the week. Receipts at Duluth 38 cars and at Minneapolis 199 cars, a total of 237, against 280 cars yesterday, holiday a week ago, and 322 cars last year. Local receipts included 8 cars Winter, 9 cars Spring and no mixed, a total of 17 cars, against 0 cars last year. Included in the above was 1 car of contract grade. There were 32 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 20 cars. Withdrawals were 21,750 bu. Receipts at Western points were 409,435 bu, against 417,630 bu last year. At Eastern points 17,906 bu, against 28,512 bu last year. Shipments from Western points were 316,113 bu, against 121,001 bu last year, and from Eastern points no bu, against 765 bu last year. Shipments of Flour were 37,375 brls. Exports of Wheat in Flour were equal to 168,187 bu.

Future Deliveries of Regular Wheat—Active and higher.

FEBRUARY—Entirely nominal, and the closing was about 99¾c.

MAY—Sold at 99½c@$1 03. Opened with sales at $1 00@1 01; sold to $1 01¾, to $1 01½, to 99½c, to $1 01¼, to $1 00, to $1 01¼, to $1 01, to $1 03, to $1 02¼, to $1 03, to $1 02¾, and closed at $1 02¾.

JULY—Old Style—Sold at 91½@94⅛c. Opened with sales at 91½c to 91¾c; sold to 91⅞c, to 91½c, to 92⅛c, to 91⅝c, to 92⅝c, to 92¾c, to 93⅝c, to 93⅛c, to 93⅝c, to 93½c, to 94c, to 93⅝c, to 94⅛c, to 93⅞c, and closed at 93⅞c sellers.

JULY—New Style—Sold at 90⅛@93c. Opened with sales at 90⅛c to 90¾c; sold to 90⅞c, to 90⅝c, to 91⅛c, to 90⅞c, to 91⅛c, to 91⅝c, to 91⅜c, to 92¼c, to 92⅜c, to 93c, to 92⅝c, to 93c, to 92⅞c, and closed at 92⅞c.

SEPTEMBER—Old Style—Sold at 86⅞@87c and at 88⅝c. Opened with sales at 87c to 87¼c; sold to 86⅞@87c, to 87⅝c, to 87c, to 88⅛c, to 88c, to 88¾c, to 88½c, to 88⅝c, and closed at 88⅝c.

SEPTEMBER—New Style—Sold at 86@87¾c. Opened with sales at 86¼c to 86⅝c; sold to 86⅜c, to 86c, to 86¼c, to 86c, to 87⅛c, to 87c, to 87¾c, to 87½c, to 87¾c, to 87⅜c, and closed at 87⅜c.

CORN—The close showed gains of ½@1⅛c for the day. The trade was only moderate, the Wheat market being the attraction. Sales at the seaboard were 9 loads for export. Cash sales at Chicago were moderate—50,000 bu. While there was a sharp dip in the May future early on the selling of a million or more bushels by a prominent "long" in order to secure profits, that month reacted and closed within ⅛c of the best price reached. The most trade was in July. The latter ranged between 53⅜c and 55c, opening at former and closing at 54½@54⅝c. The same house that sold the May was a heavy buyer of July. The May premium over July is now 1⅝c. Liverpool reported a good spot demand, with the price up ¼@1¼d. Futures were ¼@⅜d better. Argentine reported the crop prospects as excellent as result of general and refreshing rains. The inspection here was 198 cars, but none of it was contract. Argentine shipments were 651,000 bu, and the visible 1 260,000 bu, compared with 40,000 bu and 187,000 bu respectively a year ago. Western receipts were 461 000 bu, against 465 000 bu a year ago. Clearances were 61,000 bu; for week 1 291,000 bu. Car lots were in better demand and more moderate supply. Feeling firm and prices unchanged to 1c higher. No. 2 closed at 52¼c. No. 2 Yellow closed at 53c. No. 3 closed at 43½@52c. No. 3 Yellow sold at 44@44½c, and closed at 44½@52½c. No. 4 sold at 39½@41c, and No Grade at 36@38c.

Corn by sample—Was in good demand, with the offerings fair. Feeling firm and prices unchanged to 1c higher. Sales on track and free on board: No Grade sold at 36½@38c. No. 4 at 37@48½c. No. 3 at 43@50c. No. 3 Yellow at 43½@45½c. No. 3 White at 43@50c. Ears at 45c. Billed through No Grade at 35@39c. No. 4 at 39@42½c. No. 3 at 43c. No. 3 Yellow at 43¼@44½c. No. 3 White at 42¾@43½c.

Future Deliveries of No. 2 Corn—Higher; the close showing advances of ½@1⅛c for the day. Business was mainly in May and July.

FEBRUARY—Closed at 58c nominal.

MAY—Sold at 55⅛@56½c. Opened at 55¾c to 55⅞@56c, sold to 55⅝c, to 55⅞c, to 55½c, to 55⅝c, to 55⅛c, to 55⅝c, to 55½c, to 56½c, to 56⅛c, closing at 56⅛c.

JULY—Sold at 53⅜@55c. Opened at 53⅜c to 53¾c, sold to 53⅝c, to 53½c, to 53⅝c, to 53¾c, to 53⅝c, to 54⅝c, to 54½c, to 55c, to 54⅝c, closing at 54½@54⅝c.

SEPTEMBER—Sold at 52⅜@53⅞c. Opened at 52⅜c to 52½c, sold to 52⅜@52½c, to 53⅞c, to 53⅝c, to 53¾c, and closed at 53⅝c asked.

OATS—The market hesitated early, but the advance in Wheat, the uneasiness over the war news and good commission buying, especially July and September, made a stronger market and prices advanced ¾@1½c, and closed at net gains of ½@1⅛c, May and September leading. There was good selling early without effecting prices. Small receipts were a factor, arrivals being 70 cars, with 150 cars expected to-morrow. Cash demand was good and prices steady to 1c higher. Sales were 60,000 bu. Export clearances were 1,300 bu. Car lots to go to store sold at 43½c for No. 4 White and at 43@44½c for No. 3 White. Standard closed about 43½@51¾c as to location.

Oats by sample were in active request, with prices steady on poor and 1c higher on good grades. Offerings were light and readily taken. Sales on track and free on board: No Grade at 31c. No. 4 White at 37@42½c. No. 3 at 40½c. No. 3 White at 42½@45½c. No. 2 at 42½@41c. No. 2 White at 46c. Billed through No. 4 White at 34½c. No. 3 White at 42¾@44c. Standard at 44c. No. 2 at 40½c. At the river, No Grade at 31c. No. 4 at 38c. No. 4 White at 35¾@40½c. No. 3 White at 41½@42¾c. Standard at 44c.

Future Deliveries of Contract Oats—Were active and higher.

FEBRUARY—Inactive. Closed about 42⅝c.

MAY—Liberal trading. Sold at 44@45½c. Opened at 44¼c to 44⅜c, sold to 44c, to 45⅛c, to 45⅛c at the close.

JULY—Increased trading. Sold at 40@40⅞c. Opened at 40c to 40⅛c, sold to 40⅝c to 40⅞c at the close.

SEPTEMBER—Active. Sold at 34⅝@35⅝c. Opened at 34⅝c, to 34¾c, sold to 35⅝c and closed there.

RYE—The market was more quiet and the feeling easier, with sales at ½c decline. Not much doing. The offerings were limited and so was the demand. Only one car received. There were no withdrawals from store here and no export clearances from the seaboard. No. 2 in store nominally 72c and fresh arrivals free on board quotably 72@74c. No. 3 quotably 65@67c.

Future Deliveries of No. 2 Rye—Quiet and ½c lower. February nominally 72c and March nominally 72c. May sold at 74c and closed with sellers at that figure. July nominally 72c.

BARLEY—There was a strong market. No surplus of any grade on the cash market. On the other hand offerings were small and buyers were taking to-arrive lots with some freedom. Low grade Barley for mixing was 1@2c better. In good demand on account of Oats being higher. Malt[illegible] in some cases brought a little more but no general advance for this quoted. Only 25 cars were inspected in. Sales of Screenings were made at 30@40c and market quotable at 30@43 for poor to choice. Barley feed or mixing, quotable at 41@42c basis. River billed sold at 40@41. Malting average about 43@47c, very dirty below, common 45@47c. Fair was about 48@50c, good 51@54c, bonus 55@57c, fancy up to 57@58c. A round lot of feed Barley in store sold at 42c. To-arrive sales of [illegible] malting Barley were made over a range of 50@54c.

SEEDS—There was a generally steady tone to the market for Grass Seeds, with Clover again slightly better, but no other changes. A small improvement in Flax developed, but only a small business was done.

Timothy—There was no essential change in the market. A few cars for March delivery were sold at $3 12½ and it was offered at that; this figure was the same as was asked yesterday. February or contract spot was nominally $3 05. Of cash Seed the offerings were small and some lots held over. Good quality quotably steady. Buyers not anxious for common lots. Country lots not materially changed and quotable at $2 75@3 25 poor to fancy; fair to good at $2 55@2 70, choice $2 75@2 85, and rough, dark and foul lots about $2 40@2 70.

Flax—There was ½c advance in prices for Northwestern cash Flax, and ½c improvement for May. There were rather wider fluctuations and more trading in Northwestern markets. Our market followed slowly. Very little business was done. No cash Flax on sale. There were no receipts posted to-day; two cars or 1,585 bu taken out. Minneapolis receipts were 29 cars and Duluth got 31 cars. No. 1 Northwestern or No. 1 from the Northwest was quotably $1 18 bid, and No. 1 nominal at $1 11; Rejected nominal $1 08@1 11, outside for choice Northwestern. February was nominal at $1 13. May sold at $1 13½ and that was bid.

Clover—Was firm, a slight improvement again quoted. Trade picking up somewhat and advices from outside were firm. Offerings remain small. Contract spot and March delivery nominal at $11 15. Country lots, common to choice, $8 00@10 75; fancy above, mixed with Buckhorn or other weed Seeds $8 00@9 00; poor, cleaned out of Timothy, very foul down to $3 00@6 00. Main run of such lots as come to market when ordinary to good quotable at $8 50@10 25.

Other Seeds—Remain quotably steady. Salable at former prices all around, but market devoid of offerings. Quotable: Hungarian, common and light color to choice, dark $1 50@1 85. Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05. Buckwheat firm, scarce and there is still some demand, good milling quotable at $1 25@1 35.

HOG PRODUCTS—There was a good general trade and active markets in the Provision list. Feeling manifested was stronger and higher prices were established. Outside orders were fairly numerous and local operators and packers traded with considerable freedom. The war situation and "bullish" sentiment in Grain were again the dominating influences. Hogs were higher at the Yards, but packers were reported as purchasing slowly. Commission houses and "shorts" were quite prominent on the buying side, while the selling apparently came from the "long" interests. Receipts of Hogs at the leading Western packing points were estimated at 68,000, compared with 61,700 the corresponding day in 1903. Foreign advices indicated no particular change in prices in that quarter, while domestic markets were firm. Receipts of Products were fair—of Lard and Meats about 20 cars. Shipments were moderate—of Lard and Meats about 100 cars. The shipping demand was somewhat better. Offerings just fair. Prices were firm and inclined to favor holders.

Mess Pork—Was quite active with good trade and the feeling developed was stronger. Commission houses were quite prominent on the buying side and part of the same was credited to local packers. "Shorts" accepted liberal quantities and prices advanced irregularly 52½c. At the improvement in prices offerings increased and prices settled back 27½c, the selling being chiefly in the way of liquidation. Toward the close prices rallied 17½@20c and last prices showed 42½@47½c advance. Shipping demand only moderate and offerings again light. Cash lots quotable at $15 37½@15 50.

MAY—Demand active and offerings fair. Sales were made at $15 17½@15 67½. Opened at $15 20 to $15 25, sold to $15 17½, to $15 22½, to $15 20, to $15 25, to $15 17½, to $15 32½, to $15 27½, to $15 67½, to $15 60, to $15 67½, to $15 40, to $15 57½, to $15 52½, to $15 60, to $15 50, to $15 57½, and closed steady.

JULY—Moderate offerings and in good request. Sales were made at $15 05@15 60. Opened at $15 05, sold to $15 10, to $15 07½, to $15 10, to $15 05, to $15 20, to $15 17½, to $15 60, to $15 30, to $15 47½, to $15 40, to $15 45, and closed steady.

Lard—Attracted a good deal of attention, the close showing 12½@15c advance. "Shorts" were good buyers at the start and commission houses purchased freely. Packers too were credited with taking on the May and before the demand was ratified the price advanced 15c. The principal "long" interest was supposed to have sold May early and bought July later. Scattered liquidation by "longs" caused prices to recede 5c, but the close was firm at outside figures. Liverpool unchanged and domestic markets were firm. Demand on shipping account light and offerings moderate. Cash lots quotable at about $7 67½@7 70. Loose lots called for moderately and offerings were just fair. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $7 12½. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 37½@8 50 for No. 1 and $7 87½@8 00 for No. 2.

MAY—In good request and offerings fair. Sales were made at $7 77½@7 90. Opened at $7 80, sold to $7 77½, to $7 82½, to $7 77½, to $7 82½, to $7 80, to $7 90 and closed steady.

JULY—Better demand and offerings fair. Sales were made at $7 90@8 07½. Opened at $7 90 to $7 92½, sold to $7 90, to $7 95, to $7 92½, to $7 97½@7 97½, to $7 95, to $8 00, to $7 97½, to $8 07½, to $8 05, and closed steady.

SEPTEMBER—Light trading at $8 15.

Short Rib Sides—A good trade was reported in the market for Short Rib Sides, and the feeling displayed was stronger. Higher prices ruled the close showing 15@17½c gain. Commission houses were prominent on the buying side from the start and part of the same was credited to packers. Prices were advanced 15c when liquidation by scattered "longs" caused a reaction of 5c. Toward the close the price advanced 7½c, and last prices were the best of the session. Shipping demand was better and offerings only fair. Cash lots were quotable at $7 12½@7 37½ according to weight.

MAY—In better demand and offerings fair. Sales were made at $7 25@7 42½. Opened at $7 25 to $7 27½, sold to $7 30, to $7 27½, to $7 35, to $7 32½, to $7 35½, to $7 35, to $7 40, to $7 35, to $7 42½, and closed steady.

JULY—Demand improved and offerings only fair. Sales were made at $7 37½@7 50. Opened at $7 37½, sold to $7 40, to $7 37½, to $7 42½, to $7 37½, to $7 47½, to $7 45, to $7 50, and closed steady.

Other Meats—Trade was fairly active and the feeling rather firm. Offerings were only fair. Demand was fairly active for the home trade. Export demand rather small. Green Meats in moderate supply and rather light demand, and prices ruled slightly higher. Pickled Meats in good request to fill increased orders and prices were maintained. Dry Salted Meats were in fair demand in a quiet way and prices favored sellers. Smoked Meats called for in fair quantities, especially in a jobbing way, and prices ruled steady. Closing ranged as follows:

GREEN—Hams, av 10@12 lbs, 9⅜@9½c; lbs 12@14 do ave, 9⅝@10 lbs 9½@9⅝c; 16@20 lbs 9¼@9⅜c. Skinned Hams 10@10¼c. Shoulders 6⅜@6⅝c; Picnic Hams, 6¾@7c; Bellies 9@10½c. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Feb. 18.]

The marketing of Hogs the past week has been more liberal than for some weeks previously, and has considerably exceeded the corresponding time last year. Total Western packing 585,000, compared with 475,000 the preceding week, and 550,000 two weeks ago. For corresponding time last year the number was 460,000, and two years ago 610,000. From November 1 the total is 8,040,000, against 7,730,000 a year ago, an increase of 310,000. The quality of current offerings is good. Prices at the close range a little higher than a week ago, prominent markets indicating an average of about $5 16 per 100 lbs. compared with $5 10 a week ago, $4 90 two weeks ago, $7 05 a year ago, $6 00 two years ago, $5 35 three years ago, $4 80 four years ago.

The speculative Provision market was fairly active the past week, and in a general way the tone was firm. The strength in the Grain markets, war conditions in the far East and firm Hog markets were the contributing causes of the strength. Foreign markets were strong, and at the close of the week some descriptions are higher. The export clearances of Product were moderate, and show a decrease as compared with the preceding week and a falling off compared with corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	592 000	492 000
Bacon, pounds	12,284,000	13,192,000
Total, Meats	12,876,000	13,684 000
Lard, pounds	9,004,000	12,118,000
Total, Product	21,880,000	25,802,000

MANCHURIA AS A WHEAT GROWER.

[From San Francisco Commercial News, Feb. 4.]

The possibility of any portion of the Orient ever becoming a great Wheat producer, able to supply not only its own neighboring districts, but to compete with our own country, Russia, Australia, Argentina, and India in exportation, seemed a few years ago so remote as not to deserve consideration, but the rapid growth of cultivation of this Grain in the great Liao Valley of Manchuria, a district of 62 500 square miles of rich, level, well-drained land, makes it not only possible but probable that a new competitor is entering the field of the Grain business. The entire valley is about 1,000 miles in length and is an excellent Wheat producing country, having regular climatic conditions and a temperature about the same as in the Dakotas; sowing season is in April and harvesting in September and October, with the rainy season coming without fail in the growing time. In addition to this large valley there is also the valley of the Sungari in Manchuria, a district larger than that of the Liao, but containing about the same amount of fertile land, as well as the valleys of the Amur and Ussuri and the great plains of Mongolia, a total stretch of country of enormous proportions and almost sure to be brought into the production of Wheat and Flour. Consul Miller of Niuchwang has made a very thorough investigation of the possibilities of the country and is convinced that its development will progress with great rapidity. In Manchuria, by the early part of 1904, and within three years, there will be fourteen Flour mills in operation with a combined capacity of 5,000 brls a day, and in the South Ussuri district, near the Pacific Coast, there are twelve mills of an annual capacity of 433,344 brls, while in the neighboring sections of Siberia several other mills are being constructed. From the valleys of Manchuria there is transportation to the sea by both water and rail and thence to the great market of China is but a short distance compared with the voyage across the Pacific.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Feb. 18.]

During the past week there has been just about enough severity in weather conditions, with variable temperature to cause a little uneasiness about its effect upon the Winter Wheat crop, which has lately been without snow protection over most of the area. A few correspondents from Southern Ohio Indiana and Illinois believe present weather condition is hurting the plant, but practically nothing of a definite nature in this respect is received. There has not been enough alternate freezing and thawing to cause much heaving of the plant. In regard to Kansas and the Southwest the concensus of opinion is that the plant is small, ground dry but that with rains at the proper time when the plant begins to grow in the spring it will come out all right. In the northern part of the Winter Wheat section the present crop promise is fair to good; in the southern it is fair to poor.

The tendency of farmers to hold all Grain, reported last week, is again reflected in this week's correspondence, and the aggregate movement must be relatively small; a few localities where holders are satisfied with present prices and letting go are exceptions.

Live Stock generally are doing very well. Some reports from the West, particularly Iowa, indicate that farmers are trying to feed up their soft Corn before the coming of warm weather.

ARGENTINE WHEAT CROP.

The latest estimate of the probable surplus of Wheat is by the *Handels Zeitung*, of Buenos Ayres. This journal says that damage was certainly done by the previous frosts, especially in the South of Buenos Ayres, but the loss from this cause was estimated not to exceed 170,000 tons, and the export surplus would probably reach 92 000,000 bu. against 64,000,000 bu last year, 24 000,000 bu in 1902, and 33,000,000 bu in 1901. The probable shipments during the next six months may, perhaps, to some extent, be judged by the comparison of previous years. We therefore give the total surplus and the shipments to Europe from Jan. 1 to June 30 in the past four years:

	Surplus. Bushels.	Exported to Europe, Jan. 1 to June 30. Bushels.
1904	*92 000,000	....
1903	64 0 0 000	41,600,000
1902	24 000 000	17,440,000
1901	33 20 000	25,200,000

THE WEATHER CONDITIONS.

The weather map shows light snows through Missouri, Eastern Iowa, Southern Illinois, and heavy general snows through the Ohio Valley. There are rains through Texas. In Kansas the only precipitation is a trace at Dodge. The Southwest does not get the precipitation indicated. Temperatures are more moderate, although still wintry.

In the extreme North the mercury at 7 A. M. was 30 above to 6 below; in Dakotas and Minnesota, 8 below to 14 above, in Iowa and Nebraska, 16 below to 18 above; in Kansas, Missouri, Illinois, Indiana and Ohio, 2 to 20 above. Milder weather is indicated.

Indications are the high pressure will advance eastward, giving fair and continued cool weather over the interior. The storm will advance to the Missouri Valley, giving cloudy and a tendency to warmer weather.

ITEMS OF GENERAL INTEREST.

Fire, Tuesday, at Pittsburg, Pa., caused a loss of $75,000.

The plant of the United States Gypsum Company at Wymore, Neb., burned, Tuesday. Loss, $50,000; insurance, $1,500.

At a meeting of the Boston Clearing House Association the Sub-Treasury was admitted as a member of the association.

A report from Evansville, Ind., Wednesday, said that a small lot of new Corn that had been held there 30 days had turned black.

The factory of the Berlin, Ont., Felt Boot Company, the largest of the kind in Canada, was destroyed by fire Tuesday. Loss, $150,000.

The Boston and Maine Railroad Company has declared its semi annual dividend of $3 00 per share, payable March 1 to stockholders of record Feb 15.

The new colliery of the Finn Coal Company at Carbondale, Pa., which had been in operation only three weeks, has been destroyed by fire. Loss $30,000.

The Chicago Telephone Company has filed with the county recorder a notice of the increase of authorized capital stock from $15,000,000 to $20,000,000.

The International Paper Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable April 1. Books close March 15 and reopen April 2.

The paint shop of the Delaware, Lackawanna and Western Railroad at Scranton, Pa., was destroyed by fire, Tuesday, causing a loss of $150,000.

The five-story building on Park Place, New York, occupied by Holbert's restaurant, the American Sports Publishing Company and other concerns, was destroyed by fire, Tuesday. The loss is estimated at $100,000.

The San Francisco Breweries Company has declared a dividend of 4 per cent on its preference shares for the past half year, payable March 1. In the corresponding period of last year the company paid no dividend.

Average cost price of Hogs at Chicago, Thursday, was $5 15, against $5 08 Wednesday, $5 32 a week ago, and $7 03 a year ago. Average the first four days of this week, $5 10, against $5 16 a week ago, and $7 06 a year ago.

New York Security and Trust and the Continental Trust companies of New York City announce that they will be merged shortly. The new concern will have assets of $70,000,000 and be second only to the National City Bank.

A Des Moines, Iowa, dispatch says: "Appraisers appointed by the court to examine the condition of the McCutcheon Bank at Holstein caused a sensation by filing a report, Saturday, indicating that a shortage of nearly $100,000 exists. The liabilities are $230,000 and the assets are $100 000, a considerable portion of which is not good."

Efforts of Currie Bros. to obtain a majority of the stock of the Columbus and Hocking Coal and Iron Company under options has been abandoned. The announcement has been made by a member of the firm of Currie Bros., who stated that, not having received a sufficient amount of options on the stock, they had given up the plans set forth in their circular of Jan. 23.

Official notice was given to the New York Stock Exchange, Thursday, by the Chicago Great Western Railway, of an increase in the outstanding amount of its common stock by $10,000,000, making the present common stock capitalization $50,000,000. The issue of this stock was authorized by the stockholders Feb. 18, 1903. A portion of the new issue was used to complete the purchase of a number of small connecting roads.

Judge Kohlsaat at Chicago, Wednesday, appointed two receivers in bankruptcy of the plant and assets of the American Malleable Iron Company of Chicago Highlands, near Barrington, Ill. This action followed the filing of an involuntary petition in the United States District Court on behalf of creditors of the concern, asking that the $200 000 corporation be adjudged bankrupt in accordance with the provisions of the bankruptcy laws.

Alonzo E. Locke was appointed receiver of the New England Brick Company, Friday, on application of the Old Colony Trust Company, which holds a first mortgage on the concern for $850,000. The company, which controls the brick manufacturing business of New England, is alleged to have defaulted the February interest on this mortgage, which was given to secure 6 per cent bonds. The company has $1,798,800 preferred and $1,087,500 common stock.

Amalgamated officials confirm the report of the sale of the Amalgamated Company stores to the party who was the manager of the stores for the company. It is claimed that these stores returned the Amalgamated Company a net income of $500,000 per annum, but that H. H. Rogers has always been against the company store policy, and sold them at the first opportunity. The Standard Oil Company has never maintained company stores, believing that it is bad business policy.

At the annual meeting of the directors of the United States Gypsum Company, which has just been concluded in Chicago, a change of management was decided on. No financial statement for the year was made public. The company is supposed to have had rather a disappointing year, owing to the depression in building during the greater part of the time. No dividend was declared on the $4,500,000 7 per cent cumulative preferred stock, which is now two years in arrears.

Committees ascertaining the values of the properties of the Tennessee Coal and Iron Company, the Sloss-Sheffield and the Republic Iron and Steel Company, are expected to report in March. It seems to be definitely understood that the plan now being worked out contemplates taking in only those properties of the Republic Iron and Steel Company located in the Birmingham district. It is not the desire of important interests in the proposed merger to hamper the plan by taking up properties outside the Southern district.

The Pressed Steel Car Company issued the annual report, Wednesday, for the year ended Dec. 31, 1903. The figures show that whereas the gross business of the company fell off about $7,100,000, or 21 per cent, its net profit decreased $1,800,000, or 40 per cent, owing to a heavy increase of $439,000 in charges, due to a retirement of a part of the company's 5 per cent first mortgage Gold notes. The year's surplus above charges decreased $2,278,000, or 6 per cent. A striking feature of the report is the item of materials on hand, in the assets, which shows a decrease of $2 973 220, or 65 per cent.

The Chicago *Inter Ocean* says: "Now that the Amalgamated Copper Company is about to secure the deferred dividends of Boston and Montana and Parrot companies, there is disposition in some quarters to believe that the company will increase its next dividend. The dividend will not be acted upon for two months yet, but unless the situation is clearer than at present it is entirely probable the company will continue a conservative policy and maintain the present rate and hold in its treasury the surplus which it may have to meet any possible emergency until such time as the Heinze litigations are fully and completely disposed of."

The Liverpool *Corn Trade News* of Feb. 4 says "Eupatoria, Russia, reports that the weather is favorable for the winter crops, the condition of which is satisfactory. On the other hand, we have an advice from the neighboring port of Theodosia which says that the weather is frosty, with little snow, and crop prospects are not considered satisfactory. Stocks of Wheat at Crimean ports have decreased a little lately, but are still very fair. The German consul at Odessa reports that the weather experienced in South Russia during December last was mild and rainy; later there was a light frost with snow. The weather suited the crops, and in consequence the condition of the plant on the small area seeded improved; however, in only a few districts are the crops really satisfactory."

The Chicago Railway Terminal Elevator Company of New York, which ten years ago issued bonds amounting to $2,600,000, has been placed in charge of a receiver. Eight elevators and three valuable sites for elevators at Chicago are scheduled as having been named in the trust deed given the Illinois Trust and Savings Bank to secure the bonds when they were issued March 1, 1894. The elevators are: The Air Line elevator, Galena elevator, City elevator, Union elevator, Fulton elevator, Iowa elevator, Northwestern elevator, and St. Paul elevator. Two of the elevators, the Northwestern and Air Line, have been destroyed by fire since the bonds were issued. The control of the Fulton and St. Paul elevators passed from the company when released from lien by the Illinois Trust and Savings Bank in 1898. The other properties passed to the management of Trustee Goodwin of Du Page County, Ill., Dec. 17, 1903, when he succeeded the bank as trustee.

INCREASED INTEREST IN THE MARKETS.

An increased speculative trade was transacted in Grain and Provisions during the week just closed, and the outlook favors a good business while stimulated by the war news. Outside operators are more inclined to trade, and professional speculators are considerably interested in the markets. The progress of the war, and the changes in the markets of the world, will be watched closely, and fluctuations in prices will probably be wide and frequent.

Decreases—Loans, $6,131,100; Legal Tenders, $414 800; Circulation, $185,500. Banks hold $24,506,600 in excess of legal requirements.

Broomhall cabled: "Wheat at Liverpool opened firm on the decline in Consols and Friday's heavy cargo sales. Undertone was very strong under the influence of covering, lack of sellers and further decline in Consols. On the advance there was rather liberal selling by a large house. Corn opened higher on covering and good speculative buying."

Stocks in New York showed remarkable resistance to the numerous unfavorable factors. The losses for the greater part were small, the exceptions being Anaconda, Consolidated Gas and Rock Island. There was a panicky feeling in Paris and weakness on the London curb. But the bank statement was favorable and imparted a better tone. Sales were 177,000 shares

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 170,000 brls of Flour and 293,000 bu Wheat, against 143,000 brls of Flour and 478,000 bu of Wheat the preceding week, an increase of 27,000 brls of Flour and a decrease of 185,000 bu of Wheat. For the corresponding week last year the exports were 146,000 brls of Flour and 553,000 bu of Wheat.

In the New York Cotton market, cables from Liverpool were disappointing, and while all our markets declined slightly at the start, domestic influences were such as to warrant a sharp rally. "Bullish" statistics, chief of which was a light port movement together with firm reports as to spot Cotton markets and as to Cotton goods markets were not without influence. "Bull" interests bought July on the advance, and Philadelphia interests bought May. Closing sales were 11@20 points higher.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Much higher prices are asked for all descriptions in sympathy with the sensational advance in Wheat but the buying side of the market is still holding off. Minneapolis millers ask $5 60 for Hard Spring Wheat patents.

WINTER WHEAT—The market was firm and prices 2@3c higher. Receipts small and not enough Wheat arriving to make a market. Demand good. No. 2 Red in store nominally $1 04½@1 07 and fresh arrivals free on board ranged at $1 01@1 10, with sale of a car at $1 10. No. 3 Red fresh arrival ranged at $1 00@1 08. No. 2 Hard at the river ranged at 95c@$1 00 and No. 3 Hard at the river at 85@[illegible]c.

SPRING WHEAT—Very quiet and prices 2@3c higher. Small receipts prevented trading. Choice Wheat in good demand. No. 1 Northern in store nominally 99½c@$1 04 and fresh arrivals free on board ranged at $1 01@1 05. No. 2 Northern fresh arrivals nominally 98c@$1 04. No. 3 Spring entirely nominal and quotable at 90c@$1 02. No. 4 Spring sold at 73@88c and ranged at 60@90c for poor to choice.

REGULAR WHEAT—There were advances of 2@3c for the day. There was a sharp let down in values toward the close on increased offerings and the fact that many bought on the bulge and were unable to sell around the top, forced their Wheat upon the market and caused the recession. Cash trade here and at the seaboard was moderate. There were sensational changes and violent advances in this market, May reaching $1 07 as a high point, compared with a close of $1 02¾ last night. Old July reached 96⅞c and new July was up to 96c, compared with closings yesterday of 93⅞c and 92⅞c, respectively. The war scare was the patent "bull" factor, with "shorts" bidding the price up on each other, coupled with the urgent demand from investors. News from abroad was more warlike than ever and the semi panic of the "shorts" was caused by fears of additional political complications in the far East over the two holidays that are to come. Consols closed ¼ lower. Cables were all higher, closing prices showing gains of ⅞d at Liverpool, ½@1⅛d at London, ½@¾d for spot at Liverpool, 1⅞c at Antwerp, ¾@1c at Paris, 1⅝c at Buda Pesth, and ⅛c at Berlin. Liverpool reported heavy cargo sales there and "shorts" covering in the futures market. English farmers' deliveries for the week were 256,000 bu at an average price of 81½c, compared with 336,000 bu at 80¾c a week ago, and 440,000 bu at 76⅝c a year ago. World's shipments for the week were estimated at 8,800,000 bu, of which 8,000,000 bu will be taken by Europe. A moderate change in the amount afloat is looked for. Northwestern Wheat receipts 1,806 cars, against 1,726 cars a week ago and 1,778 cars a year ago. Primary receipts for the week 3,772,000 bu, against 2,960,000 bu a year ago. Receipts at Duluth 46 cars and at Minneapolis 210 cars, a total of 256, against 237 cars yesterday, 477 cars a week ago, and 211 cars last year. Local receipts included 9 cars Winter, 7 cars Spring and no mixed, a total of 15 cars, against 22 cars last year. Included in the above was 2 cars of contract grade. There were 8 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 35 cars. Withdrawals were 4,900 bu. Receipts at Western points were 471,954 bu against 377,356 bu last year. At Eastern points 8,150 bu, against 41,287 bu last year. Shipments from Western points were 355,630 bu, against 110,043 bu last year, and from Eastern points 32,800 bu, against 184,225 bu last year. Shipments of Flour were 71,846 brls. Exports of Wheat in Flour were equal to 356,167 bu.

Future Deliveries of Regular Wheat—Active trade and prices higher.

FEBRUARY—Entirely nominal and closed about $1 02¾.

MAY—Sold at $1 02⅝@$1 07. Opened at $1 02¾ to $1 04; sold to $1 03, to $1 03¼, to $1 02¾, to $1 03, to $1 02⅝, to $1 03¾, to $1 03, to $1 04¼, to $1 04, to $1 07, to $1 05½, to $1 05¾, and closed at $1 05¾.

JULY—Old Style—Sold at 93¼@96⅞c. Opened at 94¼c to 93⅝c; sold to 94c, to 93⅝c, to 93⅞c, to 94⅜c, to 93¾c, to 93⅜c, to 94¼c, to 94c, to 94¾c, to 94½c, to 96⅝c, to 95¼c, to 96⅞c, to 95¾c, to 96c, and closed at 95⅞@96c.

JULY New Style—Sold at 92⅛@96c. Opened at 93c to 92¾c; sold to 93⅝c, to 92¾c, to 92⅛c, to 93¼c, to 93⅛c, to 93⅞c, to 93⅝c, to 94⅝c, to 94½c, to 95⅝c, to 95½c, to 96c, to 94¾c, to 95⅛c, and closed at 95⅛c.

SEPTEMBER—Old Style—Sold at 88⅛@91¼c. Opened with sales at 88½c to 88⅞c; sold to 88¼c, to 88⅜c, to 91⅜c, to 91c, to 91¼c, to 90⅜c, to 91c, to 90½c, to 90⅞c, and closed at 90⅞c.

SEPTEMBER—New Style—Sold at 87⅛@90c. Opened at 87½c to 87¾c; sold to 87¼c, to 87⅜@87½c, to 87⅛c, to 88½c, to 88⅜c, to 90c, to 89¾c, to 90c, to 89¼c, to 89¾c, and closed at 89¾c.

CORN—There were gains of ⅝@⅞c for the day, with considerable reaction from the top prices. Cash business moderate here and at the seaboard. There was a buying wave in Corn at the opening, when the room trading element took on the July in liberal amounts and there was some buying of the May by scattered "shorts." Prices were naturally higher on this demand, coupled with the abnormal strength in Wheat. Around the top prices reached, "long" Corn came out in lots to suit, and the early bulge faded away as quickly as it had come. Later there was renewed buying. There was no one interest prominent in the market, the trade being general. Liverpool was ⅜@⅝d higher. Liverpool reported the estimates on the Argentine crop as being reduced. Spot Corn there up ½@¾d. Local receipts was 249,000 bu and the shipments 157,000 bu., Local inspection was 288 cars, but none of it was contract. There were 128 cars switched from unlicensed to public houses. Primary receipts for the week were 4,270,000 bu, against 3,065,000 bu a year ago. Clearances was 331,000 bu. Car lots were firm and in some instances 1½c higher. No. 2 closed about 53¼c and No. 2 Yellow at 53¾c. No. 3 closed about 44@53½c. No. 3 Yellow closed at 45@53½c. No. 4 sold at 40@42½c and No Grade at 39c.

Corn by sample—Demand good and offerings only fair. Feeling firm with prices unchanged to 1½c higher. Sales on track and free on board: No Grade sold at 34@40c. No. 4 at 39@43½c. No. 3 at 42½@46½c. No. 3 Yellow at 44@46c. No. 3 White at 42½@45½c. Billed through—No Grade at 37@42c. No. 4 at 37@43c. No. 3 at 43@43½c. No. 3 Yellow at 44@44½c. No. 3 White at 43½@44½c.

Future Deliveries of No. 2 Corn—Unsettled and irregular and trade large. The close showed gains of ⅝@⅞c.

FEBRUARY—Closed at 53¾c nominal.

MAY—Sold at 55¾@57⅜c. Opened at 56¼c to 56½c, sold to 56⅜c, to 56c, to 56⅛@56¼c, to 55¾c, to 57¼c, to 57c, to 57⅜c, to 56⅞c, to 57c, closing at 56⅞@57c.

JULY—Sold at 54⅜c to 55½@55⅝c. Opened at 54⅝c to 55c, sold to 54½c, to 54⅝c, to 54⅜c, to 55½@55⅝c together, to 55c, closing at latter.

SEPTEMBER—Sold at 53¼@53¾c to 54⅛c. Opened at 53¾c to 53⅝c, sold to 53¼@53⅜c, to 54⅛c, to 54⅛c closing at latter.

OATS—There was a highly excited market with a large trade in July and September. They were bought by commission houses in general and advanced 1⅞@2c from the low point of the morning. War news and the advance in other Grains was the chief factor making a "bullish" feeling. The close was at net gains of 1⅜@1½c. May was not as heavily traded in as the more deferred months, but advanced 1⅛c and closed ¾c higher. On the advance heavy selling for profits became a factor causing recessions from the top. Cash demand was good and sales 75,000 bu here for shipment. The East is bare of stock as shipments have been delayed by the railroad congestion. Arrivals were 167 cars, with 235 cars estimated for Monday. There was 43 cars and 22,6[illegible] bu Standard from private to public houses. Seaboard clearances were 12,000 bu. Car lots to go to store were ½@1c higher. No. 4 White sold at 43@[illegible]¾c. No. 3 White at 42@45c. Standard at 45c. Standard in store closed about 42¾@43¼c.

Oats by sample were in active demand and all offerings cleaned up at ½@1c advance. Sales on track and free on board: No. 4 White at 3[illegible]@44½c. No. 3 at 41@41½c. No. 3 White at 43@46½c. Standard at 44@45c. No. 2 at 41¾c. No. 2 White at 44c. Billed through: No. 4 White at 42@42½c. No. 3 White at 42@43c. No. 2 at 42c. At the river: No. 4 White at 40@42½c. No. 3 White at 41@42½c. No. 2 at 42c.

Future Deliveries of Contract Oats—Were excited and higher.

FEBRUARY—Sold at 42½@43c. Closed at 42¾c bid.

MAY—Active. Sold at 43⅝@45⅛c. Opened at 43¾c, sold to 43¼c to 45⅞c at close.

JULY—Active and very strong. Sold at 40⅜@40½c and at 42⅝@43¼c. Opened at 40⅛c to 40⅝c; sold to 41¾@40½c, to 42¾@42¼c, to 41⅞c at close.

SEPTEMBER—Increased trading. Sold at 35¼@37¼c. Opened at 35⅝c, sold to 35¾c to 35¼c, to 37¼c, to 37c at close.

RYE—A firmer feeling existed again to-day and prices show 1c advance. Offerings light and demand moderate. The advance in Wheat helped the market some. There were no receipts to-day and no withdrawals from elevators. No export clearances reported. No. 2 in store nominally 71c, and a car fresh receipts free on board sold at 71c. No. 3 fresh arrivals quotably 65@70c.

Future Deliveries of No. 2 Rye—Firmer and 1c higher. Offerings light. February nominally 73c, March nominally 71c. May sold at 7[illegible]c, and closed at 7[illegible]c. July sold at 75c.

BARLEY—There was a good deal of snap to the market. Demand was good for all grades. Mixing Barley especially firm on account of higher Oats market. There was 1c advance. Malting grades very firm also. In some instances a little better was done. Besides a good cash trade to arrive lots sold well and some brought above late outside quotations. Screenings were quotable at 37@43c for poor to choice; they were scarce. Sales were, of choice, at 43c. Barley, feed or mixing, quotable at 41@43c local; very nice, or in special location, a shade over; river billed sold at 41@42c. Malting, low grade about 43@45c; common, 46@48c. Fair was about 48@49c; good, 50@54c; choice, 55@58c; fancy up to 60@61c. To-arrive lots sold at 50@61c.

SEEDS—A good deal of Timothy offered, but no Seed to speak of of other kinds. Timothy was heavy. Flax a shade better, and otherwise there were no changes.

Timothy—A good deal of cash Seed was offered. There also were a number of samples of lots to arrive submitted for bids. The supply was fully equal to the demand. Best grades could be called about steady and fair sale, but rough common lots were easy. March delivery sold 2½c lower, but afterward reacted. There was little or no comparative change in prices. Contract spot or February delivery nominal at $3 05. March sales made at $3 10@3 12½; closed at $3 12½. Country lots quotable at $2 25@3 25 poor to fancy; fair to good at $2 55@2 70; choice, $2 75@2 85, and rough, dark and foul lots about $2 40@2 70.

Flax—Everything in this market ruled about ½c higher, excepting May delivery which was unchanged. The market ruled exceedingly quiet. Little Flax moving in this market. Two cars or 1,459 bu received; 3 cars or 2,570 bu taken out. Minneapolis got 17 cars and Duluth 26 cars. No. 1 Northwestern or No. 1 from the Northwest was $1 18½ bid, and No. 1 nominal at $1 11½; Rejected nominal $1 08@1 11, outside for choice Northwestern. February was nominal at $1 11½. May sold at $1 13½.

Clover—Was quotably firm, especially if of good quality. There were no offerings hence no trading. Contract spot and March delivery nominal at $11 15. Country lots, common to choice, $8 00@10 75; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Main run of such lots as come to market when ordinary to good quotable at $8 50@10 25.

Other Seeds—Steady and firm; salable at former prices. Hungarian, common and light color to choice, dark at $1 50@1 85. Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05. Buckwheat scarce, some demand and steady to firm; good milling quotable at $1 25@1 35.

HOG PRODUCTS—A very good trade was reported in Hog Products and the feeling developed was a continuation of that prevalent yesterday, still higher prices being scored. The light run of Hogs and higher prices for the same together with the general bullishness all over the floor, was chiefly responsible for the action of the market. There was further buying for investment account and covering by "shorts" over the holiday. Packers also credited with purchases. Foreign markets were firm and Liverpool quoted Lard 6d higher, Bacon unchanged and Hams 6d lower. Domestic markets firm. Stocks are gradually enlarging. At the advance considerable realizing took place, but offerings were quite readily absorbed, and the last prices were about best of the day. Receipts of Hogs at the leading Western points were estimated at 43,800, against 41,100 one year ago. Receipts of Products were moderate—of Lard and Meats about 17 cars. Shipments, too, were smaller than of late, at about 81 cars. Shipping demand was reported as fair and offerings only moderate. Feeling firm and prices were higher for all descriptions.

Mess Pork—Was fairly active and stronger and closed 37½@55c higher. There was a rush to buy at the start, "shorts" and commission houses absorbing the moderate offerings, and prices advanced irregularly 42½c, then reacted 12½c, followed by a rally of 7½c. Prices were well maintained up to close, which was firm as noted above. Shipping demand moderate and offerings rather small. Cash lots quotable at $15 75@15 87½.

MAY—In good demand, but fair offerings. Sales were made at $15 60@16 00. Opened at $15 70 to $15 75; sold to $15 60, to $15 75, to $15 70, to $15 75, to $15 72½, to $15 85, to $15 8[illegible], to $15 90, to $15 80, to $15 95, to $15 85, to $16 00, to $15 87½, to $16 00, to $15 95, and closed steady.

JULY—Offerings were moderate and demand better. Sales were made at $15 47½@16 00. Opened at $15 47½ to $15 65, sold to $15 80, $15 70, up to $16 00, and closed steady.

Lard—Again attracted a good deal of attention, a further advance taking place, the close showing 12½@15c gain. Selling May and buying July by "bull" leaders a feature. Packers were also credited with buying. Selling chiefly in the way of securing profits. Foreign and domestic markets firm. Market started 2½@5c better, reacted 2½c, and then sold up 12½c, the upturn being well maintained. Demand on shipping account light and offerings moderate. Cash lots quotable at about $7 72½@7 85. Loose lots called for moderately and offerings were just fair. Prices were steady at about 5c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably firm at $7 75. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 50@8 62½ for No. 1 and $8 00@8 12½ for No. 2.

MAY—Demand more general and offerings only fair. Sales were made at $7 92½@8 05. Opened at $7 92½ to $7 95, sold to $7 92½, to $7 97½@8 00, to $7 95, to $7 97½, to $7 95, to $8 05 and closed steady.

JULY—Was in better request and offerings moderate. Sales were made at $8 07½@8 20. Opened at $8 10 to $8 12½, sold to $8 10, to $8 15, to $8 07½, to $8 17½, to $8 15, to $8 20, to $8 17½ and closed steady.

Short Rib Sides—Were stronger the close showing 30@32½c advance. Market was fairly active and offerings were taken by "shorts" and commission houses. Packing interests too were arrayed on the buying side. Selling was scattered and chiefly in the way of realizing. The start was 2½c better, reacted 5c, then advanced 22½c and steady and closed as noted above. Shipping demand was better and offerings only fair. Cash lots were quotable at $7 50@7 62½, according to weight.

MAY—Offerings were just fair and demand improved. Sales were made at $7 50@7 72½. Opened at $7 55, sold to $7 50, to $7 55, to $7 52½, to $7 65, to $7 62½, to $7 67½, to $7 65, to $7 67½, to $7 62½ to $7 72½ and closed steady.

JULY—In fair request and offerings moderate. Sales were made at $7 55@7 82½. Opened at $7 55 to $7 60, sold to $7 57½, to $7 77½, to $7 72½ to $7 82½ and closed steady.

Other Meats—Trade was only moderate and the feeling rather firm. Offerings were only fair. Demand was moderate for the home trade. Export inquiry rather small. Green Meats in moderate supply and rather light demand, but prices ruled slightly higher. Pickled Meats in good request to fill moderate orders and prices favored sellers. Dry Salted Meats were in fair demand in a quiet way and prices were slightly higher. Smoked Meats called for in fair quantities, especially in a jobbing way, and prices ruled steady. Closing ranged as follows:

GREEN—Hams, av. 10@12 lbs, 9½@9⅝c; lbs, 12@14 9⅝c; do. 14@16 lbs, 9⅝@9½c; 18@20 lbs, 9⅞@10c; Skinned Hams, 10½@10¾c. Shoulders, 6⅞@6⅞c; Picnic Hams, 6⅞@7c. Bellies 9@10½c. WEEKLY TRADE REVIEW.

MONEY AND STOCKS.

CHICAGO FRIDAY EVENING Feb. 12, 1904.

The money market was decidedly easy, with an increased demand and less disposition on the part of bankers to put out money at under 5 per cent. There was demand enough to take all the money they had to put out at 5 per cent, and in some instances higher rates were secured. A little currency is going to the country and some is being shipped this way. Country deposits are not changing materially and city deposits are holding their own. Supplies of commercial paper are moderate and there is a good demand. The impression is that the Baltimore fire will increase the demand and strengthen the money market, paper selling on the basis of 5 to 5½ per cent, which is considered a low rate. In New York time money was easier at 4 to 4½ per cent and call loans on the Stock Exchange were 1½ to 2 per cent.

New York exchange was firm at par to 15c premium and closed at 10c premium.

Sterling exchange was firm with rates the same as the previous week and offerings rather disappointing. Shippers sixty-day documentary sterling bills on London were 484¾ to 485.

A feature in Local Securities was the increased trading in bonds, which were taken at better prices. Interest in the investment list has been quiet. Speculation in stocks continued mainly to a few issues. Can preferred being the most active and fluctuated within a fair range. There were no new developments in the south stocks and trading was quiet. The annual report of the Chicago City Railway shows that the strike last year cost the company $300,000, and its net earnings were a little more than $224,000 over its stock. There is said to be trouble in Box Board interests over the selling agency, pri es being cut, but trading in its shares was light.

The New York Stock Market was characterized by indifferent trading on the part of the public. Those who have stocks are not inclined to sell them at present prices, and those without any are not disposed to buy. This condition of affairs on the public left the market in the hands of professionals and dealings were limited. There were disturbing factors in the situation in the Far East and War which it was feared might extend from Grain to other commodities and make securities loose for the railroads. These conditions combined with the war and the uncertainty of the future in it and moderate losses made by the banks in the movement of money to the interior kept transfers nervous and price changes for the greater part were confined to moderate limits. The public has felt the absence of the trading of many operators who have left Stocks for Grains and Provisions, as they offer better opportunities for large profits. The various pools were in the market to a moderate extent supporting their specialties. But in the case of Brooklyn Rapid Transit there was an effort to unload, which was made at the opening. The Cuban loan of $35,000 000 was largely over-subscribed. A sharp decline has occurred in Russian and Japan securities and there is weakness in all Government securities owing to the large public business which pervades Europe. Steel shares were moderately handled within a small range. The annual statement of Pressed Steel Car shows a net decrease of $7,400,000 or 67 per cent in earnings for 1903 and net profits decreased $2,765,000 or 40 per cent, while the net surplus decreased 87 per cent. These figures are significant of the poor state of disposition of railroads regarding equipment for the future. Bonds were active and steady. At the last the stock list showed fair losses for the week. Total sales on the New York Stock Exchange for the week were 1,284,000 shares, compared with 2,832,000 shares for the previous week, and 2,401,000 shares for the same time last year.

The principal Stocks traded on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

The Cotton market in New York, while failing to show the excitement and extreme breadth of fluctuations that has characterized trading the past three weeks, was active and erratic with several sharp advances and declines, and the average was higher. The "bull" interest is still adding a large line of July contracts and apparently is perfectly willing to sell back to "bears" on the rallies. The decline has stimulated the spot demand and with a falling off in receipts, the position of the holder is better than heretofore. The close as compared with a week ago showed gains of 13 to 17 points except on September which declined 9 points.

A better business was transacted in about all lines of merchandise, although cold weather was against a marked improvement, which is expected to set in as soon as temperatures moderate. The Southwest is well supplied in the way of goods and market and shipments of goods previously bought are being rushed. Prices on Cotton goods were firm, although buying was restricted to small lots. The unsettled conditions of the Cotton market. The woolens and silks were firm, particularly the latter, as the war between Russia and Japan is expected to interfere with the output. Business engaged in Iron and Steel circles. There has been 150,000 tons of Steel rails sold within the past ten days at $28.00 a ton. Large purchases of Steel bars and plates have been made, and increased inquiries for structural material are noticeable. The market has a decidedly better tone and prices are tending upward, particularly in Pittsburg. Southern Steel Corporation is in the market for 350,000 tons of pig iron which has had a good effect, as to-day the surplus. Furnaces are starting in different sections and the outlook is bright. Leather, hides and heavy hardware was taken more freely without any change in prices. Jobbers report the shipments from the mills very slow owing to congestion on the railroads. The movement of Lumber was restricted by cold weather and in consequence consumption was stimulated by it. Coffees were easy, although not changed in price. Sugars were quiet under moderate sales and a stronger tone to the Tea market. Collections were fair.

COMMERCIAL.

Another active week was witnessed on the Chicago Board of Trade, the largest in the history of the branch of the trade. The business was of large volume and the leading markets active and quite unsettled. Outside orders in Grain and Provisions were quite numerous and generally for larger quantities, and the local profe-sional operator traded freely on both sides of the various markets. The war news as received from the far East was of the pleasing kind, and the fear of any of further political complications in new quarters caused a feeling of great uncertainty to prevail. Bullish leaders appeared more or less during the session, the bullish aspect of Grain values abroad being one of the chief governing features. Liquidation and profit-taking, too, was much in evidence, but the offerings were quickly taken up on the indication of any decrease in the volume of trade and sharp fluctuations may naturally be expected in times like the present. Operators in consequence were disposed to modernize their limits and place orders on both sides of the market are quite a factor in shaping the trend of values. All contracts made for Wheat to-day, unless otherwise specified, are for No. 2 Red Winter Wheat, "country" value, and on such contracts a tender of No. 1 Red Winter Wheat, No. 2 Red Winter Wheat, No. 1 Northern Spring Wheat, No. 2 Northern Spring Wheat, No. 3 Hard Winter Wheat, in such proportions as may be convenient to the seller, subject, however, to the provisions of Section 5 of Rule XXI, shall be delivered. Contracts made for delivery to-day under orders on both sides of the market are quite a factor in shaping the trend of values. All contracts made for Wheat hereafter, unless otherwise specified, are for Wheat in store "country" value, and on such contracts a tender of No. 1 Red Winter Wheat, No. 2 Red Winter Wheat, No. 1 Northern Spring Wheat, No. 2 Northern Spring Wheat, No. 3 Hard Winter Wheat, in such proportions as may be convenient to the seller, subject, however, to the provisions of Section 5 of Rule XXI, shall be delivered. Contracts made for delivery to-day under all No. 1 Hard Winter Wheat and No. 2 Hard Winter Wheat delivered on such contracts BEFORE July 1, 1904, five cents per bushel shall be deducted. All No. 1 Hard Winter Wheat delivered July 1, 1904, two cents per bushel shall be deducted.

Foreign crop advices the past week were in the main reasonably favorable. Prospects are said to be poor throughout the United Kingdom as a result of continued unseasonable weather since sowing last fall. Mild weather, too, has prevailed in the north of Europe and the outlook for the crop is known conditions are fair to good. The condition of Winter Wheat in Russia is far from satisfactory, but is progressing favorably in Roumania, where there is an increase in the acreage sown, with an increase over the previous area of 4,6.0.0 acres. The outlook for the growing crops in India continues favorable. Corn is doing well in Argentina. The new crop is coming forward in fine shape and in good condition. Mail advices from Australia continue to report large yields of Wheat.

Primary receipts show changes to note in the crop outlook in the United States. Weather conditions the past week were quite severe over a large portion of the Winter Wheat belt and has caused more or less damage to the growing crop owing to lack of snow protection. The plant went into Winter quarters in poor condition, but through the Middle and Central Western States is supposed to be in fair condition, while the Pacific Coast and Southwest the crop outlook is also fair. Through the South and portions of the Southwest in Missouri and portions of Oklahoma the plant is said to be considerably injured and the outlook is rather unfavorable. The snow map as published by the Weather Bureau showed the line of snow protection as far south as the week previous, as has been, but does not extend further south than Middle Nebraska and Middle Iowa, and in these States bottoms more than a trace. Rains on the Pacific coast have improved the outlook for Wheat and Barley.

The movement of Grain from interior elevators and the farms was fair to past week considering the severe weather and bad roads. Receipts of Grain in Wheat values no doubt proved something of an inducement to holders and in certain quarters a disposition to realize was in force. In the Northwest the marketing of Wheat and Flax was reported moderate. The return of zero temperatures in that section possibly tended to retard the receipts at the primary points, although the movement was ahead of those one year ago. Through the West the movement of coarse Grains as well as Wheat were only moderate. In the Southwest Wheat continued to move in fair quantities the past week or ten days, but there is little or no accumulation at the principal distributing centers. Through the South and Southwest the movement of Grain was quite limited. Through the Central West the marketing of coarse Grains is said to be at the expense of the ear corn, growers not being disposed to sell Oats and Barley. Shipments over the Chicago Grain Eastward was restricted to a great extent by the congested condition of the railroads and could not be interfered with the moving of full 30 per cent of all descriptions. The advance in rates in the Southwest will probably enlarge the movement to that section. Exports of Flour and Wheat were fair, while those of Corn were light, for forward shipments were fair and cargoes on ocean passage held at higher prices. According to the weekly report of the visible supply of Grain in the United States and Canada, as compiled by the Secretary of the Chicago Board of Trade, there was a decrease in the stocks of Wheat, Corn and Barley and an increase in Oats and Rye.

Another active week was witnessed in Grain and Provision circles and prices on speculative articles fluctuated with considerable freedom. The feeling was unsettled and nervous, as displayed in all the markets owing to the Russo-Japanese war, the fear of other countries being drawn into the trouble causing a feeling of unrest among speculators in general. Routine news and influences in consequence did not have the customary effect on the various markets. The week started out with a stimulating tone, but the bulls were unable to hold it, and scored on all the principal Grain markets, Wheat making a new high record. Coarse Grains and Provisions sold up in sympathy and "bull" leaders became more aggressive on the "long" side. "Shorts" provided for outstanding contracts and fresh investment buying was in such evidence, more particularly the case with Hog Products. At the improvement established in values "longs" progressive and took profits, while the liquidation became quite general. Stop-loss orders were reached in many instances and added to the declining tendency of prices. Operators in the Pit were somewhat cautious the first of the week owing to the new rule making No. 2 Hard deliverable on contracts after July 1 at 2c discount. There was, in consequence, trading in new-style contracts for September delivery. On the break there was some reinstating of lines liquidated at higher prices and a sharp recovery in prices took place. The powerful influences which have been in force on Grain and weather and crop conditions here and abroad were features in Wheat. Outsiders continue to purchase Provisions on the breaks. Reports of congestion here and in the West for the season was reported at 8,000,000 bushels, against 7,730,000 in 1902-3, an increase of 3,000,000 Hogs.

There was a fair trade in each Grain the past week, the bulk of which was in Wheat, as well as Corn and Oats, showing some improvement. Sales were fair for the season, considering the rail situation and enhanced values. There is a good demand for Oats for spring shipment, the first bookings being made this week for Oats, with the strike clause inserted. Millers were after Wheat and the top prices of the week were paid for it. Sales were made to-day for No. 2 Red and No. 3 White. Corn sold well at times, but prices did not follow the rise in speculative values. Oats were in fair request and Rye continued quite active, premiums become more strained. Rates from Chicago Eastward are unchanged, but a cut of 9c has been made on export Grain rates from the Missouri River to Gulf ports. Between New and Norfolk, the rate being 15c per 100 lbs. Rates from West of the Missouri in Nebraska to Chicago and local rates in Iowa have been reduced 2c more per 100 lbs. Lake and Rail and the Great Western will meet it Feb. 22. Since the rate war started rates have been reduced to 8c. The Eastbound tariff is as follows:

To—	From Chicago. Domestic.	From Miss. River. Export.	Domestic.	Export.
Buffalo	12	13	20	17½
New York	20	15	22	17½
Philadelphia	18	14	20	16½
Baltimore	18	13½	19	16
Newports News	17	13½	19	
Buffalo		13	19	

Flour rates are 20c domestic and 16½c for export. Provision rates are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo have been reduced on Grain now there to 3c per bu on Wheat, 2½c on Corn, and 2c on Oats, with the usual differentials to other points.

Ocean rates on Grain firmer with a moderate demand. Rates on Grain are 3⅝d per bu from New York and 3d from Boston. Through rate on Wheat from Chicago to Liverpool is 11¼c per bu and Cork 11c. Provisions 41½c per 100 lbs and Provisions 44.05c per 100 lbs.

FLOUR—Higher for all kinds with the soft Winter Wheat descriptions in the lead in strength, with the Spring Wheat grades quiet owing to the small amount on sale. Other kinds of Winter Wheat Flour have been quite strong at the advances established. The Winter Wheat millers have a position that he bulls are never slow to ask for his output. In some instances millers in the same manner are 30c apart in their asking price for the same kind of Flour. There is a good firm demand from those who do not care to offer their Flour at all because they are entirely out of red Winter Wheat. Outside of the holdings of red Winter Wheat at Chicago the holdings of the country are about bare, and for some reason the millers do not seem willing to pay the St. Louis price in-store at the Chicago Flour market for Hard Spring Wheat. The demand for Spring is a fair demand and prices have been advanced some during the week, but at no time has the demand been equal to the amount of Flour on sale. While the wants of the bakers appear to be at this rush, Flour has gone unsold in a small-like fashion, and it has been a difficult matter to drive the buying side into harness for lots of any size. The export demand for Flour is quiet, but generally speaking the bids from abroad have been out of line. City mills are running on full time and are experiencing no trouble in filling their contracts for Flour or log delivered out on old contracts. The Northwestern and the Southwestern interior miller is offering very little Flour, and then at prices which are generally too far out of line to permit of any business being done. The following prices shows the range of sales for the week:

Rye Flour very scarce. Values too unsettled to quote reliably.

MILLSTUFFS—The market for Millstuffs has been very firm during the past week. The receipts have been small and the demand good. Light offerings prevented more business. Bran sold at $14 00 per ton and Shorts at $18 50@19 00 per ton in 100-lb sacks, sacks included.

WINTER WHEAT—There was another marked advance in this cereal during the week, prices advancing some 8c for regular in store and No. 2 grade, and for soft Red Wheat, while the Hard Winter Wheat advanced about 4@5c. There has been a good demand and all the arrivals were taken up readily up to Tuesday, when buyers fought shy at the high prices established and showed an indisposition to hold off for lower prices. The same on again ruled yesterday, but had difficulty in getting their Wheat. Local millers were the principal buyers, with some cars taken for shipment. The soft Wheat was preferred, especially the bright yellow Western, which brought the high prices. Even choice Hard winter met with good sale, as millers in some instances have substituted the Hard for the soft on account of the scarcity and high prices ruling for the latter. The receipts were on small and of choice red Wheat limited, but those of white were fairly large. Offers of Wheat has moved slowly, there being no call for it, and therefore did not partial of the general strength which existed for the better samples. The grade Wheat or the contract grades in store followed the fluctuations of the speculative market and held at fair premium over the Spring Wheat. No shipping business is transacted and no inquiries reported. Receipts for the week aggregated 1,8 cars, again 1 75 cars the previous week. There were withdrawn from public elevators 19,000 bu and from private warehouses 137,000 bu, making a total decrease of 156,000 bu. Stocks of contract Wheat, a decrease of 39,000 bu being known for the week; the stocks a year ago were 1,766,000 bu, a year ago they were 3,694,000 bu, against 1,746,000 bu the previous week and 1,000 bu, compared with 2,084,000 bu the week before, and 1,726 000 bu a year ago. Argentine shipments since Jan 1 were 12,968,000 bu, against 6,400,000 bu last year. Shipments from Australia and India will be supply in the chief ports of Argentine are now 5,068,000 bu, compared with 4,160,000 bu the previous week and 2,400,000 a year ago. Exports of Wheat from both coasts during the week were 1,057,000 bu, against 1,746,000 bu the previous week and 2,710,000 bu a year ago.

CORN—While this cereal has received considerable help from Wheat, individual strength has pervaded the entire market. The war in the far East was a help and the gains for the week were 3c for cash and corresponding advances in futures, between 5⅜c and 6c. When the fact is considered that the profit-taking in this cereal was of enormous proportions the market has done remarkably well to hold the gains made. Even the "average bear" has been predicting for some little time that with a light, cold weather the receipts of Corn would increase very materially and the Corn would be forced to show a lower level. The cold weather has been here for some little time, and while the receipts have increased somewhat, nearly all the Corn coming forward is No. 4 No. 3 and No. 2 Corn. The receipts are not as satisfactory as the "bears" would like to see them and with a greatly increased demand from foreign, as well as from the domestic trade in the interior, the chances so far favor the "bull" side of the market. In many sections of the Corn belt there is a general complaint of the lack of Corn in the hands of farmers and country shippers generally, while the farmer in many instances will have a very little Corn to offer, owing to the fact that there are now large numbers of Live Stock in the Corn belt that will have to be fed. Owing to the excessive and long drawn out cold weather of the winter has increased the feeding on the farm as elsewhere and cut down the movement in many instances. Cash Corn has been in good demand here in the West as well as in the East. It has been an impossibility to get the Corn to market, while on the other hand the seaboard shipments have been materially increased in the same way. And had but very little to say about Corn in its summary this week, except that there is a general disposition in the country to hold for higher prices. The situation in Corn at Chicago has not been as active this week as for several previous weeks. The Wall Street interest sold a large line of July Corn on the recent rally, and had some profits, while there has been a great deal of Corn covered by scattered "shorts" on which there were heavy losses. Prices at Liverpool were practically unchanged and there was a fair demand in the market. Advices from Argentina were generally "bearish," the crop in that country being reported as maturing quite favorably. The visible supply decrease for the week was 1,000,000, the total 7,764,000 bu, compared with 8,764,000 bu week ago and 10,490,000 bu a year ago. Liverpool strong. World's shipments 2,340,000 bu, against 5,000,000 bu the previous week and 3,000,000 bu a year ago. Amount on passage decreased 1,107,000 bu for the week. The world's available supply showed an increase of 217,000 bu for the week, compared with an increase of 1,107,000 bu the previous week. Receipts of Grain in Chicago public and private elevators 3,027,601 bu. There are now in Chicago public houses 2,781,000 bu, in connection Corn, an increase of 57,58 bu having been made for the week. A year ago the total was 2,103,383 bu, and a yearago 2,-119 bu. Argentine shipments for the week were 1,651,000 bu, against 1,400,000 bu the week before and 40,000 bu a yearago. Since Jan. 1 the shipments from that country have been 5,066,000 bu against 257,000 bu for the corresponding period a year ago. Australian shipments for the week were 1,-1,760,000 bu, against 1,440,000 bu the week before and 187,000 bu a year ago. Export clearances from the seaboard for the week, 1,291,000 bu, 880,000 bu the previous week and 1,-1,000 bu a year ago.

OATS—The market for Oats the past week was active, irregular, within a wide range. Prices were influenced largely by war rumors and by the action of Wheat and Corn, the latter being one of the leading bullish interests. There has been the large interests on the bull side, one headed by a local speculator, another by Louisville speculators, who have been heavy buyers the past week, and the Southern holders have greatly reduced their lines, taking advantage of all the strong points to sell. The commission house interest was large on both sides and local traders were heavy sellers on the week's ends. The "short" interest was reduced and the market showed the effect of it particularly in May and July on the widest fluctuations. It ranged between 42½ 43⅝c, and closed at 43⅝c a net gain of ⅝c. July sold between 39¾@39¾c, and closed at 39¾c a gain of ⅛c for the week. Cash Oats were in fair demand, but exhibited no special features, being sold at times by the largest buyers of the near futures. The sample market was strong and higher part of the time. Receipts for the week ended Saturday with the East was fair and exporters did a moderate amount. Arrivals were 1,-67 cars, compared with 1,-1 cars the previous week and 1,-1 cars a year ago. Export clearances were 80,000 bu, against 91,913 bu the previous week and 121,000 bu last year. The visible supply increased 162,000 bu the week and 7,-1 bu the corresponding week a year ago. Local stocks in public and private elevators increased 10,000 bu and are 1,-8,000 bu. Contract stocks increased 225,000 bu and are 1,-6,000 bu. Stocks in Chicago houses are 1,-1,000 bu, compared with 798,209 bu last year.

RYE—Market firm during the past week and prices have been fairly active and strong. Cash Rye showed independent action, and advanced, and held the advance in spite of the fluctuations in other markets. Strength in the market was, no doubt, due to the fact that there was a fair demand from the local interest in the market, and as the offerings have been very light and the present holders altogether indifferent about selling, operators experienced difficulty in getting the cereal and were willing to pay freely in order to cover. Holders had the situation under their control. The stock in store here and there was Rye coming on contract. Bulk contracts only an occasional car. Some of the lower grades received but not enough get Rye coming which can be mixed to bring a good deal of it up to No. 2. A fair amount was transacted in both spot and futures. Most of the trading has been of a spe. native character and nothing of importance, especially to affect values, trading also in July. The fresh arrivals were taken by the usual buyers and shared in the general firmness. Poor Rye did not improve to the same extent as the better grades, the cause being in the really sale for the purposes that there was for the choice. Receipts for the week aggregated 1,-1 cars, compared with 30 cars last week. There were 760 bu withdrawn from public elevators

Breadstuffs are sure to advance to a higher level. An Odessa cable says: "Market active and advancing. Local stocks are small." A Buenos Ayres cable reports holders of Argentine Wheat very firm in their views and not disposed to sell freely unless at higher prices. Local Wheat stocks decreased 41,000 bu and are now 2,240,000 bu, compared with 2,-1,000 bu same day a year ago. Total sales of Wheat in all positions at Chicago are now 5,000,000 bu. Estimates now in regard to the 1,067,894 bu of contract Wheat, a decrease of 39,000 bu being known for the week; the stocks a week ago were 1,766,000 bu, a year ago they were 3,694,000 bu, against 1,746,000 bu the previous week and 1,000 bu, compared with 2,084,000 bu the week before, and 1,726 000 bu a year ago. Shipments from Australia and India will be supply in the chief ports of Argentine are now 5,068,000 bu, compared with 4,160,000 bu the previous week and 2,400,000 a year ago. Receipts for the week aggregated 1,-1 cars, compared with 30 cars last week. There were 760 bu withdrawn from public elevators

and 16 cars from private warehouses Export clearances from the seaboard none The visible supply increased 34 000 bu and was reported at 1,119,000 bu, against 1,085,000 bu the previous week and 934 000 bu one year ago. The local stock in store was 310,000 bu and a year ago was 352,000 bu. No 2 in store opened nominally at 67c and ranged up to 73c. Fresh arrivals sold free on board at 66@67½c and later was nominally 75c, with a sale at the river at 65c. No. 3 fresh receipts sold free on board at 65@67c and at the river at 65@61c No. 4 at the river sold at 61@68c. For future deliveries of No. 2 Rye the market ruled firm, with fair trading. February nominally 62c to 73c. March nominally 64c to 74c. May sold at 64c, to 66@67c, and then to 70c. July opened at 62c bid and 64c asked, later sales at 65@66½c, and then 68c bid and 70c asked, and later was nominally 72@73c.

BARLEY—There was a steady to firm market. For some grades values at the close show 1c advance. The class of goods used for mixing were in very good request. Screenings sold over a range of 32@43c for poor to choice; it required something exceptionally fine to bring the outside price. Feed or mixing Barley local sold very well at 40@41c early to 41@42c later; closed firm Offerings of this class of goods were small, there was some trading in river billed at 39@40c and now and then 41c obtained. Malting grades spot sold very well. Daily attendance of buyers was fairly good. When at about steady on last week's closing prices buyers and sellers could get together, trade went very well. Receivers as a rule were steady in their views, while buyers were not over anxious. Main part of the supply came within the range of common to fair goods; there were scattered cars of good, but only occasional ones of very choice. For a low grade malting there was a range of 41@43c; common sold at 44@45c and fair at 47@48c, while good brought 50@53c and choice 55@58c; fancy was nominally higher. Business in to-arrive lots was more active Sales aggregating 475,000 bu were reported On a large part the prices could not be learned, but on sales as had the prices quoted there was a range of 48@59½c, outside for very fine goods. Taken all through there was a steady, healthful market, with prices somewhat better Receipts were 272 cars, compared with 302 cars the previous week and 305 cars two weeks ago. Taken from store 7,875 bu; there had been none taken out for some time previous to this There was only a small change in local stock; less than 2,000 bu decrease; quantity on hand was given as 49 652 bu; a year ago it was 1,223 bu. Visible supply decreased 158,000 bu, but remained after all quite liberal, being 4,614,000 bu, compared with 2,8?0 0 0 bu a year ago.

SEEDS—For a short time there was a little animation in the Timothy market, but it did not last, and all other lines at all times were quiet. Wintry weather continuing was somewhat unfavorable. Output, as a rule, suggested rather a quiet outside business, although a little better report on Clover was finally given. Taken as a rule, trade was very moderate, and the price changes were such that they would not call for much comment.

Timothy—There were no really important developments. On Tuesday a good deal of cash Seed came on sale and it met with a very good demand, holding steady. At other times the offerings were small, and at such times also buyers showed no great degree of interest. The output has remained very small, less than arrivals and much smaller than a year ago. This was suggestive of dull outside business. Early in the week the market was quite firm in tone. There was about 5c advance in prices, but it was subsequently lost, for the market eased off a little. Speculative business was of a limited volume, and confined really to first half of March and first five days of March delivery, which sales were at $3 15. The nominal opening for March delivery was at $3 10, and closed at $3 12½, with some sold Contract spot or February delivery was nominally $3 05@3 10; closed at $3 05 For poor to fancy Seed there was a quotable range of $2 25@3 15; still, at one time a small lot of very fancy brought $3 25 Fair to good country lots were usually around $2 55@2 70, with choice $2 75@2 80; common, rough Seed $2 35@2 50. Receipts and shipments with comparisons, were as follows:

Receipts the past week, lbs.	768 498
The previous week	1,063,050
Two weeks ago	642,391
Same time last year	1,426,2?6
Shipments the past week, lbs.	238,430
The previous week	311 7?3
Two weeks ago	249,510
Same time last year	1,991,490

Flax—The Flax market was practically neglected. There was no trading except now and then sales of a few cars. There was no speculative interest shown and futures were very quiet. In the Northwest the market also became dull, very quiet and heavy according to advices received The feeling was heavy and yet values did not change materially; there was about ½c decline, with a final reaction and steady closing Local movement was unimportant, and stock did not change, while in the Northwest there was a small increase. Receipts here were 29 cars, compared with 59 cars the week before and 79 cars two weeks ago. Taken from store 10 817 bu, against 20 4?7 bu the previous week and 31,875 bu the week before that. Local stock was 18,72? bu; a year ago it was 6 214 bu Duluth received 63,416 bu reporting 6,0?2,181 bu. Minneapolis decreased 18,580 bu and had 1,672,079 bu No 1 cash was nominally $1 11½ to $1 11, and No. 1 Northwestern or No 1 from the Northwest was quoted at $1 18 to $1 17½, with an occasional to-arrive car sold at a discount closed at $1 18 Rejected had a nominal range of $1 08@1 11, outside for choice Northwestern February was quoted early at $1 11½, later at $1 11 May delivery quotations ranged $1 13 bid, then $1 13½ bid and later $1 13 sellers, with finally $1 13½ again bid.

Clover A few small lots was all that appeared on the open market. They were usually of common to poor quality, some of them of very low grade Arrivals were very small, a comparison with a year ago show that. Output smaller than last year yet it exceeded arrivals. Cold weather has not been favorable for the trade On account of small offerings firmness prevailed, for good qualities at least. Best qualities finally advanced about 25c. Contract spot and March delivery was $10 75 early and $11 00 later. Country lots, common to choice, $8 00@10 75; fancy above, mixed with Buckhorn or other weed Seeds, $8 00@ ..; poor, cleaned out of Timothy, very foul, down to $7 00@8 00; inferior lower Main run of such lots as come to market when ordinary to good quotable at $8 50@10 25. Movement for the week with comparisons, was as follows:

Receipts the past week, lbs.	210,896
The previous week	39,502
Two weeks ago	189,337
Same time last year	530,781
Shipments the past week, lbs.	249,825
The previous week	45,170
Two weeks ago	321,463
Corresponding week last year	612,186

Other Seeds In this part of the market but very moderate offerings appeared There did a little Millet come on sale and it brought a shade over the late outside quotations, an evidence of firmness for that line. Of Hungarian none was seen. This description, as has been the case for some time, was quotably salable and firm. Range of prices given from day to day is in the table which appears elsewhere. Arrivals, according to the postings, were smaller than a year ago, also much smaller than the output. Movement for the week:

Receipts The past week, lbs.	449,073
A week ago	408,170
Two weeks ago	349 250
Same time last year	681,183
Shipments—The past week, lbs.	1,416,6?5
A week ago	841 165
Two weeks ago	899,552
Same time last year	592,900

Buckwheat was scarce. There were no open market offerings Cold weather has caused consumption of Flour to keep up and has kept alive a milling demand. Prices improved from an early quotation of $1 20@1 25 for good milling to $1 25@1 35.

HAY—The receipts for the week were 5,781 tons, against 6 30? tons for the previous week. Shipments for the week were 259 tons against 165 tons for the previous week. Choice grades of Timothy and Prairie Hay were in fair request during the past week, and a steady feeling prevailed. Prices were about unchanged. Low and medium grades were very dull and slow sale. The arrivals were large and the market was overstocked. The demand was extremely light and sellers could only effect sales by making concessions The bulk of the offerings were of poor quality and prices declined 50c per ton Quotations at the close ranged as follows: Choice Timothy, $11 50@12 50; No 1 Timothy, $11 00@11 50; No. 2 Timothy, $10 00@10 00; No. 3 Timothy. $8 00@9 50; Choice Prairie, $10 50@11 00; No. 1 Prairie, $9 00@10 00; No 2 Prairie, $8 00@8 50; No 3 Prairie, $6 00@7 00; No. 4 Prairie, $5 00@5 50. Inside prices on Prairie Hay are for State and outside are for Kansas, Nebraska and and Iowa Hay. Sales ranged at $7 50@12 25 for choice Timothy, $6 00@8 00 for Clover Mixed, $6 00@7 00 for State, and $7 00@10 50 for Iowa, Kansas and Nebraska Prairie Hay. Rye Straw sold at $9 00, Wheat Straw at 7 00, and Oat Straw at $6 25@7 00

COOPERAGE—A fair trade was reported in the market for Cooperage the past week and the feeling prevalent was quite firm. Offerings were only moderate and the demand better. Local packers accepted larger quantities and outside orders were fair. Pork Barrels were in fair request and steady at $1 22½@1 25 for ash and $1 32½@1 35 for oak. Lard Tierces were in better request and prices ranged at $1 62½@1 65, and closed steady. Ironbound Lard Tierces were quiet and steady at $1 52½@1 55 for six-hoop and $1 47½@1 50 for eight-hoop

HOGS—The receipts of Hogs the past week were fair and the quality not very good, in fact rather ordinary. Rather too many light weights for the requirements of the trade The market was only moderately active throughout most of the week and the undertone comparatively firm, in sympathy with the market for Provisions and Grain. Packers were a little backward about purchasing the first of the week, but took hold more freely the closing days. Shippers accepted a fair percentage of the offerings on orders from Eastern markets. Prices were advanced 15@20c on the whole range, and the appreciation was fairly well supported to the close. Sales during the week were made at $4 65@5 20 for light, $4 90@5 25 for rough packing, $4 85@5 45 for mixed, and $5 10@5 50 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 00@5 35 for fair to good averages At the close, about 10,000 Hogs remained in the pens unsold Pigs were in good supply and in fair demand, and changed hands at $4 00@4 75, according to size and quality. The receipts of Hogs at the other large Western packing points were liberal, and the quality not very good.

PACKING—A fair business was transacted in packing circles the past week. With rather a liberal run of Hogs fair quantities of Product were manufactured Mess Pork was made in very moderate quantities and other cuts of Pork very sparingly. Lard produced moderately, and the average yield was just fair, owing to the comparatively light weight of the Hogs. Only a small proportion placed in tanks. Domestic cuts of Hams made in very fair quantities, and the bulk packed by packers. Skinned Hams cut moderately, and only a small proportion sold from the block. Foreign cuts of Hams are still neglected. Shoulders cut in small quantities and a limited proportion sold from the block to the retail trade and sausage manufacturers. Picnic Hams made in very fair quantities and mainly packed by manufacturers Long Clear Sides and Extra Long Clear Sides made in limited quantities. Short Clear Sides made rather sparingly Extra Short Clear Sides made moderately by the principal houses Short Rib Sides made moderately. Extra Short Rib Sides made in fair quantities. Rough Sides produced in fair quantities and chiefly of medium averages. Bellies made in moderate quantities. Backs cut sparingly. Loins cut quite liberally for current wants. Foreign fancy and special cuts of Meats made in very small quantities.

PROVISIONS The market for Hog Products again attracted considerable attention the past week, and the volume of business was quite large The unsettled feeling in the Grain markets and general nervousness due to the Russian-Japanese war, coupled with the fears of further complications between Turkey and Bulgaria all had a tendency to create a feeling of unrest, and wide fluctuations in prices was the result. Outside orders again numerous, with the preference still given to the buying side, and local trading was brisk. "Shorts" were quite anxious about their outstanding contracts and purchased with considerable freedom. "Longs" realized on good sized quantities at the advance in prices. Packers were credited with selling to some extent but not as freely as during the week previous Speculative offerings were moderately free, and a good general demand prevailed New investors were credited with fair purchases. Supply of Hogs was rather liberal at leading points. Returns of the packing of the West for the week exhibited an increase of 125,000 Hogs compared with the corresponding week in 1903. Foreign markets were rather quiet early in the week, but somewhat stronger toward the close, with some improvement in prices Domestic markets were rather firm. The receipts of Products from the interior continue liberal, as packers were willing to sell moderately in addition to delivering on maturing contracts Shipments were fair of all kinds and somewhat widely distributed. Exports for the week were moderate, and in the aggregate were smaller than for the corresponding week in 1903. Early in the week the market was active, with sudden and frequent changes, and in most instances fair declines were scored. Later there was a more urgent and general demand, while the offerings became smaller, and prices advanced for all descriptions of Product. Last prices about the best of the week. Trading was mainly in contracts for May and July, with considerable business in transferring trades ahead. Stocks on hand are fair and mostly controlled by capitalists, which feature of the situation makes "shorts" a little cautious in their trading. The demand on shipping account was only moderately active during the past week, and chiefly for domestic wants. Exporters accepted only small quantities to meet limited orders. Merchants in home markets purchased rather moderately, and were slow to follow advances in prices. Offerings were rather free, but holders generally insisting on better prices in sympathy with the speculative markets. Sales were not very large, and prices favoring sellers. A few lots were accepted for midsummer delivery.

Pork—Another active week was witnessed under this head, the market ruling quite unsettled with price changes frequent within the limits established At times the market was most animated and excited, due to the war rumors and fears of more complicated political conditions in Europe. Fear of war between Turkey and Bulgaria was one of the disturbing influences. This feature encouraged some buying for outside and local account. Stocks on hand are only moderate and operators are a little cautious in their trading, as they could be easily controlled. Early in the week the feeling was not very firm, with a little pressure to sell and prices inclined slightly in favor of buyers. Long property came out in considerable quantities and prices receded. Later, the demand was quiet active and offerings were not very free. There was considerable competition for the offerings and prices rallied irregularly 50@52½c At the improvement there was a little pressure to sell and prices settled back 37½@40c on the whole range. At the reduction there was fair miscellaneous buying and prices were advanced 37½@40c This brought a little more property on the market and prices settled back 15@17½c. Again rallied 75@77½c, but settled back slightly. Market closed rather firm. Demand on shipping account only moderate in the way of filling small orders, and offerings were not very large. Prices ruled at about 10@20c discount on May figures, and at the close cash lots were quotable at $15 37½@15 50 Other cuts of Pork were called for sparingly, and offerings were only fair. Prices ruled higher on most descriptions.

Lard—Speculative operations in the market for Lard were of good volume the past week. Fluctuations were frequent within 30@37½c range, the close being 17½@22½c higher than last Thursday. Foreign advices were rather favorable to holders. Offerings were moderately free at times, and the demand was quite active. Trading chiefly in May and July contracts Early in the week the undertone to the market was comparatively easy, with a little pressure to sell, and prices ruled 12½@15c lower. At the decline the demand improved generally, while the offerings were moderate. A stronger feeling was manifested, and prices irregularly advanced 15@17½c. At this advance there was a little realizing, and prices receded 17½@20c, but toward the close rallied 30@35c, and the market closed comparatively firm. July commanded about 10@15c premium over May. The demand on shipping account was light and there was no particular pressure to sell A few trades were made at about 20c discount on May figures, and closed steady at $7 67½@7 70. Refined in only fair demand and prices entirely nominal. Loose lots were in fair demand and offerings were somewhat larger A few trades were made at 70c discount on May figures. Leaf Lard offered rather freely and the demand was active. Prices ruled steady, and fair sales were made at $7 00@7 12½, and closed strong at $7 12½. Neutral was in fair supply, with only a moderate demand. Prices ruled steadier, and at close ranged at $8 37½@8 50 for No. 1, and $7 87½@8 00 for No 2.

Short Rib Sides A good trade was reported in the market for Short Rib Sides the past week and the feeling at times was quite unsettled. Offerings were fairly free and the demand quite general. "Shorts" continue to accept fair quantities on the declines. Supply on hand is rather liberal and production continues moderate. Early in the week, there was a little pressure to sell, and prices ruled about 10c lower. Later, there was quite an active inquiry, with moderate offerings, and prices were advanced 25@27½c the outside on May. This improvement tended to enlarge the offerings again, and prices settled back 17½@20c Toward the close a little more strength prevailed, and prices rallied 32½@35c, and the market closed rather strong. Demand on shipping account was moderate, and offerings were somewhat limited. Trading chiefly in a quiet way to fill small orders from the South At the close cash lots were quotable at $7 12½@7 37½, according to weight.

Green Meats—There was not a great deal doing in Green Meats the past week Demand continues very moderate and the offerings just fair. Packers are not inclined to sell, while local curers were a little slow about purchasing Outside orders for only small quantities. Hams in fair request and prices slightly higher. Skinned Hams were called for moderately and offerings were small Prices ruled very firm. Shoulders were in light request and prices well maintained Picnic Hams were in fair request and prices favored sellers. Bellies were in light demand and prices were little changed

Pickled Meats Rather a good business was transacted in Pickled Meats and feeling prevalent was comparatively firm. Offerings were not very free local as well as outside packers still entertaining rather "bullish" views. While the demand was fair, buyers were a little backward about taking hold at the prices current. Moderate quantities, however, were sold for mid summer delivery. Foreign advices continue to favor holders Jobbers at distributing points were inclined to hold off buying. Supplies on hand are reported as fair Hams were in moderate demand and ruled firm. Skinned Hams were in fair request, but held above the views of buyers. Prices were a trifle higher. Shoulders were in rather light demand and prices well maintained Picnic Hams were in fair demand to fill small orders and prices firm. A few lots were accepted for mid summer delivery Bellies were in light demand and prices well maintained.

Dry Salted Meats—A fair trade was reported in Dry Salted Meats the past week The demand was about the same as of late and the offerings just fair Sales, however, were chiefly in the way of filling small orders for domestic account Foreign orders did not show any material improvement in fact, were rather limited Holders as a rule continue quite firm in their ideas, as many already have good sized contracts on hand for forward delivery Buyers in most instances were backward about buying ahead. Foreign cuts of Hams were in light request and prices little changed. Shoulders were in limited demand and prices were maintained. Long Clear Sides were in small request and prices without material change. Extra Long Clear Sides quiet and prices continue nominal. Short Clear Sides rather dull, but held steady. Prices rather favored sellers Extra Short Clear Sides called for in a small way, and prices favored sellers quotable at the close at 7⅛@7¼c. Extra Short Rib Sides were in limited demand and prices were firm, closing at 7⅛@7¼c Rough Sides continue in fair demand, especially for medium averages, and prices favored sellers, closing at 7@7⅜c, according to weight. Butts in rather light demand and firmly held at full former prices. Plates were called for moderately and prices were well maintained. Bellies were in moderate request and prices were well supported. Backs were in rather light request and prices ruled steady. Foreign fancy and special cuts of Meats were in limited demand and prices little changed.

Smoked Meats—Just a fair business was report-

...d in the market for Smoked Meats this week, and the feeling prevalent was quite firm. Offerings show little, if any, increase, and the demand confined mainly in the way of supplying the wants of jobbers. Stocks are reported fair. Hams sold fairly well and prices were firm. Skinned Hams in moderate request and prices were more favorable to sellers. Shoulders were in moderate demand and prices steady. Picnic Hams were in fair request and firm. Sides of all kinds were in fair demand mainly on Southern account, and prices ruled higher. Breakfast Bacon in moderate request, and prices favored sellers.

Beef Products—Only a fair trade was reported in the market for Beef Products and the feeling prevalent was rather firm. Holders adhered to full former prices, being quite "bullish" in their views, owing to political conditions in Europe and the far East. Foreign markets are still firm; also domestic. Cattle were again in fair supply and better grades commanded slightly better prices. Shipments of Dressed Beef were quite liberal. Manufacture of Products was fair. Beef Hams were in moderate demand and prices ruled firm. Extra Mess Beef called for in fair quantities and prices well maintained. Plate Beef in moderate demand and prices continue favorable to sellers. Extra Plate Beef in rather light request and prices ruled steady. Tallow was in fair supply and in moderate request at about former figures. Oleo-Stearine quiet and steady; quotable at 6⅞@7c.

Greases—There was not a great deal doing in Greases the past week. The demand was a little slow and the offerings only moderate. Rather a steady feeling was prevalent and prices not essentially changed.

THE WEATHER CONDITIONS

Texas has good rains and there are light snows in the Ohio Valley. It is snowing at Oklahoma. With these exceptions there is no precipitation. No snowfall in Kansas. Temperatures are some lower in the extreme North. West and Southwest they are seasonable. Some indication of colder weather.

ITEMS OF GENERAL INTEREST.

Fire, Thursday, at Charlotte, N. C., caused a loss of $125,000; insurance $40,000.

The price on Sugar was advanced 5 points, Friday, by the New York refiners.

The Portland Woolen mills, at Sellwood, a suburb of Portland, Ore., have been destroyed by fire. Loss, $150,000, insurance, $100,000.

The railroads of the country in three years have increased the amount of their outstanding Bonds and Stocks no less than $1 15[illegible],000,000.

The directors of Haywood Bros. & Wakefield have declared a semi-annual dividend of $3 00 per share, payable March 1 to stockholders of record Feb. 20.

Business failures in the United States and Canada for the past week were 307, against 253 the previous week and 273 for the corresponding week last year.

A receiver was appointed, Thursday, for the Michigan Electric Company, of Detroit. The total liabilities are said to be about $68,000, assets about the same.

Insurance experts are confident that the loss caused by the conflagration at Baltimore will not exceed $[illegible] and that it will not be under $[illegible].

Senator Clark has incorporated a $10,000,000 mining company, and named it the Original Consolidated Mining Company, for amalgamating his Butte mines.

The Chicago plant of the American Steel Foundries Company is to be removed to Indiana Harbor by next May and enlarged to twice its present size and capacity.

A small bank failure occurred in Berlin, Friday. In Paris there have been two failures on the Bourse, and it is believed that further suspensions will take place.

The Buffalo and Susquehanna Railroad Company has declared the regular quarterly dividend of 1 per cent on its preferred stock, payable March 1 to stockholders of record Feb. 16.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,734 2[illegible] 761, a decrease of 24 0 per cent compared with the corresponding week last year.

The Mexican import duty on Grain, 25c to 30c, has been reduced. This is to admit importation of Wheat and Corn to replete exhausted stocks and has been made for several years past.

A petition was circulated, Friday, on the Chicago Board of Trade for a change in the rules to admit of the delivery of No 3 Corn on future contracts at a penalty of 3c and of No. 3 White Oats on contracts for Standard at a penalty of 2c.

The Distillers' Securities organization and the independent concerns engaged in the manufacture and distribution and sale of spirits have reached an understanding with regard to maintaining prices on a uniform basis during the ensuing year.

A New York message, Thursday, told of a scarcity of spot Oats there owing to the railroad blockade. A car sold at 54c. The same Oats can be replaced for 48c. Oats for immediate consumption are so scarce that Canadian Oats were taken out of store and the 15c import duty paid.

Of the $2,000,000 6 per cent Gold bonds authorized last year by the Standard Steel Car Company, $1,000,000 were canceled recently. The remaining $1,000,000 now outstanding are dated May 1, 1903, and are due in 1913, but are subject to call at 105 after May 1, 1908, to the amount of $100,000.

It is said that the new company which will take over the Consolidated Lake Superior Company will be known as the Canadian Improvement Company. The counsel for the reorganization committee is quoted as saying that the new company will have about $40,000,000 capital stock, with bond issues of $13,000,000.

Estimates of the extent to which the United States Steel Corporation will share in the prospective rebuilding of Baltimore's burned area put it as high as $10,000,000 or $12,000,000 net. This would be the equivalent of an order for 1,000,000 tons of Steel rails to be delivered at intervals throughout the next twelve or fifteen months.

A special meeting of the stockholders of the Wabash Railroad Company will be held at Toledo, Ohio, on March 22 next, when the directors will recommend a stock increase of $50,000,000. According to President Ramsay, the stock will be issued to meet certain legal requirements imposed by the laws of Missouri and will remain in the company's treasury.

A London cable says: "Lloyds, Friday, asked a premium of 30 per cent, against an outbreak of an Anglo-French war within the next three months. This high rate is based on the fact that France has not given formal declaration of an attitude of neutrality toward the far Eastern belligerents beyond a vague statement by foreign minister Delcasse."

The stockholders of the Greene Consolidated Copper Company voted to increase the capital stock from $7,200,000 to $8,640,000, equal to 20 per cent. The increase amounts to 144,000 shares, par value $10 00 each, or $1,440,000. The number of shares that were voted in favor of increasing the capital stock was 478,000, while 8,100 shares were voted against it.

It is the intention of the American Telephone and Telegraph Company directors to issue some time within the next four or five months $15,000,000 bonds. Nothing has been determined upon as to the rate of interest the bonds will carry. That matter will be decided probably by the money market. Some talk has been heard regarding convertible bonds, but nothing beyond the fact that $15,000,000 will be needed has as yet been determined upon.

In the calendar year 1903 Louisville and Nashville earned 10½ per cent, compared with a little over 9 per cent in the calendar year 1902. The increase in gross earnings during the twelve months amounted to $3,833,291, or 11 per cent, and the increase in net to $1,101,600, or 10 per cent. The best part of these gains was made in the first six months. Gross earnings of the last half year show an increase of only $1,367,035, or 3 per cent, and net earnings an increase of only $179,580, or 3 per cent.

The decrease in net earnings of the anthracite Coal roads in December, as compared with December, 1902, was as follows: Reading, $310,434; Central Railroad of New Jersey, $213,297; Erie, $595,671; Ontario and Western, $144,915; Lehigh Valley, $219,196, Susquehanna and Western, $18,872; total, $1,495,375. The actual amount of Coal carried in December 1903, was 529,681 tons less than in December, 1902. There was a general decline in earnings in December, the losses being by no means confined to anthracite properties.

The total amount of stocks and bonds issued in Germany in 1903 was £43,712,000, a decrease of £7,890,000 as compared with 1902. Bond issues decreased £16,700,000 and industrial stock issues increased £17,230,000. The second half of the year showed a marked increase in the issue of securities over the first half. The Finance Minister of Germany states that owing to the revival of trade a surplus of $5,500,000 is expected for the year 1903 instead of the anticipated deficit of $17,750,000. The government hopes that it will not need to make any loan this year.

Under the provisions of the second mortgage indenture whereby the redemption and cancellation of the entire authorized issue of $250,000,000 5 per cent bonds are provided for, the United States Steel Corporation must on April 1 pay $1,010,000 to the sinking fund trustees. It is understood that the first payment has practically been arranged and that the sinking fund trustees, following instructions from the corporation, have secured second mortgage 5 per cent Steel bonds for the fund to nearly if not quite the full extent of the first payment.

All negotiations for a settlement of the differences between the Pennsylvania Railroad and the Gould interests have been terminated. The immediate cause was the absolute refusal of the Gould interests to abandon their project of reaching the Atlantic by an outlet of their own. The proposition for a settlement was based on the idea that the Western Maryland, the road over which the Wabash was to get into Baltimore, could be placed under the control of some other road, in which both the Pennsylvania and the Wabash could have an equal interest. This plan the Gould interests flatly rejected.

The Michigan Central Railroad is reported to have completed arrangements for operating its line between Ann Arbor and Detroit with electricity to meet the competition of trolley lines between those points. Officials of the Michigan Central do not admit that they have determined to use electric power on the Ann Arbor-Detroit line, but it is known that prominent stockholders in the Michigan Central hold the majority of the stock in an electric power company which has just been organized in Detroit. It is predicted that the installation of an electric line from Detroit to Ann Arbor will be commenced by the Michigan Central as early in the spring as the weather will permit.

At a meeting of the American Newspaper Publishers' Association in New York, Thursday, the famine in white paper was discussed and the following resolution, introduced by Conde Hamlin of the St. Paul *Pioneer Press*, was unanimously adopted: "That the American Newspaper Publishers' Association requests the President of the United States and the Attorney General to institute a suit against any of the three paper combinations to test the legality of their existence and whether they do not stifle competition." Committee report in favor of the accumulation of a fund of $10,000 to promote an agitation "for release from the oppression of the paper combination" was unanimously adopted.

There were 4,299 packages of Butter exported to Europe from New York this week.

The changes in the Chicago Produce markets were confined to Eggs which were 1c lower.

The receipts of Butter at New York this week were 31,880 pkgs, against 20,765 pkgs for the week previous and 27,836 pkgs for the same week in 1903.

Arrivals of Cheese at New York this week were 13,374 boxes, against 7,207 boxes for the week previous and 8,885 boxes for the corresponding week in 1903.

Receipts of Eggs at New York this week were 36,056 cases, against 36,302 cases for the week previous and 62,834 cases for the corresponding week in 1903.

STREET PRODUCE MARKETS.

BUTTER—The receipts at Chicago (not including through shipment) for the days mentioned were as follows:

	This week. Tubs.	Last week. Tubs.	Last year. Tubs.
Monday	3,078	4,070	4,874

The market is ruling firm for all lines of fresh goods. The offerings are light, stocks being kept well reduced, and the market is in a satisfactory condition all round. Local consumption is good; there are also fair outside orders received and packers are working up considerable stock. The severe winter has no doubt held down the production somewhat, the receipts being smaller than they were a year ago. There has been scarcely enough strictly fancy Butter on sale to meet all requirements. Firsts are not so scarce, but the offerings are small, and there is no supply to speak of on sale. Of Dairies the offerings are moderate and Roll and packing stock coming forward to a moderate extent.

Extras in Creameries are firm. Strictly fancy makes are scarce. The quotable price is 25½c, but it is almost impossible to buy, and special lines are held higher.

June Extras in Creameries meeting with fair sale and ruling steady at 19½@20½c.

Firsts in Creameries are quotably 20@23c and meeting with fair sale. Offerings fair.

Seconds in Creameries are quiet and quotable at 14½@16c.

Thirds in Creameries quotable at 14c. Very little of the receipts going into this grade.

Imitation Creameries in light supply and in light demand. Quotably about 16½@17½c.

Process Butter (renovated) is quotable at 17@17½c per lb.

Ladles are quiet. Offerings moderate. Demand light. Quotably about 14@14½c for No. 1.

Dairies are holding up well. The demand is fair and the offerings moderate. Very few really fine Dairies, suitable for table use coming. Most of the goods show wintry defects. Fine makes quotably 21@22c. Firsts are quotable 16@18c. Seconds or such goods as lack flavor and not of uniform color are quotably 13½@14c—occasional lots sell in with packing stock.

Packing stock is in fair supply and in moderate demand. Fresh sweet solid stock is salable at 12½@13c, and unless it is very nice it will not bring these figures, and ranges down to 8@10c for soft, cheesy drawing and rancid stock.

Roll Butter is in fair supply and meeting with a good demand. Supply fair, and fresh sweet stock salable at 12½@13½c—outside for solid stock—when crumbly 12c is all that can be obtained, and when nicely put up, each roll wrapped separately and all sweet, uniform color, it sells in a small way above current quotations.

BUCKWHEAT FLOUR—Offerings are fair and the demand is light. Most of the dealers are supplied. Western in a small way commands $2 25 @2 50 per 100 lbs. and car lots quotably $2 10 per 100 lbs.

BEANS—Demand was reported as very good. Arrivals were very moderate and stocks small. On account of bad weather the movement has been slow. There were reports from the country which indicate that the greater part of the crop has been marketed. Values ruled unchanged and the feeling was firm. Quotable:

Monday	3,712	3,722	4,948

The feeling is easy and the tendency favors lower prices. A decline of 1c occurred to-day. The receipts by railroad returns do not show any increase, but evidently will very soon, judging from the way Eggs are being offered to arrive. The express runs by the way were considerably larger, and this was looked upon as a forerunner of larger receipts. It is not so much the present as it is the immediate future which dealers have in view. The season is now getting well advanced, and while there may be surprises unlooked for to come, nevertheless the chances are against any lasting severe weather, when taking into consideration the snug winter this country has had so far. The demand was very light. Dealers aware of the freer arrivals all held off, and only a small part of the receipts sold at the established quotation to day; the bulk remained unsold, and there was every indication of these meeting with a lower market to-morrow.

Fresh Eggs at mark—as received from the country, cases returned—quotable at 26@28c per doz, depending on quality for fair to good lots.

Fresh Eggs at "mark," general receipts, new cases included, quotably 27@29c, and in shipping cases at 26½@28½c. Small miscellaneous lots do not sell for as much as large lots of straight packing.

"Prime Firsts" are quotable at 29c. To meet this classification the Eggs must be fresh gathered, be packed in new white wood 30-dozen cases, unless otherwise specified, shall be reasonably clean, of good average size, and between Feb. 15th and May 15th shall contain 85 per cent of fresh, reasonably full, strong, sweet Eggs; the balance, other than the loss, may be defective in strength and fullness, but must be sweet. There may be a total average loss of one dozen per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of the excess.

"Extras" are quotably 30½c. This is a very high grade of Eggs, put up by some of the city merchants to meet the requirements of a particular high class of trade. It requires going through a good many cases to get one case up to this standard, as nothing but large, full, strictly fresh-laid Eggs are taken.

Dirties very quiet; few of them; quotable at $6 25 @7 00 per case of 30 dozen, depending on quality.

Seconds, including small, shrunken and dirty, and there are not many on sale, quotable at $6 00@6 30 per case, depending on condition.

FRESH FISH—Only small consignments offered. Not much demand early in the week. It is best about Thursday.

Fine Bass, and Pickeral will sell at all times. Carp; Buffalo and Suckers are always dull. Perch of good size will sell. Sun Fish very dull. Occasionally a consignment is received.

Lent commenced Wednesday, Feb. 17, and there is more sale for fresh Fish.

Black Bass smaller than 11 inches in length, should not be sent to market; the State laws prohibit the marketing of Bass smaller than this. They are liable to confiscation.

Medium size Bass are preferred to large. The very large ones are not as desirable as the medium size for the reason that restaurants want to serve a whole Fish, and the large ones are too large to serve—they do not care to serve half a Fish.

The quotations given are for small lots received to be sold here on commission. The quotations do not represent the prices obtained by the regular Fish houses.

POULTRY—Live—The market was quiet and unchanged. There were only small receipts and only small offerings on sale, comprising some stock left over from Saturday. There was scarcely enough on sale to make a market. The demand was limited, there never is much inquiry on Mondays, but there was enough doing to take up the little stock there was on sale at about former prices.

Some of the young Chickens are coarse and young Roosters show large spurs and staggy, and buyers discriminate against these and will not pay as much for them.

Live Turkeys were quiet; not many offered and little demand for them. There are so many cull Turkeys among the receipts that buyers do not care to purchase.

Live Chickens were in light supply and in only light request. Market steady at unchanged prices.

Live Ducks are holding steady; they are in light supply and in moderate demand when fat and nice. Some are coming rather thin and these are slow.

Live Geese selling fairly well when fat, but the poor Geese are dull.

Quotable as follows:

Turkeys, old or young, good .... $......@ 12
Poor thin stock ....@ 8
Chickens, Fowls ....@ 11½
Roosters, old ....@ 7
Spring Chickens ....@ 11½

Geese, per doz, poor or plucked .... 6 00 @8 50
Good to choice, fat, full feathered.. 7 50 @9 00
Extra heavy, fat, selling higher.

Dressed Poultry—Nothing new to note in the market. The receipts were small, and the demand only of moderate character. Sales were slow and former prices asked. The nicely handled, not frozen stock received was disposed of to the usual buyers, but it was in a quiet slow way. The more ordinary and frozen stock coming also sells, but moves slower than the stock which is not frozen.

Dressed Turkeys remain steady. There is a light demand and receipts small. For selected Hens and young Gobblers, dry picked, fresh killed, 16½c was obtainable. Old Toms salable at 14c, and Culls at 11c.

Dressed Chickens in light supply and in light demand. Real fine stock sells, but of the receipts only a small portion is really fine.

Frozen Chickens do not sell as well as stock which is not frozen. A good share of the receipts are frozen.

Capons are moderate sale if six-pound average or heavier. Thin stock not wanted. Offerings moderate and consisted mostly of just fair stock.

Capons should weigh not less than six pounds, and eight pounds and heavier are more preferable. Some received which do not weigh over three or four pounds and these will not sell for scarcely any more than ordinary Chickens.

Dressed Ducks are in light supply and in fair demand. They remain scarce and firm. Nice, fat, clean stock is wanted.

Dressed Geese moderate sale. There were light offerings, and most of the Geese were of ordinary quality. They were small, dark colored, or red skinned, and such stock was slow. Fine fat stock fair sale.

POTATOES—Arrivals by car loads compare as follows:

	This week.	Last week.	Last year.
Monday	58	114	67

Local buyers took hold fairly, although the weather has turned colder and a heavy snow has fallen since Saturday, which made hauling slow. Receipts were fair on the two leading roads, the Northwestern and St. Paul. The few sales reported were at about Saturday's prices. A fair outside demand existed, bids being nearer asking figures than heretofore. Unloading was slow.

The storm in the Northwest is expected to make deliveries slow for a few days and cut off loading.

A good many cars changed hands to-day—2 cars sacked Rurals at 91c, 1 car bulk at 92c, 1 car at 90c.

STRAW—Rye Straw quotable at $8 50@9 00. Wheat Straw at $6 00@7 00. Oat Straw at $6 50@7 00.

SWEET POTATOES—There were reported in some cases one car and in some three cars receipts. The market ruled quiet. Weather again cold and not favorable. Fancy stock held steadily, no large quantity of this. Under grades plenty and easy. Quotable:

Barrels—

TAME PIGEONS—The demand is good for Live Birds; good flyers are wanted. Dead Birds are in moderate demand. Squabs are in fair supply and in fair demand. Squabs just ready to leave the nest, full feathered, are the most desirable. They are fatter before they commence to fly. However they should not be taken too young, as they must be feathered to make a good appearance.

Live, old, per doz, good flyers .... $1 25@1 40
Dead, old, per doz .... 85@ 90

VEAL—There was very little doing in the market to-day, but that is nothing more than the usual condition on Monday. Only a few butchers inquired for Calves, and packers selected an occasional Calf. The small and medium carcasses especially were slow; the inquiry which existed was more for fancy white-meated carcasses than for the poorer ones. The receipts were fair for a Monday.

The frozen carcasses do not sell as well as Calves which are not frozen. What buyers want who pay the best prices is Calves which they can dress out immediately. The frozen carcasses can not be dressed out for several days. They sold for ½c to 1c per lb less than the same grade of stock which is not frozen.

The health Department has notified commission merchants that the ordinance in regard to small Calves will be rigidly enforced. The health officers are watching the market closely.

GREEN FRUITS.

APPLES—Movement the past few days was a little larger, owing to more favorable weather. Local trade was good and outside orders are coming in more freely. Arrivals were small. Stocks in cold storage were reported as heavy. Eastern markets report a good demand on export account. Prices were unchanged and the feeling was firm.

HOW TO DRESS AND SHIP CALVES.

Calves from three to six weeks old, and weigh ing about one hundred pounds, or say from eighty to one hundred and twenty pounds, are the most desirable weights for shipment. The head should be cut out, so as to leave the hide of the head on the skin. The legs should be cut off at the knee joint. The entrails should all be removed, except the kidneys. The liver, lights and heart should be taken out. Cut the carcass open on the side through the entire length—from head to bumgut If this is done they are not so apt to sour and spoil during hot weather. Many a fine carcass has spoiled in hot weather because of it not being cut open. Don't wash the carcass out with water, but wipe out with a dry cloth. Don't skip out the animal heat is entirely out of the body, and never tie the carcass up in a bag, as this keeps the air from circulating, and makes the meat more liable to become sour.

It is very essential that the directions for dressing Calves be followed, especially in regard to letting the Calves cool off properly before shipping in hot weather, as hundreds of Calves are received in bad order and sold for not much more than the hides and tallow, after being freight. Numerous carcasses are also condemned by the health officers. They should hang up 6 to 8 hours or over night in an airy place to properly cool off before shipping.

Calves under fifty pounds should not be shipped, and are liable to be condemned by the health officers as being unfit for food. Merchants, too, are liable to be fined, if found selling these slunks, for violation of the law. Very heavy Calves, such as have been fed on buttermilk, never sell well in our markets—they are neither Veal nor Beef.

Fasten the shipping tag with your name and address written plainly thereon to the hind leg.

The best selling days for Calves are Tuesday, Wednesday, Thursday and Friday morning. The first and last days of the week there is not much demand, and after Friday morning there is a bad day afternoon and Saturday—buyers generally have their wants supplied.

Of course there is some demand every day, but usually the best days to sell Calves are Tuesday, Wednesday, Thursday and Friday morning.

The Boston and Maine Railroad Company has declared its semi-annual dividend of 2½ per share, payable March 1 to stockholders of record Feb. 16.

HOW TO DRESS AND SHIP POULTRY.

In the first place, Poultry should be well fed and well watered, and then kept from 18 to 24 hours without food before killing. Stock dresses out brighter when well watered and adds to the appearance. Full crops injure the appearance and are liable to sour, and when this does occur correspondingly lower prices must be accepted than obtainable for choice stock. Never kill Poultry by wringing the neck.

Turkeys, Chickens and Fowls by bleeding in The mouth or pan, the veins of the neck; hang by the feet until properly bled. Leave head and feet on and do not remove intestines nor crop. Scalded Chickens sell best. For scalding Chickens the water should be as near the boiling point as possible—about 180 degrees Fahrenheit; pick the legs dry before scalding; hold by the head and legs and immerse and lift up and down five or six times; if the head is immersed it turns the color of the comb and gives the eyes a shrunken appearance, which leads buyers to think the fowl has been sick; the feathers and pin feathers should then be removed immediately, while the body is warm, very cleanly and without breaking the skin; then "plump" by dipping ten seconds in water nearly or quite boiling hot, and then immediately into cold water; hang in a cool place for several hours or twelve in the shape you wish them to appear when cooled—hanging draws the breast muscles and makes them look thinner when cool and harder to pack) until the animal heat is entirely out of the body. Today pick Chickens properly, the work should be done while the animal heat remains; do not wait and let the bodies get cold. Dry picking is much more easily done while the body is warm. Be careful and do not break and tear the skin.

To DRESS TURKEYS—Observe the same instructions as given for preparing Chickens, but always dry pick. Pick when warm. Be careful that the tail feathers come off with a twist—a straight pull will "set" them. Dressed Turkeys, when dry picked, always sell best and command better prices than scalded fowls, as the appearance is brighter and more attractive. Endeavor to market old and heavy Turkeys before January 1, as after the holidays the demand is for small fat Hen Turkeys only, old Toms being sold at a discount to canners.

DUCKS AND GEESE—Should be scalded in the same temperature of water as for other kinds of Poultry, but it requires more time for the water to penetrate and loosen the feathers. Some parties advise, after scalding, to wrap them in a blanket for the purpose of steaming, but they must not be left in this condition long enough to cook the flesh. Do not undertake to dry pick Geese as the feathers pulling just before killing tends to loosen saving the feathers, as it causes the skin to become very much inflamed, and is a great injury to the sale. Do not pick the feathers off the head; leave the feathers on for two or three inches on the neck. Do not singe the bodies for the purpose of removing the down or hair, as the heat of the animal will give them an oily and unsightly appearance. After they are picked clean they should be held in scalding water about ten seconds for the purpose of plumping, and then rinsed off in clean cold water. For heavy stock scalding is preferred.

Before packing and shipping, Poultry should be thoroughly dry and cold, but not frozen; the animal heat should be entirely out of the body; pack in boxes or barrels; boxes holding 100 to 200 lbs are preferable, and pack snugly; straighten out the legs and wings, so that they will not arrive very much bent and twisted out of shape; fill the packages as full as possible to prevent moving about on the way; barrels answer better for Chickens and Ducks than for Turkeys or Geese; when convenient, avoid putting more than one kind in a package; mark kind and weight of each description on the package and mark shipping directions plainly on the cover

HOW TO DRESS CAPONS.

First be sure and not kill them until crops are empty, and that they are fat. A Capon is not as good as an ordinary Chicken, because if not large or a proper Capon they are not wanted as Capons or Chickens either. Leave feathers on neck from head down two-thirds way to the shoulders. Leave feathers on two first joints of wings. Leave tail feathers as in nature, tied up the back. Leave feathers on legs from knee joint two-thirds up the hips. All the rest of the feathers come off. Feathers that are removed should be saved and will sell if kept dry and clean. Be careful and keep the Capon clean. Wrap paper around head. Appearances add to the sale and of course price.

MANCHURIA AS A WHEAT GROWER.

[From San Francisco Commercial News, Feb. 4.]

The vast proportion of the Orient ever becoming a great Wheat producer, able to supply not only its own neighboring districts, but to compete with our own country, Russia, Australia, India and the Danube in export trade several few years ago so remote as not to deserve consideration, but the rapid growth of cultivation of this Grain in the great Liao Valley of Manchuria, the richest agricultural section of its level, well-drained land, makes it not only possible but probable that a new competitor is entering the field of the Grain business. The entire valley is about 1,000 miles in length and is a excellent Wheat producing country, having regular climatic conditions and a temperature about the same as in Kansas, suggesting sowing in autumn and harvesting in September and October, with the rainy season coming without fail in the growing time. In addition to this large valley there is also the valley of the Sungari in Manchuria, which is even larger than that of the Liao, but containing about the same amount of fertile land, as well as the valleys of the Amur and Usauri and the great plains of Mongolia, all of which have the same climatic proportions and almost sure to be brought into the production of Wheat and Flour. Consul Miller of Niuchwang has made a very thorough investigation of the possibilities of Manchuria and is convinced that its development will progress with great rapidity. In Manchuria, by the early part of September within three years, there will be fourteen Flour mills in operation with a combined capacity of 5,0.0 brls a day, and in the South Usauri district it, near the Pacific Coast, there are twelve mills of an aggregate capacity of 4,0 0 brls, with the neighboring sections of Siberia several other mills are being constructed. From the valleys of Manchuria there is transportation to the sea by both rail and river, and thence to Japan, the ports of China is but a short distance compared with the voyage across the Pacific.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Feb. 18.]

The marketing of Hogs the past week has been more liberal than for some weeks previously, and has considerably exceeded the corresponding time last year. The receipts were 595,000, as compared with 475,000 the preceding week, and 550,000 two weeks ago. For corresponding time last year the number was 490,000, and two years ago 510 000. The receipts since Nov. 1 reach 3,850,000, against 7,789,000 a year ago, an increase of 310,000. The quality of current offerings is good. Prices at the close range a little higher than a week ago, principal sales here reported being as follows: Packers, per 100 lbs, compared with $5 10 a week ago, $5 10 two weeks ago, $7 05 a year ago, $5 00 two years ago, $5 75 three years ago, $4 10 four years ago.

The speculative Provision markets were fairly active the past week, and in a general way the tone was firm. The strength in the Grain markets, the small receipts of Hogs and the firm markets were the contributing causes of the strength. Foreign markets were strong, and at the close of the week some descriptions are higher. The exports of Provisions from Atlantic ports for week show a decrease as compared with the preceding week and a falling off compared with corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	1,000,000	492,000
Bacon, pounds	12,384,000	13,192,000
Total, Meats	12,876,000	13,684,000
Lard, pounds	8,615,000	8,112,000
Total, Product	21,880,000	21,802,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since November 1, at undermentioned places, compared with last year, as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Feb. 18.]

During the past week there has been just about enough severity in weather conditions, with variable temperature, to stop the usual uneasiness about its effect upon the Winter Wheat crop, which has lately been without snow protection over most of the area. A few correspondents from Southern Ohio report that the absence of snow and severe weather condition is hurting the plant, but practically nothing of a definite nature in this respect is received. There has not been enough alternate freezing and thawing to do any material damage to the plant. In regard to Kansas and the Southwest the concensus of opinion is that the plant is in small ground and is suffering with a lack of proper time when the plant begins to grow in the spring it will come out all right. In the northern part of the Winter Wheat section the present crop prospects is fair to good; in the southern it is fair to poor.

The tendency of farmers to hold all Grain, reported last week, is again reflected in this week's correspondence, and the usual spring movement must be relatively small; a few localities where holders are satisfied with present prices and feeling go are exceptions.

Live Stock interests are doing very well. Some reports from the West, particularly Iowa, indicate that farmers are trying to feed up their soft Corn before the coming of warm weather.

ARGENTINE WHEAT CROP.

The late t estimate of the probable surplus of Wheat is by the *Handels Zeitung*, of Buenos Ayres. This journal says that damage was certainly done by the prevalent frosts, especially in the South of Buenos Ayres, but the loss from this cause was estimated not to exceed 3 0,000 tons, and the export surplus would probably reach 2,000,000 bu, against 64,000,000 bu last year, 84,000,000 bu in 1901, and 83,000 000 bu in 1901 The probable shipments during the next six months may, perhaps, to some extent, be judged by the comparison of previous years. The following figures give the total and the shipments to Europe from Jan. 1 to June 30 in the past four years:

	Surplus. Bushels.	Exported to Europe, Jan. 1 to June 30. Bushels.
1901	84,000,000	39,000,000
1902	41,0 0,000	41,600,000
1903	64,000,000	25,440,000
1904	25,000,000	25,200,000
1905	78,000,000	55,120,000

ITEMS OF GENERAL INTEREST.

The Toledo Railway and Light Company reports a surplus of $22 359 for January, a decrease of $1,240.

Counsel for the receivers of the Tennessee Coal properties of the Tennessee Coal and Iron Company, the Sloss-Sheffield and the Republic Iron and Steel Company, are expected to report in March. It seems that the industry underwent a bad plan now being worked out contemplates taking in only those properties of the Tennessee Coal and Iron Steel Company located in the Birmingham district. It is the belief of many of the interests in the proposed merger to hamper the plan by taking up properties outside the Southern districts.

The Pressed Steel Car Company issued the annual report, Wednesday, for the year ended Dec. 31, 1903. The figures show that whereas the gross business of the company fell off about $7,000,000, or 21 per cent, the profits decreased but $1,000,000, or per cent, owing to a heavy increase of $4,0 0,000 in charges, due to a retirement of a part of the company's 5 per cent first mortgage Gold notes. The year's surplus above charges amounted to $2,276,826, or 6 per cent. A striking feature of the report is the item of materials on hand, in the assets, which shows a decrease of $2,924,239, or 30 per cent.

The Chicago *Inter Ocean* says: "Now that the Amalgamated Copper Company is about to secure the deferred dividends of Boston and Montana and Parrot companies there is opposition in some quarters to believe that the company will increase its next dividend. The dividend will not be acted upon for two months yet, but unless the situation is clearly misread at present it is highly probable the company will continue a conservative policy and maintain the present rate and hold in its treasury the surplus which it may have to meet any possible emergency until such time as the Heinze litigations are fully and completely disposed of."

The Liverpool *Corn Trade News* of Feb 4 says "Reports from Russia continue to represent it as favorable for the winter crops, the condition of which is satisfactory. On the other hand, we have to add our from the neighboring port of Theodosia which says that the Winter Wheat is buried in deep snow, and crop prospects are not considered satisfactory. Stocks of Wheat at Crimean ports have decreased, and are now held entirely by very few. The German consul at Odessa reports that the weather experienced in South Russia during December last was mild and rainy; later there was a little frost with snow. In consequence of the crops, and in consequence the condition of the plant on the small area seeded improved; however, in only a few districts are the crops really satisfactory."

The Chicago Railway Terminal Elevator Company of New York, which ten years ago issued bonds amounting to $2,5 0,000, has been placed in charge of a receiver. Eight elevators have valuable sites for elevators at Chicago are scheduled as having been named in the trust deed given the Illinois Trust and Savings Bank to secure the bonds when they were issued March 1, 1894. The elevators are: The Air Line elevator, Galena elevator, City elevator, Union elevator, Fulton elevator, Iowa elevator, Northwestern elevator, and St. Paul elevator. Two of the elevators, the Northwestern and Air Line, have been destroyed by fire since the bonds were issued. The control of the Fulton and St. Paul elevators passed from the company when released from lien by the Illinois Trust and Savings Bank in 1898. The other properties are subject to the mortgage. Judge Goodwin of Du Page County, Ill., Dec 17, 1903, when he succeeded the bank as trustee

The Italian Corn crop is officially estimated at 65,000,000 bu against 68,960,000 bu in 1902

Estimated receipts for to-morrow are Wheat, 45 cars; Corn, 560 cars; Oats, 200 cars; Hogs, 50 000.

Ten packers purchased 39,600 Hogs to-day; shippers, 10,000; left over, 10,000. Market closed weak.

Another cut in Grain rates from Omaha to Chicago is expected to be made by the Northwestern to-day

Reported that 120,000 bu Wheat, 40,000 bu Corn and 100,000 bu Oats were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago, Monday, was $5 37, against $5 27 Saturday, $5 11 a week ago, and $5 68 two weeks ago.

The quantity of Flour and Wheat on passage to Europe during the past week increased 1,280,000 bu, and the quantity of Corn increased 1,260,000 bu.

Exports of Flax Seed from India the past week were 184,000 bu, compared with 144,000 bu for the week previous, and 104,000 bu for the corresponding week in 1903.

English visible supply of Wheat decreased 12,000 bu, compared with an increase of 10,000 bu last week, and a decrease of 79,000 bu for the corresponding week last year.

In Local Securities there was a fair scattered business with a lower range on a majority of the Stocks. North Chicago Railway sold at 67½, the lowest on record. Union Tractions were unsettled.

Stocks of Wheat in public warehouses in Liverpool reported at 1,928,000 bu, against 2,252,000 bu one week ago and 1,818,000 bu one year ago. Stocks of Corn reported at 703,000 bu, against 617,000 bu one week ago, and 184,000 bu last year.

Cotton in New York was strong and advanced under active bidding by "Shorts" and light offerings. The bull leader led the buying and had help from strong cables and a good spot demand. The closing sales were 16@24 points higher.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 1,371,000 bu Wheat, 26,000 bu Rye, and 218,000 bu Barley, and an increase of 918,000 bu Corn, and 488,000 bu Oats.

Stocks in New York were depressed in sympathy with the weakness in Continental Securities abroad, Berlin reporting another failure. There was heavy selling on Berlin account, also selling on a rumor that the Supreme Court would declare the Northern Securities illegal. A lower range was established, the losses averaging over 1 point. Westinghouse and General Electric lost 5 points. Money, 1½ to 1¾ per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market was strong, but buyers are a little slow to pay the advance. Liverpool was quoted 2s 9d higher.

WINTER WHEAT—The market was quiet for want of receipts. Choice milling Wheat, fresh arrivals, sold readily and brought 2@3c higher prices early, but closed with the advance lost. No. 2 Red, fresh receipts, a car load free on board sold to-day at $1 12, the highest price reached so far, and was for choice soft Wheat, and ranged down to $1 05 for dark. Round lots in store were quotably $1 02¼@1 10. No. 3 Red, a car of smutty Wheat sold at $1 05 and ranged at $1 00@1 10—outside for fancy, soft, bright Wheat. No. 4 Red ranged at 90c for ordinary to $1 00 for good, with a sale of a very choice car at $1 07. No. 2 Hard at the river quotable at 97c@$1 01 and No 3 Hard at 85@99c

SPRING WHEAT—Was quotably 1@2c higher early, but closed with advance lost. Scarcely enough Wheat coming to make a market. Choice Wheat wanted by millers. No. 1 Northern in store ranged at $1 00¼@1 05½, and fresh arrivals, free on board, quotable at $1 03@1 07 No. 2 Northern, nominally, 98c@$1 05 No. 3 Spring ranged at 90c@$1 02, with a sale at the river at 94c No 4 Spring sold, free on board, at 76@86c for fair to good, and at 90@93c for choice hard variety, with a sale at the river at 80c

REGULAR WHEAT—The trade was heavy and market excited and greatly unsettled. Fluctuations covered 5¼c on May and 4⅛c for July, the former closing 1¾c lower and the latter off about 1⅞c. There was a rush to buy at the opening and prices varied greatly, May selling between $1 06½ and $1 08½. Advances abroad, 10c rise in cash Wheat reported at Winnipeg and rumors via Liverpool that the British fleet in the Mediterranean Sea had been ordered to intercept the Russian squadron should an effort be made to pass the Dardanelles, were among the early "bull" influences Immense quantities of "long" property came out on the advance, the principal holder being credited with selling May July, too, was offered freely, but around 94c and under the same were well taken Foreign as well as Pacific Coast advices were quite "bullish" Flour at Liverpool was up 2s 9d Cargoes on ocean passage were held 3d higher. San Francisco wired English bids were 1s higher, and added that with best of weather not over half a crop of Wheat was possible World's shipments were 8,776,000 bu, previous week, 9,344,000 bu; year ago, 8 674,000 bu. Quantity on ocean passage increased 1 280,000 bu to 31,056 000 bu compared with 29 724 000 bu last year Visible supply decreased 1,371 000 bu, against 16,000 bu decrease a year ago Total 35,847 000 bu, against 48,951 000 bu in 1904 and 54,385 000 bu in 1902 Local public stocks increased 21,000 bu to 2,883,000 bu compared with 7,645 000 bu in 1903 Receipts at Liverpool past three days, 344,000 bu and stocks there, 1 928 000 bu, decreased 324 000 bu Liverpool quoted spot 1¼@4½d higher and futures 1⅝@1⅝d higher London advanced 1½@2½d Paris steady to ¼c higher and Antwerp was up 2½c The signal service generally predicted rain or snow, to be followed by colder weather Primary receipts were 307,000 bu ahead of 1903. Kansas City and St. Louis received 371,000 bu; last year, 111,000 bu shipments, 381,000 bu English visible decreased 12 000 bu Seaboard reported 15 boat loads accepted Receipts in the Northwest were about in line with last year and markets there comparatively easy *Broomhall's* foreign crop summary indicated more favorable weather conditions on the other side this week Continental Wheat stocks Feb. 1 were reported at 31 936,000 bu, compared with 41 008 000 bu Jan 1 and 30,582 000 bu the corresponding date in 1903 Receipts at Duluth 107 cars and at Minneapolis 694 cars, a total of 701, against 256 cars yesterday, 470 cars a week ago, and 691 cars last year Local receipts included 23 cars Winter, 33 cars Spring and 3 cars mixed, a total of 59 cars, against 31 cars last year. Included in the above was 1 car of contract grade. There were 30 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 45 cars Withdrawals were 16,700 bu. Receipts at Western points were 1,131,194 bu, against 824,023 bu last year. At Eastern points 24 606 bu, against 91,834 bu last year. Shipments from Western points were 542,265 bu, against 91 109 bu last year, and from Eastern points 128 604 bu, against 171 918 bu last year. Shipments of Flour were 57,395 brls. Exports of Wheat in Flour were equal to 386 705 bu.

Future Deliveries of Regular Wheat—Active and unsettled ruling higher early and closing lower

CORN—Was decidedly nervous, but the changes moderate as compared with those of Wheat Closing prices showed May 1⅛@1¼c lower and July off ⅜@⅝c. The start was most irregular and in some instances ½c higher than Saturday's close, the war situation being the "bull" motive. Speculative offerings, however soon increased, immense quantities of "long" property coming out, part of which was credited to warehouse interests Market acted as though many "short" lines had been covered Saturday and quickly receded, selling off 1⅛@2c Scattered commission house buying caused a slight recovery, the close being steady as noted above. Market as a whole displayed surprising indifference to the sensational rumors via Liverpool. Receipts were 639 cars, against 183 cars last year, and 560 cars are expected to-morrow Rain or snow and colder weather was predicted. Liverpool quoted spot 1d lower to ¼d higher and futures ⅛d lower to ¼d better Receipts there the past three days were reported 160,000 bu and stocks there, 703,000 bu, increased 86 000 bu last week World's shipments larger 3,900,000 bu; previous week, 2 310,000 bu, year ago, 4 225,000 bu. Quantity on ocean passage increased 1,260,000 bu to 11 280,000 bu; last year, 10 563 000 bu. Visible supply increased 918 000 bu, against 9,000 bu decrease same week in 1903 Total 8,712,000 bu; in 1903 10,481 000 bu; in 1902, 10,787,000 bu. Local public stocks increased 158,000 bu; now, 2,691,000 bu; last year, 3,010,000 bu. Southwestern markets were weak. Primary receipts 1,373,000 bu: last year, 1,393,000 bu. Shipments 495,000 bu and 333,000 bu respectively. Local arrivals 697,000 bu; shipments 142,000 bu. Exports 347,000 bu; last year, 140,000 bu. Seaboard reported 5 boat loads accepted. Transfers from private to public elevators 8,000 bu and 182 cars. Shipping demand moderate and sales small. Car lots were weak and 1@3c lower Offerings larger and demand moderate. No. 2 closed about 52c and No. 2 Yellow closed at 52½c No. 3 closed at 43@52c No. 3 Yellow sold at 45@45½c and closed about 44½@52¼c. No. 4 sold at 42c.

Corn by sample—Was weak, with prices 1@3c lower on low grades, while good dry Corn was steady to 1c lower. Offerings were larger and the demand fair. Sales on track and free on board. No Grade sold at 33@39c. No. 4 at 38@43½c. No. 3 at 43@45c. No. 3 Yellow at 44@50c No 2 Yellow at 56¾c No 3 White at 44@45c. Ears at 43@46c. Billed through No Grade at 36@37c. No 4 at 38½@42½c No 3 at 43@44c No. 3 Yellow at 44@45c. No 3 White at 43@52c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled, closing ½c to 1⅛@1¼c lower.

FEBRUARY—Sold at 53¾c, and closed nominally at 52½c

MARCH—Quoted 3¼c under May, a sale at 53¾c.

MAY—Sold at 55¼@57½c Opened at 57¼c to 57c, and sold at 57c, to 57⅛@57¼c, to 56½c, to 57¼c, to 57c, to 57⅛c, 56⅝@56¾c, to 57c, to 55¾c, to 56c, to 55½c, to 55¾c, and closed at 55¾c asked

JULY—Sold at 54⅜@55½c. Opened at 55¼c to 55½c, and sold to 55⅜c, to 54⅞c, to 55c, to 54¾c, to 55½c, to 54⅞c, to 55c, to 54½c, to 54⅝c, to 54⅜c to 55c, to 54⅜@54½c, and closed at 54⅜@54½c

SEPTEMBER—Sold at 53½@54½c Opened at 54½c to 54¼c and sold at 54c, to 54⅜c, to 54c, to 54⅛c to 53⅞c, to 54¼c, to 53½c, to 53⅜c, to 53½c, to 53⅝c, and closed at 53⅝c bid.

OATS—Were excited and nervous with a strong opening and ½c advance followed A rush to sell by the leading holders was as great as was the desire to buy Saturday. This accompanied by the break in other Grains and the poor commission house support caused a break of 1@1⅜c and the close was at almost the lowest, with net losses of ¾@1c The action of the market indicated that "shorts" had evened up Saturday and had little to buy to-day. Local stocks increased 60,000 bu, and the visible supply increased 488,000 bu Arrivals for the three days were 400 days, with 200 cars estimated to-morrow Withdrawals were 3,400 bu and there was 29 600 bu and 7 cars Standard run in from public to private houses Seaboard clearances were 15 600 bu New York at the close reported 100 000 bu sold for export Car lots to go to store were steady to ½c lower. No. 4 White at 42½@43½c. No. 3 White at 44@44½c. No. 2 White at 45½c. Standard in store closed about 42⅜@42⅝c.

Oats by sample were active with offerings liberal and well taken. Futures declined rapidly and cash lots were steady to ½c lower Sales on track and free on board: No Grade sold at 32c No. 4 39@41c No. 4 White 38@41c. No. 3 40½ 42c. No 3 White 41½@45c. No. 2 41¼@42½c. Billed through: No. 4 White at 42@42½c No 3 White at 43½@45c. No. 2 at 42c. At the river No Grade at 34c. No 4 White at 35@42½c No 2 at 39c. No. 3 White at 42@43½c. Standard at 43½c.

Future Deliveries of Contract Oats—Were higher early, but declined sharply.

FEBRUARY—Inactive at 2¾c under May. Closed at 42⅛c

MAY—Active. Sold at 44⅜@46¼c. Opened excited at 45⅞c to 46¼c. Sold to 44⅞c, to 45½c, to 44⅞c at close.

JULY—Was freely traded in Sales ranged at 41⅛@42⅛c Opened wild at 41⅞c to 42⅛c, sold to 41½c to 41⅝c, to 41⅛c at close.

SEPTEMBER—Sold at 36⅛@37¼c Opened at 36⅞c to 37¼c Sold to 36½c to 36⅞c, to 36⅛c at close

RYE—Was more active, but wholly in a speculative way The market opened firmer, and then advanced 2½c and closed about 3c higher than Saturday Trading was confined to the May and July deliveries and was largely in way of changing The receipts were three cars There were no withdrawals from store here and no export clearances from the seaboard The visible supply decreased 26 000 bu and local stock increased 21,000 bu No 2 in store round lots ranged nominally 73½@76c—top figure the close Car lot fresh arrivals nominally 75@76c No 3 sold at 71½c free on board and at 66c at the river No. 4 sold at 70c

Future Deliveries of No. 2 Rye Active and higher. February ranged nominally 73½c to 76c. March nominally 74½c to 77c May sold at 75½c to 77½c and then to 78c and closed at 78c bid. July was exchanged for May at the same figures—there were sales at 76½@77c

BARLEY—On account of three days' receipts coming on sale there was a marked increase in offerings. Demand was very fair Buyers of all classes had no difficulty in securing what they wanted. Holders of malting grades were firm early, but they gave way a little later for they found there was all offered that the market needed Oats were weaker and that was not favorable to feed and Screenings. The former, at the same time sold very well and ruled steady, but Screenings were a little slow though held steadily. Posted to day receipts of 92 cars. There was a fair demand in the visible which, however, remains 2,500,000 bu greater than last year Local stock decreased some, not much and this also larger than a year ago Screenings continue quotable at 3@43c for poor to choice, sale made at 39@43c Barley feed or mixing, quotable at 41@44c local. Malting, low grade about 44@46c, common, 46@48c. Fair was about 48@50c, good, 50@54c, choice, 55@58c fancy up to 60@61c

SEEDS—There was an active trade in Timothy. March delivery sold at a slightly shaded figure, but otherwise there were no changes Other Grass Seeds quiet Hungarian was slightly better Market for Flax was quiet and firm a shade better

Timothy—A good deal of cash Seed came on the market to-day as a result of three days' receipts. The quality was very uneven, mainly fair quality to below though some was good Demand fair and market about steady especially for the better grades Speculative market easy and dull. Some March delivery sold at 7½c decline, at $3 07½ February was nominally about $3 05 Cash sales were at $3 25 for fancy down to $1 00 for inferior. Regular run of country lots quotable at $2 75@3 25 poor to fancy, fair to good at $2 75@2 70; choice, $2 75@2 85, and rough, dark and foul lots about $2 40@2 60

Flax There was a firmer feeling in sympathy mainly with an advance in the Northwest Main improvement was in advance in May delivery Arrivals 19 cars or 16 150 bu, and output 1 car or 1,018 bu Minneapolis receipts 62 cars and Duluth 40 cars Local stock made no change last week remaining at 18,792 bu; a year ago this stock was 9 024 bu No 1 Northwestern or No 1 from the Northwest was $1 18½ bid and No 1 nominally $1 12, Rejected nominally $1 08@1 12, outside for choice Northwestern February was nominal at $1 12 May sold at $1 14½.

Clover—Was quotably steady. Offerings light only small lots and they were of irregular value Contract spot and March delivery nominal at $11 15. Country lots, common to choice, $8 00@10 75, fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Main run of such lots as come to market when ordinary to good quotable at $8 50@10 25

HOG PRODUCTS Speculative trading quite active, feeling unsettled, and prices irregular. Fluctuations frequent and trading on behalf of outside parties somewhat unsatisfactory Receipts of Hogs were liberal and prices lower, which feature encouraged some realizing Packers sold all descriptions with considerable freedom. Receipts at leading Western points for two days are reported at 195,900, compared with 181,500 for the corresponding time in 1903. Foreign markets were quiet for Meats at unchanged prices, while Lard was steadier at 6d advance. Domestic markets quiet—buyers slow to follow any advance. Receipts of Products were liberal of Lard and Meats about 51 cars. The shipments were rather free—of Lard and Meats about 231 cars. The speculative market opened somewhat excited and prices higher, in sympathy with Grain, but a weaker feeling was soon manifested, and prices settled back materially all around At the decline, the demand improved moderately, and prices rallied slightly, but receded again, and the market closed rather steady at nearly inside figures Margins were called freely, and there was considerable business in evening up trades Shipping demand was moderate and offerings rather light. Holders rather firm in their views Sales were moderate, and prices well maintained. Exports for the week, compared with corresponding week in 1903, exhibited increases of 630 brls Pork, 323 000 lbs Lard, and 6,778 boxes Meats.

Mess Pork—Quite an active business was reported in Mess Pork, and the feeling was unsettled. Offerings were moderately free and the demand was fair. Prices fluctuated wildly Opening trades were made at 5@10c advance, but a weaker feeling was developed, and prices irregularly receded 20@25c At the decline, the demand improved and prices rallied 12½@15c, but again receded 30@35c. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Feb. 9.]

United Kingdom.-Wet weather has continued to prevail throughout Western Europe during the past week, and needless to say the land in this country is so thoroughly sodden, one may almost say water-logged, that any tillage operations are quite out of the question. The outlook for successful spring sowings does not improve, but there is time enough yet for weather conditions to improve; still, when the land is expected improvement does come and the land is once more workable growers will have their hands full with the usual spring crops which, it takes very little to persuade, bring to the condition of the autumn seedings are far from cheerful, and it seems likely that farmers may have to devote some time to reseeding. Certainly present prospects indicate that the area of wheat doom will have this season the smallest Wheat acreage on record.

Russia-Of a wetter mention colder weather and there are still complaints of insufficient falls of snow in some parts. Shipments are of fair size and stocks continue to decrease, however, there are liberal quantities still left at the Black Sea ports and the winter is now getting well advanced

Roumania.-There was a little snow last week and moderately severe frost. To-day the weather is milder again and Brails telegraphs that navigation to that port has reopened. Shipments have continued on a liberal scale, the stuff being mostly drawn from Sulina stocks, but if the river is now clear of ice, lighters will be able to come down with fresh supplies.

Austria-Hungary.-The weather last week was dull and milder, and the fields have now lost their snow cover. So far there have been no complaints concerning the young crops. Supplies of Wheat at Buda Pesth are sufficient for current requirements.

Argentina.-The export movement is now on a liberal scale and one has only to glance at the list of steamers loading and clearing to be convinced that the movement is likely to be well maintained and even increased. Sellers are still inclined to be rather cautious, but we cannot think the office can now be having any serious influence-quantities coming out are too large. We hear very good accounts of the quality of the new Wheat. The weather in Santa Fe has lately been too dry for the Corn crop, but we hear to-day that some rain has fallen.

India.-The crops are still making good progress. The cold weather rains were of great benefit and everything continues to point to a bountiful harvest. The shipping movement is well maintained, although naturally the quantities are now relatively moderate.

Australasia.-Last week's shipment reached a total of 200,000 bu. which really makes a new record. This week's shipments from the whole Australia has been fixed at 640 lbs per bu, being 10 lbs less than last season's.

France.-Unseasonably mild weather continues to prevail, there are some complaints of forward growth, etc., but nothing very serious. It is generally considered the actual condition of the young crops is fairly satisfactory, and the area sown abroad by an official report just issued, which is considered to indicate a condition of 71 3 per cent, compared with 70 5 a year ago. The area under Wheat is given at 7,200,000 acres, but this may be managed by spring sowings if the weather should be at all favorable.

Italy.-The wheat crop is doing well and good progress has been made with field work.

Spain-Heavy rains have fallen lately and there have been some floods. The weather has settled the crops, which are satisfactory on the whole.

Germany.-The weather last week was fine and mild, and with rape more seriously weather, with frost and snow, would be preferred, yet there are no complaints about the crops.

North Africa-Favorable crop weather is reported.

THE WEATHER CONDITIONS.

A heavy fall of snow from the Mississippi River eastward is shown on the Monday weather map. The rain morning shows light precipitation in Manitoba, the Dakotas, and in parts of Nebraska and Iowa. No precipitation in Kansas and there has been none the past 48 hours. It is thawing in the northwest and temperatures are decidedly low. It is cold in extreme North and colder weather is indicated at the heels of this mild spell.

Indications are for snow North and rain South. Temperatures will fall again, but it is uncertain as to the degree of cold.

ITEMS OF GENERAL INTEREST.

The Alhambra block, Chicago, was destroyed by fire Monday. Loss, $300,000.

A loss of $10,000 was caused by the burning of a building at South Boston, Mass., Friday.

The output of the St. Louis Flour mills for the past week was 72,0 0 brls. against 73,800 brls for the previous week.

A fire, Friday, destroyed Chemical Hall at the Ohio State University at Columbus. Loss, $150,-000, with no insurance.

The United States furnished 87 per cent of the Cattle and 91 per cent of the Sheep imported by Great Britain in January.

The factory of the Frazer Tablet Company, Brooklyn, N Y., was destroyed by fire Sunday. Loss, $50,000; insurance, $25,000

The statement of the Chicago Electric Traction Company for the period between Oct. 1 and Dec. 31 shows $27,4 5 total receipts, a gain of $788.

The traffic officials of the Gulf lines have decided that unless their rate war ceases shortly they will reduce Grain rates to the Gulf 4c.

The failure is announced of the Grain firm of Johann Labusen, Bremen. Liabilities, $25,000; assets, $30 000 Some American Grain firms are affected.

The Paint factory of F. W Devoe and C T Raynolds Company, and other property at Brooklyn, N. Y., was destroyed by fire, Friday. Loss, $ 50,000

It is reported at Sharon, Pa., that the Republic Iron and Steel Company and other independent companies have advanced the price of bar iron $1 0 a ton

Fire at St. Anthony Park, St. Paul, Friday, destroyed the three story building of the Union Manufacturing Company and caused a money loss of ab ut $75,000

The Hamilton Fire Insurance Company is the second company operating from New York to go out of business as a result of the Insurance fight. It has reinsured all its risks in the Hartford Fire Insurance Company The Hamilton Company sustained a loss of $10 0 at the Baltimore fire. It was organized fifty two years ago and had previously met all demands.

A New York dispatch says: "That there is to be no reduce in the Grain-rate fight that has been started in the Pennsylvania territory, the Pennsylvania Railroad has shown Thursday, by the posting, as required by law, of a new rate by the Pennsylvania to the Seaboard per bar. of 40 lbs in barges from Buffalo to Philadelphia, and by the immediate response from the New York railroads, led by the New York Central which will make the same rate by the New York differential. The railroad representatives of the New York roads declare they will meet every cut by the Pennsylvania, and the Pennsylvania officials declare they will continue to make their rate to Philadelphia and Baltimore 1 mills on the bushel less than the New York rate. The fight is all over rates from Buffalo to the Seaboard, as the lake-bring-to-sound, the traffic at this time is insignificant. This makes the purpose of a fight something of a mystery. The only plausible explanation is that the Pennsylvania officials are establishing a new differential for--that it shall have the four mill differential to Philadelphia and Baltimore from Buffalo--and wants to get a settlement during light traffic times"

There was a reduction of from 25c to 50c per ton in all grades of Northern and Southern Pig Iron in New York to-day. No. 1 Northern is now $14 75 @15 25. No 1 Southern Pig foundry is $13 25@13 75.

In Local Securities there was moderate trading. City Railway broke 6 points, West Chicago Railway lost 2, and South Side Elevated 1 point. Industrials were sparingly traded in and prices were irregular.

In the New York Cotton market European news was of an unsteady character and caused an uneasy feeling There was heavy buying by "shorts," as receipts continue small, and news from spot markets were bullish The leading "longs" bought May and July. Prices averaged higher early, but weakened later and closed 42 to 59 points lower.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.		1903, bu.
Wheat east of Rockies..Dec	2,144,000	Dec.	474,000
Europe and afloat .....Dec	1,500,000	Inc.	1,800,000

Stocks in New York had a stronger tone and advanced early, but turned weak on depressing news from abroad and on selling for London and Continental account. Berlin sold Northern Pacific for the first time in two years, and it was intimated that New York operators were selling through London. Prices lost their early advance and the list closed at small recessions from yesterday. Money 1¾ to 2 per cent

Broomhall cabled: "Declines in American market caused opening loss of ¼d to ⅜d, but conditions on this side quickly counteracted this influence and during the early session prices advanced ¾d to ⅞d. Continent continues to bid freely for cargoes and strength in spot Wheat is an important factor Lower American Corn cables responsible for opening decline in Corn, but with extremely light Argentine offerings, and Danube and outside speculative buying, the market advanced."

The California Weather Bureau says: "There are no reports of damage to farming lands or crops by the heavy rain, but farming operations were suspended and in places cannot be resumed for several days. Although the precipitation in the Southern districts was comparatively light, its coming immediately after the rain of the preceding week was very beneficial and early sown seed and grass have made a good start and are growing rapidly. Plowing and seeding are in progress in all the Southern districts. In the Central and Northern sections Grain continues in excellent condition and pasturage is making good growth; green feed is plentiful in most places and Cattle are doing well. The Grain acreage is reported large."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand was moderate and market firm on a basis of $5 70 for Standard Patents

WINTER WHEAT—The market was steady for all excepting fancy soft Red Winter Wheat which ruled easier Demand continues good for all choice milling Wheat but the price for soft Wheat has been rather strained and buyers refused to pay former extreme figures No. 2 Red in store ranged at $1 03½@1 05⅝ and fresh arrivals free on board ranged at $1 05@1 10 outside for soft Wheat, with sale of a car at the top figure No. 3 Red fresh arrivals free on board ranged at $1 00@1 08. No. 2 Hard local sold at $1 00@1 02, and at the river at 99c—the latter ranged as low as 95c No. 3 Hard local sold at 90@$1 01 and quotable at the river at 85@97c No. 4 Hard at the river sold at 78c

SPRING WHEAT—Ruled steady and met with a fair demand. Receipts small and but little fresh arrival offered. No. 1 Northern in store ranged at $1 01½@1 03⅝c and fresh arrivals ranged at $1 03@1 06 No. 2 Northern fresh receipts free on board sold at $1 02 and ranged at 95c@$1 05 No 3 Spring ranged at 85c@$1 02 for common to choice hard variety. No 4 Spring local sold at 70@85c for fair to good, and at 99c for a fancy car of hard variety

REGULAR WHEAT—While the trade was not as heavy as yesterday, the volume was large The feeling prevalent, while somewhat unsettled, was stronger, and the close showed May 2½c higher, the old July gaining 2⅜c Sentiment was influenced to a considerable extent by foreign news. Commission houses were active on both sides of the market, with the buying of better character than the selling. The foreign news strength at Liverpool, demand reported there from the Continent for cargoes, and advance in Mark Lane were the principal "bull" helps Mark Lane quoted English Wheat 1@2s higher and foreign 3p 2@3s. Spot at Liverpool was unchanged to ¼d lower than yesterday and futures steady to ⅝d higher in face of the decline on this side yesterday. London came steady to ¼d higher. Paris declined 10c. and Antwerp was unchanged The "bull" party in May was credited with purchases of old July Dry weather in the Southwest was again a factor Cloudy, warmer weather was predicted for Kansas, and snow and milder conditions for Nebraska. Northwest receipts slightly ahead of last year, and Winnipeg received 7 cars, against 234 cars one year ago Primary receipts were 346,000 bu larger than a year ago and exports small Seaboard reported 2 boat loads accepted. Toledo wired cash and May Wheat was offered more freely than for three months and acceptances larger Stocks here in all positions are reported 5,512,000 bu, show a decrease last week of 143,000 bu Stock last year 11,249,000 bu. Contract stocks increased 29 088 bu. and are now 1,696,842 bu, against 3,692,026 bu one year ago. *Bradstreet's* available supply decreased 3,644,000 bu, compared with an increase the corresponding week in 1903 of 1,326,000 bu. Minneapolis wired stocks had decreased 250,000 bu in four days. Liverpool cabled there was a sharp decline in Argentine freights, claiming farmers would not sell. A good demand was reported from Continental markets and actual Wheat was scarce Receipts at Duluth 27 cars and at Minneapolis 209 cars, a total of 236, against 701 cars yesterday, 268 cars a week ago, and 220 cars last year Local receipts included 30 cars Winter, 15 cars Spring and none mixed, a total of 54 cars, against 25 cars last year. Included in the above was 6 cars of contract grade. There were 21 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 20 cars Withdrawals were 7,300 bu. Receipts at Western points were 678,279 bu against 732 483 bu last year. At Eastern points 30,377 bu, against 143,117 bu last year. Shipments from Western points were 398,080 bu, against 239,611 bu last year, and from Eastern points 6,693 bu, against 84 405 bu last year Shipments of Flour were 31,185 brls. Exports of Wheat in Flour were equal to 147 070 bu

SEPTEMBER—Sold at 36¼@36¾c. Opened at 36¼c to 36⅛c, sold at 36¾c, and closed there.

RYE—The market was quiet to day and trading limited both in cash and futures An easier feeling existed and prices declined 1c for May, and other deliveries in proportion There were 14 cars received and one car withdrawn from store. No export clearances from the seaboard No 2 in store entirely nominal, with sales of fresh receipts free on board at 73½@74½c. No. 3 billed through sold at 69c

Future Deliveries of No. 2 Rye—Quiet and prices declined 1c May sold at 77½c to 77c and closed at 77c bid July 76c bid

BARLEY—There was not quite so sharp a market as yesterday There was a somewhat reduced supply and yet offerings were fair They were ample of malting grades Buyers for these were present, but they were not anxious The demand for feed and mixing account was good Goods for these purposes firm, a shade better when sweet, not musty. Malting grades were steady Some samples came up late, after buyers had gone A part of such lots remained unsold. Ninety-four cars posted inspected in, they were in part former receipts, not so many in to-day. Screenings remain quotable at 37@43c for poor to choice, and fair sales made at the outside Barley, feed or mixing, quotable at 42@43c local when sweet, main sales at 43c; some musty sold at 40c Malting low grade about 47@48c, common, 48@47c Fair was about 48@50c; good, 51@54c; choice, 55@58c; fancy up to 59@61c.

SEEDS—A fair degree of interest in Timothy Seed manifested and market firm with some improvement Otherwise no changes especially noted though Millet was perhaps firmer

Timothy—There was a strong market March sold 2½@5c higher and February closed at 5c nominal advance Demand for the longer delivery was very good Less cash Seed offered The cash market also was firm stronger and a little more in favor of sellers. Contract stock for February delivery closed nominally $3 10 March sales made at $3 10@3 12½ and finally $3 12½ was bid. There were cash sales over a range of $2 50@3 00 Country lots quotable at $2 25@3 25 poor to fancy; fair to good at $2 65@2 70; choice $2 75@2 85, and rough, dark and foul lots about $2 45@2 70

Flax—There was no trading With the exception of May delivery being offered at ½c decline there was no change in prices No cash Flax on sale Only 1 car or 870 bu, received; none reported taken out. The reorganization is not in any way drastic. It is simply retrenching, curtailing all expenses, inaugurating commercial business methods, and in general placing the entire combination on an entirely new footing This is the policy of Mr. Barber, and it is now being carried out with great success."

The Chicago *Inter Ocean* says: "It is stated in Boston, on what is considered good authority, that Kuhn, Loeb & Co. have an under-tanding with German banking houses to maintain Atchison at 65 and Union Pacific at 76 for a six months' period, with the purpose of influencing German investment in the shares of these companies. Atchison securities will probably be listed upon the Berlin Bourse, and such action may be later followed by Union Pacific having a Continental listing "

The Chicago *Inter Ocean* says: "The latest rumor about the Chicago and Alton is that it is to be merged with the Northwestern, Union Pacific and Southern Pacific lines In stock brokers' offices it was reported that such a merger depended on the decision in the Northern Securities case. The general impression in local railway circles is that all the stories about change in ownership of the Alton have been circulated to enable 'insiders' holding large blocks of stock to unload it on the general public

To prevent discrimination which the railroads are said to have practiced against Chicago for years, the wholesale and manufacturing interests of the city, representing investments of hundreds of millions of dollars, have been organized into a protective body to be known as the Chicago Shippers' Association The association will be incorporated at Springfield within a few days, and ultimately will have a membership composed of practically every important jobbing and manufacturing company in Chicago

It is estimated that it will require more than $73,000,000 to complete the plans made for the extension and improvement of the Gould lines in the East and $50,000,000 to extend the Western system. The Gould policy for the Missouri Pacific is emphatic on this point: That it shall not be shut in, curtailed, or abbreviated by the encroachment of either Harriman, Santa Fe, or Rock Island extensions or purchases. To this end it is believed, the Western Pacific road is to be built to the Pacific Coast, at a cost of $50,000,000 in 5 per cent bonds and $50,000,000 in stock

According to net quotations issued by the Mishawaka, Ind., Wool and Rubber Manufacturing Company, the great rival of the United States Rubber Trust, Rubber boots and shoes will command a higher price than has been paid by retailing firms in years. The company announces an advance of about 10 per cent net, and the president attributes the increase to the heavy additional demand made upon crude Rubber imported from South America and India The price list of the United States Rubber Company, which is being received by retailers, shows an advance of 13½ per cent for 1904.

There is reason to believe that some of the holders of Colorado Fuel and Iron Company convertible debenture bonds who did not deposit their bonds with the Continental Trust Company in favor of the reorganization plan are intending to make trouble for the protective committee. The committee has the authority to declare the new plan operative whenever it deems the bonds deposited sufficient for the purpose, and it has over $12,000,000 of the $14,068 000 issue back of it. An endeavor is being made, however, to harmonize matters, so that the danger of litigation, threatening possibly a receivership, may be averted

The figures compiled by the Baltimore underwriters showing the losses incurred by the recent fire indicate a total of $32,404,894 risks in the burned district, from which certain amounts totaling $1,399,762 are to be deducted by reason of salvage or other causes, making the net amount of insurance to be paid to the fire sufferers $31 005,132. To be added to the accompanying figures are some losses amounting probably to $5 000 000 or less, to be paid by individual underwriters, which are composed of big wholesale dry goods houses who insured each other on the mutual plan. There is no way of getting at the precise amount of risk carried in that way.

The *Mark Lane Express* of Feb. 9 says: "Our own record of January rainfall was 2 43 inches, and the majority of stations in the home counties show 2½ inches In the West three to four inches were registered, and it was also very wet in both Scotland and Ireland. Since February came in three quarters of an inch has fallen in London and over an inch in many counties, so that the agricultural situation has retrograded on the week. Sunshine in January only reached 15 hours so that the forces of evaporation were at their lowest. An average for January sunshine is 27 hours, and in January, 1903, there was exactly that number of hours sunshine recorded. The temperature of January was 41 22 degrees, against 38.75 only in January, 1903, but 42 05 in January, 1902 "

Claus Spreckels of the Federal Sugar Company is quoted as saying that by May 1 the company's plant at Yonkers will be turning out refined Sugar at the rate of 4,000 brls per day. This is the outcome of the experimental plant which was built over a year ago to refine Sugar by a new process. The claim was made then that the cost of refining under the new process would be about one-third less than that of the other companies, and the company still believes that this claim will be materialized. Interests in the company have a plan under consideration to establish a chain of plants throughout the country It is the aim of the company to be in a position to bid for business in all parts of the country, at the same time maintaining harmonious relations with other Sugar refining companies

The suit brought by Archibald A. Hutchinson and Victor K McElheny, Jr, stockholders of the American Malting Company, in behalf of themselves and other stockholders, to compel the directors of the company to refund dividends paid out of capital in 1897, 1898 and 1899 to the amount of $1,885,350, was begun, Thursday, before Justice Clarke in the Supreme Court at New York. The American Malting Company, which was named as a defendant in the original action, is now a plaintiff, having obtained leave to become so on the ground that it admitted the allegations in the complaint, and desired to prosecute its directors for the recovery of the dividends alleged to have been illegally paid out of capital The plaintiffs also sue for $650,000 as compensation for the damages which they aver the company sustained on account of the illegal payment of the dividends.

The United States Supreme Court, Tuesday, decided that the acceptance of a free pass from a railroad company nullifies the right of a passenger or his heirs to sue in case of his death or injury through the carelessness of the company The case under review was an appeal of the Northern Pacific, which had been ordered by the lower court to pay $14,000 to Louise H Adams and Frank H Adams, heirs of Jay H Adams Mr. Adams was killed while riding on a pass which contained a stipulation exempting the railroad company from liability. The Federal Court in Washington State awarded $14,000 damages, and the Circuit Court of Appeals for the Ninth Circuit affirmed this judgment The Supreme Court judges differed, however, holding that the company waived its right to exact compensation from Adams, who was not in its power and obliged to accept its terms, but voluntarily waived his right to damages in return

A prominent New York stock-market man who made a calculation a month ago that the railroad financing to be done this year would amount to between $450,000,000 and $500,000,000, and who had at that time a list accounting for $375,000,000, has increased the itemized list to more than $530,000,000, and his estimate of the year's prospective aggreates $600,000,000. This immense demand for money on the part of corporations, however, is not, in his judgment, a "bearish" argument on the stock market. The Wall Street reception of the various transactions, he believes, will depend largely upon the speculative tendency of prices at the time of their being brought out. In a majority of instances the corporations needing this money, he thinks, should be regarded in the same light as that in which it would seem only natural to regard a merchant who borrows money to buy another half block and erect a building on it for the accommodation of his increasing business.

The Chicago *Inter Ocean* says: "A committee of the Board of Trade is making strenuous efforts to induce the executive officers of all railroads terminating here to reduce rates on all Grain shipments via Chicago The Board of Trade committee complains that the railroads are discriminating against Chicago by not meeting the rates made via St Louis and other Mississippi River points. 'For years St. Louis has enjoyed a differential or lower rate by 5c per 100 lbs than is made via Chicago on shipments of Grain from lower Missouri River points to the Atlantic seaboard,' said a member of the Board of Trade committee. 'The difference in mileage from the Missouri River to the Atlantic seaboard does not warrant the difference in rates via Chicago and via St. Louis. That differential rate of 5c was really awarded the St. Louis lines in order that all the roads might maintain high rates. The result has been a continued increase in the importance of St. Louis as a Grain mart at the expense of Chicago. The lines from Kansas City to the Gulf have not tolerated the excessive differential allowed St. Louis by the Chicago lines, and everybody knows how the Gulf ports have increased in importance. We demand that the railroads terminating here stop discriminating against Chicago.'"

A director of the Chicago Edison and the Commonwealth Electric companies is quoted as saying that there is no issue of new bonds contemplated by the Commonwealth Company. He is quoted as follows: "The policy of the company has been to issue bonds from time to time as required for extension and improvement purposes, but these are drawn from an issue authorized some time ago. Both the Chicago Edison and the Commonwealth Electric are in splendid physical condition We have spent $11 000 000 on them in the last three years With regard to the Commonwealth Company, the charter contains a clause providing that for five years from the date of the first mortgage—June 1, 1898—all net earnings shall be invested in betterments and extensions of the property. After the five years, which expired last June, the company shall at the end of each fiscal year on March 1 credit to depreciation reserve not less than $17,000 for each $1,000,000 bonds outstanding. At the close of the last fiscal year the bonds outstanding amounted to $4,950,000. The sums so credited shall be in addition to the sums ordinarily spent for repairs and renewals, but the company may charge against such credits the actual cost of extensions and betterments after June 1, 1903. The present fiscal year will be the first in which this policy has been in force."

ITEMS OF GENERAL INTEREST.

New York Exchange 5c discount.

Documentary Sterling steady at 482¾.

Chicago Bank Clearings to day, $32,620,958.

Prices of package Coffee have been reduced ¼c.

President Roosevelt signed the Panama treaty at 11:40 this morning.

Consols closed at 86 5-16 money or account, or the same as yesterday.

Estimated receipts for to-morrow are: Wheat, 25 cars; Corn, 265 cars; Oats 170 cars; Hogs, 36 000.

Ten packers purchased 31,900 Hogs to-day; shippers 8,000; left over, 9,000. Market closed strong.

The Baltimore Stock Exchange resumed business Wednesday, for the first time since the fire.

Reported that 176,000 bu Wheat and 341,000 bu Corn were taken at the seaboard to-day for export.

Stocks of Hog Products at Chicago estimated at 40,500 brls Mess Pork, 42,000 tcs Lard, and 21,500,000 lbs Short Rib Sides.

Average cost price of Hogs at Chicago, Wednesday, was $5 42, against $5 39 Tuesday, $5 08 a week ago, and $6 90 a year ago.

Broomhall cables: "Our Argentine agent estimates that the week's shipments will be about 3,600,000 bu Wheat and about 100,000 bu Corn."

Bullion in the Bank of England increased $1 853,145 during the week. The proportion of the bank's reserve to liability is 48 62 per cent; last week it was 49.02 per cent.

Stocks in New York were advanced by professionals buying, and by the absence of new disturbing influences from abroad. Railway shares gained ¾ to 1½, Industrials 1 to 4½ and Coalers 1 to 1¼. Money 1¾@2 per cent.

Local Securities were sparingly handled and prices moved irregularly. Biscuit, Box Board and about all Industrials showed strength. Metropolitan Elevated preferred was weak and broke 1¼, with a partial recovery.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Recent weather conditions regarded unfavorable for Wheat crop, but nothing positive developed. Interior Wheat movement somewhat increased. Supplies east of the Mississippi River light. Corn offerings increasing."

The Cincinnati *Price Current* reports the packing of the West for the week at 515,000 Hogs, compared with 585,000 for the week previous, and 450,000 for the corresponding week in 1903. Aggregate packing since November 1 reported at 8,555,000 Hogs, compared with 8,180,000 for the corresponding time last year—an increase of 375,000 Hogs.

The *Northwestern Miller* says: "As to the growing Wheat crop, reports seem to warrant the statement that it has, in most regions, very fair protection from the cold weather now prevalent. In the Southwest, over a large part of Kansas and Missouri a storm of sleet and snow fell, but the precipitation was small and of little benefit to the plant which is in a dormant state."

In the New York Cotton market the early action disappointed the "bulls" and there was every evidence that the "bear" operator of yesterday was pounding the market again to day, but strong Philadelphia and other outside buying came in and prices advanced very rapidly, with signs of the "bear" leader trying to recover his Cotton. Closing prices were 10 points lower to 8 points higher.

Broomhall cabled: "Wheat—Advances in American markets yesterday and the continuation of the Continental demand for cargoes caused a strong opening, with prices 1@1⅛d higher. Scarcity of Wheat in English country markets and resulting advances of 1@2s per quarter also an influence, the distant futures gaining ⅛d. On this bulge there was heavy selling, thought to be for American account, May declining ⅜d from the top and July ¼d. Later, the sellers withdrew and a steadier tone developed. At 1.30 P M prices in all months were ½@¾d above last night's close. Corn—In sympathy with Wheat and on more outside speculative buying, opening prices showed gains of ⅜d. During the morning nearby months eased off ⅛d, being affected by the later decline in Wheat."

EXPORTS OF FLOUR AND WHEAT.

The exports of Wheat and Flour in Wheat (reckoning 4½ bu Wheat to a barrel of Flour) from all American ports as reported by the Chief of the Bureau of Statistics of the Treasury Department monthly for four years were as follows:

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The domestic and local demands moderate, but bids from abroad do not follow the advance on this side. Prices steady.

WINTER WHEAT—Was quiet and unchanged. The cash market did not reflect the advance in the speculative market. Receipts small and millers buying moderately. No. 2 Red in store quotably $1 05¾@1 10 and fresh arrivals ruled within this same range, with a sale at $1 09. No 3 Red fresh arrivals free on board quotably $1 0 @1 09. No 2 Hard local sold at $1 04, and at the river quotable at 98c@$1 00. No 3 Hard local sold at 92@99c, and at the river at 9 @97c, and quotable at 90@98c.

SPRING WHEAT—The market was quiet. Receipts small and millers taking the offerings but are slow to pay the extreme figures. Prices were up with the futures. No 1 Northern in store quotable at $1 03¼@1 06 and fresh arrivals free on board quotable at $1 05@1 08. No. 2 Northern fresh arrivals quotable at 98c@$1 07. No. 3 Spring local sold at 98c, and at the river at 95c@$1 00; local quotable at 90c@$1 03. No 4 Spring local sold at 70@78c and ranged at 65@90c for poor to good.

REGULAR WHEAT—The market was active and prices again very irregular with the close 1c higher for May, 2@2⅛c better for the July, while September gained 1⅞c. New high records were established on all deliveries. The "bull" news came from the same sources as yesterday, the further advance in the English markets being the chief incentive. Liverpool reported English country markets 1@2s higher, and spot at Liverpool was quoted ½@1d higher, futures were unchanged to ⅛d better. London advanced ½@1½d. Paris, however, lost ½@¾c. Antwerp was ⅝c higher. The market was broad and trade general, so much so that the operations of the "bull" interests were difficult to follow early in the session. Transactions were of immense proportions particularly the last half of the session. Realizing and profit-taking were a feature on the early advance, but the reaction caused by the same proved only temporary. The *Price Current* was construed as moderately "bullish." Kansas was without moisture and only a trace of rain was reported in Oklahoma. Receipts in the Northwest were 69 cars under last year, and while Kansas City and St Louis received 177,000 bu the shipments were even larger at 290,000 bu. The Flour situation was looked upon as strong and output for the week 516 000 brls, compared with 455,000 brls same week in 1903. Primary receipts were 95,000 bu ahead of last year, and between July 1 and Feb. 22 aggregate 182,252,000 bu, as against 210,400,000 bu in 1902 3, and 195,691,000 bu in 1901 2. Exports were quite small and 22 boat loads were accepted at the seaboard. Liverpool again reported a good demand from the Continent, and London quoted cargoes on passage strong. Generally unsettled weather and moderating temperature indicated, with rain or snow for Missouri and snow for Nebraska. There appeared to be general buying late in the day, no doubt on the theory that the war news indicated a protonged struggle between Russia and Japan which might possibly involve other powers. Strength at Kansas City was a feature. Argentine shipments estimated at 3,600 000 bu. "Bull" party in May sold July freely toward the close. Receipts at Duluth 39 cars and at Minneapolis 194 cars, a total of 233, against 236 cars yesterday, 280 cars a week ago, and 302 cars last year. Local receipts included 10 cars Winter, 9 cars Spring and 1 car mixed, a total of 20 cars, against 15 cars last year. Included in the above was 1 car of contract grade. There were 35 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 25 cars. Withdrawals were 15,306 bu. Receipts at Western points were 494 917 bu against 399,409 bu last year. At Eastern points 24,078 bu, against 31,066 bu last year. Shipments from Western points were 266,959 bu, against 321,111 bu last year, and from Eastern points 20,800 bu, against 17 600 bu last year. Shipments of Flour were 42 811 brls. Exports of Wheat in Flour were equal to 213 149 bu.

Future Deliveries of Regular Wheat—Active trade and prices higher.

FEBRUARY—Closed about $1 04½. Nothing doing and entirely nominal.

CORN—An immense trade and very unsettled feeling prevalent early, but later on sentiment became decidly "bullish" and new high records on the crop established. May sold up to 58c, but broke badly again just before the close and closed with a slight loss. The July gained about ⅛c and the September about ⅜c. Market started out ¼@½c higher under active commission house demand, the bulge in Wheat, stronger cables, and war news in general being the chief "bull" motives. At the improvement in prices large quantities of "long" property came out, causing prices to settle back ⅝c when the demand again became general and urgent, "shorts" covering freely and a rally of ⅞c recorded, floor traders being "bullish." Later, values declined ¾@⅞c and May rested near inside figure of the day. Liverpool quoted spot ¼@1d higher and futures ⅛d higher. Unsettled, moderating weather was indicated, and out of the 189 cars received 128 cars were low grades, as against 256 cars and 95 cars respectively one year ago. Estimates for to-morrow are 265 cars. Weather in Argentina continues fovorable for the crop, and shipments from there this week estimated at 400,000 bu. The *Price Current* noted some increase in the country movement. Southwestern markets were firm and higher, and receipts West, 589,000 bu, were 39 000 bu under those of 1903. Shipments 260,000 bu, were 108,000 bu were less. Local arrivals were 201,100 bu, and shipments 84,000 bu. Exports 148 000 bu, compared with 484,000 bu same date in 1903. Seaboard reported 43 boat loads accepted. Transfers from private to public elevators 164 cars. Shippers reported a fair cash demand, but business checked owing to the car situation. Sales 50 0 0 bu. Car lots were ½@1c higher with a good inquiry and moderate offerings. No. 2 closed about 51½c and No 2 Yellow at 55½c. No. 3 closed about 44½@51c. No 3 Yellow sold at 46c and closed at 45½@55c.

Corn by sample—Was in very fair demand and the feeling was firm. Prices were unchanged for poor Corn, while other grades were ½@1c higher. Sales on track and free on board: No Grade sold at 36@39c. No. 4 at 39@43c. No. 3 at 44½@45c. No 3 Yellow at 46c. No. 3 White at 45@46c. Ears at 42@43c. Billed through: No Grade at 36½@37c. No 4 at 40@43½c. No 3 at 42½@44½c. No. 3 Yellow at 44@45c. No 3 White at 44@44½c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled closing shade lower to ⅜c higher.

FEBRUARY—Inactive; closed 53⅞c.

MAY—Sold at 57⅛@58c. Opened at 57½c to 57¾c, and sold at 57⅝c, to 57¾c, to 57½@57⅝c, to 57⅜c, to 57⅜c, to 57⅝c, to 57¼c, to 57½c, to 57¼c, to 57⅝@57¾c, to 57½c to 57¾@57⅞c, to 57⅝c, to 58c, to 57¾c, to 58c, off to 57⅛@57¼c and closed at 57⅛@57¼c.

JULY—Sold at 55⅜@55½c and 56¼c. Opened at 55½c to 56c, and sold at 55¾c, to 56c, to 55⅜@55½c, to 55⅞c, to 55⅝c, to 55⅞@56c, to 55¾c, to 56⅛c, to 55⅞c, to 56¼c, to 56c, to 55½c, to 55¾c, and closed at 55¾c.

SEPTEMBER—Sold at 54⅜@54½c and 55¼c. Opened at 54⅞c and sold at 54⅝c, to 54⅞c, to 54⅜@54½c, to 54¾c, to 54⅝c, to 55c, to 54¾@54⅞c, to 55⅛c, to 55c, to 55¼c, to 54¾c, and closed at 54¾c.

OATS—Were actively traded in at a higher range of prices. There was an advance of ½@⅞c, followed by a break of 1⅛c, the latter in May, and a rather easy close at ⅛c gain for May and September and ½c on July. The advance was on general buying and the break in May on selling of nearly 1,000,000 bu by a leading holder, but the loss was quickly recovered, when renewed selling carried prices off ⅜c. A feature was the increased commission house buying of July and September and the moderate offerings of them. Excitement and strength in other Grains helped to create "bullish" sentiment and make a big trade both ways. Arrivals were 121 cars, with 170 cars estimated to-morrow. There was also 22 cars and 10,800 bu Standard inspected from private to public elevators. Export clearances were 25 000 bu. Car lots to go to store were steady to ½c higher. No. 4 White sold at 43@44½c. No. 3 White at 44¾@45¼c. No. 2 at 42c. Sales for shipment were 25,000 bu.

Oats by sample were in good request and prices steady to ½c higher. Offerings were moderate, although showing an increase. Sales on track and free on board: No. 4 at 40¼@41c. No. 4 White at 37@44½c. No. 3 at 41½c. No 3 White at 43@45¼c. Standard at 46c. No 2 at 42@42½c. No 2 White at 45½@46c. Billed through: No 4 White 42½@43½c. No. 3 White at 43¼@46c. At the river: No. 4 at 39½c. No. 4 White at 38@42½c. No. 3 White at 41½@44c.

Future Deliveries of Contract Oats—Were active, irregular and higher.

FEBRUARY—Inactive. Closed about 43⅝c.

MAY—Active and unsettled. Sales were at 45½@46⅝c. Opened at 46⅛c to 46⅜c; sold to 46⅝c, to 45½c to 46⅜c, to 46⅛c at close.

JULY—Large trading. Sold at 41⅞c, and at 42⅜@42¾c. Opened at 42c, to 42⅛c, sold to 41⅞c, to 42⅜@42¾c, to 42¼c at close.

SEPTEMBER—Sold at 36¾@37¼c. Opened at 36⅞c to 37c, sold to 37¼c, to 36¾c, to 36⅞c at close.

RYE—The market was quiet and the feeling firm, with prices showing 1c advance. Offerings light and while there was some speculative demand, it was light. The receipts were seven cars. There were no withdrawals from store here and no export clearances from the seaboard. No. 2 in store entirely nominal—difficult to give a price. Fresh arrivals free on board quotably about 74@76c. No 3 local quotably 68@70c, and sold at the river at 67@69c.

Future Deliveries of No. 2 Rye—Quiet and 1c higher. May sold at 78c and closed with sellers at 78c. July sold at 77½c.

BARLEY—The market appeared steady and firm. There were some who did not exactly concur in that view and there were others again who could see some improvement. Usually the reports for malting Barley were of a steady to firm market, with the closing perhaps dull. Supply, though smaller, was ample for demand, and after buyers were through some cars remained unsold. Bulk of the trading in feed Barley was at inside quotation of yesterday, a little more of this grade offered. Screenings quoted as firm, with best cars sold ½c over recent top prices. Thirty-seven cars were inspected in. Screenings sold over a range of 3 @43½c for poor to choice. Barley, feed or mixing quotable at 4 @43c ideal when sweet, musty below; river billed sold at 40@41c. Malting low grade about 4 @46c; common 46@47c. Fair was about 48@50c; good 51@54c choice, 55@58c; fancy up to 60@61c.

SEEDS—Were quiet all around. Timothy firm, and, in fact, general market in a steady to firm condition. Offerings in all cases were small.

Timothy—Was quotably steady to firm. Some to-arrive Seed brought a little more to-day than was bid for it yesterday. Last quoted price also bid for March delivery and a shade over asked. Offerings were smaller on the cash market, and little desire to sell futures was shown. Contract spot or February delivery was $3 10 bid. For March, $3 12½ bid and $3 15 asked. Cash sales reported at $2 75@2 65. Country lots quotable at $2 25@3 25 poor to fancy; fair to good at $2 55@2 70; choice, $2 75@2 85, and rough, dark and foul lots about $2 40@2 70.

Flax—There was no material change. At same prices as quoted yesterday there were buyers. Sellers remain rather scarce, and trading almost suspended. Twelve cars or 10 200 bu received here, and 2 cars or 2,055 bu taken out. At Minneapolis 25 cars and at Duluth 27 cars were received. Northwestern markets were slightly better. No. 1 Northwestern or No 1 from the Northwest remained at $1 18½, with a sale made, and No 1 was $1 12 bid. Rejected nominally $1 09@1 12, outside for choice. Northwestern February was salable at $1 12. May held at $1 15 and $1 13½ bid.

Clover—Was scarce and firm. Better grades quotably a shade higher. The market was inactive, owing to absence of offerings. Contract spot and March delivery nominal at $11 25. Country lots, common to choice, $8 25@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Main run of such lots as come to market when ordinary to good quotable at $8 50@10 50.

Other Seeds—Were quotably steady and firm. Salable at full late prices. Some Millet shown, but market at the same time bare of spot offerings. Hungarian quotable common and light color to choice, dark at $1 50@1 90. Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05. Buckwheat scarce, in demand and a shade higher: good milling quotable at $1 30@1 40.

HOG PRODUCTS—Speculative trading was active in the market for Hog Products, and the undertone was rather firm in a general way. Outside orders were larger than heretofore and largely on the buying side. Local trading brisk. Packers credited with fair sales early in the day. Hogs were in good supply and prices averaged higher, and the Grain markets were stronger, which features had considerable influence on the market for Provisions. "Shorts" accepted fair quantities. Offerings were fairly liberal, and the general demand was active. Prices ruled higher on all the leading articles, but the appreciation was not fully supported to the close. Receipts of Hogs at the leading Western packing points were estimated at 89,600, compared with 67,500 one year ago. The returns of the packing of the West for the week exhibited an increase of 65,000 Hogs compared with the returns for the corresponding week in 1903. Foreign markets exhibited more strength than for some time past, and Liverpool quotations were advanced 6d on Backs 1s on Lard and Hams, and 1s 6d on Cumberland Sides. Domestic markets were quiet—buyers backward. Receipts of Products were fair—of Lard and Meats about 23 cars. Shipments were moderate—of Lard and Meats about 115 cars. Inquiry on shipping account was moderate, with no particular pressure to sell. Holders firm in their views, and generally asking slightly higher prices. Sales were limited.

Mess Pork—An active business transacted in a speculative way, and the feeling somewhat unsettled. Offerings were fair, and the demand was brisk. Outside orders liberal. Market opened rather strong at 5@15c advance, and further improved 7½@10c. Later, the feeling was not so strong, and prices settled back 7½@10c. At this reduction the demand improved, and prices rallied sharply 25@27½c. Toward the close, the feeling was not so firm, and prices receded 7½@10c, and the market closed steady. Shipping demand was rather light, and offerings were moderate. Cash lots were quotable at $16 37½@16 50.

MAY—Offerings were fair, and the demand was active. Sales ranged at $16 30@16 65. Opened at $16 30 to $16 40, sold to $16 30, to $16 40, to $16 57½, to $16 47½, to $16 37½, to $16 42½, to $16 40, to $16 50, to $16 45, to $16 60, to $16 52½, to $16 60, to $16 55, to $16 65, to $16 55, to $16 62½, to $16 65, to $16 67½, and closed steady.

JULY—In good request and offerings were fair. Sales were made at $16 40@16 75. Opened at $16 50, sold to $16 40, to $16 52½, to $16 47½, to $16 60, to $16 55, to $16 70, to $16 67½, to $16 75, to $16 65, and closed steady.

Lard—Trade was brisk in the Lard market and the feeling was stronger. More outside buying. Foreign advices more favorable to sellers. Offerings were fair and the demand was active. Prices opened 2½@5c higher, and, after slight recessions, further improved 7½@10c. Toward the close the feeling was not so strong and prices settled back 2½@5c, and the market closed steady. Demand on shipping account was light and offerings were moderate. Cash lots were quotable at $7 87½@7 92½. Loose lots called for sparingly, and offerings were rather light. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably higher at $7 37½. Neutral in only moderate demand, with fair offerings. Prices quotably higher at $8 75@8 87½ for No. 1, and $8 25@8 37½ for No. 2.

MAY—Offerings were fair and the demand was active. Sales were made at $8 05@8 15. Opened at $8 05 to $8 10, sold to $8 07½, to $8 10, to $8 05, to $8 07½, to $8 05, to $8 12½, to $8 10, to $8 15, to $8 10, to $8 15, to $8 12½, and closed steady.

JULY—In good request, and offerings were not very large. Sales were made at $8 20@8 30. Opened at $8 20 to $8 25, sold to $8 22½, to $8 25, to $8 30, to $8 30, to $8 25, to $8 27½, to $8 25, to $8 27½, to $8 25, and closed steady.

Short Rib Sides—An unusually heavy business was transacted in Short Rib Sides, and the feeling was stronger in a general way. Offerings were fairly large, and the demand from all sources was brisk. More doing in July. Market opened rather firm at 5@10c advance, and further improved 10@12½c. Toward the close, the feeling was not so firm and prices settled back 5@7½c, and the market closed comparatively steady. Demand on shipping account was light and offerings were moderate. Cash lots quotable at $7 75@7 87½ according to weight.

MAY—Offerings were fair, and the demand was brisk. Sales were made at $7 95@8 12½. Opened at $7 95 to $8 00, sold to $7 97½, to $8 00, to $7 97½, to $8 05, to $8 02½, to $8 10, to $8 05, to $8 12½, to $8 05@8 07½, to $8 07½, to $8 02½, to $8 02½@8 05, and closed steady.

JULY—In good request and offerings were fair. Sales were made at $8 00@8 20. Opened at $8 00 to $8 07½, sold to $8 10, to $8 05, to $8 10, to $8 05, to $8 12½, to $8 07½@8 10, to $8 20, to $8 15, to $8 10, to $8 15, to $8 20, to $8 15, to $8 17½, to $8 15, and closed steady.

Other Meats—Trade was only moderate and the feeling fairly steady. Offerings were only fair. Demand was moderate for the home trade. Export inquiry rather small. Green Meats in moderate supply and rather light demand, and prices ruled higher. Pickled Meats were in good request to fill moderate orders and prices favored sellers. Dry Salted Meats were in fair demand in a quiet way, and prices ruled higher. Smoked Meats called for in fair quantities, especially in a jobbing way, and prices ruled higher. Closing ranged as follows:

*Minneapolis and Duluth mills outside of Minneapolis and Duluth.		

†Flour made by mills outside of St. Louis, but controlled in that city.

The Minneapolis Flour output last week decreased 21,785 brls. The decrease last week was due to some of the mills shutting down about the middle of the week. Friday the mills were running and another will be started to-morrow. This week's output should be about 400,000 brls, against 362,000 brls of the corresponding week in 1903.

The Minneapolis mills did a very fair business in Flour last week. Some of them sold more than they ever sold in a week before. Sales were large all in domestic markets. The strong Wheat market seemed to induce moderate trading, while Friday and Saturday a boom brought in an unusually large number of orders. Of course Flour was wanted at the previous day's quotations, but not much could be had on that basis.

Practically nothing was done abroad, except in Cuba. Millers bought freely of First Clear at about that grade and London took more or less of Second.

During the week local mills have advanced Patent 10@20c per brl and the range of prices now is $4 85@5 05 per brl in wood, f. o. b. Minneapolis.

The range of Eastern prices to-day, Feb. 24, delivered in Minneapolis mills for Patent in good was: Boston, $5 75@6 05; New York rate points $5 70@5 90; Pittsburg points, $5 65@5 75; Baltimore, $5 60 @5 85; Philadelphia, $5 60@5 80; Albany points, $5 60@5 80; Buffalo, $5 50@5 70; Michigan $5 35@5 45, Iowa, Illinois and Wisconsin, $5 25@5 40.

With strongly advancing Wheat markets, it was necessary for the mills to put up their Flour prices correspondingly high last week, and while this action frightened in my buyers from the market, others hastened to get in as soon as possible evidently thinking that it still higher prices to come. While a number of mills report a good domestic trade, the majority seem to have accomplished only a fair business, and it is evident that the forgetting enough Wheat to supply their needs. This scarcity is becoming a serious matter in a number of localities and will probably result in a shutdown of mills for a time. Kansas mills are the exception, as most of them have ample stocks. In the Ohio Valley much Wheat was delivered by farmers when its price touched the dollar mark, but with further declines had almost ceased; holders are now waiting for the high limit to be reached.

SOUTH NEEDS SNOW.

[From the Denver Stockman.]

While the Northern part of the country has been getting plenty of snow this winter, the Southern half of the country is exceedingly dry, and unless snow comes quickly there will be serious damage to winter wheat. The Texas panhandle has had no precipitation since last October, and in Western Texas and Southern New Mexico the drouth is of much longer duration. The situation is so serious that there have been practically no contracts made for the No thern ranges. Northern buyers expect to very low prices if conditions continue as they are another month. In the meantime they are trying hard to make contracts but Northern buyers are holding back, and there have been no trades reported as yet.

MACARONI WHEAT.

[Buffalo correspondent of Modern Miller.]

The supply of Macaroni Wheat is about out of the Red River Valley, and those that expected millers who took it up some time ago managed to learn how to handle it in time to get back after more before the limited supply was gone, and they laid in enough to last them for a time at least. It looks as though the low prices of this Wheat would come to an end before long if the demand for it grows any more. Dealers expect to sell Macaroni Wheat, as they think that has already hurt it, by creating a notion that it was good for nothing else but making these Italian products. However, it is an excellent blending Wheat when properly handled. If we only had more of it, is the sentiment now.

THE WEATHER CONDITIONS.

The weather map shows light snows in the Dakotas, Northern Nebraska, Iowa, Illinois and Ohio Valley. Precipitation everywhere light. No precipitation in Kansas. There is a trace of rain at Oklahoma. Weather conditions generally cold in Northwest. Temperatures about seasonable West and Southwest.

Indications are for unsettled weather over the Western States to-day. Temperature will continue generally low. No present indications of a break up of winter. Any moderation of temperatures will be only temporary.

Forty-two railroads reporting for December show an aggregate increase of only 4.1 per cent in gr ss earnings for the month as compared with the gross in December, 1903, and 5.6 per cent for the year. For the six months to Dec. 31 the same roads report an increase of 10 1 per cent in gross and 9 per cent in net. The increases in net have been keeping up in spite to decreases since the beginning of the fiscal year.

The Imperial Tobacco Company, the English Tobacco trust, reports $1,258 810 net trading profits for the year ended Sept. 30, 1903, as against $1,107,-1 2 in 1902 The balance of surplus for the year, after the payment of all interest and other charges and dividends, was $20,895, an increase of $21,348. The company's capital is $25,000,000. Preferred, $7,000,412. The share capital is $11,010,154, its debenture capital $2,465,011, and the amount of vendors' purchase money $1,470,000.

Up to date it is reported that only a little more than $17,000,000 of the United States 5 per cent bonds of 1904 have been redeemed. The total issue was about $40,000,000. Interest ceased to accrue on these bonds on the first of February last. Probably some of these bonds are held abroad, but the fact that over $2,000,000 of them are still outstanding so long after interest ceased seems to indicate that there are still some persons left in the country who are not in pressing need of cash.

A mortgage has been executed by the Louisiana Exposition Company to the United States to cover the $5,000,000 loan authorized by Congress. The company will receive $1,000,000 in a few days, $2,-000,000 in March, $1,000,000 in April, and $000,0 0 in May The mortgage covers the gate receipts of the whole fair, and repayment of the loan is expected to be made in June The mortgage provides that should the company fail to pay promptly the Government is to take charge of the fair and run it.

The Interstate Commerce Commission, in a report issued Friday, shows that in railroad accidents in the United States during July, August and September, 1903, 59 passengers and 220 employes were killed and 1,4 4 passengers and 1,489 employes injured Other accidents not the result of train ac idents bring the aggregate casualties up to 15,467, being 102 passengers and 916 employes killed and 1,488 passengers and 11,741employes injured. The total number of collisions and derailments was 3,4 3.

The War Department, Friday, issued a circular calling for proposals for the purchase of $5,000,000 worth of Philippine temporary certificates, proposals to be opened April 15. These bear 4 per cent interest and run one year. The new bonds are intended to take the place of certificates which will fall due May 1 next. These might have been continued, but the Philippine commission thought that their prompt redemption would make toward maintaining the high credit of the bonds for the islands which is regarded as desirable.

The report of operations of Street's Western Stable Car line for the fiscal year ending Dec. 31 1903, was very satisfactory. Net earnings, $567,-1 0, were nearly sufficient to pay the 6 per cent dividends on the preferred stock, $387,8 2, as compared with $388,0 1 in 1902, a decrease of $11,161. There was an increase in interest charges, making the net income applicable to stock $176,747, as compared with $3 7,899, a decrease of $1 1 58. The earnings applicable to stock were equivalent to the full 7 per cent dividend on the $776,0 0 of preferred and 3 5 per cent on the $3,434,800 common stock Last year 6 6 per cent was earned on the common stock.

Speaking of matters affecting the book board industry, the secretary of the Underhill Publishing Company said: "Suits of the National News Board Company have been filed against the Childsdale Paper Company of Childsdale, Mich., and against the Jaffrey Paper Company of Jaffrey, New Hampshire and it is the intention of the National News Board Company to push these vigorously and to have a decision at the earliest possible date. The suits against the Eckhart Paper Company, which was decided in favor of the News Board Company, has been settled by the Eckhart Paper Company for the amount of judgment obtained against that company."

The Government has just awarded to the Chicago and Northwestern, Union Pacific, and Southern Pacific railroads the contract for transporting the supplies and mails for the Army, both between Chicago and the Pacific Coast during the fiscal year commencing July 1 next. Last year the contract was divided between the roads, but the contract was bitter, and, as a result, the contract was let on a basis of $59 74 per carload between Chicago and San Francisco, or about 1 cent a mile. The saving of making all the rate was materialized by all the roads this year, and, as a rule, they doubled their bids. The lowest—$33 21—per capita between Chicago and the Pacific Coast, was bid by the New York Central, Union Pacific and Southern Pacific. This is the net cash rate to the Government, after deducting all allowances for land grants and other items.

The last annual report of the Union Pacific states that the amount spent for betterments, improvements and additions since reorganization was $48,253,0 7 which $11,303,664 was paid by bonds sold The increase in relative cost of conducting the transportation in 1903, was due to abnormal influences, so that the real gain in efficiency during the period may be stated at 10 per cent. The net earnings for the calendar year 1903 the Union Pacific had $54,6 0,000 gross earnings. It is safe to say that at least 3 per cent of this amount has been diverted to net earnings because of expenditures for betterments. The amount so diverted in 1903 was therefore about $1,6 0,0 3 This amounts to about 4 per cent on the $40,253,0 0 which was added to the capitalization. The larger portion of the expenditures has, however, been provided from income. On the $11,303,664 provided from sales of bonds, the estimated saving in 1903 on account of increased efficiency amounts to about 14 per cent.

The presidential decree of the Republic of Mexico fixing new duties on Iron and Steel is drawn so as to become effective March 31. As the object of the decree is to protect the new Steel industries at Monterey, Mexico, the rates have been arranged so that Steel rails will pay after April 1 a duty of $10 per metric ton, while other Iron and Steel products are rated in proportion. The new duty will practically shut off any material amount of trade with the Steel companies of the United States have with Mexico, but it is expected to cut off a large volume of export Iron from Germany. The United States Steel Corporation has been sending considerable Iron and Steel to Mexico, but its rail trade has not been a factor Since the Monterey Iron and Steel Company engaged in the Steel rail making six months ago it has been working hard to secure government protection from foreign competition in a duty of $10 per ton to $3 per ton be ter than the duty provided in the new tariff schedule.

The United States Steel Corporation will complete its third year March 31. Its net earnings for the thirty-six months will aggregate not less than $121,000,0 0. The average net for the last nine months, covering over two years of prosperity and nine months of pronounced depression Net returns for the thirty-three months covered by official reports show a total of $92,6 7,6 6 which includes only six months of depression, leaving the first quarter of this year to be accounted for. Comparison of the returns during the thirty-three months with those for the nine months available shows that in only two months were the earnings below $2,0 0,0 0, while during six months they were over $3,000,0 0 and in two months over $4,000,0 0. Nine months over $9,000,0 0 and less than $10,000,0 0; four months over $10,0 0,0 0 and less than $11,000,0 0; one month above $11,000,0 0 and less than $12,0 3,0 0; for nine months above $12,0 3,0 0 and less than $13 0 0,0 0, and one month over $13,0 0,0 0 The maximum net monthly earnings for the year ended June 30, 1903, was $15,5 0,0 0, or within $1,000,0 0 of the quarterly net earnings for the last quarter of 1903 The minimum net earnings were those of December last, when the estimate was $3,100,0 0

ITEMS OF GENERAL INTEREST.

New York Exchange 15c discount.

Documentary Sterling strong at 482¾.

Chicago Bank Clearings to-day, $31,450,803.

A Board of Trade membership sold at $3,700 net to seller.

Consols closed ⅛@¼ lower at 86 1-16 for money and 86 3-16 for the account.

Estimated receipts for to-morrow are: Wheat, 20 cars; Corn, 185 cars; Oats, 135 cars; Hogs, 29,000

Reported that 128,000 bu Wheat and 160,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 27,700 Hogs to-day; shippers, 7,000; left over, 7,000. Market closed strong.

The receipts of Hogs at Chicago for the week will be about 239,000, compared with 194,449 for the corresponding week last year.

The shipping district of Rochester, N. Y., is being swept by a disastrous fire. The loss up to 12 o'clock is estimated at $3,000,000.

The receipts of Wheat at Liverpool during the past three days were 224,000 bu, of which 104,000 were American. Receipts of Corn, 250,000 bu, of which 216,000 bu were American

Average cost price of Hogs at Chicago, Thursday, was $5 45, against $5 42 Wednesday, $5 15 a week ago, and $7 15 a year ago The average, Thursday, was the highest for the year thus far.

Argentine Wheat visible is 6,336,000 bu, against 5,008,000 bu the previous week, and 2,576,000 bu last year. Argentine Corn visible is 778,000 bu, against 1,260,000 bu the previous week, and 197,000 bu last year.

Argentine cables say: "Weather continues favorable for growing Corn crop. Argentine Wheat is firm, and holders have raised prices Buyers holding back owing to railway strike. Arrivals expected to decrease."

Cotton in New York was strong and prices moved irregularly, although averaging higher. "Bears" were nervous, as Liverpool closed steady and Europe sent small buying orders. The market closed 55@83 points higher.

Shipments of Wheat from Argentina this week were 3,731,000 bu, against 2,888,000 bu the previous week, and 2,616,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 10,702,000 bu, against 9,106,000 bu same time in 1903.

Shipments of Corn from Argentina this week were 451,000 bu, against 651,000 bu the previous week and 40,000 bu for the corresponding week last year. Shipments since Jan. 1 reported at 5,520,000 bu, against 437,000 bu for same time last year.

Local Securities were neglected, as Stock traders are giving attention to the Wheat market. The few Stocks traded in were without material change in prices. Biscuit and Lake Street Elevated show a small loss and Diamond Match a gain.

The shipments of Flax Seed from Argentina this week were reported at 1,092,000 bu, compared with 1,520,000 bu last week and 1,018,000 bu for the corresponding week in 1903 Shipments since Jan. 1 reported at 9,056,000 bu, compared with 6,408,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 2,091,000 bu, against 1,657,000 bu for the previous week, and 2,656,000 bu for the corresponding week last year Exports from July 1 reported at 110,488,000 bu, compared with 159,212,000 bu for the corresponding time in 1902-03.

The Chicago Board of Trade Transportation Committee has canvassed the railroads operating east and west of Chicago, and has secured the promise from a majority that an effort will be made to readjust Grain rates so that they are more equally proportioned and Chicago will not be discriminated against as at present.

Some parties in the trade imagine that the present fluctuations in Grain are something unheard of. On Aug. 20, 1872 Wheat broke 39c per bushel—closing on August 19 at $1 50, and opening the next day at $1 2?, and declining to $1 11. It sold at $1 15¾ on July 19, advanced to $1 61 on August 18—advanced 45½c in twenty-eight days and declined 39c in twenty-four hours.

Broomhall cabled from Liverpool: "Wheat opened higher on the American advance. On the bulge there was liberal unloading by holders. This caused a severe break of ⅛d to 1d. Later, there was a reaction on buying by early sellers. Market as a whole was strong, but nervous. Corn eased off in sympathy with Wheat and large arrival of American Corn and disappointing spot demand."

Stocks in New York were weak and lower. The Continent and London were heavy sellers. The general market was dull, and although some Stocks had an oversold appearance and rallied, the list closed with moderate losses. Railway shares closed ½ to 1¼ lower, and Industrials ⅛ to 1 lower. Michigan Central, which has been inactive for months advanced 12 points from the opening. Money, 2 per cent.

The *Modern Miller* says: "There is no impairment in the condition of growing Winter Wheat reported from any section, and where the crop received moisture beneficial effects are believed to have resulted. Favorable spring weather, with plentiful rains, are needed to overcome the disadvantages of a poor start and retarded growth, due to the drouth during the fall and winter in some localities. Farmers' deliveries of soft Winter Wheat are larger, attracted by the price of $1 00 per bushel at all the leading markets."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Millers continue "bullish" in their views and the market is strong Sales mainly on local and domestic account.

WINTER WHEAT—The early market was steady and some sales made within late range of prices, but the closing was weaker and about 1c lower. Receipts small and fresh arrivals were wanted by millers No 2 Red in store ranged at $1 03⅝@1 08 and fresh arrivals free on board ranged at $1 06@1 10 No. 3 Red fresh arrivals sold at $1 07@1 10 for choice, soft, and quotably down to $1 00 for dark colored. No. 2 Hard at the river quotable at 1?c@$1 01. No. 3 Hard local sold at $1 00 and at the river also sold at $1 01, and ranged at 90c@$1 00. No. 4 Hard local sold at 90c, and at the river at ? c

SPRING WHEAT—Was quiet, with not enough Wheat received to make a market Choice Wheat wanted by millers, and closing about 1c lower. No. 1 Northern in store quotable at $1 01⅝@1 04, and fresh arrivals ranged $1 04@1 07. No. 2 Northern fresh arrivals nominally 98c@$1 06. No. 3 Spring quotable at 90c@$1 03 No. 4 local sold at 92c, and at the river at 80c, and quotable at 65@92c for poor to good.

REGULAR WHEAT—Was nervous and greatly unsettled, with the undertone of the whole weaker, the close showing May 2⅝c lower, while July lost 1⅝c Sentiment was influenced to a great extent by the indifferent cables, large Argentine shipments and pit situation, the market acting as if overbought on yesterday's advance Commission houses generally had "long" property for sale at the start, and the demand being of the indifferent sort, values declined. Liverpool quoted spot steady to 1d higher and futures ⅜@½d lower London declined ¾@1¾d in face of the rise here yesterday and Berlin was down 2½c Paris was unchanged to ⅛c higher. Antwerp unchanged. Argentine shipments were 3,731,000 bu and the total since Jan 1 10,702,000 bu, against 9,106,000 bu same period in 1903. Visible there is reported at 6,336,000 bu, against 2,576,000 bu same date last year. Cables from there reported a strike on railroads. Minneapolis predicted larger receipts with milder weather, and the *Modern Miller* crop summary was construed as "bearish." Clearings were small, and total for the week 2,091,000 bu, compared with 2,656,000 bu same week in 1903 Kansas City and St. Louis received 153,000 bu and shipped out 306,000 bu. Northwest cars 76 under last year and Winnipeg had 86 cars against 89 cars one year ago. There was no precipitation in Kansas or Oklahoma. Snow or rain indicated in Illinois and Indiana and cloudy, warmer weather for Kansas and Nebraska. Minneapolis stocks are expected to decrease 300,000 bu this week. The principal "long" interest was credited with selling both May and July the last half of session, and professionals traded on theory a sharp decline was in prospect. Receipts at Duluth 12 cars and at Minneapolis 209 cars, a total of 237, against 233 cars yesterday, 237 cars a week ago, and 297 cars last year. Local receipts included 15 cars Winter, 7 cars Spring and 2 cars mixed, a total of 25 cars, against 7 cars last year. Included in the above was no cars of contract grade. There were 14 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 50 cars Withdrawals were no bu. Receipts at Western points were 448,911 bu against 471,308 bu last year. At Eastern points 40,042 bu, against 30,039 bu last year. Shipments from Western points were 419,696 bu, against 140,280 bu last year, and from Eastern points 4,800 bu, against 76,458 bu last year. Shipments of Flour were 32,862 brls. Exports of Wheat in Flour were equal to 151,679 bu

Future Deliveries of Regular Wheat—Active trade at lower prices.

JULY—New Style—Sold at 95⅞@98¼c. Opened with sales varying from 97½c to 96c; sold to 95⅞c, to 97¼c, to 97c, to 97⅛c, to 97¼c, to 97⅛c, to 98¼c, to 97⅝c, to 97⅞c, to 99½c, to 96⅝c, to 96⅞c, to 96c, to 96⅝c and closed at 96⅝c

SEPTEMBER—Old Style—Sold at 91⅝@93¼c. Opened with sales varying from 92¼c to 91½c; sold to 91¾c, to 93¼c, to 92⅜c, to 92⅝c, to 91¾c, to 92½c, to 91¾c, to 92¼c, to 91⅝c, to 91¾c, and closed at 91¾c

SEPTEMBER—New Style—Sold at 90⅜@92½c. Opened at 91c to 90½c, sold to 92⅜c, to 91⅞c, to 92½c, to 91c, to 91½c, to 90⅜c, to 90⅞c, and closed at 90⅞c.

CORN—Was active and decidedly nervous, the range covered being 1⅜@1½c. The start was weak, with May off to 56½c, but soon rallied to 57⅞c, reacted to 56⅜@56½c and closed at 56⅝c, or ⅝@¾c lower than yesterday. July lost ⅝c. May July spread at one time 1½c Early break was with Wheat, but local temper leaned to the "bull" side and at the decline offerings were light and on free purchases by commission houses and "shorts" the price rallied sharply, but the advance failed to be maintained. Receipts were small, 245 cars, making 1,859 cars in this week, 70 per cent of which consisted of low grades, against 1,963 cars last year, when 36½ per cent were off grades. Country offerings were reported small and the estimate for to-morrow 185 cars. Exports were larger, 543,000 bu, and total for the week 1,486,000 bu, against 2,363,000 bu last year. Liverpool quoted spot Corn steady to ⅛d lower and futures ⅛d lower. Decline there due to the large arrivals and the poor demand. Berlin declined 1c. *Broomhall* cabled that the weather in Argentina continues favorable for the crop. Shipments from there this week 454,000 bu, and since Jan. 1, 5,520,000 bu, against 437,000 bu year ago. Visible now, 788,000 bu; week ago, 1,260,000 bu; year ago, 197,000 bu. Kansas City was lower, but St. Louis inclined to drag. Western receipts, 517,000 bu; last year, 526,000 bu. Shipments, 395,000 bu and 384,000 bu respectively. Local arrivals 205,000 bu and shipments 137,000 bu Transfers from private to public elevators, 155 cars Shipping demand fair and sales 10,000 bu. Car lots were in small supply and fair request. Choice Corn ruled steady and low grades 1@2c lower No. 2 closed at 53c and No 3 Yellow at 54c No. 2 White sold at 54c. No 3 closed at 44@52½c and No. 3 Yellow at 45@53½c

Corn by sample—Fair demand and offerings moderate Feeling was easier, with No Grade 1@2c lower; other grades steady, excepting white which was ½@1c higher. Sales on track and free on board: No Grade sold at 35@39c. No 4 at 41@43c. No 3 at 44½@46½c. No. 3 Yellow at 45½@55c. No 2 at 54c No. 3 White at 46@55c Ears at 38@45c. Billed through: No Grade at 35@38c. No. 4 at 39@44c. No 3 at 43@44½c. No. 3 Yellow at 45@45½c. No. 3 White at 43½@44½c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled, closing ⅝c to ⅝@¾c lower.

FEBRUARY—Inactive; closed about 53½c.

MAY—Sold at 56⅜@56½c and 57⅞c. Opened at 57c to 56½c, and sold at 56¾c, to 57⅛c, to 57c, to 57½@57¼c, to 57⅛c to 57⅞c, to 57½c, to 57⅝c, to 56¾c to 57c, to 56⅜@56½c, to 56¾c, to 56½c, to 56⅝c, and closed at 56⅝c sellers.

JULY—Sold at 55@56½c. Opened at 55½c to 55c, and sold at 55⅛c, to 55⅝c to 55¼c, to 55¾c, to 55½@55⅝c, to 56½c, to 56⅛c to 56¼c, to 55¾c, to 56c, to 55⅛c, to 55⅝c, and closed at 55⅝c asked

SEPTEMBER—Sold at 54⅛@55⅜c Opened to 54⅝c to 54¼c, and sold at 54¼c, to 54⅝c, to 54½c, to 55⅜c off to 54⅛c, to 54⅜c, and closed at 54⅜c sellers.

OATS—Were weak and unsettled with a lower range Prices opened ¼@⅜c lower, declined ½@1¼c, and closed ⅛@¼c lower, the latter on May. The market was a sympathetic one, following other Grains. A feature was the liberal liquidation in May by leading "longs" and selling on stop-orders by small holders. This weakened the May and it suffered the most. July and September were comparatively strong having good commission house support and they lost ⅛@⅜c, July gaining ¾c on May. Cash business was fair—60,000 bu. Arrivals were 184 cars, with 131 cars expected to-morrow. There was 64,000 bu and 30 car Standard inspected from private into public houses Seaboard clearances were 24,000 bu Car lots to go to store were ¼c higher early, but broke and closed lower. No. 3 White sold at 44½@45c Standard closed about 4.75@43⅝c, as to location

Oats by sample were in moderate request and steady to ¼c higher early, but broke with futures and closed easy with advance lost. Sales on track and free on board: No Grade at 39c No. 4 at 40@41c No 4 White at 40@44½c. No. 3 at 42c. No 3 White at 41@46c No 2 at 42½c Billed through: No 4 White at 42½@43½c No. 3 White at 41½@45c No 2 at 41¾@42c Standard at 43@45½c. At the river No. 4 White at 31@43c. No. 3 White at 42@44c.

Future Deliveries of Contract Oats—Were unsettled and closed lower.

FEBRUARY—Inactive Closed about 42⅞c.

MAY—Active. Sold at 44⅞@45⅞c Opened at 45½c to 45⅝c, sold to 45⅞c, to 44⅞c, to 45½c, to 45⅜c at close.

JULY—Was traded in liberally. Sold at 41¾@42¾c. Opened at 41¾c to 42c, sold to 42¾c, to 41¾c at close

SEPTEMBER—Active. Sold at 36@37c. Opened at 36⅝c to 36¾c, sold to 37c, to 36c, to 36⅝c, to 36⅜@36½c at close

RYE—Ruled firm Some speculative demand and offerings light. Prices were advanced ½c, and trading confined to May delivery There were no receipts and nothing done in cash Two cars were withdrawn from private warehouse No export clearances from the seaboard Prices for cash entirely nominal—no fresh arrivals offered. No 2 quotably about 75@76c

Future Deliveries of No. 2 Rye—Firm and ½c higher May sold at 78c to 78½c, and closed at 78½c. For July, May price was asked

BARLEY—A very quiet market was experienced to-day. There was a decrease in offerings for one thing. Buyers for malting account manifested less desire to take hold. They have secured considerable this week and to-day the weather was dark, not favorable for buying. Demand for feed and mixing purposes was not quite so good either as it has been. Prices were not quotable as materially changed for malting Barley, but feed at the close was quoted about 1c lower. Good goods held firmly and common perhaps not quite so strong as recently. The postings gave 63 cars in, but number offered much less than this quantity. Little was done in Screenings; they were quotable over a range of 3?@43c for poor to choice. Barley, feed or mixing, quotable at 41@43c local when sweet; good sales finally at 41c; musty below; Malting low grade about 43@44c; common, 45@47c. Fair was about 48@50c; good, 51@54c choice, 55@58c; fancy nominally higher; not offered.

SEEDS—An easier feeling in the market for Timothy was the only feature of news. There were no other changes. General market quiet.

Timothy—Dullness prevailed. There was 2½@5c decline in prices. Demand for cash lots was tame It was said that some roads were not accepting out freight There were fair offerings of consignments The speculative market was very dull also Trades seemed to have been well settled up. Lower nominal prices developed. Contract spot or February delivery was $3 07½ nominal. For March, $3 07½ bid and $3 12½ asked Cash sales reported at $2 50@2 95 Country lots quotable at $2 25@3 25 poor to fancy; fair to good at $2 50@2 65; choice, $2 70@2 85 and rough, dark and foul lots about $2 3?@2 45.

Flax—There was little or nothing much to be said of the market. No business was done aside from the sale of a small bag lot. The nominal prices quoted were just the same as those of yesterday. Cash Flax scarce and speculation orders were lacking. Twelve cars or 10,200 bu were received here, and 2 cars or 2,025 bu were taken out. Minneapolis got 34 cars and Duluth 6 cars. No. 1 Northwestern or No 1 from the Northwest nominally $1 18½; a small lot of bags sold at $1 15 if grading No 1. Regular No. 1 was $1 12 bid Rejected nominally $1 09@1 12, outside for choice Northwestern February, quotable at $1 12 May held at $1 15 and $1 13½ bid

Clover—Was quotably strong and would bring recent noted small advance in prices. The market at the same time was devoid of offerings and for that reason trading was impossible. Market for contract spot and March delivery quotable at $11 25. Country lots, common to choice, $8 25@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Main run of such lots as come to market when ordinary to good quotable at $8 50@10 50

Other Seeds—Nothing appeared on the market excepting some samples of stored Millet which were brought out for bids. The market for all lines was quotably steady and firm. Hungarian quotable, common and light color to choice, dark at $1 60@1 90 Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30. Siberian, 75@90c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05. Buckwheat firm and wanted; good, milling quotable at $1 30@1 40.

HOG PRODUCTS—Trade active, market unsettled and somewhat panicky, with frequent and rather wide fluctuations in prices Outside orders liberal, and local trading brisk Hogs in good supply—higher early, and easier later Market opened demoralized, with considerable property for sale, and only a moderate demand. A material decline in prices was established all around. At the decline there was an increased demand, and after the early offerings were disposed of, a stronger feeling was developed Prices rallied to outside figures quite rapidly. Toward the close, the feeling was rather easy, and prices receded to medium figures, and the market closed steady. Receipts of Hogs at the leading Western packing points were estimated at 77,300, compared with 56,000 one year ago. The foreign markets were stronger, and Liverpool quotations were advanced 1s on Backs, 6d on Hams and Cumberland Sides, and 3d on Lard. Domestic markets steady Receipts of Products were fairly good—of Lard and Meats about ?3 cars Shipments were fair—of Lard and Meats about 131 cars Shipping demand was moderate, and offerings were fair Sales not very large, and prices comparatively steady

Mess Pork—Market for Mess Pork active and unsettled Prices very irregular, and trading unsatisfactory. Market opened with considerable pressure to sell, and prices ruled 17½@52½c lower, and finally declined 5c Later, the demand improved, with moderate offerings, and prices rallied 35@57½c. Toward the close, the feeling was rather easy, and prices settled back 35@37½c, and closed rather steady. Shipping demand was moderate, and offerings were only fair. Cash lots quotable at $16 25@16 50.

MAY—Offerings were liberal, and the demand was fairly active. Prices irregular, with sales at $16 10@16 67½. Opened at $16 15 to $16 50, sold to $16 10, to $16 15, to $16 10, to $16 62½, to $16 55, to $16 60, to $16 47½, to $16 55, to $16 50, to $16 55, to $16 52½, to $16 57½, to $16 50, to $16 67½, to $16 37½, to $16 47½, to $16 30, to $16 37½, to $16 30, to $16 35, to $16 30, and closed steady

JULY—In good demand and the offerings were rather free. Sales were made at $16 20@16 75. Opened at $16 20 to $16 75, sold to $16 30, to $16 75, to $16 67½ to $16 70, to $16 57½, to $16 55, to $16 60, to $16 50, to $16 72½, to $16 50, to $16 55, to $16 42½, to $16 45, to $16 42½ and closed steady

Lard—An active business was reported in the Lard market. Offerings were liberal, and the demand rather active Foreign advices more favorable to holders Market opened rather weak and prices ruled 10@15c lower At the decline the demand improved, and prices rallied 15@20c, with good trading at the advancing scale Toward the close the feeling was not so strong, and prices receded 12½c, and closed steady. Demand on shipping account was light and offerings were moderate Cash lots were quotable at $7 82½@7 87½. Loose lots called for sparingly, and offerings were rather light Prices were steady at about 70c discount on May figures. PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Feb. 25.]

The winter season in the packing records is nearing a close, with supplies of Hogs well maintained, although falling off in comparison with the liberal number for the preceding week. Total Western packing 5,000, compared with 585,000 the preceding week, and 475,000 two weeks ago. For corresponding time last year the number was 640,000, and two years ago 565,000. From October 1 the total is 8,585,000, against 8,180,000 a year ago, an increase of 375,000. Good quality is maintained generally, with evidences of some shrinkage in exceptional instances. Prices are decidedly higher, prominent markets at the close averaging about $3.35 per 100 lbs, compared with $3.15 a week ago, $3.10 two weeks ago, $3.60 a year ago, $3.60 two years ago, $5.45 three years ago, $4.80 four years ago.

The speculative Provision market was active the past week, and there was an upward trend to prices, with the strength in the Grain markets and the war situation in the far East the most important factors in controlling values. The condition of the market is unsettled, and the week's trading covered wide ranges in prices each day. The export clearances of Product were fair, and show an increase as compared with the preceding week, and a gain over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	536,000	430,000
Bacon, pounds	11,450,000	8,900,000
Total, lbs	12,464,000	8,580,000
Lard, pounds	10,425,000	10,600,000

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Feb. 25.]

During the past week the Winter Wheat belt has been visited by a severe cold snap, with nearly the entire area unprotected by snow. This is followed by moderating weather, accompanied by snow over most of Indiana, Illinois and Eastern Iowa and Missouri, and rains more or less general. Thawing weather the past few days has been melting rapidly the limited area covered by snow.

Correspondence received the past week generally commments on the hard freezing weather on the bare Wheat fields, but the damage is told as to the exact status of the plant; differences of opinion are being expressed even from the same localities. Most reports indicate the plant is generally regarded as healthy and the situation favorable, although the plant is small. In Kansas some early planted Wheat is believed to be injured, but the bulk of the crop has fairly good protection, needing sufficient moisture is had in spring. In Nebraska the prospects may be regarded with favor. In Iowa what little Winter Wheat is raised gives fair promise.

In Indiana and Illinois there is some difference of opinion, and in most of the southern portions of these States the appearance is not entirely unpromising; much lee in the fields has been especially hard on the plant; while there are a few complaints from the northern parts of these States, the counties generally report prospects as fairly good promise. In Ohio most of the complaints come from the western counties, where in some fields the plant is practically invisible, but the exact condition is yet uncertain. In general the situation is fairly favorable. South of the Ohio River the situation is unfavorable. In the Southwest the reports are generally rather hard or otherwise. The weather conditions of the past two weeks may be regarded as unfavorable for the Wheat crop, but without developing anything of certainty.

In regard to the interi r movement of Wheat recent reports indicate that some are being induced to sell on the spot while others are holding for still higher prices, but, on the whole, more has lately been sold than previously. East of the Mississippi River there seems to be comparatively little left in farmers' hands. Reports of offers for disposition at interior points to sell Corn, grading continues very poor, although here and there are some indications of slight improvement. Not much is being done in Oats.

NORTHWESTERN WHEAT CONSUM PTION.

[From the Northwestern Miller, Feb. 24.]

The attached table shows the output of Flour and equivalent in Wheat of the mills in Minneapolis and Duluth together with that of three eight "outside mills" with a daily capacity of 29,600 bris, from Sept. 1, 1903, to Feb. 13, 1904:

	1903-4—		1902-3 —	
	Flour, bris.	Wheat, bu.	Flour, bris.	Wheat, bu.
Minneapolis	7,356,630	37,105,600	8,372,685	37,684,700
Duluth	2,239,090	9,962,900	883,355	3,852,600
8 outside mills*	3,456,080	15,573,100	3,410,380	13,951,700
Totals	11,413,470	51,961,600	12,333,380	55,192,000

These figures represent the consumption of 4,315,000 bu less Wheat this year than in 1902-3. This has occurred from the mills of Minneapolis and Duluth turning out 1,000,000 bris less Flour, equal to 5,750,000 bu of Wheat, than last year. In contrast, the outside mills increased their Flour output to the extent of 46,000 bris, or equal to 1,642,000 bu of Wheat. The mill operatives' strike in the fall of course cut down the Minneapolis output.

THE WEATHER CONDITIONS.

The weather map shows light snows in Minnesota, Northern Nebraska, Iowa, Northern Illinois and the Ohio Valley. The precipitation everywhere was light but is general through Iowa and Ohio Valley. No precipitation in Kansas or Oklahoma. Temperatures continue low in the Northwest, moderate in the West and Southwest. The forecast is the continuation of the dry weather throughout the Southwest.

Indications are for unsettled weather, although not much precipitation. Temperatures will remain about stationary, but will rise in the Northwest.

The United States Leather Company has declared a quarterly dend of 1¼ per cent on the preferred stock, payable April 1 to stockholders of record March 15.

CONSUMPTION OF STEEL INCREASED.

[From the Iron and Machinery World.]

Specifications of iron and Steel on outstanding contracts are reported to be a little better this week. There is hardly consumption, or the preparation for larger consumption. The gain is not large, out it is discernible. It will perhaps grow as the severity of winter breaks

The railroad companies are beginning to buy cars again. The Southern has placed orders for 2,500. The Lackawanna has bought 1,000, and the latter order will be filed at Chicago. There are other inquiries. A good many of the cars will be needed is apparent. Specifications for rails are in the possession of the local rail mills sufficient to keep them running till midsummer, not to mention the sales, deliveries on which have not been called for. Eastern mills are perhaps less favorably situated in respect to rail specifications, but there is at least some interest in this important branch of the Steel industry.

The building trade in the West has not yet assumed definite form, but the prospects are a little less dubious than they were a week ago. Some projects are taking definite shape. The extent of their purchases is determined by the business outlook from their respective standpoints, and the result is perceptible in the increase in the volume of shapes ordered from mill.

There is moderate gain in the purchase of factory supplies. Reports from a large number of the trade are showing in the gain. Bars are quite active, perhaps because of the rumored advance of $1.00 per ton in Steel bars, an advance further considered, but of which has been deferred, however, until March.

The markets generally, with the exception of pig iron, appear strong. In addition to the positive advances in Steel bars, plates and unfinished wire and nails will be advanced this week. Official action at this time appears to be limited to one of these products, but the demand for sheets has so improved that some of the leading makers are making premiums over the regular price. Old material is a little higher than a week ago.

There is little change in the readjustment of the prices of southern pig iron, at least by some of the companies. At present there is uncertainty. The $10 to Birmingham basis has been abandoned by some influential companies, and quotations may be somewhere about $9.50 and $9.75, Birmingham, for No. 2 foundry. Makers say they are buying the lower of the two prices quotations. But there is also an uncertainty as to the prices of local Irons. The usual quotation is perhaps about $13.75, Chicago, for No. 2 but in some of the sur-rounding territory sales are reported at $13.50. The local product is said to have been sold at a considerably lower basis than that.

ITEMS OF GENERAL INTEREST.

The minimum rate of discount of the Bank of England is unchanged at 4 per cent.

Frank Ehlen of Baltimore has been appointed receiver for the Queen Anne Railroad Company of Maryland.

A receiver has been appointed for the Frankford Steel Company of Philadelphia. Liabilities, $60,000; assets not given

The City of Nashville, Tenn., has awarded a Chicago banking firm $150,000 4 per cent bonds, dated July 1, 1903, and maturing July 1, 1925.

The receivers of the Kirby Lumber Company of Houston, Texas, have filed a report placing the assets and liabilities both at $11,000,000.

The Calumet and Arizona directors have declared a dividend of $1.50 a share, payable March 30 to stock of record March 20.

The warehouse occupying the Grand Rapids Carpet and Furniture Company at Little Rock, Ark., was burned to ashes day. The loss is $75,000; insurance $40,000.

The Columbus Gas Light and Heating Company has declared a dividend of 4 per cent on its common stock pay. ble March 17 to stockholders of record March 5.

The Chicago, Rock Island and Pacific Railway Company has assumed the John Sealin 6 per cent collateral trust bonds, dated Feb. 1, 1902, amounting to $5,000,000, which were issued in connection with the building of the St. Louis, Kansas City and Colorado Railroad

A New York dispatch says the National Biscuit Company has announced an increase in the common stock of $2,000,000 for the purpose of acquiring Lake Superior Company through the Canadian Improvement Company Parliament has yet to approve the loan, but no interference is in prospect there was said to be no doubt that it would be made. Should this prove true it would conclusively show that the reorganization and the acquisition of the Lake Superior Company are important factors to the Dominion Government and Canada for with the loan of this sum the Government will practically stand free at all time at the back of the reorganized company."

The Indianapolis correspondent of the *Northwestern Miller*, writing under date of Feb. 22, says: "It is still quite early to make any prospectes as to the condition of the Winter Wheat plant. For the most part the plant is doubtless in very excellent condition, inasmuch as throughout the entire belt of the best section there has been a very important mature to the Dominion Government and Canada for with the loan of this sum the Government will practically stand free at all time at the back of the reorganized company."

One of the few industrials apparently not affected by the adverse business conditions is the Mergenthaler Linotype Company. During the month of December the company shipped 100 machines, its largest month's output, and is maintaining this production. In November it shipped 82 machines, in October 70, making a total of 252 for the quarter, which is at the rate of 925 for the year. The total output last year was 816 machines. At the present rate of machine output the Mergenthaler company should this year show net earnings of over $3,000,000 a year. For the year to Sept. 30, 1903, the company, after paying its per cent upon its capital of $10,000,000, carried $800,000, or 8 per cent, to surplus account. The company has an unprecedented amount of business booked ahead

Dornbusch's Buda Pesth correspondent writing under date of Feb. 9 says of Flour: "Another week has passed without bringing the increase in demand for Flour which millers had looked forward to. Despite the reduction in the prices of Wheat, sales remain dull, and in spite of the constant increase in stocks of Flour, and this continued apathy of both consumer and exporter is causing serious misgivings among millers Strange to say, the prevailing dullness is a perennial experience, and therefore milling interests should have been prepared for it, but their optimism prevented them from taking any steps to meet the situation. It is said now, however, that the conferences are trying to find a remedy at least for the second half of the year. Prices are nominally unchanged for all articles."

The Kansas City correspondent of the *Northwestern Miller* writes as follows under date of Feb. 22: "Rain, sleet and snow fell over a greater part of Kansas and Nebraska. Precipitation was small, however, and save for wetting the top of the ground was of small benefit as compared to the needs of the Wheat. This need is, so far, not pressing, but should any more dry weather the unsatisfaining itself for a yet much longer time without moisture. The plants not growing, and over much of the State the top is in evidence barely sufficient to give a green cast to the fields. So long as the Wheat stays in this condition it is regarded as quite safe. As a whole, the plant is in much the same position that it was a month or more ago, and this condition can be regarded as fairly favorable. There was no complaint heard here last week regarding insect signs, and all crop news was of a favorable character."

It is understood that counsel for a large number of the Union Pacific and Harriman interests have given outright opinions that they see nothing in the briefs submitted to the United States Supreme Court in the Northern Securities case to overturn the adverse decision of the United States Circuit Court in Minnesota. There is the best of reason for believing that so far as the Union Pacific or Oregon Short Line interests in the Northern Securities Company, arising from owner-ship of Northern Pacific stock are concerned plans were completed months ago to meet a possible adverse decision.

A special meeting of the stockholders of White Knob Copper Company has been called for March 2, 1904, in Jersey City to vote on the advisability of increasing the working capital by an issue of $1,000,000 first mortgage 6 per cent ten-year sinking fund Gold bonds, convertible at par into stock of the company, to be issued in part in exchange for or to provide for the redemption of the present outstanding issue of debenture bonds, and the balance to be sold at the discretion of the directors upon such terms and in such amounts as may to them seem advisable. The plan has been recommended by the directors. For the purpose of the meeting the books will be closed Feb. 20 and reopen March 3

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is holding steady, as quoted on second page. Not a great deal doing.

WINTER WHEAT The market was quiet and feeling weaker. Prices quotably irregularly lower from 1c to 3c. Early a few fancy cars brought former top quotations, but with the break in the speculative market buyers became more timid and did not care to purchase unless favored with lower prices. No. 2 Red in store was quotable at $1 00½@1 07¼ and fresh arrivals ranged at $1 05@1 10, with sale of a car free on board at $1 10. No. 3 Red fresh arrivals very choice car sold at $1 10, and quotably down to $1 00 for ordinary. No. 2 Hard at the river quotable at 97@99c. No. 3 Hard local sold at 92@$1 00 and at river quotable at 90@98c.

SPRING WHEAT Scarcely anything doing. Receipts small and would have prevented larger trading, but at the same time there was less disposition to purchase, holders being inclined to hold off on account of break in Wheat. Prices quotably 1@3c lower. No. 1 Northern in store quotably 98c@$1 04c and fresh arrivals free on board ranged at $1 03@1 05. No. 2 Northern quotable at 97c@$1 01. No. 3 Spring ranged nominally 10c $1 02. No. 4 Spring sold at 75@78c and ranged at 65@90c for poor to choice.

REGULAR WHEAT A good trade, but volume not as heavy as of late. Prices were irregular and sentiment much mixed, with the close 1¼c lower for May and the July lost ⅛@¼c. The early tone was easy influenced to some extent by declines in the English and Continental markets, large Australian shipments and more "bearish" foreign advices. Liverpool spot steady to ¼d lower and futures ½d lower. London came ¼d higher to ¾d lower. London cabled: "Values declining; 1@3d lower. Demand falling off; no buyers in the market." Paris declined 1¼c. Berlin was off 1¼c, and Buda Pesth 1½c. Antwerp lost ⅝c. English country markets however, were 1@5s higher. The "bull" party in May was credited with selling that delivery freely, and there was quite general liquidation for a time. At the decline the demand improved, "shorts" buying with considerable freedom, the bulk of which was supplied by local professionals. A sharp break followed, May selling off to $1 01½. July, however, did not decline proportionately, selling off to 96⅝c. Receipts in the Northwest this week were within 102 cars of last year, and Minneapolis reported the demand falling off, with prospects of larger receipts. Australia shipped 1,304,000 bu, and *Broomhall* estimated the world's shipments at 9,600,000 bu and predicted a fair increase in the amount on ocean passage. In Argentina 15,000 railroad employes were reported on a strike. Local weekly receipts 263,000 bu; shipments 231,000 bu. Primary receipts 3,461,000 bu; year ago 2,788,000 bu. English farmers' deliveries this week 320,000 bu and the price 2¾c higher than a week ago. Kansas City and St Louis received 200,000 bu, last year 62,000 bu; shipments 181,000 bu. Thawing weather was generally indicated. Export were moderate, and no boat loads taken at the seaboard. The English visible supply decreased 460,000 bu, against 50,000 bu decrease last year. Duluth stocks expected to increase 115,000 bu this week. Imports into United Kingdom this week 2,656,000 bu; last year 3,573,000 bu. Receipts at Duluth 25 cars and at Minneapolis 281 cars, a total of 306, against 227 cars yesterday, 250 cars a week ago, and 295 cars last year. Local receipts included 10 cars Winter, 5 cars Spring and none mixed, a total of 15 cars, against 19 cars last year. Included in the above was no cars of contract grade. There were 16 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 15 cars. Withdrawals were 14,600 bu. Receipts at Western points were 576,971 bu against 421,981 bu last year. At Eastern points 27,151 bu, against 91,800 bu last year. Shipments from Western points were 262,382 bu, against 148,333 bu last year, and from Eastern points 8,000 bu, against 134,268 bu last year. Shipments of Flour were 6,101 brls. Exports of Wheat in Flour were equal to 27,718 bu.

Future Deliveries of Regular Wheat—Active and irregular closing lower.

FEBRUARY—Entirely nominal, closing about $1 00⅛.

MAY—Sold at $1 01½@1 05¼. Opened with sales at $1 05¼ to $1 04¾; sold to $1 05, to $1 01, to $1 05, to $1 01½, to $1 01 to $1 03⅜ and closed at $1 03⅝.

JULY—Old Style—Sold at 96⅝@97⅝c. Opened at 97c to 96¾c; sold to 97⅛c, to 96⅝c, to 96⅞c, to 96½c, to 97¼c, to 96⅞c, to 97⅜c, to 96⅞c, to 97⅜c, to 96⅝c, to 97¼c and closed at 97⅛@97¼c.

JULY New Style—Sold at 95⅝@96⅞c. Opened at 96⅜c to 95⅞c, sold to 96½c, to 95⅞c, to 96¼c, to 95⅞c, to 96⅜c, to 96¼c, to 95⅞c, to 96¼c, to 95⅞c to 96⅛c, to 96⅝c, and closed at 96⅜c bid.

SEPTEMBER Old Style Sold at 90½@91⅞c. Opened at 90⅞c to 91¼c, sold to 91⅜c, to 90⅞c, to 91¼c to 91½c to 91¾c to 91⅝c, to 91⅜c, to 91⅝c, to 90⅞c, to 90⅞c, and closed at 90⅞c.

SEPTEMBER — New Style — Sold at 89¼@91c. Opened at 90c to 90¼c; sold to 90½c, to 89⅞c to 90¼c, to 90c, to 91c, to 90¼c, to 91c, to 90⅝c, to 90¼c, to 90c, and closed at 90c.

CORN—A fair trade a little on the spasmodic order, with the feeling prevalent quite unsettled. The start was easy, and the close showed May trifle lower, while July lost a fraction. Early in the day there was a tendency to sell, but at the decline "shorts" purchased freely and situation became decidedly strong, particularly the July. Later the price receded again with Wheat. The small receipts, continued talk of poor grading, was one of the sustaining factors. The map indicated a general thaw and with bad roads a further curtailment in the arrivals is expected. Receipts were 182 cars, with 125 cars low grades, against 342 cars one year ago when 164 cars were off grades. Estimates for Monday 325 cars. Local weekly receipts were 1,577,000 bu and shipments 681,000 bu. Primary receipts this week 847,000 bu; previous week 1,270,000 bu, year ago 4,111,000 bu. Liverpool was steady on spot and futures ⅜d lower. Southwestern markets firm. Exports 78,000 bu against 450,000 bu a year ago, and no boat loads taken at the seaboard. Transfers from private to public elevators 112 cars. Local arrivals 234,000 bu, shipments 110,000 bu. Cash demand here moderate and sales 50,000 bu. Car lots were in moderate supply and fair demand. Prices were steady to 2c lower. No. 2 closed at 52c and No. 2 Yellow at 54c. No. 3 closed at 43½@52½c. No. 3 Yellow sold at 45¼c, closed at 44½@53½c. No. 4 sold at 41½@48c.

Corn by sample—There was a fair demand and moderate quantity on sale. Feeling easier, with prices steady to ½c on good Corn and 1c lower for poor. No Grade. Sales on track and free on board. No Grade sold at 25@38. No. 4 at 38@41c. No. 3 at 45c. No. 3 Yellow at 45½@47c. No. 3 White at 45¾@46½c. Ears at 39@43c. Billed through. No Grade at 35@40c. No. 4 at 39@43c. No. 3 at 44@44½c. No. 3 Yellow at 45@45½c. No. 3 White at 43½@44c.

Future Deliveries of No. 2 Corn—Active and decidedly irregular, closing ⅛c to ¼c lower.

FEBRUARY—Inactive, closed about 53⅜c.

MAY Sold at 55¼c and 57½ 7⅝c. Opened at 56⅝c to 56½c, sold to 56¼@56⅝c to 56¼c, up to 57½c to 57⅜c, to 57@57¼c, to 56⅞@57c to 57c, to 56¾@57⅛c, to 57¼@57⅜c, to 56⅞c, to 57⅛@57¼c, to 56¼@56⅜c, to 56⅝c, and closed at 56⅝c sellers.

JULY—Sold at 55@55⅞c. Opened at 55⅛c to 55¼c, sold to 55⅛c, to 55⅝c, to 55⅞c, to 55½c, to 55⅞c, to 56c, to 55⅝c, to 55¼@55⅜c, and closed at 55¼@55⅜c.

SEPTEMBER Sold at 54@54⅜c. Opened at 54⅛c to 54¼c, sold to 54½@54⅝c to 54⅛@54⅜c to 54¼c, to 53¾c, to 54c, to 54⅛c, and closed at 54⅛c bid.

OATS—Were active and unsettled. Prices opened ⅛@⅜c higher, advanced ⅛@⅜c, but receded and closed ⅛@¼c lower for the day. Liquidation by large and small holders and selling by cash interests had a depressing effect, while the strength came from sympathy with Wheat. Commission house buying was not so good. Cash sales were small and market is feeling the effect of the scarcity of cars. Arrivals were 1.9 cars, with 1.9 cars expected Monday. There was 7 cars and 59,700 bu Standard from private elevators to public houses. Seaboard clearances were 13,949 bu. Cash lots were steady. Car lots to go to store: No. 4 White sold at 42½@43½c. No. 3 White at 44¼@44¾c. Standard at 46c. Standard in store closed about 42⅝@43⅛c.

Oats by sample were in fair demand, with offerings moderate, and a steady market. Sales on track and free on board. No. 4 at 40¾@44c. No. 4 White at 38@45c. No. 3 at 42c. No. 3 White at 43@45½c. Billed through. No. 4 White at 43@44c. No. 3 White at 44¼@45¾c. Standard at 4½c. At the river No. 4 at 38@43½c. No. 3 White at 43@44c.

Future Deliveries of Contract Oats Were unsettled and closed lower.

FEBRUARY—Neglected. Closed at 42⅝c.

MAY—Active. Sold at 45c and at 45⅝@45¾c. Opened at 45c to 45⅛c, sold to 45¾, to 45⅛c at close.

JULY—Good trading. Sales were at 41¾@42⅜c. Opened at 41¾c to 42c, sold to 42⅜c, to 41⅞ at close.

SEPTEMBER Sold at 36¼c and 36⅝@36¾c. Opened at 36¼c to 36½c, sold to 36⅝@36¾c, to 36¼c, and closed there.

RYE The market was firm at ¼@¾c decline from the prices current yesterday. Buyers held off on account of the early break in Wheat, but later buyers again came in the market for a few lots. Offerings continue light and no Rye pressing on sale. There were no receipts and only eight cars withdrawn from private warehouses. No export clearances from the seaboard. No. 2 in store entirely nominal and fresh arrivals ocal sold at 77@78c. No. 4 sold to go to store at 68c. Poor Rye was dull, no one caring to buy.

Future Deliveries of No. 2 Rye Offerings light and demand also limited. May sold at 77¼c and closed at 77¼c bid. July sold at 77½c.

BARLEY Tone of the market was easy to-day. It was partly due to less favorable advices from outside. Offerings of malting grades were fair, equal to demand. Holders as a rule were steady, but found sales slow. They could not always realize their views of value. Toward the close some cars were let go at bids received rather than to carry over. Some musty cars have been held over from day to day and they rule dull. Trade in feed Barley and Screenings small to-day. Offerings rather light, and it was the same way with the demand. Thirty-four cars in to-day. Small sales of Screenings made at 31@34c for common to good and values quoted over a range of 3.@43c for poor to choice. Barley, feed or mixing quotable at 41@43c local when sweet; musty below; Malting, low grade about 43@46c; common, 46@47c. Fair was about 48@50c; good, 51@54c, choice, 55@58c; fancy nominally higher, not offered.

SEEDS—Little was done. Nothing special in the way of change occurred. Steadiness seemed to be present for about all lines.

Timothy Cash market quoted as steady to reasonably strong. There was a fair demand, especially for good quality and consignment offerings were small. Country lots salable at $2 25@3 25 poor to fancy; fair to good at $2 45@2 70; choice, $2 75@2 90 and rough, dark and foul lots about $2 30@2 45. Futures quiet. Trades well settled up and not much interest shown. February delivery at the same time sold at 2½c advance—at $3 10. March finally also sold at $3 10, so that the two deliveries have come together in price.

Flax—There was just such a market as has been lately witnessed—no interest shown. There was hardly any trade, none in fact aside from a sale of Northwestern cash at ½c decline. In other respects prices were nominally unchanged. Only 4 cars or 3,400 bu were received here, and 1 car or 1,008 bu taken out. Northwestern receipts were 24 cars at Minneapolis and 23 cars at Duluth. No. 1 Northwestern or No. 1 from the Northwest quotable at $1 18 with a sale. No. 1 nominal at $1 12. Rejected nominally $1 09@1 12, outside for choice Northwestern. February, quotable at $1 12. May held at $1 14½ and $1 13½ bid.

Clover—A small quantity was offered. The market was called firm for good qualities; not so good for common. All grades, however, salable. Prices without material change. Contract spot and March delivery quotable at $11 25. Country lots, common to choice, $8 25@11 00, fancy above; mixed with Buckhorn or other weed Seeds, $5 00@9 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Main run of such lots as come to market when ordinary to good quotable at $8 50@9 50.

Other Seeds—Were nominally firm and would command former prices, but there were no offerings. Hungarian quotable, common and light color to choice, dark at $1 60@1 90. WEEKLY TRADE REVIEW.

MONEY AND STOCKS.

CHICAGO FRIDAY EVENING, Feb 26, 1904.

No change was made in the local money market the past week The firmness noticeable the previous week was continued and rates remained to 6-10 per cent with some loans up as high as 8 per cent. The increased movement of Grains owing to the high prices has enlarged the movement of currency to the country and reduced deposits of country banks held here. Supplies of commercial paper are better and there are liberal buyers for all offerings which come from both the East and West, and from the South. In New York the market was easy with rates on the Stock Exchange 1½ to 2 per cent, and time money ranged at 4 to 4½ per cent. There is uneasiness over the political complications abroad and the decline in French, German and Russian securities accompanied by numerous large failures among the security holders in Berlin and Paris, directly involving the interests of the banks and indirectly the balances from all the industrial centers of Europe, which may cause stringency later.

New York exchange was 5c discount to 10c premium and the 1 at 5c discount.

Foreign exchange was firmer with shippers' sight-dia documentary sterling 484 to 484¼, cable to 484¼, demand 484¼ to 484¾, and closing at about the outside

In the New York Cotton market there was a slightly better feeling with large operations on the buying side and the "shorts" covering at higher prices. A better spot demand, combined with light receipts, was responsible for the improvement in the price, over 40,000 bales of spots changing hands at 7-16c to ¼c net advance for the week, with middling uplands closing at 9 7-16c, 7-16c net higher than the previous week.

Local Securities were generally weak, with a lower range on Metropolitan Elevated, Chicago and City & Suburban, although offerings were small. The South Side Elevated also made a good decline, there being few supporting orders In the Industrials trading was moderate and fluctuations small. The annual report of the National Carbon Company shows a surplus after preferred dividends equal to 2.66 per cent on $3,500,000 common stock North and West Chicago Railway sold at new low records on light trading. Bonds were taken fairly and prices held firm.

Stocks in New York were influenced by unfavorable conditions in England and the Continent, particularly the latter, where the war feeling exerted a depressing influence, and resulted in a sharp decline in securities. The numerous business failures in Paris, Berlin and other points, The Continent has been the largest holder of far Eastern securities and recently bought heavily, hence the selling pressure was more severe there than in other quarters. These conditions were reflected in Wall Street, as foreign holders of American securities were unable to turn these into money by sending selling orders to Wall Street. Money on the Continent is hard to get and rates are advancing, while in London and New York they remain easy. The local market favors took advantage of "bearish" conditions prevailing abroad and had selling orders sent from there to exert a weakening effect upon prices with good success. There was also a disposition on covering by "shorts," but the market was entirely a professional one. Professional dealers were virtual importations, as the public has left securities for Grains and Provisions. Railroad earnings are showing decreases, which are adverse to a "bull" movement. Closing sales were at a lower range on a majority of the active issues on the New York Stock Exchange were 1,830,000 shares, compared with 1,238,000 shares the previous week, and 2,181,000 shares last year.

The movement of merchandise was restricted by the congestion on all railroads, particularly in the East. The Western railroads are also feeling the unfavorable conditions prevailing in the interior sections, as their Eastern connections are unable to take cars from them with sufficient freedom to prevent congestion. There has been delay in the movement of raw materials and manufactured goods which will crowd shipments later in the season when weather conditions are more favorable. The buying of dry goods was increased by a stronger tone in the Cotton market. Pig Iron was in demand freely by large consumers. Railroads are placing fair sized orders for Steel rails and are also furnishing specifications on orders previously placed, which will give the local mills enough business to run until the middle of summer. The buying of bar Iron and Steel and Steel plates was of fair volume. Sales of pig Iron were increased and weakness prevailed in prices In wire nails and wire products an advance of $1 00 a ton was made by manufacturers who are well supplied with orders. The movement of Lumber and building materials was of fair volume for seasonable traffic and weather conditions. The large buyers of Lumber are in the North after season's supplies of white pine, and find that they are obliged to pay higher values to secure them. The same experience is also reported by the large buyers of hardwoods, both in the North and South. A good shipping demand for Hides is noticed, with prices on all refined Sugars advanced 5 points, and Coffee declined 10c Collections were fair.

COMMERCIAL.

Business on the Chicago Board of Trade was active for the past week, the trade in all the principal commodities being heavy Prices at changes were most violent and sudden and the feeling very unsettled. Speculation has undoubtedly turned from Stocks to Grains and Provisions, and the fluctuations and is due largely to the war in the far East. The continued fear of further foreign complications has had a tendency to check the profit-taking movement in Stocks, and the large earnings reported by the "long" side of the leading markets Commission houses have been favored with an unusually large business, and the fact that the "shorts" are covering at much higher prices demonstrates the conservative manner in which speculative operations are conducted in the largest and most satisfactory markets. Still more unsettled activity is expected in cereals, as well as Hog Products, and the next few months should witness still broader and more animated markets.

Cable advices from Europe the past week indicated rather more favorable weather conditions. Reports from Russia were less pessimistic and in Hungary and Roumania the crops were said to be progressing satisfactory. While shipments were mild and the weather mild in France, Germany, Italy and Spain, there were but few serious complaints regarding the crop outlook. Prospects in India continue favorable. Reports from the United Kingdom were better than a week ago.

There is no essential change to note in the crop outlook in the United States, as mild and open weather conditions have continued wintry and there is still complaint of lack of moisture and snow protection in portions of the Southwest. The plant is reported to be coming through nicely, and just beginning to show green. The crop all over the Southwest has been too short to afford any winter pasture, which is quite unusual and will mean a heavy loss of the stock in the winter. Advices from conservative authorities in that section, however, indicate that with favorable weather from now on, a fair crop is assured. Snow reports were quite general from the Mississippi River Eastward, and through the Central West conditions are satisfactory. Notwithstanding the recent cold spell, the feeling continues quite confident, and further moisture is urgently needed.

The movement of Grain from the interior elevators and the farms was somewhat restricted, but indications are for some enlargement in the near future. At the higher prices established interior holders were more disposed to part with their Grain, and with the favorable weather conditions receipts at the principal distributing centers should increase. In the Northwest the farmers are busy and Flax seeding is progressing, and somewhat smaller than one year ago. Through the West and Central West Corn was marketed with moderate freedom, while Oats are still moving slowly and this is also the case on the Pacific Coast. Through the Southwest the movement of the Wheat movement shows a tendency to enlarge The movement toward the seaboard was somewhat restricted by the heavy and congested condition of the railroads. Exports of Flour and Wheat were moderate and are still quite disappointing, the weekly report of the visible supply of Grain in the United States and Canada, as compiled by the Secretary of the Chicago Board of Trade, there was a decrease of 1,000,000 bushels, Rye and Barley, and an increase of Corn and Oats.

An immense speculative business was transacted in Wheat the past week and new high levels were reached la Grain and Provisions. Price changes were rather on the sensational order at times, the markets being flighty and unbalanced all the week. Individual operations were difficult to follow, the trade being broad and general. The Russo Japanese war was one of the main "bull" influences, as it tended to limit the operations of foreign holders of Wheat. The demand for Wheat, as well as coarse Grains, came from all quarters, with covering outstanding accounts and fresh purchases an important feature. The upward tendency was encouraged by the moderate movement and continued unfavorable weather conditions in the southwest were among the strong features. Liquidation by "longs" was heavy and profit-taking by "longs" was rather conspicuous, but the offerings were apparently landed in strong hands Coarse Grains sympathized with Wheat to a great extent, and the active May contracts trade in May and July. The war, bugs in Corn values and advance in Hogs were the "bull" helps. Receipts of Hogs at the leading Western packing points for the week were 1,000,000 Hogs, and the season was reported at 5,550,000 Hogs, against 8,350,000 in 1902-3, an increase of 3,350,000 Hogs.

A good deal was done in cash Grain, all the descriptions being in more active demand, while withstanding the enhanced values. Offerings were only moderate in the aggregate through the first part of the week, but the latter part there was some accumulation Shippers, as well as speculators, were in the various markets, and but for the congestion on many of Eastern railroads a larger business would have been reported. Export trade was the feature the past week being the ease with which the ordinary grades sold. Millers heretofore confined their purchases to low grade qualities, but the past few days purchased anything that would turn out a fair grade of Flour. There was however little doing in round or shipping lots. Corn and Oats were in moderate demand for local and shipping account. Rye sold better at higher prices. Seeds attracted rather more interest and were firm, with the feature the dullness and tendency of values lower. Offerings were large. Hog Products were in moderate request and the offerings only fair Buyers and sellers were apart in views most of the week. Sales chiefly on domestic account. Ocean freights demoralized. Cattle were marketed in fair numbers, and prices well maintained. Sheep met a good supply and values without important change.

FLOUR—The Flour market was strong and prices were marked higher again this week. $6 70 being the asking price for standard Hard Wheat Patents. Flour was more inclined to follow the rise in Wheat values and millers experienced less difficulty in effecting sales. Sales, however, were chiefly on local and domestic account, the foreign bids, while better, still being under the views of holders. Stocks in most quarters are said to be small but supplies and advances have held off and purchased only as current needs required. Many in consequences were forced to replenish supplies and pay the advance. All rail shipments to the Mediterranean had been ordered to intercept the Russian squadron should an effort be made to pass the Dardanelles, were among the chief "bull" influences. Winter Wheat flours were in good demand every came out on the advance, the principal holder being credited with selling May, July, too, was offered freely, and stop-loss limits in many instances were reached and passed. The market was checked May sold from $1 08¾ to $1 02¾ and July from 97½c to 93¾c. At the decline "shorts" accepted large quantities, and the news from abroad was generally "bullish" Cables received by many from the "bear" to "bull" side. The sharp rise in Continental values, bulge at Liverpool and Lonmarket was quantities of cargoes afloat reported very came out on the advance, the principal holder being credited with selling May, July, too, was offered freely, and stop-loss limits in many instances were reached and passed. The market was checked May sold from $1 08¾ to $1 02¾ and July from 97½c to 93¾c. At the decline "shorts" accepted large quantities, and the news from abroad was generally "bullish" Cables received by many from the "bear" to "bull" side. The sharp rise in Continental values, bulge at Liverpool and London and continued buying by prominent operators were among the "bull" influences. Liverpool reported a good demand from the Continent for cargoes on passage and freight rates in Argentina were reported higher. Cables to Chicago houses were holding their Wheat for better prices. Statistics as a rule were construed as "bullish" and added to the "bull" enthusiasm The "bull" party in the market was in control and sold July freely at the decline. World's shipments were about as expected, 8,776,000 bu, compared with 9,341,000 bu the previous week and 5,654,000 bu the same week in 1903. The total since July 1 is 176,736,000 bu, against 232,162,000 bu the week before and 96,680,000 bu one year ago The quantity on ocean passage increased 1,280,000 bu and is now 4,656,000 bu, or 1,232,000 bu larger than the same time last year ago. The domestic visible supply decreased 1,371,000 bu, as against 45,000 bu decrease for the corresponding week in 1903. The total visible supply decreased 1,216,000 bu, or 1,105,000 bu smaller than in 1903 and 17,833,000 bu less than in 1902. Local public stocks increased 21,000 bu, to 2,883,000 bu, compared with 7,665,000 bu one year ago and 1,848,000 bu a year ago. Stocks at Continental Wheat stocks Feb. 1 were reported at 41,928,000 bu, against 41,848,000 bu Jan. 1 and 42,000 bu February 1, 1903. The following was *Broomhall's* summary of foreign crop conditions cabled on Tuesday, Feb 23: United Kingdom—The weather during the past week has been favorable for growing crops. France, Germany, Italy and Spain—The weather continues unseasonably mild and rainy There are, however, but few serious complaints. Russia and Roumania—Reports are more depressing favorably. Russia—The latest reports are less pessimistic. India—The crop prospects continue favorable. Primary receipts this week were fair, but Russian shipments fell off 1,264,000 bu, to 1,832,352,000 bu, as against 210,400,000 bu in 1903-3 and 195,681,0.0 bu in 1901-2. Exports from Atlantic and Gulf ports for the week were 4,736,000 bu, and the total from July 1 to date aggregated 110,488,000 bu, compared with 159,212,000 bu same period in 1902-3. The following table exhibits the exports of breadstuffs from the United States from July 1, 1903, to February 20, 1904, compared with the corresponding period in 1902-3:

Countries—	1903-4, bu.	1902-3, bu.
North America	69,238,000	108,152,000
Russia	34,850,000	80,823,000
Danubian	45,116,000	30,956,000
India	2,400,000	2,126,000
Argentina	29,356,000	8,581,000
Australasia	9,454,000	
Austria-Hungary	4,534,000	1,976 00
Chili, North Africa	6,718,000	13,180,030
Totals	342,610,000	324,747,000

Argentine shipments continue liberal, those for the current week being 3,734,000 bu and make the total since the first of July 29,356,000 bu, as compared with 9,106,000 bu the same time in 1903. The visible there is now reported 5,316,000 bu, against 4,800,000 bu one week ago and 1,800,000 bu one date last year. Under an active miscellaneous demand May rallied to 81 9d, July to 93¾c and September to 96c, when realizing and profit-taking sales checked the upward movement. The increase in the shipments and failure of foreign markets to respond to the bulge here was responsible for the reaction. May declined to $1 04⅝, July to 90¾c and September to 93c.

CORN—Another active and exciting week was witnessed under this head, fluctuations being sharp and sudden. May sold between 54@58c, and closed 56½c, against 54¾c one week ago and 55c one day, showing an advance of ½c. July ranged between 54⅜@55⅝c, and rested at 55¼c the same day as May, against 54¾c one week ago. The September closed 54c better. The week started with a sharp advance in Wheat, and heavy liquidation took place, immense lines of "long" property coming on the market. Local receipts were enormous, and before the decline was checked May touched 55¾c and July 54¾c. The market acted at the time as though many "short" lines had been provided for over the holiday and Sunday. The sharp recession which followed drawn the prices yielded to the increased selling pressure. Interests heretofore prominent on the "bull" side were credited with liquidating and situation changed materially for the decline established the demand improved, "shorts" covering freely and fresh investment set in, which carried the price May to 56¾c and July 56¾c. The strength at Liverpool, which reported smaller Argentine and Danubian offerings, together with the bulge in Wheat and general "bullishness" all served to give additional support to the market "Long" lines liquidated earlier in the week were reinstated, adding to the strength. Receipts were moderate, a total of 1,289 cars being inspected in, of which 70 per cent were No 2 Yellow. Sales of 1,963 cars were received, when 36¼ per cent were of grades Arrivals at points through the West for the past week were moderate, being within those of a year ago. Routine statistics, however, received but passing attention, the war talk and news from abroad being the principal governing influences World's shipments last week were more liberal, 3,906,000 bu, shipments from the Danubian ports increasing. The previous week they were 2,310,000 bu and one year ago 1,960,000 bu. The quantity on ocean passage destined for Europe increased 1,456,000 bu and is now reported 11,240,000 bu or 717,000 bu more than on the corresponding date in 1903. Visible supply increased 908,000 bu, while for the same week in 1903 there was a decrease of 9,000 bu. The total was reported 8,712,000 bu, compared with 10,196,000 bu in 1903 and 10,750,0 0 bu in 1902. Local public stocks increased 156,000 bu to 2,605,000 bu, compared with 3,510 000 bu same time one year ago. Sales here are in all positions are reported 6,636,0.0 bu, an increase of 709,0.0 bu. Stocks one year ago were 6,766,000 bu. Contract stocks increased 155,384 bu to 2,316,695 bu, compared with 2,339,610 bu one year ago. *Bradstreet's* available supply increased 2,0.0,000 bu, against 308,000 bu increase same week in 1903. Receipts of Liverpool for the week were moderate and the stock reported 7,0.0,000 bu, an increase over the week previous of 85,000 bu Stock one year ago was 2,84 ,000 bu Exports were fair for the week, 1,486,000 bu, and from July 1, since July 1 37,8.8,000 bu, as compared with 28,7.0,000 bu for the same period in 1903 Booking to arrive were fair, 1,0.0,000 bu reported and sold Argentine shipments were only 454,000 bu for the past week, making 5,520,000 bu since January 1, compared with 437,000 bu same period last year. There was a fair Eastern demand and gulf sold still scarce and interfering with business.

OATS—The market was active and nervous, sharp advances and recessions being followed in rapid succession. Fluctuations were confined to May, sold between 44⅜@46⅝c and closed at 46⅜c, net gain of ¾c. July ranged between 40@42¾c and closed at 42⅝c, gaining 1¾c. September closed at 35¾@36¼c, a net gain of 2c. The market was influenced by large outside buying and covering by "shorts" at the start. The forenoon advance was quotable at 1c to 2c above Friday's close, but on the opening day A recession almost as sharp as the bulge followed, on selling by large local holders, but a replacing of the lines and a renewed outside buying movement, influenced by heavy selling of May for profits on the advance, but the large at local "long" interest has not apparently disturbed its holdings. Fancy private were said in the East to be scarce and should have become exhausted and the few cars received were bought at big premiums over what they could be shipped for. A shortage of cars on Eastern roads and the congestion of freight in yards prevented Oats from getting through from the West The sample market was higher at the start and to show a sharp decline and then active Country offerings were moderate, receipts for the week 1,13 cars, compared with 1,138 cars last week and 2,0 cars last year Export clearances for the week were 1,0.0,000 bu, compared with 1,0.0,000 bu week ago and 119,510 bu last year. Local stocks in public houses increased 238,935 bu and were 1,0.0,000 bu, compared with 2,0.0,000 bu last year. Stocks in public warehouses increased 350,000 bu, and are 4,575,0.0 bu. The visible supply increased 1,0.0,000 bu and was 9,235,000 bu, against 5,974,0.0 bu 1 year ago.

RYE—The market held firm the past week and prices were advanced 3½c. Only a moderate business was transacted, and it was mainly speculative The market was influenced little by the other Cereals, but was strong on its own sympathetic feeling. However, the Rye market was not so broad as other Grains and consequently under easy control. When buyers wanted to operate they had to pay what was asked for it. There was not a great deal of demand, only a few lots wanted daily, but the offerings were correspondingly light Prices for cash lots were higher and there is a spot lots that there was for the choice Receipts for the week aggregat si 24 cars, compared with 1 cars last week There were no withdrawals from public elevators the past week, all coming from private warehouses. Export clearances from the seaboard existed, and offering light May sold at 75c to 75¾c, closing at 75¾c, net gain of ¾c. July sold at 75¾@77½c; some lots were exchanged for May even.

BARLEY—Ruled firm. All grades sold well during the week up to the close when the market became dull Early the offerings were liberal. Owing to Monday's adjournment about th ee days' supply came on Tuesday. Demand was equal to supply. All grades were in demand. Offerings became smaller With supply decreased, the malting demand also fell off somewhat Feeding barley continued to be in good demand and sold well until at the end they closed dull There was a slight turn favorable to sellers in prices during the week Lower grades early hardened, so that the whole business was in favor of sellers of choice, and better malting grades limp over some On average it would be safe to say that sellers to the close had le advantage over a week ago Tenaritfes of Barley sold very good early in the week, later there was very little offered. Receipts were very good, 322 cars, compared with 272 last week and closed 5c to 6c higher. Export clearances were taken out 8,500 bu the week before 7,5.0 reported two weeks ago now. Visible supply decreased 28,000 bu, but the total remained the same as one week ago, and was 1,0.0,000 bu one year ago. Local stocks decreased 7,000 bu; it was 311,396 bu against 1,223 bu last week. To arrive sales reported aggregate 5,0.0 bu and were most of the week at 1c to 2c over spot prices. Sales on quotable range of 3,6.3 for two to choice, very fair sales toward the end around outside prices. Feed or milling Barley ranged at 42@43c, commercial at 44@45c, and good at 46@47c, with choice to fancy malting at 48@50c.

SEEDS—There was increased animation in the Timothy market, but in other respects the market for Seeds did not present an activity. Considerable interest was taken in Timothy during the week, and it was taken without any change of consequence taking place. In other lines of Seeds there could be developed anything important Clover of best quality was in good demand and a little more was paid for very choice Hungarian as fact Grass Seeds showed a good steady tone generally. The receipts were moderate, and remained at the late very quiet order. Here, too, the illusions and price changes were unimportant.

Timothy—There were liberal cash offerings early in the week, but on account of Washington's birthday coming on Monday, three days' arrivals came on the market Tuesday, followed by a good supply on Wednesday, and that week covered a wide range of grades, from poor to choice, and sold naturally best and easy, and yet the consignments were disposed of without prices being materially effected. Receipts for the week were 1,0.0 bags, against 1,0.0 bags one week ago, and they were not so free as those of two weeks ago There has existed a fairly good demand. The season for spring business is at hand and output was increased some as not over one week. It did not come up to that of a year ago. The weather has remained too cold and winter-like to put trade under full swing. Over the middle of the week spot offerings decreased, especially of fancy grades, but some stored Seed came on sale and the market was not without fair offerings most of the

time. March delivery declined 5c early, then recovered and finally was easy. Contract spot advanced 5c. This was a coming closer together of February and March, for the two are separated only by a few days. There was a range in cash prices of $2 25@3 25 for poor to fancy. A few small lots sold at the outside figure, and a little of inferior quality would sometimes go below the inside price. Fair to good had a range of $2 50@2 70, and choice of $2 75@2 85. Trading mainly at $2 40@2 65. Common rough lots, not the poorest, were usually about $2 3 @2 45. February delivery opened at $3 05 and improved to $3 10 and closed at $3 07½. March declined from $3 10@3 12½ to $3 07½ and recovered to $3 12½ and closed at $3 12½ sellers, with $3 07½ bid. Receipts and shipments with comparisons were as follows:

Receipts the past week, lbs.	1,180,205
The previous week	768,498
Two weeks ago	1,063,050
Same time last year	1,035,900
Shipments the past week, lbs.	542 875
The previous week	233,430
Two weeks ago	811,730
Same time last year	1,477,100

Flax—Only a small business was done and values were not subject to much change. There was a little May delivery sold over 1c range. There was experienced a steady feeling. The little changing in values was in the way of advance, with possibly reactions, but on the whole there was no loss. Cash offerings small, in fact all offerings were limited. There was little to the market, for interest in it was low. Movement was small. Receipts 40 cars, compared with 20 cars a week ago and 50 cars two weeks ago. There were taken out 4056 bu; the week before the withdrawals were 10 817 bu, two weeks ago 20 457 bu. In total Northwestern stocks there was about 40 000 bu increase. Local stock did not change, but remained at 18,722 bu, a year ago it was 9,624 bu. Duluth increasing 56,118 bu, had 6,111,299 bu, and Minneapolis, after decreasing 40,946 bu, reported 1,632,131 bu. No. 1 cash ranged nominally at $1 11½@1 12; closed at $1 12. No. 1 Northwestern or No. 1 from the Northwest was steady at $1 18½—small sales—closed at $1 18½. Rejected was nominally $1 09@1 12. February quotations were at $1 11½@1 12; closed at $1 12. May, with occasional sales, ranged at $1 13½@1 14½; closed at $1 15 asked and $1 13½ bid.

Clover—Not much was developed on the open market. There were offerings but not on a scale large enough to admit of an important trade. Some variations from very cold weather and approaching spring led to more outside business and the output showed a healthy gain. There was back of the market a strong tone, though prices were not materially changed. Arrivals were only moderate and fell short of the output. There was a wide difference in quality in the consignments which came on sale. Contract spot and March delivery was quoted during the week at $11 15@11 25. Country lots, common to choice, $8 00@10 75; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Main run of such lots as come to market, when ordinary to good, quotable at $8 50@10 25.

Receipts the past week, lbs.	270,969
The previous week	210,896
Two weeks ago	89,562
Same time last year	133,490
Shipments the past week, lbs.	318,790

Other Seeds—When offerings were submitted for bids, which was not often, the attention of buyers was such as to show a favorable intention of their part. There was apparent a steady to firm feeling. In the case of Hungarian there developed a small advance in the sale of a lot of very choice dark Seeds. Millets also were quotably firm. The range of prices from day to day appears elsewhere.

Receipts—The past week, lbs.	663,710

Buckwheat was scarce. Late cold weather has prolonged consumption of Flour, and good quality of the crop has become much reduced in quantity. For this a firm feeling prevailed, with final quotations at $1 30@1 40 per 100 lbs for good quality.

HAY—The receipts for the week were 5,671 tons, against 5,731 tons for the previous week. Shipments for the week were 234 tons, against 289 tons for the previous week. The arrivals of Timothy and Prairie Hay were quite large during the past week and the market ruled very dull. The local demand was light, as dealers were taking hold sparingly, and prices were weak. No inquiry for shipment. Quality of offerings consists mainly of medium to poor grades. Quotations at the close ranged as follows: Choice Timothy, $11 50@12 50; No 1 Timothy, $10 50@11 00; No. 2 Timothy, $9 00@9 50; No. 3 Timothy, $7 50@8 50; Choice Prairie, $10 00@10 50; No. 1 Prairie, $9 00@9 50; No 2 Prairie, $8 00@8 50; No. 3 Prairie, $6 00@7 00; No 4 Prairie, $5 00@5 50. Inside prices on Prairie Hay are for State and outside are for Kansas, Nebraska and Iowa Hay. Sales ranged at $7 50@12 50 for poor to choice Timothy, $8 00 for Clover Mixed, $8 00 for Clover Hay, $5 00 for State, and $6 00@9 50 for Iowa, Kansas and Nebraska Prairie Hay. Rye Straw sold at $8 50@9 50, Wheat Straw at $7 00, and Oat Straw at $7 00.

COOPERAGE—More interest was manifested in the market for Cooperage during the past, and sales were larger in a general way. Offerings were not very large. Local packers purchased fair quantities, and outside orders were moderate. Ash Pork barrels were in small request and slow sale at $1 20@1 22½. Oak Pork Barrels were in rather good demand and sold at $1 50@1 55, and closed steady. Lard Tierces were in good request and firmer, and sold at $1 70@1 77½, and closed steady at $1 75@1 77½. Iron bound Lard Tierces were in moderate demand and quotable at $1 62½@1 65 for six hoop and $1 67½@1 70 for eight hoop.

HOGS—The receipts of Hogs were quite liberal during the past week, and the quality was slightly improved. The market was active throughout the week, and the undertone was rather firm in sympathy with the Provision and Grain markets. Packers purchased with considerable freedom, and shippers accepted a fair share of the offerings to provide for orders from the Eastern markets. Prices on the whole range were advanced 25@30c, and the appreciation was fairly well supported to the close. Sales during the week were made at $4 75@5 55 for light, $5 20@5 55 for rough packing, $5 25@5 75 for mixed, and $5 40@5 80 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 15@5 65 for fair to good averages. At the close about 7,000 Hogs remained in the pens unsold. Pigs were in fair supply and the demand was moderate. Sales were made at $4 20@5 15, according to size and quality. The receipts of Hogs at the other large Western packing points were liberal, and quality rather good.

PACKING—Quite a good business was reported in packing circles during the past week. Hogs were in good supply and packers purchased with considerable freedom. Products were manufactured liberally, with more attention given to the speculative articles. Mess Pork made more liberally and supply is enlarging. Other cuts of Pork made in fair quantities. Lard produced rather freely, and the average yield was fair. Bulk of the production placed in tierces. Domestic cuts of Hams made rather freely, and the bulk cured by manufacturers. Skinned Hams made moderately, and only a small proportion were sold from the block. Foreign cuts of Hams were neglected. Shoulders cut moderately, and a fair proportion sold from the block. Picnic Hams made in fair quantities, and the bulk cured by manufacturers. Long Clear Sides and Extra Long Clear Sides neglected. Short Clear Sides made sparingly. Extra Short Clear Sides made in limited quantities. Short Rib Sides met with more favor, and the production was larger. Extra Short Rib Sides made moderately. Rough Sides produced in fair quantities. Bellies cut moderately. Backs made sparingly. Loins cut rather freely for current requirements. Foreign fancy and special cuts of Meats made in limited quantities.

PROVISIONS—Quite an active speculative business was transacted in the market for Hog Products during the week just closed. Outside orders were liberal, and local operators and packers traded with considerable freedom. Market attractive to speculators at present under the belief that Provisions in general will be more sensitive to changes on account of the war, than other articles. Operators apparently like to trade in markets in which fluctuations in prices are frequent, and they were to a great extent satisfied within the past few days. An unsettled feeling prevailed at times, and fluctuations in prices were quite wide. Considerable business in the way of transferring contracts from May to July at the current differences, and there was also some investment demand for the latter month. "Shorts" purchased liberally. Packers were inclined to sell fair quantities of the leading articles, as they can manufacture the speculative articles at a profit. Hogs were in liberal supply at all the larger packing points, and the returns of the packing of the West for the week exhibited an increase of 65,000 Hogs, compared with the returns for the corresponding week in 1903. Farmers appeared to be willing to sell Hogs freely, but prices were advanced in face of the liberal supply. Foreign markets were quiet and rather steady early in the week, but were stronger and prices higher on both Meats and Lard toward the close. Outside operators are quite "bullish" in their ideas, and the miscellaneous orders received were sufficient to readily to absorb the offerings at times. Prices have advanced substantially on all the leading articles, but the extreme figures reached were not fully supported to the close. Contracts for July delivery were more attractive within the past three days. Receipts of Products from the interior were fair, but mainly of lots previously contracted for. Packers less inclined to make contracts for future shipments. Shipments of all kinds were fairly liberal, and somewhat widely distributed. Exports from the Atlantic seaboard markets were moderately large, and in excess of the returns of one year ago. The demand on shipping account was somewhat light during the past week, and chiefly for domestic wants. Exporters accepted very small quantities to meet limited orders. Merchants in home markets purchased moderately, and were slow to follow the advances in prices. Offerings were only fair, but holders general insisting on better prices in sympathy with the speculative markets. Sales were rather light and prices favoring sellers. A few lots were accepted for midsummer delivery.

Pork—An active speculative business was reported in Mess Pork during the past week, and the undertone to the market was rather strong. Outside parties purchased freely, and packers sold fair quantities. Supplies on hand are gradually enlarging. Trading chiefly in contracts for May and July, with a good business in transfers. "Shorts" bought fair quantities. Early in the week, there was quite a good demand, with moderate offerings, and prices rallied 40@42½c. At the advance there was some inclination to realize, while the demand was less urgent. Prices irregularly declined 40@45c on the whole range. This reduction brought buyers into the market, and a strong feeling was developed, notwithstanding the moderately free offerings. Prices advanced irregularly $1 00@1 05, with an active business at the advancing scale. Toward the close, the feeling was unsettled and weak, and prices settled back 50@55c. Again rallied sharply 50@55c, but receded 35@37½c, and the market closed rather steady. Demand on shipping account was moderate, and offerings were only fair. Holders generally asking May figures. At the close, cash lots quotable at $16 25@16 50. Other cuts of Pork were in better demand, with fair offerings, and sales were somewhat larger. Prices ruled 25@50c higher on most descriptions.

Lard—Considerable interest was manifested in the Lard market during the past week, and trading was quite active. Offerings were moderately free, and the demand was brisk. Outside parties purchased freely. Supply on hand gradually increasing. Foreign advices more favorable to holders. "Shorts" bought liberally. More doing in July contracts. Early in the week the feeling was rather firm, with fair miscellaneous buying, and prices were advanced 12½@15c. At the advance, there was a little inclination to realize, while the demand was less urgent, and prices receded 20@22½c on the whole range. This reduction brought buyers into the market again, and offerings were only fair. A firmer feeling was developed, and prices gradually advanced 30@32½c. Toward the close, the market was rather weak, and prices settled back 12½@15c. Again rallied 17½@20c, but receded again 12½@15c, and the market closed rather steady. Demand on shipping account was limited, and offerings were moderate, as holders have generally sold ahead. A few lots were accepted at 2½c discount, and prices closed at $7 82½@7 85. Refined in moderate request in small packages, and offerings not very large. Prices entirely nominal. Loose lots were in light request and offerings were moderate. A few trades were made at 70c discount on May figures. Leaf Lard was in good request with fair offerings, and prices ruled higher. Sales were made at $7 12½@7 37½, and closed at $7 37½. Neutral was in fair demand and offerings were moderate. Market firmer, and prices higher, closing at $8 75@8 87½ for No 1, and $8 25@8 37½ for No. 2.

Short Rib Sides—An unusually heavy business was transacted in Short Rib Sides during the past week. Offerings were fair, and the demand was brisk. Outside parties and "shorts" purchased rather freely, and packers sold fair quantities, especially for July delivery. Stock on hand fairly liberal, and production moderately free. Early in the week, there was fair miscellaneous buying, with moderate offerings, and prices were advanced 35@40c. At the advance, "longs" were disposed to realize, while packers sold rather freely, and a weaker feeling was developed. Prices settled back 25@30c. At the decline, the demand improved, and the market exhibited considerable strength. Prices irregularly advanced 55@57½c. Toward the close, there was considerable pressure to sell, and prices receded 5@7½c. Again rallied 12½@15c, but settled back 10@12½c, and the market closed comparatively steady. Demand on shipping account was somewhat limited, as buyers were unwilling to follow the advance in prices. Holders were firm in their views and offered only moderate quantities. At the close, cash lots were quotable at $7 75@8 00, according to weight.

Green Meats—Only a limited business was transacted in Green Meats during the past week. Offerings were somewhat limited, and the demand was comparatively light. Buyers and sellers were apart in views and this restricted trading. Local curers were backward, and outside orders were small and for limited quantities. Hams in light request and prices ruled ⅛@¼c higher. Skinned Hams called for moderately, and prices ruled ¼@⅜c higher. Shoulders were quiet and rather firm, with prices favoring sellers. Picnic Hams were in moderate demand and prices ruled about ⅛c higher. Bellies quiet and prices well maintained.

Pickled Meats—Only a fair trade was reported in Pickled Meats during the past week and the undertone to the market was quite firm. Demand was only moderate and not for very large quantities. Offerings were only fair and firmly held. Stocks of all kinds are fairly liberal. Moderate quantities accepted for mid-summer delivery. Foreign demand limited and quotations in that quarter favored buyers. Domestic markets rather slow. Merchants were backward about paying prices demanded. Hams were in moderate request and prices ruled ⅛@¼c higher, especially on the heavier averages. Skinned Hams were in fair request and prices were advanced ¼@⅜c, and closed rather firm. Shoulders were in small request and prices well supported. Picnic Hams were in moderate request and prices inclined in favor of sellers. Bellies were in small demand and prices well maintained.

Dry Salted Meats—Trade in Dry Salted Meats was on a limited scale during the past week. Export demand very light—practically nothing—and the orders from the domestic trade were moderate. Merchants at the larger distributing points were not inclined to purchase, as it is understood that they have made rather free contracts for future delivery, and are depending to some extent on these purchases. Supplies of all kinds rather large. Holders rather firm in their views, in sympathy with the speculative market. Buyers slow to follow any advance. Foreign cuts of Hams were neglected, and prices nearly nominal. Shoulders were in small request, and prices favored sellers. Long Clear Sides were quiet, and prices were slightly higher. Extra Long Clear Sides were inactive and prices entirely nominal. Short Clear Sides were called for sparingly, and prices ruled ⅛@¼c higher. Extra Short Clear Sides were in light request and firmly held. Prices were advanced ¼@⅜c and closed steady at 7¾@7⅞c. Extra Short Rib Sides were in light demand and prices ruled ¼@⅜c higher, and closed steady at 7¾@7⅞c. Rough Sides were called for moderately, and prices ruled ¼@⅜c higher—closed at 7¾@8c, according to weight. Butts in small demand and prices well supported. Plates in fair request at ⅛@¼c advance. Bellies were in moderate demand and prices favored sellers. Backs were in rather light request and prices well maintained. Foreign fancy and special cuts of Meats were quiet and prices favored sellers.

Smoked Meats—A fair trade was reported in Smoked Meats during the past week. Rather more inquiry for car lots, and the jobbing trade was rather good. Offerings were fair, and firmly held. Orders chiefly from the Southern markets. Supplies are fairly liberal. Hams in fair request and rather firm at full former prices. Skinned Hams in moderate request and prices ¼@⅜c higher. Shoulders were in fair demand and prices ruled ⅛c higher. Picnic Hams were in moderate request and firmer at ⅛c advance. Sides of all kinds were in rather good demand, especially Rough Sides, and prices ruled ⅛@¼c higher, and closed steady. Breakfast Bacon in moderate request and prices favored sellers.

Beef Products—Trade was fair in Beef Products during the past week, and the feeling was rather strong. Offerings were fair, and the demand was moderately active, with trading in a quiet way. Some demand for war purposes, but business not made public. Receipts of Cattle were fairly liberal and prices ruled slightly lower for the common qualities. Foreign markets are steady, and domestic markets rather quiet. Shipments of Dressed Beef were rather large. Beef Hams were in fair request and prices well maintained. Extra Mess Beef in good demand in a quiet way, and prices were advanced 75c@$1 00. Plate Beef in fair request and prices ruled 50@75c higher. Extra Plate Beef in moderate demand and firm at 50@75c advance. Tallow was in moderate supply, with a good inquiry, and prices were advanced ⅛@¼c. Oleo-Stearine rather quiet but firm, and quotably higher at 7¼@7½c.

Greases—Trade was fairly active in Greases during the past week. Offerings were not very large and the demand was good. Market rather firm in a general way and prices well maintained.

THE WEATHER CONDITIONS.

Milder weather is the feature of the weather map this morning—much milder. There are light general snows in Manitoba and in Iowa. There is a trace of rain at Wichita Kan., and a few very light snows or rains in the Ohio Valley

The Southwest is still practically without moisture. There is the prospect of a general thaw and it is likely to affect the movement and grading of Corn

Indications are for rain or snow Temperatures will rise to-day, but fall Sunday Degree of cold is uncertain

The Illinois Central Railroad loan recently talked of is for $1,000,000, at 5 per cent. An official of the company says that the proceeds are not to be used for any specific purpose.

The directors of the South Side Elevated Railroad Company, Chicago have declared the regular quarterly dividend of 1 per cent, payable March 31. Books close March 21 and reopen April 1

The Colorado and Southern Railroad Company has declared the usual semi-annual dividend of 2 per cent on it first preferred stock, payable April 1 Books close March 10 and reopen April 2.

A Pittsburg party has given notice that he will ask Judge Bradford in the United States Court at Trenton, N J., on Tuesday next, to appoint a receiver for the United States Fire Proofing Corporation.

The war between Japan and Russia has had a stimulating effect upon the Tin Plate trade. Packers and Provision dealers have given orders for plates since hostilities were declared said to aggregate 100,000 boxes.

George J. Gould has telegraphed from Fort Worth that there is no truth in the report that the Missouri Pacific Railway is soon to be in the market to borrow a big sum of money, and says nothing of the kind is contemplated

Ninety-three railroads reporting for December show an increase of 4 25 per cent in gross and a decrease of 0.69 per cent in net earnings. In six months from July 1 the same roads increased their gross 10 4 per cent and their net 8 3 per cent.

Vice Chancellor Emery at Trenton, N. J., has granted an order to show cause why the United Steel Company of Rahway, N. J., should not be adjudged bankrupt. The J. B Conover Company alleges the Steel company is insolvent and that its liabilities are $117,874.

It is declared that the Amalgamated Copper Company has the funds in hand to meet the dividend payable on Monday, and that the report that its ability to meet the payment depended on the receipt of the dividends due from the subsidiary companies is an error

It is understood to have been decided by officers of the Republic Iron and Steel Company that no statement of earnings for the second half of 1903 will be published. The recent passing of the preferred dividend was one acknowledgment of poor business, and failure to issue the usual statement will be considered another.

A Pittsburg manufacturer who made a very close estimate of the earnings of United States Steel for the December quarter says. I estimate the January earnings at about $3,000 000, and the first quarter of 1904 between $10,000,000 and $12,000,000 The corporation is getting large foreign orders, but profits on them are very small "

The San Francisco correspondent of the *Northwestern Miller* writing under date of Feb. 18, says: "Although crop conditions have been considerably improved by rains it is not safe to look for a new crop of [illegible] tons, as farmers are turning more and more to the cultivation of Barley and to mixed farming"

Reference is made in the report of the National Lead Company to the purchase of a white-lead plant and licenses. This, it is said, was paid for with securities which the company owned, and the transaction from an accounting point of view resulted in a decrease of $64,[illegible] in other investments which is more than offset by an increase of $677,941 in plant account

The Tennessee Coal and Iron Company has received an order for 6,000 tons of steel rails They are for the use of the Mobile Jackson and Kansas City in the building of branch lines in Alabama. The Tennessee Coal, Iron and Railroad Company is considering extensive improvements at its Coal mine at Ensley It is said that an electric haulage system will be installed, identical with the one in use at the Pratt mines The haulage system will increase the output about 40 per cent.

The Chicago *Inter Ocean* says: "A rate war on all classes of traffic, involving all the railroads, appears inevitable Consternation was caused in traffic circles Thursday, by the report from Washington that the Chicago Great Western Railway had formally filed with the Inter-State Commerce Commission notice that on Feb 29 it would put into effect greatly reduced rates on Sugar, wire and nails. The report was confirmed by local officials of the Great Western, and arrangements were made immediately for a meeting, Friday, of the executive officers of all the important Western lines."

The earnings of the United States Steel Corporation for January and February have been adversely affected by the severity of the weather. Barring a continuance of these conditions to any great extent, it is confidently expected that March will be the best month in the business since October. Net earnings for the current quarter will be somewhat larger than for the last quarter in 1903 The various subsidiary companies have orders on hand sufficient to keep the plants running fairly full for three months or more, with the present outlook It is expected that the regular dividend on the preferred stock of the United States Steel Corporation will be maintained during the present year.

The following Securities have been listed on the New York Stock Exchange: An additional $4,865,000 of the first consolidated mortgage fifty-year 4 per cent bonds, due 1938, of the Minneapolis, St Paul and Sault Ste. Marie Railway Company, making the total amount listed to date $26,815,000. An additional $1,500,000 of the first consolidated mortgage fifty year 4 per cent bonds, due 1952, of the Atlantic Coast Line Railroad Company, making total amount listed to date $36,814,000 An additional $160,000 out of $225 000 of the first mortgage 5 per cent bonds, due 1941, of the Norfolk and Southern Railroad Company, making the total amount listed to date $1,590,000 Power is given to list $65 000 more of these bonds when they have been issued for completed mileage making the total amount authorized to be listed $1,655,000.

Statements which have been called for by the Illinois Insurance Department will place it in possession of accurate information within a few days of the losses sustained by the companies doing business in the State by the recent Baltimore fire Immediately following the fire the department sent telegrams to all the companies doing business in Illinois, asking them to report their losses by wire and to follow the report later with more definite information. The sworn statements are beginning to arrive. Such information as has already been received shows that the financial condition of no company organized in Illinois has been endangered by the big conflagration, and that the majority of companies doing business in this State have ample surpluses to pay their losses without danger to their capital.

Excellent progress is reported in the efforts of the Paper Products Company to take in the remaining Western mills that have been outside of the selling agreement. The dangers and disadvantages of a trade war have been used as the principal argument to get the independents into line. It is reported that all the mills of importance, with the single exception of the Illinois Straw Products Company, have finally agreed to the plans of the Paper Products Company. The Illinois Straw Products Company, while operating the largest straw paper mill in the country, is not a large factor in the straw board business. The company reports orders on hand which will require its full capacity for seven months ahead, and can see no reason for joining the selling agreement. It is not cutting prices.

The *Wall Street Journal* says: "Early in the month it was officially stated that no interest would be paid on Texas and Pacific income bonds this year, as the money was needed for improvements on the property Now, without any further explanation, the payment of the full 5 per cent interest on these bonds is advertised. It is fortunate—extremely fortunate—that there is only a very small proportion of the total issue outstanding, as otherwise bondholders would have a very serious grievance against the company's management. We recall no instance in recent years of a company deliberately passing interest or dividend on a security of this kind, and then a few weeks later announcing its payment without a word of explanation The whole thing tends to raise a question as to the value of official statements."

According to dispatches from Pittsburg a new plate-glass combination has been perfected under the name of the United Plate Glass Company. Following are the plants included in the combination: Allegheny Plate Glass Company, Columbia Plate Glass Company, Edward Ford Plate Glass Company, Heidenkamp Mirror Company, Kittanning Plate Glass Company, Penn American Plate Glass Company, the Saginaw Plate Glass Company, the St Louis Plate Glass Company, and the Standard Plate Glass Company. All the product of the above concerns, it is said, will be disposed of through the general officers in Pittsburg. The total capacity of the allied plants will be 15,000,000 feet annually. According to a statement issued by President Ford, heavy penalties will be assessed, after the present orders are filled, against any firm violating its obligation to sell its entire product through the combination.

The American Ice Company has sent out its notice of the annual meeting which takes place March 8 in Jersey City, N J A circular signed by President J. D. Schoonmaker and Secretary Robert A. Scott accompanies the notice and denies charges that have been made in recent circulars issued by those who desire to see a change in the company's management. The circular states that a full and complete statement will be given to the stockholders at the annual meeting. Stockholders are also in receipt of another letter from the so-called Sleicher committee which seeks to discredit the efforts of the Greenough committee in securing proxies. The proxy committee says it has become convinced, after careful investigation, that with strict economy and proper management the affairs of the American Ice Company can be placed upon a sound basis.

A New York party has formed a pool in Michigan Central stock for the purpose of urging the payment of larger dividends He says: "The capital stock of the Michigan Central is $18 738,000. It pays 4 per cent The New York Central owns $16,811,000 of the stock The small amount of stock outstanding, about 19 000 shares, is closely held, and 2,000 shares are in my control. The capital stock cannot be increased, as the New York Central 3½ per cent collateral trust bonds are limited in amount to the same figure as the stock. The enormous earnings of the Michigan Central and the meager returns made to the stockholders have aroused the minority to make some protest, and even the railroad commissioners for the State of Michigan some time ago criticised the management The Canada Southern, formerly a partner in the net profits, has been leased under a small stock guarantee, and there is nothing to prevent the minority stockholders now getting their full share of the prosperity of the Michigan Central. A hint that the New York Central is operating two competing lines, Lake Shore and Michigan Central, might be effectual, but only in the event of arbitrary action on the part of the New York Central management. I figure that Michigan Central should return to its stockholders, in view of the foregoing statement, at least 8 per cent, and that the stock is worth all of $200 00 per share The stock has sold at 150 and is now about 130, but the merit of the proposition is not now in the fluctuating value of the stock, but in the actual worth of a security whose equity, judged by other inferior railroad properties should be based on a valuation at least double the present capitalization."

ITEMS OF GENERAL INTEREST.

New York Exchange 15c discount.

Documentary Sterling firm at 482¾.

Rains reported in Buenos Ayres.

Chicago Bank Clearings to day, $33,301,759.

A Board of Trade membership sold to-day at $3,750 net to the seller.

Consols closed ⅛ lower at 85⅛ for money and 86⅛ for account.

The death of SAMUEL H. MCPHERRAN, Esq., was announced to day at 1 P. M.

Reported that 40,000 bu Corn were taken at the seaboard to-day for export.

Eight packers purchased 30,300 Hogs to-day; shippers, 8,000; left over, 18,000. Market closed weak.

Estimated receipts for to-morrow are: Wheat 55 cars; Corn, 505 cars; Oats 305 cars; Hogs, 38,000.

The quantity of Flour and Wheat on passage to Europe during the past week increased 3,336,000 bu, and the quantity of Corn decreased 1,852,000 bu.

Exports of Flax Seed from India the past week were 184,000 bu, compared with 184,000 bu for the week previous, and 32,000 bu for the corresponding week in 1903.

The stock of Flax Seed at Duluth on Feb 27 was 6,196,471 bu, compared with 6,101,299 bu the previous week—an increase of 95,172 bu. Stock last year, 3,495,838 bu.

Local Securities were unsettled. Can developed strength and common advanced 1¼, and preferred 1⅛. The list in general was slow, but steady, Diamond Match and Title and Trust declining.

Stocks of Wheat in public warehouses in Liverpool reported at 1,856,000 bu, against 1,928,000 bu one week ago and 1,904,000 bu one year ago. Stocks of Corn reported at 694,000 bu, against 703,000 bu one week ago, and 236,000 bu last year.

Stocks in New York were slow and without interesting features the greater part of the day. Price changes were small, but toward the last they moved up, and recorded small gains at the last. Money steady at 2 per cent.

Broomhall says: "The strength at Liverpool was on covering by 'shorts' owing to the Argentine strike having become serious and no freight moving. Later, Wheat eased off on large world's shipments and large increase on passage."

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 1,248,000 bu Wheat and 25,000 bu Barley, and an increase of 81,000 bu Corn, 967,000 bu Oats and 7,000 bu Rye.

Cotton in New York was strong and averaged materially higher. Liverpool gained 27 points. Stocks then decreased 9,000 bales last week, and are 660,000 bales. The buying was of a good class, and closing sales were 57@64 points higher on near and 30@39 points higher on deferred deliveries.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate, the decline in Wheat tending to keep buyers out of the market.

WINTER WHEAT—Was quiet and 2@5c lower. There was less desire to buy, Millers and shippers holding off. No. 2 Red in store quotable at 98¾c@$1 05 and fresh arrivals free on board sold at $1 05½@1 06. No. 3 Red fresh arrivals free on board sold at $1 04@1 05. No. 2 Hard at the river quotable at 95@97c. No. 3 Hard local sold to 90c and at river quotable at 85@9?c. No. 3 White sold at $1 04.

SPRING WHEAT—Ruled weaker and prices 2@4c lower. Demand limited, with regular cash buyers holding off. No. 1 Northern in store quotable 97¾c@$1 01¼, and fresh arrivals free on board at 98c@$1 02½. No. 2 Northern quotable at 93c@$1 00. No. 3 Spring sold at 95c and ranged at 90c@$1 00. No. 4 Spring sold at 94c and ranged at 65@90c, with exceptionally fancy cars higher.

REGULAR WHEAT—A heavy trade, largely in the way of liquidation lower prices ruling. May selling off to 98¾c and July to 94⅜c. The close showed the former 2⅝c lower and the latter off just 2c. "Bear" interests displayed more confidence than in many weeks and were aggressive on the selling side from the start. "Long" property came out in large quantities and stop loss orders were numerous. The late "bull" party in May purchased July with considerable freedom and at times tended to steady market. The news at hand was mainly "bearish," outside the cables and dry weather in the Southwest. Receipts in the Northwest and Southwest were ahead of 1903 and primary movement 700,000 bu larger. Minneapolis wired receipts at country stations were increasing liberally. There was an increase in the quantity on ocean passage of 3,336,000 bu to 57,582,000 bu, which is 9,016,000 bu larger than in 1903. World's shipments exceeded expectations at 8,?8?,000 bu, against 10,005,000 bu last year. Russia contributed 2,424,000 bu against 1,648,000 bu same week last year. The visible decreased 1,248,000 bu, compared with 1,147,000 bu decrease last year. Total now 35,493,000 bu; last year 47,807,000 bu; in 1902 51,093,000 bu. Local stocks increased 32,000 bu to 2,915,000 bu, compared with 7,749,000 bu in 1903. Liverpool quoted spot steady to 1d higher. Futures unchanged to ⅛d lower. Steadiness there is due to the Argentine railroad strike, and stocks reported 1,856,000 bu, a decrease of 72,000 bu. Stock a year ago 1,904,000 bu. London was steady to ⅛d lower. Paris declined ⅛@¼c and Berlin ⅛c. Antwerp unchanged. Rain or snow and colder weather predicted for Illinois and Indiana, fair and colder Missouri, fair and warmer for Kansas and Nebraska. Kansas City and St. Louis received 263,000 bu; last year 96,000 bu. Shipments 156,000 bu. British consols closed ⅛ lower. Stocks at Minneapolis reported reduced 100,000 bu in two days. Heavy rains were reported in California, greatly benefiting crop conditions. Milwaukee reported the sale of a cargo to go out upon the opening of navigation. Exports moderate and no boat loads taken at the seaboard. "Shorts" came in on the break and there was a moderate recovery from inside figures. Receipts at Duluth 39 cars and at Minneapolis 538 cars, a total of 577, against 306 cars Saturday, holiday a week ago, and 437 cars last year. Local receipts included 26 cars Winter, 20 cars Spring and none mixed, a total of 46 cars, against 26 cars last year. Included in the above was 2 cars of contract grade. There were 13 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 55 cars. Withdrawals were 3,000 bu. Receipts at Western points were 568,352 bu, against 556,768 bu last year. At Eastern points 47,094 bu, against 3?,000 bu last year. Shipments from Western points were 251,407 bu, against 317,?40 bu last year, and from Eastern points 48,070 bu, against 217,5?8 bu last year. Shipments of Flour were 32,501 brls. Exports of Wheat in Flour were equal to 194,504 bu.

Future Deliveries of Regular Wheat—Good trade at lower prices.

FEBRUARY—Was irregular. Some trading at 99⅝c@$1 02, but was offered most of the day at 2⅝c under May, and nominal closing about 98½c.

MAY—Sold at 98¾c@$1 03¾. Opened with sales at $1 03¾ to $1 01½; sold to $1 03, to $1 02, to $1 03, to $1 00, to $1 00½, to 99¾c, to $1 02, to $1 01, and closed at $1 01 asked.

JULY—Old Style—Sold at 94⅞@97⅜c. Opened at 97⅜c to 97c, sold to 96⅜c, to 96¾c, to 96¼c, to 96¾c, to 96c, to 96¼c, to 95⅜c, to 95¼c, to 94⅝c, to 95c to 94⅝c, to 95c, to 94½c, to 95⅜c, to 95c, to 95¼c, and closed at 95⅛@95¼c.

JULY—New Style—Sold at 93⅜@96½c. Opened at 96½c to 96⅛c; sold to 95½c, to 95⅞c, to 95½c, to 96c, to 95¼c, to 95½c, to 94¼c, to 94¾c, to 93⅝c to 94c, to 93⅜c, to 94c, to 94½c, to 94½c, to 94c, to 94⅜c, and closed at 94¼@94⅜c.

SEPTEMBER—Old Style—Sold at 88⅝@91c. Opened with sales at 91c to 90¾@90⅞c; sold to 90½c, to 90⅞c, to 88⅝c, to 89¾c, to 88⅝c, to 89½c, to 89c, and closed at 89c.

SEPTEMBER—New Style—Sold at 87⅝@90⅛c. Opened with sales at 90⅛c to 89⅞c; sold to 89⅝c, to 87⅝c, to 88⅛c, to 87⅝c, to 88½c, to 88¼c, to 88⅛c, and closed at 88⅛c.

CORN—A good trade and weaker market most of the day, a sharp recovery taking place late in the session on covering by local "shorts," the close showing May unchanged, while July lost ⅛c and the September ⅛c. The market started out firm under the influence of thawing weather through the Corn belt, the steady cables and light receipts likewise being strengthening factors. World's shipments were small, 2,473,000 bu, compared with 4,477,000 bu, and the quantity on ocean passage decreased 1,852,000 bu to 9,423,000 bu, as against 11,375,000 bu same date in 1903. Receipts were 298 cars with 185 cars low grades, against 357 cars in 1903, when 168 cars were off grades. The larger estimates for to-morrow, 505 cars and break in Wheat and Provisions brought out increased offerings, and as the session advanced liquidation of "long" property became general, a good many stop-loss limits being reached. "Shorts" bought on the break, prices recovering. Southwestern markets were weak and receipts West 650,000 bu, against 755,000 bu in 1903. Shipments 242,000 bu and 291,000 bu, respectively. Exports, 264,000 bu; last year, 1,101,000 bu. Transfers from private to public elevators, 180 cars. Local arrivals were reported at 213,000 bu and the shipments 81,000 bu. Liverpool spot unchanged and futures steady to ⅛d higher. Stocks there, 694,000 bu, decreased 9,000 bu. Stock year ago 236,000 bu. Fair and warmer weather predicted for Kansas and Nebraska. The visible supply increased 81,000 bu and is now 8,793,000 bu; in 1903, 10,219,000 bu; in 1902, 10,333,000 bu. Local stocks increased 86,000 bu, to 2,777,000 bu, compared with 3,733,000 bu in 1903. Shipping demand moderate. Sales small. At the seaboard 5 boat loads were accepted. Car lots were weak and 1@2c lower. Offerings larger and demand only fair. No 2 closed at 53c and No 2 Yellow at 54c. No 3 closed at 43½@52½c. No 3 Yellow sold at 41½c and closed at 44@53½c.

Corn by sample—Was dull, weak and 1@2c lower. Some choice dry from Dakota and Nebraska and commands outside price. Offerings were larger and demand moderate. Sales on track and free on board: No Grade sold at 30@37c. No 4 at 38@52c. No 3 at 43@54c. No. 3 Yellow at 43@53½c. No 2 at 53½c. No 2 Yellow at 54c. No 3 White at 41@52½c. Ears at 38@41c. Billed through: No Grade at 33@38c. No 4 at 35@42½c. No 3 at 42½@44c. No. 3 Yellow at 41@45c. No 3 White at 42½@44c.

Future Deliveries of No. 2 Corn—Active and unsettled, closing unchanged to ⅛c lower.

FEBRUARY—Inactive; closed at 53⅝c.

MARCH—Sold at 54c and closed at 54⅛c.

MAY—Sold at 55¾@56⅞c. Opened at 56⅞c to 56⅝c; sold to 56⅛c, to 56⅝@56¾c, to 56⅜@56½, to 56¾c to 56⅜@56½c, to 56¾@56⅞c, to 55⅞c, to 56c, to 55¾c, advanced steadily to 56⅝c and closed at 56⅝ sellers.

JULY—Sold at 53⅞@55½c. Opened at 55½c to 55⅛c, and sold at 55⅛@55¼c, to 55¼c to 55c, to 55¼c, to 55@55⅛c, to 55¼c, to 54½c, to 54½c, to 53⅞c, to 55⅛c, to 55c, to 55¼c, to 55⅛@55¼c, and closed at 55¼@55⅜c.

SEPTEMBER—Sold at 53@54⅛c. Opened at 54⅛c to 54c, sold to 54¼c, to 53⅜c, to 53⅜c, to 53c, advanced to 54c and closed at 54c bid.

OATS—Were unsettled with light trading and a lower average. Prices advanced ⅛@¼c early, but broke ⅞@1c on realizing sales. Commission house buying gave the market several good rallies, but prices yielded under the steady stream of offerings and closed at net losses of ⅜@⅞c, July being the strongest. The statistics were "bearish." Local stocks increased 673,000 bu last week, mostly Standard. The visible increased 967,000 bu. Arrivals 298 cars with 305 cars expected to-morrow. There was also 35,000 bu and 25 cars Standard inspected from private into public houses. Sales for shipment were 40,000 bu and seaboard clearances 3,000 bu. Car lots to go to store were 1c lower. No. 4 White sold at 42@43c. No 3 White at 42@43½c. Standard in store closed about 41¾@42c.

Oats by sample were offered more freely and futures broke 1c. Trading was fair. Sales on track and free on board. No Grade at 33c. No 4 at 37@41½c. No. 4 White at 37@41½c. No. 3 at 40@40½c. No. 3 White at 42½@46c. Standard at 41@44¼c. No. 2 at 41@41½c. Billed through: No 4 White at 42c. No. 3 at 40c. No. 3 White at 43@44¾c. Standard at 44@45c. No. 2 at 41@41¼c. No. 2 White at 44½c. At the river: No. 4 at 37c. No. 4 White at 34@42c. No. 3 White at 41½@43c.

Future Deliveries of Contract Oats—Were irregular and closed lower.

FEBRUARY—Inactive. Offered at 2½c under May. Closed at 42½c.

MARCH—Slow. Closed at 42½c.

MAY—Active and unsettled. Sold at 44⅜c and at 45¼@45⅜c. Opened at 45c to 45⅛c, sold to 44⅜c, to 45¼c, to 45⅜c, to 44¾@45⅛c at close.

JULY—Active. Sold at 41⅛@42c. Opened at 42c, sold to 41⅜c, to 41⅝c, to 41½c at close.

SEPTEMBER—Sold at 35¼@36⅛c. Opened at 36⅛c, sold to 35¼c, to 35⅝c, to 35⅜c at close.

RYE—Was quiet and about ¼c lower. The market naturally was affected some by the decline in other Grains. Demand light. There were six cars received. No withdrawals from store here and no export clearances from the seaboard. The visible supply increased 70,000 bu and local stocks in store increase 15,000 bu. No. 2 in store nominal; fresh arrivals free on board quotably 75@76c, but nothing doing. No 3 sold at 74c and No. 4 at 50@64c for poor to choice. Poor Rye very dull and not wanted.

Future Deliveries of No. 2 Rye—Quiet and lower. May sold at 77½c and closed at 77¼c sellers. July sold at 7?@77c, and closed at 77c bid.

BARLEY—Was dull and quiet. Screenings and mixing Barley easier in sympathy with a weaker Oats market. Feed Barley sales indicate about 1c decline. The day was cloudy and too dark for trading in malting grades. But a small business was done. Most cars were carried over. Supply was fair, not heavy. No material change could be quoted when there was so little doing. All samples look alike when the light is poor. Ninety-four cars posted inspected in. Visible supply decreased fairly and there was a small reduction last week in local stock. Screenings quotable at 31@43c for poor to good and a few sales made at 31@41c. Barley, feed or mixing quotable at 40@42c local, main sales at 41c. Malting, low grade about 42@45c; common, 45@47c. Fair was about 48@50c; good, 51@54c; choice, 5?@58c; fancy nominally higher, not offered.

SEEDS—Offerings in every case were very small. A steady feeling prevailed in the market for Grass Seeds. The only change to note to-day was some decline in cash Flax Seed prices.

Timothy—A steady, quiet market quotable. Cash offerings were small. On the part of buyers there appeared to be a willingness to purchase. Futures very quiet. A sale of March was made at an unchanged price. Entire market exceedingly quiet. March delivery sold sparingly at $3 10. Contract spot or February nominal at that figure. Country lots quotable at $2 50@2 ?5 poor to fancy; fair to good at $2 45@2 70, choice $2 75@2 85, and rough dark and foul lots about $2 35@2 45.

Flax—A dull and very quiet market was all there was to report. Cash and February prices, which were nominal, were at 1c decline compared with Saturday. At the same time May sold at an unchanged price, but only in a very limited way. The feeling in the Northwest was weaker and that had an influence here. Local receipts quite liberal, 38 cars or 5?,?00 bu, at the same time only 4 cars were inspected. Output none. Minneapolis receipts 43 cars and Duluth 30 cars. No. 1 Northwestern or No 1 from the Northwest quotable at $1 17. No 1 nominal at $1 11. Rejected nominally $1 06@1 11 outside for choice Northwestern. February, quotable at $1 11. May sold sparingly at $1 13½. Local stock showed no change from a week ago, it was 18,722 bu, compared with 13,003 bu the same time last year.

Clover—Was quoted as firm, especially for good Seed; all grades however, were salable. Trade very good. Very little Clover coming in. A shade better prices quoted. Contract spot and March delivery quotable at $11 50. Country lots, common to choice, $8 25@11 25; fancy above, mixed with Buckhorn or other weed Seeds, $8 00@9 50; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Main run of such lots as come to market when ordinary to good quotable at $4 00@10 50.

Other Seeds—Were quotably steady and firm; salable at late quoted prices. Some Hungarian to arrive was offered. Hungarian quotable, common and light color to choice, dark at $1 00@1 00. Common Millet $1 00@1 30 for poor to fancy. German Millet, $1 00@1 30. Siberian, 75@9? c. Broom Corn and Early Fortune Millet, 75@90c. Mustard, 85c@$1 05. Buckwheat firm, good milling salable at $1 30@1 40; a car sold at $1 35.

HOG PRODUCTS—It was "bargain Monday" in the market for Hog Products. Hogs were in liberal supply and lower, and the Grain markets were easier. Outside orders were liberal and mainly on the selling side, and local trading was active. Offerings were unusually free, with little general support to the market, and the pressure of "stop loss orders" on the declining scale tended to demoralize the market, and cause an unusually severe decline in prices. "Longs" were anxious to realize, and buyers experienced very little difficulty in obtaining property at their bids. At the extreme inside figures reached, there was a moderate inquiry from "shorts" and parties who sold early in the day, with less pressure to sell, and there was a fairly good recovery in prices. Market closed with considerable steadiness. Receipts of Hogs at the leading Western markets were estimated at 91,800, compared with 48,700 one year ago. Foreign markets were quiet. Meats firm, with Backs 6d higher, while Lard was quoted 3d lower. Domestic markets were quiet. Receipts of Products were good—of Lard and Meats about 29 cars. Shipments were light—of Lard and Meats about 96 cars. Shipping demand light and offerings moderate. Sales meager, and prices favored buyers.

Mess Pork—An unusually heavy business was transacted, and the market was considerably demoralized. Offerings were liberal, and the demand was fair. "Longs" realized freely. Market opened unsettled and 2½@32½c lower, and prices further receded irregularly 80@85c on the appearance of "stop-loss orders" and selling by packers. Toward the close rallied 40@50c and the market closed rather steady. Shipping demand was limited and offerings were moderate. Cash lots quotable at $15 25@15 50.

MAY—Offerings unusually heavy and demand fair. Prices very irregular, with sales at $14 95@16 00. Opened at $15 80 to $16 00, sold to $15 75, to $15 85, to $15 65, to $15 75, to $15 60, to $15 65, to $15 65, to $15 70, to $15 45, to $15 50, to $15 20, to $15 35, to $14 95, to $15 07½, to $15 00, to $15 02½, to $14 95, to $15 12½, to $15 00, to $15 20, to $15 15, to $15 20, to $15 10, to $15 35, to $15 27½, to $15 42½, to $15 32½, to $15 40, to $15 37½, and closed steady.

JULY—Demand rather active and offerings were liberal. Sales ranged at $14 95@16 00. Opened at $15 80 to $16 00, sold to $15 87½, to $15 90, to $15 67½, to $15 82½, to $15 75, to $15 80, to $15 62½, to $15 70, to $15 50, to $15 57½, to $15 30, to $15 45, to $14 95, to $15 10, to $15 05, to $15 15, to $15 02½, to $15 10, to $15 02½, to $15 25, to $15 10, to $15 47½, to $15 45, to $15 47½, to $15 42½, and closed steady.

Lard—An active business was transacted in the Lard market, and the feeling was greatly unsettled. Offerings were free and the demand was quite active. "Longs" sold fair quantities. Foreign advices unfavorable to holders. Opening trades were made at 5@7½c decline and a further reduction of 20@27½c was submitted. Toward the close, rather more steadiness prevailed, and prices rallied 20@22½c, and the market closed steady. Demand on shipping account was light and offerings were moderate. Cash lots were quotable at $7 60@7 65. Loose lots called for sparingly and offerings were rather light. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably easier at $7 12½. Neutral in only moderate demand with fair offerings. Prices quotably easier at $8 62½@8 75 for No. 1 and $8 12½@8 25 for No. 2.

MAY—Offerings were liberal, and the demand was fair. Sales were made at $7 65@7 95. Opened at $7 92½, sold to $7 95, to $7 92½, to $7 95, to $7 87½@7 90, to $7 92½, to $7 72½, to $7 75, to $7 70, to $7 72½, to $7 65, to $7 77½, to $7 72½, to $7 87½, and closed steady.

JULY—In rather good request, and offerings were free. Sales were made at $7 80@8 10. Opened at $8 05 to $8 10, sold to $8 07½, to $8 10, to $8 07½, to $8 10, to $8 02½, to $8 05, to $8 10, to $8 05, to $7 95, to $7 97½, to $7 87½, to $7 92½, to $7 95, to $7 87½, to $7 90, to $7 92½, to $7 90, to $8 07½, to $8 05, and closed steady.

Short Rib Sides—An active business was reported in Short Rib Sides and the market was unsettled. Offerings were quite liberal, and the demand was fair. Prices fluctuated considerably. Opening trades were made at 5@7½c decline, and a further reduction of 40@42½c was submitted. At the decline the demand improved and prices rallied 35@37½c, and the market closed rather steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $7 62½@7 75 according to weight.

MAY—Offerings were quite free, and the demand was fairly active. Sales were made at $7 47½@7 92½. Opened at $7 90 to $7 92½, sold to $7 85, to $7 90, to $7 77½, to $7 82½, to $7 65, to $7 67½, to $7 47½, to $7 57½, to $7 55, to $7 60, to $7 55, to $7 70, to $7 67½, to $7 82½, and closed steady.

JULY—In rather good demand and offerings were rather free. Sales were made at $7 53½@8 02½. Opened at $7 95 to $8 02½, sold to $7 92½, to $7 95, to $7 82½@7 85, to $7 90, to $7 65, to $7 72½, to $7 62½, to $7 72½, to $7 55, to $7 67½, to $7 60, to $7 70, to $7 65, to $7 75, to $7 72½, to $7 90, and closed steady.

Other Meats—Trade was comparatively light and the feeling rather steady. Offerings were only fair. Demand was moderate for the home trade. Export inquiry rather small. Green Meats in moderate supply and rather light demand, and prices ruled steady. Pickled Meats were in fair request to fill moderate orders and prices were unchanged. Dry Salted Meats were in fair demand in a quiet way and prices ruled easier. Smoked Meats called for in fair quantities especially in a jobbing way, and prices were steady. Closing range as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Feb. 16.]

United Kingdom—There is no favorable change to report as regards weather conditions in Western Europe. More or less rain falls every day, and if possible, the land is becoming more sodden than it was before. There is some mention of plowing on the lands, etc., but speaking generally agricultural work is at a standstill and crop prospects in this country at least are very gloomy. On the Continent, growers managed to get on their wheat crops fairly well but the continued wet weather are delaying preparations for spring sowing.

Russia—The weather has turned mild again. Crop reports are still generally favorable, but advices received yesterday said it is impossible to look for good results from the autumn sowings, and growers are to bring forward anxiously to the spring sowings, which this week were backward. Delay owing to the war sellers are now very reserved, so there may be a reduction in the movement before long.

Roumania—Brailla advices received to-day say that the crops are progressing favorably; the area under Wheat is given as 4,000,000 acres, against 3,700,000 last year. The Danube is clear of ice, but shipments last week were small owing to depletion of stocks; however, arrivals at Brailla are expected to increase before long and the movement next week should then be larger.

Bulgaria—Our correspondent at Sofia reports that all crops, except Rape, have so far wintered without harm. Snow cover has been rather scanty, but, on the other hand, the frost was not severe.

Austria Hungary—The weather last week was wet and mild. There are no complaints concerning the crops.

Argentina—Recent weather has favored the Corn crop. Wheat is arriving at the ports in liberal quantities and shipments are being pushed. The laborers' strike is now settled, so the movement may be expected to increase.

India—Nothing unfavorable has been reported of the crops, but it is presumed that all cultivators to go well. Shipments keep rather small, but there is a brisk business being done in Calcutta Wheat for early shipment.

Australasia—New Zealand crop reports are still favorable and an export surplus of 2,000,000 bu for that country is expected. The export movement last week was much smaller, only 40,000 bu.

France—The weather continues to be very wet and mild. Correspondents say that the young crops still look well, but the land is flooded with water and fertile. Country markets have reported prices about 6d per quarter up, but trade has been inactive.

Italy and Malta—There is no fresh news.

Germany—Also here the weather has been mild and wet, clearing the snow from the fields and thawing the ice on rivers and canals. There are no reports about the crops, but no fresh fears are expressed that harm would be done if frost should return suddenly, as the fields are unprotected.

North Africa—The weather continues favorable for the growth.

Chili—Mail advices, dated Jan 9, say that prospects then were good, but nothing was being offered, holders waiting for developments in the East.

WHEAT AND FLOUR EXPORTS.

The following table shows the quantity of Wheat exported from the United Kingdom and the quantity exported in the form of Flour. The figures are obtained by accepting five bushels of Wheat as the equivalent of one barrel of Flour prior to 1885, and four and one-half bushels of Wheat as equivalent to one barrel of Flour since that date, the improved methods of milling having led to this change in basis of calculation in estimates of the value of Wheat required to produce a barrel of Flour prior and subsequent to the approximate date named:

Year.	Wheat exports. Bushels.	Flour exports. Barrels.	Per cent wheat exports exp rted in Flour.
1830	23,127	4,625	0.7
1925	17,500	4,000,500	99.5

ITEMS OF GENERAL INTEREST

It is reported that the Southern Railway Company has placed an order for several thousand box cars.

It is expected that the output of iron ore production interests will reach an interesting at then meeting to be held in Cleveland, Feb 19.

For the week ending the 15th inst. the Chicago last week was 26 cars in excess of the previous week, 31 in the corresponding week in 1903, and 36 in 1902.

Officials of the Northwestern Railway conceal that contracts have been let to the American Car and Foundry Company for 9 flat cars. But shave also been asked on 1,000 box cars.

The engine room of the Anglesea shed of the Newport News, Va., Shipbuilding Company's plant, Friday, and entirely destroyed the building the only frame structure in the yard. Loss, $15 000; covered by insurance.

It is Friday, destroyed the business portion of Nicholson, Pa., on the Delaware, Lackawanna and Western railroad—say, about twenty miles west of Scranton; seventeen frame buildings were burned, causing a loss estimated at $10,000.

Reports at Philadelphia say that John Pitcairn and his associates withdrew from the Consolidated Lake Superior undertaking because of the discovery of discrepancies between the statements made to them and the facts.

A private dispatch received at New York, Friday contained the information that a considerable part of the custom house at Pernambuco, Brazil, had been destroyed by fire and the archives all burned. The loss is estimated at $500,000.

Fire Friday caused $125,000 damage to a factory building on Washington Street, New York, occupied by the Automatic Register Company, the Pitcairn Show Manufacturing Company, the New York knitting mills, and the offices of many prominent stars.

Incorporation is being made by the Inter-State Commerce Commission into the switching charges on Grain from elevators in East St. Louis to Interstate destinations. It is claimed that the charges made for this service by the Illinois Central, Louisville and Nashville, Mobile and Ohio, and Southern railroads are excessive.

The directors of the Illinois Brick Company, Chicago, held their regular monthly meeting on Thursday. No action was taken on the dividend, and it now appears probable the matter will go over until the end of the year. When the profits for the year are known as large a payment on the preferred stock as possible will be made.

The net earnings of the United Box Board and Paper Company for January were $44,000; the month is always the dullest of the year, and officials consider the showing satisfactory. The company was reported to have earned $6,61 in January of last year. Dividends took the demand but box board is reported to be increasing and is about sufficient to permit all the mills in the box board combination to resume under full head.

Interests connected the Union Bag and Paper Company do not credit the report that dividends on the preferred stock are to be reduced. It was said Thursday, that while business fell off during the past six months there was a large increase shown during the half year preceding. Sales are beginning to pick up now and the figures said to be indications of a decline during 1904 that would prompt such retrenchment as redu tion of preferred dividends.

A telegram from Lincoln, Neb., says: "Instructions emanating from James J. Hill are responsible for the issuance of orders by the officials of the Burlington Railroad inaugurating a general policy of economy. The orders issued yesterday took effect Thursday on lines west of the Missouri River, and the shops at Alliance, Sheridan, McCook and Wymore are the ones most affected. The regular force was concentrated at the shops at Havelock, a suburb of Lincoln. Several hundred men are thrown out of work."

Justice Glidersleeve in the New York Supreme Court, Friday, granted the application of John MacGinnis to have continued the ex-parte injunction he recently obtained enjoining the Boston and Montana Copper Mining Company and the Parrot Silver and Copper Company from paying money for dividends to the Amalgamated Copper Company. At the same time he vacated the injunction against the Boston Company alleging want of the insolvency of any of the defendant companies and that they all are able to respond to any judgment that may be recovered against them.

The Chicago Board of Trade will close Feb. 22nd.

Roumania Great deal of snow has fallen and crop well protected. Italy Spain—There still continues too much rain for development of plant. Germany—Sharp changes in temperature during the past week caused some anxiety as to effect on crops. India—Harvesting commenced and so far no complaints of any kind. Australia—Rains have softened the ground, which is now in good condition for plowing."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand inclined to slacken as buyers are disposed to await more settled condition in Wheat

WINTER WHEAT—Was dull and from 1c to 5c lower for Hard Winter, and while soft Red Winter held its own and early sales made at about the same prices, yet the closing was quotable lower. There was no special demand and it was not so easy to make sales on account of the generally unsettled conditions. No. 2 Red in store quotable at 95½c@$1 02, and fresh arrivals free on board sold at $1 05@1 08. No. 3 Red fresh arrivals free on board sold at $1 02@1 04. No 2 Hard local sold at 95@97c. No. 3 Hard local sold to 8 @95c and ranged at the river at 77@92c, with a sale at 77c. No. 4 Hard sold at the river at 77c No Grade Hard sold at 60c. No. 3 White sold at $1 03¾

SPRING WHEAT—The market was quiet and prices 1@3c lower There was less demand from millers and while there was sale for choice fresh arrivals, buyers would take hold at liberal reduction in price. No. 1 Northern in store was quotably 3c under May prices; there was a sale at 96c and the range was 93½@97½c. Fresh arrivals free on board ranged at 98@$1 02. No. 3 Northern fresh arrivals ranged 94c@$1 00 No 3 Spring sold local at 92@93c, and ranged at 85@98c, and sold at the river at 92c. No. 4 Spring local sold at 65@70c, and ranged at 60@90c for poor to choice, with a sale at the river at 77c.

REGULAR WHEAT—Closed with a loss of 3¼c for the May and old July lost 2½c Liquidation of "long" property was again the feature under this head, May selling off to 98½c and July to 92½c. "Bull" interests were credited with selling the May and buying old July at about 5½c spread and later on the difference narrowed to 4c The liberal movement and lower English and Continental cables appeared to be the chief "bear" incentives and there was heavy commission house selling from the start, stop orders again being numerous. Liverpool reported spot steady to ½d lower and futures 1⅛d lower. Stocks there March 1 were reported 1 104,000 bu, a decrease during February of 558 000 bu Stock a year ago 1,776 000 bu. London was ¾@1½d lower. Paris steady Antwerp was down 1⅛c, Berlin 1⅛c and Buda Pesth ¼c. Primary receipts were 321 000 bu ahead of 1903. Arrivals in the Northwest were 83 cars larger and there was heavy selling here for Northwest account. Winnipeg received 168 cars, compared with 103 cars one year ago Northwest interior elevator stocks decreased 748,000 bu during February and are now 5 188,000 bu compared with 4,587,000 bu one year ago. Kansas City and St. Louis received 352,000 bu, against 89 000 bu last year Shipments 244,000 bu Stocks here in all positions were reported 7,677,000 bu, an increase of 165,000 bu and are 5 540 000 bu smaller than a year ago. Contract stocks increased 27,440 bu, to 1 724 312 bu, compared with 3 080,500 bu in 1903. *Bradstreet's* world's available supply decreased 2,703,000 bu, as against a decrease of 1,902 000 bu same week in 1903. The weekly snow map showed no covering south of Northern Nebraska, Northern Illinois and Northeastern Iowa. *Broomhall* cabled this season's exportable surplus in Argentina was reckoned at 112,000,000 bu: Australia, 40,000,000 bu, and India, 64 000,000 bu. Clearings were limited and but 8 boat loads accepted at the seaboard The map showed no precipitation in the Southwest and cloudy, cooler weather was generally predicted. Stocks at Minneapolis reported reduced 100,000 bu so far this week. Liverpool decline was reported partially due to selling orders from this side. British Consols were 7-16 lower ex-dividend. Milwaukee reported sales of a line of cash Wheat to go to Eastern mills. Sales here 10,000 bushels. Receipts at Duluth 103 cars and at Minneapolis 246 cars, a total of 349, against 577 cars yesterday, 701 cars a week ago, and 266 cars last year. Local receipts included 58 cars Winter, 14 cars Spring and 1 car mixed, a total of 53 cars, against 31 cars last year. Included in the above was 7 cars of contract grade. There were 3 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 35 cars Withdrawals were 10,500 bu. Receipts at Western points were 712,957 bu, against 391 571 bu last year. At Eastern points 31,711 bu, against 120,490 bu last year. Shipments from Western points were 396 813 bu, against 180,332 bu last year, and from Eastern points 28,288 bu, against 191,650 bu last year. Shipments of Flour were 11,408 brls. Exports of Wheat in Flour were equal to 70 020 bu.

Future Deliveries of Regular Wheat—Active trade at lower prices.

SEPTEMBER—New Style—Sold at 85⅜@87⅝c. Opened with sales at 87½c to 86¾c; sold to 87⅛c, to 87c, to 87⅝c, to 87⅛c, to 85¾c, to 86c, to 85⅜c, to 85¾c, to 85½c, to 86c, to 85⅞c, and closed at 85⅞c.

CORN—A good trade and nervous, unsettled market, with the close 2c lower for the May, July lost 1⅞@2c and September 1¾c. The start was weak, and as the session advanced there was heavy liquidation, May selling off to 54⅞c and July to 53⅜c. The break in Wheat, lower cables, liberal increase in the total stock here last week, and decline in cash Corn were among the "bearish" influences. Selling May and buying July was one of the pit features. On the break "shorts" covered freely, many of the early sellers buying, and the market responded quite readily to the same. May advancing to 55½@55⅝c, but toward the close sold back again to 54½c. Liverpool quoted spot ½@⅝d lower and futures off ⅛@⅜d. Stocks there, 1,054,000 bu, showed an increase during February of 161,000 bu Stock March 1, 1903, was 585,000 bu. Stocks here in all positions were reported at 7 167,000 bu, an increase last week of 531,000 bu, and are 276,000 bu larger than a year ago Contract stocks increased 67,985 bu to 2,384,080 bu, compared with 2,357,746 bu in 1903 *Bradstreet's* world's available supply increased 586,000 bu, as against a decrease of 797,000 bu the same period in 1903. Cloudy, colder weather was generally predicted. Receipts were 492 cars, with 364 cars low grades, against 488 cars last year, when 171 cars were off grades Estimates for to-morrow 165 cars. Southwestern markets were weak and receipts at distributing centers 771,000 bu, compared with 800,000 bu last year Shipments 351,000 bu and 551,000 bu, respectively. Local arrivals 300,000 bu and shipments 199,000 bu. Exports 480,000 bu; last year 339,000 bu Bookings at the seaboard 12 boat loads. Transfers from private to public houses 61 cars. Shipping demand moderate and sales 50,000 bu Car lots were weak and 1@5c lower. Offerings moderate and demand slow. OATS—Were weak and declined 1½@3¼c May leading The close was at a small rally from the bottom at losses of 5⅛@2¾c There was liquidation throughout, and poor support. The selling was led by the largest holders who unloaded through brokers Weakness and demoralization in other Grains had a depressing influence The buying was mainly by "shorts" and local traders who had the Oats to sell later. Statistics were "bearish." Stocks of Standard increased 217,000 bu and are 2,156,000 bu. Stocks in private elevators decreased 137,000 bu, and in public and private houses are 5,091,000 bu a net increase of 536,000 bu for the week. Available supplies increased 581,000 bu. Arrivals were 306 cars, with 110 cars estimated for to-morrow. There were 11 cars and 83,200 bu Standard run in from private to public elevators Cash sales were increased by the break, 100,000 bu selling for shipment. Seaboard clearances were 27,000 bu New York at the close reported 90,000 bu sold for export. Car lots to go to store were 1@2c lower No. 4 White sold at 40@41¼c. No 3 White at 41¼@41¾c. Standard in store closed at 39½@40c as to location

Oats by sample were heavy and prices receded 1@2c. The demand was not large enough to take up the moderate offerings and the market did not clean up Sales on track and free on board: No Grade at 32@37½c No. 4 at 36@37c No. 4 White at 37@42½c. No. 3 at 38@39½c No. 3 White at 41@43¼c Standard at 42¾@43c. No. 2 at 40c. Billed through No 4 White at 3@43c. No. 3 White at 41½@42¾c. Standard at 42½c. At the river: No Grade at 32c. Future Deliveries of Contract Oats—Were active, weak and lower.

MARCH - Dull at 2½c under May. Sold at 41c. Closed at 39¾c

MAY—Active Sold at 41⅝@44⅛c Opened at 44⅛c to 44½c - sold to 44⅝c to 41⅝c to 42c at close.

JULY Active and weak. Sold at 38@41⅛c Opened at 41¼c to 41⅝c, sold irregularly to 39c, to 39¼c at close

SEPTEMBER—Weak. Sold at 31¼@35⅜c. Opened at 35¼c sold to 35⅜c, to 34¼c, to 34¼c at close

RYE Ruled weaker in sympathy with the decline in other Grain and prices 1½c lower. Demand light; buyers less inclined to purchase and there was more disposition to sell. There were 12 cars received and one car withdrawn from private warehouse. No export clearances from the seaboard. No. 2 in store nominally 73½c and fresh arrivals free on board sold at 75@76c. No 3 fresh arrivals sold at 70c, and No 4 at 55c. Poor Rye is very dull and difficult to sell, but for choice there was some demand.

Future Deliveries of No. 2 Rye Light trading and prices 1½c lower March nominally 73½@74c. May sold at 76c, and closed at 75½c bid and 76c asked. July sold at 76c, and closed at 76c sellers.

BARLEY—A weak feeling came over the market. Prices sustained 1c, in some cases 2c decline. There were free offerings, more particularly of low grade to fair malting goods. A good part of yesterday's supply had to be carried over, and today there was again a good run. Bids for feed Barley were dropped with the decline in Oats, and then demand was tame. Maltsters were well supplied. Some said they were blocked. On account of this and in view of weakness taking the place of buoyancy in the other markets, buyers held off in anticipation that they could do better Considerable Barley was worked off, but market did not clean up Ninety five cars inspected in. Screenings quotable at 35@42c for poor to choice. Barley, feed or mixing, quotable at 36@41c local. Malting, low grade about 41@43c; common, 44@48c. Fair was about 47@49c, good, 50@53c; choice, 55@58c; fancy nominally higher.

SEEDS—There was an easier market for Timothy and in the Flax market prices receded somewhat Other does steady and firm. Millets, in fact, quoted a shade higher

Timothy—There were 10 cars of contract Seed delivered on March sales There were in turn changes made from present to May delivery, some at 1c difference in favor of May and on some the difference could not be learned. March delivery in the regular way sold at $3 05, which denoted 6c decline since yesterday. The cash market was weak and some concessions necessary to effect sales. Offerings fair not heavy. Some went over unsold Transactions were at $2 50@2 65 for fair quality. Extreme grades, fancy and poor, absent in the offerings. Country lots quotable at $2 25@3 25 poor to fancy; fair to good at $2 50@2 70; choice $2 75@2 90, and rough, dark and foul lots about $2 35@2 45.

Flax—There was a decline in prices of ½@1c from yesterday's quotations. The market also remained very quiet and dull. Trading confined to a few car lots sales. Weakness was in sympathy with easier market in the Northwest Seven cars or 5,950 bu were received here and same number of cars or 7,130 bu were taken out Minneapolis got 15 cars and Duluth 33 cars No 1 Northwestern or No 1 from the Northwest quotable at $1 16½. No. 1 nominal at $1 11 Rejected nominally $1 08@1 11, outside for choice Northwestern. February, quotable at $1 11. May offered at $1 13½ and $1 12½ bid.

Clover—Remains scarce on the open market It was quotably firm and late advanced prices obtainable. Contract spot and March delivery quotable at $11 50. Country lots, common to choice, $8 25@11 25: fancy above; mixed with Buckhorn or other weed Seeds, $8 00@9 50; poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Main run of such lots as come to market when ordinary to good quotable at $9 00@10 50.

Other Seeds Prices for Millets were quoted up somewhat. There were no offerings, but a disposition to purchase was present. The rest were unchanged, but all quotably salable and firm. Hungarian quotable, common and light color to choice, dark at $1 60@1 00 Common Millet $1 00@1 50 for poor to fancy. German Millet, $1 00@1 40. Siberian, 85c@$1 05. Broom Corn and Early Fortune Millet, 80@85c Mustard, 85c@$1 15 Buckwheat firm; good milling salable at $1 50@1 40; a car sold at $1 35.

HOG PRODUCTS—Quite a good speculative business was transacted in Hog Products, and the market was generally unsettled. Fluctuations in prices were frequent and trading was unsatisfactory. Hogs were in fair supply, and prices ruled higher, but the Grain markets were easier, and this feature encouraged "longs" to realize and packers to sell rather freely. Outside orders were fairly liberal, and local trading was quite active. Margins were called freely, and the appearance of "stop loss orders" on the market added to the general depression. "Shorts" accepted moderate quantities around the inside prices of the day. Market opened rather easy, and prices ruled slightly lower all around, and the pressure to sell generally caused a material reduction in prices. About the middle of the session the feeling was steadier, and prices rallied moderately on all descriptions, but toward the close weakened again, and prices receded to inside figures, and the market closed easy. Receipts of Hogs at the leading Western packing points were estimated at 75,000, compared with 50 500 one year ago Foreign markets were steady for Meats with Hams 6d higher, while Lard was quiet and 3d lower. Receipts of Products were fairly liberal—of Lard and Meats about 36 cars Shipments were fairly good of Lard and Meats about 17 cars. Shipping demand light, owing to the unsettled feeling in the speculative market. Offerings were moderate Sales somewhat limited, and prices favored buyers.

Mess Pork—Trading was brisk feeling unsettled, and prices irregular. Offerings were rather free, and the demand was fair. "Longs" sold fair quantities More doing in July Market opened with a little pressure to sell and prices were 7@12½c lower, and further irregularly declined 65 a 70c under free offerings. Later, a little more steadiness prevailed and prices rallied 30 a 32½c Toward the close, the feeling was rather weak with free offerings, and prices receded 5@10c, and the market closed rather easy Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $14 00@14 75

MAY—Offerings were quite free, and the demand was fair. Sales were made at $14 50@15 40 Opened at $15 25 to $15 40, sold at $15 25, to $15 30, to $15 00, to $15 15 to $14 60, to $14 77½, to $14 70, to $14 87½, to $14 80, to $14 90, to $14 85, to $14 92½, to $14 75, to $14 80, to $14 77½, to $14 85, to $14 50, to $14 60, to $14 50, and closed steady.

JULY—Demand was fairly active and offerings were rather free Sales were made at $14 60@15 42½. Opened at $15 35 to $15 42½, sold to $15 00, to $15 10, to $15 05, to $15 20, to $14 95, to $15 00, to $14 75, to $14 90, to $14 85, to $14 92½, to $14 90, to $15 00, to $14 87½, to $14 92½, to $14 60, to $14 60, and closed steady

Lard—Rather a good business was transacted in the Lard market and the feeling was easier. Offerings were rather free and the demand was fair. Foreign advices unfavorable to holders Opening trades were made at 10@12½c and a further reduction of 15@20c was submitted to At the decline the demand improved and prices rallied 5@7½c, but toward the close declined suddenly 20@27½c, and the market closed rather steady The demand on shipping account was light and offerings were moderate Cash lots were quotable at $7 25@7 37½ Loose lots called for sparingly and offerings were rather light Prices were steady at about 70c discount on May figures Leaf Lard in fair request and offerings were moderate. Prices were quotably steady at $7 12½ Neutral in only moderate demand, with fair offerings Prices quotable steady at $8 62½@8 75 for No 1 and $8 12½@8 25 for No 2

MAY In fair request and offerings rather free Sales were made at $7 40@7 80 Opened at $7 75 to $7 80, sold to $7 70, to $7 77½, to $7 60 to $7 67½ to $7 65, to $7 67½, to $7 50, to $7 55 to $7 50, to $7 52½, to $7 40, to $7 45, and closed steady.

JULY Offerings were moderately free and the demand was fair Sales were made at $7 55@7 95 Opened at $7 92½, sold to $7 95, to $7 82½ to $7 87½, to $7 80, to $7 82½, to $7 55, to $7 57½, to $7 55, and closed steady.

Short Rib Sides—An active speculative business was reported in Short Rib Sides, and the feeling was unsettled Offerings were moderately free, and the demand was rather active Prices were about 20@25c lower at the opening, and the pressure to sell caused a further reduction of 22½@25c. At the decline, there was fair miscellaneous buying, and prices rallied 5@7½c, but toward the close suddenly declined 17½@20c, and the market closed rather easy More doing in July Shipping demand was light, and offerings were limited Cash lots quotable at $7 25@7 57½ according to weight

MAY—Offerings were rather free, and the demand was fairly active Sales were made at $7 40@7 80 Opened at $7 77½ to $7 80 sold to $7 70, to $7 75, to $7 67½, to $7 67½, to $7 55, to $7 60, to $7 52½, to $7 60, to $7 40, and closed steady.

JULY—In rather good demand with liberal offerings. Sales were made at $7 50@7 87½ Opened at $7 82½ to $7 87½ sold to $7 77½, to $7 82½@7 85, to $7 70, to $7 72½, to $7 60, to $7 67½, to $7 62½, to $7 65, to $7 50, and closed steady

Other Meats—Trade was comparatively light and the feeling rather steady. Offerings were only fair. Demand was moderate for the home trade Export inquiry rather small. Green Meats in moderate supply and rather light demand, and prices favored sellers. Pickled Meats were in fair request to fill moderate orders and prices were unchanged. Dry Salted Meats were in fair demand in a quiet way, and prices ruled easier. Smoked Meats called for in fair quantities especially in a jobbing way, and prices were steady. Closing range as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Feb. 25.]

Wheat—The European markets made a sudden advance towards the latter part of last week, that our markets cheerfully responded to, and our exporters raised their limits with great alacrity, and several vessels were chartered for United Kingdom loading. We have repeatedly stated in these columns that when Europe would show any activity in cargoes prices would advance here and that our exporters would not be far behind and give the grower the full benefit of the rise. This has been demonstrated. Quotations for club range from 77c to 78c; bluestem 82c to 83c, and valley 81c to 82c. The sudden rise did not dislodge as much Wheat as many expected, but some very fair-sized parcels passed into the hands of buyers. There is considerable Wheat owned by the shipping interests for export use, and they seem in no hurry to load the same on vessels, as better prices can be secured from country millers, who are in need of Grain where there is no stock to be had. In the Nez Perces country, where fully 1,000,000 bu yet remain, farmers can be happy. About two months ago the cable of the tramway broke and the same was laid up until a new cable was secured. This has prevented the sale and shipment of Wheat. The cable arrived last week, and now farmers are feeling elated over the better prices and express a belief that the delay through the disabling of the tramway is likely to prove a source of great profit. Conservative estimates of the Grain still in the Nez Perces and Camas prairie, including the Grain in the warehouse at Culdesac, Sweetwater, at points along the Clearwater Short Line, and at the heads of the three tramways at Summit, Nez Perces and above Kooskia, with Grain in the farm granaries, will not fall short of 2,000,000 bu. Of this at least 80 per cent is Wheat. Crop reports from Eastern Oregon and Washington are of very flattering nature. There has been an unusually heavy rainfall this winter, the Wheat belt is in excellent condition for plowing and a great amount of winter farming is being done. Plowing is now progressing more or less all over the two States, and some seeding has been done. Winter Wheat is doing very well, and the outlook at present indicates an excellent crop. While the growth has not been stronger than usual, there has been but little cold weather and the ground has been soaked with an abundance of moisture since last fall.

Flour—The demand from the Orient is good, if millers would accept cabled figures, but they are entirely too low to be accepted. Buyers must consider the fact that millers here are paying more for Wheat to-day than a month ago, and have not raised the prices on Flour to the same proportion as to what they have to pay to growers for Wheat. European countries are in the market for Flour, and a Portland Flouring mill has chartered another vessel; this one from Tacoma to the United Kingdom, loading for a cargo of a special brand of Flour, which is in good demand always abroad. The same company is now loading a cargo of Flour here for the same destination. Central and South America demand has let up and all orders have been filled for the time being. The demand from California is fair, and the usual shipments are being made to that State on each steamer from Portland and Puget Sound ports. The output from the various mills during the past week has been greatly reduced, as only the larger mills are in operation. Most of the millers are acting very cautiously on sales for Orient trade, as many of them are afraid that the same may be made contraband of war. This, to a certain extent, is making Flour exporters not anxious to sell, unless conditions show that the cargo will be able to go through safely. Quotations remain unchanged from our last review. Export brands are $3 45 per brl. Patents from $4 00 to $4 25 per brl, quality and brands considered.

THE WEATHER CONDITIONS.

The weather map shows light snows in Manitoba and light rains in Eastern Iowa and generally through the Ohio Valley. No precipitation in the Southwest, Kansas, Oklahoma or southward. Mercury is lower in the North and some colder is indicated. West and Southwest temperatures are mild. Thawing in most of the Corn States.

Weather forecast for 36 hours. Kansas, fair. Illinois, Indiana, Missouri, Michigan, Wisconsin, Minnesota, Iowa, South Dakota and Nebraska, cloudy; colder. North Dakota, fair; colder.

ITEMS OF GENERAL INTEREST.

Union Pacific net earnings for January increased $304,364.

A fire, Monday, in the business district of Livingston, Mont., caused a loss of $100,000.

The Great Western has met the cut of 55 per cent in Sugar rates from Chicago to the West.

The American Bond and Stock Company, with a capital of $1,250,000, has been incorporated at Trenton, N. J.

J. P. Morgan & Company offer to continue Erie voting trust for 4 years if the stockholders sanction it.

The packing at Milwaukee since Nov. 1 is estimated at 404,400 Hogs, against 371,693 for the corresponding time in 1902-3.

The Peoria and Eastern Railway Company will pay on April 1 the regular annual interest of 4 per cent on the first mortgage income bonds.

The National Bank of Dundee, Ill., recently closed because of the alleged embezzlement of $60,000 by the former cashier, has resumed business.

The International Silver Company declared a quarterly dividend of 1 per cent on preferred stock, payable April 1. Books close March 3 and reopen April 2.

Oats are being brought to Chicago from Montana that test 42 lbs to the bushel. They are raised on irrigated lands and show unusually fine quality, and are sold for seed.

The Eastern railroads are still cutting rates on Grain from Buffalo to the Atlantic coast. About the only place in the United States where Grain rates are not demoralized is west of the Rocky Mountains.

Railroad reports are showing the expected decreases. For January 33 roads thus far show an average net decrease of 9.36 per cent. For third week in February 36 roads show gross decrease of .56 per cent.

The Amalgamated Association of Steel Workers has ordered a strike to test the constitutionality of the Pennsylvania labor law making it a misdemeanor to discharge employes because they are affiliated with a labor organization.

During the month of January France imported for home consumption 576,000 bu Wheat, and in the six months ending January the total was 8,168,000 bu, compared with 6,384,000 bu in the first six months of last season and 3,920,000 bu in 1901-2.

Dornbusch of Feb. 13 says: "The Indian Wheat crop this season is of good promise, and expectations are for 25 per cent increase on last year's yield. In 1903 the crop harvested was 292,000,000 bu; in 1902, 228,000,000 bu; in 1901, 264,400,000 bu; in 1900, 183,200,000 bu; in 1899, 238,400,000 bu."

The regular quarterly dividend of $1.00 per share on the St. Louis and San Francisco Railway Company's Kansas City, Fort Scott and Memphis Railway preferred stock trust certificates will be paid on April 1. Books close March 17 and reopen April 2.

The *Agricultural Gazette* of Feb 13 says: "The first half of February has been reached and no sowing of any consequence has been done, though early Peas should be in before this time and Beans would have been drilled to some extent if circumstances had permitted. Without hard frost the land will not work properly until the time comes when an alternation of sunshine and showers may be hoped for to exercise an effect similar to that of frost, and it is impossible for any great progress to be made with sowing, however fine the weather may be, before the end of the present month."

An authority on the Coal situation said: "Briefly recapitulated, the soft Coal situation is as follows: Operators in Pennsylvania, Ohio and Indiana are determined to have a reduction in wages, while operators in Illinois realize that this would cause trouble in that State. Operators east of Illinois are anxious for a 10 per cent reduction. They believe the United Mine Workers' organization would yield if Illinois operators would join with them in making the demand. Pennsylvania operators say that if wages are not reduced they will shut down as they are unable to compete with West Virginia mines, where nonunion labor is employed. The final joint conference will be held at Indianapolis Monday."

Dispatches from Detroit state that the transfer of the Michigan Telephone Company to the new Michigan State Telephone Company, formed by the bondholders of the former company, will take place March 1. The legal formalities have all been complied with and the purchase price paid. The new company's organization has been completed and the same working force as formerly will be retained. Arrangements have been made with the connecting lines of the Bell companies to continue long-distance traffic. The receiver has completed and made to the court a statement of operations for the year ended Dec. 31, 1903. The showing gives great encouragement to the holders of the securities in the new company.

The affairs of the Pacific Packing and Navigation Company, which is in the hands of a receiver, are being gradually straightened out, and it is expected that within a few weeks some definite action will be taken as to the future organization of the company. A meeting of the creditors will soon be called, at which the receiver will make a report and the general plans of the company will be discussed. The $1,250,000 of receivers' certificates which were issued last year will be retired. The company has on hand $500,000 cash, which will be used for the liquidation of that amount of the old receivers' certificates, and $7 0,000 new certificates will be issued in exchange for the balance of last year's certificates. It is understood that the former subscribers to the receivers' certificates will take the new issue. Plans are under way for the reopening of the company's canneries as soon as the salmon season begins. Sufficient working capital will be provided out of the funds already at hand and the proceeds from the sales of a considerable quantity of salmon which the company now has.

Dornbusch's Buda Pesth correspondent writing under date of Feb. 17 says of Flour: "The market has this week received the needed stimulus in the shape of the outbreak of war. There is, it is true, no direct relation between the East Asiatic duel and this country, nevertheless exporters have been roused into making purchases of Flour. These purchases have been extensive, and were repeated almost every day this week. The only regret is that the buying was practically all for account of the Austro-Hungarian custom districts, while foreign countries have so far continued in an entirely contemplative mood. Prices have been steadily rising, until at the close of the week millers' limits are practically 1kr per 50 kilos higher than a week ago. Deliveries on old contracts have not been numerous, but the sharp rise has made millers more disposed to insist either on the prompt fulfillment of old bargains or on their cancelment. This would relieve stocks. The further course of the market depends on the Far Eastern events; it is to be hoped that our millers may be able to profit by the situation to put trade on a sounder basis than has been the case for months past. Feedingstuffs have hardened, but business was small."

The Chicago *Inter Ocean* says: "The recent strength of Otis Elevator securities is based on the fact that the earnings of the company for the year ended Dec. 31, 1903, were, in view of the interruptions to the building trades on account of strikes, highly satisfactory to the officers of the company. While the earnings are not stated, there is reason for believing that the surplus after all charges and preferred dividends will be sufficient to pay another dividend on the common shares. Last year, at the March meeting of the directors, a dividend of 2 per cent was declared on the common stock. An official of the company says: 'The actual financial results for the past fiscal year will not be known until March. The question of declaring the dividend on the common stock has not been considered by the directors. Personally, I believe a dividend will be paid, but I do not believe any member of the board knows what the rate will be, and the amount of the dividend will be uncertain until action is taken by the board. The inactivity in the building trades has affected our business somewhat. The conditions that prevailed in the building industry last year on account of strikes were almost intolerable. The situation seems to be improving a little. While in my opinion there will be no early boom in the building trades, I look for a fair, conservative business during the current year.'"

The Chicago *Inter Ocean* says: "The low prices made for Union Bag and Paper preferred keeps afloat the rumor of a cut in preferred stock dividends. It is said that as the company has a floating indebtedness of $800,000, a reduction in the preferred dividend is being considered, so that the company may pay off its outstanding debt. Of this indebtedness $300,000 is held by New York banks and the remaining $500,000 is placed in banks throughout the country. The Moores are reported as not being too optimistic over the outlook, but interests directly associated in the big business say the outlook is not unfavorable. The company is said to control 95 per cent of the concerns manufacturing paper bags in the country. The statement, however, is disputed. In addition the company has a powerful rival in the Continental Paper Bag Company, controlled by the International Paper Company, and which does a very large bag business. The Union Bag and Paper Company from its inception has suffered from overcapitalization, making it exceedingly difficult even in prosperous times to earn a satisfactory amount on its common stock. The margin between the total profits for the year and the 7 per cent preferred has always been very small. The annual report is now being made up and will be presented to the directors at their meeting on March 10, on which date action will be taken on the preferred dividend."

A synopsis of the annual report of the Pennsylvania Railroad Company for 1903, including financial statements of the lines controlled by it west of Pittsburg, has been made public. The gross earnings of all the lines directly operated by the Pennsylvania Railroad Company were $122,626,419; operating expenses, $81,773,056. After deducting rentals, the net earnings of the company were $30,471,901. The net income was $27,506,607. From this amount there was deducted $12,713,676 for sinking and trust funds and improvements, leaving a balance of $14,792,931, which was paid out in 6 per cent dividends. The amount to the credit of profit and loss account on Dec. 31 was $24,742,224. The assets of the company are given at $504,879,475. The funded debt amounted to $115,716,284, a decrease of $23,903,471. The gross earnings of lines west of Pittsburg directly operated by the Pennsylvania Company were $36,602,934; operating expenses, $27,116,683; net earnings, after deducting rentals, $7,893,140. The net income was $5,119,641. The gross earnings of the Pittsburg, Cincinnati, Chicago and St. Louis were $28,960,821; operating expenses, $22,278,251; net earnings, after deducting rentals, $6 257,558. The net income was $2,425,741. The gross earnings of all lines east and west of Pittsburg for 1903 were $242,517,757; operating expenses, $175,379,437; net earnings, $67,138,320, an increase in gross earnings, compared with 1902, of $22,438,527 and a decrease in net earnings of $101,190. There were 297,120,398 tons of freight moved, being an increase of 25,607,519 tons, and 123,632,203 passengers carried, an increase of 7,783,362.

London reports that the Paris settlement, which will be concluded to-morrow, is progressing without disturbance and this has steadied the Securities markets.

There was $500,000 Gold taken at New York to-day for shipment to Buenos Ayres. This is the first this season. It goes to pay for Wheat to be exported to Europe.

The Directors of the Chicago Telephone Company have declared the regular quarterly dividend of 2½ per cent, payable March 31. Books close March 25 and reopen April 1.

Northwestern Elevated, Chicago, traffic for February showed a daily average of 73,193 passengers, an increase of 3,3.8, or 4 73 per cent, as compared with the same month a year ago.

A waiver of interest charges on money advanced beyond the value of consignments of Grain has been decided to be a violation of the commission rule. The Directors of the Chicago Board of Trade made this decision, Tuesday.

In Local Securities there was an unsettled tone. Realizing sales in Can, Box Board and Quaker Oats carried prices off sharply. Biscuit and Diamond Match were stronger. North Chicago Railway broke 2 points and sold at 65.

Cotton in New York was advanced by stronger cables, more encouraging advices from Dry Goods centers, and buying by the "bull" leaders. Spot markets were stronger. On the bulge Wall Street sold. Closing prices were 35@48 points higher.

A further cut of 2c per 100 lbs in the freight rate on Grain from Missouri River points to Chicago was announced, Tuesday, by the Chicago Great Western Railroad, to become effective March 4, the earliest date possible under the requirements of the Inter-State Commerce law. The new rate will be 4c per 100 lbs on Wheat and 3c on Corn.

Stocks in New York were unsettled, with light trading. There was weakness in Pennsylvania, due to its decreased earnings. A belief in reduced earnings by all roads for January and February also had a weakening effect, but losses small. Alton common proved an exception and gained 1¼. Coppers were weak despite the large exports. Money easy at 1¾ per cent.

Broomhall cabled: "Liverpool steadiness was on the seriousness of Argentine strike situation and on large and influential buying and on the low consols. The advance was helped by scarcity of offerings. Cheaper American offerings caused lower Corn prices. Argentine cable says no prospect of a settlement of the railway strike, which has assumed very serious proportions. Traffic paralyzed."

A representative of the firm of J. P. Morgan & Co. is quoted as saying Erie stocks are widely held, thus making a change of control comparatively easy. The property, he says, is now in the throes of extensive improvements, and the interests desiring to continue the voting trust wish to guard against any untoward movement. They believe this can best be accomplished by continuing the trust agreement. It is said assurances have already been received of the assent of owners of enough of the stock to make the extension proposition effective. The large holders are said to have been unanimous in their request that J. P. Morgan control the company.

The *Drovers' Journal*, referring to the valuation of Live Stock for February, said: "The valuation of both Hogs and Sheep, per head, for the past month showed a good gain compared with January, while Cattle showed a slight falling off. In sympathy with the sharp advance in Hog Products the greatest gain was in Hogs, the lessened value of Cattle being due to the continued marketing of half-fattened stock and the scarcity of well-finished and fully matured Beeves. This crowding in of immatured Cattle was largely due to the marketing by weak-kneed feeders, owing to the almost record breaking prices of Corn for this season of the year. During the past month several bunches of Cattle sold at $6 00, the highest price of the year, but as an offset there was an overabundance of thin Steers of the feeding order, which pulled down the average price, notwithstanding a good healthy market for canning stock."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and little change in local conditions. Prices without important change.

WINTER WHEAT—There was a good demand—nothing urgent, and yet sufficient to take up the offerings readily. There was no special change, the market being practically the same as yesterday. No. 2 Red in store quotable at 96¼c@$1 01½, and fresh arrivals free on board sold at $1 05. No. 3 Red fresh arrivals sold at 98c@$1 03½. No. 2 Hard local sold at 95c, and at the river ranged at 90@94c. No 3 Hard local sold at 95c, and at the river at 83@84c—the latter ranged at 77@90c. No. 4 Hard at the river sold at 72c.

SPRING WHEAT—Was quiet and without special change for fresh arrivals, while the in-store lots closed higher than yesterday, based on the speculative market. Receipts small and choice milling Wheat in fair demand. No. 1 Northern in store quotable at 94¼@99½c and fresh arrivals free on board at 99c@$1 01. No. 2 Northern fresh receipts quotable at 92c@$1 00. No. 3 Spring quotable at 85@98c. No. 4 Spring local sold at 67@90c for ordinary to choice.

REGULAR WHEAT—A good trade and active market at times, with feeling prevalent stronger. Closing prices show the May up 1½c, July 2⅜c better and the September 2½c higher. "Bull" interests were quite prominent on the "long" side of the market taking May and old and new July. Some buying of July for foreign account. Liquidation by "longs" was on a much smaller scale and May sold to 99½c and July up to 95⅛c. Outside markets were all stronger, crop news rather unfavorable, no moisture in the Southwest, and a cold wave for the Winter Wheat belt was predicted by the signal service. English cables were relatively steady, but Continental markets were weak. Illinois crop bulletin was "bullish," also Government monthly crop bulletin. English country markets were firm. Liverpool quoted spot steady to ¼d higher and futures ⅛@¼d higher. Strength there was due to adverse news regarding the spread of the railroad strike in Argentina. London was ⅛@¼d lower. Paris was up ¼c while Antwerp declined ⅜c. Berlin was down 1⅜c. Buda Pesth 1⅜d, and Hamburg 3c. Primary receipts were 19,000 bu larger than a year ago. Kansas City and St. Louis received 310,000 bu; last year 78 000 bu. Shipments 288,000 bu. Receipts in the Northwest were 77 cars ahead of 1903. Clearings were limited and only 15 boat loads accepted at the seaboard. London quoted cargoes on passage dull with little serious inquiry. Kansas City reported cash Wheat 1c higher and the Kansas City *Star* estimated the amount in farmers' hands in Kansas at 17,000,000 bu, of which it is reckoned the mills will require about 10,000,000 bu. Minneapolis reported foreign bids for Flour were 50c out of line. Odessa cables stated the Russian Wheat crop was in fine condition and that shipments from there would be heavy. Receipts at Duluth 66 cars and at Minneapolis 306 cars, a total of 372, against 349 cars yesterday, 236 cars a week ago, and 295 cars last year. Local receipts included 20 cars Winter, 15 cars Spring and no mixed, a total of 33 cars, against 25 cars last year. Included in the above was 5 cars of contract grade. There were 7 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 30 cars. Withdrawals were 8,600 bu. Receipts at Western points were 626,471 bu, against 430 814 bu last year. At Eastern points 37,628 bu, against 106,788 bu last year. Shipments from Western points were 371,335 bu, against 208,368 bu last year, and from Eastern points 6,631 bu, against 171,411 bu last year. Shipments of Flour were 15,766 brls. Exports of Wheat in Flour were equal to 70,912 bu.

Future Deliveries of Regular Wheat—Active and closed higher.

MARCH—Entirely nominal and closed at about 95¼c.

MAY—Sold at 97¼@99½c. Opened with sales at 98c to 99c; sold to 98¼c, to 97¾c, to 98c, to 97¼c, to 98½c, to 97¾c, to 99½c, to 99c, to 99¼c, to 98½c, to 99¼c, and closed at 99¼c.

JULY—Old Style—Sold at 93@95⅛c. Opened with sales at 93¼c to 93½c; sold to 93⅛c, to 93⅜c, to 93c, to 93½c, to 93¼c to 93⅞c, to 93½c, to 94⅛c, to 94⅝c, to 94¾@94⅞c, to 94¼c, to 95⅛c, to 94¾c, to 94⅞c, to 95⅛c, to 94⅝c, to 95@95⅛c and closed at 95@95⅛c.

JULY—New Style—Sold at 92⅛@94¼c. Opened with sales at 92½c to 92⅞c, sold to 92⅜c, to 93⅛c, to 92¾c, to 92⅛c, to 93¾@93⅞c, to 93¾c, to 94¼c, to 93¾c, to 94¼c and closed at 94¼c.

SEPTEMBER—Old Style—Sold at 87c and at 88¾@88⅞c. Opened with sales at 87c to 87¼c; sold to 87c, to 88¼c, to 88c, to 88⅜c, to 88c, to 88⅝c, to 88½c, to 88¾@88⅞c, and closed at 88¾c.

SEPTEMBER—New Style—Sold at 86@87¾c. Opened with sales at 86c to 86⅜c; sold to 86⅛@86¼c, to 86c, to 87⅜c, to 87⅛c, to 87½c, to 86⅞c, to 87⅝c, to 87⅜c, to 87¾c, and closed at 87¾c.

CORN—A large trade and very unsettled market, fluctuations being frequent within 1½@1¾c range. Closing prices showed the May ⅞@⅝c higher, July gaining ¾c and September about ½c. There was a rush to sell at the start, prices being 1c apart at the same time at the opening. Outside liquidation was the feature, there being an entire lack of demand, and May weakened to 53⅜c. July touching 52¼c. Stop orders were a feature, and considerable "long" property sold for locals on the break. At the decline "shorts" came in, and Wheat advancing, Corn sold up in sympathy, May selling up to 55⅛@55¼c and July 54c. A cold wave was predicted by the Signal Service, and Liverpool quoted spot steady to ⅛d lower. Futures were ⅛@⅜d lower. Receipts were 188 cars, with 128 cars of the same low grades. Estimates for to-morrow 195 cars. The Government monthly crop bulletin stated planting was under way in Texas. Western receipts were 701,000 bu, against 774,000 bu for the corresponding day last year. Shipments were 241 000 bu and 439 000 bu respectively. Local arrivals were 400,000 and shipments 87,000 bu. Exports were 374,000 bu, against 657,000 bu one year ago. Transfers from private to public elevators were 7,750 bu and 94 cars. Kansas City was easy and St. Louis firm. Shipping demand moderate and sales 75,000. At the seaboard 6 boat loads were accepted. Car lots were in fair supply and moderate demand. Prices without special change. No. 2 closed at 52c and No. 2 Yellow closed 53c. No. 3 closed at 42@51½c and No 3 Yellow at 43½@52½c. No. 4 sold at 39c.

Corn by sample—Good, dry yellow Corn ruled steady to a shade higher, while low grades were weak and anywhere from 1c to 4c lower compared with yesterday. Demand was a little better and offerings moderate. Sales on track and free on board: No Grade sold at 27@35c. No 4 at 33@43c. No 3 at 42½@41c. No. 3 Yellow at 43@54½c. No 2 at 52c. No. 2 Yellow at 55c. No. 3 White at 4@44c. Ears at 36@40c. Billed through: No Grade sold at 30@35c. No. 4 at 36@41c. No. 3 at 43c. No. 3 White at 41@41½c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled, closing strong and ½@¾c higher.

MARCH—Inactive and closed 52⅜c.

MAY—Sold at 53⅜c and 55⅛@55¼c. Opened at 54⅛c to 54⅝c, sold to 54½c, to 53⅜c, to 54¼c, to 54c, to 54¼@54⅜c to 54c, to 54⅜c, to 54c, to 54⅝c, to 54¾c, to 54½c, to 55⅛@55¼c, and closed at 55⅛@55¼c.

JULY—Sold at 52¼@54c. Opened at 53½c to 52½c, and sold to 53⅛c, to 52¼c, to 52⅝c, to 52⅜c, to 53c, to 52⅞c, to 53½c, to 53⅛@53¼c, to 54c, and closed at 54c asked.

SEPTEMBER—Sold at 51¼@52⅞c. Opened at 52½c to 51½c sold to 51⅜c, to 51¼c, to 51⅝c, to 51½c, to 52c, to 51¾c, to 52⅜c, to 52c, to 52¾c, and closed at 52¾c bid

OATS—Were active, weak and ¾@1c lower, but advanced ¾@1¾c and closed fairly strong at nearly the best prices, at a net gain of ½@⅝c on the near deliveries and unchanged for September. The market early felt the effect of yesterday's heavy selling by the leading "long" interests and liquidation by scattered "longs" spent its force. Some of the largest sellers of yesterday began to replace lines and with covering by "shorts" and the rally in Wheat it made the reaction. Another help was the steadiness in the cash market. The break has improved the cash demand, with 100,000 bu sold here for shipment. Arrivals were 173 cars with 235 cars expected to-morrow. There was 51,000 bu of Standard Oats changed from private to public elevators. Withdrawals were 1,350 bu. Seaboard clearances 9,000 bu. Car lots to go to store were steady. No. 3 White sold at 41@41½c. Standard at 42½c. Standard in store closed about 40½@41c as to location.

Oats by sample were in better request. Supplies were more liberal. Common lots were easy and good steady, without material change in either. Sales on track and free on board: No 4 at 38@33½c. No. 4 White at 56½@43c. No. 3 at 38@40½c. No. 3 White at 40½@43½c. Standard at 42½@43½c. No. 2 at 40½c. No. 2 White at 44c. Billed through: No 4 White at 40½@41½c. No 3 White at 41¾@42½c. Standard at 43½@44c. At the river No. 4 White at 34½@41c. No. 3 White at 39@40½c.

Future Deliveries of Contract Oats—Were lower early and higher at close.

MARCH—Sold at 40c, or 2c under May. Closed at 42c.

MAY—Active and unsettled. Sold at 41@42¾c. Opened irregular with sales at 42¼c, down to 41⅝c, sold to 41c, to 42¾c, to 42½c, to 42½@42⅝c at close.

JULY—Active. Sold at 38¼@39⅞c. Opened at 39⅝c, sold to 38¼c, to 39⅞c, to 39¾c at close.

SEPTEMBER—Sold at 34@34¾c. Opened at 34½c. sold to 34c, to 34¾c at close.

RYE—The market was steady and unchanged for May and cash and about 1c lower for July—the former being in light supply and the latter offered more freely. Trade rather light. The receipts were four cars. There was one car withdrawn from private warehouse. No export clearances from the seaboard. No. 2 in store nominally about 73½c, and fresh arrivals to go to store sold at 76c and free on board at 76½c. No 3 fresh arrivals sold at 71c and No 1 at 52½@54c.

Future Deliveries of No. 2 Rye—Light trade. May was steady, and sold at 75c—that being the closing. July sold at 76c, and closed at 75c sellers

BARLEY—There was again a weak slow market. Demand from all sources was tame. There was no competition between buyers. They looked for favors in the way of prices or were indifferent about taking hold. Offerings not so large as for two days past; at the same time they were ample. High-grade, choice to fancy Barley scarce. Supply was mainly over a range of low-grade to choice malting. Trading seemed to be at reduced or inside prices of yesterday to 1c lower prices. Since a week ago values have receded 2@5c, depending on grade. To-arrive lots were neglected. Sixty-two cars inspected in. Screenings quotable at 32@42c for poor to fancy, outside maltsters' screenings; sales made at 36@42c. Barley, feed or mixing, quotable at 38@40c local; some best cars, really better than feed, sold at 41@42c. At the close there were offerings at 40c and 38c bid. Some held over. Malting, low grade, 41@43c; common, 43@45c. Fair was about 46@47, good, 48@52c; choice, 53@55c; fancy nominally higher, possibly 56@60c if just the right kind.

SEEDS—Under the pressure of free offerings Timothy Seed prices found a lower level and Flax Seed also suffered a decline. In other respects steadiness prevailed, in fact, in the case of Clover there was some advance

Timothy—There was 5c decline for March delivery; it was quoted at $3 00, and there was reported 1 car delivered. Cash Seed was freely offered. Under this pressure weakness prevailed and prices receded 5@10c below last quotations. Sales fairly large and over a range of $2 40@2 85 depending on quality. Country lots were quotable at $2 25@3 00 for poor to fancy; fair to good at $2 50@2 60; choice $2 70@2 85, and rough, dark and foul lots about $2 35@2 45.

Flax—Compared with yesterday's prices there developed to-day 1½@2c decline. It was in consequence of the influence which lower prices in the Northwest had on the market. A little more May delivery Flax was offered on sale. Of cash offerings the market was bare, though 20 cars or 17,176 bu came in, there was no output reported. Receipts at Minneapolis were 18 cars, at Duluth 45 cars. No. 1 Northwestern or No 1 from the Northwest quotable at $1 11 bid, and No 1 at $1 09. Rejected nominally $1 07@1 09, outside for choice Northwestern. March quotable at $1 09; May sold at $1 12½ to $1 11½; closed at $1 11½ sellers.

Clover—Was quotably firm again, with prices better, for good qualities at least, they advancing about 1 c. Advices from outside strong. Contract spot and March delivery quotable at $11 65. Country lots, common to choice $8 25@11 40; fancy above; mixed with Buckhorn or other weed Seeds, $5 50@9 50; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Main run of such lots as come to market when ordinary to good quotable at $9 50@10 75.

Other Seeds—There were no offerings. A steady to firm feeling quotable and full former prices obtainable. Hungarian quotable, common and light color to choice, dark at $1 60@1 90. Common Millet $1 00@1 50 for poor to fancy. German Millet, $1 00@1 40. Siberian, 85c@$1 05. Broom Corn and Early Fortune Millet, 80@95c. Mustard, 85c@$1 05. Buckwheat, good milling, salable at $1 30@1 40.

HOG PRODUCTS—A fairly good speculative trade was reported in Hog Products. Feeling was considerably unsettled, and fluctuations in prices frequent. Outside orders were fair, and leaned toward the buying side early. Local trading was fairly active. "Longs" realized on fair quantities, and packers sold moderately. "Shorts" accepted fair quantities. Market opened unsettled with fair buying orders, and prices extended over a wide range averaged slightly higher. After these were provided for a weaker feeling was developed, with realizing, and prices declined materially all around. At the reduction, there was a fair miscellaneous demand, and prices rallied considerably, and the market in a general way closed rather steady. Stocks on hand are quite large, and this feature had a depressing effect. Aggregate supplies increased 37,000,000 lbs during February, and are 52,000,000 lbs larger than one year ago. Receipts of Hogs were fair and prices lower. Receipts at the leading Western packing points were estimated at 67,800, compared with 59,100 one year ago. Foreign markets were weak, and prices decidedly lower. Liverpool quotations were reduced 2s on Lard, 1s 6d on Backs, and 6d on Cumberland Sides and Hams. Domestic markets were quiet. Receipts of Products were liberal—of Lard and Meats about 48 cars. Shipments were fairly large—of Lard and Meats about 156 cars. Demand on shipping account was moderate, and offerings were light. Sales were somewhat limited, and prices favored buyers.

Mess Pork—Considerable interest was manifested in the market for Mess Pork, and speculative trading was active. Feeling unsettled and prices irregular. Stock increased about 19,000 brls during February. Offerings were moderately free, and the demand was fairly active. Opening trades were made at 5c decline to 25c advance, and further improved 10c. Later, there was considerable pressure to sell, and prices settled back 35@47½c. At the decline the demand improved and the feeling was stronger, and prices rallied 37½@40c, and the market closed steady at nearly outside figures. Shipping demand was light and offerings were moderate. Cash lots quotable at $14 62½@14 75

MAY—Offerings were fairly liberal and the demand was moderately active. Sales ranged at $14 37½@14 85. Opened unsettled at $14 45 to $14 75, sold to $14 85, to $14 37½, to $14 55, to $14 40, to $14 55, to $14 52½, to $14 60, to $14 55, to $14 67½, to $14 60, to $14 65, to $14 62½, to $14 75, to $14 67½, to $14 75, to $14 72½, and closed steady

JULY—In rather good request and offerings were fair. Sales were made at $14 45@14 85. Opened at $14 60 to $14 75, sold to $14 85, to $14 45, to $14 67½, to $14 52½, to $14 70, to $14 65, to $14 75, to $14 70, to $14 77½, to $14 72½, to $14 82½, to $14 80, to $14 82½, and closed steady.

Lard—Rather a good business was transacted in the Lard market, and the feeling was unsettled. Offerings were moderately free, and the demand was fairly active. Stock reported on hand was larger than expected—increased about 47,101 tcs during February. World's supply increased about 50,000 tcs. Foreign advices decidedly unfavorable to holders. Market opened rather steady, with fair general buying, and prices ruled 2½@5c lower, but rallied again 7½@12½c. At the advance there was a little pressure to sell, and prices declined 12½@15c. This reduction brought buyers into the market again, and prices rallied 15@17½c, and the market closed rather steady at about outside figures. The demand on shipping account was light and offerings were moderate. Cash lots were quotable at $7 30@7 35. Loose lots called for sparingly and offerings were rather light. Prices were steady at about 70c discount on May figures. Leaf Lard in fair request and offerings were moderate. Prices were quotably lower at $6 87½. Neutral in only moderate demand, with fair offerings. Prices quotably steady at $8 55@8 62½ for No 1 and $8 00@8 12½ for No. 2.

MAY—Offerings were fairly liberal, and the demand was moderately active. Sales were made at $7 32½@7 50. Opened at $7 40 to $7 45, sold to $7 47½, to $7 32½, to $7 37½, to $7 45, to $7 50, to $7 47½, to $7 47½@7 50, and closed steady.

JULY—In rather good demand, and the offerings were fair. Sales were made at $7 50@7 65. Opened at $7 47½ to $7 57½, sold to $7 62½, to $7 50, to $7 55, to $7 50, to $7 62½@7 65, to $7 62½, to $7 65, and closed steady.

Short Rib Sides—Quite a good business in a speculative way was transacted in Short Rib Sides. Offerings were moderately free and the demand was fairly active. Feeling somewhat unsettled, and prices fluctuated considerably. Market opened with a fair general demand, and prices ruled 2½@5c higher. Later, the feeling was easier, and prices receded 10@12½c. At the decline the demand improved, and prices rallied 15@20c, and the market closed rather steady. Stock on hand increased about 2,600,000 lbs during February. Shipping demand was moderate, and offerings were rather light. Cash lots quotable at $7 35@7 37½ according to weight.

MAY—Offerings were rather free, and the demand was moderately active. Sales were made at $7 32½@7 50. Opened at $7 37½ to $7 45, sold to $7 47½, to $7 40, to $7 32½, to $7 37½, to $7 45, to $7 40, to $7 37½, to $7 50, to $7 45, and closed steady.

JULY—Inquiry rather active, and offerings were fair. Sales were made at $7 40@7 60. Opened at $7 45 to $7 55, sold to $7 42½, to $7 45, to $7 40, to $7 50, to $7 45, to $7 60, to $7 55@7 57½, $7 57½, to $7 55, and closed steady.

Other Meats—Trade was comparatively light and the feeling rather easy. Offerings were only fair. Demand was moderate for the home trade. Export inquiry very limited. Green Meats in moderate supply and rather light demand, and prices favored buyers. Pickled Meats were in fair request to fill moderate orders and prices were unchanged. Dry Salted Meats were in fair demand in a quiet way and prices ruled easier. Smoked Meats called for in fair quantities especially in a jobbing way, and prices were easier. Closing ranged as follows: GREEN—Hams, av 10@12 lbs, 9½@9⅝c, 12@14 lbs, 9⅝@9¾c; 14@16 lbs, 9¼@9⅜c; 18@20 lbs, 9¼@9⅜c; Skinned Hams, 10⅛@10¼c, Shoulders, 6¼@6⅜c; Picnic Hams, 6⅜@6½c; Bellies 10@11c. MONTHLY WEATHER BUREAU REPORT.

WASHINGTON, March 1.—The crop report by the weather bureau says:

The more important features of February, 1904, were excessive precipitation in the Middle and North Pacific Coast districts, unusually light precipitation in the Central Valleys, Central and West Gulf States, lake region New England and Middle Atlantic States; the unusually mild temperatures in the plateau and Rocky Mountain districts and Texas and the decidedly cold weather prevailing in the districts from the Missouri and Central Mississippi Valleys eastward to the Atlantic Coast.

In the Central and West Gulf States the general conditions were favorable for such farm work as is usually carried on at this season In these districts work is unusually well advanced. Corn planting having begun generally throughout Texas, while extensive preparations for Corn and Cotton planting have been made throughout the Gulf States, but more especially in the central and western portions. Some spring seeding has been done in Kansas, Oklahoma and Colorado.

As a whole, the reports regarding Winter Wheat indicate that the condition of this crop is unpromising over much the greater part of the Winter Wheat belt, the most unfavorable reports being received from the Middle and Eastern districts. At the beginning of the month the greater part of the Winter Wheat area was well covered with snow, but only the more northerly portions were protected during the greater part of the month Section summaries were received from the following Middle States:

Illinois—Temperature and precipitation have been below normal; ground well covered with snow during the month in the central and northern district; general condition of Wheat unpromising; some fields damaged, other winter killed; much damp soft Corn remains in hand, and doubt as to fertility of seed is causing concern; meadows and pastures are well preserved in north and central sections, Stock has wintered well; Peach buds have been seriously damaged

Indiana—Condition of Wheat is not encouraging in the north half of the State, where, notwithstanding abnormally high temperature the last two days of February, there are level spots and some entire fields covered with ice, and where uncovered Wheat is small, brown and unpromising; in the south portion Wheat is thin, short and brown and prospects for the crop are poor.

Ohio—With temperature and precipitation deficient, Wheat has been injured by cold weather, the severest occurring when the ground was bare over much of the State, and there is general complaint that the top of the plant is killed and that the fields look quite brown; it is believed that early sown Wheat is the least injured, but the late sown is generally poor.

Michigan—Winter Wheat and Rye have been covered with snow and ice all the month; ice and continued low temperatures have prevented winter growth, and ice smothering may have damaged plants to some extent.

Wisconsin The month has been decidedly cold, with generally light snowfall; winter Grains and grasses are amply protected and considered in good condition; Stock is reported in good condition.

Minnesota—February has been very cold, the minimum temperature below zero nearly every day until the 25th and the maximum below 32 degrees daily till the 27th. With moderate scattered snowfall at the end of the month, the snow covered the whole State from about three inches in the southwest to much greater depths in the northeast

Iowa—The month has been cooler than usual, with generally light precipitation, conditions fairly good for farm operations and the care of Stock; fall Wheat and Rye have had light snow covering during the period of lowest temperature.

North Dakota—Continued low temperatures, and heavy snow all over the Stock-raising region of the State have caused considerable loss of Stock, and conditions are now getting serious; the supply of Hay is almost exhausted and grazing on the ranges very difficult; feed is poor.

South Dakota—Unusually continuous cold, especially in the north portion, was somewhat unfavorable to Live Stock on open ranges and accumulated snow in the eastern portion necessitates steadier feeding than usual, but no losses of Stock are reported: winter Grain favorably protected by snow, except in the extreme southwest, where some injury from cold is anticipated.

Nebraska—The month was cool and dry, but with no severe storms or cold weather; condition of Winter Wheat has changed very little, but the dry soil is rather unfavorable for the crop; the Wheat plant appears to have lived well and sufficient moisture in March may repair nearly all damage.

Kansas—The month was dry and cold in the north and warm in the south, unfavorable for Wheat, which is in fair condition in the south and central portions and less favorable in the north; plowing and Oat sowing are progressing in the south; Cattle are doing well.

ILLINOIS CROP REPORT.

SPRINGFIELD, March 1.—The following special climate and crop bulletin, covering conditions existing in Illinois the past month, has been issued to-day by the director of the Illinois section of the weather bureau:

The temperature for the month was considerably below normal. The average daily deficiency was about six degrees; low maxima rather than low minima were the characteristics. The month opened cold, with minima below zero in the central and northern sections. Except in the extreme southern portion, freezing temperatures and lower were recorded mostly during the entire month.

Precipitation was deficient It fell mostly in the form of snow or sleet. The ground was well covered, little thawing ensuing, owing to low temperatures, until the latter part of the month, when a general thaw occurred, and the ground was practically bare in the central and southern districts at the end of the month

The general condition of Wheat is unpromising. The plant entered winter under unfavorable conditions, and development has been almost entirely suspended on account of rigorous weather. Some fields are reported to be badly damaged, others winter killed Where the plant has been covered with snow only conjecture is offered with regard to present condition While many favorable reports have been received, a considerable majority report adversely

Much damp, soft Corn remains in the hands of farmers, and opinion is freely expressed that considerable damage will ensue when the weather moderates. Cars are scarce for moving the Grain, and in some instances it is spoiling in elevators. A matter of concern in many localities is vital seed for planting. Much of the Grain was immature before garnering, and experiment has shown that reliable seed will not be plentiful.

Meadows and pastures are well preserved in the northern district and in portions of the central district, but the outlook is not promising in the southern tier of counties. In the latter locality young Clover and Timothy have been injured by alternate freezing and thawing, and some old meadows have been killed out.

Apple buds are believed to be unscathed, but all reports indicate serious damage to Peaches.

Stock has wintered well, but feed is becoming scarce in some localities.

THE WEATHER CONDITIONS.

The weather map shows light snows in Minnesota and Dakotas. No other precipitation—no moisture in Southwest Temperatures in extreme North are low under zero, but temperatures West and Southwest are unseasonably high—above freezing generally. The lack of moisture in Southwest and high temperatures through the Corn belt are the features of the weather conditions.

Indications are that the Western storm will advance eastward over Upper Mississippi Valley, accompanied by rain, turning to snow. Cold wave will follow in the rear.

IMPORTS OF FLOUR AND WHEAT.

ITEMS OF GENERAL INTEREST.

All companies have advanced refined Sugars 5 points.

The American Smelting and Refining Company has advanced price of pig Lead 10c per 100 lbs. In lots of 50 tons or more from $4 40 to $4 50

Chicago Union Stock Yards received 27,235 cars of Live Stock during February, compared with 28,328 cars in January and 23,717 cars in February, 1903.

Chicago Union Stock Yards received 55,553 cars of Live Stock the first two months of the year, compared with 50,810 cars for the same period in 1903.

The directors of the Chicago City Railway Company have declared a dividend of 2¼ per cent. payable March 30 to stockholders of record at the close of business March 14. Transfer books were ordered closed from March 15 to March 19, both inclusive.

Bonded stocks in French ports on Feb. 1 included 1,972,000 bu Wheat, compared with 2,248,000 bu the month previous and 1,288,000 bu a year ago. Besides the bonded stocks, 1,981,000 bu Wheat were held on temporary admission account, against 2,600,000 bu on Feb 1, 1903.

The receipts of Flax Seed in the Argentine for the week ended Jan. 21 were 616,000 bu, against 568,000 bu in the previous week and 484,000 bu in the same week last year. The total receipts from Jan. 1 to Jan. 21 amounted to 1,528,000 bu, against 1,100,000 bu in the previous year.

The receipts of Flax Seed at Bombay for the week ended Jan. 28 amounted to 681 tons, against 824 tons in the previous week and 429 tons in the same week last year. The total receipts at Bombay from Jan 1 to Jan 28 amounted to 3,219 tons, against 1,583 tons in the same period last year.

The shipments of Flax Seed from India from April 1 to date amounted to 17,872,000 bu (Calcutta 11,760,000 bu and Bombay 6,12[illegible],000 bu), against 12,568,000 bu last season (Calcutta 8,736,000 bu and Bombay 3,832,000 bu), and 14,080,000 bu in 1901-2 (Calcutta 10,480,000 bu and Bombay 3,600,000 bu).

An official bulletin for Italy says that the weather in the first ten days of February was mild and very wet, especially in Northern Italy. The Wheat crop was not unfavorably affected except in those parts where the heavy rains of December and January had already had a bad influence. Plowing for the Corn crop has been done when the weather permitted.

The San Francisco *Weekly Commercial News* of Feb. 25 says: "The recent rains have made great improvement in the crops, and the outlook now is for good yields in all parts of the State, but the extreme southern part of the San Joaquin and the South, and even there fair crops will be harvested if the spring rains are abundant." (Further rains occurred Sunday, Feb. 28 —Ed.).

Siebert, Good & Co. and S. H. Knox & Co., the two largest 5c and 10c syndicates in the country, have merged The new firm controls fifty-five stores, there being at least one in nearly every large city in the country. Siebert, Good & Co has its headquarters in Chicago, while Buffalo is the home of the S. H Knox Company, whose name the new firm takes. Capital stock, $4,000,000.

Average weight of Live Stock at Chicago for months mentioned follows.

	Feb., 1904.	Jan., 1904.	Feb., 1903.	Feb., 1902.	Feb., 1901.
Hogs	205	206	209	206	222
Cattle	1,080	1,086	1,064	1,007	1,115
Sheep	89	93	96	93	94

The average weight of Hogs here last month was about the lightest on record for February, yet only 4 lbs lighter than a year ago.

Judge Sanborn in the United States Court of Appeals, February 29, decided the Chicago, Great Western Railroad had the right to enter Omaha from Council Bluffs over the bridge of the Union Pacific Company. The Great Western is also given the right to use the passenger station of the Union Pacific in Omaha, and the use of the tracks of the latter company from Council Bluffs and Omaha to South Omaha, where the big packing industries are located.

The San Francisco *Weekly Commercial News* of Feb. 25 says "The California Hop market holds firm, but unchanged, little business passing owing to the depletion of stocks in growers' hands. Reports from Washington state that stocks are cleaned up more closely than ever before. In Western Washington there are left about 100 bales, 150 bales in Yakima, and 1,500 bales in dealers' hands, sold but unshipped. The Washington acreage will be increased about 10 per cent."

The Chicago *Drovers' Journal* says: "Some buyers anticipate a big movement of Lambs from Michigan as soon as weather warms up, as many feeders have been compelled to hold their Lambs back longer than they would had conditions for shipping out been normal. They doubt the statements that half or more of the stock of Lambs in Michigan has already been shipped out, and express the belief that prices for the best Lambs can be held down around the $6 00 point or forced lower during the month of March"

Berrbohm of Feb. 16 says: "The Argentine Wheat crop of 1902-3, which was officially estimated early in the season at 3,102,000 tons, is now definitely put at 100,000,000 bu on 8,700,000 acres, thus giving an average yield of 11½ bu per acre, or about 10 per cent above the average yield in 1901-2, and 5 per cent below that of 1900-1. The area under the crop of 1903 4 is now definitely given at 10,480,000 acres, and the average yield is estimated at about 12 bu per acre, giving thus a total crop of about 125,000,000 bu, and a surplus of about 92,000,000 bu, against 65,600,000 bu last year."

The *Mark Lane Express* of Feb. 15 says: "The valentine which February presented to the British farmer on Sunday consisted of two inches of rainfall for the first fourteen days of the month. The average for the twenty-eight is just two inches. The state of the fields, the roads, and the stacks is alike deplorable, and the losses of agriculturists are becoming so serious that a special inquiry is beginning to be suggested. The outbreak of war between Japan and Russia has only advanced prices by 6d per quarter, and the general depression has not been appreciably lifted"

The net earnings of the United Box Board Company for January of $35,000 are reported satisfactory to the management, as the mills of the combination were shut down for ten days of the month. The net earnings of the combined mills for 1903 amounted to $418,000. This sum was earned in four months and $109,000 of it was earned in October, 1903. It is expected that by the first of March the trade for the new year will be well under way, and that every mill in the combination will have little difficulty in marketing its product at profitable prices.

Dornbusch of Feb. 15 says of the French crops: "We have had a week of mild and rainy weather. The storms seem to have caused a fair amount of damage in some districts. A period of dry weather is absolutely necessary for the March sowings, which this year will be on a larger scale, as a considerable area formerly under Beets is to be put under Wheat. On the other hand, the area sown with Winter Wheat has this year, according to official figures, been smaller than last year. Vermin and slugs have caused some damage to growing crops, especially in the midland and Beauce Provinces. In spite of complaints, however, the cereal crops, taken as a whole, can be said to be in a satisfactory condition."

Justice Leventritt in the New York Supreme Court, Friday, refused to confirm the sale of the property of the National Salt Company for $337,500 to the International Salt Company. The sale was made in Ithaca on Sept. 16 last. Justice Leventritt held that proper notice of the sale had not been given, and that certain facts were withheld from Justice Bischoff when he ordered the sale. "The terms of the sale and the manner of their presentment, the method of the sale and the manner of bidding, and the gross and patent inadequacy of the price realized combine to shock the conscience of the court, precluding any affirmative act of approval on its part," said Justice Leventritt. He also refused to restain a sale of the property if the terms were changed and greater publicity was given.

It is officially stated that the large increase in the United States Leather Company's surplus as of Jan. 1, 1904, in comparison with the same date the previous year, is principally due to the reappraisal of the company's timber and bark lands, as was outlined in the official circular issued last May. It is also stated that the decrease in "advances to other companies" as of December 31 last is due to the fact that these companies were able to sell their bark at higher prices, and therefore it was not necessary for them to call on the United States Leather Company for as much money as in the previous year. The reappraisal referred to above appears in "stocks of other companies," which are represented by tannery plants, saw mills, railroads, bark, timber and lands in fee, bark contracts, bark at tanneries, personal property, betterments of stock in process of tanning, cash and sundry debtors.

The Pennsylvania State Supreme Court, Monday, decided that a purchaser of stock on margin who gave a due bill to cover the margin, but who afterward repudiated the transaction on the ground that it was a "bucket shop" or gambling transaction must pay the stock broker the amount of the due bill. The brokerage firm through which the transaction was made denied intention to gamble, and claimed that it was in a position to deliver the stock at any time when called upon. Discussing "bucket shops" the opinion says: "The 'bucket shop' is the product of the speculative spirit. Its name may possibly spring from the diminutive character of the operations there conducted. The definition that a 'bucket shop' is the place where wagers are made on fluctuations of the market as stated in a Federal Court opinion may be correct, but a place should not necessarily stamp its character upon a particular transaction, when it is shown the broker is ready to deliver the stock purchased The allegation that the broker conducted a 'bucket shop' has no substantial warrant, and may be characterized as extravagant.'

Clarence H Mackay, president of the Commercial Cable Company, Monday, addressed a circular letter to the stockholders of that company inviting the deposit of their stock for exchange for shares in a trusteeship created under the laws of Massachusetts, under the name of the Mackay Companies. The capitalization of the Commercial Cable Company, which also owns the Postal Telegraph and Cable Company, is $15,000,000, upon which 8 per cent dividends are paid The Mackay Companies has authorized for exchange for this stock $30,000,000 par value of its own 4 per cent cumulative preferred shares and a like amount of common shares, so that each stockholder in the cable company will receive for his holdings 200 per cent in the preferred and 200 per cent in the common shares of the new concern The Mackay Companies is an investment trust designed by Mr. Mackay to perpetuate the name of his father, to provide for the development of the companies which he founded, and to safeguard upon an even basis with his own the interests of those who have invested capital in the enterprises with which John W. Mackay was most conspicuously identified. The plan is practically an accomplished fact, a large majority of the Commercial Cable stock already having been deposited under the agreement.

ITEMS OF GENERAL INTEREST.

New York Exchange 80c discount.

Documentary Sterling firm at 483¼.

Chicago Bank Clearings to-day, $31,924,657

Consols closed ⅛ lower at 87⅛ for money and 85¼ for account.

The minimum rate of discount of Bank of England is unchanged at 4 per cent

The Kansas City Star estimates the farm reserves of Wheat in Kansas at 17,000,000 bu.

Arrangements have been made for the shipment of $150,000 Gold from New York to Argentina.

Nine packers purchased 16,400 Hogs to-day; shippers 5,000; left over, 13,000. Market closed weak.

Estimated receipts for to-morrow are: Wheat, 25 cars; Corn 180 cars; Oats. 190 cars; Hogs, 24,000

A Board of Trade membership sold at $3,875 net to the buyer. This is equal to $3,750 net to seller.

Reported that 176,000 bu Wheat, 112,000 bu Corn and 50,000 bu Oats were taken at seaboard to-day for export.

Average cost price of Hogs at Chicago, Wednesday, was $5 23, against $5 36 Tuesday, $5 42 a week ago, and $7 19 a year ago.

Top Cattle prices at leading markets, Wednesday, were: Chicago, $5 05; Kansas City, $5 25; St. Louis, $5 15, and Omaha and St Joseph, $4 85.

The Fortnightly Settlements in Paris are keeping the Stock market dull in New York. It is expected all transactions will pass over smoothly.

Cotton in New York was bought by the leader. The news was "bullish" and prices averaged materially higher. The market closed 9@16 points higher.

Twin City Rapid Transit Company declared the usual quarterly dividend on its preferred stock, payable April 1. Books close March 19, and reopen April 2.

Broomhall's agent at Agra, India, cables that heavy rains have fallen in the Central and United Provinces, and the Wheat crop is in splendid condition.

The *Northwestern Miller* says: "The most satisfactory news contained in our cables to-day is that in the new tariff bill of Holland Flour is placed on the free list."

Local Securities were slow and the feeling unsettled. Biscuit and West Chicago Railway advanced, and Radiator and Metropolitan Elevated preferred declined.

There is a difference of 400,000 bu in the stock of Oats in Chicago in the quantity reported by the Registrar and the report in the visible supply—the latter too large.

One reason for the recent break in Hogs is the fact that Chicago prices have been much higher than at outside markets. Tuesday's packing droves here cost 32@36c more than at Kansas City and Omaha.

The National Packing Company, which is controlled by the other packers and is looked upon as the company that will eventually run all the big packing plants, has bought the last packing-house owned by the International Packing Company, Chicago.

The prices of all crude oils were cut 3c per barrel on the high grade product and 5c on the heavy grades in Kentucky and Kansas Tuesday. No cause for the reduction is apparent except that drilling will be more active in the spring and production is expected to increase

In the New York Stock market there was a good absorption of Alton common, which advanced 1¾, but reacted 1½. The entire list was stronger and averaged higher, on small trading. Railway shares gained ¼@¾, and the Industrials ⅛@1½. Money easy at 1¾ to 2 per cent.

The St. Louis Circuit Court of Appeals, Tuesday, decided that a person who loses money in a bucket shop transaction on margins cannot recover. The court says it is a general rule of law that the loser, voluntarily paying to a winner the stake lost, cannot recover in the absence of express special statutory enactments conferring such right of action.

The Cincinnati *Price Current* reports the packing of the West for the week at 565,000 Hogs, compared with 515,000 for the week previous, and 425,000 for the corresponding week in 1903. Aggregate packing since November 1 reported at 9,120,000 Hogs, compared with 8,605,000 for the corresponding time last year—an increase of 515,000 Hogs.

The Cincinnati *Price Current* in its weekly crop summary says: "Nothing has essentially changed the Wheat crop outlook. Position admits of favorable development of the retarded growth under good weather, while adverse influence would justify apprehension as to results. There is increasing tendency to Wheat movement Large seeding of spring crops is anticipated "

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is a little unsettled, owing to wide fluctuations in Wheat. Buyers disposed to await more settled conditions and sales very moderate.

WINTER WHEAT—Ruled dull and quotably 1c to 4c lower—the poorer lots suffering the greatest decline. Demand at best was rather slack, and for poor Wheat very dull. Buyers all more or less timid. Several lots carried over for want of reasonable bid. No. 2 Red in store quotable at 95¾c@$1 02½, and fresh arrivals free on board quotable at $1 01@1 06. No. 3 Red fresh arrivals free on board sold at 98c@$1 02½. No. 4 Red sold at 65@80c. No. 2 Hard at the river quotable at 90@94c. No. 3 Hard local sold at 85@93c, and at the river quotable at 80@92c. No. 4 Hard local sold at 78@85c. No. 2 White sold at $1 02½, and No 3 White sold at same price.

SPRING WHEAT—Quiet and quotably 1@4c lower. Not enough doing to establish quotations. Receipts small and buyers indifferent about purchasing. Demand very limited. No. 1 Northern in store quotable at 93¾@97¾c, and fresh arrivals free on board quotable at 98c@$1 01. No. 2 Northern fresh arrivals quotable at 93@98c. No. 3 Spring ranged at 85@97c No. 4 Spring sold at 65c and and quotable at 60@88c for poor to good.

REGULAR WHEAT—Was active and decidedly weaker, with last prices showing the May off 2¼c, while July lost 1⅞@2c and September 1⅝c. The start was stronger, influenced chiefly by the severe drop in temperatures through the Winter Wheat belt. Prominent professionals led in the buying the impression prevailing that the "bull" party was again getting around to the "long" side of the market. Temperatures West dropped 40@50 degrees over night, and crop news from the Southwest was generally "bullish" Receipts in the Northwest were 69 cars under last year, and Winnipeg had only 53 cars, against 242 cars same date in 1903, but this showing was partially due to the blizzard At the improvement in values, "long" property come on the market, commission houses selling freely, part of which was credited to the "bull" party in May. Cables were rather indifferent to yesterday's advance on this side Liverpool quoted spot steady to ½d lower and futures unchanged to ⅛d higher. London came ⅛@¼d better and Paris ⅛@½c higher. Antwerp was unchanged Berlin 1⅜c higher and Buda Pesth ⅛c higher. Primary receipts were 267,000 bu ahead of 1903 and exports very moderate with twenty-two boat loads accepted at the seaboard. Kansas City and St Louis received 238,000 bu; last year 54 000 bu; shipments were 257,000 bu. Argentine shipments were estimated at 3,800 000 bu and it was said they would be only half this amount next week Liverpool cabled it would be impossible to replenish Russian seaboard stocks before the middle of April, also that the Argentine strike was serious. Rosario, Argentine, cabled that the visible supply of Wheat was nearly exhausted and the weather unsettled with rain. Liverpool cabled that heavy rains had fallen in India and that the Wheat crop was in splendid condition. Flour output for the week 503 000 brls, against 419 000 brls same week in 1903. Minneapolis figured Wheat decreased 150 000 bu so far this week. Receipts there are expected to fall off owing to the severe storms. British consols closed two sixteenths lower Fair and cold weather is indicated for to-day, to be followed by milder conditions Receipts at Duluth 32 cars and at Minneapolis 196 cars, a total of 228, against 372 cars yesterday, 2 3 cars a week ago and .97 cars last year. Local receipts included 19 cars Winter, 10 cars Spring and 3 cars mixed, a total of 32 cars, against 16 cars last year. Included in the above was none of contract grade. There were 21 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 25 cars Withdrawals were 1,000 bu. Receipts at Western points were 593,469 bu against 486,480 bu last year. At Eastern points 82,620 bu, against 66,129 bu last year. Shipments from Western points were 377,000 bu, against 156,038 bu last year, and from Eastern points 23,346 bu, against 38,285 bu last year. Shipments of Flour were 34,084 brls. Exports of Wheat in Flour were equal to 266 969 bu.

Future Deliveries of Regular Wheat—Active trade at lower prices.

MARCH—Entirely nominal; closed at about 94c.

MAY—Sold at 96¾@$1 00¾. Opened with sales at $1 00 to $1 00½; sold to $1 00¾, to $1 00, to $1 00¼, to 100½c, to $1 00¼c, to 99c, to 99½c, to 98⅞c, to 98¾c, to 98c, to 98¼c, to 96¾c, to 97¼c, to 97c, and closed at 97c

JULY—Old Style—Sold at 92¼c and at 95¾@95⅞c. Opened with sales at 95⅛c to 94¾c; sold to 95c, to 95¼c, to 95c, to 95½c, to 95⅜c, to 95¾@95⅞c, to 95¼c, to 95⅛c, to 94⅜c, to 95¼c, to 93⅜c, to 94⅛c, to 93½c, to 93¾c, to 92¾c, to 93c, to 92¼c, to 93⅛c, and closed at 93⅛c.

JULY New Style—Sold at 91¼c and at 94⅜@94⅞c. Opened with sales at 94c to 94¼c; sold to 94⅛c, to 94c, at 94⅜@94⅞c, to 93⅜c, to 94¼c, to 92½c, to 93⅛c, to 92½c, to 92¾c, to 92½c, to 92¾c, to 91⅝c, to 93c, to 91¼c, to 91½c, to 92¼c, and closed at 92¼c.

SEPTEMBER Old Style—Sold at 86½@89⅜c. Opened with sales at 88¾c to 89c, sold to 88⅞c, to 88¾c, to 89⅜c, to 88⅜c, to 88c, to 88⅝c, to 87¼c, to 87½c, to 87⅛c, to 87½c, to 87c, to 87⅛c, to 86½c, to 87c, and closed at 87c.

SEPTEMBER—New Style—Sold at 85⅛@88⅜c. Opened with sales at 87⅛c to 88⅛c; sold to 87⅝c, to 88⅜c, to 87c, to 87⅛c, to 86¼c, to 86⅞c, to 85⅞c, to 86⅛c, to 85⅛c, to 86c, and closed at 86c.

CORN—Was active with a heavy trade, the market being very nervous Prices were greatly unsettled, with final figures 2½@2⅝c lower for May, 2¾c easier for July, while the September lost 2½c. Initial trades were at fractional advances, local temper being "bullish," influenced chiefly by the early tone of Wheat. Room traders and professionals bought freely, also commission houses, but when this demand was satisfied the price quickly receded, May breaking 3c and July 3c. The reaction in Wheat colder weather, which is expected to help the grading, and easier cables were among the "bear" factors. Liquidation and stop loss orders were features. Liverpool quoted spot unchanged to ¼d lower and futures ⅛@½d lower. Receipts were 177 cars, and 180 cars are estimated for to-morrow. The Argentine shipments this week were estimated about 800,000 bu. Market acted as though professionals bought too freely at the opening. Southwestern markets were weak, St. Louis showing most decline. Receipts at Western distributing centers were 423,000 bu, against 579,000 bu one year ago. Shipments were 394,000 bu and 445,000 bu respectively. Exports were quite liberal, 565,000 bu, and 14 boat loads accepted at the seaboard. Local arrivals were 176,000 bu, and shipments 196,000 bu. Transfers from private to public elevators 143 cars and 15 850 bu. Temperatures dropped 40 to 50 degrees West. Fair and continued cold predicted to-day, to be followed by warmer conditions Shipping demand still moderate and sales small. Car lots were weak and prices about 1c lower. Offerings fair and demand only moderate. No 2 closed at 49c and No 2 Yellow at 50c No. 3 closed at 42@48½c. No. 3 White sold at 41½c. No. 3 Yellow sold at 51c for old and closed at 43@49½c. No. 4 sold at 39c and No Grade at 30c.

Corn by sample—Opened steady and then broke and closed about 1c lower, except for No Grade, which averaged about 1c higher than yesterday. Offerings moderate and demand tame. Sales on track and free on board: No Grade sold at 30½@35c. No. 4 at 33½@41½c No 3 at 42@48c. No. 3 Yellow at 41½@51c. No 3 White at 41@42c. Ears dull and slow sale and sold at 39@40c Billed through: No Grade at 30@32½c. No. 4 at 38@41c. No 3 at 41¼@42c. No. 3 Yellow at 44@44½c. No. 3 White at 41½c.

Future Deliveries of No. 2 Corn—Active. Opened firm and then broke badly, closing 2½c to 2¾c lower.

MARCH—Inactive and closed at 49⅝c.

MAY—Sold at 52½@55½c Opened at 55⅛c to 55c and sold at 55⅛c to 54⅞@55c, to 55⅜c, to 55¼c, to 55½c, to 55c, to 55⅛c, to 54½c, to 54⅞@55c, off to 52½c, to 53¼c, to 52½@52⅝c, to 52⅝c, and closed at 52⅝c.

JULY—Sold at 51⅛@54⅛c. Opened at 54⅛c to 54c, and sold to 53⅞c, to 54⅛c, to 54c, to 54⅛c, to 53⅛c, to 53¼c, to 53c, to 53½c, off to 51¼c, to 51¼c, to 51⅛c, to 51¼@51⅜c, to 51¼c, and closed at 51¼c.

SEPTEMBER Sold at 50⅛@53c Opened at 52⅞@53c to 52¾c, and sold at 53c, to 52⅛c, to 52¼c, to 52c, to 52¼c, off to 50¼c, to 50¾c, to 50⅛c, to 50¼c, and closed at 50¼c.

OATS—There was weakness and lower prices. There was a decline of 1¼@2⅛c, and the close at a loss of 1⅛@2c. Selling by the leading holders and poor support was the feature. It brought out "long" stuff from other holders and there was too much coming out all the time for prices to have a good rally The close was at nearly the bottom Shipping business was light and the break in Wheat and Corn, there was a "bearish" feeling. Sales for shipment 50,000 bu here and 50,000 at the seaboard. Arrivals were 260 cars, with 190 cars estimated for to-morrow There was also 77,700 bu and 31 cars Standard from private elevators. Withdrawals from regular houses were 5,300 bu. Seaboard clearances were 35,000 bu Car lots to go to store were weaker and closed ½c to 1c lower. No. 4 White sold at 39½@40c. Standard closed in store at 38½@39c as to location.

Oats by sample were steady early, but closed weak and ½@1c lower There were moderate offerings and the demand was not so sharp as of late. Sales on track and free on board: No. 4 at 33½c. No 4 White at 37@43½c. No 3 at 39@40½c. No. 3 White at 40@43¼c. Standard at 43½c. No. 2 at 39½@40¼c. No 2 White at 43½c. Billed through: No 4 White at 39½c. No. 3 White at 41½c. At the river: No. 4 at 35@36½c. No. 4 White at 32@40½c. No. 3 White at 39@41c. No 2 at 39c.

Future Deliveries of Contract Oats—Were weaker and closed lower.

MARCH—Dull at 2c under May. Closed at 38½@38⅝c

MAY—Active but weak. Sold at 40¼@42½c Opened at 42⅜c to 42¼c, sold to 40¼c, to 40½c, to 40⅝c at the close

JULY—Was active and lower. Sold at 38@39¾c. Opened at 39⅝c to 39¾c, sold to 38c, and closed at 38¼c

SEPTEMBER—Active. Sold at 33½@34¼c. Opened at 34⅛c to 34¼c, sold down to 33½c and closed at 33½@33⅝c

RYE Ruled weaker and prices ½c lower Demand light and offerings moderate. The weakness in other Grains affected the market. The receipts were 12 cars and none taken out of store. No export clearances from the seaboard. No. 2 in store nominally 73½c, and fresh arrivals free on board quotably 74@75, with a sale at the river at 73½c. No. 3 fresh arrivals sold at 65c.

Future Deliveries of No. 2 Rye Ruled easier and ½c lower. May sold at 76c, to 75½c, and closed at 75½c bid July sold at 75c, and closed at 75c sellers
